CORPORATE GOVERNANCE

The Board of Directors held five meetings during fiscal 2007. No director of the Company attended fewer than 75% of the total meetings of the Board of Directors and committee meetings on which such Board member served and was eligible to attend during this period.

Because American Software owns more than 50% of the voting power of the Company, the Company qualifies as a controlled company as defined in Rule 4350(c)(5) of the Nasdaq Marketplace Rules. Please see Voting Securities Security Ownership of Management and Certain Beneficial Owners, below. Therefore, the Company is not subject to the provisions of Rule 4350(c) of the Nasdaq Marketplace Rules that would otherwise require the Company to have (i) a majority of independent directors on the Board; (ii) a compensation committee composed solely of independent directors; (iii) a nominating committee, composed solely of independent directors; (iv) compensation of the Company's executive officers determined by a majority of the independent directors or a compensation committee composed solely of independent directors; and (v) director nominees selected, or recommended for the Board's selection, either by a majority of the independent directors or a nominating committee composed solely of independent directors.

In light of the voting power of American Software, the Board has determined that the Board, rather than a nominating committee, is the most appropriate body for identifying director candidates and selecting nominees to be presented at the annual meeting of stockholders. Each member of the Board participates in this process. It is the view of the Board that this function has been performed effectively by the Board, and that it is appropriate for the Company not to have a separate nominating committee or charter for this purpose. The Board has further determined that it would not be productive to have a fixed policy with respect to consideration of candidates recommended by security holders. However, if a shareholder communication includes a recommendation of a candidate for director, the Board will consider that candidate along with any other candidates for a Board position.

Candidates for membership on the Board are recommended by current members of the Board or management. When evaluating candidates for membership on the Board, the Board considers a number of factors, including:

business expertise and skills;

understanding of the Company's business and industry;

judgment and integrity;

educational and professional background; and

commitments to other businesses and responsibilities.

Stockholders may contact the Board or any of the individual directors by writing to them c/o Mr. Vincent C. Klinges, Chief Financial Officer, Logility, Inc., 470 East Paces Ferry Road, Atlanta, Georgia 30305. Inquiries sent by mail may be sorted and summarized by Mr. Klinges or his designee before they are forwarded to the addressee.

Although the Company does not have a policy with regard to Board members' attendance at the Company's annual meetings of stockholders, all of the directors are encouraged to attend such meetings. All of the Company's directors were in attendance at the 2006 Annual Meeting, except for Parker H. Petit, who was not able to attend.

The Company has adopted a Code of Business Conduct and Ethics, which applies to all directors, officers and employees of the Company, including its Chief Executive Officer, Chief Financial Officer and Controller. The Code of Business Conduct and Ethics is available on the Company's website at http://www.logility.com/about/investor_relations.html.

The Board of Directors has an Audit Committee, which presently consists of John A. White (Chairman), Frederick E. Cooper, and Parker H. Petit. The Audit Committee held two meetings during fiscal 2007, in addition to its consultations with our independent registered public accounting firm and management in connection with review of interim consolidated financial statements. The Rules of the Nasdaq Stock Market (Nasdaq Rules) require audit committees to be composed of not less than three members who are independent, as that term is defined in the Nasdaq Rules. The Audit Committee complies with those requirements.

The Company s Audit Committee Charter outlines the composition requirements of the Audit Committee as described above, as well as its duties and responsibilities. The primary responsibility of the Audit Committee is to provide assistance to the Company in connection with the financial reporting process. The functions of the Audit Committee include making an annual recommendation of independent registered public accounting firm to the Company, reviewing the scope and results of the independent registered public accounting firm s audit, monitoring the adequacy of the Company s accounting, financial and operating controls, reviewing from time to time the Company s periodic financial statements and other financial reports with management and with the independent registered public accounting firm, pre-approving audit services and permitted non-audit services and related fees, and reviewing with management and the independent registered public accounting firm the consolidated financial statements to be included in the Company s annual report. The Board of Directors has determined that John A. White is an audit committee financial expert as defined in the rules of the Securities and Exchange Commission.

The Company has a Stock Option Committee, consisting of James C. Edenfield and J. Michael Edenfield. During fiscal 2007, this Committee acted once by unanimous consent and held no meetings. The functions of this Committee are to consider the grant of stock options under the Company s 1997 Stock Plan to employees other than directors and executive officers and establish the terms of those options, as well as to construe and interpret the Plan and to adopt rules in connection therewith.

The Company has a Compensation Committee, consisting of Frederick E. Cooper (Chairman) and Parker H. Petit. During fiscal 2007, the Compensation Committee met on one occasion and acted once by unanimous consent. The Compensation Committee has authority to establish the compensation of Chief Executive Officer and to consult with the Chief Executive Officer about the compensation of the other named executive officers. In addition, the Compensation Committee, acting as the Special Stock Option Committee, has the authority to grant stock options to the Chief Executive Officer and the other named executive officers under the Company s 2001 Stock Option Plan. See Executive Compensation Compensation Discussion and Analysis, below, for a further discussion of the Compensation Committee and the functions it performs.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

We believe that attracting, retaining and motivating effective executive officers is critical to the overall success of our business. To achieve these goals we have adopted executive compensation programs that we have designed to reward performance and emphasize the creation of shareholder value. Our Compensation Committee and Chief Executive Officer are responsible for establishing executive compensation policies and overseeing executive compensation practices. In the following Compensation Discussion and Analysis we describe the material elements of compensation for our executive officers identified in the Summary Compensation Table (the "named executive officers"). Our named executive officers are: J. Michael Edenfield, President and Chief Executive Officer; H. Allan Dow, Executive Vice President of Sales and Marketing; Vincent C. Klinges, Chief Financial Officer of the Company and of American Software, Inc.; and Don Thomas, Vice President, Customer Service. Please see the Summary Compensation Table below for detailed components of their fiscal 2007 compensation.

Oversight of Compensation Program

The Compensation Committee of the Board (the "Committee") is responsible for establishing and reviewing the overall compensation philosophy of the Company. The Committee and the Chief Executive Officer together review and establish executive compensation plans. The Committee and the Chief Executive Officer share these responsibilities in the manner described below.

Role of Compensation Committee. The Committee reviews and establishes all elements of compensation of the Chief Executive Officer. The Committee also reviews and consults with the Chief Executive Officer about salaries and other compensation of the other executive officers and acts as the stock option committee with respect to stock option grants to all executive officers, including the Chief Executive Officer. In making decisions about stock option grants, the Committee obtains from American Software information about, and takes into consideration, stock option grants made or proposed to be made by American Software under its own stock option plan to the named executive officers of the Company.

Role of Chief Executive Officer. The Chief Executive Officer reviews and establishes all non-equity related elements of compensation of the executive officers of the Company and its subsidiaries, other than his own compensation. With respect to the major elements of executive compensation plans, the Chief Executive Officer consults with and seeks input from the Committee. The Chief Executive Officer has no direct authority in connection with stock option or stock appreciation rights awards to executive officers, but makes recommendations to the Committee regarding levels of awards to specific individuals.

