If you wish to receive a copy of the actual text of the Plan filed with the SEC as Exhibit 99.1 to our Current Report on Form 8-K filed August 31, 2006, please contact: PNM Resources, Inc., Investor Relations, Alvarado Square, Albuquerque, New Mexico 87158, telephone (505) 241-2868.

Purpose

The purpose of the Plan is to provide new and existing shareholders with a convenient and economical method of investing cash and cash dividends in shares of our common stock. Since new shares of our common stock, or shares held in our treasury, may be purchased directly from us, we may receive additional funds for general corporate purposes.

Nothing in this prospectus supplement and accompanying prospectus or other Plan information represents a recommendation by PNM Resources or anyone else that any person buy or sell PNM Resources common stock. We urge you to read this prospectus thoroughly before you make your own independent decision regarding whether or not to invest in PNM Resources common stock through this Plan.

The value of shares of PNM Resources common stock may increase or decrease from time to time. A Plan participant, like the owner of directly held shares, bears all risk of loss that may result from market fluctuations in the price of our common stock. Unlike an individual stock brokerage account, however, a Plan participant does not have control or authority to direct the price or time at which common stock held under the Plan for the Participant is purchased or sold. We cannot guarantee that shares purchased under the Plan will, at any particular time, be worth more than their purchase price. The Securities Investor Protection Corporation, the Federal Deposit Insurance Corporation, or any other entity does not insure Plan accounts.

What are my investment options?

Once enrolled in the Plan, you may purchase additional shares of common stock through reinvestment of your dividends and/or by cash investments as described below:

Dividend reinvestment. If you are a shareholder of record and you own less than 100 shares, you will automatically be enrolled in the Plan and will have your dividends reinvested in additional shares (unless you contact the Plan Administrator as directed on page S-7 of this prospectus supplement to request cash dividends). In addition, you will receive an annual statement and will have electronic access to your account on-line through Investor ServiceDirect® at www.bnymellon.com/shareowner or by telephone at 1-877-663-7775. If you are a shareholder of record owning 100 shares or more, you may choose to reinvest all or a portion of the regular cash dividends paid on your shares held in the Plan toward the purchase of additional shares of our common stock. In addition, you will receive a quarterly account statement and have electronic access to your account on-line through Investor ServiceDirect® at www.bnymellon.com/shareowner or by telephone at 1-877-663-7775.

You may change your dividend reinvestment election at any time by notifying the Plan Administrator. For a particular dividend to be reinvested, your notification must be received before the record date for that dividend. (The record date is approximately 14 days before the dividend payment date.)

You may, of course, choose not to reinvest any of your dividends, in which case the Plan Administrator will remit any dividends to you by check or automatic deposit to a bank account you designate.

If you elect to reinvest your dividends, you must choose one of the following:

Full dividend reinvestment. This means you will purchase additional shares through the Plan by investing all your cash dividends.

Partial dividend reinvestment. If you own 100 shares or more and choose to reinvest less than all your dividends, you may receive a cash dividend payment based on the number of full shares you specify and reinvest the dividends on all remaining shares. This allows you to receive a fixed amount of cash each quarter (assuming the dividend stays the same).

Optional cash investments. You may purchase additional shares of our common stock by using the Plan's optional cash investment feature. You must invest at least \$50 at any one time but not more than \$100,000 per year. Upon receipt of your funds, the Plan Administrator will invest initial and additional cash investments as promptly as practicable, normally at least once every 5 business days.

Shares will be posted to your account in whole and fractional shares immediately upon settlement, usually within 3 business days. You will receive a confirmation of your transaction by paper statement at the postal address you give us when you enroll in the plan.

In the unlikely event that, due to unusual market conditions, the Plan Administrator is unable to invest your funds within 35 days, the Plan Administrator will return the funds to you by check. *No interest will be paid on funds held by the Plan Administrator pending investment.*

Table of Contents

For automatic monthly purchases, the amounts you have authorized will be withdrawn from your banking account on the 24th day of each month, or the next succeeding business day if the 24th falls on a weekend or holiday. The funds will be credited to your account and invested within 5 business days of receipt by the Plan Administrator.

The Plan Administrator will use your investment to purchase as many full and fractional shares as possible. Fractional share amounts will be computed to four decimal places.

You may make optional cash investments by sending a check (not cash) to the Plan Administrator payable to PNM Resources Direct/BNY Mellon, or by authorizing individual electronic transfers from your bank account by accessing your account on-line through Investor ServiceDirect® at bnymellon.com/shareowner/isd. To facilitate processing of your investment when you send a check, please use the transaction stub attached to your Plan statement. Mail your investment and transaction stub to the address specified on the statement. A \$35 fee will be assessed for a check or electronic debit that is returned for insufficient funds. Please see the fee schedule attached as Appendix A.

How are my shares typically purchased and how is the purchase price for the shares determined?

Shares of our common stock purchased under the Plan will be, at our election, newly issued shares purchased directly from us, treasury shares purchased directly from us, shares purchased by a broker, or a combination thereof. If shares are purchased under the Plan directly from us and by the Plan Administrator through its broker, each participant's Plan account will be credited with its pro rata portion of the number of shares purchased directly from us and by the broker. We have full discretion as to whether the common stock purchased under the Plan will be purchased on the open market or purchased directly from us, based on our need for capital.

Common Stock purchased in the open market. The investment price of our common stock purchased in the open market with reinvested dividends, with initial cash investments or with optional cash investments will be the weighted average price, including applicable brokerage trading fees, incurred in connection with the purchase of such shares for the relevant investment date. No interest will be paid on funds held by the Plan Administrator pending investment. The Plan Administrator will normally invest cash dividends within 5 business days of the dividend payment date and will normally invest initial and optional cash investments at least once every 5 business days. The brokerage trading fee is currently 6 cents per share. We will pay this fee for shares purchased with reinvested dividends and so the weighted average price for such shares will not include this trading fee. See Appendix A.

Common Stock purchased directly from us. The price of our common stock purchased directly from us with reinvested dividends, initial cash investments or optional cash investments will be the average of the high and low sale prices of shares of our common stock reported on the NYSE on the dividend payment date, initial cash investment date or optional cash investment date, as the case may be. No interest will be paid on funds held by the Plan Administrator pending investment. The Plan Administrator will normally invest initial and optional cash investments at least once every 5 business days.

