Comment

Terry Burman, Group Chief Executive, commented, The period illustrated the benefit the Group derived from its c.70% US / 30% UK sales mix. Our US business performed particularly well which compensated for very difficult trading conditions in the UK. Although facing strong comparatives Group like for like sales were up 3.3% in both the second quarter and the six month period.

Note 2 - Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as constant exchange rates throughout this release. The Group considers this to be a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales at constant exchange rates, including a reconciliation to the Group's GAAP sales, is shown below.
