Filed Pursuant to Rule 424(b)(3)
Registration Statement File No. 333-171134

PROSPECTUS SUPPLEMENT NO. 1

(To the Prospectus dated December 28, 2010)

IDENTIVE GROUP, INC.

8,195,252 Shares of Common Stock

This prospectus supplement supplements the information contained in the Prospectus dated December 28, 2010, relating to the resale or other disposition of up to 8,195,252 shares of the common stock, par value \$0.001 per share, of Identive Group, Inc. by the selling stockholders named in the Prospectus, certain of whom are our officers, directors and affiliates, together with any of their pledgees, donees, transferees or other successors-in-interest, from time to time. We will not receive any of the proceeds from the sale of any shares of common stock by the selling stockholders, but we will incur expenses in connection with the registration of these shares. We will, however, receive proceeds in the event that some or all of the warrants held by the selling stockholders are exercised.

This prospectus supplement should be read in conjunction with the Prospectus, which is to be delivered with this prospectus supplement.

This prospectus supplement is filed for the purposes of including the information contained in the Current Report on Form 8-K of Identive Group, Inc., filed with the Securities and Exchange Commission on March 2, 2011.

Investing in our common stock involves a high degree of risk. We urge you to carefully read the section entitled Risk Factors beginning on page 4 of the Prospectus and all other information included or incorporated therein by reference in its entirety before you decide whether to buy our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is March 2, 2011.

- 99.1 Press Release dated March 2, 2011 announcing financial results for the 2010 fiscal fourth quarter and year ended December 31, 2010 for Identive Group, Inc.

IDENTIVE GROUP ANNOUNCES FOURTH QUARTER AND FISCAL 2010 RESULTS

105% sales growth and significant cost reductions drive turnaround in profitability; Adjusted EBITDA of \$1.1 million in 2010

SANTA ANA, Calif. and ISMANING, Germany, March 2, 2011 Identive Group, Inc. (NASDAQ: INVE; Frankfurt: INV), a provider of products, services and solutions for the security, identification and RFID industries, today announced results for the fiscal fourth quarter (Q4) and full year 2010, ended December 31, 2010.

Ayman S. Ashour, chairman and chief executive officer, commented, "2010 was a year of transformation for Identive. We completed the combination with Bluehill ID and the acquisitions of RockWest and Smartag and put in place a management team with significant experience in the secure identification and identity management market. We more than doubled sales and achieved significant wins for security-related projects with the Internal Revenue Service and the Department of Justice in the U.S., the German electronic ID program, the Critical National Infrastructure Authority in Abu Dhabi and China Unicom. And we exceeded our goal of cutting out \$4.5 million in overheads. In our first year as Identive Group, we have established the Company as an innovative leader in secure identification technologies, with a demonstrated focus on growth and profitability.

Identive's Q4 and fiscal year 2010 results include the operating results of acquired companies since the dates of their respective acquisitions. These include Hirsch Electronics Corporation, acquired April 30, 2009; Bluehill ID AG, acquired January 4, 2010; Multicard U.S., acquired April 14, 2010; and Smartag, acquired November 19, 2010. All results are reported in U.S. GAAP, except as noted. A discussion of non-GAAP measures and reconciliation to the applicable GAAP measures is included below.

Full Year 2010 Results

Revenue for the full year 2010 was \$84.8 million, up 105% from \$41.3 million in 2009 and reflecting organic growth as well as growth from strategic acquisitions. In contrast, total base operating expenses in 2010, including \$16.2 million of additional costs from acquired businesses, grew only 44% from 2009 levels as a result of cost reduction measures implemented at the beginning of 2010.

/More

Net loss decreased to \$(9.5) million, or \$(0.22) per share in 2010, compared with net loss of \$(14.2) million, or \$(0.64) per share in 2009. On a non-GAAP basis, adjusted EBITDA (EBITDA before equity-based compensation, acquisition, transition and integration costs) was \$1.1 million in 2010, compared with negative adjusted EBITDA of \$(7.5) million in 2009.

Cash and cash equivalents at December 31, 2010 were \$10.8 million, up from \$6.2 million at September 30, 2010, reflecting funds received from Identive's private placement of shares in November 2010, offset by cash associated with the acquisition of Smartag in Q4 and funding of working capital.

