Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****(1) Interim Financial Statements**

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of Beasley Broadcast Group, Inc. (the Company) included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. These financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the financial statements reflect all adjustments necessary for a fair statement of the financial position and results of operations for the interim periods presented and all such adjustments are of a normal and recurring nature. The Company's results are subject to seasonal fluctuations therefore the results shown on an interim basis are not necessarily indicative of results for the full year. Certain amounts previously reported in the 2010 financial statements have been reclassified to conform to the 2011 presentation.

(2) Recent Accounting Pronouncements

In June 2011, the FASB issued guidance for comprehensive income which requires that all nonowner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income, and the total of comprehensive income. Also, the entity is required to present reclassification adjustments for items that are reclassified from other comprehensive income to net income on the face of the financial statements. The new guidance should be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. Adoption of the guidance is not expected to have a material impact on the Company's financial statements.

In September 2011, the FASB issued guidance to simplify how entities test goodwill for impairment. The guidance permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step impairment test. An entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying value. The new guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. Adoption of the guidance is not expected to have a material impact on the Company's financial statements.

(3) Long-Term Debt

Long-term debt is comprised of the following:

	December 31, 2010	September 30, 2011
Credit facility:		
Revolving credit loan	\$ 54,826,716	\$ 54,826,716
Term loan	87,163,039	77,763,361
	141,989,755	132,590,077
Less current installments	(6,925,283)	(7,233,801)
	\$ 135,064,472	\$ 125,356,276

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

As of September 30, 2011, the credit facility consists of a revolving credit loan with a maximum commitment of \$65.0 million and a term loan with a remaining balance of \$77.8 million. As of September 30, 2011, the Company had \$10.2 million in remaining commitments available under the revolving credit loan of its credit facility. The revolving credit loan includes a \$5.0 million sub-limit for letters of credit which may not be increased. At the Company's election, the revolving credit loan and term loan may bear interest at either the base rate or LIBOR plus a margin that is determined by the Company's debt to operating cash flow ratio. The base rate is equal to the higher of the prime rate, the federal funds effective rate, or the one month LIBOR quoted rate plus 1.0%. Interest on base rate loans is payable quarterly through maturity. Interest on LIBOR loans is payable on the last day of the selected LIBOR period and, if the selected period is longer than three months, every three months after the beginning of the LIBOR period. The revolving credit loan and term loan carried interest, based on LIBOR, at 4.0625% and 3.75% as of December 31, 2010 and September 30, 2011, respectively, and mature on June 30, 2015. The scheduled reductions in the amount available under the revolving credit loan may require principal repayments if the outstanding balance at that time exceeds the maximum amount available under the revolving credit loan.

Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

As of September 30, 2011, the scheduled repayments of the credit facility for the remainder of 2011 and the next four years are as follows:

	Revolving credit loan	Term loan	Total credit facility
2011	\$	\$ 1,808,450	\$ 1,808,450
2012		7,233,801	7,233,801
2013	5,146,508	8,590,139	13,736,647
2014	20,426,389	9,042,251	29,468,640
2015	29,253,819	51,088,720	80,342,539
Total	\$ 54,826,716	\$ 77,763,361	\$ 132,590,077

The credit agreement requires the Company to comply with certain financial covenants which are defined in the credit agreement. As of September 30, 2011, these financial covenants included:

Consolidated Total Debt Ratio. On September 30, 2011, the Company's consolidated total debt must not have exceeded 6.75 times its consolidated operating cash flow for the four quarters then ended. On December 31, 2011, the maximum ratio is 6.5 times. For the period from January 1, 2012 through June 30, 2015, the maximum ratio is 4.75 times.

Consolidated Interest Coverage Ratio. The Company's consolidated operating cash flow for the four quarters ending on the last day of each fiscal quarter through September 30, 2011 must not have been less than 1.875 times its consolidated cash interest expense for the four quarters then ending. For the period from October 1, 2011 through June 30, 2015, the minimum ratio is 2.0 times.

Consolidated Fixed Charge Coverage Ratio. The Company's consolidated operating cash flow for the four quarters ending on the last day of each fiscal quarter through December 31, 2011 must not be less than 1.05 times its consolidated fixed charges for the four quarters then ending. For the period from January 1, 2012 through June 30, 2015, the minimum ratio is 1.1 times. Consolidated fixed charges include cash paid for interest, income taxes, capital expenditures, scheduled principal repayments, and agency and commitment fees.

Failure to comply with these financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of its credit agreement could result in the acceleration of the maturity of its outstanding debt. The Company believes that it will have sufficient liquidity and capital resources to permit it to meet its financial obligations for at least the next twelve months. As of September 30, 2011, the Company was in compliance with all applicable financial covenants under its credit agreement.

