PROSPECTUS SUPPLEMENT (To Prospectus Dated August 21, 2012)

**13,900 Shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series A Liquidation Preference Amount
\$1,000 Per Share**

695 Shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series B

Liquidation Preference Amount \$1,000 Per Share

First National Corporation

This prospectus supplement relates to the offer and sale of 13,900 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series A, \$1.25 par value per share, liquidation preference amount \$1,000 per share (the Series A Preferred Shares), and 695 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series B, \$1.25 par value per share, liquidation preference amount \$1,000 per share (the Series B Preferred Shares) and, together with the Series A Preferred Shares, the Preferred Shares) by the United States Department of the Treasury (Treasury). We issued the Preferred Shares to Treasury on March 13, 2009 as part of Treasury's Troubled Asset Relief Program Capital Purchase Program (the CPP) in a private placement exempt from the registration requirements of the Securities Act of 1933, as amended (the Securities Act).

We will not receive any proceeds from the sale of any Preferred Shares sold by Treasury.

Dividends on the Preferred Shares are payable quarterly in arrears on each February 15, May 15, August 15 and November 15. The initial dividend rate on the Series A Preferred Shares is 5% per annum through May 14, 2014, and will increase to 9% per annum on and after May 15, 2014 if not otherwise redeemed earlier for cash by us. The dividend rate on the Series B Preferred Shares is 9% per annum. We currently must inform and consult with our regulators prior to paying any dividends on the Preferred Shares. As of the date of this prospectus supplement, we have paid in full all of our quarterly dividend obligations on the Preferred Shares. We may redeem the Preferred Shares, at any time, in whole or in part, at our option, subject to prior approval by the appropriate federal banking agency, for cash, for a redemption price equal to 100% of the liquidation preference amount per Preferred Share plus any accrued and unpaid dividends to but excluding the date of redemption, provided that we must redeem, repurchase or otherwise acquire all of the Series A Preferred Shares before any of the Series B Preferred Shares are redeemed.

The Preferred Shares will not be listed for trading on any stock exchange or available for quotation on any national quotation system.

The public offering price and the allocation of the Preferred Shares in this offering will be determined by an auction process. The Series A Preferred Shares and Series B Preferred Shares will be auctioned and priced separately. The auction procedures described herein are the same for the Series A Preferred Shares and Series B Preferred Shares (each of which is separately referred to as a Series). During the auction period, potential bidders will be able to place bids to purchase Series A Preferred Shares, Series B Preferred Shares or both at any price at or above the minimum bid price of \$817.00 per share for the Series A Preferred Shares (such bid price to be in increments of \$0.01) and \$862.00 per share for the Series B Preferred Shares (such bid price to be in increments of \$0.01). The minimum size for any bid will be one Series A Preferred Share or one Series B Preferred Share. After the auction closes, if Treasury decides to sell any of the offered Series, then the underwriters will agree to purchase shares of the applicable Series in a firm commitment underwriting and the public offering price of such shares will equal the clearing price of such Series plus accrued dividends thereon. If bids are received for 100% or more of the offered Series, the clearing price for the applicable Series will be equal to the highest price at which all of the offered shares in such Series can be sold in the auction. If bids are received for 100% or more of the offered Series, and Treasury elects to sell any of the shares in the applicable Series in the auction, Treasury must sell all of the offered shares in such Series at the clearing price. If bids are received for at least half, but less than all, of the offered Series, then the clearing price for the applicable Series will be equal to the minimum bid price of \$817.00 per share for the Series A Preferred Shares and \$862.00 per share for the Series B Preferred Shares, and Treasury may (but is not required to) sell, at the public offering price, the number of shares in such Series it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered shares in such Series are sold. In certain cases, the bids of bidders may be pro-rated. If bids are received for less than half of the offered Series, Treasury will not sell any of the shares of the applicable Series in this offering. Even if bids are received for at least half of the offered Series, Treasury may decide not to sell any of the shares of the applicable Series, or, in the case where bids are received for at least half, but less than all, of such Series, may decide to sell a portion (but not less than half) of the offered shares of the applicable Series in the auction process. The method for submitting bids and a more detailed description of this auction process are described in Auction Process beginning on page S-33 of this prospectus supplement.

Edgar Filing: FIRST NATIONAL CORP /VA/ - Form 424B1

Investing in the Preferred Shares involves risks. You should read the **Risk Factors** section beginning on page S-11 of this prospectus supplement and page 4 of the accompanying prospectus and in our Annual Report on Form 10-K for the year ended December 31, 2011 before making a decision to invest in the Preferred Shares.

	Per Share	Total
Public offering price(1)		
Series A Preferred Shares	\$ 882.5000	\$ 12,266,750.00
Series B Preferred Shares	\$ 912.5000	\$ 634,187.50
Underwriting discounts and commissions to be paid by Treasury(2)		
Series A Preferred Shares	\$ 13.2375	\$ 184,001.25
Series B Preferred Shares	\$ 13.6875	\$ 9,512.81
Proceeds to Treasury(1)		
Series A Preferred Shares	\$ 869.2625	\$ 12,082,748.75
Series B Preferred Shares	\$ 898.8125	\$ 624,674.69
Total Proceeds to Treasury(1)		\$ 12,707,423.44

(1) Plus accrued dividends from and including August 15, 2012.

(2) Treasury has agreed to pay all underwriting discounts and commissions and transfer taxes. We have agreed to pay all transaction fees, if any, applicable to the sale of the Preferred Shares and certain fees and disbursements of counsel for Treasury incurred in connection with this offering.

None of the Securities and Exchange Commission (the "SEC"), the Federal Deposit Insurance Corporation (the "FDIC"), the Board of Governors of the Federal Reserve System (the "Federal Reserve"), any state or other securities commission or any other federal or state bank regulatory agency has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

The Preferred Shares are not savings accounts, deposits or other obligations of any bank, thrift or other depository institution and are not insured or guaranteed by the FDIC or any other governmental agency or instrumentality.

The underwriters expect to deliver the Preferred Shares in book-entry form through the facilities of The Depository Trust Company and its participants against payment on or about August 29, 2012.

Joint Book-Running Managers

BofA Merrill Lynch

Sandler O'Neill + Partners, L.P.

The date of this prospectus supplement is August 23, 2012.

ABOUT THIS PROSPECTUS SUPPLEMENT

You should read this prospectus supplement, the accompanying prospectus and the additional information described under the headings "Where You Can Find More Information" and "Incorporation of Certain Information by Reference" before you make a decision to invest in the Preferred Shares. In particular, you should review the information under the heading "Risk Factors" set forth on page S-11 of this prospectus supplement, the information set forth under the heading "Risk Factors" set forth on page 4 in the accompanying prospectus and the information under the heading "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2011, which is incorporated by reference herein. You should rely only on the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus and any related free writing prospectus required to be filed with the SEC. Neither we nor Treasury nor the underwriters are making an offer to sell the Preferred Shares in any manner in which, or in any jurisdiction where, the offer or sale thereof is not permitted. Neither we nor Treasury nor the underwriters have authorized any person to provide you with different or additional information. If any person provides you with different or additional information, you should not rely on it. You should assume that the information in this prospectus supplement, the accompanying prospectus, any such free writing prospectus and the documents incorporated by reference herein and therein is accurate only as of its date or the date which is specified in those documents. Our business, financial condition, capital levels, cash flows, liquidity, results of operations and prospects may have changed since any such date.

In this prospectus supplement, we frequently use the terms "we," "our" and "us" to refer to First National Corporation (the "Company") and its subsidiaries.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain information contained in this prospectus supplement may include "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. These forward-looking statements are generally identified by phrases such as "we expect," "we believe" or words of similar import. Such forward-looking statements involve known and unknown risks including, but not limited to:

the ability to raise capital as needed;

adverse economic conditions in the market area and the impact on credit quality and risks inherent in the loan portfolio such as repayment risk and fluctuating collateral values;

additional future losses if our levels of non-performing assets do not moderate and if the proceeds we receive upon liquidation of assets are less than the carrying value of such assets;

further increases of non-performing assets may reduce interest income and increase net charge-offs, provision for loan losses, and operating expenses;

the adequacy of the allowance for loan losses related to specific reserves on impaired loans, and changes in factors considered such as general economic and business conditions in the market area and overall asset quality;

the adequacy of the valuation allowance for other real estate owned related to changes in economic conditions and local real estate activity;

loss or retirement of key executives;

Edgar Filing: FIRST NATIONAL CORP /VA/ - Form 424B1

the ability to compete effectively in the highly competitive banking industry;

legislative or regulatory changes, including changes in accounting standards, may adversely affect the businesses that the Company is engaged in;

the ability to implement various technologies into our operations may impact the Company's ability to operate profitably;

S-i

Table of Contents

the ability of the Company to implement its disaster recovery plan in the event of a natural disaster;

risks related to the timing of the recoverability of the deferred tax asset, which is subject to considerable judgment, and the risk that even after the recovery of the deferred tax asset balance under GAAP, there will remain limitations on the ability to include our deferred tax assets for regulatory capital purposes;

increases in FDIC insurance premiums could adversely affect the Company's profitability;

the ability to retain customers and secondary funding sources if the Bank's reputation would become damaged;

the reliance on secondary sources, such as Federal Home Loan Bank advances, sales of securities and loans, federal funds lines of credit from correspondent banks and out-of-market time deposits, to meet liquidity needs;

changes in interest rates could have a negative impact on the Company's net interest income and an unfavorable impact on the Bank's customers' ability to repay loans; and

other factors identified in "Risk Factors", above.

Although we believe that our expectations with respect to the forward-looking statements are based upon reliable assumptions within the bounds of our knowledge of our business and operations, there can be no assurance that our actual results, performance or achievements will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and file with the SEC proxy statements, Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as required of a U.S. listed company. You may read and copy any document we file at the SEC's public reference room at 100 F Street, NE, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. Our SEC filings are also available to the public from the SEC's web site at www.sec.gov or on our website at www.fbvirginia.com. However, the information on, or that can be accessible through, our website does not constitute a part of, and is not incorporated by reference in, this prospectus supplement or the accompanying prospectus. Written requests for copies of the documents we file with the SEC should be directed to M. Shane Bell, First National Corporation, 112 West King Street, Strasburg, Virginia 22657, telephone (540) 465-9121.

This prospectus supplement and the accompanying prospectus are part of a registration statement on Form S-1 filed by us with the SEC under the Securities Act. As permitted by the SEC, this prospectus supplement and the accompanying prospectus do not contain all the information in the registration statement filed with the SEC. For a more complete understanding of this offering, you should refer to the complete registration statement, including exhibits, on Form S-1 that may be obtained as described above. Statements contained in this prospectus supplement and the accompanying prospectus about the contents of any contract or other document are not necessarily complete. If we have filed any contract or other document as an exhibit to the registration statement or any other document incorporated by reference in the registration statement, you should read the exhibit for a more complete understanding of the contract or other document or matter involved. Each statement regarding a contract or other document is qualified in its entirety by reference to the actual contract or other document.

Table of Contents

INCORPORATION OF CERTAIN INFORMATION BY REFERENCE

The SEC allows us to incorporate by reference the information that we file with it, which means that we can disclose important information to you by referring you to other documents. The information incorporated by reference is an important part of this prospectus supplement and the accompanying prospectus. We incorporate by reference the following documents (other than information furnished rather than filed in accordance with SEC rules):

Our annual report on Form 10-K for the year ended December 31, 2011 filed with the SEC on March 28, 2012 (the Form 10-K);

The portions of our definitive proxy statement for our 2012 Annual Shareholders Meeting filed with the SEC on April 6, 2012 that have been incorporated by reference into the Form 10-K;

Our quarterly reports on Form 10-Q for the quarters ended March 31, 2012 and June 30, 2012, filed with the SEC on May 15, 2012 and August 14, 2012, respectively; and

Our current reports on Form 8-K filed with the SEC on February 14, 2012, April 13, 2012, May 9, 2012, May 14, 2012, July 3, 2012 and August 15, 2012.

We will provide without charge, upon written or oral request, a copy of any or all of the documents that are incorporated by reference into this prospectus supplement and the accompanying prospectus and a copy of any or all other contracts or documents which are referred to in this prospectus supplement or the accompanying prospectus. Requests should be directed to: M. Shane Bell, First National Corporation, 112 West King Street, Strasburg, Virginia 22657, telephone (540) 465-9121.

Table of Contents

SUMMARY

This summary highlights selected information contained elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus and may not contain all the information that you need to consider in making your investment decision to purchase the Preferred Shares. You should carefully read this entire prospectus supplement and the accompanying prospectus, as well as the information incorporated by reference herein and therein, before deciding whether to invest in the Preferred Shares. You should carefully consider the sections entitled Risk Factors in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein to determine whether an investment in the Preferred Shares is appropriate for you.

The Company

Overview

We are a bank holding company headquartered in Strasburg, Virginia. Through our wholly-owned bank subsidiary, First Bank, we provide loan, deposit, investment, trust and asset management and other products and services in the northern Shenandoah Valley region of Virginia. Loan products and services include personal loans, residential mortgages, home equity loans and commercial loans. Deposit products and services include checking, savings, NOW accounts, money market accounts, IRA accounts, certificates of deposit, and cash management accounts. We also offer Internet banking, mobile banking, remote deposit capture and other traditional banking services.

Through our Trust and Asset Management Department, we offer a variety of trust and asset management services including estate planning, investment management of assets, trustee under an agreement, trustee under a will, individual retirement accounts, estate settlement and benefit plans. We offer financial planning and brokerage services for our customers through our investment division, First Financial Advisors.

Our products and services are provided through 10 branch offices, 26 ATMs and our website, www.fbvirginia.com. We operate six of our offices under the Financial Center concept. A Financial Center offers all of the Bank's financial services at one location. This concept allows loan, deposit, trust and investment advisory personnel to be readily available to serve customers throughout the Bank's market area.

Market Area

Our primary market area is located within an hour commute of the Washington, D.C. Metropolitan Area. The Bank's office locations are well-positioned in strong markets along the Interstate 81 and Interstate 66 corridors in the northern Shenandoah Valley region of Virginia, which include the City of Winchester, Frederick County, Warren County and Shenandoah County. Within the market area there are various types of industry including medical and professional services, manufacturing, retail and higher education. Customers include individuals, small and medium-sized businesses, local governmental entities and non-profit organizations.

According to Federal Deposit Insurance Corporation (FDIC) deposit data as of June 30, 2011, we were ranked first in Shenandoah County with \$228.6 million in deposits, representing 30% of the total deposit market; third in Warren County with \$60.1 million or 12% of the market; fourth in Frederick County with \$80.3 million or 15% of the market; and fifth in the City of Winchester with \$107.6 million or 8% of the market. We were ranked second overall in our market area with 15% of the total deposit market.

Recent Developments

On June 29, 2012, we completed the sale of 1,945,815 shares of common stock through a rights offering to existing shareholders and to certain standby investors. In the rights offering, our existing shareholders exercised

Table of Contents

subscription rights to purchase 1,520,815 shares at a subscription price of \$4.00 per share. In conjunction with the rights offering, we entered into standby purchase agreements with certain standby purchasers, pursuant to which they purchased an additional 425,000 shares at the same price of \$4.00 per share. In total, the Company raised net proceeds of \$7.6 million after expenses.

Corporate Information

Our principal executive offices are located at 112 West King Street, Strasburg, Virginia 22657 and our telephone number is (540) 465-9121. We maintain a website at www.fbvirginia.com, which contains information relating to us. Unless specifically incorporated by reference, information on our website is not a part of this prospectus.

The Offering

The following summary contains basic information about the Preferred Shares and the auction process and is not intended to be complete and does not contain all the information that is important to you. For a more complete understanding of the Preferred Shares and the auction process, you should read the sections of this prospectus supplement entitled **Description of Preferred Shares** and **Auction Process** and any similar sections in the accompanying prospectus.

Issuer

First National Corporation

Preferred Shares Offered by Treasury

13,900 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series A, \$1.25 par value per share.

695 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series B, \$1.25 par value per share.

The Series A Preferred Stock and Series B Preferred Stock will be auctioned and priced separately.

The number of shares of each Series to be sold will depend on the number of bids received in the auction described below and whether Treasury decides to sell any such shares in the auction process. See the section entitled **Auction Process** in this prospectus supplement.

Liquidation Preference

If we liquidate, dissolve or wind up (collectively, a **liquidation**), holders of the Preferred Shares will have the right to receive \$1,000 per share, plus any accrued and unpaid dividends (including dividends accrued on any unpaid dividends) to, but not including, the date of payment, before any payments are made to holders of our common stock or any other capital stock that ranks, by its terms, junior as to rights upon liquidation to the Preferred Shares.

Dividends

Dividends on the Preferred Shares are payable quarterly in arrears on each February 15, May 15, August 15 and November 15. The initial dividend rate on the Series A Preferred Shares is 5% per annum through May 14, 2014, and will increase to 9% per annum on and after May 15, 2014 if not otherwise redeemed earlier for cash by us. The dividend rate on the Series B Preferred Shares is 9% per annum. We currently must inform and consult with our regulators prior to

S-2

Table of Contents

paying any dividends on the Preferred Shares. As of the date of this prospectus supplement, we have paid in full all of our quarterly dividend obligations on the Preferred Shares. Holders of Preferred Shares sold by Treasury in the auction, if any, that are record holders on the record date for the November 15, 2012 dividend payment date will be entitled to any declared dividends payable on such date.

Maturity

The Preferred Shares have no maturity date.

Rank

The Preferred Shares rank (i) senior to common stock or any other capital stock that ranks, by its terms, junior as to dividend rights and/or rights upon liquidation to the Preferred Shares (collectively, the Junior Stock), (ii) equally with any shares of our capital stock whose terms do not expressly provide that such class or series will rank senior or junior to the Preferred Shares as to dividend rights and/or rights upon liquidation (collectively, the Parity Stock) and (iii) junior to all of our existing and future indebtedness and any future senior securities, in each case as to dividend rights and/or rights upon liquidation.

Priority of Dividends

So long as any of the Preferred Shares remain outstanding, we may not declare or pay a dividend or other distribution on our common stock or any other shares of Junior Stock (other than dividends payable solely in common stock) or Parity Stock (other than dividends paid on a pro rata basis with the Preferred Shares), and we generally may not directly or indirectly purchase, redeem or otherwise acquire any shares of common stock, Junior Stock or Parity Stock unless all accrued and unpaid dividends on the Preferred Shares for all past dividend periods are paid in full.

Redemption

We may redeem the Preferred Shares, at any time, in whole or in part, at our option, subject to prior approval by the appropriate federal banking agency, for a redemption price equal to 100% of the liquidation preference amount per Preferred Share plus any accrued and unpaid dividends (including dividends accrued on any unpaid dividends) to but excluding the date of redemption, provided that we must redeem, repurchase or otherwise acquire all of the Series A Preferred Shares before any of the Series B Preferred Shares are redeemed. We intend to redeem or repurchase Preferred Shares in such amounts and at such times as we deem prudent, although we have no present plans to redeem, in whole or in part, the Series A Preferred Shares before May 15, 2014, when the dividend rate is scheduled to increase on such shares. Our ability to redeem the Preferred Shares will depend on then-present facts and circumstances and the amount of capital we hold or can raise at the holding company level. In order for our regulators to approve the redemption of the Preferred Shares, we would expect our regulators to consider our financial condition and regulatory capital levels, after giving effect to the redemption of the Preferred Shares so approved.

Table of Contents

Voting Rights

Holders of the Preferred Shares generally have no voting rights. However, if we do not pay dividends on the Preferred Shares for six or more quarterly periods, whether or not consecutive, the holders of the Preferred Shares, voting as a single class with the holders of any other Parity Stock upon which like voting rights have been conferred and are exercisable, will be entitled to vote for the election of two additional directors to serve on our board of directors until all accrued and unpaid dividends (including dividends accrued on any unpaid dividends) on the Preferred Shares for all past dividend periods are paid in full. There is no limit on the number of nominations and a plurality of eligible voters would determine the election of the two new directors.

In addition, the affirmative vote of the holders of at least 66-2/3% of the outstanding Preferred Shares is required for us to authorize, create or increase the authorized number of shares of our capital stock ranking, as to dividends or amounts payable upon liquidation, senior to the Preferred Shares, to amend, alter or repeal any provision of our charter or the Certificate of Designations for the Preferred Shares in a manner that adversely affects the rights of the holders of the Preferred Shares or to consummate a binding share exchange or reclassification of the Preferred Shares or a merger or consolidation of us with another entity unless (x) the Preferred Shares remain outstanding or are converted into or exchanged for preference shares of the surviving entity or its ultimate parent and (y) the Preferred Shares remain outstanding or such preference shares have such terms that are not materially less favorable, taken as a whole, than the rights of the Preferred Shares immediately prior to such transaction, taken as a whole.

Auction Process

The Series A Preferred Shares and Series B Preferred Shares will be auctioned and priced separately. The auction procedures described herein are the same for each Series. Prospective purchasers may bid for Series A Preferred Shares, Series B Preferred Shares or both. The public offering price and the allocation of the Preferred Shares in this offering will be determined through an auction process conducted by Merrill Lynch, Pierce, Fenner & Smith Incorporated and Sandler O'Neill & Partners, L.P., the joint book-running managers in this offering, in their capacity as the auction agents. The auction process will entail a modified Dutch auction mechanic in which bids may be submitted through the auction agents or one of the other brokers that is a member of the broker network, which are collectively referred to in this prospectus supplement as the network brokers, established in connection with the auction process. Each broker will make suitability determinations with respect to its own customers wishing to participate in the auction process. The auction agents will not provide bidders with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction process. We encourage you to discuss any questions regarding the bidding process and suitability determinations applicable to your bids with your broker. We do not intend to submit any bids in the auction.

Table of Contents

For more information about the auction process, see **Auction Process** in this prospectus supplement.

Minimum Bid Size and Price Increments

This offering is being conducted using an auction process in which prospective purchasers are required to bid for the Preferred Shares. Prospective purchasers may bid for Series A Preferred Shares, Series B Preferred Shares or both. During the auction period, bids may be placed for Preferred Shares at any price at or above the minimum bid price of \$817.00 per share for the Series A Preferred Shares (such bid price to be in increments of \$0.01) and \$862.00 per share for the Series B Preferred Shares (such bid price to be in increments of \$0.01) with a minimum bid size of one Preferred Share. See **Auction Process** in this prospectus supplement.

Bid Submission Deadline

The auction will commence at 10:00 a.m., New York City time, on the date specified in a press release issued on such day, and will close at 6:30 p.m., New York City time, on the second business day immediately thereafter, which is referred to as the **submission deadline**. Network brokers and other brokers will impose earlier submission deadlines than those imposed by the auction agents. Please see page S-36 of this prospectus supplement for more information regarding the bid submission deadline.

Irrevocability of Bids

Bids that have not been modified or withdrawn by the time of the submission deadline are final and irrevocable, and bidders who submit bids that are accepted by Treasury will be obligated to purchase the Preferred Shares allocated to them. The auction agents are under no obligation to reconfirm bids for any reason, except as may be required by applicable securities laws; however, the auction agents, in their sole discretion, may require that bidders confirm their bids before the auction process closes. See **Auction Process** in this prospectus supplement.

Clearing Price

The price at which the Series A Preferred Shares will be sold to the public will be the clearing price for such Series (the **Series A Clearing Price**) plus accrued dividends thereon. The Series A Clearing Price will be determined as follows:

If valid, irrevocable bids are received for 100% or more of the offered Series A Preferred Shares at the submission deadline, the Series A Clearing Price will be equal to the highest price at which all of the offered Series A Preferred Shares can be sold in the auction;

If valid, irrevocable bids are received for at least half, but less than all, of the offered Series A Preferred Shares at the time of the submission deadline, the Series A Clearing Price will be equal to the minimum bid price of \$817.00 per share for the Series A Preferred Shares.

Even if bids are received for at least half of the offered Series A Preferred Shares, Treasury may decide not to sell any Series A

Table of Contents

Preferred Shares in the auction process or, in the case where bids are received for at least half, but less than all, of the Series A Preferred Shares, may decide only to sell a portion (but not less than half) of the offered Series A Preferred Shares in the auction process. If Treasury decides to sell Series A Preferred Shares in the auction, after Treasury confirms its acceptance of the Series A Clearing Price and the number of Series A Preferred Shares to be sold, the auction agents and each network broker that has submitted a successful bid will notify successful bidders that the auction has closed and that their bids have been accepted by Treasury (subject, in some cases, to pro-ration, as described below). The Series A Clearing Price and number of Series A Preferred Shares to be sold are also expected to be announced by press release on the business day following the end of the auction. See **Auction Process** in this prospectus supplement.

The price at which the Series B Preferred Shares will be sold to the public will be the clearing price for such Series (the **Series B Clearing Price**) plus accrued dividends thereon. The Series B Clearing Price will be determined as follows:

If valid, irrevocable bids are received for 100% or more of the offered Series B Preferred Shares at the submission deadline, the Series B Clearing Price will be equal to the highest price at which all of the offered Series B Preferred Shares can be sold in the auction;

If valid, irrevocable bids are received for at least half, but less than all, of the offered Series B Preferred Shares at the time of the submission deadline, the Series B Clearing Price will be equal to the minimum bid price of \$862.00 per share for the Series B Preferred Shares.

Even if bids are received for at least half of the offered Series B Preferred Shares, Treasury may decide not to sell any Series B Preferred Shares in the auction process or, in the case where bids are received for at least half, but less than all, of the Series B Preferred Shares, may decide only to sell a portion (but not less than half) of the offered Series B Preferred Shares in the auction process. If Treasury decides to sell Series B Preferred Shares in the auction, after Treasury confirms its acceptance of the Series B Clearing Price and the number of Series B Preferred Shares to be sold, the auction agents and each network broker that has submitted a successful bid will notify successful bidders that the auction has closed and that their bids have been accepted by Treasury (subject, in some cases, to pro-ration, as described below). The Series B Clearing Price and number of Series B Preferred Shares to be sold are also expected to be announced by press release on the business day following the end of the auction. See **Auction Process** in this prospectus supplement.

Number of Preferred Shares to be Sold

If bids are received for 100% or more of the offered Series A Preferred Shares, Treasury must sell all of the offered Series A

Table of Contents

Preferred Shares if it chooses to sell any Series A Preferred Shares. If bids are received for at least half, but less than all, of the offered Series A Preferred Shares, then Treasury may, but is not required to, sell at the minimum bid price for such Series in the auction (which will be deemed to be the Series A Clearing Price) the number of Series A Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series A Preferred Shares are sold. If bids are received for less than half of the offered Series A Preferred Shares, Treasury will not sell any Series A Preferred Shares in this offering. Even if bids are received for at least half of the offered Series A Preferred Shares, Treasury may decide not to sell any Series A Preferred Shares or, in the case where bids are received for at least half, but less than all, of the offered Series A Preferred Shares, may decide only to sell a portion (but not less than half) of the offered Series A Preferred Shares in the auction process. If Treasury elects to sell any Series A Preferred Shares in the auction, Treasury must sell those shares at the Series A Clearing Price plus accrued dividends thereon. In no event will Treasury sell more Series A Preferred Shares than the number of Series A Preferred Shares for which there are bids. See Auction Process in this prospectus supplement.

If bids are received for 100% or more of the offered Series B Preferred Shares, Treasury must sell all of the offered Series B Preferred Shares if it chooses to sell any Series B Preferred Shares. If bids are received for at least half, but less than all, of the offered Series B Preferred Shares, then Treasury may, but is not required to, sell at the minimum bid price for such Series in the auction (which will be deemed to be the Series B Clearing Price) the number of Series B Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series B Preferred Shares are sold. If bids are received for less than half of the offered Series B Preferred Shares, Treasury will not sell any Series B Preferred Shares in this offering. Even if bids are received for at least half of the offered Series B Preferred Shares, Treasury may decide not to sell any Series B Preferred Shares or, in the case where bids are received for at least half, but less than all, of the offered Series B Preferred Shares, may decide only to sell a portion (but not less than half) of the offered Series B Preferred Shares in the auction process. If Treasury elects to sell any Series B Preferred Shares in the auction, Treasury must sell those shares at the Series B Clearing Price plus accrued dividends thereon. In no event will Treasury sell more Series B Preferred Shares than the number of Series B Preferred Shares for which there are bids. See Auction Process in this prospectus supplement.

Table of Contents

Allocation; Pro-Ration

If bids for 100% or more of the offered Series A Preferred Shares are received and Treasury elects to sell Series A Preferred Shares in the offering, then any accepted bids submitted in the auction above the Series A Clearing Price will receive allocations in full, while any accepted bids submitted at the Series A Clearing Price may experience pro-rata allocation. If bids for at least half, but less than all, of the offered Series A Preferred Shares are received, and Treasury chooses to sell fewer Series A Preferred Shares than the number of Series A Preferred Shares for which bids were received, then all bids will experience equal pro-rata allocation. See [Auction Process](#) in this prospectus supplement.