Q4 2010 Results

Revenue in Q4 2010 was \$27.8 million, up 134% from \$11.9 million in Q4 2009 and up 36% from restated revenue of \$20.5 million in the third quarter (Q3) of 2010. The year-over-year increase was primarily due to the inclusion of revenue from the acquired businesses, while organic growth accounted for 39% of the increase, as the Company's SCM, Multicard and Hirsch businesses benefited from demand for ID security solutions for U.S. and German government applications.

On a GAAP basis, Identive recorded net loss of \$(0.8) million, or \$(0.02) per share in Q4 2010. This compares to net loss of \$(8.4) million, or \$(0.34) per share in Q4 2009 and net loss of \$(2.0) million, or \$(0.05) per share in Q3 2010 (as restated). Non-GAAP adjusted EBITDA was \$2.9 million in Q4 2010, compared with \$(3.7) million in Q4 2009 and \$(16) thousand in Q3 2010.

GAAP gross profit margin was 43% in Q4 2010, compared with 40% in Q4 2009 and 44% in Q3, 2010 (as restated). Non-GAAP gross profit margin (excluding amortization and overhead allocations) was 46% in Q4 2010, compared with 46% in Q4 2009 and 48% in Q3 2010 (as restated).

GAAP operating expenses were \$12.3 million in Q4 2010, including \$2.3 million of primarily non-cash costs. This compares with operating expenses of \$11.6 million in Q4 2009, which included \$2.5 million of primarily non-cash and acquisition-related costs; and \$11.2 million in Q3 2010 (as restated), which included \$1.4 million of primarily non-cash costs. GAAP operating loss fell to \$(0.5) million in Q4 2010, compared with operating loss of \$(6.9) million in Q4 2009 and operating loss of \$(2.3) million in Q3 2010 (as restated).

Highlights in Q4 2010 included:

Significant growth in Identive's RFID transponder business, fueled by increased demand for RFID inlays and components for applications ranging from payments to transportation to high-value asset tracking. The addition of Smartag production capacity in late November further boosted RFID transponder sales to record levels.

Strong sales of SCM readers and other ID infrastructure products, including the partial fulfillment of orders for secure IT kits related to the German government's implementation of a new electronic citizen ID card. Identive's Multicard business in Germany, which was selected by the German government to provide application software and related services for the kits and to act as a project manager for their distribution, delivered nearly 100,000 secure IT kits while SCM delivered 215,000 kits to Multicard as well as to partners in the insurance and media industries for distribution to citizens.

Continued strong orders from U.S. government agencies for Hirsch security and identity management systems as a result of continued high activity in the sector around compliance with security mandates under programs such as Homeland Security Presidential Directive 12.

Sequential growth in Identive's Multicard Netherlands business from sales of additional solutions and services for payment applications.

Important new contract wins for Multicard U.S. in the healthcare and education markets, for patient and student ID projects.

In 2010 we saw the acceleration of secure ID programs in many areas of the world, as government security mandates and the convenience of RFID technology drove projects from access control at U.S. federal facilities to national ID cards to mass transit ticketing, continued Mr. Ashour. While development of the secure ID market remains fragmented geographically, some clear trends are emerging in 2011. These include mobile payments, the deployment of personal identity credentials for local government employees, and ticketing for mass transit. Identive has unique competence across the RFID and secure ID value chains and is well positioned to participate in all of these trends.

Conference Call and Webcast Information

Identive Group will host a conference call and webcast today at 10:00 AM Eastern Time, which can be accessed by dialing 800.638.4817 (toll free within the U.S.) or +1 617.614.3943 (for international callers) and using pass code 52067596. A webcast of the call that includes presentation slides can be accessed by visiting the investor relations section of the Company's website at www.identive-group.com, and by clicking on Presentations, Reports & Webcasts, where it also will be archived for those unable to listen to the live webcast. An audio replay of the call also will be available for one week and can be accessed by dialing 888.286.8010 (toll free within the U.S.) or +1 617.801.6888 (for international callers) and using pass code 16582818.

