SUMMARY

This summary may not contain all of the information that may be important to you. You should read the entire prospectus supplement and the accompanying prospectus, as well as the documents incorporated by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision.

The Company

Nucor and its affiliates are manufacturers of steel products, with operating facilities primarily in the U.S. and Canada. Products produced include: carbon and alloy steel in bars, beams, sheet and plate; steel joists and joist girders; steel deck; fabricated concrete reinforcing steel; cold finished steel; steel fasteners; metal building systems; light gauge steel framing; steel grating and expanded metal; and wire and wire mesh. Nucor, through The David J. Joseph Company, also operates over 30 scrap processing facilities with capacity to process 3.5 million tons of ferrous scrap annually, brokers over 20 million additional tons of metal scrap, pig iron and HBI/DRI annually and supplies ferro-alloys. Nucor is North America's largest recycler.

During the last five years, our sales have increased over 245% from \$4.80 billion in 2002 to \$16.59 billion in 2007. During the same period, our average sales price per ton more than doubled from \$357 to \$723, and our total tons sold to external customers increased 71% from 13.4 million to 22.9 million. Net income increased from \$64.8 million in 2003 to \$1.47 billion in 2007, and diluted earnings per share increased from \$0.21 in 2003 to \$4.94 in 2007.

We have increased our base cash dividend every year since we began paying dividends in 1973. We began paying supplemental dividends in 2005. In 2007, our board of directors increased our base dividend and approved a supplemental dividend based on our strong performance. We paid total dividends of \$2.43 per share in 2007 compared with total dividends of \$1.88 per share in 2006. In February 2008, our board approved a 7% increase in our quarterly base dividend to \$0.32 per share and announced a supplemental dividend of \$0.20 per share for a total quarterly dividend of \$0.52 per share.

Competitive Strengths

We are among the most diversified steel producers in the world, with leadership positions across numerous products and end markets. We believe we are the largest U.S. producer of structural and bar steel as well as joists, deck and cold finished bar steel products and are among the largest U.S. producers of fabricated rebar, plate steel and metal buildings. Our products are used in numerous domestic end markets including non-residential construction, infrastructure, agricultural and heavy equipment, consumer goods, energy and transportation. As our products have become increasingly cost competitive as compared to international steel producers, we have also selectively exported products and expanded our customer base.

We believe we are among the most technologically innovative steel producers in the world. We focus on exploiting new technologies to improve our production speed, quality and cost. We were the first steel producer to commercialize thin-slab casting—a technology that integrates slab production and sheet and strip rolling. We are also exploiting our Castrip[®] technology (direct strip casting of carbon sheet steel) at two facilities in the United States.

Our executive officers have on average more than 25 years experience with Nucor. We emphasize the value of teamwork and the importance of safety and accountability in every aspect of our business. Our simple, streamlined organizational structure allows our employees to make decisions quickly and to be innovative. Our division general managers and their staff make most day-to-day operating decisions in their respective facilities. We have only approximately 80 employees in our executive offices, which are located at 1915 Rexford Road, Charlotte NC 28211.

Growth and Raw Materials Strategies

Since 2000, we have been implementing a multi-pronged growth strategy to strengthen our position as one of North America's most diversified steel and steel products manufacturers. The strategy includes optimizing our existing operations, pursuing strategic acquisitions to expand the production capacity of our mills and to increase our ownership of downstream businesses, and continuing our traditional greenfield growth employing new technologies. We closed on more than \$1.5 billion in acquisitions during 2007. Over the next three years, we may invest over \$2 billion in greenfield expansions of our production capacity (see "Recent Developments").

We are also committed to growing internationally and are currently exploring numerous opportunities to do so by partnering with established leaders in attractive international markets. So far in 2008, we have announced two international joint venture investments (see "Recent Developments").

We have also made significant progress in implementing our strategy to control a larger portion of our raw materials stream. Our goal is to control six to seven million tons per year of high-quality ferrous scrap substitutes, or approximately one-third of our current metallics usage, as a hedge against the volatility in the price of metallics we use in our steel mills. We recently acquired The David J. Joseph Company (DJJ), our long-time supplier of ferrous scrap. DJJ operates over 30 scrap processing facilities with capacity to process 3.5 million tons of ferrous scrap annually and brokers over 20 million additional tons of scrap annually. DJJ also sources scrap, pig iron and scrap substitutes internationally. DJJ provides a platform that we have already begun using to expand our ownership in the steel scrap supply chain. So far in 2008, we have closed on more than \$1.5 billion in scrap supply chain acquisitions.

Business Segments

Nucor's operations are categorized into the following three business segments: Steel Mills, Steel Products and Raw Materials.

Steel Mills. Our steel mills segment includes eleven bar mills, four sheet mills, two structural mills and two plate mills. Recycled steel scrap and other metallics are melted in electric arc furnaces at these mills and poured into continuous casting systems. Rolling mills convert the billets, blooms and slabs into rebar, angles, rounds, channels, flats, sheet, beams, plate and other products. We sold approximately 92% of the production from these mills in 2007 to external customers and used the balance in our downstream businesses. The external customers are primarily manufacturers, steel service centers and fabricators.

Steel Products. We manufacture a wide variety of steel products in this business segment, including steel joists, joist girders and steel decking, which are used extensively as part of the roof and floor support systems in manufacturing, commercial and institutional buildings. Steel products also includes reinforcing products essential to concrete construction, steel mesh, steel grating, and a wide array of fasteners that are used in a broad range of markets. We also produce metal buildings and components as well as load bearing, light gauge steel framing systems for the commercial and residential construction markets. We are the largest producer of cold finish bars in North America. Cold finish bars are used extensively for shafting and precision machined parts by our customers to manufacture a wide range of finished products.

Raw Materials. The raw materials segment includes DJJ; a Nucor facility located in Trinidad that produces direct reduced iron used by Nucor's steel mills; and a joint venture in Australia that employs HIs melt® technology to convert iron ore fines and coal fines to liquid metal.

