Voluntary Reorganization under Chapter 11 On March 16, 2009, Primus Telecommunications Group, Incorporated (Group or PTGI) and three of its subsidiaries, Primus Telecommunications Holding, Inc. (Holding or PTHI), Primus Telecommunications International, Inc. Subsequently, the Debtors sought and received an order directing the joint administration of the Chapter 11 Cases under the caption In re: Primus Telecommunications Group, Incorporated, et al., Debtors, Case No. 09-10867. On April 8, 2009, April 20, 2009, and April 24, 2009, filings were made by the Debtors in the Bankruptcy Court concerning amended Disclosure Statements and Joint Plans of Reorganization of Primus Telecommunications Group, Incorporated and its Affiliate Debtors. On April 24, 2009, an unsecured creditors committee was appointed by the United States Trustee.

On April 27, 2009, the Bankruptcy Court approved the Debtors use of a disclosure statement dated April 27, 2009 (the Disclosure Statement) to solicit votes on the Joint Plan of Reorganization of Primus Telecommunications Group, Incorporated and its Affiliate Debtors attached thereto (the Plan). The Disclosure Statement was distributed to holders of record (as of April 27, 2009) of claims against, and interests in, the Debtors who are entitled to vote on the Plan (the Record Date).

The order approving the Disclosure Statement also (i) established the Record Date and a voting deadline of June 5, 2009, (ii) established June 5, 2009 as the last date and time for filing and serving objections to confirmation of the Plan (and related requirements and procedures set forth in such order), and (iii) fixed June 1, 2009 as the deadline for claimants and interest holders to file and serve motions under Bankruptcy Rule 3018(a) requesting temporary allowance of the movant s claim or interest for purposes of voting.

The Plan was confirmed by the Bankruptcy Court on June 12, 2009 (the Confirmation Date). On July 1, 2009 (the Effective Date), the Debtors consummated their reorganization under the Bankruptcy Code and the Plan became effective.

The Plan provides for a plan of reorganization of the Debtors on terms that are summarized below:

Holding s Term Loan facility due February 2011 was reinstated and amended (see Amended Term Loan Facility below);

IHC s 14¹/₄% Senior Secured Notes were cancelled and the holders thereof received (a) their pro rata portion of \$123.5 million of aggregate principal amount of 14¹/₄% Senior Subordinated Secured Notes due May 20, 2013 (see Amendment of IHC s 14% Senior Secured Notes Indenture below), (b) 4,800,000 shares of the new Common Stock of Group (the New Common Stock), and (c) all reasonable fees, expenses and disbursements of their counsel;

Notwithstanding effectiveness of the Plan, we expect to continue to have significant debt service obligations on a long-term basis. Cash flows from operations are not anticipated to be sufficient to make the balloon payments on the remaining outstanding \$94.8 million principal amount of Senior Secured Term Loan Facility and the \$28.0 million principal amount of Canadian Credit Facility due February and May 2011, respectively; therefore, we expect to seek external financing prior to that date. There can be no assurance we will be successful in these efforts to consummate timely any such transactions or at all or to obtain any such financing on acceptable terms or at all, especially in consideration of the state of the current global economic and credit situation.

Agreements Relating to the Debtors' Securities

In addition, the Debtors have agreed to pay all reasonable fees, expenses and disbursements of counsel and the financial advisor to the Term Loan lenders.

Amendment of IHC's 14.25% Senior Secured Notes Indenture

On the Effective Date, IHC, Group, Holding, the other Guarantors party thereto and U.S. Bank National Association, as trustee, entered into a supplemental indenture (the Supplemental Indenture) to the indenture governing IHC's 14 1/4% Senior Secured Notes due 2011 (the Original Indenture). The Supplemental Indenture amended the Original Indenture to provide for the issuance of 14 1/4% Senior Subordinated Secured Notes due May 20, 2013 (the Senior Subordinated Secured Notes). At the option of IHC, prior to the earlier of (1) the extension of the maturity of or the repayment in full of the indebtedness outstanding pursuant to the Amended Term Loan and the loan facility entered into by Primus Telecommunications Canada Inc., an indirect wholly owned subsidiary of Group, and (2) June 1, 2011, up to 4.25% per annum of the interest on the Senior Subordinated Secured Notes may be paid in kind. The Supplemental Indenture also modified covenants in the Original Indenture to prevent subsidiary guarantors from incurring debt to refinance indebtedness of non-guarantors and to limit the incurrence of indebtedness of restricted persons that is secured by a lien on the assets of IHC, any subsidiary guarantor or other restricted persons, as defined under the modified indenture.

Pursuant to the Plan, the 14 1/4% Senior Secured Notes due 2011 were cancelled on the Effective Date and the holders thereof received their pro rata portion of approximately \$123.5 million aggregate principal amount of Senior Subordinated Secured Notes.

On the Effective Date, IHC entered into a First Amendment to the Intercreditor Agreement, dated as of February 26, 2007 (as amended through the date hereof, the Amended Intercreditor Agreement), with Group, Holding, The Bank of New York Mellon, as First Lien Collateral Agent, and U.S. Bank National Association, as Second Lien Collateral Agent. Pursuant to the Amended Intercreditor Agreement, the Senior Subordinated Secured Notes shall be subordinated in right of payment to the prior indefeasible payment in cash in full of all obligations under the Amended Term Loan.

Also on the Effective Date, IHC, each of the Grantors party thereto and U.S. Bank National Association, as collateral agent, entered into a First Amendment to the Collateral Agreement, dated as of February 26, 2007 (as amended through the date hereof, the Amended Collateral Agreement), to provide that the obligations of both IHC and PTII, an indirect wholly owned subsidiary of Group, shall be secured by PTII's assets, including 65% of the voting stock of foreign subsidiaries owned by PTII. In addition, on the Effective Date, Group and Holding entered into an Assumption Agreement in favor of U.S. Bank National Association, as collateral agent, pursuant to which each of Group and Holding became party to the Amended Collateral Agreement. As a result, Group and Holding's existing guarantees of the Senior Subordinated Secured Notes are secured by a lien on the property of Group and Holding, respectively.

Warrant Agreements

As of the Effective Date, Group issued Class A warrants to purchase up to an aggregate of 3,000,000 shares of New Common Stock to holders of the Holding Notes. The Class A warrants consist of 1,000,000 each of Class A-1 warrants, Class A-2 warrants and Class A-3 warrants. In connection with the issuance of the Class A warrants, Group entered into a warrant agreement, dated as of the Effective Date (the Class A Warrant Agreement), with StockTrans, Inc., as warrant agent. Subject to the terms of the Class A Warrant Agreement, Class A-1 warrant holders are entitled to purchase up to 1,000,000 shares of New Common Stock at an initial exercise price of \$12.22 per share, Class A-2 warrant holders are entitled to purchase up to 1,000,000 shares of New Common Stock at an initial exercise price of \$16.53 per share, and Class A-3 warrant holders are entitled to purchase up to 1,000,000 shares of New Common Stock at an initial exercise price of \$20.50 per share. The Class A warrants have a five-year term and will expire on July 1, 2014. A holder may exercise Class A warrants by paying the applicable exercise price in cash. In addition, a holder may exercise Class A warrants on a cashless basis in connection with a change of control (as defined in the Class A Warrant Agreement), in connection with a transaction pursuant to an effective registration statement covering the sale of New Common Stock underlying such Class A warrants, or if the exercise occurs on a date when the daily volume-weighted average price of the New Common Stock for the immediately preceding 10 trading days exceeds 150% of the exercise price applicable to such Class A warrants. The Class A warrants are freely transferrable by the holder thereof.

As of the Effective Date, Group issued Class B warrants to purchase up to an aggregate of 1,500,000 shares of New Common Stock to holders of the Group Notes. In connection with the issuance of the Class B warrants, Group entered into a warrant agreement, dated as of the Effective Date (the Class B Warrant Agreement), with StockTrans, Inc., as warrant agent. Subject to the terms of the Class B Warrant Agreement, Class B warrant holders are entitled to purchase 1,500,000 shares of New Common Stock at an initial exercise price of \$26.01 per share. The Class B warrants have a five-year term and will expire at on July 1, 2014. A holder may exercise Class B warrants by paying the applicable exercise price in cash. In addition, a holder may exercise Class B warrants on a cashless basis in connection with a change of control (as defined in the Class B Warrant Agreement), in connection with a transaction pursuant to an effective registration statement covering the sale of New Common Stock underlying such Class B warrants, or if the exercise occurs on a date when the daily volume-weighted average price of the New Common Stock for the immediately preceding 10 trading days exceeds 150% of the exercise price applicable to the Class B warrants. The Class B warrants are freely transferrable by the holder thereof.

The number of shares of New Common Stock issuable upon exercise of the Class A warrants and Class B warrants (together, the Warrants) and the exercise prices of the Warrants will be adjusted in connection with any dividend or distribution of New Common Stock, assets or cash (other than any regular cash dividend not to exceed in any fiscal year 45% of the consolidated net income of Group), or any subdivision or combination of the New Common Stock. In addition, the number of shares of New Common Stock issuable upon exercise of the Warrants and the exercise prices of the Warrants are also subject to adjustment in connection with any issuance, grant or sale to any person of (A) rights, warrants, options, exchangeable securities or convertible securities entitling such person to subscribe for, purchase or otherwise acquire shares of New Common Stock at a price per share less than the fair market value of the New Common Stock on the trading day immediately prior to such

issuance, sale or grant, subject to certain exceptions, or (B) shares of New Common Stock at a price per share less than the fair market value of the New Common Stock on the trading day immediately prior to such issuance, sale or grant. Additionally, if any transaction or event occurs in which all or substantially all of the outstanding New Common Stock is converted into, exchanged for, or the holders thereof are otherwise entitled to receive on account thereof stock, other securities, cash or assets (each, a Fundamental Change Transaction) the holder of each Warrant outstanding immediately prior to the occurrence of such Fundamental Change Transaction shall have the right to receive upon exercise of the applicable Warrant the kind and amount of stock, other securities, cash and/or assets that such holder would have received if such Warrant had been exercised.

Upon Effective Date, the Company determined the fair value of the warrants issued was approximately \$1.0 million and included as part of our new equity value recorded upon emergence.

Contingent Value Rights Distribution Agreement

Pursuant to the terms of the Plan, Group issued to holders of Group's Old Common Stock Contingent Value Rights to receive up to an aggregate of 2,665,000 shares (the CVR Shares) of New Common Stock. In connection with the issuance of the Contingent Value Rights, Group entered into a Contingent Value Rights Distribution Agreement (the CVR Agreement), in favor of holders of CVRs thereunder, dated as of the Effective Date.