The weighted average price used to calculate the investment price of open market purchases assumes the use of multiple open market purchases to invest plan participant investments. For example, if plan investments required the acquisition of 5,000 shares for allocation to 100 investors and the plan needed the following three separate purchases in the open market to acquire the 5,000 shares, the weighted average would be calculated as follows:

1,000 shares @ \$9.50 =	\$9,500
3,000 shares @ \$9.75 =	\$29,250
1,000 shares @ \$9.625 =	<u>\$9,625</u>
\$48,375 /5,000 =	\$9.675

Table of Contents

Under the above example, \$9.675 would be the investment price of our common stock purchased on the open market with reinvested dividends. The current trading fee paid by participants for common stock purchased on the open market for initial and optional cash investments is 6 cents per share. Thus, under the above example, \$9.735 would be the investment price of our common stock purchased on the open market so that an initial or optional cash investment of \$1000 would purchase 102.7221 shares as shown below:

Your investment	\$ 1,000.00
Weighted average share price	\$ 9.675
Brokerage trading fee	\$ 0.060
Total price per share	\$ 9.735

Total shares purchased = \$1,000.00/\$9.735 = 102.7221

The same computational method, however, is not used for shares purchased directly from us because shares purchased in the open market are based upon specific open market transactions that need to be allocated to participants at actual cost. Newly issued shares issued by the Company are not based on specific transactions that need to be allocated but are based on the market, for that day, which is determined based on the average of the low and the high prices of the common stock for the entire day.

Thus, for shares purchased directly from the Company, the issuance price of those shares will be based on the average of the high and low prices of stock trades during the day. If, for example, there were only three trades on a day, at prices indicated in the previous example for market purchases, the average of the high and low prices would be \$9.625 per share $((\$9.50 + \$9.75)/2)$.

Your account will be credited with that number of shares, including fractional shares computed to four decimal places, equal to the amount invested with respect to your Plan account, divided by the price per share of such shares for all purchases for all Plan participants during the applicable period.

You do not have control or authority to direct the price or time at which common stock is purchased or sold for Plan accounts. Therefore, you bear market risk associated with fluctuations in the price of common stock as the price of common stock may go up or down before a purchase or sale is made for your account.

Unless you request one, certificates for shares of common stock purchased under the Plan will not be issued. The number of shares purchased for your account under the Plan will be shown on your statement of account in book-entry form.

Certificates for any number of whole shares credited to your account under the Plan will be issued upon your request. Any remaining full shares and fractions of a share will continue to be credited to your account. Certificates for fractions of shares will not be issued.

How do I sell my shares out of the Plan?

You may sell any number of shares held in book-entry form by notifying the Plan Administrator by phone at 1-877-663-7775, by accessing your account on-line through Investor ServiceDirect® at www.bnymellon.com/shareowner/isd or in writing. Your sale request will be processed and your shares will, subject to market conditions and other factors, generally be sold within 24 hours of receipt of your request. The sale price will be the weighted average price of all shares sold for Plan participants during the period. Please note that the Plan Administrator cannot and does not guarantee the actual sale date or price, nor can it stop or cancel any outstanding sales or issuance requests. All requests are final. The Plan Administrator will mail a check to you (less applicable sales fees) on the settlement date, which is 3 business days after your shares have been sold. Please allow an additional 5 to 7 business days from the settlement date for the post office to deliver your check.

Currently, there is a \$15.00 processing fee, plus a trading fee of \$0.06 per share, for sale transactions and liquidations.

Alternatively, you may choose to sell your shares through a stockbroker of your choice, in which case you would have to request a certificate for your shares from the Plan Administrator prior to such sale.

What is Safekeeping?

Shares of our common stock that you buy under the Plan will be maintained in your Plan account for safekeeping. You will receive a periodic Plan statement detailing the status of your holdings. Safekeeping protects your shares against loss, theft or accidental destruction. Safekeeping also provides a convenient way for you to keep track of your shares. Only shares held in safekeeping may be sold through the Plan.

If you own additional shares of our common stock in certificated form, you may deposit your certificates into your Plan account, free of charge. To use this service, send your certificates to BNY Mellon Shareowner Services by registered mail or traceable delivery service with written instructions to deposit them into your Plan account for safekeeping. The Plan Administrator will provide loss insurance coverage for your certificates with a value not exceeding \$100,000 in any one shipping package that is mailed to its address at 480 Washington Boulevard, Jersey City, New Jersey 07310 by USPS registered mail or by traceable delivery service. Do not endorse the certificates or complete the assignment section.

Note: Mail loss insurance covers only the replacement of shares of stock and in no way protects against any loss resulting from fluctuations in the value of such shares.

May I gift my shares out of the Plan?

You may gift or transfer your shares to any recipient you choose by:

making an initial \$50 cash investment to establish an account in the recipient's name or

transferring shares from your account to the recipient.

Table of Contents

You must transfer a whole number of shares unless you transfer your entire account. You may transfer shares to new or existing shareholders. The Plan Administrator will automatically place such new accounts in full dividend reinvestment status. New participants, at their discretion, may elect another option. If you participate in the *dividend reinvestment portion* of the Plan and your request to either transfer all your shares or make a partial sale and transfer the balance of your shares is received between the ex-dividend date (the day after the last day during the quarter on which stock can be transferred with the new owner receiving that quarter's dividend payout), and the dividend record date, the processing of your request may be held until after your account is credited with reinvested dividends.

You must have your signature guaranteed by a financial institution participating in the Medallion Signature Guarantee program. The Medallion Guarantee program ensures that the individual signing the certificate or transfer instructions is in fact the registered owner as the name appears on the stock certificate or stock power.

If you need additional assistance, please contact the Plan Administrator.

How do I get my stock certificates?

You may withdraw all or some of the shares from your Plan account by notifying the Plan Administrator. Certificates will be issued for whole shares only. If your request involves a fractional share, a check (less any applicable fees) for the value of the fractional share will be mailed to you.

Certificates will be issued in the name(s) in which the account is registered, unless otherwise instructed. If the certificate is issued in a name other than that on your Plan account registration form, the signature on the instructions or stock power must be guaranteed by a financial institution participating in the Medallion Signature Guarantee program, as described above.

What are the fees relating to participation in the Plan?

The current fees are described in Appendix A. The Plan Administrator will deduct the applicable fees from the investment amount or proceeds from a sale.

How is my investment tracked?