Recent Developments

Agreement with Duferco Group

On May 12, 2008, we executed an agreement to acquire 50% of the equity of Duferdofin-Nucor S.r.l. The remaining 50% will be held by Duferco Italia Holding S.p.A. Duferdofin-Nucor will operate four long product manufacturing facilities and two distribution companies in Italy and will distribute beams and long products in Europe and North Africa. Nucor will pay 423.5 million (approximately \$658 million), subject to post-closing adjustment, for its 50% stake in the company. The transaction is expected to close during the third quarter of 2008.

Memorandum of Understanding with Sidenor S.A.

On May 8, 2008, we signed a memorandum of understanding with Sidenor S.A. to acquire a 34% interest in a new joint venture company to be created to produce and distribute long steel products and plate steel in the Balkans, Turkey, Cyprus and North Africa. The new joint venture company will include Sidenor's entire steelmaking and related operations with the exception of Corinth Pipe Works. Execution of a definitive agreement is dependent on satisfactory completion of due diligence and the receipt of regulatory approvals and approval of the agreement by the boards of directors of Nucor and Sidenor.

Greenfield Pig Iron Production Facility

We announced on May 15, 2008 that we have applied for a permit to build a pig iron production facility in Louisiana. If the permit is issued and Nucor's board of directors approves both the site and the approximately \$2.0 billion investment in the first phase of development, we also would intend to build a new, high capacity port on the Mississippi River capable of handling both ocean-going vessels and barges.

Additional Financing

The Company intends to raise up to \$1.0 billion in the debt capital markets in the near term, subject to market conditions.

Dividends paid for each quarter include the base dividend and a supplemental dividend approved by the board of directors. We began paying a supplemental dividend in the first quarter of 2005 based upon our earnings performance in 2004. Our board of directors has continued to declare a supplemental dividend based upon the prior year's earnings performance and expects to continue doing so when earnings are strong and the amount of cash provided by operating activities exceeds the amount that management believes should be reinvested in our business. The payment of dividends, in general, and supplemental dividends, in particular, in any future period is not guaranteed and will depend upon many factors, including our earnings, cash flows, financial position and the opportunities available to us to invest further in our business to implement our growth strategy.

We are offering the shares of common stock described in this prospectus supplement through a number of underwriters. Banc of America Securities LLC, Citigroup Global Markets Inc. and J.P. The underwriters propose to offer the common shares directly to the public at the initial public offering price set forth on the cover page of this prospectus supplement and to certain dealers at that price less a concession not in excess of \$1.332 per share. Any such dealers may resell shares to certain other brokers or dealers at a discount of up to \$0.10 per share from the initial public offering price. After the initial public offering of the shares, the offering price and other selling terms may be changed by the underwriters.

The underwriters have an option to buy up to 3,750,000 additional shares of common stock from us to cover sales of shares by the underwriters which exceed the number of shares specified in the table above. The underwriters have 30 days from the date of this prospectus supplement to exercise this over-allotment option. If any shares are purchased with this over-allotment option, the underwriters will purchase shares in approximately the same proportion as shown in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered.

The underwriting fee is equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The underwriting fee is \$2.22 per share. The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

Table of Contents

We and our directors and executive officers will enter into lock-up agreements with the underwriters prior to the commencement of this offering pursuant to which we and each of these persons, with limited exceptions, for a period of 90 days after the date of this prospectus supplement, may not, without the prior written consent of the representatives of the underwriters, (1) offer, pledge, announce the intention to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock (including, without limitation, common stock which may be deemed to be beneficially owned by such directors and executive officers in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant), and with respect to us, file any registration statement with respect to any such common stock, or (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the common stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or such other securities, in cash or otherwise. The foregoing restrictions do not apply to (i) shares of common stock issued upon the exercise of an option or the conversion of a security outstanding on the date of this prospectus supplement; (ii) sales transactions of common stock described in (1) or (2) above by our directors and executive officers of up to an aggregate of 150,000 shares of our common stock; (iii) shares of common stock involved in the net share settlement of restricted stock units held by executive officers or directors that vest during the 90-day lock-up period to satisfy such person's withholding tax obligation upon such vesting; or (iv) the entering into any written trading plan or agreement designed to comply with Rule 10b5-1(c)(1) promulgated pursuant to the Exchange Act to sell shares after the 90-day lock-up period.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of common stock in the open market for the purpose of preventing or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of the common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. Short sales may be covered shorts, which are short positions in an amount not greater than the underwriters' over-allotment option referred to above, or may be naked shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their over-allotment option, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriters will consider, among other things, the price of shares available for purchase in the open market compared to the price at which the underwriters may purchase shares through the over-allotment option. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market that could adversely affect investors who purchase in this offering. To the extent that the underwriters create a naked short position, they will purchase shares in the open market to cover the position.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act of 1933, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase common stock in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on The New York Stock Exchange, in the over-the-counter market or otherwise.

Table of Contents

Certain of the underwriters and their affiliates have provided in the past to us and our affiliates and may provide from time to time in the future certain commercial banking, financial advisory, investment banking and other services for us and such affiliates in the ordinary course of their business, and are acting as underwriters in our anticipated debt offering. In particular, the affiliates of some of the underwriters are participants in our multi-year revolving credit facility described in our filings with the SEC. They have received, and in the future will receive, customary fees, commissions or other payments for these transactions. In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or the account of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future.

DESCRIPTION OF OUR DEBT SECURITIES

The following description sets forth general terms and provisions of the debt securities that we may offer with this prospectus. We will provide additional terms of the debt securities in the applicable supplement.

We will issue senior debt securities under an Indenture, dated as of January 12, 1999, between Nucor Corporation and The Bank of New York, as trustee. We refer to this indenture as the Indenture.

The following description summarizes some of the provisions of the Indenture, including definitions of some of the more important terms in the Indenture. However, we have not described every aspect of the debt securities. You should refer to the actual Indenture for a complete description of its provisions and the definitions of terms used in it. Whenever we refer to particular sections or defined terms of the Indenture in this prospectus or in any applicable supplement, we are incorporating by reference those sections or defined terms into this prospectus or the applicable supplement.