If bids for 100% or more of the offered Series B Preferred Shares are received and Treasury elects to sell Series B Preferred Shares in the offering, then any accepted bids submitted in the auction above the Series B Clearing Price will receive allocations in full, while any accepted bids submitted at the Series B Clearing Price may experience pro-rata allocation. If bids for at least half, but less than all, of the offered Series B Preferred Shares are received, and Treasury chooses to sell fewer Series B Preferred Shares than the number of Series B Preferred Shares for which bids were received, then all bids will experience equal pro-rata allocation. See [Auction Process](#) in this prospectus supplement.

Use of Proceeds

We will not receive any proceeds from the sale of any Preferred Shares sold by Treasury. See [Use of Proceeds](#).

Listing

The Preferred Shares will not be listed for trading on any stock exchange nor will they be available for quotation on any national quotation system.

Risk Factors

See [Risk Factors](#) and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus for a discussion of factors you should consider carefully before making a decision to invest in the Preferred Shares.

Auction Agents

Merrill Lynch, Pierce, Fenner & Smith Incorporated and Sandler O'Neill & Partners, L.P.

Network Brokers

See page S-35 for a list of brokers participating as network brokers in the auction process.

Table of Contents**Summary Consolidated Financial Data**

The following tables present our selected consolidated financial data as of or for the six months ended June 30, 2012 and 2011 and as of and for each of the five years ended December 31, 2007 through 2011. The information as of or for the years ended December 31, 2007 through 2011 is derived in part from, and should be read together with, our audited consolidated financial statements and notes thereto incorporated by reference herein. The information as of or for the six months ended June 30, 2012 and 2011 is from our unaudited consolidated financial statements and notes thereto which are incorporated by reference herein. In the opinion of our management, however, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of the results of operations for the unaudited periods have been made. The operating data for the six months ended June 30, 2012 are not necessarily indicative of the results that might be realized for the year ending December 31, 2012.

	Six Months Ended June 30,		Years Ended December 31,				
	2012	2011	2011	2010	2009	2008	2007

(1) The efficiency ratio is computed by dividing noninterest expense excluding the provision for other real estate owned and gains and losses on other real estate owned by the sum of net interest income on a tax equivalent basis and non-interest income excluding securities and premises and equipment gains and losses. This is a non-GAAP financial measure that the Company believes provides investors with important information regarding operational efficiency. Such information is not prepared in accordance with U.S. generally accepted accounting principles (GAAP) and should not be construed as such. Noninterest expense excluding the provision for other real estate owned and gains and losses on other real estate owned was \$9,019 and \$8,887 for the six months ended June 30, 2012 and 2011, respectively, and \$18,275, \$17,902, \$17,709, \$16,014, and \$15,286 for 2011, 2010, 2009, 2008 and 2007, respectively. Net interest income on a tax equivalent basis was \$9,979 and \$10,170 for the six months ended June 30, 2012 and 2011, respectively, and \$20,496, \$20,723, \$18,668, \$18,442, and \$18,391 for 2011, 2010, 2009, 2008 and 2007, respectively. Non-interest income excluding securities and premises and equipment gains and losses was \$2,858 and \$2,784 for the six months ended June 30, 2012 and 2011, respectively, and \$5,740, \$6,089, \$5,558, \$6,055, and \$5,812 for 2011, 2010, 2009, 2008 and 2007, respectively. Management believes such financial information is meaningful to the reader in understanding operating performance, but cautions that such information not be viewed as a substitute for GAAP. The Company, in referring to its net income, is referring to income under generally accepted accounting principles, or GAAP. See Non-GAAP Financial Measures included in Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Table of Contents

RISK FACTORS

An investment in our Preferred Shares is subject to risks inherent in our business, risks relating to the structure of the Preferred Shares and risks relating to the auction process being conducted as part of this offering. The material risks and uncertainties that management believes affect your investment in the Preferred Shares are described below and in the sections entitled "Risk Factors" in the accompanying prospectus and our Annual Report on Form 10-K for the year ended December 31, 2011 incorporated by reference herein. Before making an investment decision, you should carefully consider the risks and uncertainties described below and in the accompanying prospectus and information included or incorporated by reference in this prospectus supplement and the accompanying prospectus. If any of these risks or uncertainties are realized, our business, financial condition, capital levels, cash flows, liquidity, results of operations and prospects, as well as our ability to pay dividends on the Preferred Shares, could be materially and adversely affected and the market price of the Preferred Shares could decline significantly and you could lose some or all of your investment.

Risk Factors Related to our Business

We may be further adversely affected by economic conditions in our market area.

We are headquartered in the northern Shenandoah Valley region of Virginia. Because our lending is concentrated in this market, we are affected by the general economic conditions in the region. Changes in the economy may influence the growth rate of loans and deposits, the quality of the loan portfolio and loan and deposit pricing. A continued decline in general economic conditions caused by inflation, recession, unemployment or other factors beyond our control would further impact these local economic conditions and the demand for banking products and services generally, which could negatively affect our performance and financial condition.

Deteriorating credit quality, particularly in real estate loans, has adversely impacted us and may continue to adversely impact us.

During 2008, we began to experience a downturn in the overall credit performance of the loan portfolio, as well as acceleration in the deterioration of general economic conditions. This deterioration, including a significant increase in national and regional unemployment levels, is negatively impacting some borrowers' ability to repay. During the year ended December 31, 2008, these conditions resulted in a \$13.9 million increase in non-performing assets and loans over 90 days past due to \$16.2 million. At December 31, 2011, 2010 and 2009, non-performing assets and loans over 90 days past due remained at elevated levels, totaling \$18.7 million, \$15.4 million and \$14.8 million, respectively. The provision for loan losses totaled \$12.4 million, \$11.7 million and \$2.3 million for the years ended December 31, 2011, 2010 and 2009, respectively. Non-performing assets and loans over 90 days past due and still accruing interest totaled \$17.2 million at June 30, 2012 and the provision for loan losses totaled \$2.7 million for the six months ended June 30, 2012. Additional increases in loan loss reserves may be necessary in the future. Continued deterioration in the quality of the loan portfolio can have a material adverse effect on earnings, liquidity and capital.

We will realize additional future losses if our levels of non-performing assets do not moderate and if the proceeds we receive upon liquidation of assets are less than the carrying value of such assets.

We expect to continue to focus on reducing non-performing asset levels during 2012 by selling other real estate owned (OREO) and restructuring our problem loans and potential problem loans. Other potential problem loans are defined as performing loans that possess certain risks, including the borrower's ability to pay and the collateral value securing the loan, that management has identified that may result in the loans not being repaid in accordance with their terms. At June 30, 2012, other potential problem loans totaled \$53.4 million. Among our potential problem loans are several large credit relationships. Consequently, an adverse development with respect to one of these loans or credit relationships could expose us to a significant increase in nonperforming assets.

Table of Contents

The actual volume of future distressed asset sales could increase based on regulatory directives, the level of migration of performing loans to problem loan status, as well as opportunities to sell such assets, thus resulting in higher credit costs. The continuing weakness in the residential and commercial real estate markets may negatively impact the ability to dispose of distressed assets, and may result in higher credit losses on sales of distressed assets. Non-performing assets are recorded on the financial statements at the estimated fair value, which considers management's plans for disposition. We will realize additional future losses if the proceeds received upon dispositions of assets are less than the recorded carrying value of such assets. If market conditions continue to decline, the magnitude of losses realized upon the disposition of non-performing assets may increase, which could materially adversely affect our business, financial condition and results of operations.

Further increases in non-performing assets may reduce interest income and increase net loan charge-offs, provision for loan losses, and operating expenses.

As a result of the prolonged economic downturn, we are experiencing historically high levels of non-accrual loans. Non-accrual loans increased from 1.87% at December 31, 2009 to 2.49% and 3.02% of total loans at December 31, 2010 and 2011, respectively. Non-accrual loans totaled 2.77% of total loans at June 30, 2012. Until economic and market conditions improve at a more rapid pace, we expect to incur charge-offs to the allowance for loan losses and lost interest income relating to increased non-performing loans and, as a result, additional increases in loan loss reserves may be necessary in the future. Non-performing assets (including non-accrual loans and other real estate owned) totaled \$16.0 million at June 30, 2012. These non-performing assets can adversely affect net income mainly through increased operating expenses incurred to maintain such assets or loss charges related to subsequent declines in the estimated fair value of foreclosed assets. Adverse changes in the value of our non-performing assets, or the underlying collateral, or in the borrowers' performance or financial conditions could adversely affect our business, results of operations and financial condition. There can be no assurance that we will not experience further increases in non-performing loans in the future, or that non-performing assets will not result in lower financial returns in the future.

If our allowance for loan losses becomes inadequate, results of operations may be adversely affected.

We maintain an allowance for loan losses that we believe is a reasonable estimate of known and inherent losses in the Bank's loan portfolio. Through a quarterly review of the loan portfolio, management determines the amount of the allowance for loan losses by considering economic conditions, credit quality of the loan portfolio, collateral supporting the loans, performance of customers relative to their financial obligations and the quality of the Bank's loan administration. The amount of future losses is susceptible to changes in economic, operating and other conditions, including changes in interest rates that may be beyond our control, and these losses may exceed current estimates. Although we believe the allowance for loan losses is a reasonable estimate of known and inherent losses in the loan portfolio, such losses and the adequacy of the allowance for loan losses cannot be fully predicted. Excessive loan losses could have a material impact on financial performance through additions to the allowance for loan losses.

Federal and state regulators periodically review the allowance for loan losses and may require an increase to the provision for loan losses or recognition of further loan charge-offs, based on judgments different than those of management. Any increase in the amount of provision or loans charged-off as required by these regulatory agencies could have a negative effect on operating results.

If our valuation allowance on OREO becomes inadequate, results of operations may be adversely affected.

We maintain a valuation allowance that we believe is a reasonable estimate of known losses in OREO. We obtain appraisals on all OREO properties on an annual basis and adjust the valuation allowance accordingly. The carrying value of OREO is susceptible to changes in economic and real estate market conditions. Although we

Table of Contents

believe the valuation allowance is a reasonable estimate of known losses, such losses and the adequacy of the allowance cannot be fully predicted. Excessive declines in market values could have a material impact on financial performance.

Our concentrations of loans could result in higher than normal risk of loan defaults and losses.

We offer a variety of secured loans, including commercial lines of credit, commercial term loans, real estate, construction and land development, home equity, consumer and other loans. The majority of the loans are secured by real estate (both residential and commercial) in the market area. At June 30, 2012, these loans totaled \$350.3 million, or 91%, of total loans. A major change in the real estate market, such as further deterioration in the value of this collateral, or in the local or national economy, could adversely affect customers' ability to pay these loans, which in turn could impact us. Risk of loan defaults and foreclosures are unavoidable in the banking industry, and we try to limit exposure to this risk by monitoring extensions of credit carefully. We cannot fully eliminate credit risk, and as a result credit losses may occur in the future.

We rely on secondary sources, such as Federal Home Loan Bank advances, sales of securities and loans, federal funds lines of credit from correspondent banks and out-of-market time deposits, to meet liquidity needs.

In managing our consolidated balance sheet, we depend on secondary sources to provide sufficient liquidity to meet our commitments and business needs, and to accommodate the transaction and cash management needs of clients. Other sources of funding available to us, and upon which we rely as regular components of our liquidity risk management strategy, include federal funds lines of credit, sales of securities and loans, brokered deposits and borrowings from the Federal Home Loan Bank system. The availability of these funding sources is highly dependent upon the perception of the liquidity and creditworthiness of the financial institution, and such perception can change quickly in response to market conditions or circumstances unique to a particular company. Any occurrence that may limit our access to these sources, such as a decline in the confidence of debt purchasers, or our depositors or counterparties, may adversely affect our liquidity, financial position, and results of operations.

If we need additional capital in the future, we may not be able to obtain it on terms that are favorable. This could negatively affect our performance.

We anticipate that we will have sufficient capital to support asset growth and potential loan charge-offs. However, additional capital may be needed in the future to maintain capital levels. The ability to raise capital through the sale of additional securities will depend primarily upon our financial condition and the condition of financial markets at that time. We may not be able to obtain additional capital in amounts or on terms that are satisfactory. Our ability to grow our balance sheet may be constrained if we are unable to raise additional capital as needed.

Changes in interest rates may negatively impact net interest income if we are unable to successfully manage interest rate risk.

Our profitability will depend substantially upon the spread between the interest rates earned on investments and loans and interest rates paid on deposits and other interest-bearing liabilities. Changes in interest rates, including the shape of the treasury yield curve, will affect our financial performance and condition through the pricing of securities, loans, deposits and borrowings. We attempt to minimize exposure to interest rate risk, but will be unable to eliminate it. Our net interest spread will depend on many factors that are partly or entirely outside of our control, including competition, federal economic, monetary and fiscal policies and general economic conditions.

Table of Contents

Our small-to-medium sized business target market may have fewer financial resources to weather a downturn in the economy.

We target our commercial development and marketing strategy primarily to serve the banking and financial services needs of small and medium sized businesses. These businesses generally have less capital or borrowing capacity than larger entities. If general economic conditions negatively impact this major economic sector in the markets in which we operate, our results of operations and financial condition may be adversely affected.

Difficult market conditions have adversely affected our industry.

Dramatic declines in the housing market over the past three years, with falling home prices and increasing foreclosures and unemployment, have negatively impacted the credit performance of real estate related loans and resulted in significant write-downs of asset values by financial institutions. These write-downs, initially of mortgage-backed securities (MBS) but spreading to other securities and loans has caused many financial institutions to seek additional capital, to reduce or eliminate dividends, to merge with larger and stronger institutions and, in some cases, to fail. Reflecting concern about the stability of the financial markets generally and the strength of counterparties, many lenders and institutional investors have reduced or ceased providing funding to borrowers, including to other financial institutions. This market turmoil and tightening of credit have led to an increased level of commercial and consumer delinquencies, lack of consumer confidence, increased market volatility and widespread reduction of business activity generally. The resulting economic pressure on consumers and lack of confidence in the financial markets has adversely affected our business, financial condition and results of operations. Market developments may affect consumer confidence levels and may cause adverse changes in payment patterns, causing increases in delinquencies and default rates, which may impact charge-offs and the provision for loan losses. A worsening of these conditions would likely have an adverse effect on us and others in the financial services industry.

The soundness of other financial institutions could adversely affect us.

Our ability to engage in routine funding transactions could be adversely affected by the actions and commercial soundness of other financial institutions. Financial services institutions are interrelated as a result of trading, clearing, counterparty, or other relationships. As a result, defaults by, or even rumors or questions about, one or more financial services institutions, or the financial services industry generally, may lead to market-wide liquidity problems and to losses or defaults by us or by other institutions. Many of these transactions expose us to credit risk in the event of default of its counterparty or client. There is no assurance that any such losses would not materially and adversely affect our results of operations.

We rely heavily on our management team and the unexpected loss of any of those personnel could adversely affect our operations; we depend on our ability to attract and retain key personnel.

Our future operating results depend substantially upon the continued service of its executive officers and key personnel. Our future operating results also depend in significant part upon our ability to attract and retain qualified management, financial, technical, marketing, sales and support personnel. Competition for qualified personnel is intense, and we cannot ensure success in attracting or retaining qualified personnel. There may be only a limited number of persons with the requisite skills to serve in these positions, and it may be increasingly difficult for us to hire personnel over time.

Our ability to retain key officers and employees may be further impacted by legislation and regulation affecting the financial services industry. For example, certain executive compensation restrictions apply to us as a result of our participation in the CPP and shall generally continue to apply for as long as any Preferred Shares are owned by Treasury. Such restrictions and standards may further impact management's ability to compete with financial institutions that are not subject to the same limitations as us as a result of the CPP.

Table of Contents

Our compensation expense may increase substantially after Treasury's sale of the Preferred Shares.

As a result of our participation in the CPP, among other things, we are subject to Treasury's current standards for executive compensation and corporate governance for the period during which Treasury holds any of our Preferred Shares. These standards were most recently set forth in the Interim Final Rule on TARP Standards for Compensation and Corporate Governance, published June 15, 2009. If the auction is successful and Treasury elects to sell all of the Preferred Shares, these executive compensation and corporate governance standards will no longer be applicable and our compensation expense for our executive officers and other senior employees may increase substantially.

Future success is dependent on the ability to compete effectively in the highly competitive banking industry.

We face vigorous competition from other financial institutions, including other commercial banks, savings and loan associations, savings banks, finance companies and credit unions for deposits, loans and other financial services in its market area. A number of these other financial institutions are significantly larger than us and have substantially greater access to capital and other resources, as well as larger lending limits and branch systems, and offer a wider array of banking services. To a limited extent we also compete with other providers of financial services, such as money market mutual funds, brokerage firms, insurance companies and governmental organizations which may offer more favorable products and services than us. Many of the non-bank competitors are not subject to the same extensive regulations that govern us. As a result, the non-bank competitors have advantages over us in providing certain services. This competition may reduce or limit profit margins and market share and may adversely affect the results of operations and financial condition.

Regulation by federal and state agencies could adversely affect the profitability of the business.

We are heavily regulated by federal and state agencies. This regulation is to protect depositors, the federal deposit insurance fund and the banking system as a whole. Congress and state legislatures and federal and state regulatory agencies continually review banking laws, regulations, and policies for possible changes. Changes to statutes, regulations, or regulatory policies, including interpretation or implementation of statutes, regulations, or policies, could affect us adversely, including limiting the types of financial services and products we may offer and/or increasing the ability of non-banks to offer competing financial services and products. If we do not comply with laws, regulations, or policies, we could receive regulatory sanctions and damage to our reputation.

Government measures to regulate the financial industry, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), subject us to increased regulation and could adversely affect us.

As a financial institution, we are heavily regulated at the state and federal levels. As a result of the financial crisis and related global economic downturn that began in 2007, we have faced, and expect to continue to face, increased public and legislative scrutiny as well as stricter and more comprehensive regulation of our financial services practices. In July 2010, the Dodd-Frank Act was signed into law. The Dodd-Frank Act includes significant changes in the financial regulatory landscape and will impact all financial institutions, including the Company and the Bank. Many of the provisions of the Dodd-Frank Act have begun to be or will be implemented over the next several months and years and will be subject both to further rulemaking and the discretion of applicable regulatory bodies. Because the ultimate impact of the Dodd-Frank Act will depend on future regulatory rulemaking and interpretation, we cannot predict the full effect of this legislation on our businesses, financial condition or results of operations.

In December 2010, the Basel Committee on Banking Supervision, an international forum for cooperation on banking supervisory matters, announced the Basel III capital rules, which set new capital requirements for banking organizations. On June 7, 2012, the Federal Reserve Board requested comment on three proposed rules that, taken together, would establish an integrated regulatory capital framework implementing the Basel III

Table of Contents

regulatory capital reforms in the United States. As proposed, the U.S. implementation of Basel III would lead to significantly higher capital requirements and more restrictive leverage and liquidity ratios than those currently in place. Once adopted, these new capital requirements would be phased in over time. Additionally, the U.S. implementation of Basel III contemplates that, for banking organizations with less than \$15 billion in assets, the ability to treat trust preferred securities as tier 1 capital would be phased out over a ten-year period. The ultimate impact of the U.S. implementation of the new capital and liquidity standards on the Company and the Bank is currently being reviewed. At this point we cannot determine the ultimate effect that any final regulations, if enacted, would have upon our earnings or financial position. In addition, important questions remain as to how the numerous capital and liquidity mandates of the Dodd-Frank Act will be integrated with the requirements of Basel III.

Recently enacted legislation could allow us to deregister under the Exchange Act, which would result in a reduction in the amount and frequency of publicly-available information about us.

Recently enacted legislation called the Jumpstart Our Business Startups Act (or JOBS Act) may allow us to terminate the registration of our common stock under the Exchange Act. If we determined to deregister our common stock under the Exchange Act, it would enable us to save significant expenses relating to our public disclosure and reporting requirements under the Exchange Act. However, a deregistration of our common stock also would result in a reduction in the amount and frequency of publicly-available information about the Company and the Bank.

Changes in our accounting policies or in accounting standards could materially affect how we report financial results and condition.

From time to time, the Financial Accounting Standards Board (FASB) and SEC change the financial accounting and reporting standards that govern the preparation of our financial statements. These changes can be hard to predict and can materially impact how we record and report our financial condition and results of operations. In some cases, we could be required to apply a new or revised standard retroactively, resulting in restating prior period financial statements.

Our ability to operate profitably may be dependent on our ability to implement various technologies into our operations.

The market for financial services, including banking service and consumer finance services is increasingly affected by advances in technology, including developments in telecommunications, data processing, computers, automation, internet-based banking and tele-banking. Our ability to compete successfully in its market may depend on the extent to which we are able to exploit such technological changes. If we are not able to afford such technologies, properly or timely anticipate or implement such technologies, or properly train its staff to use such technologies, our business, financial condition or operating results could be adversely affected.

Our operations depend upon third party vendors that perform services for us.

We outsource many of our operating and banking functions, including some data processing functions and the interchange and transmission services for the ATM network. As such, our success and ability to expand operations depends on the services provided by these third parties. Disputes with these third parties may adversely affect operations. We may not be able to engage appropriate vendors to adequately service our needs, and the vendors that we engage may not be able to perform successfully.

Negative public opinion could damage our reputation and adversely impact liquidity and profitability.

As a financial institution, our earnings, liquidity, and capital are subject to risks associated with negative public opinion of us and of the financial services industry as a whole. Negative public opinion could result from our actual or alleged conduct in any number of activities, including lending practices, the failure of any product

Table of Contents

or service sold by us to meet our clients' expectations or applicable regulatory requirements, corporate governance and acquisitions, or from actions taken by government regulators and community organizations in response to those activities. Negative public opinion can adversely affect our ability to keep, attract and/or retain customers and can expose us to litigation and regulatory action. Actual or alleged conduct by one of our businesses can result in negative public opinion about our other businesses. Negative public opinion could also affect our ability to borrow funds in the unsecured wholesale debt markets.

Potential future losses may result in an additional valuation allowance for deferred tax assets. Recapture of the deferred tax asset balance (i.e., reversal of the valuation allowance) is subject to considerable judgment and could be adversely impacted by changes in future income tax rates.

During 2011, we reached a three-year cumulative pre-tax loss position. Under GAAP, cumulative losses in recent years are considered significant negative evidence which is difficult to overcome in assessing the realizability of a deferred tax asset. As a result, beginning with the fourth quarter of 2011, we no longer consider future taxable income in determining the realizability of its deferred tax assets. At June 30, 2012, we had recorded a full valuation allowance of \$6.5 million on its net deferred tax assets.

We expect to reverse the valuation allowance for deferred tax assets once it has demonstrated a sustainable return to profitability. However, the reversal of the valuation allowance is subject to considerable judgment. Additionally, even after the recovery of the deferred tax asset balance under GAAP, which would immediately benefit GAAP capital and the tangible common equity ratio, there will remain limitations on the ability to include the deferred tax assets for regulatory capital purposes.

Increases in FDIC insurance premiums could adversely affect our profitability.

The Dodd-Frank Act directed the FDIC to amend its regulations to re-define the method of calculation of an insured depository institution's insurance fund assessment. The Dodd-Frank Act requires the assessment base to be an amount equal to the average consolidated total assets of the insured depository institution during the assessment period, minus the sum of the average tangible equity of the insured depository institution during the assessment period and an amount the FDIC determines is necessary to establish assessments consistent with the risk-based assessment system found in the Federal Deposit Insurance Act. The FDIC has issued final rules outlining this new insurance assessment methodology, which will impact the amount of the Bank's insurance assessment. In addition, the FDIC may make additional changes to the way in which it calculates insurance premiums. We cannot predict the timing of any future changes, and if made, the effect that these changes could have on our insurance assessment.

Risk Factors Related to an Investment in the Preferred Shares

The Preferred Shares are equity and are subordinated to all of our existing and future indebtedness; we are highly dependent on dividends and other amounts from our subsidiaries in order to pay dividends on, and redeem at our option, the Preferred Shares, which are subject to various prohibitions and other restrictions; and the Preferred Shares place no limitations on the amount of indebtedness we and our subsidiaries may incur in the future.

The Preferred Shares are equity interests in the Company and do not constitute indebtedness. As such, the Preferred Shares, like our common stock, rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, where principal and interest would customarily be payable on specified due dates, in the case of perpetual preferred stock like the Preferred Shares, there is no stated maturity date (although the Preferred Shares are subject to redemption at our option) and dividends are payable only if, when and as authorized and declared by our board of directors and depend on, among other matters, our historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state

Table of Contents

regulatory prohibitions and other restrictions and any other factors our board of directors deems relevant at the time. The Company currently must inform and consult with its regulators prior to paying any dividends on the Preferred Shares.

If (i) there has occurred and is continuing an event of default under the Company's trust preferred securities or (ii) the Company has given notice of its election to defer payments of interest on its trust preferred securities or such a deferral has occurred and is continuing, then the Company may not declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment with respect to, any of its capital stock (including the Preferred Shares).

The Preferred Shares are not savings accounts, deposits or other obligations of any depository institution and are not insured or guaranteed by the FDIC or any other governmental agency or instrumentality. Furthermore, the Company is a legal entity that is separate and distinct from its subsidiaries, and its subsidiaries have no obligation, contingent or otherwise, to make any payments in respect of the Preferred Shares or to make funds available therefor. Because the Company is a holding company that maintains only limited cash at that level, its ability to pay dividends on, and redeem at its option, the Preferred Shares will be highly dependent upon the receipt of dividends, fees and other amounts from its subsidiaries, which, in turn, will be highly dependent upon the historical and projected results of operations, liquidity, cash flows and financial condition of its subsidiaries. In addition, the right of the Company to participate in any distribution of assets of any of its subsidiaries upon their respective liquidation or reorganization will be subject to the prior claims of the creditors (including any depositors) and preferred equity holders of the applicable subsidiary, except to the extent that the Company is a creditor, and is recognized as a creditor, of such subsidiary. Accordingly, the holders of the Preferred Shares will be structurally subordinated to all existing and future obligations and preferred equity of the Company's subsidiaries.

There are also various legal and regulatory prohibitions and other restrictions on the ability of the Company's depository institution subsidiaries to pay dividends, extend credit or otherwise transfer funds to the Company or affiliates. Such dividend payments are subject to regulatory tests, generally based on current and retained earnings of such subsidiaries and other factors, and, are currently prohibited without regulatory approval. Dividend payments to the Company from its depository institution subsidiaries may also be prohibited if such payments would impair the capital of the applicable subsidiary and in certain other cases. In addition, regulatory rules limit the aggregate amount of a depository institution's loans to, and investments in, any single affiliate in varying thresholds and may prevent the Company from borrowing from their depository institution subsidiaries and require any permitted borrowings to be collateralized.

The Company also is subject to various legal and regulatory policies and requirements impacting the Company's ability to pay accrued or future dividends on, or redeem, the Preferred Shares. As of the date of this prospectus supplement, we have paid in full all of our quarterly dividend obligations on the Preferred Shares. Under the Federal Reserve's capital regulations, in order to ensure Tier 1 capital treatment for the Preferred Shares, the Company's redemption of any of the Preferred Shares is subject to prior regulatory approval. The Federal Reserve also may require the Company to consult with it prior to increasing dividends. In addition, as a matter of policy, the Federal Reserve may restrict or prohibit the payment of dividends if (i) the Company's net income available to shareholders for the past four quarters, net of dividends previously paid during that period, is not sufficient to fully fund the dividends; (ii) the Company's prospective rate of earnings retention is not consistent with its capital needs and overall current and prospective financial condition; (iii) the Company will not meet, or is in danger of not meeting, its minimum regulatory capital ratios; or (iv) the Federal Reserve otherwise determines that the payment of dividends would constitute an unsafe or unsound practice. Recent and future regulatory developments may result in additional restrictions on the Company's ability to pay dividends.

In addition, the terms of the Preferred Shares do not limit the amount of debt or other obligations we or our subsidiaries may incur in the future. Accordingly, we and our subsidiaries may incur substantial amounts of additional debt and other obligations that will rank senior to the Preferred Shares or to which the Preferred Shares will be structurally subordinated.

Table of Contents

An active trading market for the Preferred Shares may not develop or be maintained.