The credit facility is secured by substantially all of the Company's assets and is guaranteed jointly and severally by all of the Company's subsidiaries. The guarantees were issued to the Company's lenders for repayment of the outstanding balance of the credit facility. If the Company defaults under the terms of the credit agreement, the subsidiaries may be required to perform under their guarantees. As of September 30, 2011, the maximum amount of undiscounted payments the subsidiaries would have had to make in the event of default was \$132.6 million. The guarantees for the revolving credit loan and term loan expire on June 30, 2015.

(4) Derivative Financial Instruments

The Company's remaining interest rate swap agreements expired during the third quarter of 2011 therefore it is no longer a party to any derivative financial instruments. Prior to these expirations, the Company used interest rate swap agreements as part of its interest rate risk management strategy to fix its cost of variable rate debt and designated those swap agreements as cash flow hedges of its variable rate debt. The fair values of the expired interest rate swap agreements were determined using observable inputs. The inputs were quotes from the counterparties to the interest rate swap agreements.

Forward-looking statements may include the words may, will, estimate, intend, continue, believe, expect or anticipate and other similar words. Such forward-looking statements may be contained in Management's Discussion and Analysis of Financial Condition and Results of Operations, among other places. Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent risks and uncertainties, such as unforeseen events that would cause us to broadcast commercial-free for any period of time and changes in the radio broadcasting industry generally, as well as any additional risks discussed in Item 1A Risk Factors of our annual report on Form 10-K, filed with the Securities and Exchange Commission on March 16, 2011. We do not intend, and undertake no obligation, to update any forward-looking statement.

General

We are a radio broadcasting company whose primary business is operating radio stations throughout the United States. We own and operate 42 radio stations in the following markets: Atlanta, GA, Augusta, GA, Boston, MA, Fayetteville, NC, Fort Myers-Naples, FL, Greenville-New Bern-Jacksonville, NC, Las Vegas, NV, Miami-Fort Lauderdale, FL, Philadelphia, PA, West Palm Beach-Boca Raton, FL, and Wilmington, DE. We also operate one radio station in the expanded AM band in Augusta, GA. In addition, we provide management services to two radio stations in Las Vegas, NV. We refer to each group of radio stations in each radio market as a market cluster.

Financial Statement Presentation

The following discussion provides a brief description of certain key items that appear in our financial statements and general factors that impact these items.

Net Revenue. Our net revenue is primarily derived from the sale of advertising airtime to local and national advertisers. Net revenue is gross revenue less agency commissions, generally 15% of gross revenue. Local revenue generally consists of advertising airtime and digital sales to advertisers in a radio station's local market either directly to the advertiser or through the advertiser's agency. National revenue generally consists of advertising airtime sales to agencies purchasing advertising for multiple markets. National sales are generally facilitated by our national representation firm, which serves as our agent in these transactions.

Our net revenue is generally determined by the advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listener levels. Advertising rates are primarily based on the following factors:

- a radio station's audience share in the demographic groups targeted by advertisers as measured principally by quarterly reports issued by the Arbitron Ratings Company;

- the number of radio stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;

- the supply of, and demand for, radio advertising time; and

- the size of the market.

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

Our net revenue is affected by general economic conditions, competition and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the radio broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our revenues are typically lowest in the first calendar quarter of the year.

Table of Contents

We use trade sales agreements to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services; however, we endeavor to minimize trade revenue in order to maximize cash revenue from our available airtime.

We also continue to invest in interactive support services to develop and promote our radio station websites. We derive revenue from our websites through the sale of advertiser promotions and advertising on our websites and the sale of advertising airtime during audio streaming of our radio stations over the internet.

Operating Expenses. Our operating expenses consist primarily of (1) programming, engineering, sales, advertising and promotion, and general and administrative expenses incurred at our radio stations, (2) general and administrative expenses, including compensation and other expenses, incurred at our corporate offices, and (3) depreciation and amortization. We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters.

Critical Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect reported amounts and related disclosures. We consider an accounting estimate to be critical if:

it requires assumptions to be made that were uncertain at the time the estimate was made; and

changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition.

Our critical accounting estimates are described in Item 7 of our annual report on Form 10-K for the year ended December 31, 2010. There have been no material changes to our critical accounting estimates during the third quarter of 2011.

Recent Accounting Pronouncements

Recent accounting pronouncements are described in Note 2 to the accompanying financial statements.

Net Revenue. The \$1.6 million increase in net revenue during the nine months ended September 30, 2011 was primarily due to a \$1.1 million increase in advertising revenue at our Philadelphia market cluster.