The Indenture is an exhibit to the registration statement. See [Where You Can Find More Information](#) for information on how to obtain a copy of the Indenture.

General Terms of Our Debt Securities.

The Indenture does not limit the aggregate principal amount of debt securities that we may issue under the Indenture and provides that we may issue debt securities from time to time in one or more series. (Section 2.01). In addition, neither the Indenture nor the debt securities will limit or otherwise restrict the amount of senior indebtedness that we or our subsidiaries may incur.

Under the Indenture, as of November 16, 2007, we have outstanding approximately:

\$175 million of 6% Notes due 2009; and

\$350 million of 4.875% Notes due 2012.

The debt securities will be our unsecured obligations and will rank *pari passu* with all of our other existing and future unsecured and unsubordinated indebtedness. The debt securities will be subordinated to our existing and future secured indebtedness and that of our subsidiaries and to any existing and future indebtedness of our subsidiaries. In other words, if we should default on our debt, we will not make payments on the debt securities until we have fully paid off our secured indebtedness and any indebtedness of our subsidiaries.

The particular terms of each issue of debt securities, as well as any modifications or additions to the general terms of the Indenture applicable to the issue of debt securities, will be described in the applicable supplement.

This description will contain all or some of the following as applicable:

the title of the debt security;

the aggregate principal amount and denominations;

the maturity or maturities;

the offering price and the amount we will receive from the sale of the debt securities;

Edgar Filing: NUCOR CORP - Form 424B5

the interest rate or rates, or their method of calculation, for the debt securities, which rate or rates may vary from time to time;

the date or dates on which principal and premium, if any, of the debt securities is payable;

the date or dates from which interest on the debt securities will accrue and the record date or dates for payments of interest or the methods by which any such dates will be determined;

the place or places where principal of, premium, if any, and interest on the debt securities is payable;

the terms of any sinking fund and analogous provisions with respect to the debt securities;

the respective redemption and repayment rights, if any, of Nucor and of the holders of the debt securities and the related redemption and repayment prices and any limitations on the redemption or repayment rights;

the conversion price and other terms of any debt securities that a holder may convert into or exchange for our other securities before our redemption, repayment or repurchase of those convertible debt securities;

any addition to or change in the covenants or events of default relating to any of the debt securities;

any trustee or fiscal or authenticating or payment agent, issuing and paying agent, transfer agent or registrar or any other person or entity to act in connection with the debt securities for or on behalf of the holders thereof or us or an affiliate;

whether the debt securities are to be issuable initially in temporary global form and whether any such debt securities are to be issuable in permanent global form and, if so, whether beneficial owners of interests in any such permanent global security may exchange the interests for debt securities of like tenor of any authorized form and denomination and the circumstances under which any such exchanges may occur;

the listing of the debt securities on any securities exchange or inclusion in any other market or quotation or trading system; and

any other specific terms, conditions and provisions of the debt securities.

Unless the applicable supplement provides differently, the trustee will register the transfer of any debt securities at its offices. (Section 2.05).

Unless the applicable supplement provides differently, we will issue the debt securities in fully registered form without coupons and in denominations of \$1,000 or any integral multiple of \$1,000. There will be no service charge for any registration of transfer or exchange of the debt securities, although we may require that purchasers of the debt securities pay any tax or other governmental charge associated with the registration. (Sections 2.03 and 2.05).

We may issue debt securities as original issue discount securities, to be sold at a substantial discount below their principal amount. The applicable supplement will describe any special federal income tax and other considerations applicable to these securities.

Covenants Applicable to Our Debt Securities.

Unless stated otherwise in the applicable supplement, debt securities will have the benefit of the following covenants. We have defined several capitalized terms used in this section in the subsection below entitled *Definitions of Key Terms* in the Indenture. Capitalized terms not defined herein are defined in the Indenture.

Restrictions on Secured Indebtedness.

The Indenture provides that as long as we have any debt securities outstanding under the Indenture we will not, and we will not permit any of our Restricted Subsidiaries to, create, assume, issue, guarantee or incur any Secured Indebtedness, unless immediately thereafter the aggregate amount of all Secured Indebtedness, together with the discounted present value of all rentals due in respect of Sale and Leaseback Transactions, would not exceed 10% of Consolidated Net Tangible Assets. For purposes of the calculation of the discounted present value of all rentals does not include rentals to which Section 5.06 does not apply.

Table of Contents

These restrictions do not apply to the following Secured Indebtedness, which we exclude in computing Secured Indebtedness for the purpose of the restrictions:

Liens on property as to which such series of debt securities are equally and ratably secured with (or, at our option, prior to) that Secured Indebtedness;

Liens on property, including Shares or Indebtedness, of any entity existing at the time that entity becomes a Restricted Subsidiary or arising thereafter pursuant to contractual commitments entered into prior to and not in contemplation of that entity becoming a Restricted Subsidiary;

Liens on property, including Shares or Indebtedness, existing at the time of acquisition of that property by us or a Restricted Subsidiary or to secure the payment of all or any part of the purchase price of that property created upon the acquisition of that property by us or a Restricted Subsidiary, or to secure any Secured Indebtedness incurred by us or a Restricted Subsidiary prior to, at the time of, or within one year after the later of the acquisition, the completion of construction (including any improvements, alterations or repairs to existing property) or the commencement of commercial operation of the project of which that property is a part, which Secured Indebtedness is incurred for the purpose of, and the principal amount secured by the Lien does not exceed the cost of, financing all or any part of the purchase price thereof or construction or improvements, alterations or repairs thereon;

Liens securing Secured Indebtedness of any Restricted Subsidiary owing to us or to another Restricted Subsidiary;

