Conclusion

Strength, stability and growth

A strong resources sector is fundamental to Australia's economic prosperity

The global resources industry is undergoing extraordinary change

BHP Billiton on a standalone basis has a bright future

The core strategy remains unchanged

Focused on producing volumes from low cost assets

A combination of BHP Billiton and Rio Tinto can generate substantial additional value for shareholders

we are a natural fit

In addition to the synergies, combining the two would create a company that is:

Unique in character;

Capable of delivering superior returns for its shareholders; and

An Australian

champion
on
the
global
stage

BHP Billiton believes the terms of the Rio Tinto offer reflect a
good deal for both companies
shareholders

The
process
has
a
long
time
to
run

an
offer
document
is
not
expected
to
be
posted
to
shareholders
until late 2008

The support of retail shareholders will be critical for the offer to succeed

Slide 33
Slide 33
Slide 33
Slide 33

Assuming a satisfactory regulatory outcome, Rio Tinto shareholders will be faced with 2 choices:

Accept BHP Billiton's offer, which is priced at a 45% premium to the pre-approach trading valuations of the two companies; or

Reject BHP Billiton's offer

Rio Tinto shareholders will have 2 legitimate questions to ask of their Board

On what grounds can you justify rejecting the 45% premium value uplift implied by BHP Billiton's offer?

How does the Rio Tinto Board propose to deliver to its shareholders the value of the implied premium and the pro-rata share of the combination benefits that shareholders may forego by the Rio Tinto Board refusing to engage with BHP Billiton?

Remember this is about relative value not absolute value.

Legitimate questions for all shareholders