The CVRs may not be transferred by the holder thereof except in certain limited circumstances. Subject to the terms of the CVR Agreement, holders of CVRs will receive their pro rata share of up to 2,665,000 CVR Shares. A distribution of CVR Shares is required to be made by Group if, as of any determination date (described below), Group's equity value (assuming cash exercise in full on such date of in-the-money warrants and options of Group) divided by the sum of the number of shares of New Common Stock then issued and outstanding plus the number of shares of New Common Stock underlying warrants, options and similar securities of Group (other than CVRs) that are then in-the-money exceeds \$35.95. The aggregate number of such shares of New Common Stock is referred to as the Applicable Shares; the price per share of \$35.95, subject to adjustment as described below, is referred to as the CVR Strike Price; and the per share amount of any such excess over the CVR Strike Price is referred to as the Excess Equity Value Per Share. If such a distribution is required, the number of CVR Shares to be distributed by Group equals the product of Excess Equity Value Per Share multiplied by the number of Applicable Shares divided by the CVR Strike Price. Such product of Excess Equity Value Per Share and the number of Applicable Shares is referred to as the Excess Equity Value.

Group will determine if and to the extent a distribution of CVR Shares is required on January 1 and July 1 of each year, commencing on the first such date (but in no event later than July 1, 2013) on which certain financial thresholds outlined in the CVR Agreement are met, and upon a change of control of Group. Distributions of CVR Shares (if any) will be made within 45 calendar days of a determination by Group that a distribution is required.

Notwithstanding the foregoing, no distribution of CVR Shares is required to be made by Group unless Excess Equity Value exceeds \$1 million as of any determination date.

The number of CVR Shares and the CVR Strike Price will be adjusted from time to time in connection with any stock dividend or distribution, or subdivision, split, combination, reclassification or recapitalization of the New Common Stock. In addition, if Group distributes to holders of New Common Stock any of its assets (including but not limited to cash), securities or rights to purchase securities of Group (other than any regular cash dividend not to exceed in any fiscal year 45% of the consolidated net income of Group for the immediately preceding fiscal year), then the number of CVR Shares will be increased and the CVR Strike Price will be decreased, in each case pursuant to the terms of the CVR Agreement. Additionally, in case of any reclassification, merger, consolidation, capital reorganization or other change in the capital stock of Group (other than in connection with a change of control) in which all or substantially all of the outstanding shares of New Common Stock are converted into or exchanged for stock, other securities or other property, Group shall make

appropriate provision so that the holders of Contingent Value Rights shall thereafter be entitled to receive, at such time such holder would have otherwise been entitled to receive a distribution under the CVR Agreement, the kind and amount of stock and other securities and property having a value substantially equivalent to the value of New Common Stock that the holders of Contingent Value Rights would have been entitled to receive in connection with a distribution of CVR Shares immediately prior to such reclassification, merger, consolidation, reorganization or other change in the capital stock of Group at a CVR Strike Price that, in each case, is reasonably determined by the board of directors of Group after consultation with an independent valuation advisor to preserve, to the extent practicable, the intrinsic value of such CVR immediately prior to such event.

The Contingent Value Rights will expire and the CVR Agreement will terminate upon the earliest to occur of: (1) the date upon which no further CVR Shares are available for distribution, (2) the consummation of a change of control (subject to any potential distribution of CVR Shares as a result thereof), and (3) July 1, 2019.

Due to the nature of CVR, the company accounted for the instrument in accordance with ASC No. 815, Derivatives and Hedging, as well as related interpretations of these standards. The Company determined these CVRs to be derivative instruments to be accounted for as liabilities and marked to fair value at each balance sheet date. Upon issuance, the Company recorded a liability of \$2.6 million in other liabilities as part of fresh-start accounting, and will adjust the liability quarterly to its estimated fair value. The change in value is reflected in our Statements of Operations as other income (expense). The Company recognized \$4.2 million of expense during the three months ended September 30, 2009 (the Successor Period).

Current Impact on Group's Subsidiaries that have not sought Reorganization. Group's subsidiaries other than Holding, IHC and PTII were not part of the Reorganization; operating subsidiary companies, including those in the United States, Australia, Canada, India, Europe and Brazil (the Operating Subsidiaries), were not party to the Reorganization and have continued to manage and to operate their businesses without interruption, and employees, customers, suppliers and partners of these Operating Subsidiaries were unaffected by the filing of the Chapter 11 Cases.

The New Common Stock is quoted on the Over-the-Counter Bulletin Board (OTCBB) and trades under the symbol PMUG.

2. BASIS OF PRESENTATION

The accompanying unaudited consolidated condensed financial statements of Primus Telecommunications Group, Incorporated and subsidiaries (the Company or Primus) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting and Securities and Exchange Commission (SEC) regulations. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such principles and regulations. In the opinion of management, the financial statements reflect all adjustments (all of which are of a normal and recurring nature), which are necessary to present fairly the financial position, results of operations, cash flows and comprehensive income (loss) for the interim periods. The results for the Company's three months ended September 30, 2009 and nine months ended September 30, 2009 are not necessarily indicative of the results that may be expected for the year ending December 31, 2009.

In accordance with Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) No. 852, Reorganizations, for periods including and subsequent to the filing of the Chapter 11 petition through the bankruptcy emergence date of July 1, 2009, all pre-petition liabilities subject to compromise were segregated in the unaudited Consolidated Condensed Balance Sheets and classified as liabilities subject to compromise, at management's estimate of the amount of allowable claims. Liabilities not subject to compromise were separately classified as current and non-current in the unaudited Consolidated Condensed Balance Sheet. Revenues, expenses, realized gains and losses, and provisions for losses that result from the reorganization were

Table of Contents

reported separately as reorganization items, net, in the unaudited Consolidated Condensed Statements of Operations. Net cash used for reorganization items was disclosed separately in the unaudited Consolidated Condensed Statements of Cash Flows. The outcome of the Plan materially changed the amounts reported in the financial statements, which did not give effect to all adjustments of the carrying value of assets or liabilities that were necessary as a consequence of the Plan, or the effect of any operational changes that may be made in the business.

As of July 1, 2009, the Company adopted fresh-start accounting in accordance with ASC No. 852. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements on or prior to July 1, 2009 are not comparable with the financial statements for periods after July 1, 2009. The consolidated condensed statements of operations, comprehensive income (loss) and any references to Successor or Successor Company for the three months ended September 30, 2009, show the operations of the reorganized Company from and including July 1, 2009, the Effective Date, through September 30, 2009. References to Predecessor or Predecessor Company refer to the operations of the Company prior to July 1, 2009, except for Predecessor's July 1, 2009 statements of operations and comprehensive income (loss), which reflect only the effect of the plan adjustments and fresh-start accounting as of such date and do not reflect any operating results. See Note 4 Fresh-Start Accounting in the notes to these Consolidated Condensed Financial Statements for further details.

The results for all periods presented in this quarterly Form 10-Q/A reflect the activities of certain operations as discontinued operations (see Note 11 Discontinued Operations).

The financial statements should be read in conjunction with the Company's audited consolidated financial statements included in the Company's most recently filed Form 10-K.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation The consolidated financial statements include the Company's accounts, its wholly-owned subsidiaries and all other subsidiaries over which the Company exerts control. The Company owns 45.6% of Globility Communications Corporations (GCC) through direct and indirect ownership structures. The results of GCC and its subsidiary are consolidated with the Company's results based on guidance from ASC 810, Consolidation. All intercompany profits, transactions and balances have been eliminated in consolidation.

In the first quarter 2009, the Company sold certain assets of its Japan retail operations. Therefore, the Company reported Japan retail operations as a discontinued operation. During the second quarter of 2008, the Company intended and had the authority to sell certain assets of its German retail operations, and therefore, reported this unit as a discontinued operation. However, buyers were not found; therefore the Company decided it would cease operations of the German retail business effective the first quarter of 2009.

Effective January 1, 2009, the Company adopted ASC No. 810, Consolidation. This statement changes the presentation of outstanding noncontrolling interests in one or more subsidiaries or the deconsolidation of those subsidiaries. Presentation of Taxes Collected The Company reports any tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction between the Company and a customer (including sales, use, value-added and some excise taxes) on a net basis (excluded from revenues).

Stock-Based Compensation The Company uses a Black-Scholes option valuation model to determine the fair value of stock-based compensation under ASC No. 718, Compensation Stock Compensation, consistent with that used for pro forma disclosures under ASC No. 718. The Black-Scholes model incorporates various assumptions including the expected term of awards, volatility of stock price, risk-free rates of return and dividend yield. The expected term of an award is no less than the option vesting period and is based on the Company's historical experience. Expected volatility is based upon the historical volatility of the Company's stock price. Because of the short trading history of the New Common Stock, the Company calculates the expected volatility by averaging the historical volatility of the stock price of the New Common Stock and historical volatility of a peer group in the telecommunication industry with similar market capitalization. The risk-free interest rate is approximated using rates available on U.S. Treasury securities with a remaining term similar to the option's expected life. The Company uses a dividend yield of zero in the Black-Scholes option valuation model as it does not anticipate paying cash dividends in the foreseeable future.

Use of Estimates The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of net revenue and expenses during the reporting period. Actual results may differ from these estimates. Significant estimates include allowance for doubtful accounts receivable, accrued interconnection cost disputes, the fair value of embedded derivatives, market assumptions used in estimating the fair values of certain assets and liabilities such as marketable securities, long-term obligations and liabilities subject to compromise, the calculation used in determining the fair value of the Company's stock options required by ASC No. 718, various tax contingencies, asset impairment write-downs, and purchase price allocations.

Under fresh-start accounting, the Company's asset values were remeasured and allocated in conformity with ASC No. 805, Business Combinations. Deferred taxes are reported in conformity with ASC No. 740, Income Taxes.

Upon the emergence from the bankruptcy on July 1, 2009, the Company entered into an arrangement for issuing Contingent Value Rights (CVRs) that contained derivative features. The Company accounted for the

Table of Contents

arrangement in accordance with ASC No. 815, Derivatives and Hedging. The Company determined these CVRs to be derivative instruments to be accounted for as liabilities and marked to fair value at each balance sheet date. Upon issuance, the Company recorded CVRs as a liability in its balance sheet at their estimated fair value. Changes in their estimated fair value of are recognized in earnings during the period of change.

Estimates of fair value represent the Company's best estimates based on independent appraisals or various valuations technique including Black-Scholes and, where the foregoing have not yet been completed or are not available, industry data and trends and by reference to relevant market rates and transactions. The estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, the Company cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially. Any adjustments to the recorded fair values of these assets and liabilities may impact the amount of recorded goodwill.