Liens on property of an entity existing at the time that entity is merged or consolidated with us or a Restricted Subsidiary or at the time of a sale, lease or other disposition of the properties of an entity as an entirety or substantially as an entirety to us or a Restricted Subsidiary or arising thereafter pursuant to contractual commitments entered into by that entity prior to and not in contemplation of that merger, consolidation, sale, lease or other disposition;

Liens on our property or the property of a Restricted Subsidiary in favor of governmental authorities, or any trustee or mortgagee acting on behalf, or for the benefit of any governmental authorities, to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any Indebtedness incurred for the purpose of financing all or any part of the purchase price or the cost of construction of property subject to the Liens, and any other Liens incurred or assumed in connection with pollution control, industrial revenue, private activity or similar bonds issued by a governmental authority on behalf of us or a Restricted Subsidiary;

Liens existing on the first date on which a debt security is authenticated by the trustee under the Indenture;

Liens on any property which is not a Principal Property; and

any extension, renewal or replacement in whole or in part of the foregoing, provided that the principal amount of the Secured Indebtedness being extended, renewed or replaced shall not be increased.

(Section 5.05).

Restrictions on Sales and Leasebacks.

The Indenture provides that we will not, and we will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction, unless:

after giving effect to the transaction, the aggregate amount of all Attributable Debt with respect to all such transactions plus all Secured Indebtedness outstanding to which Section 5.05 of the Indenture is applicable, would not exceed 10% of Consolidated Net Tangible Assets or

an amount equal to the greater of the amount of the net proceeds to us or such Restricted Subsidiary or the fair market value of such property as determined by our board of directors is applied to retirement of Funded Debt within one year after the consummation of such transaction.

Table of Contents

This restriction will not apply to, and there will be excluded in computing Attributable Debt for the purpose of the restriction, Attributable Debt with respect to any Sale and Leaseback Transaction if:

such Sale and Leaseback Transaction is entered into in connection with pollution control, industrial revenue, private activity or similar financing;

if we or a Restricted Subsidiary applies an amount equal to the net proceeds (after repayment of any Secured Indebtedness secured by a Lien encumbering the Principal Property which Secured Indebtedness existed immediately before the Sale and Leaseback Transaction) of the sale or transfer of the Principal Property leased pursuant to the Sale and Leaseback Transaction to investment in another Principal Property within one year prior or subsequent to the sale or transfer; or

such Sale and Leaseback Transaction was entered into by an entity prior to the time (i) that the entity became a Restricted Subsidiary, (ii) that the entity merged or consolidated with us or a Restricted Subsidiary, or (iii) of a sale, lease or other disposition of the entity's properties as an entirety or substantially as an entirety to us or a Restricted Subsidiary, or in each case arises thereafter pursuant to contractual commitments entered into by that entity prior to and not in contemplation of the entity becoming a Restricted Subsidiary or that merger, consolidation, sale, lease or other such disposition.

(Section 5.06).

Definitions of Key Terms in the Indenture.

The Indenture defines the following terms used in this subsection:

Attributable Debt means the present value (discounted in accordance with a method of accounting which for financial reporting purposes is consistent with generally accepted accounting principles but at a discount rate of not less than 10% per annum, compounded annually) of the rental payments during the remaining term of any Sale and Leaseback Transaction for which the lessee is obligated (including any period for which such lease has been extended). Such rental payments shall not include amounts payable by the lessee for maintenance and repairs, insurance, taxes, assessments, water rates and similar charges and for contingent rents (such as those based on sales). In case of any Sale and Leaseback Transaction which is terminable by the lessee upon the payment of a penalty, such rental payments shall also include such penalty, but no rent shall be considered as required to be paid under such lease subsequent to the first date upon which it may be so terminated.

Consolidated Net Tangible Assets means the aggregate amount of assets after deducting (i) all current liabilities and (ii) all goodwill, trade names, trademarks, patents, unamortized debt discount and expense and other like intangibles, all as shown on the most recent consolidated balance sheet of Nucor and our subsidiaries.

Funded Debt means (a) all indebtedness for money borrowed having a maturity of more than 12 months from the date as of which the amount thereof is to be determined or having a maturity of less than 12 months from such date but by its terms being renewable or extendible beyond 12 months from such date at the option of the borrower and (b) any indebtedness for borrowed money which may be payable from the proceeds under or pursuant to an agreement to provide borrowings with a maturity of more than 12 months from the date as of which the amount thereof is to be determined.

Indebtedness means, as to any corporation or other person, all indebtedness for money borrowed which is created, assumed, incurred or guaranteed in any manner by such corporation or other person or for which such corporation or other person is otherwise responsible or liable.

Lien shall mean any mortgage, pledge, security interest, lien or other similar encumbrance.

Principal Property means (i) any manufacturing plant located in the United States, or manufacturing equipment located in any such manufacturing plant (together with the land on which that plant is erected and fixtures comprising a part thereof), owned or leased on the first date on which a debt security is authenticated by

Table of Contents

the trustee or thereafter acquired or leased by us or any Restricted Subsidiary, and (ii) any Shares issued by, or any interest of ours or any Subsidiary in, any Restricted Subsidiary, other than (a) any property or Shares or interests the book value of which is less than 1% of Consolidated Net Tangible Assets, or (b) any property or Shares or interests which our board of directors determines is not of material importance to the total business conducted, or assets owned, by us and our Subsidiaries, as an entirety, or (c) any portion of any property which our board of directors determines not to be of material importance to the use or operation of that property. **Manufacturing plant** does not include any plant owned or leased jointly or in common with one or more person other than us and our Restricted Subsidiaries in which the aggregate direct or indirect interest of ours and our Restricted Subsidiaries does not exceed 50%. **Manufacturing equipment** means manufacturing equipment in those manufacturing plants used directly in the production of our or any Restricted Subsidiary's products and does not include office equipment, computer equipment, rolling stock and other equipment not directly used in the production of our or any Restricted Subsidiary's products.

Restricted Subsidiary means any Subsidiary substantially all the property of which is located within the United States, other than a Subsidiary primarily engaged in investing in and/or financing our or any Subsidiary's or affiliate's operations outside the United States.