J. Michael Edenfield. J. Michael Edenfield is Chief Executive Officer of the Company and also serves as Executive Vice President of American Software, which owns 88% of the common stock of the Company. American Software's common stock is publicly held and is listed on the Nasdaq Stock Market. As Mr. Edenfield's day-to-day responsibilities focus primarily on Logility, the Compensation Committee of the Logility board of directors, by mutual agreement between the Company and American Software, has assumed responsibility for establishing most of the primary elements of his compensation, including his salary, annual bonus plan, participation in the Logility stock option plan and other employee benefits. The American Software compensation committee retains the authority to grant stock options to Mr. Edenfield under the American Software stock option plan, and communicates with the Logility compensation committee in order to coordinate stock option decisions.

Vincent C. Klinges. Vincent Klinges serves both as our Chief Financial Officer and as Chief Financial Officer of American Software. By mutual agreement between the Company and American Software, American Software establishes Mr. Klinges' salary, annual bonus plan, participation in American Software's stock option

Table of Contents

plan and other employee benefits. The Logility compensation committee retains the authority to grant stock options to Mr. Klinges under the Logility option plan, and communicates with the American Software compensation committee in order to coordinate stock option decisions.

Executive Compensation Philosophy

We believe that a compensation program which promotes our ability to attract, retain and motivate outstanding executives will help us meet our long-range objectives, thereby serving the interests of the Company's shareholders. Our executive officer compensation program is designed to achieve these objectives:

Provide compensation opportunities that are competitive with those of companies of a similar size.

Create a strong connection between executives' compensation and our annual and long-term financial performance.

Include above-average elements of financial risk through performance-based incentive compensation that offers an opportunity for above-average financial reward to executives.

Design incentive compensation benchmarks that closely align the interests of executive officers with those of our stockholders.

Elements of Compensation

Base Salaries. We establish the salaries of our named executive officers at levels that we believe are, when viewed in conjunction with their potential bonus income and stock option grants, competitive and reasonable in light of their experience, prior performance and level of responsibility. The Committee reviews and establishes the salary of our Chief Executive Officer, while the Chief Executive Officer reviews and establishes the salaries of our other officers, including the named executive officers, except that the compensation committee of the American Software Board of Directors establishes the salary of our Chief Financial Officer, Vincent C. Klinges, who also is a named executive officer of American Software.

Salaries of our named executive officers in fiscal 2007 are shown in the Salary column of the Summary Compensation Table, below.

Incentive Compensation. Each of our named executive officers has a bonus plan established during the first quarter of a fiscal year, covering that fiscal year. The Committee establishes the bonus plan for our Chief Executive Officer. Our Chief Executive Officer establishes the bonus plans for our other officers, including the other named executive officers, except that the compensation committee of the American Software Board of Directors establishes the bonus plan for our Chief Executive Officer, Vincent C. Klinges. In each case, the bonus plan is customized for the individual executive officer. We use these bonus plans, in tandem with stock option grants, as tools to attract and retain qualified executives while at the same time aligning their interests with those of our stockholders. To accomplish this, we establish bonus plans with attainable goals, using formulas tied to important factors that positively affect return on investment.

The following summarizes the incentive compensation arrangements for the named executive officers in the fiscal years ended April 30, 2007 and 2008:

J. Michael Edenfield. For fiscal 2007, the Committee established his base salary at \$275,000 and approved certain perquisites, as set forth in the Summary Compensation Table, above. The Committee and Mr. Edenfield also agreed that he would have the opportunity to receive a bonus targeted at \$350,000, based upon the Company's achieving a specified target level of operating earnings, with a total potential bonus of \$550,000. Based upon operating earnings actually achieved during fiscal 2007, Mr. Edenfield received a bonus of \$389,266. For fiscal 2008, the Committee has established an incentive compensation plan for Mr. Edenfield similar to the plan in effect for fiscal 2007, providing for higher benchmark targets and a potential bonus targeted at \$370,000, based upon the Company's achieving a specified target level of operating earnings, with a total potential bonus of \$600,000.

Table of Contents

H. Allan Dow. For fiscal 2007, the Company established an incentive compensation plan whereby Mr. Dow was eligible for a potential bonus targeted at \$220,000, based upon the Company's achieving specified target levels of license fee revenues and operating earnings. Based upon results achieved during fiscal 2007, he received a bonus of \$115,428. For fiscal 2008, the Company has established an incentive compensation plan for Mr. Dow similar to the plan in effect for fiscal 2007, providing for higher benchmark targets and a potential bonus targeted at \$240,000.

Vincent C. Klinges. For fiscal 2007, Mr. Klinges received a bonus equal to 2.25% of the increase in operating profit of American Software in fiscal 2007 over fiscal 2006, excluding stock option-related expenses, with a maximum bonus of \$60,000 and a minimum bonus of \$7,500, provided that he remained with the Company on May 30, 2007. For fiscal 2008, his bonus arrangement remains the same, except that the maximum bonus is increased to \$75,000 and the minimum bonus is increased to \$9,000, and his continuation requirement is extended to June 30, 2008.

Donald L. Thomas. For fiscal 2007, the Company established an incentive compensation plan whereby Mr. Thomas was eligible for a potential bonus targeted at \$55,000, based upon the Company's achieving specified target levels of services and maintenance revenues (excluding Distribution Management license fees) and operating earnings. Based upon results achieved during fiscal 2007, he received a bonus of \$45,229. For fiscal 2008, the Company has established an incentive compensation plan for Mr. Thomas similar to the plan in effect for fiscal 2007, providing for higher benchmark targets and a potential bonus targeted at \$60,000.

Bonuses paid to our named executive officers in fiscal 2007 are shown in the Bonuses column of the Summary Compensation Table, below.

Stock Option Plan. The Committee, which is responsible for grants of stock options to the named executive officers, believes that granting stock options to executive officers is an effective means to reward them for their prior performance, to serve as incentive for promotion of Company profitability and other long-term objectives, and to maintain their overall compensation at competitive levels. Thus, option grants reflect both a retrospective and prospective approach to executive compensation. As compared to executive bonus plans, stock options address longer term compensation and incentives. To establish option grant levels, the Committee has monitored developments and trends among publicly held technology companies regarding equity and non-equity based incentive compensation. The Committee continues to believe that stock options represent the most efficient and effective means for the Company to achieve the compensatory and incentive objectives referred to above. The Compensation Committee has the authority, under both the current and proposed Stock Plans, to award stock appreciation rights (SARs) in addition to stock options. To date, the Committee has not awarded any SARs.

The Committee typically grants stock options to executive officers once annually, typically during the months of June or July, while the salary and bonus plans for executives are being considered and finalized. The option exercise prices are fixed as of the close of trading of our common stock on Nasdaq on the date on which the Committee meets to finalize its option decisions, which is the date of grant. Options granted to executives during fiscal 2007 and fiscal 2008 have terms of six years and vest ratably over a five-year period.

Personal Benefits and Perquisites. We provide a variety of health, retirement and other benefits to all employees. Our executive officers are eligible to participate in the benefit plans on the same basis as all other employees. These benefit plans include medical, dental, life and disability insurance. Our executive officers do not receive any personal benefits or perquisites that are not available on a non-discriminatory basis to all employees except for limited supplemental insurance expense reimbursement and except for perquisites that the Committee has approved for J. Michael Edenfield. The perquisites of the named executive officers in fiscal 2007 were as set forth in the All Other Compensation column and footnote 2 to the Summary Compensation Table, below.