Station Operating Expenses. The \$0.4 million decrease in station operating expenses during the nine months ended September 30, 2011 was primarily due to a \$0.6 million decrease at our Miami-Fort Lauderdale market cluster resulting from cost containment measures.

Interest Expense. The \$1.6 million decrease in interest expense during the nine months ended September 30, 2011 was due to repayments of borrowings under our credit facility and the expiration of an interest rate swap agreement during the first quarter of 2011.

Income Tax Expense. Our effective tax rate was approximately 40% for the nine months ended September 30, 2010 and 2011, which differ from the federal statutory rate of 34% due to the effect of state income taxes and certain of our expenses that are not deductible for tax purposes.

Net Income. Net income for the nine months ended September 30, 2011 increased \$2.1 million as a result of the factors described above.

Liquidity and Capital Resources

Overview. Our primary sources of liquidity are internally generated cash flow and our revolving credit loan. Our primary liquidity needs have been, and for the next twelve months and thereafter are expected to continue to be, for working capital, debt service, and other general corporate purposes, including capital expenditures and radio station acquisitions. Historically, our capital expenditures have not been significant. In addition to property and equipment associated with radio station acquisitions, our capital expenditures have generally been, and are expected to continue to be, related to the maintenance of our studio and office space and the technological improvement, including upgrades necessary to broadcast HD Radio, and maintenance of our broadcasting towers and equipment. We have also purchased or constructed office and studio space in some of our markets to facilitate the consolidation of our operations.

Table of Contents

Our credit agreement prohibits us from repurchasing additional shares of our common stock until our consolidated total debt is less than five times our consolidated operating cash flow at which time we are permitted to repurchase up to an aggregate of \$10.0 million of our common stock. Our credit agreement does permit us to repurchase up to \$0.5 million of our common stock per year in connection with the vesting of restricted stock. We repurchased 33,983 shares of our Class A common stock for an aggregate \$0.2 million during the nine months ended September 30, 2011.

Our credit agreement prohibits us from paying cash dividends on our common stock until our consolidated total debt is less than five times our consolidated operating cash flow at which time we are permitted to pay cash dividends in an amount up to an aggregate of \$5.0 million per year. We did not pay any cash dividends during the nine months ended September 30, 2011.

We expect to provide for future liquidity needs through one or a combination of the following sources of liquidity:

internally generated cash flow;

our credit facility;

additional borrowings, other than under our existing credit facility, to the extent permitted thereunder; and

additional equity offerings.

We believe that we will have sufficient liquidity and capital resources to permit us to provide for our liquidity requirements and meet our financial obligations for the next twelve months. However, poor financial results, unanticipated acquisition opportunities or unanticipated expenses could give rise to defaults under our credit facility, additional debt servicing requirements or other additional financing or liquidity requirements sooner than we expect and we may not secure financing when needed or on acceptable terms.

Our ability to reduce our total debt ratio, as defined by our credit agreement, by increasing operating cash flow and/or decreasing long-term debt will determine how much, if any, of the remaining commitments under the revolving portion of our credit facility will be available to us in the future. Poor financial results or unanticipated expenses could result in our failure to maintain or lower our total leverage ratio and we may not be permitted to make any additional borrowings under the revolving portion of our credit facility.

The following summary table presents a comparison of our capital resources for the nine months ended September 30, 2010 and 2011 with respect to certain of our key measures affecting our liquidity. The changes set forth in the table are discussed in greater detail below. This section should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of this report.

	Nine months ended September 30,	
	2010	2011
Net cash provided by operating activities	\$ 11,682,916	\$ 15,635,759
Net cash used in investing activities	(502,222)	(1,679,625)
Net cash used in financing activities	(7,447,218)	(9,526,088)
Net increase in cash and cash equivalents	\$ 3,733,476	\$ 4,430,046

Net Cash Provided By Operating Activities. Net cash provided by operating activities increased by \$4.0 million during the nine months ended September 30, 2011 compared to the same period in 2010 primarily due to a \$2.6 million decrease in cash paid for station operating expenses, a \$1.9 million increase in cash receipts from the sale of advertising airtime, and a \$1.6 million decrease in cash paid for interest. These increases were partially offset by a \$1.7 million increase in income taxes due to cash payments of \$0.9 million in 2011 and cash refunds of \$0.8 million in 2010.

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

Net Cash Used In Investing Activities. Net cash used in investing activities during the nine months ended September 30, 2011 was primarily due to cash payments for capital expenditures of \$1.0 million and to cash payments of \$0.8 million for investments. Net cash used in investing activities for the same period in 2010 was primarily due to cash payments for capital expenditures of \$0.7 million.