Sale and Leaseback Transaction means any arrangement with any person providing for the leasing by us or any Restricted Subsidiary of any Principal Property of ours or any Restricted Subsidiary, whether that Principal Property is now owned or hereafter acquired (except for leases for a term of not more than three years and except for leases between us and a Restricted Subsidiary or between Restricted Subsidiaries and except for leases of property executed prior to, at the time of, or within one year after the later of, the acquisition, the completion of construction, including any improvements or alterations on real property, or the commencement of commercial operations of that property), which Principal Property has been or is to be sold or transferred by us or the Restricted Subsidiary to that person.

Secured Indebtedness means Indebtedness secured by any Lien upon property (including Shares or Indebtedness issued by or other ownership interests in any Restricted Subsidiary) owned by us or any Restricted Subsidiary.

Shares means as to any corporation all the issued and outstanding equity shares (except for directors' qualifying shares) of that corporation.

Subsidiary means an entity more than 50% of the outstanding voting interest of which is owned, directly or indirectly, by us or by one or more other Subsidiaries, or by us and one or more other Subsidiaries. For the purposes of this definition, **voting interest** in any entity means any equity interest which ordinarily has voting power for the election of directors or their equivalent.

(Section 1.01).

Consolidation, Merger and Sale of Assets.

Without the consent of the holders of any of the outstanding debt securities, we may consolidate with or merge into any other corporation, or convey or transfer our properties and assets substantially as an entirety to any person, as long as:

the successor is a corporation organized and existing under the laws of the United States of America or any State or the District of Columbia;

the successor corporation assumes our obligations on the debt securities and under the Indenture;

immediately after giving effect to the transaction, no event of default, and no event that, after notice, lapse of time or both, would become an event of default, has occurred and is continuing; and

other conditions described in the Indenture are met. (Section 12.01).

Table of Contents

Accordingly, the holders of debt securities may not have protection in the event of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction involving us that may adversely affect the holders. The existing protective covenants applicable to the debt securities would continue to apply to us in the event of a leveraged buyout initiated or supported by us, our management, or any of our affiliates or their management, but may not prevent such a transaction from taking place.

Events of Default.

The following are events of default with respect to debt securities of any series, unless it is either inapplicable to a particular series or is specifically deleted or modified in any supplemental indenture under which such series is issued:

default in the payment of any interest installment with respect to debt securities of that series when due and continuance of the default for a period of ten (10) days after receipt by us of written notice of the default from any person;

default in the payment of principal of, or premium, if any, on, debt securities of that series when due either at its maturity, when called for redemption, by declaration or otherwise, and continuance of the default for a period of ten (10) days after receipt by us of written notice of the default from any person;

default in the making of any payment for a sinking, purchase or analogous fund provided for in respect of any of the debt securities of that series as and when the same shall become due and payable, and continuance of such default for a period of ten days after receipt by us of written notice of the default from any person;

failure by us to observe or perform any other covenant or agreement in respect of debt securities of that series for a period of ninety days after the trustee gives us written notice, or holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series give us and the trustee written notice of default; and

certain events of bankruptcy, insolvency and reorganization as more fully described in the Indenture. (Section 7.01).

The applicable supplement will describe any additional events of default that may be added to the Indenture for a particular series of debt securities. (Section 7.01). No event of default with respect to a particular series of debt securities issued under the Indenture necessarily constitutes an event of default with respect to any other series of debt securities issued under the Indenture.

The Indenture provides that the trustee will, within 90 days after the occurrence of a default with respect to debt securities of the series, give to the holders of those debt securities notice of all uncured defaults known to it, provided that except in the case of default in payment of the principal of, premium, if any, or interest on the debt securities of that series, the trustee may withhold the notice if and so long as it in good faith determines that withholding the notice is in the interest of the holders of the debt securities of that series. The term "default" for the purpose of this provision means any event that is, or after notice or passage of time or both would be, an event of default with respect to the debt securities of such series. (Section 7.08).

If an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount (or, the portion of the principal amount as may be specified in the terms of the series) of all the debt securities of that series to be due and payable immediately. (Section 7.01). Prior to any declaration accelerating the maturity of any series of debt securities, the holders of a majority in principal amount of the outstanding debt securities of that series may, on behalf of the holders of all debt securities of that series, waive any past default or event of default with respect to the debt securities of that series except a default (i) in the payment of principal of, premium, if any, or interest, if any, on any debt securities of that series or (ii) in regard to a covenant or provision applicable to that series that cannot be

modified or amended without the consent of the holder of each outstanding debt security of that series. (Section 7.07). At any time after making a declaration of acceleration with respect to debt securities of any series, but before obtaining or entering of a judgment or decree for the payment of money, the holders of a majority in aggregate principal amount of outstanding debt securities of the series may, in some circumstances, rescind and annul the acceleration. (Section 7.01).

The Indenture provides that, except for the duty of the trustee in the case of an event of default to act with the required standard of care, the trustee will be under no obligation to exercise any of these rights or powers under the Indenture at the request or direction of any of the holders, unless the holders have offered reasonable indemnity to the trustee. (Sections 8.01 and 8.02).

The Indenture provides that the holders of a majority in aggregate principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting proceedings for remedies available to the trustee or exercising any trust or power conferred on the trustee in respect of that series, except for cases in which the trustee is being advised by counsel that the action or proceeding may not lawfully be taken or would be in conflict with the terms of the Indenture or if the determination is made that the action or proceeding would involve the trustee in personal liability or would be unduly prejudicial to the holders of the debt securities not joining in the direction. (Section 7.07). Otherwise, a holder of debt securities of a series may not pursue any remedy with respect to the indenture or any debt securities of that series unless:

the holder of debt securities of that series gives us and the trustee written notice of a continuing default;

the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding make a written request to the trustee to pursue the remedy;

the holder or holders of debt securities of that series offer the trustee reasonable security or indemnity satisfactory to the trustee against any costs, liability or expense incurred in connection therewith;

the trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and

during such 60-day period, the holders of a majority in aggregate principal amount of the debt securities of that series then outstanding do not give the trustee a direction that is inconsistent with the request.

