**(2) Reasons for revisions**

## 1. Revisions to non-consolidated forecasts

## (1) Ordinary revenue

Ordinary revenue for the interim period is expected to be higher than the initial forecast, mainly due to an increase in gains on the sale of marketable securities

## (2) Ordinary profit; Net income

As a result of the slump in securities markets occasioned by the turmoil in U.S. financial markets, ordinary profit and net income for the interim period are expected to be lower than initial forecasts, mainly due to the recording of impairment losses resulting from a fall in share prices.

## 2. Revisions to consolidated forecasts

Revisions to consolidated forecasts are mainly the result of the revisions to non-consolidated forecasts.