Property, Plant and Equipment The Predecessor's property and equipment was recorded at cost less accumulated depreciation, which was provided on the straight-line method over the estimated useful lives of the assets. Cost included major expenditures for improvements and replacements which extend useful lives or increase capacity of the assets as well as expenditures necessary to place assets into readiness for use. Expenditures for maintenance and repairs were expensed as incurred. The estimated useful lives of property and equipment were as follows: network equipment 5 to 8 years, fiber optic and submarine cable 8 to 25 years, furniture and equipment 5 years, leasehold improvements and leased equipment shorter of lease or useful life. In accordance with ASC No. 350, Intangible Goodwill and Other, costs for internal use software that were incurred in the preliminary project stage and in the post-implementation stage were expensed as incurred. Costs incurred during the application development stage were capitalized and amortized over the estimated useful life of the software. Successor's property, plant, and equipment were adjusted to fair value on the Effective Date and are currently stated at that value less accumulated depreciation and amortization. There is no change in the estimated useful lives of the property and equipment and the method of depreciation.

Newly Adopted Accounting Principles

Effective July 1, 2009, the Company adopted ASC No. 105, Generally Accepted Accounting Principles. ASC No. 105 establishes the FASB Accounting Standards Codification as the source of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements. The adoption did not have a material impact on its results of operations, financial position and cash flows.

Effective April 1, 2009, the Company adopted ASC No. 855, Subsequent Events. ASC No. 855 establishes principles and requirements for evaluating and reporting subsequent events and distinguishes which subsequent events should be recognized in the financial statements versus which subsequent events should be disclosed in the financial statements. ASC No. 855 also requires disclosure of the date through which subsequent events are evaluated by management. The adoption did not have a material effect on the Company's results of operations, financial position or cash flows.

Effective January 1, 2009, the Company adopted ASC No. 470-20, Debt with Conversion and Other Options. ASC No. 470-20 requires issuers of convertible debt securities to separate securities into a debt component and an equity component, resulting in the debt component being recorded at fair value without consideration given to the conversion feature. Issuance costs are also allocated between the debt and equity components. ASC No. 470-20 requires that convertible debt within its scope reflect a company's nonconvertible debt borrowing rate when interest expense is recognized. The adoption did not have a material effect on the Company's results of operations, financial position or cash flows.

Table of Contents

Effective January 1, 2009, the Company adopted SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles. SFAS No. 162 identifies the sources of accounting principles and provides the framework for selecting the principles used in the preparation of financial statements of non-governmental entities that are presented in conformity with generally accepted accounting principles in the United States. The adoption did not have a material effect on the Company's results of operations, financial position or cash flows.

Effective January 1, 2009, the Company adopted ASC No. 805, Business Combinations. ASC No. 805 establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statement to evaluate the nature and financial effects of the business combination. The adoption did not have a material effect on the Company's results of operations, financial position or cash flows; however, the Company applied this standard on July 1, 2009 to the Fresh Start Balance Sheet.

In February 2008, the FASB issued ASC No. 820, Fair Value Measurements. The provisions of ASC No. 820 provide guidance for, among other things, the definition of fair value and the methods used to measure fair value, were adopted January 1, 2008 for financial instruments. The provisions adopted in 2008 did not have a material impact on the Company's financial statements. ASC No. 820 delayed the effective date for all nonrecurring fair value measurements of nonfinancial assets and liabilities (except for those that are recognized or disclosed at fair value in the financial statements on a recurring basis) until financial years beginning after November 15, 2008, and changed the scope of ASC No. 820. On January 1, 2009, the Company adopted the provisions of ASC No. 820 for nonrecurring fair value measurements of nonfinancial assets and liabilities. The provisions adopted in the first quarter 2009 did not have an impact on the Company's financial statements as the Company did not have any fair value measurements of nonfinancial assets and liabilities as of September 30, 2009.

The valuation techniques required by ASC No. 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The Company had an outstanding cross-currency principal and interest rate agreement with Lehman Brothers Special Financing, Inc., who entered bankruptcy in October 2008 and ceased performing on the agreement. The Company estimated the value to be zero, requiring a write-off of \$1.2 million in the third quarter of 2008, and moved the instrument from Level 2 to Level 3 because the counter party's credit risk is not observable.

See table below for summary of the Company's financial instruments accounted for at fair value on a recurring basis:

In March 2008, the FASB issued ASC No. 815, Derivatives and Hedging. ASC No. 815 amends and expands the disclosure requirements with the intent to provide users of financial statements with an enhanced understanding of the use of derivative instruments, how derivative instruments and related hedged items are accounted for, and how derivative instruments and related hedged items affect an entity's financial statements. ASC No. 815 is effective for financial statements issued for fiscal years interim periods beginning after November 15, 2008. The adoption on January 1, 2009 did not have a material impact on the Company's results of operations, financial position and cash flows.

New Accounting Pronouncements

In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46 (R), which amends the definition of the primary beneficiary of a variable interest entity and will require the Company to assess each reporting period if any of the Company's variable interests give it a controlling financial interest in the applicable variable interest entity. The provisions of SFAS No. 167 will become effective for financial statements issued for fiscal years and interim periods begin after November 15, 2009. The Company is currently evaluating the impact the provisions of SFAS No. 167 on its financial statements.

4. FRESH-START ACCOUNTING

On July 1, 2009, the Company adopted fresh-start accounting in accordance with ASC No. 852, Reorganizations. Fresh-start accounting results in the Company becoming a new entity for financial reporting purposes. Accordingly, the Successor Company's consolidated financial statements are not comparable to consolidated financial statements of the Predecessor Company.

Under ASC No. 852, the Successor Company must determine a value to be assigned to the equity of the emerging company as of the date of adoption of fresh-start accounting. To facilitate this calculation the Company first determined the enterprise value of the Successor Company. The valuation methods included (i) a discounted cash flow analysis, considering a range of the weighted average cost of capital between 14.0% and 16.0% and multiples of projected earnings of between 4.5 and 5.0 times for its terminal value, and (ii) a market multiples analysis. This analysis resulted in an estimated enterprise value of between \$320 million and \$360 million, and with the midpoint of \$340 million chosen for purposes of applying fresh-start accounting.

The estimated enterprise value, and corresponding equity value, is highly dependent upon achieving the future financial results set forth in the financial projections included in the Company's Plan, as filed with the Bankruptcy Court. These projections were limited by the information available to the Company as of the date of the preparation of the projections and reflected numerous assumptions concerning anticipated future performance and prevailing and anticipated market and economic conditions that were and continue to be beyond the Company's control and that may not materialize. Projections are inherently subject to uncertainties and to a wide variety of significant business, economic and competitive risks. Therefore variations from the projections may be material.

Table of Contents

Fresh-start accounting reflects the value of the Company as determined in the confirmed Plan. Under fresh-start accounting, the Company's asset values are remeasured and allocated in conformity with ASC No. 805, Business Combinations. The excess of reorganization value over the fair value of tangible and identifiable intangible assets is recorded as goodwill in the accompanying consolidated condensed balance sheet.

Fresh-start accounting also requires that all liabilities, other than deferred taxes and pension and other postretirement benefit obligations, should be stated at fair value.

Estimates of fair value included in the Successor Company financial statements, in conformity with ASC No. 820, represent the Company's best preliminary estimates based on independent appraisals and valuations and, where the foregoing have not yet been completed or are not available, industry data and trends and by reference to relevant market rates and transactions. The foregoing estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, the Company cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially. In accordance with ASC No. 805, the preliminary allocation of the reorganization value is subject to additional adjustment until the Company has completed its analysis, but not to exceed one year after emergence from bankruptcy, to provide the Company with the time to complete the valuation of its assets and liabilities. The final determination of the fair value of individual assets and liabilities and the final allocation of the reorganization value may differ from the amounts included in the consolidated financial statements and there can be no assurance that such adjustments will not be material.

The following fresh-start Consolidated Condensed Balance Sheet presents the financial effects on the Company of the implementation of the Plan and the adoption of fresh-start accounting. The effect of the consummation of the transactions contemplated in the Plan includes the settlement of liabilities and the issuance of common stock as described in more detail in Note 1.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill reflects the excess of the reorganization value of Successor over the fair value of tangible and identifiable intangible assets as determined upon the adoption of fresh-start accounting. The Company recorded goodwill of \$59.3 million upon emergence from bankruptcy as well as intangible assets of \$188.0 million, which includes \$81.6 million of indefinite-lived trade names, \$102.4 million of amortizable customer relationships, and \$4.0 million of amortizable trade names.

The intangible assets not subject to amortization consisted of the following (in thousands):

	Successor September 30, 2009	Predecessor December 31, 2008
Trade names	\$ 81,808	\$
Goodwill	\$ 61,086	\$ 32,688

The Company allocated goodwill to all of its reporting units as part of fresh-start accounting, excluding the wholesale reporting unit which had nominal value relative to the total value of the Company. The changes in the carrying amount of trade names and goodwill by reporting unit for Successor's balance as of September 30, 2009 and Predecessor's balance as of December 31, 2008 are as follows (in thousands):

Senior Secured Term Loan Facility

In February 2005, a direct wholly-owned subsidiary of the Company, Primus Telecommunications Holding, Inc. (Holding), entered into a six-year, \$100 million senior secured term loan facility (the Facility). Each borrowing made under the Facility may be, at the election of Holding at the time of the borrowing, a London Inter-Bank Offered Rate (LIBOR) loan (which will bear interest at a rate equal to LIBOR + 6.50%), or a base rate loan (which will bear interest at a rate equal to the greater of the prime rate plus 5.50% or the federal funds effective rate plus 6.00%). The Facility contained no financial maintenance covenants. The Company borrowed \$100 million under this Facility in February 2005.

The Facility was to be repaid in 24 quarterly installments, which began on June 30, 2005, at a rate of one percent of the original principal per year over the next five years and nine months, and the remaining balance repaid on the sixth anniversary date of the Facility, with early redemption at a premium to par at Holding's option at any time after February 18, 2006. The Facility is guaranteed by the Company and certain of Holding's domestic subsidiaries and is secured by certain assets of Holding and its guarantor subsidiaries and by partial stock pledges of certain foreign subsidiaries.

In February 2007, the Company received unanimous consent to an amendment of its existing \$100 million Facility. This amendment enabled Primus Telecommunications IHC, Inc. (IHC), a wholly-owned indirect subsidiary of the Company, to issue and have at any one time outstanding up to \$200 million of existing authorized indebtedness in the form of newly authorized secured notes with a second lien security position. On February 26, 2007, an Intercreditor Agreement was entered into between the 14 1/4% Senior Secured Notes and the lenders of the Facility. Pursuant to this authorization, the Company has issued certain 14 1/4% Senior Secured Notes. The amendment allowed for an increase of 1/4% to the interest rate of the Facility and adjusted the early call features. The effective interest rate for the Facility at December 31, 2008 was 10.2%.