Net Cash Used In Financing Activities. Net cash used in financing activities in the nine months ended September 30, 2011 was primarily due to repayments of \$9.4 million under our credit facility. Net cash used in financing activities for the same period in 2010 was primarily due to repayments of \$6.5 million under our credit facility, payments of \$0.6 million of loan fees related to the amended credit agreement, and \$0.3 million for purchases of our Class A common stock.

Credit Facility. As of October 28, 2011, the outstanding balance of our credit facility was \$132.6 million. As of September 30, 2011, the credit facility consists of a revolving credit loan with a maximum commitment of \$65.0 million and a term loan with a remaining balance of \$77.8 million. As of September 30, 2011, we had \$10.2 million in remaining commitments available under the revolving credit loan of our credit facility. The revolving credit loan includes a \$5.0 million sub-limit for letters of credit which may not be increased. At our election, the revolving credit loan and term loan may bear interest at either the base rate or LIBOR plus a margin that is determined by our debt to operating cash flow ratio. The base rate is equal to the higher of the prime rate, the federal funds effective rate, or the one month LIBOR quoted rate plus 1.0%. Interest on base rate loans is payable quarterly through maturity. Interest on LIBOR loans is payable on the last day of the selected LIBOR period and, if the selected period is longer than three months, every three months after the beginning of the LIBOR period. The revolving credit loan and term loan carried interest, based on LIBOR, at 4.0625% and 3.75% as of December 31, 2010 and September 30, 2011, respectively, and mature on June 30, 2015. The scheduled reductions in the amount available under the revolving credit loan may require principal repayments if the outstanding balance at that time exceeds the maximum amount available under the revolving credit loan.

As of September 30, 2011, the scheduled repayments of the credit facility for the remainder of 2011 and the next four years are as follows:

	Revolving credit loan	Term loan	Total credit facility
2011	\$	\$ 1,808,450	\$ 1,808,450
2012		7,233,801	7,233,801
2013	5,146,508	8,590,139	13,736,647
2014	20,426,389	9,042,251	29,468,640
2015	29,253,819	51,088,720	80,342,539
Total	\$ 54,826,716	\$ 77,763,361	\$ 132,590,077

The credit agreement requires us to comply with certain financial covenants which are defined in the credit agreement. As of September 30, 2011, these financial covenants included:

Consolidated Total Debt Ratio. On September 30, 2011, our consolidated total debt must not have exceeded 6.75 times our consolidated operating cash flow for the four quarters then ended. On December 31, 2011, the maximum ratio is 6.5 times. For the period from January 1, 2012 through June 30, 2015, the maximum ratio is 4.75 times.

Consolidated Interest Coverage Ratio. Our consolidated operating cash flow for the four quarters ending on the last day of each fiscal quarter through September 30, 2011 must not have been less than 1.875 times our consolidated cash interest expense for the four quarters then ending. For the period from October 1, 2011 through June 30, 2015, the minimum ratio is 2.0 times.

Consolidated Fixed Charge Coverage Ratio. Our consolidated operating cash flow for the four quarters ending on the last day of each fiscal quarter through December 31, 2011 must not be less than 1.05 times our consolidated fixed charges for the four quarters then ending. For the period from January 1, 2012 through June 30, 2015, the minimum ratio is 1.1 times. Consolidated fixed charges include cash paid for interest, income taxes, capital expenditures, scheduled principal repayments, and agency and commitment fees. Failure to comply with these financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of our credit agreement could result in the acceleration of the maturity of our outstanding debt, which could have a material adverse effect on our business or results of operations. As of September 30, 2011, we were in compliance with all applicable financial covenants under our credit agreement; our consolidated total debt ratio was 4.64 times, our consolidated interest coverage ratio was 3.54 times, and our consolidated fixed charge coverage ratio was 1.7 times.

The credit agreement also contains other customary restrictive covenants. These covenants limit our ability to: incur additional indebtedness and liens; repurchase our common stock; pay cash dividends; enter into certain investments or joint ventures; consolidate, merge or effect asset sales; enter into sale and lease-back transactions; sell or discount accounts receivable; enter into transactions with affiliates or stockholders; or change

the nature of our business.

The credit facility is secured by substantially all of our assets and is guaranteed jointly and severally by all of our subsidiaries. The guarantees were issued to our lenders for repayment of the outstanding balance of the credit facility. If we default under the terms of the credit agreement, our subsidiaries may be required to perform under their guarantees. As of September 30, 2011, the maximum amount of undiscounted payments our subsidiaries would have had to make in the event of default was \$132.6 million.