If you participate in the dividend reinvestment portion of the Plan and you hold 100 shares or more, the Plan Administrator will mail you a quarterly Plan statement showing all transactions (shares, amounts invested, purchase prices) for your account, including year-to-date and other account information. If you own less than 100 shares, you will receive an annual statement.

Supplemental statements or notices will be sent when you make an initial or optional cash investment or a deposit, transfer or withdrawal of shares.

Please retain your Plan statements to establish the cost basis of shares purchased under the Plan for income tax and other purposes.

You should notify the Plan Administrator promptly of any change in address since all notices, statements and reports will be mailed to your address of record.

Table of Contents

How do I terminate participation in the dividend reinvestment portion of the Plan?

You may discontinue the reinvestment of your dividends at any time by giving notice to the Plan Administrator. The Plan Administrator must receive such notice before the close of business on the record date for any dividend payment in order to terminate your dividend reinvestment participation prior to such dividend payment date. The Plan Administrator will continue to hold your shares unless you request a certificate for any full shares and a check for any fractional share. You may also request the sale of all or part of any such shares or have the Plan Administrator electronically transfer your shares to your brokerage account.

After you terminate your participation in the dividend reinvestment portion of the Plan, you may rejoin at any time by re-enrolling with the Plan Administrator. However, the Plan Administrator has the right to reject such enrollment if you repeatedly join and withdraw from the Plan, or for any other reason. The Plan Administrator's exercise of such right is intended to minimize unnecessary administrative expenses and to encourage use of the Plan as a long-term shareholder investment service.

What are the material federal income tax consequences of my participation in the Plan?

Your reinvested dividends will be treated for federal income tax purposes in the same manner they would have been treated had you received such dividends in cash on the applicable dividend payment date. Your tax basis in the shares purchased will be equal to the amount of the cash dividends and optional cash investments applied to the purchases of such shares. Your holding period for the shares acquired pursuant to the Plan will begin on the day after the date the shares are purchased. You may recognize gain or loss when your shares (including fractional shares) are sold or otherwise disposed of in a taxable exchange, whether by the Administrator on your behalf or by you upon withdrawal of your shares from the Plan. The amount of such gain or loss will be the difference between the amount you receive for the shares and your tax basis in such shares. YOU SHOULD CONSULT WITH YOUR OWN TAX ADVISER TO DETERMINE THE PARTICULAR TAX CONSEQUENCES THAT MAY RESULT FROM YOUR PARTICIPATION IN THE PLAN AND THE SUBSEQUENT SALE OR OTHER DISPOSITION OF SHARES ACQUIRED UNDER THE PLAN, INCLUDING THE EFFECT OF ANY APPLICABLE STATE, LOCAL AND FOREIGN TAX LAWS.

Plan modification or termination

We reserve the right to suspend, modify or terminate the Plan at any time. You will receive notice of any such suspension, modification or termination. We, together with the Plan Administrator, also reserve the right to change any administrative procedures of the Plan.

Suspension or termination

We reserve the right to deny, suspend or terminate participation by a shareholder who is using the Plan for purposes inconsistent with the intended purpose of the Plan. In such event, the Plan Administrator will notify you in writing and will continue to keep your shares safe but will no longer accept optional cash investments or reinvest your dividends. The Plan Administrator will issue a certificate to you upon request.

Limitation of liability

The Plan provides that neither we nor the Plan Administrator in administering the Plan nor any independent agent will be liable for any act done in good faith or for the good faith omission to act in connection with the Plan. This includes, without limitation, any claims of liability:

for failure to terminate your account upon your death or adjudicated incompetence prior to receiving written notice of such death or adjudicated incompetence; or

relating to purchase or sale prices reflected in your Plan account or the dates of purchases or sales of your Plan shares; or

for any loss or fluctuation in the market value after purchase or sale of such shares. The foregoing does not represent a waiver of any rights you may have under applicable securities laws.

How do I make an initial or optional cash investment over the maximum yearly amount?

If you wish to make an initial or optional cash investment in excess of \$100,000 and be eligible for a potential discount from the market price, you must obtain our prior written approval. To obtain our approval, you must submit a request for waiver. To make this request, you should obtain a Request For Waiver form by contacting the Plan Administrator's Waiver Department at 1-201-680-5300. Completed Request For Waiver forms should be sent to the Waiver Department via facsimile at 1-201-680-4688.

If we approve your request, the Plan Administrator will notify you via return facsimile or e-mail. You must then send the authorized amount to the Plan Administrator in the form of a personal check or electronic funds transfer drawn on a U.S. bank. The Plan Administrator must receive your investment no later than the close of business on the last day before the applicable pricing period start date. Any funds received by the Plan Administrator after the applicable date will be returned to the investor without interest.

We have the sole discretion whether to approve any request to make an initial or optional cash investment in excess of the \$100,000 yearly maximum. We may grant those requests for waiver in order of receipt or by any other method that we determine to be appropriate. We also may determine the amount that you may invest pursuant to a waiver. In deciding whether to approve your request for waiver, we may consider the following material factors:

whether, at the time of your request, the Plan Administrator is acquiring shares of common stock for the Plan directly from us or in the open market or in privately negotiated transactions with third parties;

Table of Contents

whether we need cash to fund a specific project at the current time, at some time in the foreseeable future, or whether funds can be used for a general operational purpose;

if we decide that there is a need for additional funds, then we would consider whether this Plan was the most beneficial means of raising additional cash compared to an underwritten offering or the issuance of new debt or the use of current debt;

whether the potential issue price is above or below book value, the general stock market trends at the time of consideration, the general utility trends regarding stock prices at the time of consideration, and our recent stock price trend;

whether you have participated in the Plan in the past, your current level of participation and whether you are known as a short seller of stock;

whether granting the waiver request will facilitate obtaining new, diversified and long-term investment in PNM Resources through the Plan; and

whether the total amount of waiver requests exceeds our cash-raising goal and if so we may adjust potential investments down if the requests are greater than required to meet our goal.

We will probably not grant waiver requests when the Plan Administrator is acquiring shares in the open market or through privately negotiated transactions. In addition, if, at the time of your request, we do not need additional funds, determine that issuing new shares is not the most beneficial means of obtaining additional funds, or determine that the purchase price is below book value, then we may not grant your waiver request.

If you do not receive a response from us within 3 business days of submitting your waiver request, you should assume that we have denied your request.