Table of Contents

The debt under the Facility was in default as a result of the bankruptcy filings on March 16, 2009. On the Effective Date, Group and Holding entered into a Third Amendment to the Term Loan Agreement (the Amended Term Loan). In accordance with the Amended Term Loan, Holding's Term Loan facility due February 2011 was reinstated and amended in certain respects, including: (i) at the option of Holding, interest rates are now (A) LIBOR + 9.00% with a LIBOR floor of 3.00% (or LIBOR + 11.00% with 4.00% to be paid in kind) or (B) Prime Rate + 8.00% with a Prime Rate floor of 4.00% (or Prime Rate + 10.00% with 4.00% to be paid in kind); (ii) The Bank of New York Mellon has been appointed as successor Administrative Agent; (iii) amortization payments have been increased; (iv) mandatory prepayments are required from (A) 25% of the net proceeds of certain equity issuances (including 25% of the cash of businesses acquired in exchange for equity), (B) 100% of the net proceeds from debt issuances (other than as permitted under the limitation of indebtedness covenant), and (C) 80% of net cash proceeds from asset sales or insurance recoveries not otherwise reinvested within 180 days or committed to reinvestment within 270 days of such asset sales; (v) Group or its affiliates are able to purchase annually up to \$5 million in principal amount of loans at less than par without being subject to the pro-rata provisions of the Term Loan facility (or purchases in excess of such annual amount by way of an offer to all lenders), any such purchased loans deemed immediately cancelled; and (vi) certain covenants have been modified, including restrictions on the ability to incur additional debt and the addition of a minimum EBITDA covenant, a maximum indebtedness covenant and a maximum capital expenditure covenant. In addition, the Debtors have agreed to pay all reasonable fees, expenses and disbursements of the counsel and financial advisors to the Term Loan lenders.

The Third Amendment modified the amortization schedule under the Term Loan so that principal payments will be due on the dates and in the amounts set forth below:

Payment Date	Principal Payment Amount
March 31, 2009	\$ 250,000
June 30, 2009	\$ 250,000
September 30, 2009	\$ 925,000
December 31, 2009	\$ 925,000
March 31, 2010	\$ 1,400,000
June 30, 2010	\$ 1,400,000
September 30, 2010	\$ 1,400,000
December 31, 2010	\$ 1,400,000
February 18, 2011	\$88,300,000

On March 31, 2009, June 30, 2009 and September 30, 2009, principal payments of \$250,000, \$250,000 and \$925,000, respectively, were paid as required under the Amended Term Loan.

The Third Amendments provides for the modification of Term Loan covenants concerning the incurrence of debt, including the elimination of most of the exceptions to the limitation on debt incurrence other than

- (a) an aggregate of \$50 million of specified indebtedness (of which approximately \$40 million is outstanding as of September 30, 2009);
- (b) an additional unsecured debt basket of up to an aggregate dollar cap of \$7.5 million;
- (c) debt to finance acquisitions, limited to 2.5 times the annual EBITDA acquired and satisfy acquisition debt standards; and
- (d) additional permitted debt, including debt arising from the use of PIK.

The Third Amendment provides for modification of a number of other Term Loan covenants, including:

modification of the restricted payments covenant to make clear that any voluntary or optional principal payment, or voluntary or optional redemption, repurchase, defeasance, or other acquisition or

Table of Contents

retirement for value of any debt, including but not limited to any of the 14¹/₄% Senior Subordinated Secured Notes issued by IHC (the Second Lien Debt), other than Indebtedness representing the Term Loans and specified indebtedness will be a Restricted Payment; provided that Restricted Payments shall not include (a) any repayment, repurchase or retirement of any indebtedness in connection with any permitted refinancing or (b) any repurchase of indebtedness with equity proceeds or asset sale proceeds not otherwise required to be applied in prepayment of the Term Loans. The restricted payments covenant contains customary restrictions, including, but not limited to, a cap of \$1 million;

modification of the limitation on liens covenant deleting the incurrence test and expressly prohibiting any liens other than permitted liens;

modification of the restriction on certain purchases of Indebtedness covenant precluding Group and each restricted subsidiary from repaying, prepaying or purchasing debt, excluding specified debt and other certain limited exceptions;

The Third Amendment provides for the inclusion of financial covenants concerning Minimum Adjusted EBITDA, Maximum Debt and Maximum Capital Expenditures (Capex) and provides that

the Adjusted EBITDA covenant initially will be calculated beginning September 30, 2009 based on the trailing four quarters for the periods ended September 30, 2009 and December 31, 2009, and such calculations will be made using specified constant currency rates (e.g., CAD 0.80; AUD 0.65; EUR 1.275 and GBP 1.40) (Minimum Adjusted EBITDA);

currency rates in effect on December 31, 2009 and June 30, 2010 will be used for purposes of calculating compliance for quarters ended during the next succeeding six month periods, but such currency rates will not be used retroactively for any periods prior to such date;

Minimum Adjusted EBITDA compliance is set at \$50 million, calculated quarterly based upon the prior four quarters effective September 30, 2009. Failure to meet the Minimum Adjusted EBITDA covenant will not be an event of default, except in circumstances noted in the succeeding proviso, and would result in a financial penalty of \$250,000 per quarter in incremental amortization plus a 50 basis point increase in the interest rate during the quarters of non-compliance, provided however that if the Adjusted EBITDA is below \$42 million it will constitute an event of default. The minimum Adjusted EBITDA will be calculated quarterly based upon the last four quarters results in a manner consistent with the definition used by the Company in past earnings releases, subject to the addition of reorganization cost adjustments and adjustments for divestitures and acquisitions.

Maximum Debt is \$270 million plus additional debt accrued from the use of PIK and for debt arising from acquisitions which debt would be limited to 2.5 times annual EBITDA acquired and as long as such debt satisfies Acquisition Debt standards; the Maximum Debt covenant is required to be maintained at all times following substantial consummation of the plan of reorganization; and

Maximum Capex is \$18 million in 2009 and \$23 million in 2010, calculated annually effective December 31, 2009, and subject to adjustment for divestitures and acquisitions.

Canadian Credit Facility

In March 2007, an indirect wholly-owned subsidiary of the Company, Primus Telecommunications Canada, Inc. (Primus Canada) entered into a Senior Secured Credit Agreement (Canadian Credit Facility) with a financial institution to refinance an existing Canadian credit facility. The Canadian Credit Facility provided for a \$35.0 million non-amortizing loan bearing interest at a rate of LIBOR plus 425 basis points and matured in March 2012. The loan proceeds were used to refinance the existing Canadian credit facility, including certain costs related to the transaction, and to finance certain capital expenditures. The Canadian Credit Facility was secured by the assets of Primus Canada and certain guarantees.

Table of Contents

In October 2007, Primus Canada entered into a cross-currency principal and interest rate swap agreement, a portion of which was required by the Canadian Credit Facility, which fixed the interest rate at 9.21% starting from October 31, 2007. The cross-currency principal and interest rate swap agreement's counter party was Lehman Brothers Special Financing, Inc. (Lehman SFI). Lehman SFI entered into bankruptcy in early October 2008 following its ultimate parent entering bankruptcy in mid-September 2008. Since September 2008 month end interest rate swap payments were not made by Lehman SFI to Primus Canada nor, correspondingly, were payments made from Primus Canada to Lehman SFI. While the covenant language is arguably ambiguous, the Company believed that the swap agreement with Lehman SFI continued to be in force with respect to the requirements under the Canadian Credit Facility and, accordingly, that no breach or event of default had occurred. The Waiver and Amendment Agreement (described below), eliminated any currency swap requirements of the Canadian Credit Facility.

On August 25, 2009, Primus Canada provided notice of Early Termination of the swap agreement, effective August 26, 2009. On September 16, 2009, Primus Canada filed Proofs of Claim in the bankruptcy proceedings of Lehman SFI and Lehman Brothers Holdings Inc. (LBHI), which was the guarantor of Lehman SFI's obligations under the swap agreement and which also is in bankruptcy. Lehman SFI and LBHI have stated they reserve all rights to dispute the Proof of Claim, including the effectiveness of Primus Canada's termination notice. The eventual outcome of this matter is unknown. As of September 30, 2009, the Company has not maintained any balances concerning the Lehman cross-currency principal and interest rate swap agreement.

On March 10, 2009, Primus Canada, 3082833 Nova Scotia Company and certain affiliate guarantors entered into a Waiver and Amendment Agreement (the Waiver and Amendment) to their \$35 million Canadian Credit Facility with Guggenheim Corporate Funding, LLC, as Administrative Agent and Collateral Agent.

The lenders under the Waiver and Amendment waived events constituting events of default and potential events of default under the Canadian Credit Facility, subject to the terms and conditions of the Waiver and Amendment. Such events included waivers covering certain specified events that have occurred and may constitute an event of default under the Canadian Credit Facility and anticipated events, including anticipated events of default. Anticipated events include events related to the plan of reorganization involving one or more of the guarantors and contemplated by the Waiver and Amendment (the Contemplated Plan), the occurrence of a material adverse effect arising as a result of the Chapter 11 Cases, the failure of a guarantor to make payment when due with respect to indebtedness (or the acceleration of indebtedness) of a guarantor at any time before the Contemplated Plan is effective and certain provisions of the guarantee being deemed invalid or unenforceable against a guarantor in connection with the Chapter 11 Cases for the Canadian Credit Facility. Specified waived events include:

the failure of Primus Canada to maintain certain hedging agreements, Lehman unsecured hedging agreements or unsecured hedging agreements reasonably satisfactory to the Administrative Agent to hedge the full amount of its currency rate exposures with respect to the aggregate principal amount outstanding under the Canadian Credit Facility;

the actions the guarantors have taken to authorize or effect certain actions related to the Reorganization; and

the failure to deliver to the Administrative Agent an Officer's Certificate in connection with the events described in the preceding bullets.

Table of Contents

The Waiver and Amendment permits Primus Canada to incur certain second-lien secured term loans that do not exceed \$5 million and guarantees by the credit parties. The Canadian Credit Facility, as amended, obligates Primus Canada to pay loan principal amounts under the Canadian Credit Facility on the dates and in the amounts set forth below:

Payment Date	Principal Payment Amount

14 1/4% Senior Subordinated Secured Notes

In February 2007, IHC issued in a private transaction \$57.2 million principal amount of the 14 1/4% Senior Secured Notes in exchange for \$40.7 million principal amount of the Company's outstanding 12 1/4% Senior Notes and \$23.6 million in cash. This exchange was accounted for as a modification of debt with a portion deemed to be a troubled debt restructuring. In March 2007, IHC also issued for cash in private transactions an additional \$51.0 million principal amount of 14 1/4% Senior Secured Notes with a \$0.3 million discount. Net cash proceeds from the 14 1/4% Senior Secured Notes issuance, after giving effect to expenses, discounts and fees related to all of the foregoing transactions (including the amendment of the Facility) was \$69.2 million. The Company recorded \$5.1 million in costs associated with this issuance of the 14 1/4% Senior Secured Notes, which have been recorded as a loss on restructuring of debt.

