PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary does not contain all of the information you should consider before investing in our common stock. You should read this entire prospectus carefully, especially the risks of investing in our common stock discussed under Risk Factors as well as our consolidated financial statements and the related notes appearing in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, filed with the Securities and Exchange Commission on March 23, 2012, which is incorporated herein by reference, before making an investment decision.

Our Company

We are a biopharmaceutical company that is developing and commercializing innovative medicines to target unmet therapeutic needs in arthritis, pain and inflammatory diseases. On April 23, 2011, the U.S. Food and Drug Administration, or FDA, approved DUEXIS[®] (formerly HZT-501), a proprietary tablet formulation containing a fixed-dose combination of ibuprofen and famotidine in a single pill. DUEXIS is indicated for the relief of signs and symptoms of rheumatoid arthritis, or RA, and osteoarthritis, or OA, and to decrease the risk of developing upper gastrointestinal, or GI, ulcers in patients who are taking ibuprofen for these indications. We have hired our initial commercial organization and completed sales force training, and we began detailing DUEXIS to physicians in December 2011 and held our launch meeting for DUEXIS in the U.S. in January 2012. In October 2010, we submitted a Marketing Authorization Application, or MAA, for DUEXIS in the United Kingdom, or UK, the Reference Member State, or RMS, through the Decentralized Procedure. In February 2012, we modified the DUEXIS MAA submission to include the recently approved manufacturing site in Laval, Quebec through the National Procedure in the UK. We anticipate a decision on the MAA in the second half of 2012. Our other lead product, LODOTRA[®], known as RAYOS[®] in the U.S., is a proprietary programmed release formulation of low-dose prednisone that is currently marketed in Europe by our distribution partner, Mundipharma International Corporation Limited, or Mundipharma, for the treatment of moderate to severe, active RA in adults when accompanied by morning stiffness. We have successfully completed two Phase 3 clinical trials of RAYOS and we submitted a new drug application, or NDA, for RAYOS to the FDA on September 26, 2011. As a result, we have a Prescription Drug User Fee Act, or PDUFA, goal date for RAYOS of July 26, 2012. We have worldwide marketing rights for DUEXIS and have retained exclusive marketing rights in the U.S. for all of our products. Our strategy is to commercialize our products in the U.S., to explore co-promotion opportunities for DUEXIS and RAYOS, if approved, in the U.S. and to enter into licensing or additional distribution agreements for commercialization of our products outside the U.S.

We are focusing our efforts and capital resources on obtaining additional approvals for DUEXIS and LODOTRA/RAYOS and commercializing these products in the U.S. In addition to DUEXIS and LODOTRA/RAYOS, we have a pipeline of earlier stage product candidates to treat pain-related diseases and chronic inflammation. We are currently evaluating the development pathway for these product candidates, but do not intend to develop them further at this time.

Our Markets

Pain is a serious and costly public health concern affecting more people in the U.S. than diabetes, heart disease and cancer combined. In 2010, the U.S. National Center for Health Statistics reported that approximately 30% of U.S. adults 18 years of age and over reported recent symptoms of pain, aching or swelling around a joint within the past 30 days. Some of the most common and debilitating chronic inflammation and pain-related diseases are OA, RA and acute and chronic pain. According to National Health Interview Survey data analyzed by the Centers for Disease Control and Prevention, 50 million U.S. adults 18 years of age and over had reported being diagnosed with some form of arthritis. With the aging of the U.S. population, the prevalence of arthritis is expected to rise by approximately 40% by 2030, impacting 67 million people in the U.S. We believe that the large and growing population afflicted with pain and arthritis and the limitations of current treatment options create a growing market opportunity for us.

Table of Contents

Non-steroidal anti-inflammatory drugs, or NSAIDs, are very effective at providing pain relief, including pain associated with OA and RA; however, there are significant upper GI-associated adverse events which can result from such treatments. According to a 2004 article published in *Aliment Pharmacology & Therapeutics*, significant GI side effects, including serious ulcers, afflict up to approximately 25% of all chronic arthritis patients treated with NSAIDs for three months, and OA and RA patients are two to five times more likely than the general population to be hospitalized for NSAID-related GI complications. It is estimated that NSAID-induced GI toxicity causes over 16,500 related deaths in OA and RA patients alone and over 107,000 hospitalizations for serious GI complications each year in the U.S. We believe that there is a serious need for a drug that provides the proven benefits of an NSAID with increased GI protection.

Common agents for the treatment of RA include NSAIDs, disease modifying antirheumatic drugs, or DMARDs, biologic agents and corticosteroids, a class of drugs based on hormones formed in the adrenal gland used to reduce inflammation. Physicians are increasingly supportive of prescribing multiple therapies as some RA patients are able to achieve a clinical remission with a multiple treatments. A Medical Marketing Economics May 2008 study of 150 RA patients in the U.S., which we sponsored, showed that despite the use of a combination of currently available treatments for RA, over 90% of the patients reported suffering from morning stiffness, pain and immobility.

According to Datamonitor, approximately 50% of RA patients in the U.S., Japan, France, Italy, Spain, Germany and the United Kingdom are prescribed combination therapy which often includes corticosteroids, with prednisone being one of the most common. While corticosteroids are potent and effective agents to treat patients with RA, they are often used at high doses which can lead to long-term adverse side effects. An additional limitation of existing RA treatment with corticosteroids is related to the time of their administration in the morning hours (approximately 8:00 am), which does not synchronize with patients' pro-inflammatory cytokines achieving peak levels in the early morning hours (approximately 2:00 am). It is impractical to expect patients to wake up every night at that hour to take prednisone. Therefore, we believe an optimal treatment would provide prednisone in the early morning hours without awakening a patient to reduce cytokine levels when they are at their peak.

Our Products

We believe that our products and product candidates address unmet therapeutic needs in arthritis, pain and inflammatory diseases. We have developed DUEXIS and LODOTRA/RAYOS to provide significant advantages over existing therapies.

DUEXIS

DUEXIS is a novel combination of 800 mg ibuprofen and 26.6 mg famotidine in a single pill. We believe that by combining ibuprofen and famotidine in a single pill, DUEXIS provides effective pain relief while decreasing stomach acidity, thus reducing the risk of NSAID-induced upper GI ulcers. According to Wolters Kluwer, in the U.S. alone, there were over 31 million prescriptions written for ibuprofen in 2011, and the high-dose prescriptions, 600 mg and 800 mg doses, accounted for approximately 90% of these prescriptions. In addition, ibuprofen's flexible three times daily dosing allows it to be used for both chronic conditions such as OA, RA and chronic back pain as well as acute conditions such as sprains and strains. Famotidine, a potent acid reduction agent, was chosen as the ideal GI protectant to be combined with ibuprofen as it is a well studied drug with over 20 million patients treated worldwide.

Fixed-dose combination therapy can reduce the number of pills that each patient is taking, thereby increasing compliance and ensuring that the correct dosage of each component is taken at the correct time, and is often associated with better treatment outcomes. DUEXIS has been formulated to provide an optimal dosing regimen of ibuprofen and famotidine together in the convenience of a single pill.

Table of Contents

LODOTRA/RAYOS

LODOTRA/RAYOS is a proprietary programmed release formulation of low-dose prednisone, a well-established drug used to inhibit the production of various pro-inflammatory cytokines, which are proteins associated with joint inflammation in RA. Prednisone is a corticosteroid that effectively reduces joint swelling and inflammation, but at high doses has the potential to cause significant long-term adverse side effects, such as osteoporosis, cardiovascular disease and weight gain. In addition, we believe current formulations, which are administered in the morning hours, are suboptimal because they fail to deliver prednisone at the time of most need to RA patients.

LODOTRA/RAYOS was developed utilizing a proprietary formulation technology enabling a programmed release of low-dose prednisone and is comprised of an active core containing prednisone, which is encapsulated by an inactive porous shell. The inactive shell acts as a barrier between the product's active core and a patient's GI fluids. At approximately four hours following bedtime administration of LODOTRA/RAYOS, water in the digestive tract diffuses through the shell, causing the active core to expand, which leads to a weakening and breakage of the shell and allows the release of prednisone from the active core. By synchronizing the prednisone delivery time with the patient's peak cytokine levels in the early morning hours, LODOTRA/RAYOS exerts its effect at a physiologically optimal point to inhibit cytokine production and thus significantly reduces the signs and symptoms of RA. We believe that being able to deliver safe, low-dose prednisone at the time during which patients can recognize the greatest benefit represents a significant competitive advantage over existing therapies.

Our Strategy

Our strategy is to build a fully-integrated U.S.-focused biopharmaceutical company to successfully execute the commercial launches of DUEXIS and, if approved by the FDA, RAYOS in the U.S. market. We retain all U.S. commercialization rights for our products and have begun building an internal sales and marketing organization to market these products in the U.S. to top prescribing primary care physicians and to key specialists, such as rheumatologists, orthopedic surgeons and pain specialists. We plan to expand our sales force up to a total of approximately 160 sales representatives and explore other additional opportunities to expand the reach and frequency of our sales efforts such as co-promotion partnerships with companies that have commercial activity with similar physician targets and/or add sales representatives through a contract sales organization. We intend to enter into licensing or additional distribution arrangements for commercialization of our products outside the U.S., such as our relationship with Mundipharma for the commercialization of LODOTRA in Europe, Asia and Latin America. As part of our longer-term strategy, we anticipate we will selectively in-license or acquire additional products and/or late stage product candidates that are synergistic with our commercial strategy.

