CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This prospectus supplement and the accompanying prospectus and other publicly available documents, including the documents incorporated herein and therein by reference, may include, and officers and representatives of AIG may from time to time make, projections, goals, assumptions and statements that may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These projections, goals, assumptions and statements are not historical facts but instead represent only AIG's belief regarding future events, many of which, by their nature, are inherently uncertain and outside AIG's control. These projections, goals, assumptions and statements include statements preceded by, followed by or including words such as "believe," "anticipate," "expect," "intend," "plan," "view," "target" or "estimate." Projections, goals, assumptions and statements may address, among other things:

the timing of the disposition of the remaining ownership position of Treasury in AIG;

the monetization of AIG's interests in International Lease Finance Corporation ("ILFC"), including whether AIG's proposed sale of up to a 90 percent interest in ILFC will be completed and if completed, the timing and the final terms of such sale;

AIG's exposures to subprime mortgages, monoline insurers, the residential and commercial real estate markets, state and municipal bond issuers and sovereign bond issuers;

AIG's exposure to European governments and European financial institutions;

AIG's strategy for risk management;

AIG's generation of deployable capital;

AIG's return on equity and earnings per share long-term aspirational goals;

AIG's strategies to grow net investment income, efficiently manage capital and reduce expenses;

changes in market conditions;

the occurrence of catastrophic events, both natural and man-made;

significant legal proceedings;

the timing and applicable requirements of any new regulatory framework to which AIG is subject as a savings and loan holding company, and if such a determination is made, as a systemically important financial institution;

Recent Developments

Storm Sandy

AIG announced on December 7, 2012 that its preliminary estimate of AIG's after-tax losses related to Storm Sandy, net of reinsurance, will total approximately \$1.3 billion. This estimate reflects a pre-tax loss estimate, net of reinsurance, totaling approximately \$2.0 billion. AIG expects to make a capital contribution to its U.S. property casualty insurance subsidiaries of \$1 billion from existing, readily available funds. In 2012, AIG Property Casualty has paid dividends to American International Group, Inc. totaling \$2.4 billion. As of September 30, 2012, AIG Property Casualty's equity totaled \$49.6 billion, and AIG's equity totaled \$102.4 billion.

This preliminary estimate involves the exercise of considerable judgment. Due to the complexity of factors contributing to the losses, there can be no assurance that AIG's ultimate losses associated with this storm will not differ from the estimate, perhaps materially.

Losses related to Storm Sandy will be reflected in AIG's fourth quarter 2012 results, and any subsequent changes will be recorded in the period in which they occur.

Sale of ILFC

On December 9, 2012, AIG and AIG Capital Corporation, a wholly-owned direct subsidiary of AIG, entered into a definitive agreement with Jumbo Acquisition Limited for the sale of 80.1% of the common stock of ILFC by AIG Capital Corporation to Jumbo Acquisition Limited for approximately \$4.23 billion in cash (the ILFC

Table of Contents

Transaction). Jumbo Acquisition Limited may elect to purchase an additional 9.9% of the common stock of ILFC for \$522.5 million (the Option) by the later of March 15, 2013 and ten days after approval of the ILFC Transaction and the Option by the Committee on Foreign Investment in the United States (CFIUS). AIG Capital Corporation will retain a 19.9% ownership interest in ILFC, or a 10.0% ownership interest in ILFC if the Option is exercised by Jumbo Acquisition Limited, in each case subject to dilution for management issuances (which, over time, would reduce AIG s ownership interest by approximately one percentage point). In connection with the transaction, Jumbo Acquisition Limited has agreed to pay a deposit in Renminbi equivalent to \$422.75 million (the Transaction Deposit) into an escrow account upon the later of ten days after approval of the Transaction and the Option by CFIUS, and March 15, 2013. If the Option is exercised by Jumbo Acquisition Limited, then concurrently with the Transaction Deposit, Jumbo Acquisition Limited has agreed to deposit an additional Renminbi equivalent of \$52.25 million. Jumbo Acquisition Limited was formed on behalf of an investor group consisting of New China Trust Co., Ltd., China Aviation Industrial Fund and P3 Investments Ltd., and led by Mr. Weng Xianding, the Chairman of New China Trust Co., Ltd.