The Preferred Shares are not currently listed on any securities exchange or available for quotation on any national quotation system, and we do not plan to list, or make available for quotation, the Preferred Shares in the future. There can be no assurance that an active trading market for the Preferred Shares will develop or, if developed, will be maintained. If an active market is not developed and maintained, the market value and liquidity of the Preferred Shares may be materially and adversely affected.

If you are not an institutional investor, you may only purchase the Preferred Shares in this offering if you reside within certain states, and resale of the Preferred Shares by any investors may be limited by the Blue Sky laws of the various states.

We will offer and sell the Preferred Shares to individual investors only in certain states, as described further in Underwriting - State Blue Sky Information. If you are not an institutional investor, you must be a resident of one of these jurisdictions to purchase the Preferred Shares in the offering. Institutional investors in every state may purchase Preferred Shares in this offering pursuant to an exemption provided for sales to these investors under the Blue Sky laws of the various states. The definition of an institutional investor varies from state to state but generally includes financial institutions, broker-dealers, banks, insurance companies, and other qualified entities.

We file periodic and annual reports under the Securities Exchange Act of 1934. Therefore, under the National Securities Markets Improvement Act of 1996, the resale of the Preferred Shares is exempt from state registration requirements. However, states are permitted to require notice filings and collect fees with regard to these transactions, and a state may suspend the offer and sale of securities within such state if any such required filing is not made or fee is not paid. As of the date of this prospectus supplement, we have not determined in which, if any, states we will submit the required filings or pay the required fee. Further, certain states either do not presently require any notice filings or fee payments or have not yet issued rules or regulations indicating whether notice filings or fee payments will be required. If any of these states that has not yet adopted a statute relating to the National Securities Markets Improvement Act adopts such a statute in the future requiring a filing or fee or if any state amends its existing statutes with respect to its requirements, we would need to comply with those new requirements in order for the securities to continue to be eligible for resale in those jurisdictions. For a more complete discussion of the Blue Sky state securities laws and registrations affecting this offering, please see the section entitled Underwriting - State Blue Sky Information.

The Preferred Shares may be junior in rights and preferences to our future preferred stock.

Subject to approval by the holders of at least 66 2/3% of the Preferred Shares then outstanding, voting as a separate class, we may issue preferred stock in the future the terms of which are expressly senior to the Preferred Shares. The terms of any such future preferred stock expressly senior to the Preferred Shares may prohibit or otherwise restrict dividend payments on the Preferred Shares. For example, the terms of any such senior preferred stock may provide that, unless full dividends for all of our outstanding preferred stock senior to the Preferred Shares have been paid for the relevant periods, no dividends will be paid on the Preferred Shares, and no Preferred Shares may be repurchased, redeemed, or otherwise acquired by us. In addition, in the event of our liquidation, dissolution or winding-up, the terms of any such senior preferred stock would likely prohibit us from making any payments on the Preferred Shares until all amounts due to holders of such senior preferred stock are paid in full.

Holders of the Preferred Shares have limited voting rights.

Unless and until we are in arrears on our dividend payments on the Preferred Shares for six quarterly periods, whether or not consecutive, the holders of the Preferred Shares will have no voting rights except with respect to certain fundamental changes in the terms of the Preferred Shares and certain other matters and except

Table of Contents

as may be required by applicable law. If dividends on the Preferred Shares are not paid in full for six quarterly periods, whether or not consecutive, the total number of positions on the Company's board of directors will automatically increase by two and the holders of the Preferred Shares, acting as a class with any other shares of our preferred stock with parity voting rights to the Preferred Shares, will have the right to elect two individuals to serve in the new director positions. This right and the terms of such directors will end when we have paid in full all accrued and unpaid dividends for all past dividend periods. See "Description of Preferred Shares" "Voting Rights" in this prospectus supplement.

We are subject to extensive regulation, and ownership of the Preferred Shares may have regulatory implications for holders thereof.

We are subject to extensive federal and state banking laws, including the Bank Holding Company Act of 1956, as amended (the "BHCA"), and federal and state banking regulations, that impact the rights and obligations of owners of the Preferred Shares, including, for example, our ability to declare and pay dividends on, and to redeem, the Preferred Shares. Although the Company does not believe the Preferred Shares are considered "voting securities" currently, if they were to become voting securities for the purposes of the BHCA, whether because the Company has missed six dividend payments and holders of the Preferred Shares have the right to elect directors as a result, or for other reasons, a holder of 25% or more of the Preferred Shares, or a holder of a lesser percentage of our Preferred Shares that is deemed to exercise a "controlling influence" over us, may become subject to regulation under the BHCA. In addition, if the Preferred Shares become "voting securities", then (a) any bank holding company or foreign bank that is subject to the BHCA may need approval to acquire or retain more than 5% of the then outstanding Preferred Shares, and (b) any holder (or group of holders acting in concert) may need regulatory approval to acquire or retain 10% or more of the Preferred Shares. A holder or group of holders may also be deemed to control us if they own one-third or more of our total equity, both voting and non-voting, aggregating all shares held by the investor across all classes of stock. As of June 30, 2012, our Series A Preferred Shares and Series B Preferred Shares constituted approximately 31.1% and 1.0% of our total equity, respectively. Holders of the Preferred Shares should consult their own counsel with regard to regulatory implications.

If we redeem the Preferred Shares, you may be unable to reinvest the redemption proceeds in a comparable investment at the same or greater rate of return.

We have the right to redeem the Preferred Shares, in whole or in part, at our option at any time, subject to prior regulatory approval, provided that we must redeem, repurchase or otherwise acquire all of the Series A Preferred Shares before any of the Series B Preferred Shares are redeemed. If we choose to redeem the Preferred Shares in part, we have been informed by DTC that it is their current practice to determine by lot the amount of the interest of each direct participant (through which beneficial owners hold their interest) to be redeemed. If we choose to redeem the Preferred Shares, we are likely to do so if we are able to obtain a lower cost of capital. If prevailing interest rates are relatively low if or when we choose to redeem the Preferred Shares, you generally will not be able to reinvest the redemption proceeds in a comparable investment at the same or greater rate of return. Furthermore, if we redeem the Preferred Shares in part, the liquidity of the outstanding Preferred Shares may be limited.

If we do not redeem the Preferred Shares prior to May 15, 2014, the cost of this capital to us will increase substantially and could have a material adverse effect on our liquidity and cash flows.

We have the right to redeem the Preferred Shares, in whole or in part, at our option at any time, provided that we must redeem, repurchase or otherwise acquire all of the Series A Preferred Shares before any of the Series B Preferred Shares are redeemed. If we do not redeem the Series A Preferred Shares prior to May 15, 2014, the cost of this capital to us will increase substantially on and after that date, with the dividend rate increasing from 5.0% per annum to 9.0% per annum, which could have a material adverse effect on our liquidity and cash flows. See

"Description of Preferred Shares" "Redemption and Repurchases" in this prospectus supplement. Any redemption by us of the Preferred Shares would require prior regulatory approval from the Federal Reserve. We have not applied for such regulatory approval and have no present intention to redeem any of the Preferred Shares. We intend to redeem or repurchase Preferred Shares in such amounts and at such times as we deem prudent, although we have

Table of Contents

no present plans to redeem, in whole or in part, the Series A Preferred Shares before May 15, 2014, when the dividend rate is scheduled to increase on such shares. Our ability to redeem the Preferred Shares will depend on then-present facts and circumstances and the amount of capital we hold or can raise at the holding company level.

Treasury is a federal agency and your ability to bring a claim against Treasury under the federal securities laws in connection with a purchase of Preferred Shares may be limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the "FTCA"), provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, Treasury and its officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. The underwriters are not claiming to be agents of Treasury in this offering. Accordingly, any attempt to assert such a claim against the officers, agents or employees of Treasury for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus supplement, the accompanying prospectus, the registration statement of which this prospectus supplement and the accompanying prospectus or the documents incorporated by reference in this prospectus supplement and the accompanying prospectus are a part or resulting from any other act or omission in connection with the offering of the Preferred Shares by Treasury would likely be barred.

Risk Factors Related to the Auction Process

The price of the Preferred Shares could decline rapidly and significantly following this offering.

The public offering price of the Preferred Shares, which will be set independently for the Series A Preferred Shares and Series B Preferred Shares and will be the clearing price for such Series plus accrued dividends thereon, will be determined through an auction process conducted by Treasury and the auction agents. Prior to this offering there has been no public market for the Preferred Shares, and the public offering price may bear no relation to market demand for the Preferred Shares once trading begins. We have been informed by both Treasury and Merrill Lynch, Pierce, Fenner & Smith Incorporated and Sandler O'Neill & Partners, L.P., as the auction agents, that they believe that the bidding process will reveal a clearing price for the Preferred Shares offered in the auction process, which (i) with respect to the Series A Preferred Shares, will either be (a) the highest price at which all of the Series A Preferred Shares offered may be sold to bidders, if bids are received for 100% or more of the offered Series A Preferred Shares or (b) the minimum bid price of \$817.00, if bids are received for at least half, but less than all, of the offered Series A Preferred Shares and (ii) with respect to the Series B Preferred Shares, will either be (a) the highest price at which all of the Series B Preferred Shares offered may be sold to bidders, if bids are received for 100% or more of the offered Series B Preferred Shares or (b) the minimum bid price of \$862.00, if bids are received for at least half, but less than all, of the offered Series B Preferred Shares. If there is little or no demand for the Preferred Shares at or above the public offering price once trading begins, the price of the Preferred Shares would likely decline following this offering. Limited or less-than-expected liquidity in the Preferred Shares, including decreased liquidity due to a sale of less than all of the offered Preferred Shares, could also cause the trading price of the Preferred Shares to decline. In addition, the auction process may lead to more volatility in, or a decline in, the trading price of the Preferred Shares after the initial sales of the Preferred Shares in this offering. If your objective is to make a short-term profit by selling the Preferred Shares you purchase in the offering shortly after trading begins, you should not submit a bid in the auction.

Table of Contents

The auction process for this offering may result in a phenomenon known as the winner's curse, and, as a result, investors may experience significant losses.

The auction process for this offering may result in a phenomenon known as the winner's curse. At the conclusion of the auction process, successful bidders that receive allocations of Preferred Shares in this offering may infer that there is little incremental demand for the Preferred Shares above or equal to the public offering price. As a result, successful bidders may conclude that they paid too much for the Preferred Shares and could seek to immediately sell their Preferred Shares to limit their losses should the price of the Preferred Shares decline in trading after the auction process is completed. In this situation, other investors that did not submit bids that are accepted by Treasury may wait for this selling to be completed, resulting in reduced demand for the Preferred Shares in the public market and a significant decline in the price of the Preferred Shares. Therefore, we caution investors that submitting successful bids and receiving allocations may be followed by a significant decline in the value of their investment in the Preferred Shares shortly after this offering.

The auction process for this offering may result in a situation in which less price sensitive investors play a larger role in the determination of the public offering price and constitute a larger portion of the investors in this offering, and, as a result, the public offering price may not be sustainable once trading of Preferred Shares begins.

In a typical public offering of securities, a majority of the securities sold to the public are purchased by professional investors that have significant experience in determining valuations for companies in connection with such offerings. These professional investors typically have access to, or conduct their own, independent research and analysis regarding investments in such offerings. Other investors typically have less access to this level of research and analysis, and as a result, may be less sensitive to price when participating in the auction. Because of the auction process used in this auction, these less price sensitive investors may have a greater influence in setting the public offering price (because a larger number of higher bids may cause the clearing price in the auction to be higher than it would otherwise have been absent such bids) and may have a higher level of participation in this offering than is normal for other public offerings. This, in turn, could cause the auction process to result in a public offering price that is higher than the price professional investors are willing to pay for the Preferred Shares. As a result, the price of the Preferred Shares may decrease once trading of the Preferred Shares begins. Also, because professional investors may have a substantial degree of influence on the trading price of the Preferred Shares over time, the price of the Preferred Shares may decline and not recover after this offering. Furthermore, if the public offering price of the Preferred Shares is above the level that investors determine is reasonable for the Preferred Shares, some investors may attempt to short sell the Preferred Shares after trading begins, which would create additional downward pressure on the trading price of the Preferred Shares.

The clearing price for the Preferred Shares may bear little or no relationship to the price for the Preferred Shares that would be established using traditional valuation methods, and, as a result, the trading price of the Preferred Shares may decline significantly following the issuance of the Preferred Shares.

The public offering price of the Preferred Shares will be set independently for the Series A Preferred Shares and Series B Preferred Shares and will be equal to the clearing price for such Series plus accrued dividends thereon. The clearing price of the Preferred Shares may have little or no relationship to, and may be significantly higher than, the price for the Preferred Shares that otherwise would be established using traditional indicators of value, such as our future prospects and those of our industry in general; our revenues, earnings, and other financial and operating information; multiples of revenue, earnings, capital levels, cash flows, and other operating metrics; market prices of securities and other financial and operating information of companies engaged in activities similar to us; and the views of research analysts. The trading price of the Preferred Shares may vary significantly from the public offering price. Potential investors should not submit a bid in the auction for this offering unless they are willing to take the risk that the price of the Preferred Shares could decline significantly.

Table of Contents

Successful bidders may receive the full number of Preferred Shares subject to their bids, so potential investors should not make bids for more Preferred Shares than they are prepared to purchase.

Each bidder may submit multiple bids. However, as bids are independent, each bid may result in an allocation of Preferred Shares. Allocation of the Preferred Shares will be determined by, first, allocating Preferred Shares to any bids made above the clearing price for each Series, and second, allocating Preferred Shares (on a pro-rata basis; if appropriate) among bids made at the clearing price for each Series. If Treasury elects to sell any of the Series A Preferred Shares or Series B Preferred Shares in this offering, the bids of successful bidders that are above the clearing price for that Series will be allocated all of the shares of such Series represented by such bids, and only accepted bids submitted at the clearing price for such Series, in certain cases, will experience pro-rata allocation, if any. Bids that have not been modified or withdrawn by the time of the submission deadline are final and irrevocable, and bidders who submit bids that are accepted by Treasury will be obligated to purchase the Preferred Shares allocated to them. Accordingly, the sum of a bidder's bid sizes as of the submission deadline should be no more than the total number of Preferred Shares the bidder is willing to purchase, and investors are cautioned against submitting a bid that does not accurately represent the number of Preferred Shares that they are willing and prepared to purchase.

Submitting a bid does not guarantee an allocation of Preferred Shares, even if a bidder submits a bid at or above the public offering price of the Preferred Shares.

The auction agents, in their sole discretion, may require that bidders confirm their bids before the auction closes (although the auction agents are under no obligation to reconfirm bids for any reason, except as may be required by applicable securities laws). If a bidder is requested to confirm a bid and fails to do so within the permitted time period, that bid may be deemed to have been withdrawn and, accordingly, that bidder may not receive an allocation of Preferred Shares even if the bid is at or above the public offering price. The auction agents may, however, choose to accept any such bid even if it has not been reconfirmed. In addition, the auction agents may determine in some cases to impose size limits on the aggregate size of bids that they choose to accept from any bidder (including any network broker), and may reject any bid that they determine, in their discretion, has a potentially manipulative, disruptive or other adverse effect on the auction process or the offering. If bids for 100% or more of the offered Series A Preferred Shares are received, and Treasury elects to sell any Series A Preferred Shares in the auction, then any accepted bids submitted in the auction above the Series A Clearing Price will receive allocations in full, while each bid submitted at the Series A Clearing Price will be allocated the number of Series A Preferred Shares represented by such bids, in the case bids for 100% of the offered Series A Preferred Shares are received, or a number of Series A Preferred Shares approximately equal to the pro-rata allocation percentage multiplied by the number of Series A Preferred Shares represented by such bid, rounded to the nearest whole number of Series A Preferred Shares (subject to rounding to eliminate odd-lots), in the case bids for more than 100% of the offered Series A Preferred Shares are received. If bids for at least half, but less than all, of the offered Series A Preferred Shares are received, and Treasury chooses to sell fewer Series A Preferred Shares than the number of Series A Preferred Shares for which bids were received (but not less than half), then all bids will experience equal pro-rata allocation. If bids for 100% or more of the offered Series B Preferred Shares are received, and Treasury elects to sell any Series B Preferred Shares in the auction, then any accepted bids submitted in the auction above the Series B Clearing Price will receive allocations in full, while each bid submitted at the Series B Clearing Price will be allocated the number of Series B Preferred Shares represented by such bids, in the case bids for 100% of the offered Series B Preferred Shares are received, or a number of Series B Preferred Shares approximately equal to the pro-rata allocation percentage multiplied by the number of Series B Preferred Shares represented by such bid, rounded to the nearest whole number of Series B Preferred Shares (subject to rounding to eliminate odd-lots), in the case bids for more than 100% of the offered Series B Preferred Shares are received. If bids for at least half, but less than all, of the offered Series B Preferred Shares are received, and Treasury chooses to sell fewer Series B Preferred Shares than the number of Series B Preferred Shares for which bids were received (but not less than half), then all bids will experience equal pro-rata allocation. Treasury could also decide, in its sole discretion, not to sell any shares of a Series in this offering after the clearing price for each Series has been determined. As a result of these factors, you may not receive an allocation for all the Preferred Shares for which you submit a bid.

Table of Contents

We cannot assure you that the auction will be successful or that the full number of offered Preferred Shares will be sold.

If sufficient bids are received and accepted by the auction agents to enable Treasury to sell an offered Series in this offering, the public offering price will be set at the clearing price for such Series plus accrued dividends thereon, unless Treasury decides, in its sole discretion, not to sell any shares of such Series in this offering after the clearing price for each Series is determined. The clearing price for each Series will be determined based on the number of valid, irrevocable bids at the time of the submission deadline that Treasury decides, in its sole discretion, to accept. If valid, irrevocable bids are received for 100% or more of the offered Series A Preferred Shares at the submission deadline, the Series A Clearing Price will be equal to the highest price of the offered Series A Preferred Shares that can be sold in the auction. If, however, bids are received for at least half, but less than all, of the offered Series A Preferred Shares, then Treasury may (but is not required to) sell, at the minimum bid price in the auction (which will be deemed the Series A Clearing Price) the number of Series A Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series A Preferred Shares are sold. If bids are received for less than half of the offered Series A Preferred Shares, Treasury will not sell any Series A Preferred Shares in this offering. If valid, irrevocable bids are received for 100% or more of the offered Series B Preferred Shares at the submission deadline, the Series B Clearing Price will be equal to the highest price of the offered Series B Preferred Shares that can be sold in the auction. If, however, bids are received for at least half, but less than all, of the offered Series B Preferred Shares, then Treasury may (but is not required to) sell, at the minimum bid price in the auction (which will be deemed the Series B Clearing Price) the number of Series B Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series B Preferred Shares are sold. If bids are received for less than half of the offered Series B Preferred Shares, Treasury will not sell any Series B Preferred Shares in this offering. The liquidity of the Series A Preferred Shares or Series B Preferred Shares may be limited if less than all of the offered shares of such Series are sold by Treasury. Possible future sales of Treasury's remaining Preferred Shares, if any, that are held following this offering, could affect the trading price of the Preferred Shares sold in this offering.

Submitting bids through a network broker or any other broker that is not an auction agent may in some circumstances shorten deadlines for potential investors to submit, modify or withdraw their bids.

In order to participate in the auction, bidders must have an account with, and submit bids to purchase Preferred Shares through, either an auction agent or a network broker. Brokers that are not network brokers will need to submit their bids, either for their own account or on behalf of their customers, through an auction agent or a network broker. Potential investors and brokers that wish to submit bids in the auction and do not have an account with an auction agent or a network broker must either establish such an account prior to bidding in the auction or cause a broker that has such an account to submit a bid through that account. Network brokers and other brokers will impose earlier submission deadlines than those imposed by the auction agents in order to have sufficient time to aggregate bids received from their respective customers and to transmit the aggregate bid to an auction agent (or, in the case of non-network brokers submitting bids through a network broker, to such network broker to transmit to the auction agents) before the auction closes. We believe these earlier deadlines could be as much as one day earlier than the deadlines imposed by the auction agents. As a result of such earlier submission deadlines, potential investors who submit bids through a network broker, or brokers that submit bids through an auction agent or a network broker, will need to submit or withdraw their bids earlier than other bidders, and it may in some circumstances be more difficult for such bids to be submitted, modified or withdrawn. Investors who are concerned about the timely submission or withdrawal of bids are encouraged to submit or withdraw their bids through the auction agents.

Table of Contents**USE OF PROCEEDS**

The Preferred Shares offered by this prospectus supplement are being sold for the account of Treasury. Any proceeds from the sale of these Preferred Shares will be received by Treasury for its own account, and we will not receive any proceeds from the sale of any Preferred Shares offered by this prospectus supplement.

RATIOS OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERENCE DIVIDENDS

The following table presents our historical ratio of earnings to combined fixed charges and preference dividends for the six months ended June 30, 2012 and 2011 and for each of the years in the five-year period ended December 31, 2011.

	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011 ⁽²⁾	2011 ⁽³⁾	Year Ended December 31, 2010 ⁽⁴⁾ 2009 2008 2007			
Ratios of Earnings to Combined Fixed Charges and Preference Dividends ⁽¹⁾							
Including interest on deposits	1.46x	0.82x		0.13x	1.20x	1.47x	1.49x
Excluding interest on deposits	2.53x	0.33x			1.88x	3.33x	3.51x

- (1) Earnings consist of income from continuing operations before adjustments for income taxes plus fixed charges and preference dividends. Combined fixed charges and preference dividends consist of interest costs and preferred stock dividends. We have computed the ratios of earnings to combined fixed charges and preference dividends by dividing earnings by combined fixed charges and preference dividends. If we do not redeem the Series A Preferred Shares prior to May 15, 2014, the cost of this capital to us will increase substantially on and after that date, with the dividend rate increasing from 5.0% to 9.0% per annum, which would adversely affect our ratio of earnings to combined fixed charges and preference dividends.
- (2) The earnings coverage for the six months ended June 30, 2011 was inadequate to cover combined fixed charges and preference dividends by \$619 thousand.
- (3) The earnings coverage for the year ended December 31, 2011 was inadequate to cover combined fixed charges and preference dividends by \$8.3 million.
- (4) The earnings coverage for the year ended December 31, 2010 was inadequate to cover combined fixed charges and preference dividends by \$7.0 million.

Table of Contents

DESCRIPTION OF PREFERRED SHARES

This section summarizes specific terms and provisions of the Preferred Shares. The description of the Preferred Shares contained in this section is qualified in its entirety by the actual terms of the Preferred Shares, as are stated in the Articles of Amendment to the Company's Articles of Incorporation, a copy of which was attached as Exhibit 3.1 to our Current Report on Form 8-K filed on March 17, 2009 and incorporated by reference into this prospectus supplement and the accompanying prospectus. See "Where You Can Find More Information" and "Incorporation of Certain Information by Reference" in this prospectus supplement.

General

The Preferred Shares include both the Series A Preferred Shares and the Series B Preferred Shares. The Series A Preferred Shares constitutes a series of our perpetual, cumulative, preferred stock, consisting of 13,900 shares, par value \$1.25 per share, having a liquidation preference amount of \$1,000 per share. The Series B Preferred Shares constitutes a series of our perpetual, cumulative, preferred stock, consisting of 695 shares, par value \$1.25 per share, having a liquidation preference amount of \$1,000 per share.

This section summarizes the terms of the Series A Preferred Shares and the Series B Preferred Shares together as the Preferred Shares. Except whether otherwise indicated, the terms of the Preferred Shares described below apply to both the Series A Preferred Shares and the Series B Preferred Shares. The Series A Preferred Shares and the Series B Preferred Shares rank equally and generally have identical terms, with the exception that the Series B Preferred Shares entitle their holder(s) to cumulative dividends at a rate of 9% per annum from the date of initial issuance. In addition, all of the Series Series A Preferred Shares must be redeemed, repurchased or otherwise acquired by us before any of the Series B Preferred Shares may be redeemed.

The Preferred Shares have no maturity date. We issued the Preferred Shares to Treasury on March 13, 2009 in connection with the CPP for an aggregate purchase price of \$13.9 million in a private placement exempt from the registration requirements of the Securities Act. The Preferred Shares qualify as Tier 1 capital for regulatory purposes.

Dividends

Rate. Dividends on the Preferred Shares are payable quarterly in arrears, when, as and if authorized and declared by our board of directors out of legally available funds, on a cumulative basis on the \$1,000 per share liquidation preference amount plus the amount of accrued and unpaid dividends for any prior dividend periods. Dividends on the Series A Preferred Shares are payable at a rate of (i) 5% per annum, from the original issuance date to but excluding the first day of the first dividend period commencing on or after the fifth anniversary of the original issuance date (i.e., 5% per annum from March 13, 2009 to but excluding May 15, 2014), and (ii) 9% per annum, from and after the first day of the first dividend period commencing on or after the fifth anniversary of the original issuance date (i.e., 9% per annum on and after May 15, 2014). Dividends on the Series B Preferred Shares are payable at a rate of 9% per annum from the original issuance date.

Dividends are payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year. As of the date of this prospectus supplement, we have paid in full all of our quarterly dividend obligations on the Preferred Shares. Each dividend will be payable to holders of record as they appear on our stock register on the applicable record date, which will be the 15th calendar day immediately preceding the related dividend payment date (whether or not a business day), or such other record date determined by our board of directors that is not more than 60 nor less than ten days prior to the related dividend payment date. Each period from and including a dividend payment date (or the date of the issuance of the Preferred Shares) to but excluding the following dividend payment date is referred to as a dividend period. Dividends payable for each dividend period are computed on the basis of a 360-day year consisting of twelve 30-day months. If a scheduled dividend payment date falls on a day that is not a business day, the dividend will be paid on the next business day as if it were paid on the scheduled dividend payment date, and no interest or other additional amount will accrue on the dividend. The term "business day" means any day except Saturday, Sunday and any day on which banking institutions in the State of New York generally are authorized or required by law or other governmental actions to close.

Table of Contents

Holders of Preferred Shares sold by Treasury in the auction, if any, that are record holders on the record date for the November 15, 2012 dividend payment date will be entitled to any declared dividends payable on such date.

Dividends on the Preferred Shares are cumulative. If for any reason our board of directors does not declare a dividend on the Preferred Shares for a particular dividend period, or if the board of directors declares less than a full dividend, we will remain obligated to pay the unpaid portion of the dividend for that period and the unpaid dividend will compound on each subsequent dividend date (meaning that dividends for future dividend periods will accrue on any unpaid dividend amounts for prior dividend periods).

We are not obligated to pay holders of the Preferred Shares any dividend in excess of the dividends on the Preferred Shares that are payable as described above. There is no sinking fund with respect to dividends on the Preferred Shares.

Priority of Dividends. So long as any of the Preferred Shares remains outstanding, we may not declare or pay a dividend or other distribution on our common stock or any other shares of Junior Stock (other than dividends payable solely in common stock) or Parity Stock (other than dividends paid on a pro rata basis with the Preferred Shares), and we generally may not directly or indirectly purchase, redeem or otherwise acquire any shares of common stock, Junior Stock or Parity Stock unless all accrued and unpaid dividends on the Preferred Shares for all past dividend periods are paid in full.

Junior Stock means our common stock and any other class or series of our stock the terms of which expressly provide that it ranks junior to the Preferred Shares as to dividend rights and/or as to rights on liquidation, dissolution or winding up of the Company. We currently have no outstanding class or series of stock constituting Junior Stock other than our common stock.

Parity Stock means any class or series of our stock, other than the Preferred Shares, the terms of which do not expressly provide that such class or series will rank senior or junior to the Preferred Shares as to dividend rights and/or as to rights on liquidation, dissolution or winding up of the Company, in each case without regard to whether dividends accrue cumulatively or non-cumulatively. Other than the Series A Preferred Stock and Series B Preferred Stock, which are considered Parity Stock as to each other, we currently have no outstanding class or series of stock constituting Parity Stock.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company, holders of the Preferred Shares will be entitled to receive for each share of the Preferred Shares, out of the assets of the Company or proceeds available for distribution to our stockholders, subject to any rights of our creditors, before any distribution of assets or proceeds is made to or set aside for the holders of our common stock and any other class or series of our stock ranking junior to the Preferred Shares, payment of an amount equal to the sum of (i) the \$1,000 liquidation preference amount per share and (ii) the amount of any accrued and unpaid dividends on the Preferred Shares (including dividends accrued on any unpaid dividends). To the extent the assets or proceeds available for distribution to stockholders are not sufficient to fully pay the liquidation payments owing to the holders of the Preferred Shares and the holders of any other class or series of our stock ranking equally with the Preferred Shares, the holders of the Preferred Shares and such other stock will share ratably in the distribution.