However, these limitations do not apply to the right of any holder of any debt securities to receive payment of the principal of, premium, if any, and interest on the debt securities of a series or to bring suit for the enforcement of any such payment on or after the due date expressed in the debt securities, which right shall not be impaired or affected without the consent of the holder. (Section 7.04)

We are required to furnish annually to the trustee a statement as to our performance and observance of and compliance with some of our obligations under the Indenture and as to any default in our performance, observance or compliance. (Section 5.08).

Global Securities.

We may issue the debt securities of a series as one or more fully registered global securities. We will deposit the global securities with, or on behalf of, a depositary identified in the applicable supplement relating to the series. We will register the global securities in the name of the depositary or its nominee. In such case, one or more global securities will be issued in a denomination or aggregate denominations equal to the aggregate principal amount of outstanding debt securities of the series represented by the global security or securities. Until any global security is exchanged in whole or in part for debt securities in definitive certificated form, the depositary or its nominee may not transfer the global certificate except as a whole to each other, another nominee or to their successors and except as described in the applicable supplement. (Section 2.11).

Table of Contents

The applicable supplement will describe the specific terms of the depositary arrangement with respect to a series of debt securities that a global security will represent.

Modification of the Indenture.

The Indenture provides that we and the trustee may, without the consent of any holders of debt securities, enter into supplemental indentures for the purposes, among other things, of:

adding further events of default or other covenants, restrictions or conditions for the benefit of the holders of all or any series of debt securities;

establishing the form or terms of any other series of debt securities; or

clarifying or curing ambiguities or inconsistencies in the indenture or making other provisions in regard to matters or questions arising under the indenture, if those actions do not adversely affect the interests of the holders of any affected series of debt securities in any material respect.

(Section 11.01).

We and the trustee, with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of each series to be affected, may execute supplemental indentures adding any provisions to or changing or eliminating any of the provisions of the Indenture or any supplemental indenture or debt security of a series or modifying in any manner the rights of the holders of the debt securities of that series to be affected, except that no supplemental indenture may, without the consent of the holders of all debt securities of that series then outstanding:

change the fixed maturity (which term for these purposes does not include payments due pursuant to any sinking, purchase or analogous fund) of those debt securities, reduce the principal amount thereof, reduce the rate or extend the time of payment of interest thereon, reduce any premium payable upon the redemption thereof or impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof (or, in the case of redemption, on or after the redemption date without the consent of the holder of each debt security so affected), or

reduce the percentage of debt securities of a series required to approve any such supplemental indenture.

(Section 11.02).

The Effect of Our Corporate Structure on Our Payment of the Debt Securities.

The debt securities are the obligations of Nucor exclusively. Because our operations are currently conducted through subsidiaries, the cash flow and our consequent ability to service our debt, including the debt securities, are dependent, in part, upon the earnings of our subsidiaries and the distribution of those earnings to us or upon loans or other payments of funds by those subsidiaries to us. Our subsidiaries are separate and distinct legal entities. They have no obligation, contingent or otherwise, to pay any amounts due on the debt securities or to make any funds available for our payment of any amounts due on the debt securities, whether by dividends, loans or other payments. In addition, our subsidiaries payments of dividends and making of loans and advances to us may be subject to statutory or contractual restrictions and are contingent upon the earnings of those subsidiaries and various business considerations.

Although the Indenture limits the incurrence of Secured Indebtedness, as described above in the subsection **Covenants Applicable to Our Debt Securities**, the debt securities will be effectively subordinated to all indebtedness and other liabilities, including current liabilities and commitments under leases, if any, of our subsidiaries. Any right of ours to receive assets of any of our subsidiaries upon liquidation or reorganization of the subsidiary (and the consequent right of the holders of the debt securities to participate in those assets) will be effectively

Edgar Filing: NUCOR CORP - Form 424B5

subordinated to the claims of that subsidiary's creditors (including trade creditors), except to the extent that we are recognized as a creditor of the subsidiary, in which case our claims would still be subordinated to any security interests in the subsidiary's assets and any of the subsidiary's indebtedness senior to that which we hold.

No Restriction on Sale or Issuance of Stock of Subsidiaries.

The Indenture contains no covenant that we will not sell, transfer or otherwise dispose of any shares of, or securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, voting stock of any of our subsidiaries. It also does not prohibit any subsidiary from issuing any shares of, securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, the subsidiary's voting stock.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees.

No recourse for the payment of the principal of, premium, if any, or interest on any debt securities issued under the Indenture or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any of our obligations, covenants or agreements in the Indenture or a supplemental indenture, or in any debt securities issued under the Indenture or because of the creation of any indebtedness represented thereby, shall be had against any of our incorporators, stockholders, officers, directors or employees or of any successor person thereof. Each holder, by accepting notes issued under the Indenture, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the debt securities. This waiver may not be effective to waive liabilities under the federal securities laws. (Section 14.01).

Reports to Holders and SEC Reports.

We will file with the trustee and transmit to holders of debt securities the information, documents and other reports required pursuant to the Trust Indenture Act at the times and in the manner provided in that Act. We will also file with the trustee any other information, documents or reports required to be filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act within 30 days after the information, documents or reports are required to be filed with the SEC. (Section 6.04).

DESCRIPTION OF OUR COMMON STOCK

General.

As of November 16, 2007, our authorized capital stock consists of 800,000,000 shares of common stock, par value \$0.40 per share, and 250,000 shares of preferred stock, par value \$4.00 per share, 200,000 shares of which have been designated as Series A Junior Participating Preferred Stock. As of November 12, 2007, 287,967,687 shares of common stock were issued and outstanding (not including treasury shares) and none of our preferred stock was issued and outstanding.

The following description of our common stock and provisions of our Restated Certificate of Incorporation, as amended (the Restated Certificate of Incorporation) and By-laws are only summaries and we encourage you to review complete copies of our Restated Certificate of Incorporation and By-laws, which we have previously filed with the SEC.