Pension Benefits. We do not provide pension benefit plans to our employees or to our named executive officers.

Table of Contents

Non-Qualified Defined Contribution or Other Non-Qualified Deferred Compensation Plans. We do not provide non-qualified contribution plans or other non-qualified deferred compensation options to any of our employees or to our named executive officers.

Stock Purchase Plan. We formerly had in place a stock purchase plan for our employees, providing to them an opportunity to acquire our shares at a discount to market prices. We discontinued this plan several years ago after concluding that the cost of maintaining and accounting for such a plan exceeded the benefit that we perceived our employees gained from such a plan.

Impact of Regulatory Requirements

Section 162(m) of the Code generally disallows a tax deduction to a public company for compensation in excess of \$1 million paid to the company's chief executive officer and any other executive officer required to be reported to its stockholders under the Exchange Act by reason of such executive officer being one of the four most highly compensated executive officers. However, qualifying performance-based compensation is not subject to the deduction limitation if certain requirements are met. Section 409A of the Code provides for certain requirements that a plan that provides for the deferral of compensation must meet, including requirements relating to when payments under such a plan may be made, acceleration of benefits, and the timing of elections under such a plan. Failure to satisfy these requirements will generally lead to an accelerated of timing of inclusion in income of deferred compensation, as well as certain penalties and interest.

Although we consider the tax implications of Section 162(m) and Section 409A of the Code, we do not have a formal policy in place requiring that part or all compensation must qualify under these sections, in order to preserve flexibility with respect to the design of our compensation programs.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management, and based on the Committee's review and discussions with management, has recommended to the full Board of Directors that the Compensation Discussion and Analysis be included in the our annual report on Form 10-K for the year ended April 30, 2007, as well as the Proxy Statement for the 2007 Annual Meeting.

Respectfully submitted by the Compensation Committee of the Board of Directors

Fredrick E. Cooper (Chairman)

Parker H. Petit

Compensation Committee Interlocks and Insider Participation

Messrs. Cooper and Petit have been selected by the Board of Directors to serve on the Compensation Committee. Neither member of the Committee was an officer or employee of the Company or had any relationship with the Company requiring disclosure under Securities and Exchange Commission regulations.

Employment Agreements

We do not have formal employment contracts with our executive officers covering compensation matters. Accordingly, we set their compensation annually, under compensation plans individualized for each executive officer.

Change of Control Agreements

We do not have contracts that provide for compensation of our executive officers, or any of our other employees, that are triggered by change of control events. Stock option grants to our employees do, however, include provisions that cause the vesting of those options to be accelerated in the event of a change of control, as defined in our stock option plan.

Stock Option Plans

Logility, Inc. 1997 Stock Plan. We have outstanding stock options granted under the Logility, Inc. 1997 Stock Plan. This plan terminates effective August 7, 2007 and is proposed to be replaced with the Logility, Inc. 2007 Stock Plan, as discussed in Proposal 2: Adoption of 2007 Stock Plan, below. Options outstanding under the 1997 Stock Plan will remain in effect, but following the termination of that plan we will not be able to grant new options under that plan.

The 1997 Stock Plan was adopted by the Board of Directors, approved by the sole stockholder of the Company in August 1997 and amended by the stockholders of the Company at the 1998 and 2006 Annual Meetings. Up to 1,600,000 shares of Common Stock (subject to adjustment in the event of stock splits and other similar events) may be issued pursuant to stock options granted under the Plan. Up to 300,000 stock appreciation right (SAR) units may be granted under the Plan, each SAR unit being equivalent to the appreciation in the market value of one share of Common Stock.

Of the 1,600,000 authorized option shares, as of June 30, 2007, 434,102 shares have been purchased pursuant to the exercise of stock options and 702,520 shares were subject to outstanding options, leaving 463,378 shares available for new options. The Company has not granted any SARs under the Plan. The following sections describe the 1997 Stock Plan:

Purpose of Plan. The purpose of the Plan is to attract and retain the best available talent and encourage the highest level of performance by officers, employees, directors, advisors and consultants, and to provide them with incentives to put forth maximum efforts for the success of the Company's business.

Automatic Option Grants to Nonemployee Directors. Under the terms of the Plan, each independent, nonemployee director automatically receives an option to purchase 2,000 shares of Common Stock upon his or her election to the Board. Each non-employee director also automatically receives an option to purchase an additional 1,000 shares on the last day of each fiscal quarter. The exercise price of each option is equal to the fair market value of the Common Stock on the date the option is granted.

Administration. The Plan is administered by the Board of Directors and by the Stock Option Committee and the Special Stock Option Committee. The Special Stock Option Committee, composed of nonemployee directors, is responsible for the administration and granting of stock options and SARs to executive officers of the Company. The Stock Option Committee, consisting of other directors of the Company, is responsible for the administration and granting of stock options and SARs (collectively, Awards) to other employees and eligible persons. The Stock Option Committee is composed of James C. Edenfield and J. Michael Edenfield. The Special Stock Option Committee is composed of Frederick E. Cooper and Parker H. Petit. The members of these Committees are not eligible to participate in the portion of the Plan that they administer, except pursuant to the formula option grant program for non-employee directors.

Eligibility. All employees (137 persons as of April 30, 2007) and Directors of the Company are eligible to participate in the Plan. In addition, advisors and consultants to the Company may be eligible for Award grants if deemed appropriate by the Stock Option Committee.

Exercise Price of Stock Options and SARs. The exercise price per share of any stock option granted under the Plan is set in each case by the respective Committee. For incentive stock options granted under the Plan, the exercise price must be at least 100% of the fair market value of Common Stock on the date of grant (at least 110% for options granted to 10% stockholders). For nonqualified stock options granted the Plan, the exercise price may be less than the fair market value per share of Common Stock on the date upon which the option is granted. The base price of a SAR unit granted under the Plan must be at least 100% of the fair market value of the Common Stock on the date of grant. As of the close of business on April 30, 2007, the market value of the Common Stock was \$9.85 per share.

Table of Contents

Terms and Exercisability of Options and SARs. Options granted pursuant to the Plan generally expire on the sixth anniversary of the grant date. Options granted prior to March 2005, however, were exercisable for ten years. Any SARs granted under the Plan would expire not later than the fifth anniversary of the date of grant. Options granted pursuant to the Plan generally become exercisable in equal portions over a five-year period (other than options granted to non-employee directors, which vest immediately upon grant). For options granted prior to March 2005, the vesting period was four years (other than non-employee director options).

Death, Disability, Retirement or Termination of Employment. Following a participant's termination of employment, Awards held by such person pursuant to the Plan generally are exercisable only with respect to the portions thereof in which the participant is then vested. Under the Plan, upon termination of employment, stock options remain exercisable for 90 days, or twelve months if termination results from death or disability, but in any event not beyond the original option term. Any SARs would be deemed to be exercised automatically upon termination of employment, to the extent vested.

Change of Control. The stock option agreements and SAR agreements (if any SARs are granted) provide that in the event of a Change in Control (as defined in the Plan) of the Company, or a threatened Change in Control of the Company as determined by the Board of Directors, outstanding Awards will automatically become fully exercisable, subject to the right of the individual Award holder to accept a substitute stock option or similar equity right from the surviving entity in the Change of Control transaction.