If requests for a waiver are submitted for any pricing period for an aggregate amount in excess of the amount we are then willing to accept, we may honor these requests in order of receipt, or by any other method that we determine, in our sole discretion, to be appropriate.

We reserve the right to modify, suspend or terminate participation in the Plan by otherwise eligible registered holders or beneficial owners of our common stock for any reason whatsoever including eliminating practices that are inconsistent with the purposes of the Plan, which are to provide a convenient and economical method of investing in our stock and to encourage long-term investment. If it becomes apparent that an individual is buying and immediately selling our common stock to take advantage of the discount provision described below, we will take action to prevent that type of activity, e.g., by not granting any future waiver requests for that person.

Once a waiver request for a cash investment over \$100,000 has been granted, how are shares priced and purchased?

Shares purchased pursuant to a granted waiver request will be purchased directly from us. If a request for waiver is approved, the price of shares purchased from us pursuant to the request for waiver will be determined using a pricing period of not less than one but

Table of Contents

not more than 10 trading days as determined by us commencing on a date set by us. Initial and optional cash investments made pursuant to a request for waiver will be applied to the purchase of shares of common stock as soon as practicable on or after the business day following the last day of the pricing period. This date is referred to as the Waiver Investment Date .

Initial and optional cash investments made pursuant to a request for waiver will be acquired at a price equal to the average of the daily high and low sales prices computed up to 7 decimal places, if necessary, of our common stock as reported on the New York Stock Exchange, or NYSE, only, and not a Composite Average, for the applicable trading days immediately preceding the Waiver Investment Date (assuming that we do not set a threshold price for the pricing period or offer a discount from the purchase price as discussed further below). A trading day is any day on which our stock is reported as bought or sold over the NYSE. All funds properly received by the Plan Administrator up to the close of business on the last business day before the pricing period begins will be invested by the Plan Administrator in shares of PNM Resources common stock as soon as practicable on or after the Waiver Investment Date. Funds received after this date will be returned to you without interest. Setting a particular 1-10 trading day pricing period for a particular Waiver Investment Date will not affect the setting or a pricing period for any other Waiver Investment Date.

For purposes of determining the price per share for investments made pursuant to a request for waiver, we may set a minimum purchase price per share, or Threshold Price, for any pricing period. This Threshold Price is a minimum price that would be used under an alternative method for setting the per share purchase price that is described in the next paragraph. We will determine whether to set a Threshold Price, and, if so, its amount, at least 3 business days before the first day of the pricing period. We will notify the Plan Administrator of the Threshold Price, if any. In deciding whether to set a Threshold Price, we will consider one, all or a combination of the following factors:

the general trend of the stock market as a whole, the general trend of the utility sector of the stock market, and the general trend of our stock.

whether any previous offerings under the waiver provisions of the Plan been over or under subscribed.

do we have an immediate need for the cash, do we foresee an upcoming transaction that will require new cash and are there external events affecting the decision.

Participants may ascertain whether a Threshold Price has been set or waived for any given pricing period by calling the Plan Administrator's Waiver Department at 1-201-680-5300 or such other number as we may establish from time to time.

We will fix the Threshold Price for a pricing period as a dollar amount that the average of the high and low sales prices as reported by the NYSE for each trading day of that pricing period (not adjusted for discounts, if any) must equal or exceed. We will exclude from the pricing period and from the determination of the purchase price any trading day within the pricing period that does not meet the Threshold Price. Thus, for example, if we choose to use a 10 day pricing period and the Threshold Price is not met for 2 of the 10 trading days in a pricing period, then we will base the purchase price upon the remaining 8 trading days in which the Threshold Price was met.

In addition, we will return a pro rata portion of each cash investment made pursuant to an approved request for waiver for each trading day of a pricing period for which the Threshold Price is not met as soon as reasonably practical after the pricing period, without interest. The returned amount will be a percentage of the cash investment corresponding to the percentage of trading days

Table of Contents

below the Threshold Price. Thus, for example, if we chose a 10 day trading period and the Threshold Price is not met for two (2) of the ten (10) trading days in a pricing period, then we will return two-tenths ($\frac{2}{10}$ th or 20%) of the initial or optional cash investment to you without interest after conclusion of the pricing period. This does not constitute a discount to the purchase price; however, it does reduce the total number of shares that you may purchase with respect to a Waiver Investment Date.

The establishment of the Threshold Price and the possible return of a portion of the payment apply only to initial or optional cash investments exceeding \$100,000 per year made pursuant to a granted request for waiver. Setting a Threshold Price for a pricing period will not affect the setting of a Threshold Price for any other pricing period. We may waive our right to set a Threshold Price for any particular pricing period. Neither we nor the Plan Administrator are required to give you notice of the Threshold Price for any pricing period. We may alter or amend at our sole discretion these pricing periods at any time and from time to time, prior to the commencement of any pricing period and prior to the granting of any waiver with respect to such period.

At our sole discretion, we may offer participants making a cash investment in excess of \$100,000 a discount of up to 3% from the regular purchase price on any particular Waiver Investment Date. The maximum discount rate, if any, on initial or optional cash investments in excess of \$100,000 per year may be obtained at least 3 business days before the first day of the applicable pricing period by calling the Plan Administrator's Waiver Department at 1-201-680-5300.

Setting a discount from the purchase price for initial and optional cash investments in excess of \$100,000 per year for a particular pricing period will not affect the setting of a discount for any other pricing period. We may increase, decrease, or waive our right to set a discount from the purchase price for any particular pricing period. Neither we nor the Plan Administrator is required to give you notice of the discount for any pricing period. When setting the discount, if any, we will consider our capital needs, whether we want to issue equity to meet our capital needs and how quickly we desire to close the investment. For example, to the extent we desire to issue equity in a particular pricing period to meet our capital needs, we are more likely to establish a discount to encourage participants to make cash investments.

USE OF PROCEEDS

We expect to use the net proceeds received from the issuance and sale of common stock offered hereby to repay debt and for general corporate purposes, including capital expenditures.