In May 2008, IHC issued \$67.1 million principal amount of the 14 1/4% Senior Secured Notes and paid \$4.7 million in cash in exchange for \$49.0 million principal amount of the Company's 8% Senior Notes, \$33.0 million principal amount of the Company's 5% exchangeable senior notes due June 2010 (5% Exchangeable Senior Notes), \$43.1 million principal amount of the Company's ~~3 1/4%~~ Convertible Senior Notes, and \$5.3 million principal amount of the Company's 12 1/4% Senior Notes. All exchanges were deemed troubled debt restructurings, and accordingly, were accounted for as modifications of debt, with scheduled future cash interest payments of \$26.4 million recorded in long-term obligations. The Company recognized a gain on restructuring of debt of \$32.2 million in connection with this exchange, including the expensing of \$0.5 million of financing costs.

The 14 1/4% Senior Secured Notes were to mature on May 20, 2011 with early redemption at a premium to par at IHC's option at any time after February 2008. During specified periods, IHC may redeem at par up to 35% of the aggregate principal amount of the 14 1/4% Senior Secured Notes with the net cash proceeds of certain equity offerings of the Company. Accrued interest will be paid each May 31st and November 30th, beginning May 31st, 2007. The effective interest rate for the 14 1/4% Senior Secured Notes at December 31, 2008 was 12.4% for those amounts not related to the troubled debt restructuring discussed above. (see Note 15 Guarantor/Non-Guarantor Consolidating Condensed Financial Information.)

In December 2008, the Company made open market purchases of \$2.1 million principal amount of its 14 1/4% Senior Secured Notes, resulting in a \$2.0 million gain on early extinguishment of debt including the write-off of related deferred financing costs. The notes were recorded as a reduction of long-term obligations.

On the Effective Date, IHC, Group, Holding, the other Guarantors party thereto and U.S. Bank National Association, as trustee, entered into a supplemental indenture (the Supplemental Indenture) to the indenture governing IHC ~~5/4%~~ Senior Secured Notes due 2011 (the Original Indenture). The Supplemental Indenture amended the Original Indenture to provide for the issuance of the Senior Subordinated Secured Notes . The maturity of the Senior Subordinated Secured Notes was extended to May 20, 2013. At the option of IHC, prior to the earlier of (1) the extension of the maturity of or the repayment in full of the indebtedness outstanding pursuant to the Amended Term Loan and the Canadian Credit Facility, and (2) June 1, 2011, up to 4.25% per annum of the interest on the Senior Subordinated Secured Notes may be paid in kind. The Supplemental Indenture also modified covenants in the Original Indenture to prevent subsidiary guarantors from incurring debt to refinance indebtedness of non-guarantors and to limit the incurrence of indebtedness of restricted persons that is secured by a lien on the assets of IHC, any subsidiary guarantor or other restricted persons, as defined under the modified indenture.

On the Effective Date, IHC entered into a First Amendment to the Intercreditor Agreement (as amended through the date hereof, the Amended Intercreditor Agreement), with Group, Holding, The Bank of New York Mellon, as First Lien Collateral Agent, and U.S. Bank National Association, as Second Lien Collateral Agent. Pursuant to the Amended Intercreditor Agreement, the Senior Subordinated Secured Notes are subordinated in right of payment to the prior indefeasible payment in cash in full of all obligations under the Amended Term Loan.

Also on the Effective Date, IHC, each of the Grantors party thereto and U.S. Bank National Association, as collateral agent, entered into a First Amendment to the Collateral Agreement (as amended through the date hereof, the Amended Collateral Agreement), to provide that the obligations of both IHC and PTII, an indirect wholly owned subsidiary of Group, are secured by PTII s assets, including 65% of the voting stock of foreign subsidiaries owned by PTII. In addition, on the Effective Date, Group and Holding entered into an Assumption Agreement in favor of U.S. Bank National Association, as collateral agent, pursuant to which each of Group and Holding became party to the Amended Collateral Agreement. As a result, Group and Holding s existing guarantees of the Senior Subordinated Secured Notes are secured by a lien on the property of Group and Holding, respectively.

Leased Fiber Capacity

In December 2000, the Company entered into a financing arrangement to purchase fiber optic capacity in Australia for 51.1 million Australian dollars (AUD) (\$28.5 million at December 31, 2000) from Optus Networks Pty. Limited. As of December 31, 2001, the Company had fulfilled the total purchase obligation. The Company signed a promissory note payable over a four-year term ending in April 2005 bearing interest at a rate of 14.31%. During the three months ended June 30, 2003, the Company renegotiated the payment terms extending the payment schedule through March 2007, and lowering the interest rate to 10.2%. In October 2006, the Company renegotiated the payment terms of its promissory note payable to Optus Networks Pty. Limited to defer principal payments from April 2006 through December 2006 and was obligated to pay the remaining balance in three equal monthly principal payments in the first quarter 2007. In February 2007, the Company again renegotiated the payment terms of its \$8.8 million (10.1 million AUD) promissory note payable to Optus Networks Pty. Limited to extend the payment schedule through December 2008 in 24 equal monthly payments. During the third quarter 2008, the payment terms were again renegotiated to extend payment of the principal balance of \$2.7 million (3.1 million AUD) to June 2010 with monthly payments of interest at a rate of 13.5%. Certain volume purchase targets were not met by September 30, 2009. Accordingly, Optus Networks Pty. Limited may give, but has not given, 30 days notice requiring full payment of the principal balance. At September 30, 2009 and December 31, 2008, the Company had a liability recorded in the amount of \$2.7 million (3.1 million AUD). Also, \$2.7 million (3.1 million AUD) and \$0 million were classified as current portion of long-term obligations at September 30, 2009 and December 31, 2008, respectively.

Litigation

Group and its subsidiaries are subject to claims, legal proceedings and potential regulatory actions that arise in the ordinary course of its business. Each of these matters is subject to various uncertainties, and it is possible that some of these matters may be decided unfavorably. The Company believes that any aggregate liability that may result from the resolution of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

8. SHARE-BASED COMPENSATION

Successor

On the Effective Date, pursuant to the Plan, the Predecessor's employee stock compensation plan (the Equity Incentive Plan) was cancelled and the Group's Management Compensation Plan became effective. The Management Compensation Plan provides that awards may be granted for up to 1,000,000 shares of New Common Stock, subject to adjustment in the case of certain changes in capitalization of reorganized Group, including, among other things, a reorganization, merger, consolidation, spin-off, combination, repurchase, share exchange, or other similar corporate transaction or event that affects the New Common Stock. The maximum aggregate number of shares of New Common Stock that may be granted during any fiscal year to any single individual who is likely to be a covered employee within the meaning of section 162(m)(3) of the Internal Revenue Code is 600,000, in the case of stock options or stock appreciation rights, and 400,000, in the case of restricted stock or other stock-based awards (other than stock appreciation rights).

The Compensation Committee (the Committee) of the Board of Directors of Group administers the Management Compensation Plan. The Committee has broad authority to administer, construe and interpret the Management Compensation Plan; however, it may not take any action with respect to an award that would be treated, for accounting purposes, as a repricing of an award unless the action is approved by the shareholders of Group.

The Management Compensation Plan provides for the grant of incentive stock options, nonqualified stock options, restricted stock, restricted stock units, and other stock-based or cash-based performance awards (collectively, awards).

Grants of Awards under the Management Compensation Plan Emergence Awards

Restricted Stock Unit Award Agreements

On July 2, 2009, 400,000 restricted stock units (RSUs) were granted to certain employees and executive officers pursuant to the terms and conditions set forth in the form of restricted stock unit agreement (the Emergence RSU Agreement).

Pursuant to the Emergence RSU Agreement, RSUs will vest in two equal tranches if reorganized Group attains at least ninety percent (90%) of the specified Adjusted EBITDA Targets for any fiscal year during the ten-year term of the Emergence RSU Agreement. Under certain circumstances specified in the Emergence RSU Agreement, if a participant's employment is terminated during any fiscal year in which the applicable percentage of the Adjusted EBITDA Target for such fiscal year is met, a pro rata portion of such participant's RSUs will vest based on the number of days such participant was employed during such fiscal year. The aggregate grant date fair value of the RSUs issued during the period was \$1.6 million. For three months ended September 30, 2009, the Company recognized \$0.3 million expense regarding this RSUs grant.

Stock Option Award Agreements

On July 1, 2009, 387,403 service-based stock options were granted to certain employees and executive officers pursuant to the terms and conditions set forth in the form of stock option agreement (the *Emergence Option Agreement*) and 100,000 performance-based stock options were granted to certain employees and executive officers pursuant to the terms and conditions set forth in the form of performance stock option agreement (the *Emergence Performance Option Agreement*).

Emergence Option Agreement

The *Emergence Option Agreement* provides for the grant of a nonqualified stock option to purchase shares of New Common Stock at an exercise price per share equal to \$12.22. The option vests ratably over two years, with 25% of the option vesting every six months after the date of grant. The stock option expires on the tenth anniversary of the Effective Date (the *Expiration Date*). A copy of the *Emergence Option Agreement* was filed as an exhibit to the Company's Form 8-K filed with the SEC on July 1, 2009. The aggregate grant date fair value of the emergence stock options granted was \$48 thousand. For three months ended September 30, 2009, the Company recognized \$6 thousand expense regarding this emergence option grant.

Emergence Performance Option Agreement

The *Emergence Performance Option Agreement* provides for the grant of a nonqualified stock option to purchase shares of New Common Stock at an exercise price per share equal to \$12.22. The performance option vests in two equal tranches if at least 115% of the specified Adjusted EBITDA Target is attained for any fiscal year during the term of the *Emergence Performance Option Agreement*. Under certain circumstances specified in the *Emergence Performance Option Agreement*, if a participant's employment is terminated during any fiscal year in which the applicable percentage of the Adjusted EBITDA Target for such fiscal year is met, a pro rata portion (based on the number of days such participant was employed during such fiscal year) of such participant's performance options will vest and remain exercisable until the earlier of one year following the date on which the Committee determines the applicable percentage of such Adjusted EBITDA Target has been attained (the *Measurement Date*) and the tenth anniversary of the Effective Date (the *Expiration Date*). Any unvested portion of the performance option which is not vested and exercisable as of the *Measurement Date* will thereafter terminate. The performance option expires on the *Expiration Date*. A copy of the *Emergence Performance Option Agreement* was filed as an exhibit to the Company's Form 8-K filed with the SEC on July 1, 2009. The aggregate grant date fair value of the emergence performance stock options granted was \$12 thousand. For three months ended September 30, 2009, the Company recognized \$2 thousand expense regarding this emergence performance option grant.

