historic lows at least through mid-2013. The Fed also launched a third quantitative easing program, dubbed Operation Twist, which entails the

selling of \$400 billion in short-term U.S. debt and the purchase of a similar amount of longer-term debt. This move was intended to lower

mortgage rates, already at the lowest levels in decades, in an attempt to bolster the housing market.

The Fed warned of significant downside risks to the economic outlook, including strains in global financial markets. To a certain respect this referred to the deepening sovereign debt crisis in the European Union (E.U.). The crisis has raised fears that the Euro-zone group of nations may break up. The economic and political implications on the rest of the world, including the United States, are uncertain.

Another downside risk is America s burgeoning debt crisis. Standard & Poor s, (S&P), was so concerned about the inability of Congress and the White House to solve the nation s deepening fiscal problems that it downgraded the U.S. government s long-term credit rating from AAA to AA+. This concern was validated by the subsequent failure of a Congressional super committee to agree on \$1.2 trillion in spending cuts.

2 PIMCO Municipal Income Funds II Semi-Annual Report

#### **Table of Contents**

Ironically, concerns regarding the level of U.S. debt did not hinder its reputation as a safe haven investment. In the wake of S&P s downgrade, investors bid up prices the yield on the benchmark 10-year U.S. Treasury bond fell to a historic low of 1.72%. Since municipal bonds tend to correlate closely with comparable Treasury securities, they rallied as well.

In terms of issuance, the supply of new municipal bonds fell by approximately one-third during the six-month period ended November 30, 2011 compared to the same period in 2010.

#### Outlook

In addition to uncertainties surrounding the European and U.S. debt crisis, the Bush-era tax cuts are scheduled to expire on December 31, 2012. This possibility, combined with ongoing budget struggles at the state and local level, suggests that tax rates are likely to move higher. This bodes well for municipal bonds, which will continue to remain attractive for investors seeking reliable, tax-advantaged income.

For specific information on the Funds and their performance, please review the following pages. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or call the Funds—shareholder servicing agent at (800) 254-5197. In addition, a wide range of information and resources are available on our website, www.allianzinvestors.com/closedendfunds.

Together with Allianz Global Investors Fund Management LLC, the Funds investment manager, and Pacific Investment Management Company LLC ( PIMCO ), the Funds sub-adviser, we thank you for investing with us.

We remain dedicated to serving your investment needs.

Sincerely,

Hans W. Kertess Brian S. Shlissel

#### **Table of Contents**

#### **PIMCO Municipal Income Funds II Fund Insights**

November 30, 2011 (unaudited)

For the six-months ended November 30, 2011, PIMCO Municipal Income Fund II returned 9.84% on net asset value ( NAV ) and 10.69% on market price.

For the six-months ended November 30, 2011, PIMCO California Municipal Income Fund II returned 8.63% on net asset value ( NAV ) and 5.91% on market price.

For the six-months ended November 30, 2011, PIMCO New York Municipal Income Fund II returned 6.62% on net asset value ( NAV ) and 6.22% on market price.

The municipal bond market produced positive returns during the six-month fiscal period ended November 30, 2011. The overall municipal market, as measured by the Barclays Capital Municipal Bond Index, posted positive returns during five of the six months in the reporting period. Factors supporting the market during the period included: robust investor demand as fear of mass defaults from earlier in the year were somewhat mitigated, as states experienced improving revenue and actively addressed structural budgetary issues; a sharp decline in new issuance of municipal securities; sharply declining interest rates due to several flights to quality.

During the reporting period, all three funds had a preference for revenue bonds versus general obligation bonds which was beneficial for results. California Municipal Income II also benefited from its allocation to general obligation bonds, given their solid results.

The Funds were rewarded for having exposure to tobacco bonds. This higher yielding sector outperformed the benchmark during the six-months ended November 30, 2011.

Exposure to health care was additive to the Funds performance as this sector outperformed the benchmarks. Municipal Income II and New York Municipal Income II benefited from exposure to the corporate-backed sector. California Municipal II s performance was enhanced by exposure to the education sector.

Shorter duration than that of their benchmarks detracted from the performance of each fund, as municipal yields declined during the reporting period. A steepening yield curve bias also adversely effected the Fund s results, as the municipal curve flattened during the six-month period.

| Market Price Yield <sup>(2)</sup> | 7.12%   |

#### Moody s Ratings

(as a % of total investments)

(1) **Past Performance is no guarantee of future results.** Total return is calculated by determining the percentage change in NAV or market price (as applicable) in the specified period. The calculation assumes that all income dividends and capital gain distributions, if any, have been reinvested. Total return does not reflect broker commissions or sales charges in connection with the purchase or sale of Fund shares. Total return for a period of less than one year is not annualized. Total return for a period of more than one year represents the average annual total return.

Performance at market price will differ from results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Funds, market conditions, supply and demand for each Fund shares, or changes in Funds dividends.

An investment in the Funds involves risk, including the loss of principal. Total return, market price, market price yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one time public offering and once issued, shares of closed-end funds are traded in the open market through a stock exchange. NAV is equal to total assets attributable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

(2) Market Price Yield is determined by dividing the annualized current monthly per common share dividend (comprised of net investment income) payable to common shareholders by the market price per common share at November 30, 2011.

\$ 197,655,821

#### PIMCO Municipal Income Funds II Notes to Schedule of Investments

November 30, 2011 (unaudited) (continued)

- (a) Private Placement Restricted as to resale and may not have a readily available market. Securities with an aggregate value of \$23,097,725, \$26,219,372, and \$5,611,350 representing 2.1%, 6.1% and 2.8% of total investments in Municipal II, California Municipal II, and New York Municipal II, respectively.
- (b) Pre-refunded bonds are collateralized by U.S. Government or other eligible securities which are held in escrow and used to pay principal and interest and retire the bonds at the earliest refunding date (payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate).
- (c) 144A Exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (d) When-issued. To be settled after November 30, 2011.
- (e) In default
- (f) Fair-Valued Security with an aggregate value of \$3,527,764, representing 0.3% of total investments in Municipal II. See Note 1(a) and Note 1(b) in the Notes to Financial Statements.
- (g) Inverse Floater The interest rate shown bears an inverse relationship to the interest rate on another security or the value of an index. The interest rate disclosed reflects the rate in effect on November 30, 2011.
- (h) Variable Rate Notes Instruments whose interest rates change on specified dates (such as a coupon date or interest payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). The interest rate disclosed reflects the rate in effect on November 30, 2011.
- (i) Date shown is date of next put.
- (j) Residual Interest Bonds held in Trust Securities represent underlying bonds transferred to a separate securitization trust established in a tender option bond transaction in which each Fund acquired the residual interest certificates. These securities serve as collateral in a financing transaction.
- (k) Rates reflect the effective yields at purchase date.