DESCRIPTION OF COMMON STOCK

The following descriptions of our common stock and the relevant provisions of the articles of incorporation of PNM Resources, as amended through October 27, 2008 (our Articles of Incorporation), and by-laws are summaries and are qualified by reference to our Articles of Incorporation filed with the SEC as an exhibit to our Current Report on Form 8-K filed November 21, 2008 (incorporated by reference herein) and the by-laws previously filed with the SEC as an exhibit to our Current Report on Form 8-K as filed June 27, 2007 (incorporated by reference herein). The following also summarizes certain applicable provisions of the New Mexico Business Corporation Act and the New Mexico Public Utility Act and those summaries are qualified by reference to those Acts.

Our authorized capital stock consists of 120,000,000 shares of common stock, no par value and 10,000,000 shares of preferred stock, no par value. As of November 20, 2008, 86,498,465 shares of our common stock and 477,800 shares of our Convertible Preferred Stock, Series A (Series A Preferred Stock) were outstanding. Each share of Series A Preferred Stock is convertible at the option of the holder at any time into 10 shares of common stock, subject to certain anti-dilution adjustments.

Table of Contents

Dividend Rights

After giving effect to any prior rights of our preferred stock, we will pay dividends on our common stock as determined by our Board of Directors (the Board) out of legally available funds. Our ability to pay dividends depends primarily upon the ability of our subsidiaries to pay dividends or otherwise transfer funds to us. Various financing arrangements, charter provisions and regulatory requirements may impose certain restrictions on the ability of our subsidiaries to transfer funds to us in the form of cash dividends, loans or advances.

Unless waived by the holders of at least two-thirds of the number of then outstanding shares of Series A Preferred Stock, no dividend on our common stock shall be determined unless a dividend on the Series A Preferred Stock is declared and paid at the same time in an amount equal to the dividend that would be received by a holder of the number of shares (including fractional shares) of common stock into which such Series A Preferred Stock is convertible on the record date for such dividend.

Voting Rights

Holders of common stock are entitled to one vote for each share held by them on all matters submitted to our shareholders. Holders of our common stock do not have cumulative voting rights in the election of directors. The New Mexico Business Corporation Act and our Articles of Incorporation and by-laws generally require the affirmative vote of a majority of the shares represented at a shareholder meeting and entitled to vote for shareholder action, including the election of directors. Under the New Mexico Business Corporation Act, some corporate actions, including amending the articles of incorporation and approving a plan of merger, consolidation or share exchange, require the affirmative vote of a majority of the outstanding shares entitled to vote, which could include, in certain circumstances, classes of preferred stock.

Our Articles of Incorporation limit the Board to designating voting rights for classes of preferred stock only (1) when dividends on the preferred stock are not paid, (2) when proposed changes to the Articles of Incorporation would adversely affect preferred shareholders' rights and privileges or (3) if the Board issues a series of preferred stock convertible into common stock and confers upon the holders of such convertible preferred stock the right to vote as a single class with holders of common stock on all matters submitted to a vote of holders of common stock at a meeting of shareholders other than for election of directors, with the same number of votes as the number of shares of common stock into which the shares of such preferred stock are convertible, provided that at all times the aggregate preferred stock outstanding with such voting rights is convertible into no more than 12 million shares of common stock. The 477,800 currently outstanding shares of Series A Preferred Stock are convertible into 4,778,000 shares of common stock, subject to certain anti-dilution adjustments.

Holders of each outstanding share of Series A Preferred Stock are entitled to vote as a single class with holders of our common stock on all matters except the election of directors and are entitled to the number of votes corresponding to the number of shares of common stock into which such Series A Preferred Stock is convertible on the record date for determining shareholders entitled to vote.

Our Articles of Incorporation do not allow our directors to create classes of directors. All directors are elected annually.

Liquidation Rights

In the event we are liquidated or dissolved, either voluntarily or involuntarily, the holders of our preferred stock will have priority (after any of our creditors) with respect to the distribution of assets. After the holders of our preferred stock are paid their aggregate liquidation preference, the holders of our common stock will be entitled, subject to the rights, if any, of the holders of our preferred stock, to share ratably (according to the number of shares held by them) in all of our remaining assets available for distribution.

Table of Contents

Each share of Series A Preferred Stock is entitled to a liquidation preference of \$1.00 per share. After that claim is satisfied, holders of our common stock are entitled to, ratably, an amount equal to \$1.00, divided by the number of shares of common stock into which a share of Series A Preferred Stock is then convertible, and multiplied by the number of shares of common stock then outstanding. After that claim is satisfied, all remaining assets will be distributed to the holders of the Series A Preferred Stock and common stock ratably on the basis of the number of shares of outstanding common stock and, in the case of the Series A Preferred Stock, the number of shares of common stock into which the outstanding shares of Series A Preferred Stock are then convertible.

Preemptive Rights

The holders of our common stock do not have a preemptive right to purchase shares of our authorized but unissued shares, or securities convertible into shares or carrying a right to subscribe to or acquire shares, except under the terms and conditions as may be provided by our Board in its sole judgment.

As discussed above, each share of Series A Preferred Stock is convertible at the option of the holder at any time into 10 shares of common stock, subject to certain anti-dilution adjustments.

Listing

Our common stock is listed on the New York Stock Exchange under the PNM symbol.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is BNY Mellon Shareowner Services, Jersey City, New Jersey.

Certain Other Matters

Our Articles of Incorporation and by-laws include a number of provisions that may have the effect of discouraging persons from acquiring large blocks of our stock or delaying or preventing a change in our control. The material provisions that may have such an effect include:

authorization for our Board to issue our preferred stock in series and to fix rights and preferences of the series (including, among other things, whether, and to what extent, the shares of any series will have voting rights, within the limitations described above, and the extent of the preferences of the shares of any series with respect to dividends and other matters);

advance notice procedures with respect to any proposal other than those adopted or recommended by our Board; and

provisions specifying that only a majority of the Board, the chairman of the Board, the president or holders of not less than one-tenth of all our shares entitled to vote may call a special meeting of stockholders.

Under the New Mexico Public Utility Act, approval of the New Mexico Public Regulation Commission is required for certain transactions which may result in our change in control or exercise of control.

PLAN OF DISTRIBUTION

Subject to the discussion below, we will distribute newly issued shares of our common stock sold under the Plan. BNY Mellon Securities, LLC, a registered broker/dealer, will assist in the identification of investors and other related services, but will not be acting as an underwriter with respect to shares of our common stock sold under the Plan. There are no trading fees or service charges allocated to participants in the Plan in connection with their purchases of such newly issued shares of common stock.