About Identive Group

Identive Group, Inc. (NASDAQ: INVE; Frankfurt Stock Exchange: INV) is an international technology company focused on building the world's signature group in secure identification-based technologies. The businesses within Identive Group have deep industry expertise and are well-known global brands in their individual markets, providing leading-edge products and solutions in the areas of physical and logical access control, identity management and RFID systems to governments, commercial and industrial enterprises and consumers. Identive's growth model is based on a combination of strong technology-driven organic growth from the businesses within the group and disciplined acquisitive development. For additional info visit: www.identive-group.com.

Use of Non-GAAP Financial Information

In evaluating our business, our non-GAAP gross profit margin, non-GAAP overhead costs and adjusted EBITDA differ from GAAP gross profit margin, GAAP operating expenses and GAAP net income (loss) due to the exclusion of certain items detailed in the reconciliation table within this press release. Our management uses each of these non-GAAP measures internally and believes that they provide investors with a meaningful way to evaluate the Company's operating performance. However, we caution investors to consider these non-GAAP financial measures in addition to, and not as a substitute for, our GAAP financial measures.

Note Regarding Forward Looking Information:

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements can be identified by words such as "anticipates," "believes," "plans," "will," "intends," "expects," and similar references to the future. Examples of such statements include, without limitation, statements we make about our expectations regarding worldwide demand for our ID products and solutions, trends in the secure ID market, our position as an innovative leader in the secure ID market, and our future growth and profitability. These statements are based on current expectations or beliefs, as well as a number of assumptions about future events that are subject to risks and uncertainties that may cause actual results to differ materially from those contemplated herein. Our financial results may not meet expectations, our cost savings may not be in the amounts or the time frames we expect; and we may not be successful in our strategy of pursuing both organic and acquisitive growth. Readers should not unduly rely on these forward-looking statements, which are not a guarantee of future performance and are subject to a number of risks and uncertainties, many of which are outside our control, that could cause our actual business and operating results to differ. Factors that could cause actual results to differ materially from those in the forward-looking statements include our ability to successfully integrate acquired businesses into ours; our ability to effect significant reductions in our expense base; our ability to reduce the transaction costs associated with mergers and acquisitions; our ability to grow the

Company based on a strategy of providing products, components and services for the identification systems value chain; our ability to grow market share and revenues based on participation in early stage markets for contactless products; our ability to retain and hire experienced management personnel; our ability to successfully develop and introduce new products that satisfy the evolving and increasingly complex requirements of customers; whether the markets in which we participate or target may grow, converge or standardize at anticipated rates or at all, including the identification and identity markets that we are targeting; our ability to acquire the components we need to build our own products; and our ability to successfully compete in the markets in which we participate or target. For a discussion of further risks and uncertainties related to our business, please refer to our public company reports, including our Annual Report on Form 10-K for the year ended December 31, 2009 and subsequent reports filed with the U.S. Securities and Exchange Commission.

---	--------	--------	--------	--------	--------

- (A) In connection with preparation of its annual financial statements and fourth quarter 2010 results, the Company determined that an error occurred in the recognition of revenue related to the sale of readers for the German national ID program as reported for the third quarter of 2010. Upon review of Accounting Standards Codification 605, *Revenue Recognition*, the Company concluded that not all criteria for recognizing the sale were in fact met until the fourth quarter of 2010. As a result, revenue of approximately \$2.8 million reported in the Company's Form 10-Q for the quarter ended September 30, 2010 was overstated, resulting in an impact of \$1.2 million on operating profit and net income. The Audit Committee, after reviewing the matter with management, has concluded that the required adjustment to the Company's third quarter financial statements is not material. The Company will include the restated third quarter results (as presented in the table above) in the interim footnote disclosure of its 2010 Annual Report on Form 10-K and in its third quarter 2011 Form 10-Q.

- (C) As stated in the footnote to the condensed consolidated statement of operations in this press release, the Company determined that an error occurred in the recognition of revenue related to the sale of readers for the German national ID program as reported for the third quarter of 2010 and these sales were subsequently recognized in the 2010 fourth quarter. As a result, revenue, gross margin, operating performance and net income/(loss) for the third quarter of 2010 have been restated. The Company will include the restated third quarter results in the interim footnote disclosure of its 2010 Annual Report on Form 10-K and in its third quarter 2011 Form 10-Q.
