“ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01 Other Events.

On January 10, 2008, at the Citigroup Annual Entertainment Conference, Dennis Strigl, President and Chief Operating Officer of Verizon Communications Inc. (Verizon) provided an update of Verizon's initiatives to focus on its networks and strategic assets for sustained organic growth. Verizon reiterated that it continues to target double digit wireless revenue growth and wireless EBITDA margins to be in the 43-45 percent range. EBITDA or earnings before interest, taxes, depreciation and amortization adds depreciation and amortization to operating income; EBITDA margin is calculated by dividing EBITDA by wireless service revenues. Verizon is targeting wireline EBITDA margin eventually to improve from its current level of 27 percent to 33 to 34 percent. EBITDA margin is calculated by dividing EBITDA by wireline revenues.

Verizon passed more than 9 million homes at the end of 2007 with its fiber-to-the-premises deployment technology, known as FiOS, and it is targeting obtaining video franchises in key major cities over the next 12 to 18 months.