American Software Option Plan. As long as the Company remains a majority-owned subsidiary of American Software, officers and other employees of the Company will be eligible to receive grants of stock options under American Software's stock option plan. The grant of such options, if any, will be entirely within the discretion of the respective committees of the American Software Board of Directors. James C. Edenfield, a Director of the Company, serves on one of the committees of the American Software Board that has authority over the American Software stock option plan.

Table of Contents**DIRECTOR COMPENSATION**

During fiscal 2007, the Company compensated Directors who were not employed by the Company or its affiliates at the rate of \$5,000 per annum, plus \$1,000 for each meeting of the Board of Directors and \$600 for each meeting of any committee of the Board that they attended.

Directors are eligible to receive stock option grants under the Stock Plan. Under the terms of the Stock Plan, Directors who are not employed by the Company automatically receive stock option grants of 2,000 shares each upon his initial election and additional 1000-share grants at the last day of each fiscal quarter thereafter, with exercise prices equal to the market price on those respective dates. These options become fully exercisable on the date of grant and expire six years after the grant date (ten years for options granted prior to March 2005). They do not terminate if the Director ceases to serve on the Board of the Company after the options become exercisable. Under this program, Fredrick E. Cooper, Parker H. Petit and John A. White each received option grants totaling 4,000 shares in fiscal 2007.

The following table provides compensation information for non-employee members of our Board for the fiscal year ended April 30, 2007.

- (1) The amounts shown in the Option Awards column equal the amounts we recognized during fiscal 2007 as compensation expenses for financial reporting purposes as a result of options granted in fiscal 2007. Stock options issued in fiscal 2007 were valued using the Black-Scholes option valuation model with the following assumptions: exercise price equal to fair market value of stock on the grant date; dividend yield of 0%; expected volatility rate of 57% to 65%; risk-free interest rate of 4.5% to 5.0%; and expected term of 4.5 years. We record the compensation associated with the options as expense in the year of grant.

PROPOSAL 2: ADOPTION OF 2007 STOCK PLAN

General

On May 15, 2007, the Board of Directors adopted, subject to shareholder approval, a new equity compensation plan entitled the Logility, Inc. 2007 Stock Plan, to replace the Logility, Inc. 1997 Stock Plan, which is expiring August 7, 2007. Grants that may be made under the 2007 Stock Plan (hereinafter referred to as the New Plan) are not currently determinable.

Under the New Plan, the Company may grant options to acquire up to an aggregate of 500,000 shares of common stock. Options may be granted to executive officers or other key employees of the Company or any subsidiary, an advisor or consultant to the Company or any subsidiary, or a member of the Board of Directors. Option grants to Directors and to officers who are subject to Section 16 of the Securities Exchange Act of 1934 are intended to comply with the requirements of Rule 16b-3. Options may be either incentive stock options or nonqualified stock options. The New Plan also allows the Company to grant up to 300,000 stock appreciation right (SAR) units, with each unit being equivalent to one share of common stock. When a SAR unit is awarded, the unit grant price is established as the fair market value of one share of common stock on the date of the award. Upon exercise, the participant received, in cash (less tax and other withholdings) an amount equal to the excess of (i) the fair market value of the common stock on the date of exercise over (ii) the unit grant price, and with such excess being multiplied by (iii) the number of SAR units being exercised.

The number of options or SARs granted will be determined by the particular committee that administers such grants. See Administration, below. Option grants to nonemployee directors shall be nonqualified stock options, the number of which is fixed by the New Plan as follows: each nonemployee director who is newly elected or appointed subsequent to the date on which the New Plan becomes effective will be granted an option to purchase 2,000 shares of common stock upon his or her election or appointment, and thereafter will be granted an option to purchase 1,000 shares of common stock as of the last day of each fiscal quarter, beginning on the last day of the first full fiscal quarter following his or her election or appointment.

The following summary of the proposed New Plan is qualified in its entirety by reference to the full text of the New Plan, which governs in the event of any conflict. A copy of the proposed New Plan is attached to this proxy statement as Appendix A.

Purpose of Plan

The purpose of the New Plan is to attract and retain the best available talent and encourage the highest level of performance by officers, employees, directors, advisors and consultants, and to provide them with incentives to put forth maximum efforts for the success of the Company's business.

Shares Subject to the New Plan

The shares of common stock that may be issued under stock options granted pursuant to the New Plan cannot exceed in the aggregate 500,000 shares, and the maximum number of SAR units is 300,000 units, in each case subject to adjustment as provided below. Shares of common stock issued pursuant to exercised stock options may be shares of original issuance or treasury shares. Any shares that are subject to stock options granted under the New Plan that are terminated, expire unexercised, are forfeited or are surrendered will again be available for issuance under the New Plan.

The Board or the applicable stock option committee makes or provides for such adjustments in the maximum number of shares, in the number of shares covered by outstanding options granted under the New Plan, in the option exercise price applicable to any such options or in the kind of shares covered under the New Plan (including shares of another issuer), as the Board or such committee, in its sole discretion, exercised in good

faith, may determine is equitably required to prevent dilution or enlargement of the rights of participants that otherwise would result from any stock dividend, stock split, combination, spin-off, reorganization, partial or complete liquidation, issuance of rights or warrants to purchase securities or any other corporate transaction or event having an effect similar to any of the foregoing.

Administration

The New Plan is administered by the Board of Directors and by the Stock Option Committee and the Special Stock Option Committee. The Special Stock Option Committee, composed of nonemployee directors, is responsible for the administration and granting of stock options and SARs to executive officers of the Company. The Stock Option Committee, consisting of other directors of the Company, is responsible for the administration and granting of stock options and SARs (collectively, Awards) to other employees and eligible persons. The Stock Option Committee is composed of James C. Edenfield and J. Michael Edenfield. The Special Stock Option Committee is composed of Frederick E. Cooper and Parker H. Petit.

Eligibility

All Directors and employees (137 persons as of April 30, 2007) are eligible to participate in the New Plan. Additionally, advisors and consultants to the Company may be eligible for Award grants, if deemed appropriate by the Stock Option Committee.

Exercise Price

The exercise price per share of any stock option granted under the New Plan is set in each case by the respective Committee that administers the New Plan or the entire Board. For all stock options granted under the New Plan, the exercise price must be at least 100% of the fair market value of common stock on the date of grant (110% for 10% stockholders if the stock option is an incentive stock option). For option grants to Nonemployee Directors, which will be nonqualified stock options, the exercise price per share shall be equal to 100% of the fair market value of the common stock on the date of grant. As of the close of business on June 30, 2007, the market value of common stock was \$11.02 per share.

Terms of Options

Option terms may be for up to ten years. The terms of individual option grants are determined by the particular Board committee granting the option, as discussed above in Administration . If the committees continue their current practices, options granted pursuant to the New Plan generally will expire on the sixth anniversary of the grant date and will become exercisable in equal portions over a five-year period (other than options granted to non-employee directors, which vest one year following the date of grant). Any SARs granted under the New Plan would expire not later than the fifth anniversary of the date of the SAR award.