Our Strategic Partnerships

We have entered into several strategic partnerships with respect to the manufacturing, distribution and marketing of LODOTRA. We entered into separate transfer, license and supply agreements with Merck Serono GmbH and Merck GesmbH for the commercialization of LODOTRA in each of Germany and Austria, respectively, and we subsequently consented to assignment of the agreements with respect to Germany and Austria to Mundipharma Laboratories GmbH. We also entered into distribution agreements with Mundipharma for the exclusive distribution and marketing rights pertaining to LODOTRA for Europe (excluding Germany and Austria) and certain Asian, Latin American and other countries and a manufacturing and supply agreement with Mundipharma Medical Company, pursuant to which we supply LODOTRA to Mundipharma Medical Company. We have also entered into a manufacturing and supply agreement with Jagotec AG, an affiliate of SkyePharma AG, from whom we purchase LODOTRA. In August 2011, SkyePharma leased their entire pharmaceutical manufacturing business to Aenova France SAS, or Aenova, with our consent to allow Jagotec to subcontract the manufacture of LODOTRA to Aenova.

Risks Associated with Our Business

Our business is subject to numerous risks. See the section entitled "Risk Factors" immediately following this prospectus summary, beginning on page 10. You should read these risks before you invest in our common stock. We may be unable, for many reasons, including those that are beyond our control, to implement our business strategy. In particular, risks associated with our business include:

We are highly dependent on the success of DUEXIS and LODOTRA/RAYOS, which are subject to extensive regulation, and we may not be able to successfully commercialize these products or successfully obtain additional marketing approvals for DUEXIS in Europe or RAYOS in the U.S.

Our ability to generate revenues from any approved products will be subject to attaining significant market acceptance among physicians, patients and healthcare payers.

Our current business plan is highly dependent upon our ability to successfully execute on our sales and marketing strategy for the commercialization of DUEXIS and LODOTRA/RAYOS. If we are unable to execute on our sales and marketing strategy, we may not be able to generate significant product revenues or execute on our business plan, and we may not be able to meet the operating covenants of the new senior secured loan we entered into in February 2012.

We may not be able to successfully obtain or protect intellectual property rights related to our products and product candidates, and we may be subject to claims that we infringe the intellectual property of third parties.

We face significant competition from other biotechnology and pharmaceutical companies, including those marketing generic products, and our operating results will suffer if we fail to compete effectively.

Our limited operating history makes evaluating our business and future prospects difficult, and may increase the risk of any investment in our common stock.

Reimbursement may not be available, or may be available at only limited levels, for DUEXIS, LODOTRA/RAYOS or any other product candidates that we develop, which could make it difficult for us to sell our products profitably.

We have incurred significant operating losses since our inception, including an accumulated deficit of \$220.3 million as of December 31, 2011, and anticipate that we will continue to incur losses for the foreseeable future.

We rely on third parties to manufacture commercial supplies of DUEXIS and LODOTRA/RAYOS, and we intend to rely on third parties to manufacture commercial supplies of any additional approved product candidates. Our commercialization of any of our products could be stopped, delayed or made less profitable if those third parties fail to provide us with sufficient quantities of drug product or fail to do so at acceptable quality levels or prices.

Recent Developments

In February 2012, we entered into a \$60.0 million senior secured loan, or Senior Secured Loan, with a group of lenders. We used \$22.4 million of the loan proceeds to repay the remaining obligations under our debt facilities with Kreos Capital III (UK) and Oxford Finance LLC and Silicon Valley Bank. The Senior Secured Loan is secured by a lien covering substantially all of our U.S. based assets including intellectual property and we also pledged as collateral all of our equity interests in Horizon Pharma USA, Inc. and 65% of our equity interests in Horizon Pharma AG. In connection with the Senior Secured Loan, we issued warrants to purchase an aggregate of 3,277,191 shares of our common stock

Edgar Filing: HORIZON PHARMA, INC. - Form S-1

at an exercise price of \$0.01 per share.

In March 2012, we closed a private placement, or PIPE financing, with a select group of institutional and accredited investors. Upon the closing of the PIPE financing, we received gross proceeds of approximately \$50.8

Table of Contents

million resulting from the sale of 14,033,829 units at a price of \$3.62125 per unit. Each unit consisted of one share of our common stock and a warrant to purchase 0.25 shares of our common stock at an exercise price of \$4.308 per share.

On March 28, 2012, we filed suit in the United States District Court for the District of Delaware against Par Pharmaceutical, Inc. and Par Pharmaceutical Companies, Inc., or collectively Par. The lawsuit alleges that Par has infringed U.S. Patent No. 8,067,033, or the '033 patent, by filing an Abbreviated New Drug Application, or ANDA, seeking approval from the FDA to market a generic version of DUEXIS tablets prior to the expiration of the patent. The '033 patent is listed in the FDA's Approved Drug Products with Therapeutic Equivalence Evaluations, commonly known as the Orange Book. Our commencement of the patent infringement lawsuit stays, or bars, FDA approval of Par's ANDA for 30 months or until an earlier district court decision that the '033 patent is not infringed or invalid.

Recapitalization and Nitec Acquisition

Prior to April 1, 2010, we operated as Horizon Therapeutics, Inc. On April 1, 2010, we effected a recapitalization pursuant to which we formed a holding company, Horizon Pharma, Inc., and all of the shares of capital stock of Horizon Therapeutics, Inc. were converted into shares of Horizon Pharma, Inc. Horizon Therapeutics, Inc. survived as our wholly-owned subsidiary and changed its name to Horizon Pharma USA, Inc. Also on April 1, 2010, we acquired all of the shares of Nitec Pharma AG, or Nitec, in exchange for newly-issued shares of our capital stock. As a result of the acquisition, Nitec became our wholly-owned subsidiary and changed its name to Horizon Pharma AG. Following the recapitalization and acquisition of Nitec, we are organized as a holding company that operates through our wholly-owned subsidiaries, Horizon Pharma USA, Inc. (formerly Horizon Therapeutics, Inc.) and Horizon Pharma AG (formerly Nitec).

RISK FACTORS

Investing in our common stock involves a high degree of risk. Before you decide to invest in our common stock, you should carefully consider the risks and uncertainties set forth under the heading "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, filed with the Securities and Exchange Commission on March 23, 2012, which is incorporated by reference in this prospectus, as well as any updates thereto contained in any applicable prospectus supplement. If any of these risks were to occur, our business, financial condition or results of operations would likely suffer. In that event, the trading price of our common stock could decline, and you could lose all or part of your investment. The risks and uncertainties we describe are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements under "Prospectus Summary," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Business" and elsewhere contained in or incorporated by reference in this prospectus contain forward-looking statements. In some cases, you can identify forward-looking statements by the following words: may, will, could, would, should, expect, intend, plan, believe, estimate, predict, project, potential, continue, ongoing or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from the information expressed or implied by these forward-looking statements. Although we believe that we have a reasonable basis for each forward-looking statement contained in this prospectus, we caution you that these statements are based on a combination of facts and factors currently known by us and our projections of the future, about which we cannot be certain. Many important factors affect our ability to achieve our objectives, including:

the rate and degree of market acceptance of, and our ability and our distribution and marketing partners' ability to obtain reimbursement for, any approved products;

our ability to successfully execute our sales and marketing strategy, including continuing to successfully recruit and retain sales and marketing personnel in the U.S., and to successfully launch DUEXIS in the U.S.;

our ability to obtain additional financing;

our ability to maintain regulatory approvals for DUEXIS and LODOTRA/RAYOS;

the accuracy of our estimates regarding expenses, future revenues and capital requirements;

our ability to meet the operating covenants of the Senior Secured Loan we entered into in February 2012;

our ability to manage our anticipated future growth;

the ability of our products to compete with generic products, especially those representing the active pharmaceutical ingredients in DUEXIS and LODOTRA/RAYOS, as well as new products that may be developed by our competitors;

our ability and our distribution and marketing partners' ability to comply with regulatory requirements regarding the sales, marketing and manufacturing of our products and product candidates;

the performance of our third-party distribution partners and manufacturers, over which we have limited control;

our ability to obtain and maintain intellectual property protection for our products and our product candidates;

Table of Contents

our ability to operate our business without infringing the intellectual property rights of others;

the success and timing of our preclinical and clinical development efforts;

the loss of key scientific or management personnel;

regulatory developments in the U.S. and foreign countries; and

our ability to either acquire or develop and commercialize other product candidates in addition to DUEXIS and LODOTRA/RAYOS. In addition, you should refer to the Risk Factors section of this prospectus for a discussion of other important factors that may cause our actual results to differ materially from those expressed or implied by our forward-looking statements. As a result of these factors, we cannot assure you that the forward-looking statements in this prospectus will prove to be accurate. Furthermore, if our forward-looking statements prove to be inaccurate, the inaccuracy may be material. In light of the significant uncertainties in these forward-looking statements, you should not regard these statements as a representation or warranty by us or any other person that we will achieve our objectives and plans in any specified timeframe, or at all.

