Item 2.02. Results of Operations and Financial Condition.

On March 15, 2011, we issued a press release announcing our results for the year ended December 31, 2010 and will conduct a previously-announced, publicly-available conference call to discuss those results. A copy of this press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The information responsive to Item 2.02 of this Form 8-K and Exhibit 99.1 hereto shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing.

Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

(a) On March 14, 2011, the Audit Committee of our Board of Directors determined, following a routine review by the staff of U.S. Securities and Exchange Commission (SEC) of our Annual Report on Form 10-K for the year ended December 31, 2009, that we should restate our financial results for the years ended December 31, 2009 and 2008 and for the quarters ended March 31, June 30 and September 30, 2010 and 2009. The restatement does not impact cash and investments or total cash flows from operations. Our Audit Committee made this determination following consultation with, and upon the recommendation of, our management team as well as following consultation with our independent registered accounting firm, Ernst & Young LLP (EY). In making this determination, our Audit Committee has concluded that our Annual Report on Form 10-K for the year ended December 31, 2009 and our Quarterly Reports on Form 10-Q for the periods ended March 31, 2010, June 30, 2010 and September 30, 2010, and all related financial press releases and stockholder communications, and the reports of EY relating to the years ended December 31, 2009 and 2008, should no longer be relied upon.

The restatement relates to our accounting for the initial recognition of a loan commitment representing the future availability to us, on below-market terms, of the \$50 million line of credit extended to us by Purdue Pharmaceutical Products L.P. (PPLP) and its independent associated company, Purdue Pharma L.P., in November 2008 upon entry into a strategic alliance with PPLP and its independent associated company, Mundipharma International Corporation Limited. This written loan commitment, or loan commitment asset, meets the definition of a financial instrument and we therefore recorded it as an asset. We determined that the fair value of the loan commitment asset was \$17.3 million. We recorded the fair value of this asset in 2008 and began amortizing this balance to interest expense over the life of the loan arrangement, or ten years, on April 1, 2009, the date at which we could first draw upon the line of credit.

Once we concluded that the loan commitment asset should be recorded at fair value, we were required to record an offsetting credit. Based on our evaluation of the relevant accounting guidance, we initially recorded the offset to the loan commitment asset to additional paid-in capital (APIC), in part because PPLP and its associated companies would be principal stockholders at the time we could benefit from favorable terms of the line of credit.

Edgar Filing: INFINITY PHARMACEUTICALS, INC. - Form 8-K

Following discussions with the SEC staff, we have determined the offset to the loan commitment asset should have been recorded as deferred revenue rather than APIC. We plan to amortize the deferred revenue to revenue over the 14 year period beginning in November 2008 (approximately \$300,000 per quarter), which is our estimated period of performance under the strategic alliance.

We expect to file an amendment to our Annual Report on Form 10-K for the year ended December 31, 2009 and amendments to our Quarterly Reports on Form 10-Q for the periods ended March 31, 2010, June 30, 2010 and September 30, 2010 reflecting the restatement.

The following table summarizes the effects of the restatement adjustments on our previously issued consolidated balance sheets as of September 30, 2010 and December 31, 2009 and 2008:

When the foregoing reports were initially filed, we had concluded that our internal control over financial reporting was effective as of each applicable date. In consideration of this restatement, however, we have concluded that there was a material weakness in our internal controls over financial reporting as of December 31, 2009. During 2010, we strengthened our internal controls relating to the review of significant non-routine and/or complex transactions by engaging a third-party expert to assist us in evaluating the accounting treatment of these transactions.