For purposes of the liquidation rights of the Preferred Shares, neither a merger or consolidation of the Company with another entity, including a merger or consolidation in which the holders of Preferred Shares receive cash, securities or other property for their shares, nor a sale, lease or exchange of all or substantially all of the Company's assets will constitute a liquidation, dissolution or winding up of the affairs of the Company.

Table of Contents

Redemptions and Repurchases

We may redeem the Preferred Shares, at any time, in whole or in part, at our option, subject to prior approval by the appropriate federal banking agency, for a redemption price equal to 100% of the liquidation preference amount per Preferred Share plus any accrued and unpaid dividends to but excluding the date of redemption (including dividends accrued on any unpaid dividends), provided that any declared but unpaid dividend payable on a redemption date that occurs subsequent to the record date for the dividend will be payable to the holder of record of the redeemed shares on the dividend record date.

To exercise the redemption right described above, we must give notice of the redemption to the holders of record of the Preferred Shares by first class mail, not less than 30 days and not more than 60 days before the date of redemption. Each notice of redemption given to a holder of Preferred Shares must state: (i) the redemption date; (ii) the number of Preferred Shares to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder; (iii) the redemption price; and (iv) the place or places where certificates for such shares are to be surrendered for payment of the redemption price. In the case of a partial redemption of the Preferred Shares, the shares to be redeemed will be selected either pro rata or in such other manner as our board of directors determines to be fair and equitable.

The Securities Purchase Agreement between us and Treasury provides that so long as Treasury continues to own any Preferred Shares, we may not repurchase any Preferred Shares from any other holder of such shares unless we offer to repurchase a ratable portion of the Preferred Shares then held by Treasury on the same terms and conditions.

Preferred Shares that we redeem, repurchase or otherwise acquire will revert to authorized but unissued shares of preferred stock, which may then be reissued by us as any series of preferred stock other than the Preferred Shares.

We intend to redeem or repurchase Preferred Shares in such amounts and at such times as we deem prudent, although we have no present plans to redeem, in whole or in part, the Series A Preferred Shares before May 15, 2014, when the dividend rate is scheduled to increase on such shares. Our ability to redeem the Preferred Shares will depend on then-present facts and circumstances and the amount of capital we hold or can raise at the holding company level.

In order for our regulators to approve the redemption of the Preferred Shares, we would expect our regulators to consider our financial condition and regulatory capital levels after giving effect to the redemption of the Preferred Shares so approved.

No Conversion Rights

Holders of the Preferred Shares have no right to exchange or convert their shares into common stock or any other securities.

Voting Rights

The holders of the Preferred Shares do not have voting rights other than those described below, except to the extent specifically required by Virginia law.

If we do not pay dividends on the Preferred Shares for six or more quarterly dividend periods, whether or not consecutive, the authorized number of directors of the Company will automatically increase by two and the holders of the Preferred Shares will have the right, with the holders of shares of any other classes or series of Voting Parity Stock outstanding at the time, voting together as a single class, to elect two directors (the Preferred Directors) to fill such newly created directorships at our next annual meeting of

Table of Contents

stockholders (or at a special meeting called for that purpose prior to the next annual meeting) and at each subsequent annual meeting of stockholders until all accrued and unpaid dividends (including dividends accrued on any unpaid dividends) for all past dividend periods on all outstanding Preferred Shares have been paid in full at which time this right will terminate with respect to the Preferred Shares, subject to reverting in the event of each and every subsequent default by us in the payment of dividends on the Preferred Shares.

There is no limit on the number of nominations and a plurality of eligible voters would determine the election of the Preferred Directors. No person may be elected as a Preferred Director who would cause us to violate any corporate governance requirements of any securities exchange or other trading facility on which our securities may then be listed or traded that listed or traded companies must have a majority of independent directors. Upon any termination of the right of the holders of the Preferred Shares and Voting Parity Stock as a class to vote for directors as described above, the Preferred Directors will cease to be qualified as directors, the terms of office of all Preferred Directors then in office will terminate immediately and the authorized number of directors will be reduced by the number of Preferred Directors which had been elected by the holders of the Preferred Shares and the Voting Parity Stock. Any Preferred Director may be removed at any time, with or without cause, and any vacancy created by such a removal may be filled, only by the affirmative vote of the holders a majority of the outstanding Preferred Shares voting separately as a class together with the holders of shares of Voting Parity Stock, to the extent the voting rights of such holders described above are then exercisable. If the office of any Preferred Director becomes vacant for any reason other than removal from office, the remaining Preferred Director may choose a successor who will hold office for the unexpired term of the office in which the vacancy occurred.

Pursuant to the Company's bylaws, nominations of directors by holders of the Preferred Shares, and holders of any other Voting Parity Stock upon which like voting rights have been conferred and are exercisable, must be made by delivering written notice to the Secretary of the Company not less than 60 days nor more than 90 days prior to the date of a scheduled annual meeting or, if less than 80 days' notice or prior public disclosure of the date of the meeting is given or made, not later than 10 days after such notice was given or public disclosure was made. The notice must specify (i) the name, age, business address and residence of each nominee proposed in such notice, (ii) the principal occupation or employment of each such nominee, (iii) the class and number of shares of the Company which are beneficially owned by each such nominee and (iv) such other information concerning each such nominee as would be required, under the rules of the Securities and Exchange Commission, in a proxy statement soliciting proxies for the election of such nominee. The notice also must specify, as to the person making such nominations, (i) the name and address of such person and any person who supports such nominee and (ii) the class and number of shares of the Company which are beneficially owned by such persons. The Company does not intend to make any nominations with respect to the two additional directors.

The term "Voting Parity Stock" means with regard to any matter as to which the holders of the Preferred Shares are entitled to vote, any series of Parity Stock (as defined under "Dividends-Priority of Dividends" above) upon which voting rights similar to those of the Preferred Shares have been conferred and are exercisable with respect to such matter. Other than the Series A Preferred Stock and Series B Preferred Stock, which are considered Parity Stock as to each other, we currently have no outstanding class or series of stock constituting Parity Stock.

Although the Company does not believe the Preferred Shares are considered "voting securities" currently, if they were to become "voting securities" for the purposes of the BHCA, whether because the Company has missed six dividend payments and holders of the Preferred Shares have the right to elect directors as a result, or for other reasons, a holder of 25% of more of the Preferred Shares, or a holder of a lesser percentage of our Preferred Shares that is deemed to exercise a "controlling influence" over us, may become subject to regulation under the BHCA. In addition, if the Preferred Shares become "voting securities", then (a) any bank holding company or foreign bank that is subject to the BHCA may need approval to acquire or retain more than 5% of the then outstanding Preferred Shares, and (b) any holder (or group of holders acting in concert) may need regulatory

Table of Contents

approval to acquire or retain 10% or more of the Preferred Shares. A holder or group of holders may also be deemed to control us if they own one-third or more of our total equity, both voting and non-voting, aggregating all shares held by the investor across all classes of stock. Holders of the Preferred Shares should consult their own counsel with regard to regulatory implications.

In addition to any other vote or consent required by Virginia law or by our Articles of Incorporation, the vote or consent of the holders of at least 66-2/3% of the outstanding Preferred Shares, voting as a separate class, is required in order to do the following:

amend or alter our Articles of Incorporation or the Certificate of Designations for the Preferred Shares to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of our capital stock ranking senior to the Preferred Shares with respect to either or both the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding up of the Company; or

amend, alter or repeal any provision of our Articles of Incorporation or the Certificate of Designations for the Preferred Shares in a manner that adversely affects the rights, preferences, privileges or voting powers of the Preferred Shares; or

consummate a binding share exchange or reclassification involving the Preferred Shares or a merger or consolidation of the Company with another entity, unless (i) the Preferred Shares remain outstanding or, in the case of a merger or consolidation in which the Company is not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (ii) the Preferred Shares remaining outstanding or such preference securities, have such rights, preferences, privileges, voting powers, limitations and restrictions, taken as a whole, as are not materially less favorable than the rights, preferences, privileges, voting powers, limitations and restrictions of the Preferred Shares immediately prior to consummation of the transaction, taken as a whole;

provided, however, that (1) any increase in the amount of our authorized shares of preferred stock, including authorized Preferred Shares necessary to satisfy preemptive or similar rights granted by us to other persons prior to March 13, 2009, and (2) the creation and issuance, or an increase in the authorized or issued amount, of any other series of preferred stock, or any securities convertible into or exchangeable or exercisable for any other series of preferred stock, ranking equally with and/or junior to the Preferred Shares with respect to the payment of dividends, whether such dividends are cumulative or non-cumulative and the distribution of assets upon our liquidation, dissolution or winding up, will not be deemed to adversely affect the rights, preferences, privileges or voting powers of the Preferred Shares and will not require the vote or consent of the holders of the Preferred Shares.

To the extent holders of the Preferred Shares are entitled to vote, holders of Preferred Shares will be entitled to one vote for each share then held.

The voting provisions described above will not apply if, at or prior to the time when the vote or consent of the holders of the Preferred Shares would otherwise be required, all outstanding Preferred Shares have been redeemed by us or called for redemption upon proper notice and sufficient funds have been set aside by us for the benefit of the holders of Preferred Shares to effect the redemption.

Book-Entry Procedures

The Depository Trust Company (the "DTC") will act as securities depository for the Preferred Shares. We will not issue certificates to you for the Preferred Shares that you purchase, unless DTC's services are discontinued as described below.

Table of Contents

Title to book-entry interests in the Preferred Shares will pass by book-entry registration of the transfer within the records of DTC in accordance with its procedures. Book-entry interests in the Preferred Shares may be transferred within DTC in accordance with procedures established for these purposes by DTC. Each person owning a beneficial interest in the Preferred Shares must rely on the procedures of DTC and the participant through which such person owns its interest to exercise its rights as a holder of the Preferred Shares.

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered under the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants (Direct Participants) deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Direct Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system is also available to others such as securities brokers and dealers, including the underwriters, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (Indirect Participants). The rules applicable to DTC and its Direct and Indirect Participants are on file with the SEC.

When you purchase Preferred Shares within the DTC system, the purchase must be by or through a Direct Participant. The Direct Participant will receive a credit for the Preferred Shares on DTC's records. You, as the actual owner of the Preferred Shares, are the beneficial owner. Your beneficial ownership interest will be recorded on the Direct and Indirect Participants' records, but DTC will have no knowledge of your individual ownership. DTC's records reflect only the identity of the Direct Participants to whose accounts Preferred Shares are credited.

You will not receive written confirmation from DTC of your purchase. The Direct or Indirect Participants through whom you purchased Preferred Shares should send you written confirmations providing details of your transactions, as well as periodic statements of your holdings. The Direct and Indirect Participants are responsible for keeping an accurate account of the holdings of their customers like you.

Transfers of ownership interests held through Direct and Indirect Participants will be accomplished by entries on the books of Direct and Indirect Participants acting on behalf of the beneficial owners.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

We understand that, under DTC's existing practices, in the event that we request any action of the holders, or an owner of a beneficial interest in a global security such as you desires to take any action which a holder is entitled to take under our charter, DTC would authorize the Direct Participants holding the relevant shares to take such action, and those Direct Participants and any Indirect Participants would authorize beneficial owners owning through those Direct and Indirect Participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them.

Any redemption notices with respect to the Preferred Shares will be sent to Cede & Co. If less than all of the Preferred Shares are being redeemed, DTC will reduce each Direct Participant's holdings of Preferred Shares in accordance with its procedures.

In those instances where a vote is required, neither DTC nor Cede & Co. itself will consent or vote with respect to the Preferred Shares. Under its usual procedures, DTC would mail an omnibus proxy to us as soon as

Table of Contents

possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants whose accounts the Preferred Shares are credited to on the record date, which are identified in a listing attached to the omnibus proxy.

Dividends on the Preferred Shares will be made directly to DTC's nominee (or its successor, if applicable). DTC's practice is to credit participants' accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on that payment date.

Payments by Direct and Indirect Participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name. These payments will be the responsibility of the participant and not of DTC, us or any agent of ours.

DTC may discontinue providing its services as securities depository with respect to the Preferred Shares at any time by giving reasonable notice to us. Additionally, we may decide to discontinue the book-entry only system of transfers with respect to the Preferred Shares. In that event, we will print and deliver certificates in fully registered form for Preferred Shares. If DTC notifies us that it is unwilling to continue as securities depository, or it is unable to continue or ceases to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within 90 days after receiving such notice or becoming aware that DTC is no longer so registered, we will issue Preferred Shares in definitive form, at our expense, upon registration of transfer of, or in exchange for, such global security.

According to DTC, the foregoing information with respect to DTC has been provided to the financial community for informational purposes only and is not intended to serve as a representation, warranty or contract modification of any kind.

Global Clearance and Settlement Procedures

Initial settlement for the Preferred Shares will be made in immediately available funds. Secondary market trading among DTC's Participants will occur in the ordinary way in accordance with DTC's rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System.

Table of Contents

AUCTION PROCESS

The following describes the auction process used to determine the public offering price of the Preferred Shares. The Series A Preferred Shares and Series B Preferred Shares will be auctioned and priced separately. The auction process described in this section are the same for both series. Prospective purchasers may bid for Series A Preferred Shares, Series B Preferred Shares or both. That process differs from methods traditionally used in other underwritten public offerings. Treasury and the underwriters will determine the public offering price and the allocation of the Preferred Shares in this offering by an auction process conducted by the joint book-running managers, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Sandler O'Neill & Partners, L.P., in their capacity as the auction agents. This auction process will involve a modified Dutch auction mechanic in which the auction agents (working with a number of other brokers) will receive and accept bids from bidders for the Preferred Shares. We do not intend to submit any bids in the auction. After the auction closes and those bids become irrevocable (which will occur automatically at the submission deadline to the extent such bids have not been modified or withdrawn at that time), the auction agents will determine the clearing prices for the sale of the Series A Preferred Shares and Series B Preferred Shares offered hereby and, if Treasury chooses to proceed with the offering, the underwriters will allocate Preferred Shares to the winning bidders. The clearing price for the Preferred Shares may bear little or no relationship to the price that would be established using traditional valuation methods. You should carefully consider the risks described under **Risk Factors** **Risk Factors Related to the Auction Process** beginning on page S-21 of this prospectus supplement.

Eligibility and Account Status

In order to participate in the auction process, bidders must have an account with, and submit bids to purchase Preferred Shares through, either an auction agent or one of the network brokers. Brokers that are not network brokers will need to submit their bids, either for their own account or on behalf of their customers, through the auction agents or a network broker. If you wish to bid in the auction and do not have an account with an auction agent or a network broker, you will either need to establish such an account prior to bidding in the auction (which may be difficult to do before the submission deadline) or contact your existing broker and request that it submit a bid through an auction agent or a network broker. Network brokers and other brokers will have deadlines relating to the auction that we believe could be as much as one day earlier than those imposed by the auction agents, as described below under **The Auction Process** **The Bidding Process**. Investors who are concerned about the timely submission of bids are encouraged to submit their bids through the auction agents.

Because the Preferred Shares are complex financial instruments for which there is no established trading market, the auction agents, each network broker and any other broker that submits bids through the auction agents or any network broker will be required to establish and enforce client suitability standards, including eligibility, account status and size, to evaluate whether an investment in the Preferred Shares is appropriate for any particular investor. Each of them will individually apply its own standards in making that determination, but in each case those standards will be implemented in accordance with the applicable requirements and guidelines of the Financial Industry Regulatory Authority (FINRA). If you do not meet the relevant suitability requirements of an auction agent or another broker, you will not be able to bid in the auction. Accounts at an auction agent or any other broker, including broker accounts, are also subject to the customary rules of those institutions. You should contact your brokerage firm to better understand how you may submit bids in the auction process.

An auction agent or network brokers may require bidders (including any brokers that may be bidding on behalf of their customers) to submit additional information, such as tax identification numbers, a valid e-mail address and other contact information, and other information that may be required to establish or maintain an account.

The auction agents and the network brokers, upon request, will provide certain information to you in connection with the offering, including this prospectus supplement and the accompanying prospectus and forms used by such brokers, if any, to submit bids. Additionally, you should understand that:

before submitting a bid in the auction, you should read this prospectus supplement, the accompanying prospectus and the documents incorporated by reference, including all the risk factors;

Table of Contents

the minimum bid prices for the Series A Preferred Shares and Series B Preferred Shares were agreed by the auction agents and Treasury, and we did not participate in that determination and therefore cannot provide any information regarding the factors that Treasury and the auction agents considered in determining the minimum bid prices;

with respect to the Series A Preferred Shares:

if valid, irrevocable bids are received for 100% or more of the offered Series A Preferred Shares at the submission deadline, the Series A Clearing Price will be equal to the highest price at which all of the offered Series A Preferred Shares can be sold in the auction. In this case, the clearing price will be determined based on the number of valid, irrevocable bids at the time of the submission deadline that Treasury decides, in its sole discretion, to accept (it being understood that Treasury must accept bids for 100% of the offered Series A Preferred Shares if it accepts any bid);

if valid, irrevocable bids are received for at least half, but less than all, of the offered Series A Preferred Shares at the submission deadline, then Treasury may (but is not required to) sell, at the minimum bid price per share for such Series in the auction (which will be deemed the Series A Clearing Price), the number of Series A Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series A Preferred Shares are sold;

if bids are received for less than half of the offered Series A Preferred Shares, Treasury will not sell any Series A Preferred Shares in this offering;

if there is little or no demand for the Series A Preferred Shares at or above the public offering price once trading begins, the trading price of the shares of such Series will decline;

with respect to the Series B Preferred Shares:

if valid, irrevocable bids are received for 100% or more of the offered Series B Preferred Shares at the submission deadline, the Series B Clearing Price will be equal to the highest price at which all of the offered Series B Preferred Shares can be sold in the auction. In this case, the clearing price will be determined based on the number of valid, irrevocable bids at the time of the submission deadline that Treasury decides, in its sole discretion, to accept (it being understood that Treasury must accept bids for 100% of the offered Series B Preferred Shares if it accepts any bid);

if valid, irrevocable bids are received for at least half, but less than all, of the offered Series B Preferred Shares at the submission deadline, then Treasury may (but is not required to) sell, at the minimum bid price per share for such Series in the auction (which will be deemed the Series B Clearing Price), the number of Series B Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series B Preferred Shares are sold;

if bids are received for less than half of the offered Series B Preferred Shares, Treasury will not sell any Series B Preferred Shares in this offering;

if there is little or no demand for the Series B Preferred Shares at or above the public offering price once trading begins, the trading price of the shares of such Series will decline;

Edgar Filing: FIRST NATIONAL CORP /VA/ - Form 424B1

the liquidity of any market for the Preferred Shares may be affected by the number of Preferred Shares that Treasury elects to sell in this offering, and the price of the Preferred Shares may decline if the Preferred Shares are illiquid;

the auction agents, in their sole discretion, have the right to reconfirm any bid by contacting the purported bidder directly and to impose size limits on the aggregate size of bids that it chooses to accept from any bidder, including network brokers (although the auction agents are under no obligation to reconfirm bids for any reason, except as may be required by applicable securities laws). If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agents may deem your bid

S-34

Table of Contents

to have been withdrawn, but alternatively may in their discretion choose to accept any such bid even if it has not been reconfirmed;

the auction agents may reject any bid that they determine, in their discretion, has a potentially manipulative, disruptive or other adverse effect on the auction process or the offering; and

the auction agents will not provide bidders with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction process.

None of the underwriters, Treasury or us have undertaken any efforts to qualify the Preferred Shares for sale in any jurisdiction outside the United States. Except to the limited extent that this offering will be open to certain non-U.S. investors under private placement exemptions in certain countries other than the United States, investors located outside the United States should not expect to be eligible to participate in this offering.

Institutional investors in every state may purchase the Preferred Shares in this offering pursuant to exemptions under the Blue Sky laws of various states. The definition of an institutional investor varies from state to state but generally includes financial institutions, broker-dealers, banks, insurance companies and other qualified entities. The underwriters will offer and sell the Preferred Shares to retail customers only in Alabama, Colorado, Connecticut, District of Columbia, Georgia, Guam, Hawaii, Idaho, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, Vermont, West Virginia, Wisconsin and Wyoming. In other states, the underwriters will not sell the Preferred Shares to retail customers. If you are not an institutional investor, you may purchase Preferred Shares in this offering only in these jurisdictions. For more information, see the risk factor above. If you are not an institutional investor you may only purchase the Preferred Shares in this offering if you reside within certain states, and resale of the Preferred Shares by any investors may be limited by the Blue Sky laws of the various states and Underwriting State Blue Sky Information below.

Even if a bidder places a bid in the auction, it may not receive an allocation of the Preferred Shares in the offering for a number of reasons described below. You should consider all the information in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in determining whether to submit a bid, the number of Preferred Shares you seek to purchase and the price per share you are willing to pay.

The following brokers have agreed to be network brokers for purposes of the auction process: BB&T Capital Markets, a division of Scott & Stringfellow, LLC, Blaylock Robert Van, LLC, Boenning & Scattergood, Inc., Cabrera Capital Markets, LLC, Cantor Fitzgerald & Co., CastleOak Securities, L.P., Compass Point Research & Trading, LLC, D.A. Davidson & Co., Davenport & Co., FBR Capital Markets & Co., FIG Partners, LLC, Guggenheim Securities, Janney Montgomery Scott LLC, Jefferies & Company, Inc., Joseph Gunnar & Co. LLC, Keefe, Bruyette & Woods, Inc., Leberthal & Co., LLC, M.R. Beal & Company, Raymond James & Associates, Inc., Samuel A. Ramirez & Co., Smith, Moore & Co., Sterne, Agee & Leach, Inc., Stifel, Nicolaus & Company, Incorporated, TD Ameritrade, Inc., The Williams Capital Group, L.P., Toussaint Capital Partners, LLC, and Wedbush Morgan Securities Inc. The network brokers will not share in any underwriting discounts or fees paid by us in connection with the offering of the Preferred Shares but may, subject to applicable FINRA and SEC rules and regulations, charge a separate commission to their own customers.

The Auction Process

The following describes how the auction agents will conduct the auction process:

General

The auction will commence at 10:00 a.m., New York City time, on the date specified in a press release issued on such day, and will end at 6:30 p.m., New York City time, on the second business day immediately thereafter (the submission deadline). Unless you submit your bids

Table of Contents

through an auction agent, your broker will have an earlier deadline for accepting bids. If a malfunction, technical or mechanical problem, calamity, crisis or other similar event occurs that the auction agents believe may interfere with the auction process, the auction agents may (in consultation with Treasury) decide to extend the auction or cancel and reschedule the auction. The auction agents and the network brokers will advise bidders of any such decision to extend or cancel and reschedule the auction using e-mail, telephone or facsimile, and will attempt to make such notification prior to the time the auction is scheduled to close. If the auction process is extended such that it closes at a later time on the same business day, any bids previously submitted will continue to be valid unless amended or cancelled by the bidder, but if the auction is extended such that it closes on the following business day or later, or is cancelled, all bids will be cancelled at the time of such extension or cancellation.

The auction agents and the network brokers will contact potential investors with information about the auction process and how to participate and will solicit bids from prospective investors via electronic message, telephone and facsimile. The minimum bid price is \$817.00 per Series A Preferred Share and \$862.00 per Series B Preferred Share with a minimum size for any bid of one Preferred Share.

The Bidding Process

The auction agents and the network brokers will only accept bids in the auction process in increments of whole Preferred Shares; no fractional interests will be sold.

No maximum price or auction price range has been established in connection with the auction process, which means that there is no ceiling on the price per share that you or any other bidder can bid in the auction. Each bid must specify a price at or above the minimum bid price of \$817.00 per share for the Series A Preferred Shares (such bid price to be in increments of \$0.01) and \$862.00 per share for the Series B Preferred Shares (such bid price to be in increments of \$0.01) with a minimum bid size for any bid of one Preferred Share or such bid will be rejected.

Once the auction begins, you may submit your bids either directly through an auction agent or through any network broker. Bids through the network brokers will be aggregated and submitted to the auction agents as single bids at each price increment by those brokers. Bids will only be accepted if they are made on an unconditional basis (i.e., no all-or-none bids will be accepted).

In connection with submitting a bid, you will be required to provide the following information:

the number of Series A Preferred Shares, Series B Preferred Shares, or combination of both that you are interested in purchasing (only in whole shares no fractional interests);

the price per share you are willing to pay (such bid price to be in increments of \$0.01) at or above the minimum bid price of \$817.00 per Series A Preferred Share and \$862.00 per Series B Preferred Share with a minimum size for any bid of one Preferred Share; and

any additional information that may be required to enable an auction agent and/or network broker to identify you, confirm your eligibility and suitability for participating in this offering, and, if you submit a successful bid, consummate a sale of Preferred Shares to you.

You may submit multiple bids. Canceling one bid does not cancel any other bid. However, as bids are independent, each bid may result in an allocation of Preferred Shares. Consequently, the sum of your bid sizes for a Series should be no more than the total

Edgar Filing: FIRST NATIONAL CORP /VA/ - Form 424B1

number of shares of such Series you are willing to purchase. In addition, the auction agents may impose size limits on the aggregate size of bids that they choose to accept from any bidder (including any network broker), although the auction agents are under no obligation to do so or to reconfirm bids for any reason, except as may be required by applicable securities laws.

At any time prior to the submission deadline, you may modify your bids to increase or decrease the number of Preferred Shares bid for or the price bid per share and may withdraw your bid and reenter the auction. Network brokers, however, will impose earlier submission deadlines than that imposed by

S-36

Table of Contents

the auction agents in order to have sufficient time to aggregate bids received from their respective customers and to transmit the aggregate bid to the auction agents before the auction closes. We believe these earlier deadlines could be as much as one day earlier than the deadlines imposed by the auction agents. If you are bidding through a network broker, or another broker that is submitting bids through an auction agent or a network broker, you should be aware of any earlier submission deadlines that may be imposed by your broker. Investors who are concerned about the timely submission of bids are encouraged to submit their bids through the auction agents.

Conditions for valid bids, including eligibility standards and account funding requirements, may vary from broker to broker. Some brokers, for example, may require a prospective investor to maintain a minimum account balance or to ensure that its account balance is equal to or in excess of the amount of its bid. No funds will be transferred to the underwriters until the acceptance of the bid and the allocation of Preferred Shares.

A bid received by an auction agent or any network broker involves no obligation or commitment of any kind prior to the submission deadline. Therefore, you will be able to withdraw a bid at any time prior to the submission deadline (or any deadline imposed by a network broker, if you are bidding through a network broker). Following the submission deadline, however, all bids that have not been modified or withdrawn by you prior to the submission deadline will be considered final and irrevocable and may be accepted. The auction agents and Treasury will rely on your bid in setting the public offering price and in sending notices of acceptance to successful bidders.

If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agents may deem your bid to have been withdrawn. The auction agents may, however, choose to accept your bid even if it has not been reconfirmed.

The auction agents may reject any bid that they determine, in their discretion, has a potentially manipulative, disruptive or other adverse effect on the auction process or the offering.

The auction agents will not provide bidders with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction process.

No funds will be transferred to the underwriters until the acceptance of the bid and the allocation of the Preferred Shares. However, the auction agents or any network broker may require you to deposit funds or securities in your brokerage accounts with value sufficient to cover the aggregate dollar amount of your bids. Bids may be rejected if you do not provide the required funds or securities within the required time. The auction agents or any network broker may, however, decide to accept successful bids regardless of whether you have deposited funds or securities in your brokerage accounts. In any case, if you are a successful bidder, you will be obligated to purchase the Preferred Shares allocated to you in the allocation process and will be required to deposit funds in your brokerage accounts prior to settlement, which is expected to occur three or four business days after the notices of acceptance are sent to you.

Pricing and Allocation

The auction agents will manage the master order book that will aggregate all bids and will include the identity of the bidders (or their brokers, in the case of bids submitted through a network broker). The master order book will not be available for viewing by bidders. Bidders whose bids are accepted will be informed about the result of their bids.

With respect to the Series A Preferred Shares:

Edgar Filing: FIRST NATIONAL CORP /VA/ - Form 424B1

- i If valid, irrevocable bids are received for 100% or more of the offered Series A Preferred Shares, the Series A Clearing Price will be equal to the highest price at which all of the offered Series A Preferred Shares can be sold in the auction. In this case, the Series A Clearing Price will be determined based on the number of valid, irrevocable bids at the time of the submission deadline that Treasury decides, in its sole discretion, to accept (it being understood that Treasury must accept bids for 100% of the offered Series A Preferred Shares if it accepts any bid). If valid,

S-37

Table of Contents

irrevocable bids for 100% or more of the offered Series A Preferred Shares are received, any accepted bids submitted in the auction above the Series A Clearing Price will receive allocations in full, while each bid submitted at the Series A Clearing Price will be allocated the number of Series A Preferred Shares represented by such bids, in the case bids for 100% of the offered Series A Preferred Shares are received, or a number of Series A Preferred Shares approximately equal to the pro-rata allocation percentage multiplied by the number of Series A Preferred Shares represented by such bid, rounded to the nearest whole number of Series A Preferred Shares (subject to rounding to eliminate odd-lots), in the case bids for more than 100% of the offered Series A Preferred Shares are received.