The information contained in or incorporated by reference in this prospectus is accurate only as of the date of this prospectus or the date of the document so incorporated by reference, as applicable, regardless of the time of delivery of this prospectus or any sale of our common stock. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Table of Contents**USE OF PROCEEDS**

The proceeds from the resale of the shares of common stock under this prospectus are solely for the account of the selling stockholders identified in this prospectus. We may indirectly receive proceeds of up to an aggregate of \$15.1 million to the extent that any selling stockholders exercise warrants to purchase shares of common stock for cash, which shares may then be resold under this prospectus; however, we will not directly receive any proceeds from the sale of shares under this prospectus. We intend to use the net proceeds generated by warrant exercises, if any, for general corporate purposes. We cannot estimate how many, if any, of the warrants will be exercised.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain all available funds and any future earnings to support our operations and finance the growth and development of our business. We do not intend to pay cash dividends on our common stock for the foreseeable future. Any future determination related to dividend policy will be made at the discretion of our board of directors and will depend on then-existing conditions, including our financial condition, operating results, contractual restrictions, capital requirements, business prospects and other factors our board of directors may deem relevant. In addition, unless waived, the terms of our Senior Secured Loan prohibit us from paying dividends on our common stock.

INDUSTRY AND MARKET DATA

We obtained the industry, market and competitive position data contained in or incorporated by reference in this prospectus from our own internal estimates and research as well as from industry and general publications and research surveys and studies conducted by third parties. While we believe that each of these studies and publications is reliable, we have not independently verified market and industry data from third-party sources. In addition, while we believe our internal company research is reliable and the market definitions we use are appropriate, neither our internal research nor these definitions have been verified by any independent source.

Table of Contents**SELLING SECURITY HOLDERS**

On February 22, 2012, we entered into our \$60.0 million Senior Secured Loan with a group of lenders. We used \$22.4 million of the loan proceeds to repay the remaining obligations under our debt facilities with Kreos Capital III (UK) and Oxford Finance LLC and Silicon Valley Bank. In connection with the Senior Secured Loan, we issued warrants to purchase an aggregate of 3,277,191 shares of our common stock at an exercise price of \$0.01 per share. The warrants will expire on January 22, 2017 and may be exercised for cash or, if the current market price of our common stock is greater than the per share exercise price, by surrender of a portion of the warrants in a cashless exercise.

On March 2, 2012, we sold 14,033,829 shares of our common stock and warrants to purchase an aggregate of 3,508,448 shares of our common stock at an exercise price of \$4.308 per share to certain institutional and accredited investors in our PIPE financing. For each share of common stock purchased, the investors received a warrant to purchase 0.25 of a share of common stock. The warrants will expire on March 2, 2017 and may be exercised for cash or, if the current market price of our common stock is greater than the per share exercise price, by surrender of a portion of the warrants in a cashless exercise.

In connection with the PIPE financing, we entered into a securities purchase agreement, pursuant to which we agreed to register the resale of the shares of common stock and the common stock underlying the warrants issued in the PIPE financing, as well as the common stock underlying the warrants issued in connection with the Senior Secured Loan. This prospectus covers the resale of such shares.

The following table sets forth certain information regarding the selling stockholders and the shares of common stock beneficially owned by them and issuable to the selling stockholders upon a cash exercise of the warrants, which information is available to us as of March 2, 2012. The selling stockholders may offer the shares under this prospectus from time to time and may elect to sell some, all or none of the shares set forth next to their name. As a result, we cannot estimate the number of shares of common stock that a selling stockholder will beneficially own after termination of sales under this prospectus. However, for the purposes of the table below, we have assumed that, after completion of the offering, none of the shares covered by this prospectus will be held by the selling stockholders. In addition, a selling stockholder may have sold, transferred or otherwise disposed of all or a portion of that holder's shares of common stock since the date on which the selling stockholder provided information for this table. We have not made independent inquiries about such transfers or dispositions. We are relying on written commitments from the selling stockholders to notify us of any changes in their beneficial ownership after the date they originally provided this information. See the section entitled "Plan of Distribution" beginning on page 20.

PLAN OF DISTRIBUTION

We are registering the shares of common stock previously issued to the selling stockholders and issuable upon exercise of the warrants previously issued to the selling stockholders to permit the resale of these shares of common stock by the holders of the common stock and warrants from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling stockholders of the shares of common stock. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The selling stockholders may sell all or a portion of the shares of common stock beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. These sales may be effected in transactions, which may involve crosses or block transactions,

on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;

in the over-the-counter market;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

through the writing of options, whether such options are listed on an options exchange or otherwise;

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

short sales;

through the distribution of the common stock by any selling stockholders to its partners, members or stockholders;

through one or more underwritten offerings on a firm commitment or best efforts basis;

sales pursuant to Rule 144;

broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

If the selling stockholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling

stockholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

The selling stockholders may pledge or grant a security interest in some or all of the shares of common stock or warrants owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be underwriters within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares of common stock against certain liabilities, including liabilities arising under the Securities Act.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling stockholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock pursuant to the securities purchase agreement, estimated to be \$120,000 in total, including, without limitation, SEC filing fees and expenses of compliance with state securities or Blue Sky laws; *provided, however*, that a selling stockholder will pay all selling commissions, if any. We will indemnify the selling stockholders against liabilities, including some liabilities under the Securities Act, in accordance with the securities purchase agreement, or the selling stockholders will be entitled to contribution. We may be indemnified by the selling stockholders against civil liabilities, including liabilities under the Securities Act, that may arise from any written information furnished to us by the selling stockholder specifically for use in this prospectus, in accordance with the securities purchase agreement, or we may be entitled to contribution.

Once sold under the registration statement of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Please see Item 7 in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, filed with the Securities and Exchange Commission on March 23, 2012, which is incorporated herein by reference, for a discussion of our financial condition and results of operations.

Quantitative and Qualitative Disclosures about Market Risk

We are exposed to various market risks, which include potential losses arising from adverse changes in market rates and prices, such as interest rates and foreign exchange fluctuations. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

Interest Rate Risk. Our exposure to interest rate risk is confined to our cash and cash equivalents with maturities of less than three months. The goals of our investment policy are preservation of capital, fulfillment of liquidity needs and fiduciary control of cash. To achieve our goal of maximizing income without assuming significant risk, we maintain our excess cash and cash equivalents in money market funds. Because of the short-term maturities of our cash equivalents, we do not believe that a decrease in interest rates would have any material negative impact on the fair value of cash equivalents.

Foreign Currency Risk. Our sales contracts relating to LODOTRA are principally denominated in Euros and therefore, until we derive material revenues from sales of DUEXIS and, if approved, RAYOS, in the U.S., our revenues will be subject to significant foreign currency risk. We also incur certain operating expenses in currencies other than the U.S. dollar in relation to Horizon Pharma AG; therefore, we are subject to volatility in cash flows due to fluctuations in foreign currency exchange rates, particularly changes in the Euro. To date, we have not entered into any hedging contracts since exchange rate fluctuations have had minimal impact on our results of operations and cash flows.

Inflation Risk. We do not believe that inflation has had a material impact on our business or results of operations during the periods for which the consolidated financial statements are incorporated by reference in this prospectus.

BUSINESS

Legal Proceedings

On February 15, 2012, we received a Paragraph IV Patent Certification from Par Pharmaceutical, Inc., or Par Pharmaceutical, advising that Par Pharmaceutical has filed an ANDA with the FDA for a generic version of DUEXIS, containing 800 mg of ibuprofen and 26.6 mg of famotidine. Par Pharmaceutical has not advised us as to the timing or status of the FDA's review of its filing, or whether it has complied with FDA requirements for proving bioequivalence. We are evaluating the Paragraph IV certification and intend to vigorously enforce our intellectual property rights relating to DUEXIS. All of our issued U.S. patents covering DUEXIS are listed in the FDA's Approved Drug Products with Therapeutic Equivalence Evaluations, commonly known as the Orange Book. On March 28, 2012, we announced we had filed a lawsuit in the United States District Court for the District of Delaware against Par Pharmaceutical and Par Pharmaceutical Companies, Inc. claiming infringement of our '033 patent that is listed in the Orange Book and expires July 18, 2026. Under the FDA's rules and regulations, because we initiated a patent infringement suit to defend a patent identified in the Paragraph IV notice within 45 days after the FDA's receipt of the notice, the FDA is prevented from approving the ANDA until the earlier of 30 months or a decision in the infringement case that the patent is not infringed or invalid.

Facilities

We occupy approximately 21,200 square feet of space in our headquarters in Deerfield, Illinois under a lease that expires on June 30, 2018. We also occupy approximately 7,400 square feet of office space in Mannheim, Germany under a lease that expires on December 31, 2012 and approximately 3,200 square feet of office space in Reinach, Switzerland under a lease that expires on May 31, 2015. We have no laboratory, research or manufacturing facilities. We believe that our current facilities are adequate for our needs and that, should it be needed, suitable additional space or renewal of our existing leases will be available to accommodate expansion of our operations on commercially reasonable terms.