Exercise of Options

Options granted pursuant to the New Plan are exercisable according to the terms of the New Plan and at such times and under such conditions as determined by the Committee that administers the option and as set forth in the option grant agreement relating to the options being exercised. Upon the exercise of an option, the participant may either make payment (i) in full by payment of cash or check acceptable to the Company equal to the exercise price and any required tax withholding payment; or (ii) if approved by the Company, by the transfer to the Company of shares of Company stock owned by the participant for at least six months, having an aggregate fair market value per share at the date of exercise equal to the aggregate option price (except at a time when the Company is prohibited from purchasing or acquiring its own shares).

Table of Contents

Non-Assignability of Options

An option granted under the New Plan is not transferable other than by will or the applicable laws of descent and distribution. During the lifetime of a participant, options may be exercised only by such participant or his guardian or legal representative.

Death, Disability, Retirement or Termination of Employment

Following a participant's termination of employment, Awards held by such person pursuant to the New Plan are generally exercisable only with respect to the portions thereof in which the participant is then vested. Under the New Plan, upon termination of employment, stock options remain exercisable for 90 days, or twelve months if termination results from death or disability, but in any event not beyond the original option term. SARS may be exercised for 30 days after termination of employment other than termination for cause, or within one year if termination results from death or disability but not later than the expiration date of the SAR.

Change of Control

Currently, option agreements relating to options granted under the New Plan generally provide for exercise of the option prior to normal vesting in the event the Company (i) is merged, consolidated or reorganized into or with another company and, as a result, less than two-thirds of the combined voting power of the then-outstanding securities entitled to vote generally in the election of directors (Voting Stock) of such corporation immediately after such transaction are held in the aggregate by the holders of Voting Stock of the Company immediately prior to such transaction; (ii) sells or transfers all or substantially all of the assets of the Company and as a result of such sale or transfer less than two-thirds of the combined voting power of the then-outstanding Voting Stock immediately after such sale or transfer is held in the aggregate by the holders of Voting Stock of the Company immediately prior to such sale or transfer; (iii) any person has become the beneficial owner of securities representing 50% or more of the combined voting power of the then-outstanding voting stock of the Company other than by gift or inheritance; or (iv) during any period of two consecutive years, individuals who at the beginning of any such period constitute the directors of the Company cease to constitute a majority thereof, subject to certain exceptions, including situations where continuing directors approve the addition of new directors. The New Plan provides that in the event of a Change of Control, the Board may either accelerate vesting as described above or may cancel all current options and SARS and replace them with awards relating to the purchase of securities issued by the acquiring entity.

Tax Consequences

The following is a brief summary of the principal federal income tax consequences of the grant and exercise of an option or a SAR under the New Plan and the subsequent disposition of shares of common stock acquired upon such exercise. Under the New Plan, at the time of grant the respective Committee designates each option either an incentive stock option or a nonqualified stock option, with differing tax consequences to the participant and to the Company for each type of option.

Nonqualified Options

The grant of a nonqualified option will not result in any immediate tax consequence to the Company or the participant. Upon exercise of a nonqualified option granted under the New Plan, the amount by which the fair market value on the date of exercise of the shares received upon such exercise exceeds the option price will be taxed as ordinary income to the participant, and the Company generally will be entitled to a deduction in an equal amount in the year the option is executed. Such amount will not be an item of tax preference to a participant.

Upon the subsequent disposition of shares acquired upon the exercise of an option (Option Stock), a participant may realize short-term or long-term capital gain or loss (assuming such shares of Option Stock constitute capital assets in a participant's hands), depending upon the holding period of such shares of Option

Table of Contents

Stock, equal to the difference between the selling price and the tax basis of the shares of Option Stock sold. The tax basis for this purpose will equal the sum of the exercise price and the amount of ordinary income realized by the participant as a result of such exercise.

Incentive Options

Neither the grant nor the exercise of an incentive stock option will have any immediate tax consequences to the Company or the participant. (However, in calculating income for purposes of computing an individual participant's alternative minimum tax, the favorable tax treatment generally accorded incentive stock options is not applicable.)

When a participant sells Option Stock received upon the exercise of his incentive stock options, any amount he receives in excess of the option price will be taxed as a long-term capital gain at the maximum applicable tax rate (and any loss will be a long-term capital loss) if he has held his shares for at least two years from the date of granting the option to him and for at least one year after the issuance of such shares to him. If the shares are not held for more than two years from the date of granting the option to him or are not held for more than one year after the issuance of such shares, (i) ordinary income will be realized in the year of the disposition in an amount equal to the difference between the fair market value of the shares on the date the option was exercised and the option price, and (ii) either capital gain or loss will be recognized in an amount equal to the difference between the selling price and the fair market value of the shares on the date the option was exercised. If the selling price is less than the fair market value on the date the option is exercised, but more than the exercise price, (i) ordinary income equal to the difference between the exercise price and the fair market value on the date of exercise is recognized, and (ii) a capital loss equal to the difference between the fair market value on the date of exercise and the sales price results.

The Company is not permitted to take a deduction for federal income tax purposes because of the granting or exercise of any incentive stock option, except to the extent that ordinary income may be realized by a participant on the exercise or sale of Option Stock.

Stock Appreciation Rights

The grant of a SAR is not a taxable event to the Company or the participant. When a participant exercises a SAR, the excess of the fair market value of the common stock at the time of exercise over the unit grant price, multiplied by the number of units exercised will be taxed as ordinary compensation income to the participant.

The Company may claim a deduction for federal income tax purposes for compensation paid in an equal amount after the participant has exercised the SAR.

Termination

The New Plan will terminate on May 15, 2017, the tenth anniversary of the date that it was adopted by the Board of Directors of the Company, unless sooner suspended or terminated by the Board. In general, no such suspension or termination will have any effect on outstanding awards without the consent of the participant.

Board Recommendation

The Board of Directors believes it is in the best interest of the Company and its stockholders to approve the New Plan so that the Company will be able to continue to provide adequate incentives and to attract and retain the services of competent personnel. Therefore, the Board of Directors recommends to the stockholders the adoption of the New Plan. The affirmative vote of a majority of the shares in attendance or represented by proxy and entitled to vote at the Stockholders Meeting is required for approval of the New Plan.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSED APPROVAL OF THE 2007 STOCK PLAN.

AUDIT COMMITTEE REPORT AND INDEPENDENT AUDITORS

Audit Committee Report

The following is the Audit Committee Report of the Board of Directors of Logility, Inc. for the fiscal year ended April 30, 2007.

The Board of Directors has adopted a written charter for the Audit Committee, a copy of which is attached as Appendix B to this proxy statement. As set forth in the charter, the Audit Committee's job is one of oversight. It is not the duty of the Audit Committee to prepare the Company's financial statements, to plan or conduct audits, or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. The Company's management is responsible for preparing the Company's financial statements and for maintaining internal controls. The independent auditors are responsible for auditing the financial statements and for expressing an opinion as to whether those audited financial statements fairly present the financial position, results of operations, and cash flows to the Company in conformity with generally accepted accounting principles.

In fulfilling its responsibilities with respect to the fiscal year 2007 audit, the Audit Committee: (1) reviewed and discussed the audited financial statements for the fiscal year ended April 30, 2007 with Company management and KPMG LLP ("KPMG"), the Company's independent auditors; (2) discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61 relating to the conduct of the audit; and (3) received written disclosures and the letter from KPMG regarding its independence as required by Independence Standards Board No. 1. The Audit Committee discussed with KPMG the independence of KPMG from the Company.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2007 for filing with the Securities and Exchange Commission.