Non-Employee Directors' Grants

Unless otherwise provided by the Committee, immediately following each annual meeting of the shareholders of Group during the term of the Management Compensation Plan commencing with the 2010 annual meeting of shareholders, each non-employee director will be granted a nonqualified stock option to purchase 10,000 shares of New Common Stock with an exercise price per share equal to the fair market value of a share of New Common Stock on the date of grant. Each stock option so granted will vest one third upon grant, one third on the first anniversary and one third on the second anniversary, such that 100% of the option will be vested and exercisable on the second anniversary of the grant date (subject to continued service as a non-employee director through each applicable vesting date). All other terms and conditions of the grants will be established by the Committee and set forth in the non-employee director's award agreement.

A summary of Successor's stock option activity during the three months ended September 30, 2009 is as follows:

	Successor Three Months Ended September 30, 2009	Weighted Average Exercise Price
	Shares	\$

Granted	487,403	\$ 12.22
Exercised		\$
Forfeitures		\$
Outstanding September 30, 2009	487,403	\$ 12.22

Eligible for exercise \$

The weighted average fair value at date of grant for options granted during the three months ended September 30, 2009 was \$0.12 per option. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	Successor Three Months Ended September 30, 2009
Expected dividend yield	0%
Expected stock price volatility (1)	42%
Risk-free interest rate	2.0%
Expected option term	4 years

- (1) Expected volatility is based upon the historical volatility of the Company's stock price. Because of the short trading history of the Company's new Common Stock, the Company calculates the expected volatility by averaging the historical volatility of the Company's New Common Stock price from July 13, 2009 to September 30, 2009 at a rate of 36.4% and the historical volatility of the stock price of a peer group in the telecommunications industry with similar market capitalization from October 1, 2004 to September 30, 2009 at a rate of 48.3%.

The following table summarizes information about Successor's stock options outstanding at September 30, 2009:

Range of Option Prices	Total Outstanding	Options Outstanding			Total Exercisable	Options Exercisable		
		Weighted Average Remaining Life in Years	Weighted Average Exercise Price	Intrinsic Value		Weighted Average Remaining Life in Years	Weighted Average Exercise Price	Intrinsic Value
\$12.22	487,403	9.75	\$ 12.22	\$			\$	\$
	487,403	9.75	\$ 12.22	\$			\$	\$

For Emergence Performance Option and RSU compensation expense calculation, the Company assumes that it will meet the specified Adjusted EBITDA Targets in the next two consecutive fiscal years; therefore, according to the Plan, the two equal tranches of the options and RSUs will

vest in Year 1 and Year 2, consecutively.

As of September 30, 2009, Successor had 0.9 million unvested awards outstanding of which \$1.4 million of compensation expense will be recognized over the weighted average remaining vesting period of 1.47 years. The number of unvested awards expected to vest is 0.4 million shares, with a weighted average remaining life of 9.75 years, a weighted average exercise price of \$12.22, and an intrinsic value of \$0.

Table of Contents**Predecessor**

Under the Plan of Reorganization, all stock options granted under the Predecessor's Equity Incentive Plan were cancelled as of the Effective Date and \$64 thousand of share-based compensation expense was recognized due to the accelerated recognition of the cancelled options. The Predecessor Company recorded an incremental \$67 thousand and \$199 thousand stock-based compensation expenses for the three and nine months ended September 30, 2008, respectively.

9. INCOME TAXES

The Company conducts business globally, and as a result, the Company or one or more of its subsidiaries files income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. In the normal course of business we are subject to examination by taxing authorities throughout the world.

The following table summarizes the open tax years for each major jurisdiction:

Jurisdiction	Open Tax Years
United States Federal	2000, 2002, 2003, 2005 - 2008
Australia	2001 - 2008
Canada	2003 - 2008
United Kingdom	2003 - 2008

The Company is currently under examination in Canada and certain other non-material foreign tax jurisdictions not listed above, none of which are individually material.

The Company adopted the provisions of ASC No. 740, *Income Taxes*, on January 1, 2007. It is expected that the amount of unrecognized tax benefits, reflected in the Company's financial statements, will change in the next twelve months; however, the Company does not expect the change to have a significant impact on the results of operations or the financial position of the Company. During the three months ended June 30, 2009, the Company obtained new information supporting certain existing tax positions of its Australian subsidiaries that resulted in a reduction of \$8.1 million in the unrecognized tax benefits established in accordance with ASC No. 740. The reduction in the unrecognized tax benefit had the effect of an increase in deferred tax assets with an equal offset to the valuation allowance resulting in no effect on the financial statements.

Upon the Company's emergence on July 1, 2009 from bankruptcy, the amount of the Company's aggregate indebtedness was reduced. The reduction in the Company's indebtedness will result in cancellation of debt (COD) income for tax purposes of approximately \$329 million for the calendar year ending 2009. Because realization of such income will occur under the Bankruptcy Code, the Company will reduce federal and state net operating losses (NOLs) attributes and will reduce the tax basis in other assets including U.S. and foreign stock basis and certain loan receivables. For state tax purposes, the 2009 COD income is expected to substantially reduce or completely eliminate the state NOLs.

As a result of the adoption of fresh start accounting upon emergence from bankruptcy as discussed in Note 4, the Company has increased its deferred tax liabilities by \$57.1 million and increased goodwill by \$57.1 million to reflect the increase in book basis certain assets adjusted for the fresh start, which had no increase in basis for tax purposes. \$31.7 million of the goodwill and deferred tax liabilities relate to the fresh start increase to indefinite lived intangibles other than goodwill. This deferred tax liability will remain indefinitely, subject to reduction only if the related indefinite lived intangibles which gave rise to the deferred tax liabilities are impaired. The reduction of the deferred tax liability due to impairment of the underlying intangibles will provide a tax-benefited offset to any future impairment expense. The remaining \$25.4 million of deferred tax liability will result in a tax benefit as the underlying amortizable intangible asset is amortized to the income statement. The relief of these deferred tax liability will not result in any payment of cash by the company.

Table of Contents

In accordance with ASC No 805, the preliminary allocation of the reorganization value is subject to additional adjustment until the Company has completed its analysis, but not to exceed one year after emergence from bankruptcy, to provide the Company with the time to complete the valuation of the various attributes as a result of the Plan. The final determination of the tax assets and liabilities may differ from the amounts included in the consolidated financial statements and there can be no assurance that such adjustments will not be material.

On an ongoing basis, the Company monitors activity in its 5% shareholder base for substantial changes in ownership as defined under Internal Revenue Code Section 382 (Section 382). The Company believes that it underwent an ownership change for tax purposes (i.e., a more than 50% change in stock ownership change on the July 1, 2009 emergence date). As a result, the use of any of the Company's federal and state NOL carryforwards and tax credits generated prior to the ownership change (that are not reduced pursuant to the provisions discussed in the preceding paragraph) will be subject to an annual limitation of approximately \$1.7 million. The Company continues to monitor its ownership shifts and believes that there has not been a further ownership change as of September 30, 2009.

Section 382(l)(5) provides for an exception to the limitations of Section 382 for certain corporations that emerge from bankruptcy. The Company believes that it may meet the requirements for the benefits under Section 382(l)(5) but needs to complete its analysis to confirm whether or not such requirement have been met. The Company has the ability to elect out of the benefits of Section 382(l)(5) and apply the annual limitation. The election must be made with the filing of the Company's calendar year 2009 federal income tax return no later than the extended due date of September 15, 2010. Certain future requirements must be met to receive the benefits of Section 382(l)(5). The Company will continue to monitor its tax position and evaluate the requirements to qualify for Section 382(l)(5) and make a final determination related to this tax treatment.

The Company is required to determine whether it had a net unrealized built-in gain (NUBIG) or net unrealized built-in loss (NUBIL) at the 2009 emergence date. The Company believes that there was a NUBIL at the time of the 2009 emergence date. As a result, certain depreciation and loss deductions recognized during the five-year period beginning on the 2009 emergence date would be subject to the section 382 limitation if the Company does not qualify for the benefits under Section 382(l)(5).

10. OPERATING SEGMENT AND RELATED INFORMATION

The Company has six reportable operating segments based on management's organization of the enterprise into geographic areas United States, Canada, Europe, Australia, Brazil and the wholesale business from the United States and Europe managed as a separate global segment. During the quarter ended June 30, 2009, management identified its Brazil operating segment as a reportable segment due to management's increased focus on it as a separate market and operations. The Company has appropriately presented its Brazil segment for the current periods and prior periods presented. The Company evaluates the performance of its segments and allocates resources to them based upon net revenue and income (loss) from operations. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Net revenue by geographic segment is reported on the basis of where services are provided. The Company has no single customer representing greater than 10% of its revenues. Corporate assets, capital expenditures and property and equipment-net are included in the United States segment, while corporate expenses are presented separately in Income (loss) from operations. The wholesale business' assets are indistinguishable from the respective geographic segments. Therefore, any reporting related to the wholesale business for assets, capital expenditures or other balance sheet items is impractical.

11. DISCONTINUED OPERATIONS

In the first quarter 2009, the Company sold certain assets of its Japan retail operations. The sale price was \$0.4 million (40 million Japanese yen), which included \$0.2 million (20 million Japanese yen) in cash and \$0.2 million (20 million Japanese yen) receivable. The Company recorded a \$0.3 million gain from sale of assets. The Company reported Japan retail operations as a discontinued operation.

In the second quarter 2008, the Company determined it would sell its German retail operations. However, buyers were not found; therefore the Company decided to cease operations of the German retail business during the first quarter of 2009.

As a result of these events, the Company's consolidated financial statements for all periods presented reflect the Japan retail operations and German retail operations as discontinued operations. Accordingly, revenue, costs, and expenses of the discontinued operations have been excluded from the respective captions in the consolidated statements of operations. The net operating results of the discontinued operations have been reported, net of applicable income taxes as loss from discontinued operations.

Summarized operating results of the discontinued operations are as follows (in thousands):

12. BASIC AND DILUTED INCOME (LOSS) PER COMMON SHARE

Basic income (loss) per common share is calculated by dividing income (loss) attributable to common stockholders by the weighted average common shares outstanding during the period. Diluted income per common share adjusts basic income per common share for the effects of potentially dilutive common share equivalents.

Successor

Potentially dilutive common shares for Successor include the dilutive effects of common shares issuable under the Successor's Management Compensation Plan, including stock options, stock warrants and restricted stock units, using the treasury stock method.