Employee Benefit Plans

2005 Stock Plan

Our board of directors adopted and our stockholders approved our 2005 stock plan, or the 2005 plan, in October 2005. Following the signing of the underwriting agreement for our initial public offering and stockholder approval of the 2011 equity incentive plan, or 2011 plan, all equity awards have been and all future equity awards will be granted under our 2011 plan. However, all stock options granted under the 2005 plan prior to our initial public offering will continue to be governed by the terms of the 2005 plan.

The principal features of the 2005 plan are summarized below. This summary is qualified in its entirety by reference to the text of the 2005 plan, which is filed as an exhibit to our Registration Statement on Form S-1 (File No. 333-162945), as amended, filed with the Securities and Exchange Commission.

Share Reserve. The 2005 plan provides for the grant of up to 1,771,289 shares of our common stock as stock awards. As of the date hereof, 6,407 shares of our common stock have been issued pursuant to options granted under the 2005 plan.

Shares of our common stock subject to options that have expired or otherwise terminate under the 2005 plan without having been exercised in full will become available for future grant under the 2011 plan. Shares of our common stock issued under the 2005 plan may include previously unissued shares or reacquired shares bought on the market or otherwise.

Administration. The 2005 plan is administered by our board of directors, which has delegated its authority to administer the 2005 plan to our compensation committee.

Stock Option Provisions Generally. Stock options have been granted pursuant to stock option agreements. The exercise price for an incentive stock option granted to an employee who was not a 10% holder could not be less than 100% of the fair market value of the common stock subject to the option on the date of grant, and the exercise price for an incentive stock option granted to an employee who was a 10% holder could not be less than 110% of the fair market value of the common stock subject to the option on the date of grant, except in each case, in connection with a merger or other corporate transaction.

The terms of the 2005 plan provide that the exercise price for a nonstatutory stock option granted to a person who was not a 10% holder on a date on which the common stock was not a listed security could not be less than 85% of the fair market value of the common stock subject to the option on the date of grant except, the exercise price for a nonstatutory stock option granted to a person who was a 10% holder on a date on which the common stock was not a listed security could not be less than 110% of the fair market value of the common stock subject to the option on the date of grant, and the exercise price for a nonstatutory stock option granted to any person on a date on which the common stock was a listed security could not be less than 100% of the fair market value of the common stock subject to the option on the date of grant if the option was intended to qualify as performance-based compensation under Section 162(m) of the IRC, except in each case, in connection with a merger or other corporate transaction. We have not granted options with exercise prices less than 100% of the fair market value of our common stock on the date of grant. Options granted under the 2005 plan vest at the rate specified in the option agreement.

The term of stock options granted under the 2005 plan do not exceed 10 years. Unless the terms of an optionholder's stock option agreement provides for earlier or later termination, if an optionholder's service

Table of Contents

relationship with us, or any affiliate of ours, ceases due to disability or death, the optionholder, or his or her beneficiary, may exercise any vested options up for to six months, or 12 months in the event of death, after the date the service relationship ends, unless the terms of the stock option agreement provide for earlier termination. If an optionholder's service relationship with us, or any affiliate of ours, ceases without cause for any reason other than disability or death, the optionholder may exercise any vested options for up to 30 days after the date the service relationship ends, unless the terms of the stock option agreement provide for a longer or shorter period to exercise the option. If an optionholder's service relationship with us, or any affiliate of ours, ceases with us for cause, the option will terminate at the time the optionholder's relationship with us ceases. In no event may an option be exercised after its expiration date.

Acceptable forms of consideration for the purchase of our common stock under the 2005 plan include cash, check, delivery of a promissory note, cancellation of indebtedness, shares of stock which have been owned for more than six months, consideration paid through a same-day sale cashless brokered exercise program, or any combination of such consideration.

Generally, an optionholder may not transfer a stock option other than by will, the laws of descent and distribution or pursuant to a domestic relations order or by gift to the optionholder's immediate family. An optionholder may, however, designate a beneficiary who may exercise the option following the optionholder's death.

Limitations. The aggregate fair market value, determined at the time of grant, of shares of our common stock with respect to incentive stock options that are exercisable for the first time by an optionholder during any calendar year under all of our stock plans may not exceed \$100,000. The options or portions of options that exceed this limit are treated as nonstatutory stock options.

Changes to Capitalization. In the event that there is a specified type of change in our capital structure not involving the receipt of consideration by us, such as a stock split, stock dividend or other recapitalization, the number of shares and exercise price or strike price, if applicable, of all outstanding stock awards must be appropriately adjusted by the plan administrator.

Corporate Transactions. Unless otherwise provided in the option agreement, in the event of certain corporate transactions, any or all outstanding stock awards under the 2005 plan must be assumed or substituted for by any surviving entity. If the surviving entity elects not to assume or substitute for such awards, such stock awards will be terminated. In the event of our dissolution or liquidation, all outstanding stock awards under the 2005 plan will terminate immediately prior to such event.

Plan Amendments. Our board of directors has the authority to amend, alter, suspend or discontinue the 2005 plan. However, no amendment or termination of the plan may adversely affect any rights under awards already granted to a participant without the affected participant's consent. We will obtain stockholder approval of any amendment to the 2005 plan as required by applicable law. The 2005 plan will expire in October 2015 unless sooner terminated by our board of directors.

2011 Equity Incentive Plan

Our board of directors adopted the 2011 plan in July 2010 and approved the final share reserve and evergreen provisions under the 2011 plan in March 2011, and our stockholders approved the 2011 plan in June 2011. The 2011 plan became effective immediately upon the signing of the underwriting agreement related to our initial public offering. The 2011 plan will terminate in 2021, unless sooner terminated by our board of directors. The purpose of the 2011 plan is to attract, retain and motivate selected employees, consultants and directors through the granting of stock-based compensation awards and cash-based performance bonus awards. The 2011 plan is also designed to permit us to make cash-based awards and equity-based awards intended to qualify as performance-based compensation under Section 162(m) of the IRC.

Table of Contents

Stock Awards. The 2011 plan provides for the grant of incentive stock options, nonstatutory stock options, stock appreciation rights, restricted stock awards, restricted stock unit awards, performance-based stock awards and other forms of equity compensation, or collectively, stock awards. In addition, the 2011 plan provides for the grant of performance cash awards. Incentive stock options may be granted only to employees, subject to certain limitation described below. All other awards may be granted to employees, including officers, as well as directors and consultants.

The principal features of the 2011 plan are summarized below. This summary is qualified in its entirety by reference to the text of the 2011 plan, which is filed as an exhibit to the registration statement of which this prospectus is a part.

Share Reserve. Initially, the aggregate number of shares of our common stock that may be issued pursuant to stock awards under the 2011 plan was 3,366,228 shares, which number is the sum of (1) the number of shares reserved for future issuance under the 2005 plan at the time the 2011 plan became effective, (2) an additional number of shares, up to 1,317,534, that were subject to outstanding stock awards granted under the 2005 plan that expire or terminate for any reason prior to their exercise or settlement and would otherwise return to the 2005 Plan reserve and (3) an additional 1,600,673 new shares. In addition, the number of shares of our common stock reserved for issuance under the 2011 plan will automatically increase on January 1 of each year, starting on January 1, 2012 and continuing through January 1, 2021, by the least of (a) 5% of the total number of shares of our common stock outstanding on December 31 of the preceding calendar year, (b) 1,474,304 shares, or (c) such lesser number of shares of common stock as determined by our board of directors. The maximum number of shares that may be issued pursuant to the exercise of incentive stock options under the 2011 plan was initially 2,106,149 shares plus the number of shares that are added to the 2011 plan share reserve pursuant to annual evergreen increases or pursuant to outstanding 2005 plan awards that expire or terminate prior to exercise or settlement. On January 1, 2012, 672,500 shares were added to the 2011 plan reserve. As of the date hereof, no shares of our common stock have been issued pursuant to options granted under the 2011 plan.

No person may be granted stock awards covering more than 1,053,074 shares of our common stock under the 2011 plan during any calendar year pursuant to stock options or stock appreciation rights. In addition, no person may be granted a performance stock award covering more than 631,844 shares or a performance cash award covering more than \$3,000,000 in any calendar year. Such limitations are designed to help assure that any deductions to which we would otherwise be entitled with respect to such stock awards will not be subject to the \$1,000,000 limitation on the income tax deductibility of compensation paid per covered executive officer imposed by Section 162(m) of the IRC.

If a stock award granted under the 2011 plan expires or otherwise terminates without being exercised in full, or is settled in cash, the shares of our common stock not acquired pursuant to the stock award again become available for subsequent issuance under the 2011 plan. In addition, the following types of shares under the 2011 plan may become available for the grant of new stock awards under the 2011 plan: (a) shares that are forfeited to or repurchased by us prior to becoming fully vested; (b) shares withheld to satisfy income or employment withholding taxes; (c) shares used to pay the exercise price of an option in a net exercise arrangement; and (d) shares tendered to us to pay the exercise price of an option.