The Nasdaq listing requirements require audit committees to be composed of not less than three members who are independent directors, as that term is defined in the listing requirements. The Audit Committee believes that its members meet the definition of independent directors set forth in those rules.

By the Audit Committee:

John A. White, Chairman

Frederick E. Cooper

Common Stock that may be issued under Options may consist, in whole or in part, of authorized but unissued stock or treasury stock of the Company not reserved for any other purpose. Subject to the provisions of Section 4.3, the Units on which Stock Appreciation Rights may be based will not exceed in the aggregate 300,000 Units.

4.2 *Unused Stock and Units.* If any outstanding Option under the Plan expires or for any other reason ceases to be exercisable, is forfeited or repurchased by the Company, in whole or in part (other than upon exercise of an Option), the Common Stock subject to such Option (and as to which the Option had not been exercised) shall continue to be available under the Plan or revert to the Plan to again be available for issuance of Options under the Plan. Common Stock underlying vested and exercised Options shall not be available for future Option grants. Any Units on which Stock Appreciation Rights are based will again be available for the granting of Stock Appreciation Rights under Article 7 if the Stock Appreciation Rights that were based on those Units are terminated, expire unexercised, forfeited or surrendered.

4.3 *Adjustment for Change in Outstanding Shares.*

(a) *In General.* If there is any change (increase or decrease) in the outstanding shares of Common Stock that is effected without receipt of additional consideration by the Company, by reason of a stock dividend, subdivision, reclassification, recapitalization, merger, consolidation, stock split, combination or exchange of stock, or other similar circumstances not involving the receipt of consideration by the Company, then in each such event, the Company shall make an appropriate adjustment in the aggregate number of shares of Common Stock or Units available under the Plan, the number of shares of Common Stock or Units subject to each outstanding Award and the Exercise Price or Unit Grant Price in order to prevent the dilution or enlargement of any Participant's rights. In the event of any adjustment in the number of shares of Common Stock or Units covered by any Award, including those provided in paragraph (b) below, each such Award shall cover only the number of full shares or full Units resulting from such adjustment. The Plan Administrator's determinations in making any adjustment shall be final and conclusive.

(b) *Adjustments for Certain Distributions of Property.* If the Company at any time distributes with respect to its Common Stock securities or other property (except cash or Common Stock), a proportionate part of those securities or other property shall be set aside and delivered to the Participant when he or she exercises an Option. The securities or other property shall be in the same ratio to the total securities and property set aside for Participants as the number of shares of Common Stock with respect to which the Option is then exercised is to the total shares of Common Stock subject to the Option. Furthermore, the Company shall Reprice Units to reflect the value of such securities or other property (except cash or Common Stock) which may be distributed with respect to the Company's Common Stock.

(c) *Exceptions to Adjustment.* Except as expressly provided herein, the issue by the Company of Common Stock of any class, or securities convertible into or exchangeable for Common Stock of any class, for cash or property or for labor or services, or upon sale or upon exercise of rights or warrants to subscribe therefor, or upon conversion of shares or obligations of the Company convertible into or exchangeable for Common Stock of any class, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number of shares of Common Stock or Units subject to any Award granted under the Plan.

4.4 *Retention of Rights.* The existence of the Plan and any Award granted pursuant to the Plan shall not affect the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations, or other change in the Company's capital structure or its business, or a merger or consolidation of the Company, or any issue of bonds, debentures, or preferred or preference stock ranking before or affecting the Common Stock, or the dissolution of the Company or any sale or transfer of all or any part of the Company's assets or business, or any other corporate act or proceeding, whether similar to the foregoing or not.

4.5 *Cancellation of Award.* The applicable Committee may at any time cancel an Award, whether vested or unvested, if the Participant holding the Award is terminated for Cause.

ARTICLE 5. ELIGIBILITY

5.2 *Board.* Members of the Board shall receive Options in accordance with Section 6.2.

5.3 *Consultants and Advisors.* Any consultant or advisor who renders bona fide services to the Company or a Subsidiary, which services are not in connection with the offer or sale of securities in a capital-raising transaction, is eligible to receive an Award at the discretion of the Stock Option Committee.

ARTICLE 6. STOCK OPTIONS

6.1 *Grant of Options.* The applicable Committee may from time to time in its discretion determine which of the Employees should receive Options, the type of Options to be granted (whether Incentive Stock Options or Nonqualified Stock Options), the number of shares of Common Stock subject to such Options, the dates on which such Options are to be granted, the duration of such Options and the vesting schedule for exercise of such Options. To the extent that an Option is granted under which the aggregate Fair Market Value (determined as of the time each Option is granted) of the Common Stock with respect to which any of such Employee's Options are exercisable for the first time during a calendar year exceeds \$100,000, the Options granted that exceed the annual limitation shall be deemed to be Nonqualified Stock Options rather than Incentive Stock Options. Options granted by the Special Stock Option Committee are intended to comply with and otherwise satisfy the requirements of Rule 16b-3. To the extent that (i) any provision of the Plan applicable to an Option granted

pursuant to this Section 6 or (ii) any act of the Board, the Stock Option Committee or the Special Stock Option Committee would cause such Option to fail to satisfy or comply with any requirement of Rule 16b-3, such provision or act will be deemed null and void for purposes of such Option.

6.2 *Stock Options for Nonemployee Directors.* Each Nonemployee Director newly elected or appointed to the Board will be granted a Nonqualified Stock Option effective upon his or her initial election or other appointment to the Board to purchase 2000 shares of Common Stock. Each Nonemployee Director will also be granted an additional Nonqualified Stock Option to purchase 1000 shares of Common Stock as of the last day of each fiscal quarter following his or her initial option grant under this Section 6.2, beginning on the last day of the first complete fiscal quarter following such date, provided that such individual has served continually as a Nonemployee Director through the close of business on such date. Each grant will specify (1) the Option Price, which will be equal to the Fair Market Value on the Date of Grant, and (2) a date on which the Options will expire. Stock Options granted pursuant to this Section shall be exercisable immediately upon being granted. Stock Options granted pursuant to this Section are intended to comply with and otherwise satisfy the requirement of Rule 16b-3. To the extent that (i) any provision of the Plan applicable to a Stock Option granted pursuant to this Section, or (ii) any act of the Board, Stock Option Committee or Special Stock Option Committee would cause such Stock Option to fail to satisfy or comply with any requirements of Rule 16b-3, such provision or act will be deemed null and void for purposes of such Stock Option.

6.3 *Option Agreement.* Each grant of Options under the Plan shall be evidenced by a written Option Agreement setting forth the terms upon which the Options are granted. Each Option Agreement shall designate the type of Options being granted (either Incentive Stock Options or Nonqualified Stock Options), and shall state the Exercise Price and the number of shares of Common Stock, as designated by the applicable Committee, to which that Option pertains. More than one type of Option may be granted to an Employee.