- i If valid, irrevocable bids are received for at least half, but less than all, of the offered Series A Preferred Shares at the submission deadline, then Treasury may (but is not required to) sell, at the minimum bid price for such Series in the auction (which will be deemed the Series A Clearing Price), the number of Series A Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series A Preferred Shares are sold, and in such a case if Treasury chooses to sell fewer Series A Preferred Shares than the number of Series A Preferred Shares for which bids were received, then all bids will experience equal pro-rata allocation.
- i If bids are received for less than half of the offered Series A Preferred Shares, Treasury will not sell any Series A Preferred Shares in this offering.
- i Unless Treasury decides not to sell any Series A Preferred Shares or as otherwise described below, all Series A Preferred Shares will be sold to bidders at the Series A Clearing Price plus accrued dividends thereon.
- i Promptly after the auction agents determine the Series A Clearing Price, they will communicate that clearing price to Treasury. Treasury may decide not to sell any Series A Preferred Shares after the Series A Clearing Prices is determined or, in the case where bids are reserved for at least half, but less than all, of the offered Series A Preferred Shares, may decide to sell only a portion (but not less than half) of the offered Series A Preferred Shares. Once Treasury confirms its acceptance of the Series A Clearing Price and the number of Series A Preferred Shares to be sold, the auction agents will confirm allocations of Series A Preferred Shares to its clients and the network brokers. The underwriters will sell all Series A Preferred Shares at the same price per share plus accrued dividends.
- i If Treasury elects to sell Series A Preferred Shares in the offering, allocation of the Series A Preferred Shares will be determined by, first, allocating Series A Preferred Shares to any bids made above the Series A Clearing Price, and second, allocating Series A Preferred Shares (on a pro-rata basis if appropriate) among bids made at the Series A Clearing Price. Any pro-rata allocation percentage for bids made at the Series A Clearing Price will be determined by dividing the number of Series A Preferred Shares to be allocated at the bidding increment equal to the clearing price by the number of Series A Preferred Shares represented by bids at that bidding increment. Each accepted bid submitted at the Series A Clearing Price will be allocated a number of Series A Preferred Shares approximately equal to the pro-rata allocation percentage multiplied by the number of Series A Preferred Shares represented by its bid, rounded to the nearest whole number of Series A Preferred Shares. In no case, however, will any rounded amount exceed the original bid size.

With respect to the Series B Preferred Shares:

- i If valid, irrevocable bids are received for 100% or more of the offered Series B Preferred Shares, the Series B Clearing Price will be equal to the highest price at which all of the offered Series B Preferred Shares can be sold in the auction. In this case, the Series B Clearing Price will be determined based on the number of valid, irrevocable bids at the time of the submission deadline

Table of Contents

that Treasury decides, in its sole discretion, to accept (it being understood that Treasury must accept bids for 100% of the offered Series B Preferred Shares if it accepts any bid). If valid, irrevocable bids for 100% or more of the offered Series B Preferred Shares are received, any accepted bids submitted in the auction above the Series B Clearing Price will receive allocations in full, while each bid submitted at the Series B Clearing Price will be allocated the number of Series B Preferred Shares represented by such bids, in the case bids for 100% of the offered Series B Preferred Shares are received, or a number of Series B Preferred Shares approximately equal to the pro-rata allocation percentage multiplied by the number of Series B Preferred Shares represented by such bid, rounded to the nearest whole number of Series B Preferred Shares (subject to rounding to eliminate odd-lots), in the case bids for more than 100% of the offered Series B Preferred Shares are received.

- i If valid, irrevocable bids are received for at least half, but less than all, of the offered Series B Preferred Shares at the submission deadline, then Treasury may (but is not required to) sell, at the minimum bid price for such Series in the auction (which will be deemed the Series B Clearing Price), the number of Series B Preferred Shares it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered Series B Preferred Shares are sold, and in such a case if Treasury chooses to sell fewer Series B Preferred Shares than the number of Series B Preferred Shares for which bids were received, then all bids will experience equal pro-rata allocation.
- i If bids are received for less than half of the offered Series B Preferred Shares, Treasury will not sell any Series B Preferred Shares in this offering.
- i Unless Treasury decides not to sell any Series B Preferred Shares or as otherwise described below, all Series B Preferred Shares will be sold to bidders at the Series B Clearing Price plus accrued dividends thereon.
- i Promptly after the auction agents determine the Series B Clearing Price, they will communicate that clearing price to Treasury. Treasury may decide not to sell any Series B Preferred Shares after the Series B Clearing Price is determined or, in the case where bids are reserved for at least half, but less than all, of the offered Series B Preferred Shares, may decide to sell only a portion (but not less than half) of the offered Series B Preferred Shares. Once Treasury confirms its acceptance of the Series B Clearing Price and the number of Series B Preferred Shares to be sold, the auction agents will confirm allocations of Series B Preferred Shares to its clients and the network brokers. The underwriters will sell all Series B Preferred Shares at the same price per share plus accrued dividends.
- i If Treasury elects to sell Series B Preferred Shares in the offering, allocation of the Series B Preferred Shares will be determined by, first, allocating Series B Preferred Shares to any bids made above the Series B Clearing Price, and second, allocating Series B Preferred Shares (on a pro-rata basis if appropriate) among bids made at the Series B Clearing Price. Any pro-rata allocation percentage for bids made at the Series B Clearing Price will be determined by dividing the number of Series B Preferred Shares to be allocated at the bidding increment equal to the clearing price by the number of Series B Preferred Shares represented by bids at that bidding increment. Each accepted bid submitted at the Series B Clearing Price will be allocated a number of Series B Preferred Shares approximately equal to the pro-rata allocation percentage multiplied by the number of Series B Preferred Shares represented by its bid, rounded to the nearest whole number of Series B Preferred Shares. In no case, however, will any rounded amount exceed the original bid size.

After Treasury confirms its acceptance of the clearing price and the number of Preferred Shares to be sold, the auction agents and each network broker that has submitted successful bids will notify you, in the event your bids have been accepted by Treasury, by electronic message, telephone, facsimile or otherwise that the auction has closed and that your bids have been accepted by Treasury (subject, in some cases, to

Table of Contents

pro-rata, as described in this prospectus supplement). They may also provide you with a preliminary allocation estimate, which will be subsequently followed by a final allocation and confirmation of sale. In the event your bids are not accepted, you may be notified that your bids have not been accepted. As a result of the varying delivery times involved in sending e-mails over the Internet and other methods of delivery, you may receive notices of acceptance before or after other bidders.

The clearing price and number of Preferred Shares to be sold are expected to be announced via press release on the business day following the end of the auction. The price will also be included in the notice of acceptance and the confirmation of sale that will be sent to successful bidders, and will also be included in the final prospectus supplement for the offering.

Sales to investors will be settled through your account with the broker through which your bid was submitted.

If you submit bids that are accepted by Treasury, you will be obligated to purchase the Preferred Shares allocated to you regardless of whether you are aware that the notice of acceptance of your bid has been sent. Once an underwriter has sent out a notice of acceptance and confirmation of sale, it will not cancel or reject your bid. The auction agents and Treasury will rely on your bid in setting the public offering price and in sending notices of acceptance to successful bidders. As a result, you will be responsible for paying for all of the Preferred Shares that are finally allocated to you at the public offering price.

You should carefully review the procedures of, and communications from, the institution through which you bid to purchase Preferred Shares.

Auction Process Developments

You should keep in contact with the institution through which your bid has been submitted and monitor your relevant e-mail accounts, telephone and facsimile for notifications related to this offering, which may include:

Potential Request for Reconfirmation. The auction agents, in their sole discretion, may ask you to reconfirm your bid by directly contacting you (or your broker, if you submitted your bid through a broker other than an auction agent), although the auction agents are under no obligation to reconfirm bids for any reason, except as may be required by applicable securities laws. If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agents may deem your bid to have been withdrawn. The auction agents may, however, choose to accept your bid even if it has not been reconfirmed.

Notice of Acceptance. Notification as to whether any of your bids are successful and have been accepted by Treasury. This notification will include the final clearing price. If your bids have been accepted by Treasury, you will be informed about the results of the auction process.

Table of Contents

SELLING SHAREHOLDER

The table below sets forth information concerning the resale of the Preferred Shares by Treasury. We will not receive any proceeds from the sale of any Preferred Shares sold by Treasury. Our operations are regulated by various U.S. governmental authorities, including in certain respects by Treasury. Other than through its role as a regulator and the acquisition of the Preferred Shares, Treasury has not held any position or office or had any other material relationship with us or any of our predecessors or affiliates within the past three years.

Treasury acquired the Preferred Shares as part of the Troubled Asset Relief Program, which was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). EESA was enacted into law on October 3, 2008 to restore confidence and stabilize the volatility in the U.S. banking system and to encourage financial institutions to increase their lending to customers and to each other.

The following description was provided by Treasury and is derived from the website of Treasury. Treasury is the executive agency of the United States government responsible for promoting economic prosperity and ensuring the financial security of the United States. Treasury is responsible for a wide range of activities, such as advising the President of the United States on economic and financial issues, encouraging sustainable economic growth and fostering improved governance in financial institutions. Treasury operates and maintains systems that are critical to the nation's financial infrastructure, such as the production of coin and currency, the disbursement of payments to the American public, revenue collection and the borrowing of funds necessary to run the federal government. Treasury works with other federal agencies, foreign governments, and international financial institutions to encourage global economic growth, raise standards of living and, to the extent possible, predict and prevent economic and financial crises. Treasury also performs a critical and far-reaching role in enhancing national security by implementing economic sanctions against foreign threats to the United States, identifying and targeting the financial support networks of national security threats and improving the safeguards of our financial systems. In addition, under the EESA, Treasury was given certain authority and facilities to restore the liquidity and stability of the financial system.

The doctrine of sovereign immunity, as limited by the FTCA, provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. The courts have held, in cases involving federal agencies and instrumentalities, that the United States may assert its sovereign immunity to claims brought under the federal securities laws. Thus, any attempt to assert a claim against Treasury alleging a violation of the federal securities laws, including the Securities Act and the Exchange Act, resulting from an alleged material misstatement in or material omission from this prospectus supplement, the accompanying prospectus or the registration statement of which this prospectus supplement and the accompanying prospectus are a part, or any other act or omission in connection with the offering to which this prospectus supplement and the accompanying prospectus relate, likely would be barred. In addition, Treasury and its members, officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. The underwriters are not claiming to be agents of Treasury in this offering. Accordingly, any attempt to assert such a claim against the members, officers, agents or employees of Treasury for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus supplement, the accompanying prospectus or the registration statement of which this prospectus supplement and the accompanying prospectus are a part or resulting from any other act or omission in connection with the offering to which this prospectus supplement and the accompanying prospectus relates likely would be barred. See Risk Factors Treasury is a federal agency and your ability to bring a claim against Treasury under the federal securities laws in connection with a purchase of Preferred Shares may be limited.

The table below sets forth information with respect to the number of Preferred Shares beneficially owned by Treasury as of the date of this prospectus supplement, the number of Preferred Shares being offered by Treasury in this offering, and the number of Preferred Shares to be beneficially owned by Treasury after this offering.

Table of Contents

The percentages below are calculated based on 13,900 Series A Preferred Shares and 695 Series B Preferred Shares issued and outstanding as of the date of this prospectus supplement.

Name and Address of Beneficial Owner	Beneficial Ownership Prior to the Offering(1)		Beneficial Ownership After the Offering(1)	
	Number of Preferred Shares Beneficially Owned(1)	Percent	Number of Preferred Shares Beneficially Owned(1)	Percent
<i>Series A Preferred Shares</i>				
United States Department of the Treasury 1500 Pennsylvania Avenue, N.W. Washington, D.C. 20220	13,900	100%	0	0%
<i>Series B Preferred Shares</i>				
United States Department of the Treasury 1500 Pennsylvania Avenue, N.W. Washington, D.C. 20220	695	100%	0	0%

- (1) In accordance with Rule 13d-3 under the Exchange Act, a person is deemed to be the beneficial owner, for purposes of this table, of any Preferred Shares over which such person has voting or investment power and of which such person has the right to acquire beneficial ownership within 60 days.

Table of Contents

U.S. FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes the material U.S. federal income tax consequences applicable to U.S. holders and non-U.S. holders (each as defined below) with respect to the purchase, ownership and disposition of the Preferred Shares. This summary is based upon current provisions of the Internal Revenue Code of 1986, as amended from time to time (the Code), Treasury regulations and judicial and administrative authority, all of which are subject to differing interpretations or change, possibly with retroactive effect. This summary is limited to investors who will hold the Preferred Shares as capital assets and does not discuss all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances. This discussion does not address the tax consequences to investors who are subject to special tax rules, such as banks and other financial institutions, insurance companies, governments and governmental entities, broker-dealers, partnerships and their partners, tax-exempt organizations, investors that will hold the Preferred Shares as part of a straddle, hedge, conversion, constructive sale, or other integrated security transaction for U.S. federal income tax purposes, U.S. expatriates, or U.S. holders that have a functional currency that is not the U.S. dollar, all of whom may be subject to tax rules that differ significantly from those summarized below. In addition, this summary does not address any alternative minimum tax consequences or any state, local or non-U.S. tax consequences. Each prospective investor is urged to consult its own tax advisors regarding the U.S. federal, state, local, and non-U.S. income and other tax considerations of the purchase, ownership, and disposition of the Preferred Shares.

For purposes of this summary, you are a U.S. holder if you are a beneficial owner of the Preferred Shares and you are for U.S. federal income tax purposes (i) an individual citizen or resident of the United States, (ii) a corporation created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust if it (A) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (B) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person. You are a non-U.S. holder if you are a beneficial owner of the Preferred Shares that is an individual, corporation, estate or trust that is not a U.S. holder.

If a partnership (including any other entity treated as a partnership for U.S. federal income tax purposes) is a holder of the Preferred Shares, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partnership or a partner of a partnership holding Preferred Shares, you should consult your own tax advisors as to the particular U.S. federal income tax consequences of the purchase, ownership and disposition of the Preferred Shares.

U.S. Holders

Distributions on the Preferred Shares. In general, if distributions are made with respect to the Preferred Shares, the distributions will be treated as dividends to the extent of our current and accumulated earnings and profits as determined for U.S. federal income tax purposes. Any portion of a distribution in excess of our current and accumulated earnings and profits is treated first as a nontaxable return of capital reducing your tax basis in the Preferred Shares. Any amount in excess of your tax basis is treated as capital gain, the tax treatment of which is discussed below under Sale or Redemptions of the Preferred Shares.

Dividends received by individual holders of the Preferred Shares will generally be subject to a reduced maximum tax rate of 15% if such dividends are treated as qualified dividend income for U.S. federal income tax purposes. The rate reduction does not apply to dividends that are paid to individual stockholders with respect to Preferred Shares that are held for 60 days or less during the 121-day period beginning on the date which is 60 days before the date on which the Preferred Shares become ex-dividend. Furthermore, the rate reduction does not apply to dividends received to the extent that an individual holder elects to treat the dividends as investment income for purposes of determining the holder's limit for the deduction of investment interest under Section 163(d) of the Code. The 15% dividend rate is scheduled to expire December 31, 2012, at which time the

Table of Contents

rate will revert back to ordinary income rates previously in effect and applicable to dividends unless the Code is amended to provide for a different rate. In addition, under the Health Care and Education Reconciliation Act of 2010, dividends received after December 31, 2012 by U.S. holders that are individuals could be subject to the 3.8% tax on net investment income. You should consult your own tax advisors regarding the implications of these rules in light of your particular circumstances.

Dividends received by corporate holders of the Preferred Shares may be eligible for a dividends received deduction equal to 70% of the amount of the distribution, subject to applicable limitations, including limitations related to debt financed portfolio stock under Section 246A of the Code and to the holding period requirements of Section 246 of the Code. In addition, any amount received by a corporate holder that is treated as a dividend may, depending on the circumstances, constitute an extraordinary dividend subject to the provisions of Section 1059 of the Code (except as may otherwise be provided in Treasury regulations yet to be promulgated). Under Section 1059, a corporate holder that has held shares for two years or less before the dividend announcement date generally must reduce the tax basis of all of the holder's shares (but not below zero) by the non-taxed portion of any extraordinary dividend and, if the non-taxed portion exceeds the holder's tax basis for the shares, must treat any excess as gain from the sale or exchange of the shares in the year the payment is received. Individual holders of Preferred Shares that receive any extraordinary dividends that are treated as qualified dividend income (as discussed above) will be required to treat any losses on the sale of such Preferred Shares as long-term capital losses to the extent of such dividends. We strongly encourage you to consult your own tax advisor regarding the extent, if any, to which these provisions may apply to you in light of your particular facts and circumstances.

Sale or Redemption of the Preferred Shares. On the sale or exchange of the Preferred Shares to a party other than us, you generally will realize capital gain or loss in an amount equal to the difference between (a) the amount of cash and the fair market value of any property you receive on the sale and (b) your tax basis in the Preferred Shares. We strongly encourage you to consult your own tax advisors regarding applicable rates, holding periods and netting rules for capital gains and losses in light of your particular facts and circumstances. Certain limitations exist on the deduction of capital losses by both corporate and non-corporate taxpayers.

On the redemption of Preferred Shares by us, your surrender of the Preferred Shares for the redemption proceeds will be treated either as a payment received upon sale or exchange of the Preferred Shares or as a distribution with respect to all of your equity interests in us. Resolution of this issue will turn on the application of Section 302 of the Code to your individual facts and circumstances.

The redemption will be treated as gain or loss from the sale or exchange of Preferred Shares (as discussed above) if:

the redemption is substantially disproportionate with respect to you within the meaning of Section 302(b)(2) of the Code;

your interest in the Preferred Shares and any other equity interest in us is completely terminated (within the meaning of Section 302(b)(3) of the Code) as a result of such redemption; or

the redemption is not essentially equivalent to a dividend (within the meaning of Section 302(b)(1) of the Code). In general, redemption proceeds are not essentially equivalent to a dividend if the redemption results in a meaningful reduction of your interest in the issuer.

In determining whether any of these tests has been met, you must take into account not only the Preferred Shares and other equity interests in us that you actually own, but also shares and other equity interests that you constructively own within the meaning of Section 318 of the Code.

If none of the above tests giving rise to sale or exchange treatment is satisfied, then a payment made in redemption of the Preferred Shares will be treated as a distribution that is subject to the tax treatment described above under Distributions on the Preferred Shares. The amount of the distribution will be equal to the amount

Table of Contents

of cash and the fair market value of property you receive without any offset for your tax basis in the Preferred Shares. Your tax basis in the redeemed Preferred Shares should be transferred to your remaining Preferred Shares. If, however, you have no remaining Preferred Shares, your basis could be lost.

Any redemption proceeds that are attributable to any declared but unpaid dividends on the Preferred Shares will generally be subject to the rules described above under **U.S. Holders** **Distributions on the Preferred Shares**.

We strongly encourage you to consult your own tax advisor regarding: (a) whether a redemption payment will qualify for sale or exchange treatment under Section 302 of the Code or, alternatively, will be characterized as a distribution; and (b) the resulting tax consequences to you in light of your individual facts and circumstances.

Information Reporting and Backup Withholding. Information reporting will generally apply to noncorporate U.S. holders with respect to payments of dividends on the Preferred Shares and to certain payments of proceeds on the sale or other disposition of the Preferred Shares. Certain noncorporate U.S. holders may be subject to U.S. backup withholding (currently at a rate of 28%) on payments of dividends on the Preferred Shares and certain payments of proceeds on the sale or other disposition of the Preferred Shares unless the beneficial owner of the Preferred Shares furnishes the payor or its agent with a taxpayer identification number, certified under penalties of perjury, and certain other information, or otherwise establishes, in the manner prescribed by law, an exemption from backup withholding.

U.S. backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a credit against a U.S. holder's U.S. federal income tax liability, which may entitle the U.S. holder to a refund, provided the U.S. holder timely furnishes the required information to the Internal Revenue Service (the "IRS").

Non-U.S. Holders

Distributions on the Preferred Shares. Distributions treated as dividends as described above under **U.S. Holders** **Distributions on the Preferred Shares** paid to a non-U.S. holder of the Preferred Shares will generally be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, distributions that are effectively connected with the conduct by the non-U.S. holder of a trade or business within the United States are not subject to the withholding tax, provided certain certification and disclosure requirements are satisfied. Instead, such distributions are subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person as defined under the Code, unless an applicable income tax treaty provides otherwise. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

For purposes of obtaining a reduced rate of withholding under an income tax treaty or an exemption from withholding for dividends effectively connected to a U.S. trade or business, a non-U.S. holder will generally be required to provide a U.S. taxpayer identification number as well as certain information concerning the holder's country of residence and entitlement to tax benefits. A non-U.S. holder can generally meet the certification requirements by providing a properly executed IRS Form W-8BEN (if the holder is claiming the benefits of an income tax treaty) or Form W-8ECI (if the dividends are effectively connected with a trade or business in the United States) or suitable substitute form.

Sale or Redemption of the Preferred Shares. A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on gain realized on the sale, exchange, redemption (except as discussed below) or other disposition of the Preferred Shares except for (i) certain non-resident alien individuals that are present in the United States for 183 or more days in the taxable year of the sale or disposition, (ii) gain that is effectively

Table of Contents

connected with the conduct by the non-U.S. holder of a trade or business within the United States (and, if a tax treaty applies, is attributable to a permanent establishment maintained by the non-U.S. holder in the United States), (iii) non-U.S. holders that are subject to tax pursuant to certain provisions of U.S. federal income tax law applicable to certain expatriates, and (iv) gain if we are or have been a United States real property holding corporation for U.S. federal income tax purposes.

We would not be treated as a United States real property holding corporation if less than 50% of our assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interest in real property solely in a capacity as a creditor. To the extent that we are or have been a United States real property holding corporation for U.S. federal income tax purposes and a non-U.S. holder was not eligible for a treaty exemption, any gain on the sale of our Preferred Shares would be treated as effectively connected with a trade or business within the United States and the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS. Gain that is treated as effectively connected with a trade or business within the United States will be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder was a United States person as defined under the Code, unless an applicable income tax treaty provides otherwise. Any such effectively connected income received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

We believe that we are not currently and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

A payment made to a non-U.S. holder in redemption of the Preferred Shares may be treated as a dividend, rather than as a payment in exchange for such stock, in the circumstances discussed above under U.S. Holders Sale or Redemption of the Preferred Shares, in which event such payment would be subject to tax as discussed above under Distributions on the Preferred Shares. Prospective investors should consult their own tax advisors to determine the proper tax treatment of any payment received in redemption of the Preferred Shares.

Information Reporting and Backup Withholding. Information returns will be filed with the IRS reporting payments of dividends on the Preferred Shares and the amount of tax, if any, withheld with respect to those payments. Copies of information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which a non-U.S. holder resides under the provisions of an applicable income tax treaty. Unless the non-U.S. holder complies with certification procedures to establish that it is not a U.S. person, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition of the Preferred Shares and the non-U.S. holder may be subject to U.S. backup withholding on dividend payments on the Preferred Shares or on the proceeds from a sale or other disposition of the Preferred Shares. Satisfaction of the certification procedures required to claim a reduced rate of withholding under a treaty described above in the section titled Distributions on the Preferred Shares will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a non-U.S. holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS. Non-U.S. holders are urged to consult their own tax advisors regarding the application of backup withholding in their particular circumstances and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury regulations.

New Legislation Relating to Foreign Accounts

Legislation enacted in 2010 may impose withholding taxes on certain types of payments made to foreign financial institutions and certain other non-U.S. entities after December 31, 2012. The legislation generally imposes a 30% withholding tax on dividends on or gross proceeds from the sale or other disposition of Preferred Shares paid to a foreign financial institution unless the foreign financial institution enters into an agreement with the Treasury to among other things, undertake to identify accounts held by certain U.S. persons or U.S.-owned

Table of Contents

foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. In addition, the legislation generally imposes a 30% withholding tax on the same types of payments to a foreign non-financial entity unless the entity certifies that it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. Under recently issued IRS guidance, these rules generally would apply to payments of dividends on the Preferred Shares made after December 31, 2013, and payments of gross proceeds from a disposition of the Preferred Shares made after December 31, 2014. Prospective investors should consult their tax advisors regarding this legislation.

S-47

Table of Contents**UNDERWRITING**

Treasury is offering the Preferred Shares through Merrill Lynch, Pierce, Fenner & Smith Incorporated and Sandler O'Neill & Partners, L.P. as representatives of the several underwriters. The terms and conditions set forth in the underwriting agreement, dated August 23, 2012, govern the sale and purchase of the Preferred Shares. Each underwriter named below has severally agreed to purchase from Treasury, and Treasury has agreed to sell to such underwriter, the number of Preferred Shares set forth opposite the name of each underwriter below at the public offering price less the underwriting discounts set forth on the cover page of this prospectus supplement.

Underwriter	Number of Series A Preferred Shares	Number of Series B Preferred Shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	6,950	347
Sandler O'Neill & Partners, L.P.	6,950	348
Total	13,900	695

The underwriting agreement provides that the obligations of the several underwriters to purchase the Preferred Shares offered hereby are subject to certain conditions precedent and that the underwriters will purchase all of the Preferred Shares that Treasury determines to sell, if any are purchased. The number of Preferred Shares that Treasury may determine to sell will depend, in part, upon the success of the auction process. See Auction Process The Auction Process Pricing and Allocation.

The underwriters plan to offer the Preferred Shares for sale pursuant to the auction process described above under Auction Process. Preferred Shares sold by the underwriters to the public will be sold at the clearing price determined through that auction process plus accrued dividends thereon. During the auction period, bids may be placed for Preferred Shares at any price in increments of \$0.01. The offering of the Preferred Shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part. As described under Auction Process, Treasury may decide not to sell any Preferred Shares in the auction process, regardless of the clearing price set in the auction process.

The underwriters are committed to purchase and pay for all such Preferred Shares, if any are purchased. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or this offering may be terminated. The underwriting agreement provides that the obligations of the underwriters are conditional and may be terminated at their discretion based on their assessment of the state of the financial markets. The obligations of the underwriters may also be terminated upon the occurrence of the events specified in the underwriting agreement.

The following table shows the per share and total underwriting discounts and commissions that the underwriters will receive and the proceeds Treasury will receive.

Preferred Stock	Per Share	Total
Price to public(1)		
Series A Preferred Shares	\$ 882.5000	\$ 12,266,750.00
Series B Preferred Shares	\$ 912.5000	\$ 634,187.50
Underwriting discounts and commissions to be paid by Treasury(2)		
Series A Preferred Shares	\$ 13.2375	\$ 184,001.25
Series B Preferred Shares	\$ 13.6875	\$ 9,512.81
Proceeds to Treasury(1)		
Series A Preferred Shares	\$ 869.2625	\$ 12,082,748.75
Series B Preferred Shares	\$ 898.8125	\$ 624,674.69
Total Proceeds to Treasury(1)		\$ 12,707,423.44

- (1) Plus accrued dividends from and including August 15, 2012.

S-48

Table of Contents

- (2) Treasury has agreed to pay all underwriting discounts and commissions and transfer taxes. We have agreed to pay all transaction fees, if any, applicable to the sale of the Preferred Shares and certain fees and disbursements of counsel for Treasury incurred in connection with this offering.

We estimate that the total expenses of this offering, other than the underwriting discounts and commissions and transfer taxes, if any, will be approximately \$97,000 and are payable by us.

Restriction on Sales of Securities

We and Treasury have agreed, for the period beginning on and including the date of this prospectus supplement through and including the date that is 30 days after the date of this prospectus supplement, that we will not, without the prior written consent of the representatives, (i) directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of preferred stock or any securities convertible into, or exercisable or exchangeable, for preferred stock or file any registration statement under the 1933 Act with respect to any of the foregoing or (ii) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of preferred stock.

The restrictions described in the immediately preceding paragraph will not apply to sales by Treasury of any of our Preferred Shares back to us. The underwriters may, in their sole discretion and at any time and from time to time, without notice, release all or any portion of the Preferred Shares and other securities from the foregoing restrictions.

Indemnity

We have agreed to indemnify Treasury and the underwriters and persons who control the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make in respect of these liabilities.