In connection with the administration of the Plan, we may be requested to approve investments made pursuant to waiver requests by or on behalf of participants or other investors who may be engaged in the securities business.

Persons who acquire shares of our common stock through the Plan and resell them shortly after acquiring them, including coverage of short positions, under certain circumstances, may be participating in a distribution of securities that would require compliance with Regulation M under the Exchange Act, and may be considered to be underwriters within the meaning of the Securities Act. We will pay any and all trading fees and related expenses incurred in connection with purchases of our common stock under the Plan, except that a trading fee (currently \$0.06 per share) is included in the share price for open market purchases. Upon withdrawal by a participant from the Plan by the sale of shares of our common stock held under the Plan, the participant will receive the proceeds of that sale less a transaction and trading fee and any required tax withholdings or transfer taxes.

You will not incur fees, commissions or expenses in connection with purchases made under the Plan, other than the current trading fee included in the open market share price of \$0.06 per share. This trading fee will not be charged to you for shares purchased with reinvested dividends. If you direct the Plan Administrator to sell shares of common stock credited to your account, however, the Administrator will deduct from the sales proceeds: (1) any applicable service fee (currently \$15.00 per sale transaction) plus (2) the applicable trading fee (currently \$0.06 per share) and (3) if a wire request is made, a wire fee (currently \$25 per wire request). PNM RESOURCES, INC.

We are an investor-owned holding company of energy and energy-related businesses. We were incorporated in the State of New Mexico on March 3, 2000. Our primary subsidiaries are Public Service Company of New Mexico (PNM), Texas-New Mexico Power Company (TNMP), First Choice Power, L.P. (First Choice) and Altura Power L.P. (Altura). We intend to develop both our retail and wholesale business by expanding our current operations and by acquiring additional value-enhancing assets.

PNM is an integrated public utility primarily engaged in the generation, transmission, distribution, and sale of electricity within the State of New Mexico; the transmission, distribution and sale of natural gas within the State of New Mexico; and the sale and marketing of electricity in the Western United States. With our June 2005 acquisition of TNP Enterprises (TNP), PNM Resources acquired the operations of both of TNP s wholly owned subsidiaries, TNMP and First Choice. TNMP is a regulated public utility operating in both Texas and New Mexico. In Texas, TNMP provides regulated transmission and distribution services. In New Mexico, TNMP provides integrated electric services that include the transmission, distribution, purchase and sale of electricity. First Choice is a competitive retail electric provider (REP) in the State of Texas.

We serve a number of growing communities, including Albuquerque, Santa Fe, and Alamogordo in New Mexico, as well as suburban areas around Dallas-Fort Worth, Houston, and Galveston in Texas. Our regulated operations include the utility operations of PNM and TNMP, while our unregulated operations include wholesale operations, as well as First Choice. As of December 31, 2005, PNM Resources had 3,382 employees and 2,393 megawatts of generation from property it owns or leases and power purchased through various long-term power purchase agreements.

On June 6, 2005, we completed our acquisition of all the outstanding common shares of TNP. TNP was a privately owned holding company for TNMP and First Choice. As of December 31, 2005, TNMP provided electric service to approximately 260,000 customers in Texas and New Mexico. Its affiliate, First Choice, is a retail electric provider that had approximately 210,000 customers in Texas as of December 31, 2005. The customers reported above for TNMP Electric and First Choice include approximately 150,000 of TNMP s customers who have chosen First Choice as their REP. For more detailed information concerning the TNP acquisition, you should also read Management s Discussion and Analysis of Financial Conditions and Results of Operations and the Notes to Consolidated Financial Statements contained in certain of the documents incorporated by reference in this prospectus.

On April 18, 2006, our indirect subsidiary Altura, completed the acquisition of the Twin Oaks business (Twin Oaks), which included a 305-megawatt coal fired Twin Oaks power plant facility (Twin Oaks Power Plant) located 150 miles south of Dallas, Texas.

Regulated Operations

Public Service Company of New Mexico

PNM operates primarily through its two utility segments: PNM Electric and PNM Gas. PNM Electric consists of the distribution and generation of electricity for retail electric customers in New Mexico. It provides retail electric service to a large area of north central New Mexico, including the cities of Albuquerque and Santa Fe, and certain other areas of New Mexico. Customer rates for retail electric service are set by the New Mexico Public Regulation Commission and PNM Electric expects to file a new rate case in 2007. In 2005, PNM Electric had revenues of \$574.0 million. The largest retail electric customer served by PNM accounted for approximately 8.3% of its total retail electric revenues for the year ended December 31, 2005. The Albuquerque metropolitan area accounted for approximately 53% of PNM s 2005 total electric utility operating revenues, and no other franchise area represented more than approximately 10%.

As of December 31, 2005, PNM owned or leased 2,897 circuit miles of electric transmission lines, interconnected with other utilities in New Mexico, east and south into Texas, west into Arizona, and north into Colorado and Utah. Due to rapid load growth

in our service territory in recent years and the lack of transmission development, most of the capacity on this transmission system is fully committed and there is very little or no additional access available on a firm commitment basis. These factors result in physical constraints on the system and limit the ability to deliver power into PNM's service area from outside of New Mexico.

PNM Gas distributes natural gas to most of the major communities in New Mexico, including Albuquerque and Santa Fe. In 2005, PNM Gas had revenues of \$511.4 million. The Albuquerque metropolitan area accounted for approximately 50% of the total PNM Gas revenues in 2005. No single sales service customer accounted for more than 0.9% of PNM's gas sales in 2005. On May 30, 2006, PNM Gas filed a petition with the New Mexico Public Regulation Commission requesting \$20.7 million in increased base and miscellaneous gas service rates and a return on equity of 11% to be implemented with the first billing cycle of April 2007.

Texas-New Mexico Power Company

TNMP provides transmission and distribution services to retail electric providers in two electricity markets: Texas and New Mexico. In Texas, TNMP provides regulated transmission and distribution services. In New Mexico, TNMP provides integrated electricity services: purchasing, transmitting, distributing, and selling electricity to its New Mexico customers. TNMP provides service, either directly or through retail electric providers, to approximately 260,000 customers in Texas and New Mexico. TNMP serves a market niche of small to medium-sized communities: only three of the 84 communities in TNMP's service territory have populations exceeding 50,000. TNMP's New Mexico operations lie entirely within the Western Electricity Coordinating Council Region and its service territory includes areas in southwest and south central New Mexico. TNMP owns no generation assets. Its New Mexico generation needs are met through a contract with PNM, which expires in December 2006.