(a) *Option Exercise Price.* The Exercise Price of a Stock Option for any Participant shall be not less than 100% of the Fair Market Value (determined as of the day the Option is granted) of the Common Stock subject to the Option, provided, however, that the Exercise Price of an Incentive Stock Option for any Participant who is the owner of ten percent (10%) or more of the issued and outstanding stock of the Company shall be not less than 110% of the Fair Market Value (determined as of the day the Option is granted) of the Common Stock subject to the Option. Except as provided in Section 4.3 or Article 8, the Exercise Price of the Common Stock under each Option is fixed and may not be Repriced without the approval of the Board after the Board has considered the affect of applicable provisions of tax and securities laws.

(b) *Duration of Options.* Each grant of Options shall be of a duration as specified in the Option Agreement; provided, however, that the term of each Option grant shall not exceed the lesser of: (1) ten (10) years from the date the Participant has the right to exercise such Option or portion thereof; or (2) ten (10) years from the date the Option is granted. Notwithstanding the preceding sentence, each grant of Incentive Stock Options to any Participant who is the owner of ten percent (10%) or more of the issued and outstanding stock of the Company shall be of a duration as specified in the Option Agreement; provided, however, that the term of each Option grant shall not exceed the lesser of: (1) five (5) years from the date the Participant has the right to exercise such Option or portion thereof; or (2) five (5) years from the date the Option is granted.

(c) *Vesting.* The grant of Options may be subject to a vesting schedule, which shall be set forth in the Option Agreement, and which may be waived or accelerated by the Committee at any time.

(d) *Rights as Stockholder.* A Participant shall have no rights as a stockholder of the Company with respect to the Common Stock covered by an Option until the date of the issuance of the stock certificate for such Common Stock.

(e) *Other Terms and Conditions.* The Option Agreement may contain such other provisions, which shall not be inconsistent with the Plan, as the Committee shall deem appropriate, including, without limitation, provisions that relate to the Participant's ability to exercise an Option in whole or in part due to

the passage of time or the achievement of specific goals or the occurrence of certain events, as specified by the Committee. Notwithstanding the foregoing, the Option Agreement may not contain any term that would cause the Option to be nonqualified deferred compensation subject to Code Section 409A and related regulations.

6.4 Nontransferability of Options. Options granted pursuant to the Plan are not transferable by the Participant other than by will or the laws of descent and distribution and shall be exercisable during the Participant's lifetime only by the Participant. Upon any attempt to transfer, assign, pledge, hypothecate or otherwise dispose of the Options contrary to the provisions hereof, or upon the levy of any attachment or similar process upon the Option, the Option shall immediately become null and void. Notwithstanding the foregoing, to the extent specified in an Option Agreement, an Option may be transferred by a Participant solely to the Participant's immediate family (children, grandchildren, or spouse) or trusts or other entities established for the benefit of the Participant's immediate family, to the extent specifically permitted in the trust agreement. Any such transfer of an Incentive Stock Option shall result in the conversion of the Option to a Nonqualified Stock Option.

6.5 Manner of Exercise of Options. Subject to the limitations and conditions of the Plan or the Option Agreement, an Option shall be exercisable, in whole or in part, from time to time, by giving written notice of exercise to the Chief Financial Officer of the Company or such other individual as directed from time to time by the Company. The notice shall specify the number of whole shares of Common Stock to be purchased and shall be accompanied by (a) payment in full to the Company of the Exercise Price; plus (b) for Nonqualified Stock Options, payment in full of such amount as the Company shall determine to be sufficient to satisfy any liability the Company may have for any withholding of federal, state or local income or other taxes incurred by reason of the exercise of the Option. At the Company's discretion, payment in full of such amount as the Company shall determine to be sufficient to satisfy any liability the Company may have for any withholding of federal, state or local income or other taxes incurred may also be requested upon the exercise of an Incentive Stock Option. Except as provided in Section 6.6, the conditions of this Section 6.5 shall be satisfied at the time that the Option or any part thereof is exercised, and no Common Stock shall be issued or delivered until such conditions have been satisfied by the Participant.

6.6 Payment of Option Exercise Price. Payment for Common Stock underlying the Option shall be in the form of (a) a personal check, (b) a certified or bank cashier's check to the order of the Company, (c) shares of Common Stock, properly endorsed to the Company, in an amount equal to the Fair Market Value of the stock which on the date of receipt by the Company equals or exceeds the aggregate Exercise Price for the Option, provided that such Stock has been held outright by the Participant for at least six months, (d) any other form of legal consideration that may be acceptable to the Company, or (e) in any combination thereof; provided, however, that no payment may be made in Common Stock unless the Company has approved of payment in such form by such Participant with respect to the Option exercise in question. Payment for withholding taxes shall be in the form of cash.

6.7 Termination of Continuous Service. Other than as prescribed in Section 8, any vesting of Options shall cease upon termination of the Participant's Continuous Service, and Options shall be exercisable only to the extent that they were vested on the date of such termination of Continuous Service. Any Option not exercisable as of the date of termination, and any Option or portion thereof not exercised within the period specified herein, shall terminate.

(a) Termination Other than for Cause. Subject to any limitations set forth in the Option Agreement, and provided that the notice of exercise is provided as required by Section 6.5 prior to the expiration of the Option, the Participant shall be entitled to exercise the Option (i) during the Participant's Continuous Service, and (ii) for a period of ninety (90) calendar days after the date of termination of the Participant's Continuous Service for reasons other than Cause, or such longer period as may be set forth in the Option Agreement.

(b) *Termination by Death.* Notwithstanding paragraph (a), if a Participant's Continuous Service should terminate as a result of the Participant's death, or if a Participant should die within a period of ninety (90) calendar days after termination of the Participant's Continuous Service under circumstances in which paragraph (a) would permit the exercise of the Option following termination, the personal representatives of the Participant's estate or the person or persons who shall have acquired the Option from the Participant by bequest or inheritance may exercise the Option at any time within one year after the date of death, but not later than the expiration date of the Option.

(c) *Termination by Disability.* Notwithstanding paragraph (a), if a Participant's Continuous Service should terminate by reason of the Participant's Disability, the Participant may exercise the Option at any time within the earlier of (i) one year after the date of termination or (ii) thirty (30) days after the Participant no longer has a Disability, but in any event not later than the expiration date of the Option.

(d) *Termination for Cause.* Notwithstanding anything herein to the contrary, and unless otherwise provided by the Option Agreement, all unexercised Options shall terminate immediately if the Participant is terminated for Cause.

Notwithstanding the foregoing, the SAR Agreement may not contain any term that would cause the SAR to be nonqualified deferred compensation subject to Code Section 409A and related regulations.

7.3 *Nontransferability of SARs.* SARs are not transferable by the Participant other than by will or the laws of descent and distribution and shall be exercisable during the Participant's lifetime only by the Participant. ARTICLE 9. ISSUANCE OF SHARES OF COMMON STOCK

9.1 *Transfer of Common Stock to Participant.* As soon as practicable after (a) a Participant has given the Company written notice of exercise of an Option and has otherwise met the requirements of Article 6 with respect to an Option, or (b) a Participant has satisfied any applicable restrictions, terms and conditions set forth in the Plan, the Company shall register a certificate in such Participant's name for the Common Stock as to which the Option has been exercised and shall, upon the Participant's request, deliver such certificate to the Participant. ARTICLE 10. AMENDMENT AND TERMINATION

10.1 *Amendment of the Plan.* The Board may at any time and from time to time alter, amend, suspend or terminate the Plan or any part thereof as it may deem proper, except that no such action shall diminish or impair the rights under an Award previously granted. However, if the Company is listed on the NASDAQ National Market System or another public trading market, then any amendment that would require stockholder approval under the requirements of the NASDAQ National Market System or such other public trading market, as the case may be, shall only be effective when such stockholder approval is obtained. Subject to the terms and conditions of the Plan, the Committee may modify, extend or renew outstanding Awards granted under the Plan, provided that such modification would not constitute a Repriced Award, and provided further that no such action shall diminish or impair the rights under an Award previously granted without the consent of the Participant.

