Gross margins, as a percentage of net revenue, improved 110 basis points to 5.2% in Q310 versus Q309 as we focused on higher margin US domestic terminations

Summer seasonality in Europe had expected effect on quarterly traffic

Focus on profitability vs. Revenue drove decision to prune less profitable traffic

13

Primus

Other Businesses

United States:

Net Revenue for the quarter decreased \$4.1 million year over year to \$12.1 million

Adjusted EBITDA for the quarter decreased \$1.6 million year over year to

\$0.9 million

Brazil:

Net Revenue for the quarter increased BRR 8.2 million year over year to BRR 15.9 million

Adjusted EBITDA for the quarter remained flat year over year as the significant increase in revenue was derived from low-margin reseller voice services

Europe Retail:

All European retail operations classified as Discontinued Operations in the financial statements

\$6.2 million (non-cash) impairment charge for goodwill and long-lived assets, primarily intangibles established as part of fresh start accounting

Adjusted EBITDA of (2K) and (71K) for the third quarters 2010 and 2009, respectively

Adjusted EBITDA

Adjusted EBITDA, as defined by us, consists of net income (loss) before reorganization items, net, share-based compensation expense, depreciation and amortization, asset impairment expense, gain (loss) on sale or disposal of assets, interest expense, amortization or accretion on debt discount or premium, gain (loss) on early extinguishment or restructuring of debt, interest income and other income (expense), gain (loss) from contingent value rights valuation, foreign currency transaction gain (loss), income tax benefit (expense), income (expense) attributable to

the non-controlling interest, income (loss) from discontinued operations, net of tax, and income (loss) from sale of discontinued operations, net of tax. Our definition of Adjusted EBITDA may not be similar to Adjusted EBITDA measures presented by other companies, is not a measurement under generally accepted accounting principles in the United States, and should be considered in addition to, but not as a substitute for, the information contained in our statements of operations.

We believe Adjusted EBITDA is an important performance measurement for our investors because it gives them a metric to analyze our results exclusive of certain non-cash items and items which do not directly correlate to our business of selling and provisioning telecommunications services. We believe Adjusted EBITDA provides further insight into our current performance and period to period performance on a qualitative basis and is a measure that we use to evaluate our results and performance of our management team.

Free Cash Flow

Free Cash Flow, as defined by us, consists of net cash provided by (used in) operating activities before reorganization items less net cash used in the purchase of property and equipment. Free Cash Flow, as defined above, may not be similar to Free Cash Flow measures presented by other companies, is not a measurement under generally accepted accounting principles in the United States, and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statements of cash flows.

We believe Free Cash Flow provides a measure of our ability, after purchases of capital and other investments in our infrastructure, to meet scheduled debt principal payments. We use Free Cash Flow to monitor the impact of our operations on our cash reserves and our ability to generate sufficient cash flow to fund our scheduled debt maturities and other financing activities, including discretionary refinancings and retirements of debt. Because Free Cash Flow represents the amount of cash generated or used in operating activities less amounts used in the purchase of property and equipment before deductions for scheduled debt maturities and other fixed obligations (such as capital leases, vendor financing and other long-term obligations), you should not use it as a measure of the amount of cash available for discretionary expenditures.