Stabilization

In connection with this offering, the underwriters may engage in stabilizing transactions.

Stabilizing transactions permit bids to purchase Preferred Shares so long as the stabilizing bids do not exceed a specified maximum, and are engaged in for the purpose of preventing or retarding a decline in the market price of Preferred Shares while this offering is in progress.

These stabilizing transactions may have the effect of raising or maintaining the market price of our Preferred Shares or preventing or retarding a decline in the market price of our Preferred Shares. As a result, the price of our Preferred Shares in the open market may be higher than it would otherwise be in the absence of these transactions. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of our Preferred Shares. These transactions may be effected in the open market or otherwise and, if commenced, may be discontinued at any time.

Listing

The Preferred Shares will not be listed for trading on any stock exchange or available for quotation on any national quotation system.

State Blue Sky Information

Institutional investors in every state may purchase the Preferred Shares in this offering pursuant to exemptions under the Blue Sky laws of various states. The definition of an institutional investor varies from state to state but generally includes financial institutions, broker-dealers, banks, insurance companies and other qualified entities.

Table of Contents

The underwriters will offer and sell the Preferred Shares to retail customers only in Alabama, Colorado, Connecticut, District of Columbia, Georgia, Guam, Hawaii, Idaho, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, Vermont, West Virginia, Wisconsin and Wyoming. In other states, the underwriters will not sell the Preferred Shares to retail customers. If you are not an institutional investor, you may purchase Preferred Shares in this offering only in these jurisdictions.

We file periodic and annual reports under the Securities Exchange Act of 1934. Therefore, under the National Securities Markets Improvement Act of 1996 and applicable SEC rules, the resale of the Preferred Shares is exempt from state registration requirements. However, states are permitted to require notice filings and collect fees with regard to these transactions, and a state may suspend the offer and sale of securities within such state if any such required filing is not made or fee is not paid. Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Guam, Hawaii, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Utah, the Virgin Islands, Virginia, Washington, West Virginia, Wisconsin, and Wyoming either do not presently require any notice filings or fee payments or have not yet issued rules or regulations indicating whether notice filings or fee payments will be required.

The District of Columbia, Illinois, Maryland, Montana, New Hampshire, North Dakota, Oregon, Puerto Rico, Tennessee, Texas, and Vermont currently permit the resale of the Preferred Shares if the proper notice filings have been submitted and the required fees have been paid.

As of the date of this prospectus supplement, we have not determined in which, if any, of these states we will submit the required filings or pay the required fee. Additionally, if any of these states that has not yet adopted a statute relating to the National Securities Markets Improvement Act of 1996 adopts such a statute in the future requiring a filing or fee or if any state amends its existing statutes with respect to its requirements, we would need to comply with those new requirements in order for the securities to continue to be eligible for resale in those jurisdictions.

Aside from the exemption from registration provided by the National Securities Markets Improvement Act of 1996, we believe that the Preferred Shares may be eligible for sale on a secondary market basis in various states based on the availability of another applicable exemption from state registration requirements, in certain instances subject to waiting periods, notice filings or fee payments.

You should consult with your attorney or financial advisor concerning the application of the Blue Sky laws to your acquisition and the disposition of the Preferred Shares.

Selling Restrictions

United Kingdom

Each underwriter shall be deemed to have represented, warranted and agreed that:

it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the FSMA)) received by it in connection with the issue or sale of the Preferred Shares in circumstances in which Section 21(1) of the FSMA does not apply to our company; and

it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Preferred Shares in, from or otherwise involving the United Kingdom.

This prospectus supplement and the accompanying prospectus are only being distributed to, and is only directed at, (i) persons who are outside the United Kingdom or (ii) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order) or (iii) high net worth companies, unincorporated associations and other persons, falling within Article 49(2)(a) to (d) of the Order or (iv) other persons to whom it may be lawfully communicated in accordance with the Order (all such persons together being referred to as relevant persons). The Preferred Shares are only available to,

Table of Contents

and investment activity will only be engaged in with, relevant persons. Any person that is not a relevant person should not act or rely on this prospectus supplement or the accompanying prospectus or either of their respective contents.

European Economic Area

In relation to each Member State of the European Economic Area (the "EEA") that has implemented the Prospectus Directive (each, a "Relevant Member State"), an offer to the public of any Preferred Shares that are the subject of the offering contemplated in this prospectus supplement may not be made in that Relevant Member State, except that an offer to the public in that Relevant Member State of any Preferred Shares may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provisions of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors, as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the underwriters; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of the Preferred Shares shall result in a requirement for us or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression "an offer to the public of any Preferred Shares" in relation to the Preferred Shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Preferred Shares to be offered so as to enable an investor to decide to purchase the Preferred Shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

Conflict of Interest; Other Relationships

From time to time, the underwriters and their affiliates have provided, and may continue to provide, investment banking and other financial advisory services to us in the ordinary course of their businesses, and have received, and may continue to receive, compensation for such services.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the Company. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Table of Contents

LEGAL MATTERS

The validity of the Preferred Shares offered by this prospectus supplement and certain other legal matters will be passed upon for us by Williams Mullen, Richmond, Virginia. The underwriters are represented by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York.

EXPERTS

Our consolidated financial statements as of December 31, 2011 and 2010 and for each of the years in the three-year period ended December 31, 2011, have been incorporated by reference in this prospectus supplement and the accompanying prospectus in reliance upon the report of Yount, Hyde & Barbour, P.C., registered independent public accountants, incorporated by reference herein and therein upon the authority of said firm as experts in accounting and auditing.

Table of Contents

PROSPECTUS

13,900 Shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series A

Liquidation Preference Amount \$1,000 Per Share

695 Shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series B

Liquidation Preference Amount \$1,000 Per Share

First National Corporation

This prospectus relates to the potential resale from time to time of some or all of 13,900 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series A (the "Series A Preferred Shares"), liquidation preference amount \$1,000 per share, and 695 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series B (the "Series B Preferred Shares" and, together with the Series A Preferred Shares, the "Preferred Shares") by the United States Department of the Treasury ("Treasury"). We issued the Preferred Shares to Treasury on March 13, 2009 as part of Treasury's Troubled Asset Relief Capital Purchase Program (the "CPP") in a private placement exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"). Treasury may offer the securities from time to time directly or through underwriters, broker-dealers or agents and in one or more public or private transactions and at fixed prices, at prevailing market prices, at prices related to prevailing market prices or at negotiated prices. If these securities are sold through underwriters, broker-dealers or agents, Treasury will be responsible for underwriting discounts or commissions or agents' commissions, if any. We will not receive any proceeds from the sale of any Preferred Shares sold by Treasury.

Dividends on the Preferred Shares are payable quarterly in arrears on each February 15, May 15, August 15 and November 15. The initial dividend rate on the Series A Preferred Shares is 5% per annum through May 14, 2014, and will increase to 9% per annum on and after May 15, 2014 if not otherwise redeemed earlier for cash by us. The dividend rate on the Series B Preferred Shares is 9% per annum. We may redeem the Preferred Shares, at any time, in whole or in part, at our option, subject to prior approval by the appropriate federal banking agency, for cash, for a redemption price equal to 100% of the liquidation preference amount per Preferred Share plus any accrued and unpaid dividends to but excluding the date of redemption, provided that we must redeem the Series A Preferred Shares before the Series B Preferred Shares.

The Preferred Shares are not listed for trading on any stock exchange or available for quotation on any national quotation system and we do not anticipate listing the Preferred Shares.

Investing in the Preferred Shares involves risks. See "Risk Factors" beginning on page 4 of this prospectus.

None of the Securities and Exchange Commission (the "SEC"), the Federal Deposit Insurance Corporation (the "FDIC"), the Board of Governors of the Federal Reserve System (the "Federal Reserve"), any state or other securities commission or any other federal or state bank regulatory agency has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The Preferred Shares are not savings accounts, deposits or other obligations of any bank, thrift or other depository institution and are not insured or guaranteed by the FDIC or any other governmental agency or instrumentality.

The date of this prospectus is August 21, 2012.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement we filed with the Securities and Exchange Commission, or the SEC, using a shelf registration process. Under this shelf registration process, Treasury may, from time to time, offer and sell, in one or more offerings, the securities in this prospectus.

We will provide a prospectus supplement containing specific information about the terms of each particular offering by Treasury. The prospectus supplement may also add, update or change information in this prospectus. If the information in this prospectus is inconsistent with a prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and the applicable prospectus supplement, together with the additional information described under **Where You Can Find More Information** for more information.

Unless the context indicates otherwise, all references in this prospectus to **we**, **us**, **our**, and the **Company** refer to First National Corporation and its wholly owned subsidiaries, except that in the discussion of our capital stock and related matters, these terms refer solely to First National Corporation and not to its subsidiaries. All references to the **Bank** refer to First Bank only.

AVAILABLE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information required by the Securities Exchange Act of 1934, as amended (the **Exchange Act**) with the SEC. You may read and copy any of these filed documents at the SEC's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, DC, 20549. Please call the SEC at 1-800-SEC-0330 for further information. Our SEC filings are also available to the public from the SEC's website at <http://www.sec.gov>.

Our Internet address is www.fbvirginia.com. Unless specifically incorporated by reference, the information on our website is not part of this prospectus.

This prospectus is part of a Registration Statement and does not contain all of the information included in the Registration Statement. Whenever a reference is made in this prospectus or any prospectus supplement, if applicable, to any contract or other document of ours, you should refer to the exhibits that are a part of the Registration Statement for a copy of the referenced contract or document. Statements contained in this prospectus concerning the provisions of any documents are necessarily summaries of those documents, and each statement is qualified in its entirety by reference to the copy of the document filed with the SEC.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to incorporate by reference into this prospectus information that we file with the SEC in other documents. This means that we can disclose important information to you by referring you to other documents filed separately with the SEC. The information that we incorporate by reference is considered to be part of this prospectus. We incorporate by reference the documents listed below:

Our annual report on Form 10-K for the year ended December 31, 2011 filed with the SEC on March 28, 2012 (the **Form 10-K**);

The portions of our definitive proxy statement for our 2012 Annual Shareholders Meeting filed with the SEC on April 6, 2012 that have been incorporated by reference into the Form 10-K;

Our quarterly reports on Form 10-Q for the quarters ended March 31, 2012 and June 30, 2012, filed with the SEC on May 15, 2012 and August 14, 2012, respectively; and

Our current reports on Form 8-K filed with the SEC on February 14, 2012, April 13, 2012, May 9, 2012, May 14, 2012, July 3, 2012 and August 15, 2012.

Table of Contents

You may request a copy of any of these filings at no cost, by writing or telephoning us at the following address or telephone number: M. Shane Bell, First National Corporation, 112 West King Street, Strasburg, Virginia 22657, telephone (540) 465-9121.

You should rely only upon the information provided in this document, or incorporated in this document by reference. We have not authorized anyone to provide you with different information. You should not assume that the information in this document, including any information incorporated by reference, is accurate as of any date other than the date indicated on the front cover or the date given in the applicable document.

PROSPECTUS SUMMARY

*This summary highlights specific information contained elsewhere or incorporated by reference in this prospectus. However, this summary is not complete and does not contain all of the information you should consider before investing in the Preferred Shares, and it is qualified in its entirety by the more detailed information included in or incorporated by reference into this prospectus. To understand this offering fully, you should carefully read this entire prospectus, including the risks discussed under the **Risk Factors** section and our financial statements and related notes.*

Overview

We are a bank holding company headquartered in Strasburg, Virginia. Through our wholly-owned bank subsidiary, First Bank, we provide loan, deposit, investment, trust and asset management and other products and services in the northern Shenandoah Valley region of Virginia. Loan products and services include personal loans, residential mortgages, home equity loans and commercial loans. Deposit products and services include checking, savings, NOW accounts, money market accounts, IRA accounts, certificates of deposit, and cash management accounts. We also offer Internet banking, mobile banking, remote deposit capture and other traditional banking services.

Through our Trust and Asset Management Department, we offer a variety of trust and asset management services including estate planning, investment management of assets, trustee under an agreement, trustee under a will, individual retirement accounts, estate settlement and benefit plans. We offer financial planning and brokerage services for our customers through our investment division, First Financial Advisors.

Our products and services are provided through 10 branch offices, 26 ATMs and our website, www.fbvirginia.com. We operate six of our offices under the **Financial Center** concept. A Financial Center offers all of the Bank's financial services at one location. This concept allows loan, deposit, trust and investment advisory personnel to be readily available to serve customers throughout the Bank's market area.

Market Area

Our primary market area is located within an hour commute of the Washington, D.C. Metropolitan Area. The Bank's office locations are well-positioned in strong markets along the Interstate 81 and Interstate 66 corridors in the northern Shenandoah Valley region of Virginia, which include the City of Winchester, Frederick County, Warren County and Shenandoah County. Within the market area there are various types of industry including medical and professional services, manufacturing, retail and higher education. Customers include individuals, small and medium-sized businesses, local governmental entities and non-profit organizations.

According to Federal Deposit Insurance Corporation (FDIC) deposit data as of June 30, 2011, we were ranked first in Shenandoah County with \$228.6 million in deposits, representing 30% of the total deposit market; third in Warren County with \$60.1 million or 12% of the market; fourth in Frederick County with \$80.3 million or 15% of the market; and fifth in the City of Winchester with \$107.6 million or 8% of the market. We were ranked second overall in our market area with 15% of the total deposit market.

Corporate Information

Our principal executive offices are located at 112 West King Street, Strasburg, Virginia 22657 and our telephone number is (540) 465-9121. We maintain a website at www.fbvirginia.com, which contains information relating to us. Unless specifically incorporated by reference, information on our website is not a part of this prospectus.

Table of Contents

The Offering

Issuer	First National Corporation, a Virginia corporation
Series A Preferred Shares	13,900 shares of our Fixed Rate Cumulative Preferred Stock, Series A, par value \$1.25 per share
Series B Preferred Shares	695 shares of our Fixed Rate Cumulative Preferred Stock, Series B, par value \$1.25 per share
Offering Process	Treasury may offer to sell some or all of the Preferred Shares from time to time directly or through underwriters, broker-dealers or agents and in one or more public or private transactions and at fixed prices, at prevailing market prices, at prices related to prevailing market prices or at negotiated prices. If these securities are sold through underwriters, broker-dealers or agents, Treasury will be responsible for underwriting discounts or commissions or agents' commissions, if any.
Liquidation Preference	If we liquidate, dissolve or wind up (collectively, a "liquidation"), holders of the Preferred Shares will have the right to receive \$1,000 per share, plus any accrued and unpaid dividends (including dividends accrued on any unpaid dividends) to, but not including, the date of payment, before any payments are made to holders of our common stock or any other capital stock that ranks, by its terms, junior as to rights upon liquidation to the Preferred Shares.
Dividends	Dividends on the Preferred Shares are payable quarterly in arrears on each February 15, May 15, August 15 and November 15. The initial dividend rate on the Series A Preferred Shares is 5% per annum through May 14, 2014, and will increase to 9% per annum on and after May 15, 2014 if not otherwise redeemed earlier for cash by us. The dividend rate on the Series B Preferred Shares is 9% per annum.
Maturity	The Preferred Shares have no maturity date.
Rank	The Preferred Shares rank (i) senior to common stock or any other capital stock that ranks, by its terms, junior as to dividend rights and/or rights upon liquidation to the Preferred Shares (collectively, the "Junior Stock"), (ii) equally with any shares of our capital stock whose terms do not expressly provide that such class or series will rank senior or junior to the Preferred Shares as to dividend rights and/or rights upon liquidation (collectively, the "Parity Stock") and (iii) junior to all of our existing and future indebtedness and any future senior securities, in each case as to dividend rights and/or rights upon liquidation.
Redemption	We may redeem the Preferred Shares, at any time, in whole or in part, at our option, subject to prior approval by the appropriate federal banking agency, for a redemption price equal to 100% of the liquidation preference amount per Preferred Share plus any

accrued

Table of Contents

and unpaid dividends (including dividends accrued on any unpaid dividends) to but excluding the date of redemption. We must redeem the Series A Preferred Shares before we are able to redeem the Series B Preferred Shares.

Voting Rights

Holders of the Preferred Shares generally have no voting rights. However, if we do not pay dividends on the Preferred Shares for six or more quarterly periods, whether or not consecutive, the holders of the Preferred Shares, voting as a single class with the holders of any other Parity Stock upon which like voting rights have been conferred and are exercisable, will be entitled to vote for the election of two additional directors to serve on our board of directors until all accrued and unpaid dividends (including dividends accrued on any unpaid dividends) on the Preferred Shares are paid in full. There is no limit on the number of nominations and a plurality of eligible voters would determine the election of the two new directors.

In addition, the affirmative vote of the holders of at least 66-2/3% of the outstanding Preferred Shares is required for us to authorize, create or increase the authorized number of shares of our capital stock ranking, as to dividends or amounts payable upon liquidation, senior to the Preferred Shares, to amend, alter or repeal any provision of our charter or the Certificate of Designations for the Preferred Shares in a manner that adversely affects the rights of the holders of the Preferred Shares or to consummate a binding share exchange or reclassification of the Preferred Shares or a merger or consolidation of us with another entity unless (x) the Preferred Shares remain outstanding or are converted into or exchanged for preference shares of the surviving entity or its ultimate parent and (y) the Preferred Shares remain outstanding or such preference shares have such terms that are not materially less favorable, taken as a whole, than the rights of the Preferred Shares immediately prior to such transaction, taken as a whole.

Use of Proceeds

We will not receive any proceeds from the sale of any Preferred Shares sold by Treasury. See "Use of Proceeds" in this prospectus.

Listing

The Preferred Shares will not be listed for trading on any stock exchange or be available for quotation on any national quotation system.

Risk Factors

See "Risk Factors" and other information included or incorporated by reference in this prospectus for a discussion of factors you should consider carefully before making a decision to invest in the Preferred Shares.

Table of Contents

RISK FACTORS

An investment in our Preferred Shares is subject to risks inherent in our business, risks relating to the structure of the Preferred Shares and risks relating to the offering. The material risks and uncertainties that management believes affect your investment in the Preferred Shares are described below and in our Annual Report on Form 10-K for the year ended December 31, 2011 incorporated by reference herein. Before making an investment decision, you should carefully consider the risks and uncertainties described below and information included or incorporated by reference in this prospectus. If any of these risks or uncertainties are realized, our business, financial condition, capital levels, cash flows, liquidity, results of operations and prospects, as well as our ability to pay dividends on the Preferred Shares, could be materially and adversely affected and the market price of the Preferred Shares could decline significantly and you could lose some or all of your investment.

Risk Factors Related to Our Company

We may be further adversely affected by economic conditions in our market area.

We are headquartered in the northern Shenandoah Valley region of Virginia. Because our lending is concentrated in this market, we are affected by the general economic conditions in the region. Changes in the economy may influence the growth rate of loans and deposits, the quality of the loan portfolio and loan and deposit pricing. A continued decline in general economic conditions caused by inflation, recession, unemployment or other factors beyond our control would further impact these local economic conditions and the demand for banking products and services generally, which could negatively affect our performance and financial condition.

Deteriorating credit quality, particularly in real estate loans, has adversely impacted us and may continue to adversely impact us.

During 2008, we began to experience a downturn in the overall credit performance of the loan portfolio, as well as acceleration in the deterioration of general economic conditions. This deterioration, including a significant increase in national and regional unemployment levels, is negatively impacting some borrowers' ability to repay. During the year ended December 31, 2008, these conditions resulted in a \$13.9 million increase in non-performing assets and loans over 90 days past due to \$16.2 million. At December 31, 2011, 2010 and 2009, non-performing assets and loans over 90 days past due remained at elevated levels, totaling \$18.7 million, \$15.4 million and \$14.8 million, respectively. The provision for loan losses totaled \$12.4 million, \$11.7 million and \$2.3 million for the years ended December 31, 2011, 2010 and 2009, respectively. Non-performing assets and loans over 90 days past due and still accruing interest totaled \$17.2 million at June 30, 2012 and the provision for loan losses totaled \$2.7 million for the six months ended June 30, 2012. Additional increases in loan loss reserves may be necessary in the future. Continued deterioration in the quality of the loan portfolio can have a material adverse effect on earnings, liquidity and capital.

We will realize additional future losses if our levels of non-performing assets do not moderate and if the proceeds we receive upon liquidation of assets are less than the carrying value of such assets.

We expect to continue to focus on reducing non-performing asset levels during 2012 by selling other real estate owned (OREO) and restructuring our problem loans and potential problem loans. Other potential problem loans are defined as performing loans that possess certain risks, including the borrower's ability to pay and the collateral value securing the loan, that management has identified that may result in the loans not being repaid in accordance with their terms. At June 30, 2012, other potential problem loans totaled \$53.4 million. Among our potential problem loans are several large credit relationships. Consequently, an adverse development with respect to one of these loans or credit relationships could expose us to a significant increase in nonperforming assets.

The actual volume of future distressed asset sales could increase based on regulatory directives, the level of migration of performing loans to problem loan status, as well as opportunities to sell such assets, thus resulting in

Table of Contents

higher credit costs. The continuing weakness in the residential and commercial real estate markets may negatively impact the ability to dispose of distressed assets, and may result in higher credit losses on sales of distressed assets. Non-performing assets are recorded on the financial statements at the estimated fair value, which considers management's plans for disposition. We will realize additional future losses if the proceeds received upon dispositions of assets are less than the recorded carrying value of such assets. If market conditions continue to decline, the magnitude of losses realized upon the disposition of non-performing assets may increase, which could materially adversely affect our business, financial condition and results of operations.

Further increases in non-performing assets may reduce interest income and increase net loan charge-offs, provision for loan losses, and operating expenses.

As a result of the prolonged economic downturn, we are experiencing historically high levels of non-accrual loans. Non-accrual loans increased from 1.87% at December 31, 2009 to 2.49% and 3.02% of total loans at December 31, 2010 and 2011, respectively. Non-accrual loans totaled 2.77% of total loans at June 30, 2012. Until economic and market conditions improve at a more rapid pace, we expect to incur charge-offs to the allowance for loan losses and lost interest income relating to increased non-performing loans and, as a result, additional increases in loan loss reserves may be necessary in the future. Non-performing assets (including non-accrual loans and other real estate owned) totaled \$16.0 million at June 30, 2012. These non-performing assets can adversely affect net income mainly through increased operating expenses incurred to maintain such assets or loss charges related to subsequent declines in the estimated fair value of foreclosed assets. Adverse changes in the value of our non-performing assets, or the underlying collateral, or in the borrowers' performance or financial conditions could adversely affect our business, results of operations and financial condition. There can be no assurance that we will not experience further increases in non-performing loans in the future, or that non-performing assets will not result in lower financial returns in the future.

If our allowance for loan losses becomes inadequate, results of operations may be adversely affected.

We maintain an allowance for loan losses that we believe is a reasonable estimate of known and inherent losses in the Bank's loan portfolio. Through a quarterly review of the loan portfolio, management determines the amount of the allowance for loan losses by considering economic conditions, credit quality of the loan portfolio, collateral supporting the loans, performance of customers relative to their financial obligations and the quality of the Bank's loan administration. The amount of future losses is susceptible to changes in economic, operating and other conditions, including changes in interest rates that may be beyond our control, and these losses may exceed current estimates. Although we believe the allowance for loan losses is a reasonable estimate of known and inherent losses in the loan portfolio, such losses and the adequacy of the allowance for loan losses cannot be fully predicted. Excessive loan losses could have a material impact on financial performance through additions to the allowance for loan losses.

Federal and state regulators periodically review the allowance for loan losses and may require an increase to the provision for loan losses or recognition of further loan charge-offs, based on judgments different than those of management. Any increase in the amount of provision or loans charged-off as required by these regulatory agencies could have a negative effect on operating results.

If our valuation allowance on OREO becomes inadequate, results of operations may be adversely affected.

We maintain a valuation allowance that we believe is a reasonable estimate of known losses in OREO. We obtain appraisals on all OREO properties on an annual basis and adjust the valuation allowance accordingly. The carrying value of OREO is susceptible to changes in economic and real estate market conditions. Although we believe the valuation allowance is a reasonable estimate of known losses, such losses and the adequacy of the allowance cannot be fully predicted. Excessive declines in market values could have a material impact on financial performance.

Table of Contents

Our concentrations of loans could result in higher than normal risk of loan defaults and losses.

We offer a variety of secured loans, including commercial lines of credit, commercial term loans, real estate, construction and land development, home equity, consumer and other loans. The majority of the loans are secured by real estate (both residential and commercial) in the market area. At June 30, 2012, these loans totaled \$350.3 million, or 91%, of total loans. A major change in the real estate market, such as further deterioration in the value of this collateral, or in the local or national economy, could adversely affect customers' ability to pay these loans, which in turn could impact us. Risk of loan defaults and foreclosures are unavoidable in the banking industry, and we try to limit exposure to this risk by monitoring extensions of credit carefully. We cannot fully eliminate credit risk, and as a result credit losses may occur in the future.

We rely on secondary sources, such as Federal Home Loan Bank advances, sales of securities and loans, federal funds lines of credit from correspondent banks and out-of-market time deposits, to meet liquidity needs.

In managing our consolidated balance sheet, we depend on secondary sources to provide sufficient liquidity to meet our commitments and business needs, and to accommodate the transaction and cash management needs of clients. Other sources of funding available to us, and upon which we rely as regular components of our liquidity risk management strategy, include federal funds lines of credit, sales of securities and loans, brokered deposits and borrowings from the Federal Home Loan Bank system. The availability of these funding sources is highly dependent upon the perception of the liquidity and creditworthiness of the financial institution, and such perception can change quickly in response to market conditions or circumstances unique to a particular company. Any occurrence that may limit our access to these sources, such as a decline in the confidence of debt purchasers, or our depositors or counterparties, may adversely affect our liquidity, financial position, and results of operations.

If we need additional capital in the future, we may not be able to obtain it on terms that are favorable. This could negatively affect our performance.

We anticipate that we will have sufficient capital to support asset growth and potential loan charge-offs. However, additional capital may be needed in the future to maintain capital levels. The ability to raise capital through the sale of additional securities will depend primarily upon our financial condition and the condition of financial markets at that time. We may not be able to obtain additional capital in amounts or on terms that are satisfactory. Our ability to grow our balance sheet may be constrained if we are unable to raise additional capital as needed.

Changes in interest rates may negatively impact net interest income if we are unable to successfully manage interest rate risk.

Our profitability will depend substantially upon the spread between the interest rates earned on investments and loans and interest rates paid on deposits and other interest-bearing liabilities. Changes in interest rates, including the shape of the treasury yield curve, will affect our financial performance and condition through the pricing of securities, loans, deposits and borrowings. We attempt to minimize exposure to interest rate risk, but will be unable to eliminate it. Our net interest spread will depend on many factors that are partly or entirely outside of our control, including competition, federal economic, monetary and fiscal policies and general economic conditions.

Our small-to-medium sized business target market may have fewer financial resources to weather a downturn in the economy.

We target our commercial development and marketing strategy primarily to serve the banking and financial services needs of small and medium sized businesses. These businesses generally have less capital or borrowing capacity than larger entities. If general economic conditions negatively impact this major economic sector in the markets in which we operate, our results of operations and financial condition may be adversely affected.

Table of Contents

Difficult market conditions have adversely affected our industry.

Dramatic declines in the housing market over the past three years, with falling home prices and increasing foreclosures and unemployment, have negatively impacted the credit performance of real estate related loans and resulted in significant write-downs of asset values by financial institutions. These write-downs, initially of mortgage-backed securities (MBS) but spreading to other securities and loans has caused many financial institutions to seek additional capital, to reduce or eliminate dividends, to merge with larger and stronger institutions and, in some cases, to fail. Reflecting concern about the stability of the financial markets generally and the strength of counterparties, many lenders and institutional investors have reduced or ceased providing funding to borrowers, including to other financial institutions. This market turmoil and tightening of credit have led to an increased level of commercial and consumer delinquencies, lack of consumer confidence, increased market volatility and widespread reduction of business activity generally. The resulting economic pressure on consumers and lack of confidence in the financial markets has adversely affected our business, financial condition and results of operations. Market developments may affect consumer confidence levels and may cause adverse changes in payment patterns, causing increases in delinquencies and default rates, which may impact charge-offs and the provision for loan losses. A worsening of these conditions would likely have an adverse effect on us and others in the financial services industry.

The soundness of other financial institutions could adversely affect us.

Our ability to engage in routine funding transactions could be adversely affected by the actions and commercial soundness of other financial institutions. Financial services institutions are interrelated as a result of trading, clearing, counterparty, or other relationships. As a result, defaults by, or even rumors or questions about, one or more financial services institutions, or the financial services industry generally, may lead to market-wide liquidity problems and to losses or defaults by us or by other institutions. Many of these transactions expose us to credit risk in the event of default of its counterparty or client. There is no assurance that any such losses would not materially and adversely affect our results of operations.

