**1. SIGNIFICANT ACCOUNTING POLICIES**

Petroleum & Resources Corporation (the Corporation) is registered under the Investment Company Act of 1940 as a non-diversified investment company. The Corporation is an internally-managed fund emphasizing petroleum and other natural resource investments. The investment objectives of the Corporation are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

**2. FEDERAL INCOME TAXES**

The Corporation's policy is to distribute all of its taxable income to its stockholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Corporation's capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

**3. INVESTMENT TRANSACTIONS**

The Corporation's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

## 5. RETIREMENT PLANS

The Corporation's non-contributory qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Corporation has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Corporation's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Corporation deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. 6. EQUITY-BASED COMPENSATION

Although the Stock Option Plan of 1985 ( 1985 Plan ) has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Corporation during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of September 30, 2007, and changes during the nine month period then ended is presented below:

---

the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the nine months ended September 30, 2007 was \$516,577.

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 872,639 shares of the Corporation's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of awards earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remain available for future grants under the 2005 Plan at September 30, 2007 is 830,890 shares.

The Corporation pays dividends and dividend equivalents on outstanding awards, which are charged to net assets when paid. Dividends and dividend equivalents paid on restricted awards that are later forfeited are reclassified to compensation expense.

A summary of the status of the Corporation's awards granted under the 2005 Plan as of September 30, 2007, and changes during the nine month period then ended is presented below:

|  | Shares/<br>Units | Weighted Average<br>Grant-Date Fair<br>Value |
|--|------------------|--|
| Awards   | Units            |  |
| Balance at December 31, 2006   | 21,398           | \$ 33.16                                     |
| Granted:   |                  |  |
| Restricted stock   | 10,983           | 31.34  |
| Restricted stock units   | 3,200            | 34.70  |
| Deferred stock units   | 579              | 34.82  |
| Vested   | (5,542)          | 31.78  |
| Forfeited  | (826)            | 34.32  |
| Balance at September 30, 2007 (includes 23,182 performance-based awards and 6,610 nonperformance-based awards) | 29,792           | \$ 32.91                                     |

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ended September 30, 2007 were \$204,618. The total compensation costs for restricted stock units granted to non-employee directors for the period ended September 30, 2007 were \$89,088. As of September 30, 2007, there were total unrecognized compensation costs of \$520,756, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.64 years.

**7. OFFICER AND DIRECTOR COMPENSATION**

The aggregate remuneration paid during the nine months ended September 30, 2007 to officers and directors amounted to \$1,905,113, of which \$233,741 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Corporation's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

**8. PORTFOLIO SECURITIES LOANED**

The Corporation makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Corporation accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Corporation also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Corporation. At September 30, 2007, the Corporation had securities on loan of \$60,681,454 and held collateral of \$62,045,317, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.