Administration. Our board of directors has delegated its authority to administer the 2011 plan to our compensation committee. The compensation committee is required to consist of two or more outside directors within the meaning of Section 162(m) of the IRC and/or two or more non-employee directors for the purposes of Rule 16b-3 under the Exchange Act. Subject to the terms of the 2011 plan, our board of directors or an authorized committee, referred to as the plan administrator, determines recipients, dates of grant, the numbers and types of stock awards to be granted and the terms and conditions of the stock awards, including the period of their exercisability and vesting. Subject to the limitations set forth below, the plan administrator will also determine the exercise price of options granted, the consideration (if any) to be paid for restricted stock awards and the strike price of stock appreciation rights.

Table of Contents

The plan administrator has the authority to reprice any outstanding stock award (by reducing the exercise price of any outstanding option, canceling an option in exchange for cash or another equity award or any other action that may be deemed a repricing under generally accepted accounting provisions) under the 2011 plan without the approval of our stockholders.

Stock Options. Incentive and nonstatutory stock options are granted pursuant to incentive and nonstatutory stock option agreements adopted by the plan administrator. The plan administrator determines the exercise price for a stock option, within the terms and conditions of the 2011 plan, provided that the exercise price of a stock option cannot be less than 100% of the fair market value of our common stock on the date of grant. Options granted under the 2011 plan vest at the rate specified by the plan administrator.

The plan administrator determines the term of stock options granted under the 2011 plan, up to a maximum of 10 years, except in the case of certain incentive stock options, as described below. Unless the terms of an optionholder's stock option agreement provide otherwise, if an optionholder's relationship with us, or any of our affiliates, ceases for any reason other than for cause, disability or death, the optionholder may exercise any vested options for a period of three months following the cessation of service. If an optionholder's service relationship with us is terminated for cause, then the option terminates immediately. If an optionholder's service relationship with us or any of our affiliates ceases due to disability or death, or an optionholder dies within the period (if any) specified in the award agreement following cessation of service, the optionholder or a beneficiary may exercise any vested options for a period of 12 months in the event of disability and 18 months in the event of death. The option term may be extended in the event that exercise of the option following termination of service is prohibited by applicable securities laws. In no event, however, may an option be exercised beyond the expiration of its maximum term.

Acceptable consideration for the purchase of common stock issued upon the exercise of a stock option will be determined by the plan administrator and may include (a) cash, check, bank draft or money order, (b) a broker-assisted cashless exercise, (c) the tender of common stock previously owned by the optionholder, (d) a net exercise of the option and (e) other legal consideration approved by the plan administrator.

Unless the plan administrator provides otherwise, options generally are not transferable except by will, the laws of descent and distribution, or pursuant to a domestic relations order. An optionholder may, however, designate a beneficiary who may exercise the option following the optionholder's death.

Limitations on Incentive Stock Options. Incentive stock options may be granted only to our employees. The aggregate fair market value, determined at the time of grant, of shares of our common stock with respect to incentive stock options that are exercisable for the first time by an optionholder during any calendar year under all of our stock plans may not exceed \$100,000. No incentive stock option may be granted to any person who, at the time of the grant, owns or is deemed to own stock comprising more than 10% of our total combined voting power or that of any of our affiliates unless (a) the option exercise price is at least 110% of the fair market value of the stock subject to the option on the date of grant and (b) the term of the incentive stock option does not exceed five years from the date of grant.

Restricted Stock Awards. Restricted stock awards are granted pursuant to restricted stock award agreements adopted by the plan administrator. Restricted stock awards may be granted in consideration for (a) cash, check, bank draft or money order, (b) past or future services rendered to us or our affiliates, or (c) any other form of legal consideration. Shares of common stock acquired under a restricted stock award may, but need not, be subject to a share repurchase option or forfeiture restriction in our favor in accordance with a vesting schedule to be determined by the plan administrator. Rights to acquire shares under a restricted stock award may be transferred only upon such terms and conditions as set by the plan administrator. Except as otherwise provided in the applicable award agreement, restricted stock awards that have not vested will be forfeited or subject to repurchase upon the participant's cessation of continuous service for any reason.

Table of Contents

Restricted Stock Unit Awards. Restricted stock unit awards are granted pursuant to restricted stock unit award agreements adopted by the plan administrator. Restricted stock unit awards may be granted in consideration for any form of legal consideration. A restricted stock unit award may be settled by cash, delivery of stock, a combination of cash and stock as deemed appropriate by the plan administrator, or in any other form of consideration set forth in the restricted stock unit award agreement. Additionally, dividend equivalents may be credited in respect of shares covered by a restricted stock unit award. Except as otherwise provided in the applicable award agreement, restricted stock units that have not vested will be forfeited upon the participant's cessation of continuous service for any reason.

Stock Appreciation Rights. Stock appreciation rights are granted pursuant to stock appreciation rights agreements adopted by the plan administrator. The plan administrator determines the strike price for a stock appreciation right which generally cannot be less than 100% of the fair market value of our common stock on the date of grant. Upon the exercise of a stock appreciation right, we will pay the participant an amount equal to the product of (a) the excess of the per share fair market value of our common stock on the date of exercise over the strike price, multiplied by (b) the number of shares of common stock with respect to which the stock appreciation right is exercised. A stock appreciation right granted under the 2011 plan vests at the rate specified in the stock appreciation right agreement as determined by the plan administrator.

The plan administrator determines the term of stock appreciation rights granted under the 2011 plan, up to a maximum of 10 years. If a participant's service relationship with us, or any of our affiliates, ceases, then the participant, or the participant's beneficiary, may exercise any vested stock appreciation right for three months (or such longer or shorter period specified in the stock appreciation right agreement) after the date such service relationship ends. In no event, however, may a stock appreciation right be exercised beyond the expiration of its term.

Performance Awards. The 2011 plan permits the grant of performance stock awards and performance cash awards that may qualify as performance-based compensation that is not subject to the \$1,000,000 limitation on the income tax deductibility of compensation paid per covered executive officer imposed by Section 162(m) of the IRC. To assure that the compensation attributable to performance-based awards will so qualify, our committee can structure such awards so that stock will be issued or paid pursuant to such award only upon the achievement of certain pre-established performance goals during a designated performance period. The maximum benefit number of shares that may be granted to a participant in any calendar year attributable to performance stock awards may not exceed 631,844 shares of common stock and the maximum value that may be granted to a participant in any calendar year attributable to performance cash awards may not exceed \$3,000,000.

Other Stock Awards. The plan administrator may grant other awards based in whole or in part by reference to our common stock. The plan administrator will set the number of shares under the award and all other terms and conditions of such awards.

Changes to Capital Structure. In the event that there is a specified type of change in our capital structure, such as a stock split, appropriate adjustments will be made to (a) the class and maximum number of shares reserved under the 2011 plan, (b) the maximum number of shares by which the share reserve may increase automatically each year, (c) the class and maximum number of shares subject to options, stock appreciation rights and performance stock awards that can be granted in a calendar year, (d) the class and maximum number of shares that may be issued upon exercise of incentive stock options and (e) the number of shares and exercise price or strike price, if applicable, of all outstanding stock awards.

Corporate Transactions. The 2011 plan provides that, in the event of a sale, lease or other disposition of all or substantially all of the assets of us or specified types of mergers or consolidations (each, a corporate transaction), any surviving or acquiring corporation shall either assume awards outstanding under the 2011 plan or substitute similar awards for those outstanding under the 2011 plan. If any surviving corporation declines to assume awards outstanding under the 2011 plan or to substitute similar awards, then, with respect to participants

Table of Contents

whose service with us has not terminated prior to the time of such corporate transaction, the vesting and the time during which such awards may be exercised will be accelerated in full, and all outstanding awards will terminate if the participant does not exercise such awards at or prior to the corporate transaction. With respect to any awards that are held by other participants that terminated service with us prior to the corporate transaction, the vesting and exercisability provisions of such awards will not be accelerated and such awards will terminate if not exercised prior to the corporate transaction.

Changes in Control. Our board of directors has the discretion to provide that a stock award under the 2011 plan will immediately vest as to all or any portion of the shares subject to the stock award (a) immediately upon the occurrence of certain specified change in control transactions, whether or not such stock award is assumed, continued or substituted by a surviving or acquiring entity in the transaction or (b) in the event a participant's service with us or a successor entity is terminated actually or constructively within a designated period following the occurrence of certain specified change in control transactions. Stock awards held by participants under the 2011 plan will not vest automatically on such an accelerated basis unless specifically provided in the participant's applicable award agreement.

For purposes of the 2011 plan, a change in control is the occurrence of one or more of the following events:

a transaction in which one person or a group acquires stock that, combined with stock previously owned, controls more than 50% of our value or voting power;

a merger, consolidation or similar transaction involving us (directly or indirectly) in which our stockholders immediately before the transaction do not own at least 50% of the outstanding securities following such transaction;

our complete liquidation or dissolution;

a sale, lease, license or other disposition of all or substantially all of our assets, other than to an entity in which more than 50% of the voting power is owned by our stockholders in substantially the same proportions as their ownership of our voting securities immediately prior to such transaction; or

a majority of our board of directors is replaced by persons whose appointment or election is not endorsed by a majority of our board of directors.