We rely heavily on our management team and the unexpected loss of any of those personnel could adversely affect our operations; we depend on our ability to attract and retain key personnel.

Our future operating results depend substantially upon the continued service of its executive officers and key personnel. Our future operating results also depend in significant part upon our ability to attract and retain qualified management, financial, technical, marketing, sales and support personnel. Competition for qualified personnel is intense, and we cannot ensure success in attracting or retaining qualified personnel. There may be only a limited number of persons with the requisite skills to serve in these positions, and it may be increasingly difficult for us to hire personnel over time.

Our ability to retain key officers and employees may be further impacted by legislation and regulation affecting the financial services industry. For example, certain executive compensation restrictions apply to us as a result of our participation in the CPP and shall generally continue to apply for as long as any Preferred Shares are owned by Treasury. Such restrictions and standards may further impact management's ability to compete with financial institutions that are not subject to the same limitations as us as a result of the CPP.

Our compensation expense may increase substantially after Treasury's sale of the Preferred Shares.

As a result of our participation in the CPP, among other things, we are subject to Treasury's current standards for executive compensation and corporate governance for the period during which Treasury holds any of our Preferred Shares. These standards were most recently set forth in the Interim Final Rule on TARP Standards for Compensation and Corporate Governance, published June 15, 2009. If Treasury elects to sell all of the Preferred Shares, these executive compensation and corporate governance standards will no longer be applicable and our compensation expense for our executive officers and other senior employees may increase substantially.

Table of Contents

Future success is dependent on the ability to compete effectively in the highly competitive banking industry.

We face vigorous competition from other financial institutions, including other commercial banks, savings and loan associations, savings banks, finance companies and credit unions for deposits, loans and other financial services in its market area. A number of these other financial institutions are significantly larger than us and have substantially greater access to capital and other resources, as well as larger lending limits and branch systems, and offer a wider array of banking services. To a limited extent we also compete with other providers of financial services, such as money market mutual funds, brokerage firms, insurance companies and governmental organizations which may offer more favorable products and services than us. Many of the non-bank competitors are not subject to the same extensive regulations that govern us. As a result, the non-bank competitors have advantages over us in providing certain services. This competition may reduce or limit profit margins and market share and may adversely affect the results of operations and financial condition.

Regulation by federal and state agencies could adversely affect the profitability of the business.

We are heavily regulated by federal and state agencies. This regulation is to protect depositors, the federal deposit insurance fund and the banking system as a whole. Congress and state legislatures and federal and state regulatory agencies continually review banking laws, regulations, and policies for possible changes. Changes to statutes, regulations, or regulatory policies, including interpretation or implementation of statutes, regulations, or policies, could affect us adversely, including limiting the types of financial services and products we may offer and/or increasing the ability of non-banks to offer competing financial services and products. If we do not comply with laws, regulations, or policies, we could receive regulatory sanctions and damage to our reputation.

Government measures to regulate the financial industry, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), subject us to increased regulation and could adversely affect us.

As a financial institution, we are heavily regulated at the state and federal levels. As a result of the financial crisis and related global economic downturn that began in 2007, we have faced, and expect to continue to face, increased public and legislative scrutiny as well as stricter and more comprehensive regulation of our financial services practices. In July 2010, the Dodd-Frank Act was signed into law. The Dodd-Frank Act includes significant changes in the financial regulatory landscape and will impact all financial institutions, including the Company and the Bank. Many of the provisions of the Dodd-Frank Act have begun to be or will be implemented over the next several months and years and will be subject both to further rulemaking and the discretion of applicable regulatory bodies. Because the ultimate impact of the Dodd-Frank Act will depend on future regulatory rulemaking and interpretation, we cannot predict the full effect of this legislation on our businesses, financial condition or results of operations.

Recently enacted legislation could allow us to deregister under the Exchange Act, which would result in a reduction in the amount and frequency of publicly-available information about us.

Recently enacted legislation called the Jumpstart Our Business Startups Act (or JOBS Act) may allow us to terminate the registration of our common stock under the Exchange Act. If we determined to deregister our common stock under the Exchange Act, it would enable us to save significant expenses relating to our public disclosure and reporting requirements under the Exchange Act. However, a deregistration of our common stock also would result in a reduction in the amount and frequency of publicly-available information about the Company and the Bank.

Changes in our accounting policies or in accounting standards could materially affect how we report financial results and condition.

From time to time, the Financial Accounting Standards Board (FASB) and SEC change the financial accounting and reporting standards that govern the preparation of our financial statements. These changes can be

Table of Contents

hard to predict and can materially impact how we record and report our financial condition and results of operations. In some cases, we could be required to apply a new or revised standard retroactively, resulting in restating prior period financial statements.

Our ability to operate profitably may be dependent on our ability to implement various technologies into our operations.

The market for financial services, including banking service and consumer finance services is increasingly affected by advances in technology, including developments in telecommunications, data processing, computers, automation, internet-based banking and tele-banking. Our ability to compete successfully in its market may depend on the extent to which we are able to exploit such technological changes. If we are not able to afford such technologies, properly or timely anticipate or implement such technologies, or properly train its staff to use such technologies, our business, financial condition or operating results could be adversely affected.

Our operations depend upon third party vendors that perform services for us.

We outsource many of our operating and banking functions, including some data processing functions and the interchange and transmission services for the ATM network. As such, our success and ability to expand operations depends on the services provided by these third parties. Disputes with these third parties may adversely affect operations. We may not be able to engage appropriate vendors to adequately service our needs, and the vendors that we engage may not be able to perform successfully.

Negative public opinion could damage our reputation and adversely impact liquidity and profitability.

As a financial institution, our earnings, liquidity, and capital are subject to risks associated with negative public opinion of us and of the financial services industry as a whole. Negative public opinion could result from our actual or alleged conduct in any number of activities, including lending practices, the failure of any product or service sold by us to meet our clients' expectations or applicable regulatory requirements, corporate governance and acquisitions, or from actions taken by government regulators and community organizations in response to those activities. Negative public opinion can adversely affect our ability to keep, attract and/or retain customers and can expose us to litigation and regulatory action. Actual or alleged conduct by one of our businesses can result in negative public opinion about our other businesses. Negative public opinion could also affect our ability to borrow funds in the unsecured wholesale debt markets.

Potential future losses may result in an additional valuation allowance for deferred tax assets. Recapture of the deferred tax asset balance (i.e., reversal of the valuation allowance) is subject to considerable judgment and could be adversely impacted by changes in future income tax rates.

During 2011, we reached a three-year cumulative pre-tax loss position. Under GAAP, cumulative losses in recent years are considered significant negative evidence which is difficult to overcome in assessing the realizability of a deferred tax asset. As a result, beginning with the fourth quarter of 2011, we no longer consider future taxable income in determining the realizability of its deferred tax assets. At June 30, 2012, we had recorded a full valuation allowance of \$6.5 million on its net deferred tax assets.

We expect to reverse the valuation allowance for deferred tax assets once it has demonstrated a sustainable return to profitability. However, the reversal of the valuation allowance is subject to considerable judgment. Additionally, even after the recovery of the deferred tax asset balance under GAAP, which would immediately benefit GAAP capital and the tangible common equity ratio, there will remain limitations on the ability to include the deferred tax assets for regulatory capital purposes.

Increases in FDIC insurance premiums could adversely affect our profitability.

The Dodd-Frank Act directed the FDIC to amend its regulations to re-define the method of calculation of an insured depository institution's insurance fund assessment. The Dodd-Frank Act requires the assessment base to

Table of Contents

be an amount equal to the average consolidated total assets of the insured depository institution during the assessment period, minus the sum of the average tangible equity of the insured depository institution during the assessment period and an amount the FDIC determines is necessary to establish assessments consistent with the risk-based assessment system found in the Federal Deposit Insurance Act. The FDIC has issued final rules outlining this new insurance assessment methodology, which will impact the amount of the Bank's insurance assessment. In addition, the FDIC may make additional changes to the way in which it calculates insurance premiums. We cannot predict the timing of any future changes, and if made, the effect that these changes could have on our insurance assessment.

Risks Related to an Investment in the Preferred Shares

The Preferred Shares are equity and are subordinated to all of our existing and future indebtedness; we are highly dependent on dividends and other amounts from our subsidiaries in order to pay dividends on, and redeem at our option, the Preferred Shares, which are subject to various prohibitions and other restrictions; and the Preferred Shares place no limitations on the amount of indebtedness we and our subsidiaries may incur in the future.

The Preferred Shares are equity interests in the Company and do not constitute indebtedness. As such, the Preferred Shares, like our common stock, rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, where principal and interest would customarily be payable on specified due dates, in the case of perpetual preferred stock like the Preferred Shares, there is no stated maturity date (although the Preferred Shares are subject to redemption at our option) and dividends are payable only if, when and as authorized and declared by our board of directors and depend on, among other matters, our historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors our board of directors deems relevant at the time.

If (i) there has occurred and is continuing an event of default under the Company's trust preferred securities or (ii) the Company has given notice of its election to defer payments of interest on its trust preferred securities or such a deferral has occurred and is continuing, then the Company may not declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment with respect to, any of its capital stock (including the Preferred Shares).

The Preferred Shares are not savings accounts, deposits or other obligations of any depository institution and are not insured or guaranteed by the FDIC or any other governmental agency or instrumentality. Furthermore, the Company is a legal entity that is separate and distinct from its subsidiaries, and its subsidiaries have no obligation, contingent or otherwise, to make any payments in respect of the Preferred Shares or to make funds available therefor. Because the Company is a holding company that maintains only limited cash at that level, its ability to pay dividends on, and redeem at its option, the Preferred Shares will be highly dependent upon the receipt of dividends, fees and other amounts from its subsidiaries, which, in turn, will be highly dependent upon the historical and projected results of operations, liquidity, cash flows and financial condition of its subsidiaries. In addition, the right of the Company to participate in any distribution of assets of any of its subsidiaries upon their respective liquidation or reorganization will be subject to the prior claims of the creditors (including any depositors) and preferred equity holders of the applicable subsidiary, except to the extent that the Company is a creditor, and is recognized as a creditor, of such subsidiary. Accordingly, the holders of the Preferred Shares will be structurally subordinated to all existing and future obligations and preferred equity of the Company's subsidiaries.

There are also various legal and regulatory prohibitions and other restrictions on the ability of the Company's depository institution subsidiaries to pay dividends, extend credit or otherwise transfer funds to the

Table of Contents

Company or affiliates. Such dividend payments are subject to regulatory tests, generally based on current and retained earnings of such subsidiaries and other factors, and, are currently prohibited without regulatory approval. Dividend payments to the Company from its depository institution subsidiaries may also be prohibited if such payments would impair the capital of the applicable subsidiary and in certain other cases. In addition, regulatory rules limit the aggregate amount of a depository institution's loans to, and investments in, any single affiliate in varying thresholds and may prevent the Company from borrowing from their depository institution subsidiaries and require any permitted borrowings to be collateralized.

The Company also is subject to various legal and regulatory policies and requirements impacting the Company's ability to pay dividends on, or redeem, the Preferred Shares. Under the Federal Reserve's capital regulations, in order to ensure Tier 1 capital treatment for the Preferred Shares, the Company's redemption of any of the Preferred Shares must be subject to prior regulatory approval. The Federal Reserve also may require the Company to consult with it prior to increasing dividends. In addition, as a matter of policy, the Federal Reserve may restrict or prohibit the payment of dividends if (i) the Company's net income available to shareholders for the past four quarters, net of dividends previously paid during that period, is not sufficient to fully fund the dividends; (ii) the Company's prospective rate of earnings retention is not consistent with its capital needs and overall current and prospective financial condition; (iii) the Company will not meet, or is in danger of not meeting, its minimum regulatory capital ratios; or (iv) the Federal Reserve otherwise determines that the payment of dividends would constitute an unsafe or unsound practice. Recent and future regulatory developments may result in additional restrictions on the Company's ability to pay dividends.

In addition, the terms of the Preferred Shares do not limit the amount of debt or other obligations we or our subsidiaries may incur in the future. Accordingly, we and our subsidiaries may incur substantial amounts of additional debt and other obligations that will rank senior to the Preferred Shares or to which the Preferred Shares will be structurally subordinated.

An active trading market for the Preferred Shares may not develop or be maintained.

The Preferred Shares are not currently listed on any securities exchange or available for quotation on any national quotation system, and we do not plan to list, or make available for quotation, the Preferred Shares in the future. There can be no assurance that an active trading market for the Preferred Shares will develop or, if developed, will be maintained. If an active market is not developed and maintained, the market value and liquidity of the Preferred Shares may be materially and adversely affected.

The Preferred Shares may be junior in rights and preferences to our future preferred stock.

Subject to approval by the holders of at least 66 2/3% of the Preferred Shares then outstanding, voting as a separate class, we may issue preferred stock in the future the terms of which are expressly senior to the Preferred Shares. The terms of any such future preferred stock expressly senior to the Preferred Shares may prohibit or otherwise restrict dividend payments on the Preferred Shares. For example, the terms of any such senior preferred stock may provide that, unless full dividends for all of our outstanding preferred stock senior to the Preferred Shares have been paid for the relevant periods, no dividends will be paid on the Preferred Shares, and no Preferred Shares may be repurchased, redeemed, or otherwise acquired by us. In addition, in the event of our liquidation, dissolution or winding-up, the terms of any such senior preferred stock would likely prohibit us from making any payments on the Preferred Shares until all amounts due to holders of such senior preferred stock are paid in full.

Holders of the Preferred Shares have limited voting rights.

Unless and until we are in arrears on our dividend payments on the Preferred Shares for six quarterly periods, whether or not consecutive, the holders of the Preferred Shares will have no voting rights except with respect to certain fundamental changes in the terms of the Preferred Shares and certain other matters and except

Table of Contents

as may be required by applicable law. If dividends on the Preferred Shares are not paid in full for six quarterly periods, whether or not consecutive, the total number of positions on the Company's board of directors will automatically increase by two and the holders of the Preferred Shares, acting as a class with any other shares of our preferred stock with parity voting rights to the Preferred Shares, will have the right to elect two individuals to serve in the new director positions. This right and the terms of such directors will end when we have paid in full all accrued and unpaid dividends for all past dividend periods. See "Description of Preferred Shares Voting Rights" in this prospectus.

We are subject to extensive regulation, and ownership of the Preferred Shares may have regulatory implications for holders thereof.

We are subject to extensive federal and state banking laws, including the Bank Holding Company Act of 1956, as amended (the "BHCA"), and federal and state banking regulations, that impact the rights and obligations of owners of the Preferred Shares, including, for example, our ability to declare and pay dividends on, and to redeem, the Preferred Shares. Although the Company does not believe the Preferred Shares are considered "voting securities" currently, if they were to become voting securities for the purposes of the BHCA, whether because the Company has missed six dividend payments and holders of the Preferred Shares have the right to elect directors as a result, or for other reasons, a holder of 25% or more of the Preferred Shares, or a holder of a lesser percentage of our Preferred Shares that is deemed to exercise a "controlling influence" over us, may become subject to regulation under the BHCA. In addition, if the Preferred Shares become "voting securities", then (a) any bank holding company or foreign bank that is subject to the BHCA may need approval to acquire or retain more than 5% of the then outstanding Preferred Shares, and (b) any holder (or group of holders acting in concert) may need regulatory approval to acquire or retain 10% or more of the Preferred Shares. A holder or group of holders may also be deemed to control us if they own one-third or more of our total equity, both voting and non-voting, aggregating all shares held by the investor across all classes of stock. Holders of the Preferred Shares should consult their own counsel with regard to regulatory implications.

If we redeem the Preferred Shares, you may be unable to reinvest the redemption proceeds in a comparable investment at the same or greater rate of return.

We have the right to redeem the Preferred Shares, in whole or in part, at our option at any time, subject to prior regulatory approval. If we choose to redeem the Preferred Shares in part, we have been informed by DTC that it is their current practice to determine by lot the amount of the interest of each direct participant (through which beneficial owners hold their interest) to be redeemed. If we choose to redeem the Preferred Shares, we are likely to do so if we are able to obtain a lower cost of capital. If prevailing interest rates are relatively low if or when we choose to redeem the Preferred Shares, you generally will not be able to reinvest the redemption proceeds in a comparable investment at the same or greater rate of return. Furthermore, if we redeem the Preferred Shares in part, the liquidity of the outstanding Preferred Shares may be limited.

If we do not redeem the Series A Preferred Shares prior to May 15, 2014, the cost of this capital to us will increase substantially and could have a material adverse effect on our liquidity and cash flows.

We have the right to redeem the Preferred Shares, in whole or in part, at our option at any time. If we do not redeem the Series A Preferred Shares prior to May 15, 2014, the cost of this capital to us will increase substantially on and after that date, with the dividend rate increasing from 5.0% per annum to 9.0% per annum, which could have a material adverse effect on our liquidity and cash flows. See "Description of Preferred Shares Redemption and Repurchases" in this prospectus. Any redemption by us of the Preferred Shares would require prior regulatory approval from the Federal Reserve. We have not applied for such regulatory approval and have no present intention to redeem any of the Preferred Shares, although, in the future, we may seek such approval and, if such approval is obtained (as to which no assurance can be given), redeem the Preferred Shares for cash.

Table of Contents

Treasury is a federal agency and your ability to bring a claim against Treasury under the federal securities laws in connection with a purchase of Preferred Shares may be limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the "FTCA"), provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, Treasury and its officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. The underwriters are not claiming to be agents of Treasury in this offering. Accordingly, any attempt to assert such a claim against the officers, agents or employees of Treasury for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus, the registration statement of which this prospectus or the documents incorporated by reference in this prospectus are a part or resulting from any other act or omission in connection with the offering of the Preferred Shares by Treasury would likely be barred.

FORWARD-LOOKING STATEMENTS

Certain information contained in this prospectus may include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. These forward-looking statements are generally identified by phrases such as we expect, we believe or words of similar import. Such forward-looking statements involve known and unknown risks including, but not limited to:

the ability to raise capital as needed;

adverse economic conditions in the market area and the impact on credit quality and risks inherent in the loan portfolio such as repayment risk and fluctuating collateral values;

additional future losses if our levels of non-performing assets do not moderate and if the proceeds we receive upon liquidation of assets are less than the carrying value of such assets;

further increases of non-performing assets may reduce interest income and increase net charge-offs, provision for loan losses, and operating expenses;

the adequacy of the allowance for loan losses related to specific reserves on impaired loans, and changes in factors considered such as general economic and business conditions in the market area and overall asset quality;

the adequacy of the valuation allowance for other real estate owned related to changes in economic conditions and local real estate activity;

loss or retirement of key executives;

the ability to compete effectively in the highly competitive banking industry;

legislative or regulatory changes, including changes in accounting standards, may adversely affect the businesses that the Company is engaged in;

the ability to implement various technologies into our operations may impact the Company's ability to operate profitably;

the ability of the Company to implement its disaster recovery plan in the event of a natural disaster;

risks related to the timing of the recoverability of the deferred tax asset, which is subject to considerable judgment, and the risk that even after the recovery of the deferred tax asset balance under GAAP, there will remain limitations on the ability to include our deferred tax assets for regulatory capital purposes;

Edgar Filing: FIRST NATIONAL CORP /VA/ - Form 424B1

increases in FDIC insurance premiums could adversely affect the Company's profitability;

the ability to retain customers and secondary funding sources if the Bank's reputation would become damaged;

the reliance on secondary sources, such as Federal Home Loan Bank advances, sales of securities and loans, federal funds lines of credit from correspondent banks and out-of-market time deposits, to meet liquidity needs;

changes in interest rates could have a negative impact on the Company's net interest income and an unfavorable impact on the Bank's customers' ability to repay loans; and

other factors identified in Risk Factors, above.

Although we believe that our expectations with respect to the forward-looking statements are based upon reliable assumptions within the bounds of our knowledge of our business and operations, there can be no assurance that our actual results, performance or achievements will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements.

Table of Contents**RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERENCE DIVIDENDS**

The following table presents our historical ratio of earnings to combined fixed charges and preference dividends for the six months ended June 30, 2012 and 2011 and for each of the years in the five-year period ended December 31, 2011.

	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011 ⁽²⁾	2011 ⁽³⁾	2010 ⁽⁴⁾	Year Ended December 31,		
					2009	2008	2007
Ratios of Earnings to Combined Fixed							
Charges and Preference Dividends ⁽¹⁾							
Including interest on deposits	1.46x	0.82x		0.13x	1.20x	1.47x	1.49x
Excluding interest on deposits	2.53x	0.33x			1.88x	3.33x	3.51x

- (1) Earnings consist of income from continuing operations before adjustments for income taxes plus fixed charges and preference dividends. Combined fixed charges and preference dividends consist of interest costs and preferred stock dividends. We have computed the ratios of earnings to combined fixed charges and preference dividends by dividing earnings by combined fixed charges and preference dividends. If we do not redeem the Series A Preferred Shares prior to May 15, 2014, the cost of this capital to us will increase substantially on and after that date, with the dividend rate increasing from 5.0% to 9.0% per annum, which would adversely affect our ratio of earnings to combined fixed charges and preferred stock dividends.
- (2) The earnings coverage for the six months ended June 30, 2011 was inadequate to cover combined fixed charges and preference dividends by \$619 thousand.
- (3) The earnings coverage for the year ended December 31, 2011 was inadequate to cover combined fixed charges and preference dividends by \$8.3 million.
- (4) The earnings coverage for the year ended December 31, 2010 was inadequate to cover combined fixed charges and preference dividends by \$7.0 million.

USE OF PROCEEDS

The Preferred Shares offered by this prospectus are being sold for the account of Treasury. Any proceeds from the sale of these Preferred Shares will be received by Treasury for its own account, and we will not receive any proceeds from the sale of any Preferred Shares offered by this prospectus.

DESCRIPTION OF PREFERRED SHARES

This section summarizes specific terms and provisions of the Preferred Shares. The description of the Preferred Shares contained in this section is qualified in its entirety by the actual terms of the Preferred Shares, as are stated in the Articles of Amendment to the Company's Articles of Incorporation, a copy of which was attached as Exhibit 3.1 to our Current Report on Form 8-K filed on March 17, 2009 and incorporated by reference into this prospectus. See Available Information and Incorporation of Certain Documents by Reference in this prospectus.

General

The Preferred Shares include both the Series A Preferred Shares and the Series B Preferred Shares. The Series A Preferred Shares constitutes a series of our perpetual, cumulative, preferred stock, consisting of 13,900 shares, par value \$1.25 per share, having a liquidation preference amount of \$1,000 per share. The Series B Preferred Shares constitutes a series of our perpetual, cumulative, preferred stock, consisting of 695 shares, par value \$1.25 per share, having a liquidation preference amount of \$1,000 per share.

This section summarizes the terms of the Series A Preferred Shares and the Series B Preferred Shares together as the Preferred Shares. Except whether otherwise indicated, the terms of the Preferred Shares described

Table of Contents

below apply to both the Series A Preferred Shares and the Series B Preferred Shares. The Series A Preferred Shares and the Series B Preferred Shares rank equally and generally have identical terms, with the exception that the Series B Preferred Shares entitle their holder(s) to cumulative dividends at a rate of 9% per annum from the date of initial issuance. In addition, the Series Series A Preferred Shares must be redeemed before the Series B Preferred Shares.

The Preferred Shares have no maturity date. We issued the Preferred Shares to Treasury on March 13, 2009 in connection with the CPP for an aggregate purchase price of \$13.9 million in a private placement exempt from the registration requirements of the Securities Act. The Preferred Shares qualify as Tier 1 capital for regulatory purposes.

Dividends

Rate. Dividends on the Preferred Shares are payable quarterly in arrears, when, as and if authorized and declared by our board of directors out of legally available funds, on a cumulative basis on the \$1,000 per share liquidation preference amount plus the amount of accrued and unpaid dividends for any prior dividend periods. Dividends on the Series A Preferred Shares are payable at a rate of (i) 5% per annum, from the original issuance date to but excluding the first day of the first dividend period commencing on or after the fifth anniversary of the original issuance date (i.e., 5% per annum from March 13, 2009 to but excluding May 15, 2014), and (ii) 9% per annum, from and after the first day of the first dividend period commencing on or after the fifth anniversary of the original issuance date (i.e., 9% per annum on and after May 15, 2014). Dividends on the Series B Preferred Shares are payable at a rate of 9% per annum from the original issuance date.

Dividends are payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year. Each dividend will be payable to holders of record as they appear on our stock register on the applicable record date, which will be the 15th calendar day immediately preceding the related dividend payment date (whether or not a business day), or such other record date determined by our board of directors that is not more than 60 nor less than ten days prior to the related dividend payment date. Each period from and including a dividend payment date (or the date of the issuance of the Preferred Shares) to but excluding the following dividend payment date is referred to as a dividend period. Dividends payable for each dividend period are computed on the basis of a 360-day year consisting of twelve 30-day months. If a scheduled dividend payment date falls on a day that is not a business day, the dividend will be paid on the next business day as if it were paid on the scheduled dividend payment date, and no interest or other additional amount will accrue on the dividend. The term "business day" means any day except Saturday, Sunday and any day on which banking institutions in the State of New York generally are authorized or required by law or other governmental actions to close.

Dividends on the Preferred Shares are cumulative. If for any reason our board of directors does not declare a dividend on the Preferred Shares for a particular dividend period, or if the board of directors declares less than a full dividend, we will remain obligated to pay the unpaid portion of the dividend for that period and the unpaid dividend will compound on each subsequent dividend date (meaning that dividends for future dividend periods will accrue on any unpaid dividend amounts for prior dividend periods).

We are not obligated to pay holders of the Preferred Shares any dividend in excess of the dividends on the Preferred Shares that are payable as described above. There is no sinking fund with respect to dividends on the Preferred Shares.

Priority of Dividends. So long as the Preferred Shares remains outstanding, we may not declare or pay a dividend or other distribution on our common stock or any other shares of Junior Stock (other than dividends payable solely in common stock) or Parity Stock (other than dividends paid on a pro rata basis with the Preferred Shares), and we generally may not directly or indirectly purchase, redeem or otherwise acquire any shares of common stock, Junior Stock or Parity Stock unless all accrued and unpaid dividends on the Preferred Shares for all past dividend periods are paid in full.

Table of Contents

Junior Stock means our common stock and any other class or series of our stock the terms of which expressly provide that it ranks junior to the Preferred Shares as to dividend rights and/or as to rights on liquidation, dissolution or winding up of the Company. We currently have no outstanding class or series of stock constituting Junior Stock other than our common stock.

Parity Stock means any class or series of our stock, other than the Preferred Shares, the terms of which do not expressly provide that such class or series will rank senior or junior to the Preferred Shares as to dividend rights and/or as to rights on liquidation, dissolution or winding up of the Company, in each case without regard to whether dividends accrue cumulatively or non-cumulatively. Other than the Series A Preferred Stock and Series B Preferred Stock, which are considered Parity Stock as to each other, we currently have no outstanding class or series of stock constituting Parity Stock.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company, holders of the Preferred Shares will be entitled to receive for each share of the Preferred Shares, out of the assets of the Company or proceeds available for distribution to our stockholders, subject to any rights of our creditors, before any distribution of assets or proceeds is made to or set aside for the holders of our common stock and any other class or series of our stock ranking junior to the Preferred Shares, payment of an amount equal to the sum of (i) the \$1,000 liquidation preference amount per share and (ii) the amount of any accrued and unpaid dividends on the Preferred Shares (including dividends accrued on any unpaid dividends). To the extent the assets or proceeds available for distribution to stockholders are not sufficient to fully pay the liquidation payments owing to the holders of the Preferred Shares and the holders of any other class or series of our stock ranking equally with the Preferred Shares, the holders of the Preferred Shares and such other stock will share ratably in the distribution.

For purposes of the liquidation rights of the Preferred Shares, neither a merger or consolidation of the Company with another entity, including a merger or consolidation in which the holders of Preferred Shares receive cash, securities or other property for their shares, nor a sale, lease or exchange of all or substantially all of the Company's assets will constitute a liquidation, dissolution or winding up of the affairs of the Company.

Redemptions and Repurchases

We may redeem the Preferred Shares, at any time, in whole or in part, at our option, subject to prior approval by the appropriate federal banking agency, for a redemption price equal to 100% of the liquidation preference amount per Preferred Share plus any accrued and unpaid dividends to but excluding the date of redemption (including dividends accrued on any unpaid dividends), provided that any declared but unpaid dividend payable on a redemption date that occurs subsequent to the record date for the dividend will be payable to the holder of record of the redeemed shares on the dividend record date.