For Successor's three months ended September 30, 2009, the following could potentially dilute income per common share in the future but was excluded from the calculation of diluted income per common share due to its antidilutive effect:

0.9 million shares issuable upon exercise of stock options and RSUs under the Successor's Management Compensation Plan;

4.5 million shares issuable upon exercise of stock warrants; and

2.7 million shares issuable upon exercise of CVRs.

Predecessor

Potentially dilutive common shares for Predecessor primarily included the dilutive effects of common shares issuable under Predecessor's Equity Incentive Plan computed using the treasury stock method and the dilutive effects of shares issuable upon conversion of its 5% Exchangeable Senior Notes, the Step Up Convertible Subordinated Debentures, the 3³/₄% Convertible Senior Notes and the 2000 Convertible Subordinated Debentures.

For the six months ended July 1, 2009, the following could potentially dilute income per common share in the future but was excluded from the calculation of diluted income per common share due to its antidilutive effect:

7.8 million shares issuable under the Predecessor's Equity Incentive Plan.

For the three months ended September 30, 2008, the following could potentially dilute income per common share in the future but were excluded from the calculation of diluted income per common share due to their antidilutive effects:

8.0 million shares issuable upon exercise of stock options,

19.5 million shares issuable upon conversion of the 5% Exchangeable Senior Notes,

7.3 million shares issuable upon conversion of the Step Up Convertible Subordinated Debentures, and

3.7 million shares issuable upon conversion of the 3³/₄% Convertible Senior Notes.

For the nine months ended September 30, 2008, the following could potentially dilute income per common share in the future but were excluded from the calculation of diluted income per common share due to their antidilutive effects:

8.0 million shares issuable upon exercise of stock options,

10.4 million shares issuable upon conversion of the Step Up Convertible Subordinated Debentures, and

6.0 million shares issuable upon conversion of the 3³/₄% Convertible Senior Notes.

Payment for reorganization expense for the three months ended September 30, 2009 were \$6.1 million. Payments for reorganization expense for the six months ended July 1, 2009 were \$4.6 million. In accordance with ASC No. 852, the Company ceased amortization of debt premiums, discounts and deferred financing costs related to the liabilities subject to compromise on the Petition Date. The \$3.5 million of unamortized debt premiums and discounts have been written off and recorded as a gain, offset by the expensing of \$3.6 million of unamortized deferred financing costs, as an adjustment to the net carrying value of the pre-petition debt. Long term debt was further reduced by \$20.5 million of future interest payable that previously had been recorded as a portion of long-term obligations for the 14 1/4% Senior Secured Notes and 5% Exchangeable Senior Notes as the issuance of these notes had been deemed troubled debt restructurings. Upon emergence from bankruptcy, Predecessor debt in the amount of \$439.6 million was written off along with the accrued interest related to this debt in the amount of \$11.5 million. In addition, the Successor Company issued \$123.5 million of new debt upon emergence.

14. GUARANTOR/NON-GUARANTOR CONDENSED CONSOLIDATED FINANCIAL INFORMATION
Consolidating Financial Statements for IHC Debt Issuance

Primus Telecommunications IHC, Inc. s 14 1/4% Senior Secured Notes were fully, unconditionally, jointly and severally guaranteed by Group on a senior basis and by Holding, Primus Telecommunications, Inc., TresCom International Inc., Least Cost Routing, Inc., TresCom U.S.A., Inc., iPRIMUS USA, Inc., and iPRIMUS.com, Inc., all 100% indirectly owned subsidiaries of Group (collectively, the Other Guarantors). Group has a 100% ownership in Holding and no direct subsidiaries other than Holding.

On the Effective Date, IHC, each of the Grantors party and U.S. Bank National Association, as collateral agent, entered into a First Amendment to the Collateral Agreement (the Amended Collateral Agreement), to provide that the obligations of both IHC and PTII, an indirect wholly owned subsidiary of Group, was secured by PTII s assets, including 65% of the voting stock of foreign subsidiaries owned by PTII. In addition, on the Effective Date, Group and Holding entered into an Assumption Agreement in favor of U.S. Bank National Association, as collateral agent, pursuant to which each of Group and Holding became party to the Amended Collateral Agreement. As a result, Group and Holding s existing guarantees of the Senior Subordinated Secured Notes are secured by a lien on the property of Group and Holding, respectively.

Accordingly, the following consolidating condensed financial information for the three months ended September 30, 2009 for Successor and for the six months ended July 1, 2009, and three months and nine months ended September 30, 2008 are included for (a) Group on a stand-alone basis; (b) Primus Telecommunications IHC, Inc. (IHC) on a stand-alone basis; (c) the Other Guarantor subsidiaries on a combined basis; (d) Group s indirect non-guarantor subsidiaries on a combined basis and (e) Group on a consolidated basis. The plan and fresh-start accounting adjustments reflected in Predecessor s Consolidated Condensed Statements of Operations on July 1, 2009 are not presented separately in this presentation.

Investments in subsidiaries are accounted for using the equity method for purposes of the consolidating presentation. The principal elimination entries eliminate investments in subsidiaries, intercompany balances and intercompany transactions.

Subsequent to the issuance of the Company's consolidated condensed financial statements for the quarterly period ended September 30, 2009, the Company determined that for the three months ended September 30, 2009, it had incorrectly recorded unrealized foreign currency transaction losses on intercompany payables that were permanent in nature and, therefore, should have been recorded as currency translation adjustments to accumulated other comprehensive income (loss) on the Consolidated Condensed Balance Sheet. As a result, the consolidated condensed financial statements have been restated from amounts previously reported to correct this error as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis gives effect to the Restatement discussed in Note 15 to the Consolidated Condensed Financial Statements.

Introduction and Overview of Operations

We are an integrated facilities based telecommunications services provider offering a portfolio of international and domestic voice, wireless, Internet, voice-over-Internet protocol (VOIP), data and hosting services to customers located primarily in the United States, Australia, Canada, the United Kingdom and western Europe. Our focus is to service the demand for high quality, competitively priced communications services that is being driven by the globalization of the world's economies, the worldwide trend toward telecommunications deregulation and the growth of broadband, Internet, VOIP, wireless and data traffic.

Generally, we price our services competitively with the major carriers and service providers operating in our principal service regions. We seek to generate net revenue through sales and marketing efforts focused on customers with significant communications needs, including small- and medium-sized enterprises (SMEs), multinational corporations, residential customers, and other telecommunications carriers and resellers and through acquisitions.

Our challenge concerning net revenue in recent years has been to overcome declines in long distance voice minutes of use per customer as more customers are using wireless devices and the Internet as alternatives to the use of wireline phones. Also, product substitution (e.g., wireless/Internet for fixed line voice) has resulted in revenue declines in our long distance voice services. Additionally, we believe that because deregulatory influences have begun to affect telecommunications markets outside the United States, the deregulatory trend is resulting in greater competition from the existing wireline and wireless competitors and from more recent entrants, such as cable companies and VOIP companies, which could continue to affect adversely our net revenue per minute, as well as minutes of use. More recently, adverse global economic conditions have resulted in a contraction of spending by business and residential customers generally which, we believe, has had an adverse affect on our net revenues.

In order to manage our traffic network transmission costs, we pursue a flexible approach with respect to the management of our network capacity. In most instances, we optimize the cost of traffic by using the least expensive cost routing; negotiate lower variable usage based costs with domestic and foreign service providers and negotiate additional and lower cost foreign carrier agreements with the foreign incumbent carriers and others; and continue to expand/reduce the capacity of our network when traffic volumes justify such actions.

Our overall margin may fluctuate based on the relative volumes of international versus domestic long distance services; carrier services versus business and residential long distance services; prepaid services versus traditional post-paid voice services; Internet, VOIP and data services versus fixed line voice services; the amount of services that are resold; and the proportion of traffic carried on our network versus resale of other carriers' services. Our margin is also affected by customer transfer and migration fees. We generally pay a charge to install and transfer a new customer onto our network, and to migrate broadband and local customers. However, installing and migrating customers to our own networks, such as the local and broadband networks in Australia and Canada, enable us to increase our margin on such services as compared to resale of services using other carriers' networks.

SG&A expenses are comprised primarily of salaries and benefits, commissions, occupancy costs, sales and marketing expenses, advertising, professional fees, and other administrative costs. All SG&A expenses are expensed when incurred. Emphasis on cost containment and the shift of expenditures from non-revenue producing expenses to sales and marketing expenses has been heightened since growth in net revenue has been under pressure.

Emergence From Voluntary Reorganization under Chapter 11 Proceedings

On March 16, 2009, Primus Telecommunications Group, Incorporated (Group) and three of its subsidiaries, Primus Telecommunications Holding, Inc. (Holding), Primus Telecommunications International, Inc. (PTII) and Primus Telecommunications IHC, Inc., (IHC and together with Group, Holding and PTII, collectively, the Debtors) each filed a voluntary petition (the Chapter 11 Cases) in the United States Bankruptcy Court for the District of Delaware (the Bankruptcy Court) for reorganization relief (Reorganization) under chapter 11 of title 11 of the United States Code, 11 U.S.C. §§ 101 *et seq.*, as amended (the Bankruptcy Code). Subsequently, the Debtors sought and received an order directing the joint administration of the Chapter 11 Cases under the caption In re: Primus Telecommunications Group, Incorporated, et al., Debtors, Case No. 09-10867. On April 8, 2009, April 20, 2009, and April 24, 2009, filings were made by the Debtors in the Bankruptcy Court concerning amended Disclosure Statements and Joint Plans of Reorganization of Primus Telecommunications Group, Incorporated and its Affiliate Debtors. On April 24, 2009, an unsecured creditors committee was appointed by the United States Trustee.

On April 27, 2009, the Bankruptcy Court approved the Debtors use of a disclosure statement dated April 27, 2009 (the Disclosure Statement) to solicit votes on the Joint Plan of Reorganization of Primus Telecommunications Group, Incorporated and its Affiliate Debtors attached thereto (the Plan). The Disclosure Statement was distributed to holders of record (as of April 27, 2009) of claims against, and interests in, the Debtors who are entitled to vote on the Plan (the Record Date).

The Plan was confirmed by the Bankruptcy Court on June 12, 2009 (the Confirmation Date). On July 1, 2009 (the Effective Date), the Debtors consummated their reorganization under the Bankruptcy Code and the Plan became effective. See Note 1 Proceedings Under Chapter 11 of the Bankruptcy Code within the financial statements included in Part I, Item 1 of this Form 10-Q/A.

