**LG DISPLAY REPORTS FIRST QUARTER 2011 RESULTS**

SEOUL, Korea April 18, 2011 LG Display [NYSE: LPL, KRX: 034220], a leading innovator of TFT-LCD technology, today reported unaudited earnings results based on consolidated IFRS (International Financial Reporting Standards) for the three-month period ending March 31, 2011.

Sales in the first quarter of 2011 decreased by 17% to KRW 5,366 billion from KRW 6,483 billion in the fourth quarter of 2010, and decreased by 9% compared to KRW 5,876 billion in the first quarter of 2010.

Operating loss in the first quarter of 2011 was KRW 239 billion compared to a loss of KRW 387 billion in the fourth quarter of 2010 and operating profits of KRW 789 billion in the first quarter of 2010.

EBITDA in the first quarter of 2011 was KRW 577 billion, an increase of 46% from KRW 396 billion in the fourth quarter of 2010 and a year-on-year decrease of 59% from KRW 1,421 billion in the first quarter of 2010.

Net loss was 115 billion in the first quarter of 2011 compared to net loss of KRW 268 billion in the fourth quarter of 2010 and net income of KRW 649 billion in the first quarter of 2010.

Mr. Young Soo Kwon, CEO of LG Display, noted While the global LCD industry is facing a downturn, LG Display has been conducting aggressive business activities with differentiated products such as FPR 3D and IPS panels for smartphones and tablet PCs which have been recognized by customers and the market. Going forward, we will focus on securing a competitive edge in market share, costs and product supply capability, which will help us return to profit in the second quarter.

The company shipped a total of 6.73 million square meters of net display area in the first quarter of 2011, a decrease of 15% quarter-on-quarter. Despite the seasonally low demand, LG Display maintained a relatively high utilization rate in the mid to high eighties percentage range owing to its differentiated products and solid customer base.

TFT-LCD panels for TVs, monitors, notebook PCs and mobile applications accounted for 48%, 24%, 18% and 10%, respectively, on a revenue basis in the first quarter.

With KRW 3,012 billion of cash and cash equivalents and a liability to equity ratio of 126% as of March 31, 2011, the financial structure of the company remains stable.

### **Outlook**

The following expectations are based on information as of March 31, 2011. The Company does not expect to update its expectations until next quarter's earnings announcement. However, the Company reserves the right to update its full business outlook, or any portion thereof, at any time and for any reason.

LG Display expects total display area shipments in the second quarter to increase by a high-teen percentage compare to the first quarter. The company also expects TV panel prices to remain stable but rebound around mid-quarter, and IT panel prices to maintain an upward trend.