To exercise the redemption right described above, we must give notice of the redemption to the holders of record of the Preferred Shares by first class mail, not less than 30 days and not more than 60 days before the date of redemption. Each notice of redemption given to a holder of Preferred Shares must state: (i) the redemption date; (ii) the number of Preferred Shares to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder; (iii) the redemption price; and (iv) the place or places where certificates for such shares are to be surrendered for payment of the redemption price. In the case of a partial redemption of the Preferred Shares, the shares to be redeemed will be selected either pro rata or in such other manner as our board of directors determines to be fair and equitable.

The Securities Purchase Agreement between us and Treasury provides that so long as Treasury continues to own any Preferred Shares, we may not repurchase any Preferred Shares from any other holder of such shares unless we offer to repurchase a ratable portion of the Preferred Shares then held by Treasury on the same terms and conditions.

Table of Contents

Preferred Shares that we redeem, repurchase or otherwise acquire will revert to authorized but unissued shares of preferred stock, which may then be reissued by us as any series of preferred stock other than the Preferred Shares.

No Conversion Rights

Holders of the Preferred Shares have no right to exchange or convert their shares into common stock or any other securities.

Voting Rights

The holders of the Preferred Shares do not have voting rights other than those described below, except to the extent specifically required by Virginia law.

Whenever dividends have not been paid on the Preferred Shares for six or more quarterly dividend periods, whether or not consecutive, the authorized number of directors of the Company will automatically increase by two and the holders of the Preferred Shares will have the right, with the holders of shares of any other classes or series of Voting Parity Stock outstanding at the time, voting together as a class, to elect two directors (the Preferred Directors) to fill such newly created directorships at our next annual meeting of stockholders (or at a special meeting called for that purpose prior to the next annual meeting) and at each subsequent annual meeting of stockholders until all accrued and unpaid dividends (including dividends accrued on any unpaid dividends) for all past dividend periods on all outstanding Preferred Shares have been paid in full at which time this right will terminate with respect to the Preferred Shares, subject to revesting in the event of each and every subsequent default by us in the payment of dividends on the Preferred Shares.

There is no limit on the number of nominations and a plurality of eligible voters would determine the election of the Preferred Directors. No person may be elected as a Preferred Director who would cause us to violate any corporate governance requirements of any securities exchange or other trading facility on which our securities may then be listed or traded that listed or traded companies must have a majority of independent directors. Upon any termination of the right of the holders of the Preferred Shares and Voting Parity Stock as a class to vote for directors as described above, the Preferred Directors will cease to be qualified as directors, the terms of office of all Preferred Directors then in office will terminate immediately and the authorized number of directors will be reduced by the number of Preferred Directors which had been elected by the holders of the Preferred Shares and the Voting Parity Stock. Any Preferred Director may be removed at any time, with or without cause, and any vacancy created by such a removal may be filled, only by the affirmative vote of the holders a majority of the outstanding Preferred Shares voting separately as a class together with the holders of shares of Voting Parity Stock, to the extent the voting rights of such holders described above are then exercisable. If the office of any Preferred Director becomes vacant for any reason other than removal from office, the remaining Preferred Director may choose a successor who will hold office for the unexpired term of the office in which the vacancy occurred.

The term Voting Parity Stock means with regard to any matter as to which the holders of the Preferred Shares are entitled to vote, any series of Parity Stock (as defined under Dividends-Priority of Dividends above) upon which voting rights similar to those of the Preferred Shares have been conferred and are exercisable with respect to such matter. Other than the Series A Preferred Stock and Series B Preferred Stock, which are considered Parity Stock as to each other, we currently have no outstanding class or series of stock constituting Parity Stock.

Although the Company does not believe the Preferred Shares are considered voting securities currently, if they were to become voting securities for the purposes of the BHCA, whether because the Company has missed six dividend payments and holders of the Preferred Shares have the right to elect directors as a result, or for other reasons, a holder of 25% of more of the Preferred Shares, or a holder of a lesser percentage of our

Table of Contents

Preferred Shares that is deemed to exercise a controlling influence over us, may become subject to regulation under the BHCA. In addition, if the Preferred Shares become voting securities, then (a) any bank holding company or foreign bank that is subject to the BHCA may need approval to acquire or retain more than 5% of the then outstanding Preferred Shares, and (b) any holder (or group of holders acting in concert) may need regulatory approval to acquire or retain 10% or more of the Preferred Shares. A holder or group of holders may also be deemed to control us if they own one-third or more of our total equity, both voting and non-voting, aggregating all shares held by the investor across all classes of stock. Holders of the Preferred Shares should consult their own counsel with regard to regulatory implications.

In addition to any other vote or consent required by Virginia law or by our Articles of Incorporation, the vote or consent of the holders of at least 66-2/3% of the outstanding Preferred Shares, voting as a separate class, is required in order to do the following:

amend or alter our Articles of Incorporation or the Certificate of Designations for the Preferred Shares to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of our capital stock ranking senior to the Preferred Shares with respect to either or both the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding up of the Company; or

amend, alter or repeal any provision of our Articles of Incorporation or the Certificate of Designations for the Preferred Shares in a manner that adversely affects the rights, preferences, privileges or voting powers of the Preferred Shares; or

consummate a binding share exchange or reclassification involving the Preferred Shares or a merger or consolidation of the Company with another entity, unless (i) the Preferred Shares remain outstanding or, in the case of a merger or consolidation in which the Company is not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (ii) the Preferred Shares remaining outstanding or such preference securities, have such rights, preferences, privileges, voting powers, limitations and restrictions, taken as a whole, as are not materially less favorable than the rights, preferences, privileges, voting powers, limitations and restrictions of the Preferred Shares immediately prior to consummation of the transaction, taken as a whole;

provided, however, that (1) any increase in the amount of our authorized shares of preferred stock, including authorized Preferred Shares necessary to satisfy preemptive or similar rights granted by us to other persons prior to March 13, 2009, and (2) the creation and issuance, or an increase in the authorized or issued amount, of any other series of preferred stock, or any securities convertible into or exchangeable or exercisable for any other series of preferred stock, ranking equally with and/or junior to the Preferred Shares with respect to the payment of dividends, whether such dividends are cumulative or non-cumulative and the distribution of assets upon our liquidation, dissolution or winding up, will not be deemed to adversely affect the rights, preferences, privileges or voting powers of the Preferred Shares and will not require the vote or consent of the holders of the Preferred Shares.

To the extent holders of the Preferred Shares are entitled to vote, holders of Preferred Shares will be entitled to one vote for each share then held.

The voting provisions described above will not apply if, at or prior to the time when the vote or consent of the holders of the Preferred Shares would otherwise be required, all outstanding Preferred Shares have been redeemed by us or called for redemption upon proper notice and sufficient funds have been set aside by us for the benefit of the holders of Preferred Shares to effect the redemption.

Table of Contents

SELLING SHAREHOLDER

The table below sets forth information concerning the resale of the Preferred Shares by Treasury. We will not receive any proceeds from the sale of any Preferred Shares sold by Treasury. Our operations are regulated by various U.S. governmental authorities, including in certain respects by Treasury. Other than through its role as a regulator and the acquisition of the Preferred Shares, Treasury has not held any position or office or had any other material relationship with us or any of our predecessors or affiliates within the past three years.

Treasury acquired the Preferred Shares as part of the Troubled Asset Relief Program, which was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). EESA was enacted into law on October 3, 2008 to restore confidence and stabilize the volatility in the U.S. banking system and to encourage financial institutions to increase their lending to customers and to each other.

The following description was provided by Treasury and is derived from the website of Treasury. Treasury is the executive agency of the United States government responsible for promoting economic prosperity and ensuring the financial security of the United States. Treasury is responsible for a wide range of activities, such as advising the President of the United States on economic and financial issues, encouraging sustainable economic growth and fostering improved governance in financial institutions. Treasury operates and maintains systems that are critical to the nation's financial infrastructure, such as the production of coin and currency, the disbursement of payments to the American public, revenue collection and the borrowing of funds necessary to run the federal government. Treasury works with other federal agencies, foreign governments, and international financial institutions to encourage global economic growth, raise standards of living and, to the extent possible, predict and prevent economic and financial crises. Treasury also performs a critical and far-reaching role in enhancing national security by implementing economic sanctions against foreign threats to the United States, identifying and targeting the financial support networks of national security threats and improving the safeguards of our financial systems. In addition, under the EESA, Treasury was given certain authority and facilities to restore the liquidity and stability of the financial system.

The doctrine of sovereign immunity, as limited by the FTCA, provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. The courts have held, in cases involving federal agencies and instrumentalities, that the United States may assert its sovereign immunity to claims brought under the federal securities laws. Thus, any attempt to assert a claim against Treasury alleging a violation of the federal securities laws, including the Securities Act and the Exchange Act, resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus is a part, or any other act or omission in connection with the offering to which this prospectus relates, likely would be barred. In addition, Treasury and its members, officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. The underwriters are not claiming to be agents of Treasury in this offering. Accordingly, any attempt to assert such a claim against the members, officers, agents or employees of Treasury for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus is a part or resulting from any other act or omission in connection with the offering to which this prospectus relates likely would be barred. See Risk Factors Treasury is a federal agency and your ability to bring a claim against Treasury under the federal securities laws in connection with a purchase of Preferred Shares may be limited.

Table of Contents

The table below sets forth information with respect to the number of Preferred Shares beneficially owned by Treasury as of July 31, 2012, which constitutes the number of Preferred Shares that may be offered by Treasury from time to time pursuant to this prospectus. The percentages below are calculated based on 14,595 Preferred Shares issued and outstanding as of July 31, 2012.

Name and Address of Beneficial Owner	Beneficial Ownership⁽¹⁾⁽²⁾	
	Number of Preferred Shares Beneficially Owned(1)(2)	Percent
United States Department of the Treasury 1500 Pennsylvania Avenue, N.W. Washington, D.C. 20220	14,595	100%

- (1) In accordance with Rule 13d-3 under the Exchange Act, a person is deemed to be the beneficial owner, for purposes of this table, of any Preferred Shares over which such person has voting or investment power and of which such person has the right to acquire beneficial ownership within 60 days.
- (2) The Preferred Shares owned by Treasury includes 13,900 Series A Preferred Shares and 695 Series B Preferred Shares.

Table of Contents

CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes the material U.S. federal income tax consequences applicable to U.S. holders and non-U.S. holders (each as defined below) with respect to the purchase, ownership and disposition of the Preferred Shares. This summary is based upon current provisions of the Internal Revenue Code of 1986, as amended from time to time (the Code), Treasury regulations and judicial and administrative authority, all of which are subject to differing interpretations or change, possibly with retroactive effect. This summary is limited to investors who will hold the Preferred Shares as capital assets and does not discuss all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances. This discussion does not address the tax consequences to investors who are subject to special tax rules, such as banks and other financial institutions, insurance companies, governments and governmental entities, broker-dealers, partnerships and their partners, tax-exempt organizations, investors that will hold the Preferred Shares as part of a straddle, hedge, conversion, constructive sale, or other integrated security transaction for U.S. federal income tax purposes, U.S. expatriates, or U.S. holders that have a functional currency that is not the U.S. dollar, all of whom may be subject to tax rules that differ significantly from those summarized below. In addition, this summary does not address any alternative minimum tax consequences or any state, local or non-U.S. tax consequences. Each prospective investor is urged to consult its own tax advisors regarding the U.S. federal, state, local, and non-U.S. income and other tax considerations of the purchase, ownership, and disposition of the Preferred Shares.

For purposes of this summary, you are a U.S. holder if you are a beneficial owner of the Preferred Shares and you are for U.S. federal income tax purposes (i) an individual citizen or resident of the United States, (ii) a corporation created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust if it (A) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (B) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person. You are a non-U.S. holder if you are a beneficial owner of the Preferred Shares that is an individual, corporation, estate or trust that is not a U.S. holder.

If a partnership (including any other entity treated as a partnership for U.S. federal income tax purposes) is a holder of the Preferred Shares, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partnership or a partner of a partnership holding Preferred Shares, you should consult your own tax advisors as to the particular U.S. federal income tax consequences of the purchase, ownership and disposition of the Preferred Shares.

U.S. Holders

Distributions on the Preferred Shares. In general, if distributions are made with respect to the Preferred Shares, the distributions will be treated as dividends to the extent of our current and accumulated earnings and profits as determined for U.S. federal income tax purposes. Any portion of a distribution in excess of our current and accumulated earnings and profits is treated first as a nontaxable return of capital reducing your tax basis in the Preferred Shares. Any amount in excess of your tax basis is treated as capital gain, the tax treatment of which is discussed below under Sale or Redemptions of the Preferred Shares.

Dividends received by individual holders of the Preferred Shares will generally be subject to a reduced maximum tax rate of 15% if such dividends are treated as qualified dividend income for U.S. federal income tax purposes. The rate reduction does not apply to dividends that are paid to individual stockholders with respect to Preferred Shares that are held for 60 days or less during the 121-day period beginning on the date which is 60 days before the date on which the Preferred Shares become ex-dividend. Furthermore, the rate reduction does not apply to dividends received to the extent that an individual holder elects to treat the dividends as investment income for purposes of determining the holder's limit for the deduction of investment interest under Section 163(d) of the Code. The 15% dividend rate is scheduled to expire December 31, 2012, at which time the

Table of Contents

rate will revert back to ordinary income rates previously in effect and applicable to dividends unless the Code is amended to provide for a different rate. In addition, under the Health Care and Education Reconciliation Act of 2010, dividends received after December 31, 2012 by U.S. holders that are individuals could be subject to the 3.8% tax on net investment income. You should consult your own tax advisors regarding the implications of these rules in light of your particular circumstances.

Dividends received by corporate holders of the Preferred Shares may be eligible for a dividends received deduction equal to 70% of the amount of the distribution, subject to applicable limitations, including limitations related to debt financed portfolio stock under Section 246A of the Code and to the holding period requirements of Section 246 of the Code. In addition, any amount received by a corporate holder that is treated as a dividend may, depending on the circumstances, constitute an extraordinary dividend subject to the provisions of Section 1059 of the Code (except as may otherwise be provided in Treasury regulations yet to be promulgated). Under Section 1059, a corporate holder that has held shares for two years or less before the dividend announcement date generally must reduce the tax basis of all of the holder's shares (but not below zero) by the non-taxed portion of any extraordinary dividend and, if the non-taxed portion exceeds the holder's tax basis for the shares, must treat any excess as gain from the sale or exchange of the shares in the year the payment is received. Individual holders of Preferred Shares that receive any extraordinary dividends that are treated as qualified dividend income (as discussed above) will be required to treat any losses on the sale of such Preferred Shares as long-term capital losses to the extent of such dividends. We strongly encourage you to consult your own tax advisor regarding the extent, if any, to which these provisions may apply to you in light of your particular facts and circumstances.

Sale or Redemption of the Preferred Shares. On the sale or exchange of the Preferred Shares to a party other than us, you generally will realize capital gain or loss in an amount equal to the difference between (a) the amount of cash and the fair market value of any property you receive on the sale and (b) your tax basis in the Preferred Shares. We strongly encourage you to consult your own tax advisors regarding applicable rates, holding periods and netting rules for capital gains and losses in light of your particular facts and circumstances. Certain limitations exist on the deduction of capital losses by both corporate and non-corporate taxpayers.

On the redemption of Preferred Shares by us, your surrender of the Preferred Shares for the redemption proceeds will be treated either as a payment received upon sale or exchange of the Preferred Shares or as a distribution with respect to all of your equity interests in us. Resolution of this issue will turn on the application of Section 302 of the Code to your individual facts and circumstances.

The redemption will be treated as gain or loss from the sale or exchange of Preferred Shares (as discussed above) if:

the redemption is substantially disproportionate with respect to you within the meaning of Section 302(b)(2) of the Code;

your interest in the Preferred Shares and any other equity interest in us is completely terminated (within the meaning of Section 302(b)(3) of the Code) as a result of such redemption; or

the redemption is not essentially equivalent to a dividend (within the meaning of Section 302(b)(1) of the Code). In general, redemption proceeds are not essentially equivalent to a dividend if the redemption results in a meaningful reduction of your interest in the issuer.

In determining whether any of these tests has been met, you must take into account not only the Preferred Shares and other equity interests in us that you actually own, but also shares and other equity interests that you constructively own within the meaning of Section 318 of the Code.

If none of the above tests giving rise to sale or exchange treatment is satisfied, then a payment made in redemption of the Preferred Shares will be treated as a distribution that is subject to the tax treatment described above under Distributions on the Preferred Shares. The amount of the distribution will be equal to the amount

Table of Contents

of cash and the fair market value of property you receive without any offset for your tax basis in the Preferred Shares. Your tax basis in the redeemed Preferred Shares should be transferred to your remaining Preferred Shares. If, however, you have no remaining Preferred Shares, your basis could be lost.

Any redemption proceeds that are attributable to any declared but unpaid dividends on the Preferred Shares will generally be subject to the rules described above under **U.S. Holders Distributions on the Preferred Shares**.

We strongly encourage you to consult your own tax advisor regarding: (a) whether a redemption payment will qualify for sale or exchange treatment under Section 302 of the Code or, alternatively, will be characterized as a distribution; and (b) the resulting tax consequences to you in light of your individual facts and circumstances.

Information Reporting and Backup Withholding. Information reporting will generally apply to noncorporate U.S. holders with respect to payments of dividends on the Preferred Shares and to certain payments of proceeds on the sale or other disposition of the Preferred Shares. Certain noncorporate U.S. holders may be subject to U.S. backup withholding (currently at a rate of 28%) on payments of dividends on the Preferred Shares and certain payments of proceeds on the sale or other disposition of the Preferred Shares unless the beneficial owner of the Preferred Shares furnishes the payor or its agent with a taxpayer identification number, certified under penalties of perjury, and certain other information, or otherwise establishes, in the manner prescribed by law, an exemption from backup withholding.

U.S. backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a credit against a U.S. holder's U.S. federal income tax liability, which may entitle the U.S. holder to a refund, provided the U.S. holder timely furnishes the required information to the Internal Revenue Service (the "IRS").

Non-U.S. Holders

Distributions on the Preferred Shares. Distributions treated as dividends as described above under **U.S. Holders Distributions on the Preferred Shares** paid to a non-U.S. holder of the Preferred Shares will generally be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, distributions that are effectively connected with the conduct by the non-U.S. holder of a trade or business within the United States are not subject to the withholding tax, provided certain certification and disclosure requirements are satisfied. Instead, such distributions are subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person as defined under the Code, unless an applicable income tax treaty provides otherwise. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

For purposes of obtaining a reduced rate of withholding under an income tax treaty or an exemption from withholding for dividends effectively connected to a U.S. trade or business, a non-U.S. holder will generally be required to provide a U.S. taxpayer identification number as well as certain information concerning the holder's country of residence and entitlement to tax benefits. A non-U.S. holder can generally meet the certification requirements by providing a properly executed IRS Form W-8BEN (if the holder is claiming the benefits of an income tax treaty) or Form W-8ECI (if the dividends are effectively connected with a trade or business in the United States) or suitable substitute form.

Sale or Redemption of the Preferred Shares. A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on gain realized on the sale, exchange, redemption (except as discussed below) or other disposition of the Preferred Shares except for (i) certain non-resident alien individuals that are present in the United States for 183 or more days in the taxable year of the sale or disposition, (ii) gain that is effectively

Table of Contents

connected with the conduct by the non-U.S. holder of a trade or business within the United States (and, if a tax treaty applies, is attributable to a permanent establishment maintained by the non-U.S. holder in the United States), (iii) non-U.S. holders that are subject to tax pursuant to certain provisions of U.S. federal income tax law applicable to certain expatriates, and (iv) gain if we are or have been a United States real property holding corporation for U.S. federal income tax purposes.

We would not be treated as a United States real property holding corporation if less than 50% of our assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interest in real property solely in a capacity as a creditor. To the extent that we are or have been a United States real property holding corporation for U.S. federal income tax purposes and a non-U.S. holder was not eligible for a treaty exemption, any gain on the sale of our Preferred Shares would be treated as effectively connected with a trade or business within the United States and the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS. Gain that is treated as effectively connected with a trade or business within the United States will be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder was a United States person as defined under the Code, unless an applicable income tax treaty provides otherwise. Any such effectively connected income received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

We believe that we are not currently and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

A payment made to a non-U.S. holder in redemption of the Preferred Shares may be treated as a dividend, rather than as a payment in exchange for such stock, in the circumstances discussed above under U.S. Holders Sale or Redemption of the Preferred Shares, in which event such payment would be subject to tax as discussed above under Distributions on the Preferred Shares. Prospective investors should consult their own tax advisors to determine the proper tax treatment of any payment received in redemption of the Preferred Shares.

Information Reporting and Backup Withholding. Information returns will be filed with the IRS reporting payments of dividends on the Preferred Shares and the amount of tax, if any, withheld with respect to those payments. Copies of information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which a non-U.S. holder resides under the provisions of an applicable income tax treaty. Unless the non-U.S. holder complies with certification procedures to establish that it is not a U.S. person, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition of the Preferred Shares and the non-U.S. holder may be subject to U.S. backup withholding on dividend payments on the Preferred Shares or on the proceeds from a sale or other disposition of the Preferred Shares. Satisfaction of the certification procedures required to claim a reduced rate of withholding under a treaty described above in the section titled Distributions on the Preferred Shares will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a non-U.S. holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS. Non-U.S. holders are urged to consult their own tax advisors regarding the application of backup withholding in their particular circumstances and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury regulations.

New Legislation Relating to Foreign Accounts

Legislation enacted in 2010 may impose withholding taxes on certain types of payments made to foreign financial institutions and certain other non-U.S. entities after December 31, 2012. The legislation generally imposes a 30% withholding tax on dividends on or gross proceeds from the sale or other disposition of Preferred Shares paid to a foreign financial institution unless the foreign financial institution enters into an agreement with the Treasury to among other things, undertake to identify accounts held by certain U.S. persons or U.S.-owned

Table of Contents

foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. In addition, the legislation generally imposes a 30% withholding tax on the same types of payments to a foreign non-financial entity unless the entity certifies that it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. Under recently issued IRS guidance, these rules generally would apply to payments of dividends on the Preferred Shares made after December 31, 2013, and payments of gross proceeds from a disposition of the Preferred Shares made after December 31, 2014. Prospective investors should consult their tax advisors regarding this legislation.

PLAN OF DISTRIBUTION

We are registering the Preferred Shares for Treasury.

We will pay the costs and fees of registering the Preferred Shares and other expenses related to the registration of the Preferred Shares. However, Treasury will pay any underwriting discounts or commissions or other amounts payable to underwriters, dealers or agents, or any transfer taxes or other expenses associated with the sale of the securities, on behalf of Treasury. We have agreed to provide certain indemnification to Treasury against certain liabilities, including certain liabilities under the Securities Act, in connection with this offering.

Treasury will act independently of the Company in making decisions with respect to the timing, manner and size of each sale of the Preferred Shares.

The Preferred Shares may be sold from time to time by Treasury as described in and subject to any restrictions in the applicable prospectus supplement from time to time in any of the following ways:

on any national securities exchange or quotation service on which the Preferred Shares may be listed or quoted at the time;

in the over-the-counter market;

in transactions otherwise than on these exchanges or in the over-the-counter market or in any combination of such transactions;

through the writing of options, whether the options are listed on an options exchange or otherwise;

through ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

through block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

through purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

in privately negotiated transactions;

in short sales;

through transactions in which broker-dealers may agree with Treasury to sell a specified number of such shares at a stipulated price per share obtained in the open market or through auctions;

through a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

If Treasury uses underwriters in the sale of some or all of the securities covered by this prospectus, the underwriters will acquire the securities for their own account. The obligations of the underwriters to purchase the securities will be subject to certain conditions. Unless indicated otherwise, the underwriters will be obligated to purchase all the securities of the series offered if any of the securities are purchased.

Unless otherwise indicated, when securities are sold through an agent, the designate agent will agree, for the period of its appointment as agent, to use its best efforts to sell the securities for the account of Treasury and will receive commissions from Treasury.

Broker-dealers, agents or underwriters may receive compensation in the form of discounts, concessions or commissions from Treasury and/or the purchasers of securities for whom such broker-dealers, agents or underwriters may act as agents or to whom they sell as principal, or both (this compensation to a particular broker-dealer might be in excess of customer commissions).

Treasury may also sell offered securities directly. In this case, no underwriters or agents would be involved.

Table of Contents

The securities may be sold from time to time in one or more transactions, and in any combination of transactions:

at fixed prices, which may be changed;

at market prices prevailing at the time of the sale;

at varying prices determined at the time of sale; or

at negotiated prices.

Any securities covered by this prospectus which qualify for sale pursuant to Rule 144 or Rule 144A promulgated under the Securities Act may also be sold under Rule 144 or Rule 144A in certain instances, rather than pursuant to this prospectus. In addition to selling the securities under this prospectus, Treasury may transfer the securities in other ways not involving market makers or established trading markets, including directly by gift, distribution, or other transfer. Treasury may also transfer the shares by other means not described in this prospectus. Moreover, Treasury may decide not to sell any securities offered hereby.

In addition, in connection with the sale of the securities or otherwise, Treasury may enter into derivative or hedging transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions, which may in turn engage in short sales of the common stock issuable upon exercise of the Warrant in the course of hedging the positions they assume. Treasury may also sell short the common stock issuable upon exercise of the Warrant and deliver common stock to close out short positions, or loan or pledge the Preferred Shares or the common stock issuable upon exercise of the Warrant to broker-dealers that in turn may sell these securities.

In connection with resales of the securities or otherwise, Treasury may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the securities and deliver securities to close out such short positions, or loan or pledge common stock to broker-dealers that in turn may sell such securities. Such transactions may be effected by Treasury at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices. Treasury may effect such transactions by selling the securities to or through broker-dealers and such broker-dealers may receive compensation in the form of discounts or commissions from Treasury and may receive commissions from the purchasers of the securities for whom they may act as agent (which discounts or commissions from Treasury or such purchasers will not exceed those customary in the type of transactions involved).

In offering the securities covered by this prospectus, Treasury and any broker-dealers who execute sales for Treasury may be deemed to be underwriters within the meaning of Section 2(a)(11) of the Securities Act in connection with such sales. Any profits realized by Treasury and the commission, discounts and any other compensation of any broker-dealer or any profits in resales of the securities by broker-dealers may be deemed to be underwriting discounts and commissions under the Securities Act. Persons who are underwriters within the meaning of Section 2(a)(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory and regulatory liabilities, including liabilities imposed pursuant to Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

Treasury and any underwriters and distribution participants will be subject to applicable provisions of the Exchange Act and the associated rules and regulations under the Exchange Act, including Regulation M, which provisions may limit the timing of purchases and sales of shares by Treasury. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to special exceptions or exemptions. In addition, the anti-manipulation rules under the Exchange Act may apply to sales of the securities in the market. All of these limitations may affect the marketability of the securities and the ability of any person to engage in market-making activities with respect to the securities.

Table of Contents

Underwriters and others who are deemed to be underwriters under the Securities Act may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock, including the entry of stabilizing bids or syndicate covering transactions or the imposition of penalty bids.

We will file a supplement to this prospectus, if required, pursuant to Rule 424(b) under the Securities Act, upon being notified by Treasury that a material arrangement has been entered into with a broker, dealer, agent or underwriter for the sale of securities through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer. Such prospectus supplement will disclose:

the name of the selling securityholders and any participating broker, dealer, agent or underwriter;

the number and type of securities involved;

the price at which such securities were sold;

any securities exchanges on which such securities may be listed;

the commissions paid or discounts or concessions allowed to any such broker, dealer, agent or underwriter where applicable; and

other facts material to the transaction.

In order to comply with the securities laws of certain states, if applicable, the securities must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states, the securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

The Preferred Shares are not listed on a national securities exchange or any securities market. We do not intend to list the Preferred Shares on any exchange. No assurance can be given as to the liquidity of the trading market, if any, for the Preferred Shares.

Table of Contents

EXPERTS

Our consolidated financial statements as of December 31, 2011 and 2010 and for each of the years in the three-year period ended December 31, 2011, have been incorporated by reference in this prospectus in reliance upon the report of Yount, Hyde & Barbour, P.C., registered independent public accountants, incorporated by reference herein and upon the authority of said firm as experts in accounting and auditing.

LEGAL MATTERS

The validity of the Preferred Shares offered by this prospectus and certain other legal matters will be passed upon for us by the law firm of Williams Mullen, Richmond, Virginia.