Dissolution or Liquidation. In the event of our dissolution or liquidation, except as otherwise provided in the award agreement, all outstanding stock awards under the 2011 plan will terminate immediately prior to the completion of such dissolution or liquidation and shares of common stock subject to our repurchase rights or to a forfeiture condition may be repurchased or reacquired by us. Our board of directors may, however, in its sole discretion, cause some or all such stock awards to become fully vested, exercisable and/or no longer subject to repurchase or forfeiture before the dissolution or liquidation is completed, but contingent upon its completion.

Plan Suspension, Termination. Our board of directors has the authority to suspend or terminate the 2011 plan at any time provided that such action does not impair the existing rights of any participant.

Securities laws and federal income taxes. The 2011 plan is designed to comply with various securities and federal tax laws as follows:

Securities laws. The 2011 plan is intended to conform to all provisions of the Securities Act of 1933, as amended, and Exchange Act and any and all regulations and rules promulgated by the SEC thereunder, including, without limitation, Rule 16b-3. The 2011 plan will be administered, and options will be granted and may be exercised, only in such a manner as to conform to such laws, rules and regulations.

Section 409A of the IRC. Certain awards under the 2011 plan may be considered nonqualified deferred compensation for purposes of Section 409A of the IRC, which imposes certain additional requirements regarding the payment of deferred compensation. Generally, if at any time during a taxable year a nonqualified

Table of Contents

deferred compensation plan fails to meet the requirements of Section 409A, or is not operated in accordance with those requirements, all amounts deferred under the 2011 plan and all other equity incentive plans for the taxable year and all preceding taxable years, by any participant with respect to whom the failure relates, are includible in gross income for the taxable year to the extent not subject to a substantial risk of forfeiture and not previously included in gross income. If a deferred amount is required to be included in income under Section 409A, the amount also is subject to interest and an additional income tax. The interest imposed is equal to the interest at the underpayment rate plus one percentage point, imposed on the underpayments that would have occurred had the compensation been includible in income for the taxable year when first deferred, or if later, when not subject to a substantial risk of forfeiture. The additional federal income tax is equal to 20% of the compensation required to be included in gross income. In addition, certain states, including California, have laws similar to Section 409A, which impose additional state penalty taxes on such compensation.

Section 162(m) of the IRC. In general, under Section 162(m) of the IRC, income tax deductions of publicly held corporations may be limited to the extent total compensation (including, but not limited to, base salary, annual bonus, and income attributable to stock option exercises and other non-qualified benefits) for certain executive officers exceeds \$1,000,000 (less the amount of any excess parachute payments as defined in Section 280G of the IRC) in any taxable year of the corporation. However, under Section 162(m), the deduction limit does not apply to certain performance-based compensation established by an independent compensation committee that is adequately disclosed to, and approved by, stockholders. In particular, stock options and SARs will satisfy the performance-based compensation exception if the awards are made by a qualifying compensation committee, the 2011 plan sets the maximum number of shares that can be granted to any person within a specified period and the compensation is based solely on an increase in the stock price after the grant date. Specifically, the option exercise price must be equal to or greater than the fair market value of the stock subject to the award on the grant date.

We have attempted to structure the 2011 plan in such a manner that the compensation attributable to stock options, SARs and other performance-based awards which meet the other requirements of Section 162(m) will not be subject to the \$1,000,000 limitation. We have not, however, requested a ruling from the IRS or an opinion of counsel regarding this issue.

2011 Employee Stock Purchase Plan

Our board of directors adopted our 2011 employee stock purchase plan, or the 2011 purchase plan, in July 2010 and our stockholders approved the 2011 purchase plan in June 2011. The 2011 purchase plan became effective immediately upon the signing of the underwriting agreement related to our initial public offering. The purpose of the 2011 purchase plan is to assist us in retaining the services of new employees and securing the services of new and existing employees while providing incentives for such individuals to exert maximum efforts toward our success.

Share Reserve. Initially, the 2011 purchase plan authorized the issuance of 463,352 shares of our common stock pursuant to purchase rights granted to our employees or to employees of our subsidiaries. The number of shares of our common stock reserved for issuance will automatically increase on January 1 of each calendar year, from January 1, 2012 through January 1, 2021, by the least of (a) 4% of the total number of shares of our common stock outstanding on December 31st of the preceding calendar year, (b) 1,053,074 shares, or (c) a number determined by our board of directors that is less than (a) or (b). The 2011 purchase plan is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the IRC. On January 1, 2012, 100,000 shares were added to the 2011 purchase plan reserve. As of the date hereof, 17,772 shares of our common stock have been purchased under the 2011 purchase plan.

Administration. Our board of directors has delegated its authority to administer the 2011 purchase plan to our compensation committee. The 2011 purchase plan is implemented through a series of offerings of purchase rights to eligible employees. Under the 2011 purchase plan, we may specify offerings with durations of not more than

Table of Contents

27 months, and may specify shorter purchase periods within each offering. Each offering will have one or more purchase dates on which shares of our common stock will be purchased for employees participating in the offering. An offering may be terminated under certain circumstances.

Payroll Deductions. Generally, all regular employees, including executive officers, employed by us or by any of our designated affiliates, may participate in the 2011 purchase plan and may contribute, normally through payroll deductions, up to 15% of their earnings for the purchase of our common stock under the 2011 purchase plan. Unless otherwise determined by our board of directors, common stock will be purchased for accounts of employees participating in the 2011 purchase plan at a price per share equal to the lower of (a) 85% of the fair market value of a share of our common stock on the first date of an offering or (b) 85% of the fair market value of a share of our common stock on the date of purchase.

Limitations. Employees may have to satisfy one or more of the following service requirements before participating in the 2011 purchase plan, as determined by our board of directors: (a) customarily employed for more than 20 hours per week, (b) customarily employed for more than five months per calendar year or (c) continuous employment with us or one of our affiliates for a period of time not to exceed two years. No employee may purchase shares under the 2011 purchase plan at a rate in excess of \$25,000 worth of our common stock based on the fair market value per share of our common stock at the beginning of an offering for each year such a purchase right is outstanding. Finally, no employee will be eligible for the grant of any purchase rights under the 2011 purchase plan if immediately after such rights are granted, such employee has voting power over 5% or more of our outstanding capital stock measured by vote or value pursuant to IRC Section 424(d).

Changes to Capital Structure. In the event that there occurs a change in our capital structure through such actions as a stock split, merger, consolidation, reorganization, recapitalization, reincorporation, stock dividend, dividend in property other than cash, liquidating dividend, combination of shares, exchange of shares, change in corporate structure or similar transaction, the board of directors will make appropriate adjustments to (a) the number of shares reserved under the 2011 purchase plan, (b) the maximum number of shares by which the share reserve may increase automatically each year and (c) the number of shares and purchase price of all outstanding purchase rights.

Corporate Transactions. In the event of certain significant corporate transactions, including a sale of all our assets, the sale or disposition of 90% of our outstanding securities, or the consummation of a merger or consolidation where we do not survive the transaction, any then-outstanding rights to purchase our stock under the 2011 purchase plan may be assumed, continued or substituted for by any surviving or acquiring entity (or its parent company). If the surviving or acquiring entity (or its parent company) elects not to assume, continue or substitute for such purchase rights, then the participants' accumulated payroll contributions will be used to purchase shares of our common stock within 10 business days prior to such corporate transaction, and such purchase rights will terminate immediately.

Plan Amendments, Termination. Our board has the authority to amend or terminate the 2011 purchase plan at any time. If our board determines that the amendment or terminating of an offering is in our best interests and the best interests of our stockholders, then our board may terminate any offering on any purchase date, establish a new purchase date with respect to any offering then in progress, amend the 2011 purchase plan and the ongoing offering to refuse or eliminate detrimental account treatment or terminate any offering and refuse any money contributed back to the participants. We will obtain stockholder approval of any amendment to the 2011 purchase plan as required by applicable law.

401(k) Plan

We maintain a defined contribution employee retirement plan for our U.S. employees. The plan is intended to qualify as a tax-qualified plan under Section 401(k) of the IRC so that contributions to the 401(k) plan, and income earned on such contributions, are not taxable to participants until withdrawn or distributed from the

Table of Contents

401(k) plan. The 401(k) plan provides that each participant may contribute up to 80% of his or her pre-tax compensation, up to a statutory limit, which is \$17,000 for 2012. Participants who are at least 50 years old can also make catch-up contributions, which in 2012 may be up to an additional \$5,500 above the statutory limit. Under the 401(k) plan, each employee is fully vested in his or her deferred salary contributions. Employee contributions are held and invested by the plan's trustee. The 401(k) plan also permits us to make discretionary profit sharing contributions and discretionary matching contributions, subject to established limits and a vesting schedule. To date, we have not made any discretionary profit sharing or discretionary matching contributions to the plan on behalf of participating employees.

