Table of Contents

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words anticipate, believe, estimate, expect, intend, may, might, plan, project, result, should, will and similar expressions which do not relate solely to historical matters to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Results of Operations

The following discussion is based on our Statement of Operations within our Financial Statements as presented in Part I, Item 1 of this report for the nine months ended September 30, 2009 and 2008. The discussion is not meant to be an all inclusive discussion of the changes within our operations. Instead, we have focused on the significant items relevant to obtain an understanding of the changes in our operations.

Our sole source of income is from interest on notes receivables from two affiliated entities. The ability of these entities to make payments on these note obligations is imperative for us to continue as a going concern. The outstanding principal balance on these notes is currently not being paid down, thus, the income from these notes are consistent and comparable to prior periods.

Comparison of the three months ended September 30, 2009 to the same period ended 2008.

We reported a net income applicable to common shareholders of \$9,491 for the three months ended September 30, 2009 as compared to a net income to common shareholders of \$26,747 for the same period ended 2008.

General and administrative expense increased due to entering into a lease agreement with IOT, an affiliated entity. The base rent is \$5,717 per month. This lease was not in effect for the Third Quarter ended 2008. In addition, we have entered into an administrative services agreement with Prime, an affiliated entity, for \$2,500 per month. The remaining increase was due to an increase in audit and filing fees.

Interest expense decreased due to a significant drop in the prime rate from prior period. Our interest expense is based on a rate of Prime plus one percent. On average the Prime rate was 6.41% and 3.25% for the nine months ended September 30, 2008 and 2009, respectively.

Income tax expense decreased due to the additional expenses associated with lease agreement and the administrative services agreement entered into which was not applicable in prior year.

Comparison of the nine months ended September 30, 2009 to the same period ended 2008.

We reported a net income applicable to common shareholders of \$23,373 for the nine months ended September 30, 2009 as compared to a net income to common shareholders of \$97,952 for the same period ended 2008.

General and administrative expense increased due to entering in to a lease agreement with IOT, an affiliated entity. The base rent is \$5,717 per month. In addition, we have entered into an administrative services agreement with Prime, an affiliated entity, for \$2,500 per month. The remaining increase was due to an increase in audit and filing fees, and legal expenses.

Interest expense decreased due to a significant drop in the prime rate from prior period. Our interest expense is based on a rate of Prime plus one percent. On average the Prime rate was 6.41% and 3.25% for the nine months ended September 30, 2008 and 2009, respectively.

Income tax expense decreased due to the additional expenses associated with lease agreement and the administrative services agreement entered into which was not applicable in prior year.

Liquidity and Capital Resources

Table of Contents

General

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses including interest expense, leases, legal and administrative fees, and federal income tax payments.

Our principal source of cash is proceeds from interest income on our notes receivables.

The following significantly impacted our balance sheet as of September 30, 2009:

We advanced \$168,023 to an affiliated entity, which reduced our cash balance and increased our receivables from affiliates. In addition, we paid cash for our lease commitments and administrative fees, which further reduced our cash balance.

Our interest receivable affiliated decreased as we collected the interest owed us on those notes.

Our accounts payables increased due to the additional accruals for lease and administrative expenses incurred and not paid.

Our accounts payables affiliated decreased due to the payment of interest expense.

Cash Flow Summary

The following summary discussion of our cash flow is based on the statements of cash flows as presented in Item 1 and is not meant to be an all-inclusive discussion of the changes in our cash flow.

We had a significant increase in cash used from operating activities as compared to the prior year. In the current year, we had an increase in operating expenses and advanced \$168,023 to an affiliated entity. This was offset by not paying the tax liability when due, and also extending our payables.

Although we had a significant cash outflow in the third quarter, we anticipate that our cash flows from operating activities will be sufficient to provide for our current cash flow needs.