As of December 31, 2005, 30 retail electric providers served customers that receive transmission and distribution services from TNMP. First Choice was TNMP's largest customer and accounted for approximately 56% of the retail electric revenues for the year ended December 31, 2005. TNMP also holds long-term, non-exclusive franchise agreements for its electric transmission and distribution services, with varying expiration dates. These agreements accounted for approximately 7% of TNMP's 2005 total electric utility operating revenues. TNMP intends to negotiate and execute new or amended franchise agreements with municipalities as they expire.

Rate regulation in Texas and New Mexico is premised on the full recovery of prudently incurred costs and a reasonable rate of return on equity. Allowed return on equity is set at 11.25% and 10.00% in Texas and New Mexico, respectively. TNMP's capital expenditure requirements for maintenance and expansion of the transmission and distribution network are highly predictable and consistent. Management believes that current facilities have sufficient capacity to adequately serve existing customers and only limited additional capital commitments are needed to serve customer growth for the foreseeable future.

Unregulated Operations

Wholesale Operations

The wholesale business consists of the generation and sale of electricity into the wholesale market based on two product lines that include long-term contracts and short-term sales. The source of these sales is supply created by selling the unused capacity of jurisdictional assets as well as the capacity of our wholesale plants excluded from retail rates. Both regulated and unregulated generation is jointly dispatched in order to improve reliability, provide the most economic power to retail customers and maximize profits on any wholesale transactions. Long-term contracts include sales to firm requirements and other wholesale customers with multi-year arrangements. As of December 31, 2005, these contracts ranged from 1 to 14.5 year terms with an average term of 5.3 years. Short-term sales include transactions entered into for less than one year. They include forward market opportunities, which do not qualify as normal sale and purchase transactions as defined by applicable accounting rules, and thus are generally marked to market. Short-term sales generally include spot market, hour ahead, day ahead, and week ahead contracts with terms of 30 days or

Table of Contents

less. Also included in short-term sales are sales of any excess generation not required to fulfill PNM's retail load and contractual commitments. Short-term sales also cover the revenue credit to retail customers as specified in a regulatory order. Results of the operations of the Twin Oaks power plant facility are included in wholesale operations subsequent to the April 18, 2006 acquisition date.

Luna

In April 2006, construction of Luna, a combined-cycle power plant near Deming, New Mexico, was completed and the plant became operational. PNM owns one-third of the plant and managed the construction project. Luna will operate as a PNM merchant facility and PNM's 190-megawatt share of its power will be sold to wholesale electric customers in the Southwest.

Twin Oaks

The acquisition of Twin Oaks, which included Twin Oaks Power Plant, was completed in April 2006. The entire 305-megawatt output of Twin Oaks Power Plant is sold under an existing contract through September 2007. When that contract expires, it will be replaced with another existing contract for 75 percent of the plant's capacity through 2010. The Twin Oaks purchase agreement also includes the development rights for a possible 600-megawatt expansion of Twin Oaks Power Plant. The necessary permits for the expansion are expected in 2007. PNM has not made a decision regarding the Twin Oaks Power Plant expansion, but it is considering a variety of options, including self development or sale to a third party.

First Choice Power

First Choice is an REP in the State of Texas. Organized in 2000 to act as TNMP's affiliated REP, First Choice had approximately 210,000 Texas customers at the end of 2005. Of these, First Choice has approximately 150,000 price-to-beat (PTB) customers and 60,000 competitive customers. PTB customers are former customers of TNMP that have chosen to remain with First Choice, while competitive customers are those that First Choice has actively acquired from other REPs following deregulation of the Texas market. First Choice is one of 71 REPs competing for small non-residential customers and one of 52 REPs competing for large non-residential customers and aggregated cities within the Electric Reliability Council of Texas (ERCOT) region, including Dallas-Fort Worth, Houston, Corpus Christi and McAllen-Harlingen. Aggregated cities are groups of cities, which have aggregated their loads in order to sign a single contract with an REP so as to secure power at better prices than each would be able to obtain on its own. First Choice sources its power from one primary contract: a fixed heat rate contract with Constellation Power Source, Inc. (Constellation), a subsidiary of Constellation Energy Group, that serves all projected energy requirements through the end of 2006.

In 2003, First Choice and Constellation executed a power supply agreement that resulted in Constellation being the primary supplier of power for First Choice's customers through the end of 2006. Following the expiration of First Choice's power supply agreement with Constellation at the end of 2006, we will seek lower-cost, more competitive electricity sources. Additionally, we will be able to use the uncontracted portion of Twin Oaks' output to meet First Choice's electricity needs. First Choice regularly revises its load forecast due to growing customer additions and changes in customer usage in a deregulated Texas market. The acquisition of Twin Oaks represents the latest step in implementing our strategy of expanding our merchant generation fleet to serve a growing wholesale market in the Southwest and ERCOT.

DESCRIPTION OF COMMON STOCK

The following descriptions of our common stock and the relevant provisions of the articles of incorporation of PNM Resources, as amended through June 21, 2006 (our Articles of Incorporation), and by-laws are summaries and are qualified by reference to our Articles of Incorporation previously filed with the SEC as an exhibit to our Quarterly Report on Form 10-Q as filed August 9, 2006 for the quarter ended June 30, 2006 (incorporated by reference herein) and the by-laws previously filed with the SEC as an exhibit to our Current Report on Form 8-K as filed February 17, 2006 (incorporated by reference herein). The following also summarizes certain applicable provisions of the New Mexico Business Corporation Act and the New Mexico Public Utility Act and those summaries are qualified by reference to those Acts.

Our authorized capital stock consists of 120,000,000 shares of common stock, no par value and 10,000,000 shares of preferred stock, no par value. As of August 1, 2006, 69,592,245 shares of our common stock were outstanding and no shares of our preferred stock have been issued to date.

Dividend Rights

After giving effect to any prior rights of our preferred stock, if any should become outstanding, we will pay dividends on our common stock as determined by our Board of Directors (the Board) out of legally available funds. Our ability to pay dividends depends primarily upon the ability of our subsidiaries to pay dividends or otherwise transfer funds to us. Various financing arrangements, charter provisions and regulatory requirements may impose certain restrictions on the ability of our subsidiaries to transfer funds to us in the form of cash dividends, loans or advances.