TRANSACTIONS WITH RELATED PERSONS

The following is a description of transactions since January 1, 2009 and certain transactions prior to that date to which we have been a party, in which the amount involved exceeded or will exceed \$120,000, and in which any of our directors, executive officers or to our knowledge, beneficial owners of more than 5% of our capital stock, including any of their immediate family members, and any entity owned or controlled by such persons, had or will have a direct or indirect material interest, other than compensation, termination and change-in-control arrangements, which are described under Executive Compensation. We believe the terms obtained or consideration that we paid or received, as applicable, in connection with the transactions described below were comparable to terms available or the amounts that would be paid or received, as applicable, in arm's-length transactions with unrelated third parties.

Policies and Procedures for Transactions with Related Persons

We have adopted a written Related-Person Transactions Policy that sets forth our policies and procedures regarding the identification, review, consideration, approval and oversight of related-person transactions. For purposes of our policy only, a related-person transaction is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any related person are participants, the amount involved exceeds \$120,000 and a related person has a direct or indirect material interest. Transactions involving compensation for services provided to us as an employee, director, consultant or similar capacity by a related person are not covered by this policy. A related person is any executive officer, director or nominee to become director, a holder of more than 5% of our common stock, including any immediate family members of such persons or any entity owned or controlled by such persons. Any related-person transaction may only be consummated if our audit committee has approved or ratified the transaction in accordance with the policy guidelines set forth below.

The policy imposes an affirmative duty upon each director and executive officer to identify, and we will request that significant stockholders identify, any transaction involving them, their affiliates or family members that may be considered a related-party transaction before such person engages in the transaction. Under the policy, where a transaction has been identified as a related-person transaction, management must present information regarding the proposed related-person transaction to our audit committee (or, where review by our audit committee would be inappropriate, to another independent body of our board of directors) for review. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related persons, the benefits of the transaction to us and whether any alternative transactions are available. In considering related-person transactions, our audit committee takes into account the relevant available facts and circumstances including, but not limited to:

the risks, costs and benefits to us;

the impact on a director's independence in the event the related person is a director, immediate family member of a director or an entity with which a director is affiliated;

the terms of the transaction;

the availability of other sources for comparable services or products; and

the terms available to or from, as the case may be, unrelated third parties or to or from our employees generally.

In the event a director has an interest in the proposed transaction, the director must recuse himself or herself from the deliberations and approval process. Before the recent adoption of our Related-Person Transactions Policy, we did not have a formal policy concerning transactions with related persons.

Director Independence

Our board of directors has reviewed the materiality of any relationship that each of our directors has with us, either directly or indirectly, including any director that served on our board of directors in 2011. Based on this

review, our board has determined that, with the exception of Mr. Walbert, all of our current directors and ex-directors that served on our board during 2011 are and were, as applicable, independent directors as defined by Rule 5605(a)(2) of the NASDAQ Listing Rules.

The following current directors and ex-directors are affiliated with our principal stockholders as indicated in the table below:

Recapitalization and Nitec Acquisition

In April 2010, we acquired Nitec (now Horizon Pharma AG). In connection with the acquisition, we effected a recapitalization pursuant to which the outstanding shares of Horizon Therapeutics, Inc. (now Horizon Pharma USA, Inc.) were converted into shares of Horizon Pharma, Inc. and Horizon Therapeutics, Inc. became a wholly-owned subsidiary of Horizon Pharma, Inc. We refer to this transaction as the recapitalization. We issued an aggregate of 633,144 shares of our common stock and an aggregate of 11,239,887 shares of our Series A preferred stock to the stockholders of Horizon Pharma USA in connection with the recapitalization. Additionally, we assumed 600,728 outstanding options of Horizon Pharma USA which became exercisable for shares of our common stock, and warrants to purchase shares of preferred stock of Horizon Pharma USA which became exercisable for shares of our Series A preferred stock.

To effect the acquisition of Nitec and concurrently with the recapitalization, we entered into a Share Exchange Agreement with Nitec, Horizon Pharma USA, Horizon MergerSub, Inc., the shareholders of Nitec and their representative and certain stockholders of Horizon Pharma USA and their representative. Pursuant to the Share Exchange Agreement, we acquired all of the capital stock of Nitec in exchange for newly-issued shares of our capital stock and Nitec became our wholly-owned subsidiary. We refer to this transaction as the Nitec acquisition. We issued an aggregate of 857,400 shares of our common stock and 11,211,413 shares of our Series A preferred stock to the stockholders of Nitec in connection with the Nitec acquisition. Additionally, the outstanding options to purchase shares of Nitec were cancelled in connection with the Nitec acquisition and exchanged for options to purchase an aggregate of 328,074 shares of our common stock. Upon completion of our initial public offering, the shares issued pursuant to the recapitalization and Nitec acquisition represent approximately 10,947,674 shares of our common stock.

Preferred Stock Financings Prior to the Recapitalization and Nitec Acquisition

In October 2005, our wholly-owned subsidiary, Horizon Pharma USA, entered into a Series A Preferred Stock Purchase Agreement pursuant to which it issued and sold to investors an aggregate of 1,192,118 shares of Series

Table of Contents

A preferred stock at a purchase price of \$5.075 per share, for net proceeds of approximately \$6.0 million. Of these 1,192,118 shares of Series A preferred stock, 246,305 shares were converted into Special preferred stock of Horizon Pharma USA in connection with Horizon Pharma USA's Series D preferred stock financing that occurred in December 2009, or the Series D financing. The remaining 945,813 shares of Series A preferred stock were converted into an equal number of shares of our Series A preferred stock in connection with the recapitalization. All of the 246,305 shares of Special preferred stock were converted into an equal number of shares of our common stock in connection with the recapitalization.

In November 2006, Horizon Pharma USA entered into a Series B Preferred Stock Purchase Agreement pursuant to which it issued and sold to investors an aggregate of 1,482,213 shares of Series B preferred stock at a purchase price of \$10.12 per share, for net proceeds of approximately \$14.9 million. Of these 1,482,213 shares of Series B preferred stock, 247,035 shares were converted into Special preferred stock of Horizon Pharma USA in connection with the Series D financing. The remaining 1,235,178 shares of Series B preferred stock were converted into 1,525,122 shares of our Series A preferred stock in connection with the recapitalization. Dr. Tidmarsh received a monthly consulting fee of \$33,000 per month pursuant to the terms of his consulting agreement which expired on September 30, 2011. DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 200,000,000 shares of common stock, par value \$0.0001 per share, and 10,000,000 shares of preferred stock, par value \$0.0001 per share.

The following is a summary of the rights of our common stock and preferred stock. This summary is not complete. For more detailed information, please see our amended and restated certificate of incorporation and amended and restated bylaws, which were filed as exhibits to our Current Report on Form 8-K filed with the Securities and Exchange Commission on August 2, 2011.

Common Stock

Outstanding Shares. On March 15, 2012, there were 33,703,370 shares of common stock outstanding, held of record by approximately 130 stockholders.

As of March 15, 2012, there were 1,278,426 shares of common stock subject to outstanding options under our 2005 plan, 2,056,179 shares of common stock subject to outstanding options under our 2011 plan and 7,120,887 shares of common stock subject to outstanding warrants.

Voting Rights. Each holder of common stock is entitled to one vote for each share of common stock on all matters submitted to a vote of the stockholders, including the election of directors. Our amended and restated certificate of incorporation and amended and restated bylaws do not provide for cumulative voting rights. Because of this, the holders of a majority of the shares of common stock entitled to vote in any election of directors can elect all of the directors standing for election.

Dividends. Subject to preferences that may be applicable to any then outstanding preferred stock, the holders of common stock are entitled to receive dividends, if any, as may be declared from time to time by our board of directors out of legally available funds.

Liquidation. In the event of our liquidation, dissolution or winding up, holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities, subject to the satisfaction of any liquidation preference granted to the holders of any then outstanding shares of preferred stock.

Rights and Preferences. Holders of common stock have no preemptive, conversion or subscription rights, and there are no redemption or sinking fund provisions applicable to our common stock. The rights, preferences and privileges of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Fully Paid and Nonassessable. All of our outstanding shares of common stock are duly authorized, validly issued, fully paid and nonassessable.

Preferred Stock

Our board of directors is authorized, subject to any limitations prescribed by law, without stockholder approval, to issue from time to time up to an aggregate of 10,000,000 shares of preferred stock, in one or more series, each series to have such rights and preferences, including voting rights, dividend rights, conversion rights, redemption

privileges and liquidation preferences as our board of directors determines. The rights of the holders of common stock will be subject to, and may be adversely affected by, the rights of holders of any preferred stock that may be issued in the future. Issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, a majority of our outstanding voting stock. We currently have no shares of preferred stock outstanding and we have no present plans to issue any shares of preferred stock.