As of July 1, 2009, the Company adopted fresh-start accounting in accordance with ASC No. 852. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements on or prior to July 1, 2009 are not comparable with the financial statements for periods after July 1, 2009. The consolidated condensed statements of operations, comprehensive income (loss) and any references to Successor or Successor Company for the three months ended September 30, 2009, show the operations of the reorganized Company from and including July 1, 2009, the Effective Date, through September 30, 2009. References to Predecessor or Predecessor Company refer to the operations of the Company prior to July 1, 2009, except for Predecessor s July 1, 2009 statements of operations and comprehensive income (loss), which reflect only the effect of the plan adjustments and fresh-start accounting as of such date and do not reflect any operating results. See Note 4 Fresh-Start Accounting in the notes to these Consolidated Condensed Financial Statements for further details.

In this Management Discussion and Analysis of Financial Condition and Results of Operations, we compare Successor s results of operations for period from July 2, 2009 to September 30, 2009 (the Successor Period) with Predecessor s results of operations for the three months ended September 30, 2008. We combine Successor s results of operations for the Successor Period with Predecessor s results of operations for the period from January 1, 2009 to July 2, 2009. The combined periods have been compared to Predecessor s nine months ended September 30, 2008. We believe that the comparison of the combined financial results provide management and investors a more meaningful analysis of our performance and trends for comparative purposes. The application of fresh-start accounting will have a significant non-cash impact on our future results of operations, but will have no impact on the underlying cash flows of the Company.

Foreign Currency

Foreign currency can have a major impact on our financial results. Currently approximately 80% of our net revenue is derived from sales and operations outside the United States. The reporting currency for our consolidated financial statements is the United States dollar (USD). The local currency of each country is the functional currency for each of our respective entities operating in that country. In the future, we expect to continue to derive the majority of our net revenue and incur a significant portion of our operating costs from

Table of Contents

outside the United States, and therefore changes in exchange rates have had and may continue to have a significant, and potentially adverse, effect on our results of operations. Our primary risk of loss regarding foreign currency exchange rate risk is caused primarily by fluctuations in the following exchange rates: USD/Canadian dollar (CAD), USD/Australian dollar (AUD), USD/British pound (GBP), and USD/Euro (EUR). Due to the large percentage of our revenue derived outside of the United States, changes in the USD relative to one or more of the foregoing currencies could have an adverse impact on our future results of operations. We have agreements with certain subsidiaries for repayment of a portion of the investments and advances made to these subsidiaries. As we anticipate repayment in the foreseeable future, we recognize the unrealized gains and losses in foreign currency transaction gain (loss) on the consolidated statements of operations. We historically have not engaged in hedging transactions. However, during the fourth quarter 2007, we completed a forward currency previously contract required by the Canadian Credit Facility and an interest rate swap agreement. Despite the counterparty to the interest rate swap agreement entering bankruptcy in October 2008, management did not believe that breach or event of default had occurred in relation to the Canadian Credit Facility. As of March 10, 2009, under the Waiver and Amendment Agreement, the Lenders under the Canadian Credit Facility waived any such possible breach or event of default. The exposure of our income from operations to fluctuations in foreign currency exchange rates is reduced in part because a majority of the costs that we incur in connection with our foreign operations are also denominated in local currencies.

We are exposed to financial statement gains and losses as a result of translating the operating results and financial position of our international subsidiaries. We translate the local currency statements of operations of our foreign subsidiaries into USD using the average exchange rate during the reporting period. Changes in foreign exchange rates affect the reported profits and losses and cash flows and may distort comparisons from year to year. By way of example, when the USD strengthens compared to the EUR, there could be a negative or positive effect on the reported results for Europe, depending upon whether Europe is operating profitably or at a loss. It takes more profits in EUR to generate the same amount of profits in USD and a greater loss in EUR to generate the same amount of loss in USD. The opposite is also true. For instance, when the USD weakens there is a positive effect on reported profits and a negative effect on the reported losses for Europe.

In the three months and nine months ended September 30, 2009, as compared to the three months and nine months ended September 30, 2008, the USD was stronger on average as compared to the CAD, AUD, GBP and EUR. The following tables demonstrate the impact of currency fluctuations on our net revenue for the three months and nine months ended September 30, 2009 and 2008 (in thousands, except percentages):

Critical Accounting Policies

See Management's Discussion and Analysis of Financial Condition and Results of Operations in our Form 10-K for the year ended December 31, 2008 for a detailed discussion of our critical accounting policies. These policies include revenue recognition, determining our allowance for doubtful accounts receivable, accounting for cost of revenue, valuation of long-lived assets and goodwill and accounting for income taxes.

In accordance with ASC No. 852, for periods including and subsequent to the filing of the Chapter 11 petition prior to emergence from bankruptcy, all pre-petition liabilities subject to compromise were segregated in the unaudited Consolidated Condensed Balance Sheets and classified as liabilities subject to compromise, at management's estimate of the amount of allowable claims. Liabilities not subject to compromise were separately classified as current and non-current in the unaudited Consolidated Condensed Balance Sheet. Revenues, expenses, realized gains and losses, and provisions for losses that result from the reorganization were reported separately as reorganization items, net, in the unaudited Consolidated Condensed Statements of Operations. Net cash used for reorganization items was disclosed separately in the unaudited Consolidated Condensed Statements of Cash Flows.

After the emergence from bankruptcy on July 1, 2009, the amounts reported on our subsequent financial statements materially changed. We adopted the fresh start provisions of ASC No. 852, which requires that all assets and liabilities except deferred taxes be restated to their fair value. Deferred tax balances have been established as a result of the differences in the basis adjustments from fresh-start accounting. Certain of these fair values differ materially from the values recorded on the Predecessor Consolidated Condensed Balance Sheets. Our emergence from reorganization resulted in a new reporting entity that had no retained earnings or accumulated deficit before the Effective Date. Additionally, we must also adopt any changes in GAAP that it is otherwise required to adopt within twelve months of such date. For all of these reasons, our Successor's financial statements are not comparable to our Predecessor's.

No other significant changes in our critical accounting policies have occurred since December 31, 2008.

Results of Operations

Results of operations for the Successor Period as compared to the three months ended September 30, 2008

Net revenue, exclusive of the currency effect, decreased \$10.5 million, or 4.5%, to \$220.7 million for the three months ended September 30, 2009 from \$231.3 million for the three months ended September 30, 2008. Inclusive of the currency effect, which accounted for a decrease of \$12.8 million, net revenue decreased \$23.3 million to \$207.9 million for the three months ended September 30, 2009 from \$231.3 millions for the three months ended September 30, 2008.

The revenue decrease is primarily attributable to a decrease of \$3.9 million in retail voice services, a decrease of \$2.3 million in prepaid voice services, a decrease of \$0.3 million in wireless services and a decrease of \$0.2 million in local services offset, in part, by an increase of \$0.5 million in internet, data and hosting. Inclusive of the currency effect, which accounted for a \$3.2 million decrease, net revenue decreased \$9.4 million to \$57.4 million for the three months ended September 30, 2009 from \$66.8 million for the three months ended September 30, 2008.

Australia: Australia net revenue, exclusive of the currency effect, decreased \$2.6 million, or 3.7%, to \$68.2 million for the three months ended September 30, 2009 from \$70.7 million for the three months ended September 30, 2008. The revenue decrease is primarily attributable to a decrease of \$3.1 million in internet services, a decrease of \$1.0 million in residential voice, a decrease of \$0.4 million in broadband services offset, in part, by increases of \$1.4 million in business services and \$0.5 million in wireless services. Inclusive of the currency effect, which accounted for a \$4.5 million decrease, net revenue decreased \$7.1 million to \$63.7 million for the three months ended September 30, 2009 from \$70.7 million for the three months ending September 30, 2008.

Wholesale: Wholesale net revenue, exclusive of the currency effect, increased \$3.0 million, or 5.6%, to \$57.0 million for the three months ended September 30, 2009 from \$54.0 million for the three months ended September 30, 2008. Due to the decision to cease our German retail operations, all German wholesale operations were transferred to the United Kingdom beginning in the third quarter 2008. This transfer was completed in the first quarter 2009 (see Note 11 Discontinued Operations to the Consolidated Condensed Financial Statements presented herein). The following table reflects net revenue for each major country (in thousands, except percentages):

The decrease is primarily attributable to a decrease of \$3.2 million in retail voice services (for residential and small businesses), a decrease of \$1.5 million in VOIP services and a decrease of \$0.5 million in Internet services.

Europe: Europe net revenue, exclusive of the currency effect, decreased \$1.5 million, or 9.1%, to \$14.5 million for the three months ended September 30, 2009 from \$15.9 million for the three months ended September 30, 2008. Foreign currency transaction gain (loss) increased \$47.2 million to a \$34.0 million gain for the nine months ended September 30, 2009 from a \$13.2 million loss for the nine months ended September 30, 2008. This gain is attributable to the impact of foreign currency exchange rate changes on intercompany debt balances and on receivables and payables denominated in a currency other than the subsidiaries' functional currency.

Reorganization items, net was a \$440.0 million gain for the nine months ended September 30, 2009. In accordance with ASC No. 852, the Company ceased amortization of debt premiums, discounts and deferred financing costs related to the liabilities subject to compromise on the Petition Date. The \$3.5 million of unamortized debt premiums and discounts has been written off and recorded as a gain, offset by the expensing of \$3.6 million of unamortized deferred financing costs, as an adjustment to the net carrying value of the pre-petition debt, and the incurrence of professional fees regarding the bankruptcy filing. Long term debt was further reduced by \$20.5 million of future interest payable that previously had been recorded as a portion of long-term obligations for the 14 1/4% Senior Secured Notes and 5% Exchangeable Senior Notes as the issuance of these notes had been deemed troubled debt restructurings. Professional fees and other expenses related to the reorganization were \$12.1 million for the nine months ended September 30, 2009.

Income tax expense decreased to an expense of \$1.8 million for the nine months ended September 30, 2009. The expense consists of foreign withholding tax on intercompany interest and royalty fees owed to a United States subsidiary by our Canadian and Australian subsidiaries, charges for uncertain tax positions under ASC No. 740, *Income Taxes*, taxable results for the operations of our Canadian subsidiaries and a tax benefit for the release of deferred tax liabilities set up in fresh-start relating to the current period amortization of the underlying asset for which the deferred tax liability was set up. The decrease in tax expense year-to-date as compared to the income tax expense as of June 30, 2009 was primarily due to the release of accrued tax liabilities related to the amortization of fresh start items.

Liquidity and Capital Resources

Changes in Cash Flows

Our principal liquidity requirements arise from cash used in operating activities, purchases of network equipment including switches, related transmission equipment and capacity, development of back-office systems, expansion of data center facilities, interest and principal payments on outstanding debt and other obligations, taxes and acquisitions. We have financed our growth and operations to date through public offerings and private placements of debt and equity securities, vendor financing, capital lease financing and other financing arrangements.