The holders of our common stock are entitled to have dividends declared in cash, property, or other securities out of any of our net profits or net assets legally available therefor as and when declared by our board of directors. This dividend right is subject to any preferential dividend rights we may grant to the persons who hold preferred stock, if any. In the event of the liquidation or dissolution of our business, the holders of common stock will be entitled to receive ratably the balance of net assets available for distribution after payment of any liquidation or distribution preference payable with respect to any then outstanding shares of our preferred stock. Each share of common stock is entitled to one vote with respect to matters brought before the stockholders, except for the election of any directors with respect to which stockholders have cumulative voting rights.

Our common stock is traded on the New York Stock Exchange under the symbol NUE.

Delaware Anti-Takeover Law and Certain Restated Certificate of Incorporation and By-Law Provisions.

The provisions of Delaware law, our Restated Certificate of Incorporation and By-Laws may have the effect of delaying, deferring or discouraging another person from acquiring control of our company, including takeover attempts that might result in a premium over the market price for the shares of common stock.

Delaware Law

We are subject to the provisions of Section 203 of the Delaware General Corporation Law regulating corporate takeovers. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the time that the person became an interested stockholder, unless:

before the person became an interested stockholder, the board of directors of the corporation approved the transaction in which the interested stockholder became an interested stockholder or approved the business combination;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation that was outstanding at the time the transaction commenced. For purposes of determining the number of shares outstanding, shares owned by directors who are also officers of the corporation and shares owned by employee stock plans, in specified instances, are excluded; or

at or after the time the person became an interested stockholder, the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of the stockholders by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

Table of Contents

A business combination is defined generally to include mergers or consolidations between a Delaware corporation and an interested stockholder, transactions with an interested stockholder involving the assets or stock of the corporation or any majority-owned subsidiary, transactions which increase an interested stockholder's percentage ownership of stock of the corporation or any majority-owned subsidiary, and receipt of various financial benefits from the corporation or any majority-owned subsidiary. In general, an interested stockholder is defined as any person or entity that is the beneficial owner of at least 15% of a corporation's outstanding voting stock or is an affiliate or associate of the corporation and was the beneficial owner of 15% or more of the outstanding voting stock of the corporation at any time within the prior three years.

A Delaware corporation may opt out of this provision with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or by-laws resulting from a stockholders' amendment approved by at least a majority of the outstanding voting shares. However, we have not opted out of this provision. The statute could prohibit or delay mergers or other takeover or change-in-control attempts and, accordingly, may discourage attempts to acquire us.

Restated Certificate of Incorporation and By-Law Provisions

Our Restated Certificate of Incorporation and By-Laws provide:

a staggered board of directors so that it would take three successive annual meetings to replace all directors;

advance notice requirements for stockholder proposals and nominations;

limitations on the ability of stockholders to amend, alter or repeal the By-laws;

enhanced voting requirements for certain business combinations and transactions involving greater than 10% stockholders; and

the authority of our board of directors to issue, without stockholder approval, preferred stock with such terms as our board of directors may determine.

Limitations of Liability and Indemnification of Directors and Officers

Article VIII of our Restated Certificate of Incorporation and Section 145 of the Delaware General Corporation Law generally provide that any person who serves or has served as our director, officer, employee or agent, or in such capacity at our request of another corporation, partnership, joint venture, trust or other enterprise, will be indemnified by us to the fullest extent permitted by law against (i) expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that such person is or was acting in such capacity if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful and (ii) expenses (including attorneys' fees) actually and reasonable incurred by such person in connection with the defense or settlement of any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person is or was acting in such capacity if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of such person's duty to the corporation.

Our Restated Certificate of Incorporation and Section 145 of the Delaware General Corporation Law also state that indemnification provisions described above are not exclusive of any other rights to indemnification or advancement of expenses to which any person may be entitled under any by-law, agreement, vote of stockholders

Table of Contents

or disinterested directors or otherwise. We may pay expenses incurred by our directors and officers in defending a civil or criminal action, suit or proceeding for which such persons may have a right of indemnification prior to the final disposition of such action, suit or proceeding if we receive an undertaking by or on behalf of such person to repay all amounts advanced unless such person is entitled to be indemnified by us as described above.

Section 102(b)(7) of the Delaware General Corporation Law provides that a corporation may eliminate or limit the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that such provision shall not eliminate or limit the liability of a director (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) for willful or negligent conduct in paying dividends or repurchasing stock out of other than lawfully available funds or (iv) for any transaction from which the director derived an improper personal benefit. No such provision shall eliminate or limit the liability of a director for any action or omission occurring prior to the date when such provision becomes effective.

We maintain insurance for the benefit of directors and officers insuring them against liabilities under the Securities Act and claims that are made against them by reason of any wrongful act (as defined) committed in their capacity as directors or officers.

Rights Plan.

In 2001, our board of directors adopted a Stockholder Rights Plan (Plan) in which one right (Right) was distributed as a dividend for each Nucor common share outstanding. The Plan was amended in 2006 to adjust the purchase price of the Rights for stock splits effected since adoption of the Plan. Each Right entitles Nucor common stockholders to purchase, under certain conditions, one five-thousandth of a share of newly authorized Series A Junior Participating Preferred Stock (Preferred Stock). One five-thousandth of a share of Preferred Stock is intended to be the economic equivalent of one share of our common stock. Until the occurrence of certain events, the Rights are represented by and traded in tandem with our common stock. Rights will be exercisable only if a person or group acquires beneficial ownership of fifteen percent (15%) or more of our outstanding common shares or commences a tender or exchange offer, upon the consummation of which such person or group would beneficially own fifteen percent (15%) or more of our outstanding common shares. Upon such an event, the Rights enable dilution of the acquiring person's or group's interest by providing that other holders of our common stock may purchase, at an exercise price of \$150, our common stock, or in the discretion of the board of directors, Preferred Stock, having double the value of such exercise price. We will be entitled to redeem the Rights at \$0.001 per Right under certain circumstances set forth in the Plan. The Rights themselves have no voting power and will expire on March 8, 2011, unless earlier exercised, redeemed or exchanged. Each one five-thousandth of a share of Preferred Stock has the same voting rights as one share of our common stock, and each share of Preferred Stock has 5,000 times the voting power of one share of our common stock.