Voting Rights

Holders of common stock are entitled to one vote for each share held by them on all matters submitted to our shareholders. Holders of our common stock do not have cumulative voting rights in the election of directors. The New Mexico Business Corporation Act and our Articles of Incorporation and by-laws generally require the affirmative vote of a majority of the shares represented at a shareholder meeting and entitled to vote for shareholder action, including the election of directors. Under the New Mexico Business Corporation Act, some corporate actions, including amending the articles of incorporation and approving a plan of merger, consolidation or share exchange, require the affirmative vote of a majority of the outstanding shares entitled to vote, which could include, in certain circumstances, classes of preferred stock.

Our Articles of Incorporation limit the Board to designating voting rights for classes of preferred stock only (1) when dividends on the preferred stock are not paid, (2) when proposed changes to the Articles of Incorporation would adversely affect preferred shareholders' rights and privileges or (3) if the Board issues a new series of preferred stock convertible into common stock and confers upon the holders of such convertible preferred stock the right to vote as a single class with holders of common stock on all matters submitted to a vote of holders of common stock at a meeting of shareholders other than for election of directors, with the same number of votes as the number of shares of common stock into which the shares of such preferred stock are convertible, provided that at all times the aggregate number of preferred stock outstanding with such voting rights is convertible into no more than 12 million shares of common stock.

Our Articles of Incorporation previously permitted our directors to create classes of directors in accordance with the bylaws. Previously, the bylaws provided for 3 classes of directors so that approximately one-third (1/3) of the directors were elected at each annual meeting to serve a 3-year term. In February 2006, the Board amended the bylaws to declassify the Board and provide for the annual election of all directors and adopted, subject to shareholder approval, amendments to revise Article VI of our Articles of Incorporation to eliminate the authority of the Board to classify itself by amending the bylaws. The Board has set the current number of directors at 9. In May 2006, the shareholders adopted these amendments.

Table of Contents

Liquidation Rights

In the event we are liquidated or dissolved, either voluntarily or involuntarily, the holders of our preferred stock will have priority (after any of our creditors) with respect to the distribution of assets. After the holders of our preferred stock are paid their aggregate liquidation preference, the holders of our common stock will be entitled, subject to the rights, if any, of the holders of our preferred stock, to share ratably (according to the number of shares held by them) in all of our remaining assets available for distribution.

Preemptive Rights

The holders of our common stock do not have a preemptive right to purchase shares of our authorized but unissued shares, or securities convertible into shares or carrying a right to subscribe to or acquire shares, except under the terms and conditions as may be provided by our Board in its sole judgment.

Listing

Our common stock is listed on the New York Stock Exchange under the PNM symbol.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is Mellon Investor Services, South Hackensack, New Jersey.

Certain Anti-takeover Matters

Our Articles of Incorporation and by-laws include a number of provisions that may have the effect of discouraging persons from acquiring large blocks of our stock or delaying or preventing a change in our control. The material provisions that may have such an effect include:

authorization for our Board to issue our preferred stock in series and to fix rights and preferences of the series (including, among other things, whether, and to what extent, the shares of any series will have voting rights, within the limitations described above, and the extent of the preferences of the shares of any series with respect to dividends and other matters);

advance notice procedures with respect to any proposal other than those adopted or recommended by our Board; and

provisions specifying that only a majority of the Board, the chairman of the Board, the president or holders of not less than one-tenth of all our shares entitled to vote may call a special meeting of stockholders.

Under the New Mexico Public Utility Act, approval of the New Mexico Public Regulation Commission is required for certain transactions which may result in our change in control or exercise of control.

PLAN OF DISTRIBUTION

We may sell shares of our common stock, in or outside of the United States, to underwriters or dealers, through agents, directly to purchasers or through a combination of these methods. The applicable prospectus supplement will contain specific information relating to the terms of the offering, including, to the extent not otherwise included in the prospectus:

the name or names of any underwriters or agents;

the purchase price of the common stock;

our net proceeds from the sale of the common stock;

any underwriting discounts or agency fees and other items constituting underwriters' or agents' compensation; and

any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers.

By Underwriters

If underwriters are used in the sale, the shares of common stock will be acquired by the underwriters for their own account. Underwriters may offer the common stock directly or through underwriting syndicates represented by one or more managing underwriters. The underwriters may resell the common stock in one or more transactions, including negotiated transactions, at a fixed public offering price, which may be changed, or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the shares of common stock will be subject to certain conditions. The initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

By Dealers

If dealers are used in the sale, unless otherwise specified in the applicable prospectus supplement, we will sell the shares of common stock to the dealers as principals. The dealers may then resell the common stock to the public at varying prices to be determined by the dealers at the time of resale. The applicable prospectus supplement will contain more information about the dealers, including the names of the dealers and the terms of our agreement with them.

By Agents and Direct Sales

We may sell the shares of common stock directly to the public, without the use of underwriters, dealers or agents. We may also sell the common stock through agents we designate from time to time. The applicable prospectus supplement will contain more information about the agents, including the names of the agents and any commission we agree to pay the agents.

We also may engage a broker-dealer from time to time to act as agent or principal for the offer of our common stock in one or more placements pursuant to a distribution agreement. If we and the broker-dealer agree, we will sell to the broker-dealer as agent or as principal, and the broker-dealer will seek to solicit offers to purchase on an agency basis and/or will purchase on a principal basis, our common stock. The number and purchase price (less an underwriting discount) of the shares we sell to the broker-dealer will be mutually agreed on the relevant trading day. The common stock sold under the distribution agreement will be sold at prices related to the prevailing market price for such securities, and therefore exact figures regarding the share price, proceeds that will be raised or commissions to be paid will be described in a prospectus supplement to this prospectus or in other filings made in accordance with and as permitted by the Securities Act of 1933, as amended (the Securities Act) and the Exchange Act. The broker-dealer may

General Information

Underwriters, dealers and agents that participate in the distribution of the common stock may be deemed underwriters as defined in the Securities Act, and any discounts or commissions we pay to them and any profit made by them on the resale of the common stock may be treated as underwriting discounts and commissions under the Securities Act. Any underwriters or agents will be identified and their compensation from us will be described in the applicable prospectus supplement.

We may agree with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make.

Underwriters, dealers and agents may be customers of, engage in transactions with or perform services for, us in the ordinary course of their businesses.