Warrants

As of March 15, 2012, warrants exercisable for an aggregate of up to 7,120,887 shares of our common stock were outstanding. Such warrants will expire between October 2015 and June 2021 and include warrants to purchase 3,277,191 shares of common stock that were issued in a debt financing transaction that closed on February 22, 2012 and warrants to purchase 3,508,448 shares of common stock that were issued in a private placement transaction that closed on March 2, 2012. Each of these warrants, except for two warrants issued to Comerica Bank, has a net exercise provision under which its holder may, in lieu of payment of the exercise price in cash, surrender the warrant and receive a net amount of shares based on the fair market value of our common stock at the time of exercise of the warrant after deduction of the aggregate exercise price. Each of these warrants also contains provisions for the adjustment of the exercise price and the aggregate number of shares issuable upon the exercise of the warrant in the event of stock dividends, stock splits, reclassifications and consolidations. In November 2011 and March 2012, Kreos Capital III (UK) Limited, net exercised 81,633 warrants resulting in the purchase of 81,348 shares of common stock and 42,122 warrants resulting in the purchase of 41,797 shares of common stock, respectively.

Registration Rights

Investor Rights Agreement, as amended

According to the terms of our investor rights agreement entered into in April 2010, as amended in February 2012, certain investors are entitled to demand, piggyback and Form S-3 registration rights. In addition, Oxford Finance LLC, Silicon Valley Bank, and all holders of the bridge warrants, or their transferees, have Form S-3 registration rights and piggyback registration rights as described below, with respect to an aggregate of 309,059 shares of common stock issuable upon exercise of their warrants.

Demand Registration Rights. At any time, the holders of at least 30% of the shares having demand registration rights have the right to make up to two demands that we file a registration statement to register all or a portion of their shares so long as the aggregate number of shares requested to be sold under such registration statement is at least \$10 million, subject to specified exceptions, conditions and limitations, including the right of the underwriters to limit the number of shares included in any such registration under certain circumstances.

Form S-3 Registration Rights. If we are eligible to file a registration statement on Form S-3, holders of registration rights have the right to demand that we file a registration statement on Form S-3 so long as the aggregate amount of shares to be sold under the registration statement on Form S-3 is at least \$1 million, subject to specified exceptions, conditions and limitations.

Piggyback Registration Rights. If we register any securities for public sale, holders of registration rights will have the right to include their shares in the registration statement. The underwriters of any underwritten offering will have the right to limit the number of shares having registration rights to be included in the registration statement, but not below 30% of the total number of shares included in the registration statement, except this offering with respect to which the holders have waived any and all rights to have their shares included.

Expenses of Registration. Generally, we are required to bear all registration and selling expenses incurred in connection with the demand, piggyback and Form S-3 registrations described above, other than underwriting discounts and commissions.

Table of Contents

Expiration of Registration Rights. The demand, piggyback and Form S-3 registration rights discussed above will terminate upon the earlier of (1) five years following the closing of our initial public offering or (2) with respect to any holder of less than 1% of our capital stock entitled to these registration rights, on the date when such holder is able to sell all of its registrable common stock in a single three-month period under Rule 144 of the Securities Act of 1933, as amended.

Registration Rights with Respect to March 2012 Private Placement

In connection with a private placement of units consisting of common stock, or Shares, and warrants, or Warrants, that closed on March 2, 2012, we entered into a securities purchase agreement, or Securities Purchase Agreement, with the investors in the private placement and the holders of common stock warrants previously issued on February 22, 2012 in connection with the Senior Secured Loan, or Prior Warrants. Under the terms of the Securities Purchase Agreement, we have agreed to file, within 45 days after the closing of the private placement, a registration statement with the Securities and Exchange Commission, or SEC, to register for resale the Shares and the shares of common stock issuable upon the exercise of both the Warrants and the Prior Warrants, which registration statement is required under the Securities Purchase Agreement to become effective no later than 90 days following the closing (or 120 days following the closing if the SEC reviews or has written comments to the registration statement). We will be required to pay liquidated damages of 1.5% of the purchase price of the Shares, the Warrants and the Prior Warrants per month (up to a cap of 10%) if we do not meet certain obligations with respect to the registration statement.

Delaware Anti-Takeover Law and Provisions of Our Amended and Restated Certificate of Incorporation and Bylaws

Our amended and restated certificate of incorporation and our amended and restated bylaws contain certain provisions that could have the effect of delaying, deterring or preventing another party from acquiring control of us. These provisions and certain provisions of the Delaware General Corporation Law which are summarized below, are expected to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed, in part, to encourage persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of increased protection of our potential ability to negotiate more favorable terms with an unfriendly or unsolicited acquirer outweigh the disadvantages of potentially discouraging a proposal to acquire us.

Delaware Anti-Takeover Law. We are subject to Section 203 of the Delaware General Corporation Law. Section 203 generally prohibits a public Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

Amended and Restated Certificate of Incorporation and Bylaws. Among other things, our amended and restated certificate of incorporation and bylaws:

permit our board of directors to issue up to 10,000,000 shares of preferred stock, with any rights, preferences and privileges as they may designate (including the right to approve an acquisition or other change of control);

provide that the authorized number of directors may be changed only by resolution of the board of directors;

provide that all vacancies, including newly created directorships, may, except as otherwise required by law, be filled by the affirmative vote of a majority of directors then in office, even if less than a quorum;

divide our board of directors into three classes;

require that any action to be taken by our stockholders must be effected at a duly called annual or special meeting of stockholders and not by written consent;

provide that stockholders seeking to present proposals before a meeting of stockholders or to nominate candidates for election as directors at a meeting of stockholders must provide advance notice in writing, and also specify requirements as to the form and content of a stockholder's notice;

provide that special meetings of our stockholders may be called only by the chairman of the board, our chief executive officer or by the board of directors pursuant to a resolution adopted by a majority of the total number of authorized directors.

The amendment of any of these provisions would require approval by the holders of at least 66²/₃% of our then outstanding common stock.

The provisions of the Delaware General Corporation Law and the provisions of our amended and restated certificate of incorporation and amended and restated bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, they might also inhibit temporary fluctuations in the market

It is possible that these provisions could make it more difficult to accomplish transactions that stockholders might otherwise deem to be in their best interests.

Item 14. Indemnification of directors and officers.

We are incorporated under the laws of the State of Delaware. Section 145 of the Delaware General Corporation Law provides that a Delaware corporation may indemnify any persons who are, or are threatened to be made, parties to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of such corporation), by reason of the fact that such person was an officer, director, employee or agent of such corporation, or is or was serving at the request of such person as an officer, director, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, provided that such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the corporation's best interests and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his or her conduct was illegal. A Delaware corporation may indemnify any persons who are, or are threatened to be made, a party to any threatened, pending or completed action or suit by or in the right of the corporation by reason of the fact that such person was a director, officer, employee or agent of such corporation, or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit provided such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the corporation's best interests except that no indemnification is permitted without judicial approval if the officer or director is adjudged to be liable to the corporation. Where an officer or director is successful on the merits or otherwise in the defense of any action referred to above, the corporation must indemnify him or her against the expenses which such officer or director has actually and reasonably incurred. Our amended and restated certificate of incorporation and amended and restated bylaws, each of which will become effective upon the completion of this offering, provide for the indemnification of our directors and officers to the fullest extent permitted under the Delaware General Corporation Law.

Section 102(b)(7) of the Delaware General Corporation Law permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duties as a director, except for liability for any:

transaction from which the director derives an improper personal benefit;

act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;

unlawful payment of dividends or redemption of shares; or

breach of a director's duty of loyalty to the corporation or its stockholders.

II-1

Table of Contents

Our amended and restated certificate of incorporation and amended and restated bylaws include such a provision. Expenses incurred by any officer or director in defending any such action, suit or proceeding in advance of its final disposition shall be paid by us upon delivery to us of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it shall ultimately be determined that such director or officer is not entitled to be indemnified by us.

Section 174 of the Delaware General Corporation Law provides, among other things, that a director who willfully or negligently approves of an unlawful payment of dividends or an unlawful stock purchase or redemption may be held liable for such actions. A director who was either absent when the unlawful actions were approved, or dissented at the time, may avoid liability by causing his or her dissent to such actions to be entered in the books containing minutes of the meetings of the board of directors at the time such action occurred or immediately after such absent director receives notice of the unlawful acts.

As permitted by the Delaware General Corporation Law, we have entered into indemnity agreements with each of our directors and executive officers, that require us to indemnify such persons against any and all expenses (including attorneys' fees), witness fees, damages, judgments, fines, settlements and other amounts incurred (including expenses of a derivative action) in connection with any action, suit or proceeding, whether actual or threatened, to which any such person may be made a party by reason of the fact that such person is or was a director, an officer or an employee of Horizon or any of its affiliated enterprises, provided that such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to our best interests and, with respect to any criminal proceeding, had no reasonable cause to believe his or her conduct was unlawful. The indemnification agreements also set forth certain procedures that will apply in the event of a claim for indemnification thereunder.

At present, there is no pending litigation or proceeding involving any of our directors or executive officers as to which indemnification is required or permitted, and we are not aware of any threatened litigation or proceeding that may result in a claim for indemnification.

We have an insurance policy covering our officers and directors with respect to certain liabilities, including liabilities arising under the Securities Act of 1933, as amended, or the Securities Act, or otherwise.

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