Table of Contents

11.2 *Other Employee Benefits.* Unless so provided by the applicable plan, the amount of compensation deemed to be received by a Participant as a result of the exercise of an Award shall not constitute earnings with respect to which any other employee benefits of the person are determined, including without limitation benefits under any pension, profit sharing, life insurance, or disability or other salary continuation plan.

11.3 *Confidentiality of Information.* Information regarding the grant of Awards under the Plan is confidential and may not be shared by the Participant with anyone other than the Participant's immediate family and personal financial advisor and other person(s) designated by Participant by power of attorney or assignment, or as otherwise required by law.

11.4 *Severability.* If any provision of the Plan is held by any court or governmental authority to be illegal or invalid for any reason, such illegality or invalidity shall not affect the remaining provisions. Instead, each provision held to be illegal or invalid shall, if possible, be construed and enforced in a manner that will give effect to the terms of such provision to the fullest extent possible while remaining legal and valid.

(Amended effective March 5, 2004)

I. *Organization and Composition.*

There shall be an Audit Committee (the "Committee") selected by the Board of Directors (the "Board") that shall be composed of not less than three members of the Board. Subject to the right of the Board to elect one member who is not independent to the extent permitted by the listing requirements of Nasdaq, each member of the Committee shall be (1) determined by the Board to be independent of Company management under the listing requirements of Nasdaq and Section 10A(m)(3) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and the rules promulgated thereunder by the Securities and Exchange Commission ("SEC") implementing Section 301 of the Sarbanes-Oxley Act of 2002 (as amended, "Sarbanes-Oxley Act"), and (2) free from any relationship to the Company that, in the opinion of the Board, would interfere with the exercise of his or her independent judgment as a member of the Committee. All Committee members, either at the time of their appointment to the Committee or within a reasonable time thereafter, must be able to read and understand fundamental financial statements, including the Company's balance sheet, income statement, and cash flow statement. At least one Committee member must have past employment experience in finance or accounting, professional certification in accounting or other comparable experience or background such that he or she possesses the level of financial sophistication required by the Nasdaq listing requirements.

II. *Statement of Policy.*

The purpose of the Committee is to oversee the processes of accounting and financial reporting of the Company and the audits and financial statements of the Company. In addition, the Committee shall provide assistance to the Board of Directors in fulfilling its oversight responsibility to the shareholders, potential shareholders, the investment community and others relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, the annual independent audit of the Company's financial statements, the independent auditor's qualifications and independence, and the legal compliance and ethics programs as established by management and the Board. In so doing, it is the responsibility of the Committee to maintain free and open communication between the Committee, independent auditors, internal accountants and management of the Company. In discharging its oversight role, the Committee is empowered to investigate any matter brought to its attention, with full access to all books, records, facilities, and personnel of the Company and the power to retain outside counsel or other experts for this purpose. The independent auditor's ultimate accountability shall be to the Board of Directors and the Committee, as representatives of the shareholders. The Committee's ultimate authority and responsibility shall be to select, evaluate and, where appropriate, replace the independent auditor.

While the Committee has the responsibilities and powers set forth in this Charter, it is not the duty or responsibility of the Committee to plan or conduct audits, prepare and certify the Company's financial statements, guaranty the independent auditors' report or guaranty other disclosures by the Company. Management has responsibility for the preparation, presentation, completeness and integrity of the financial statements and for the appropriate use of accounting principles and reporting policies. The independent auditors are responsible for auditing the financial statements, expressing an opinion thereon in accordance with GAAP, and complying with all applicable law. Committee members are not full-time Company employees and are not performing the functions of auditors or accountants.

III. *Meetings*

The Committee shall meet as often as it deems necessary in order to perform its responsibilities. The Committee shall maintain minutes and other relevant documentation of all its meetings. The Committee shall submit the minutes of all meetings of the Committee to the Board and, where appropriate or necessary, discuss with the Board the matters discussed at Committee meetings.

IV. Responsibilities and Processes.

(A) Authority and Responsibilities. The primary responsibility of the Committee is to oversee the Company's financial reporting process on behalf of the Board and report the results of the Committee's activities to the Board. Management is responsible for preparing the Company's financial statements and the independent auditors are responsible for auditing those financial statements. In carrying out its responsibilities, the Committee believes its policies and procedures should remain flexible in order to best react to changing conditions and circumstances. The Committee shall discuss with the auditors their independence from management and the Company and the matters included in the written disclosures required by the Independence Standards Board.
- (3) The Committee, in its discretion, may appoint and delegate to one or more members of the Committee who are independent directors the authority to grant the pre-approvals of the Committee described in the preceding paragraph. The decisions of any member to whom the Committee delegates its pre-approval authority shall be presented to the full Committee at the next scheduled meetings.
- (4) The Committee shall obtain, review and discuss reports from the independent auditors regarding: (1) all critical accounting policies and practices to be used; (2) all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management officials of the Company, ramifications of the use of these alternative disclosures and treatments, the treatment preferred by the independent auditors and the reasons for favoring that treatment; and (3) other material written communications between the independent auditors and Company management, such as any management letter or schedule of unadjusted differences.
- (5) The Committee shall discuss with both the Company's internal accountants and the independent auditors the overall scope and plans for all audits, including the adequacy of staffing and compensation. Also, the Committee shall discuss the results of the annual audit and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards. The Committee shall prepare the Audit Committee Report required by SEC regulations to be included in the Company's annual proxy statement.
 - (8) The Committee shall have the authority, without Board approval, to the extent it deems necessary or appropriate, to retain independent legal, accounting or other consultants and advisors to advise the Committee. The Company shall provide for appropriate funding, as determined by the Committee, for payment: (i) of compensation to the independent auditors for the purpose of rendering or issuing an audit report; (ii) of compensation to any advisors or consultants employed by the Committee pursuant to Section 10A(m) of the Exchange Act; and (iii) of ordinary Committee administrative expenses that are necessary and appropriate in carrying out its duties.

 - (10) The Committee shall review all related party transactions and shall establish procedures covering the review process.
 - (11) The Committee shall establish procedures for the receipt, retention and treatment of complaints received by the Company from its employees regarding accounting, internal accounting controls and auditing matters, and the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters.

 - (13) The Committee shall review with management and the independent auditors any correspondence with regulators and any published reports that raise material issues regarding the Company's accounting policies.
- (B) Additional Authority.** The Committee, to the extent it deems necessary or appropriate, may:
- (1) Obtain from the independent auditors an assurance of compliance with Section 10A of the Exchange Act with respect to auditor disclosure of corporate fraud.