Transfer Agent and Registrar.

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company, New York, New York.

DESCRIPTION OF OUR PREFERRED STOCK

General.

The following is a summary of some of the important terms of our preferred stock. You should review the applicable Delaware law, our Restated Certificate of Incorporation and By-laws, for a more complete description of our preferred stock.

Our Restated Certificate of Incorporation authorizes us to issue 250,000 shares of preferred stock, par value \$4.00 per share, 200,000 shares of which have been designated as Series A Junior Participating Preferred Stock. We may amend our Restated Certificate of Incorporation from time to time to increase the number of authorized shares of preferred stock. Such an amendment would require the approval of the holders of the voting capital stock entitled to vote on such an amendment in accordance with the terms of our Restated Certificate of Incorporation. As of the date of this prospectus, we had no shares of preferred stock outstanding.

The Board of Directors is authorized to designate the following with respect to each new series of preferred stock:

the title and stated value of the series;

the number of shares in each series;

the dividend rates and dates of payment;

whether dividends will be cumulative and, if cumulative, the date from which dividends will accumulate;

voluntary and involuntary liquidation preferences and the liquidation price and liquidation premium, if any, applicable to the series;

redemption prices, if redeemable, and the terms and conditions of such redemption;

the rights, if any, and the terms and conditions on which shares can be converted into shares of any other class or series;

the voting rights, if any; and

any other applicable terms.

We will pay dividends and make distributions in the event of our liquidation, dissolution or winding up first to holders of our preferred stock and then to holders of our common stock. The Board of Directors' ability to issue preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, adversely affect the voting powers of holders of common stock and, under some circumstances, may discourage an attempt by others to gain control of us.

The terms of any series of preferred stock will be described in a supplement to this prospectus. Nevertheless, the description of the terms of any series of preferred stock in a supplement to this prospectus will not be complete. You should refer to the certificate of designation for the series of preferred stock for complete information.

Miscellaneous.

PLAN OF DISTRIBUTION

We may sell the securities described in this prospectus to or through underwriters, agents or dealers or directly to one or more purchasers without using underwriters, agents or dealers.

The accompanying supplement to this prospectus will identify or describe:

any underwriters, agents or dealers;

their compensation;

the net proceeds to us;

the purchase price of the securities;

the initial public offering price of the securities; and

any exchange on which the securities are listed or to which application will be made to list the securities.

We may designate agents to solicit purchases for the period of their appointment and to sell securities on a continuing basis, including pursuant to at the market offerings .

We may offer these securities to the public through underwriting syndicates represented by managing underwriters or through underwriters without a syndicate. If underwriters are used, the securities will be acquired by the underwriters for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions at a fixed public offering price or at varying prices determined at the time of sale. Unless otherwise indicated in the applicable supplement, the obligations of the underwriters to purchase the securities will be subject to customary conditions precedent and the underwriters will be obligated to purchase all the securities offered if any of the securities are purchased. Underwriters may sell securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent. Any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

Underwriters and agents may from time to time purchase and sell the securities described in this prospectus and the applicable supplement in the secondary market, but are not obligated to do so. No assurance can be given that there will be a secondary market for the securities or liquidity in the secondary market if one develops. From time to time, underwriters and agents may make a market in the securities.

In order to facilitate the offering of the securities, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of these securities or any other securities the prices of which may be used to determine payments on these securities. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the debt securities for their own accounts. In addition, to cover over-allotments or to stabilize the price of the securities or of any other securities, the underwriters may bid for, and purchase, the securities or any other securities in the open market. Finally, in any offering of the securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the securities in the offering, if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

Underwriters named in an applicable supplement are, and dealers and agents named in an applicable supplement may be, deemed to be underwriters within the meaning of the Securities Act of 1933 in connection with the securities offered thereby, and any discounts or commissions they receive from us and any profit on

Table of Contents

their resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act of 1933. We may have agreements with the underwriters, agents and dealers to indemnify them against certain civil liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments they may be required to make in respect of these liabilities. Underwriters, agents and dealers may engage in transactions with or perform services for Nucor or our subsidiaries and affiliates in the ordinary course of business.

If indicated in an applicable supplement, we will authorize dealers acting as our agents to solicit offers from some institutions to purchase our securities at the public offering price given in that supplement under Delayed Delivery Contracts providing for payment and delivery on the date or dates stated in such supplement. Each contract will be for an amount not less than, and the aggregate principal amount of securities sold under the contracts will not be less nor more than, the respective amounts stated in the applicable supplement. Institutions with whom contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but will in all cases be subject to our approval. Contracts will not be subject to any conditions except that:

the purchase by an institution of the securities covered by its contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which such institution is subject, and

if the securities are being sold to underwriters, we will have sold to the underwriters the total principal amount of the securities less the principal amount covered by contracts.

One or more firms, referred to as remarketing firms, may also offer or sell the securities, if the applicable supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us. These remarketing firms will offer or sell the securities in accordance with a redemption or repayment pursuant to the terms of the securities. The applicable supplement will identify any remarketing firm and the terms of its agreement, if any, with us and will describe the remarketing firm's compensation. Remarketing firms may be deemed to be underwriters in connection with the securities they remarket. Remarketing firms may be entitled under agreements that may be entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Securities Act of 1933 and may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

Unless indicated in the applicable supplement, we do not expect to apply to list the securities on a securities exchange.

LEGAL MATTERS

The validity of the securities will be passed upon for us by Moore & Van Allen PLLC, Charlotte, North Carolina. Some attorneys with Moore & Van Allen PLLC own shares of our common stock.