The consummation of the ILFC Transaction is subject to the satisfaction or waiver of certain customary and other closing conditions, including receipt of approvals or non-disapprovals from certain regulatory bodies, including, among others, the People s Republic of China National Development and Reform Commission, CFIUS and other anti-trust and regulatory agencies, in some cases without the imposition on either party by such agencies of conditions that would qualify as burdensome.

When the ILFC Transaction meets the criteria for held for sale accounting treatment, AIG expects to record a nonoperating loss of approximately US\$4.4 billion, which includes a non-cash charge of approximately \$1.8 billion associated with the utilization of tax net operating loss carry forwards from this transaction.

There can be no assurance that the ILFC Transaction will be completed or, if completed, that it will be completed for the amount or on the terms contemplated or that there will not be a delay in the completion of the ILFC Transaction.

RISK FACTORS

An investment in our common stock involves certain risks. You should carefully consider the risks described below and in Part II, Item 1A. Risk Factors of our Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2012, Part II, Item 1A. Risk Factors of our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2012 and Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K, as well as the other information included in this prospectus supplement and the accompanying prospectus, or incorporated by reference into this prospectus supplement and the accompanying prospectus, before purchasing shares of our common stock.

We currently do not pay cash dividends and we may be unable to pay dividends or repurchase shares of our common stock in the future.

We have not paid any cash dividends since September 2008, and we may not pay cash dividends in the future. No assurance can be given that we will begin paying cash dividends.

Our regulatory status will affect our ability to pay dividends or repurchase shares of our common stock. Companies that control a federal savings association, such as AIG Federal Savings Bank, are generally savings and loan holding companies (each, a "SLHC") and subject to regulation by the Board of Governors of the Federal Reserve System ("FRB"). As a result, we are regulated by the FRB as an SLHC. The FRB, as a supervisory matter, could limit our ability to pay dividends or repurchase shares of our common stock. The payment of dividends and repurchase of shares of common stock may depend, among other things, on whether we are well capitalized and whether we have demonstrated profitability. In addition, the FRB has proposed consolidated capital requirements that would apply to SLHCs and will propose enhanced prudential standards for SLHCs, all of which could, when adopted, restrict our ability to pay dividends and repurchase our common stock. In addition, if we are treated as a systemically important financial institution ("SIFI") under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("Dodd-Frank"), we will be subject to an additional regulatory framework that could further limit our ability to pay dividends or repurchase shares of our common stock. A more detailed discussion of the SHLC regulatory framework that is expected to be applicable to us is set forth under Part II, Item 1A. Risk Factors Regulation Our status as a savings and loan holding company and the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act will subject us to substantial additional federal regulation, either or both of which may materially and adversely affect our businesses, results of operations, cash flows, financial condition and credit ratings and Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Regulatory Environment in our Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2012. We are unable to predict if or when we will be able to pay dividends or repurchase shares of our common stock consistent with future regulatory restrictions.

Even if regulatory approval of a payment of dividends or a repurchase of shares of our common stock is received, the payment of any dividend or repurchase of any shares of common stock will be subject to the approval of our Board of Directors, in its sole discretion. In considering whether to pay a dividend or repurchase shares of common stock, our Board of Directors will take into account such matters as our financial position, the performance of our businesses, our consolidated financial condition, results of operations and liquidity, available capital, the existence of investment opportunities, contractual, legal and regulatory restrictions on the payment of dividends by our subsidiaries to us, rating agency considerations, including the potential effect on our debt ratings, and such other factors as our Board of Directors may deem relevant.

In 2012, we have repurchased approximately \$13 billion of common stock that had been offered in four registered offerings by the selling shareholder of shares of our common stock. The timing of additional purchases, if any, will depend on future regulatory restrictions, further board action, market conditions, our financial condition, results of operations, liquidity, rating agency considerations and other factors. There is no assurance that we will repurchase any additional shares.

Table of Contents

Our holding company structure and certain regulatory and other constraints could affect our ability to pay our obligations.

We are a holding company and we conduct substantially all of our operations through subsidiaries. We depend on dividends, distributions and other payments from our subsidiaries to fund payments on our obligations, including debt obligations. Further, the majority of our investments are held by our regulated subsidiaries. Our subsidiaries may be limited in their ability to make dividend payments or advance funds to us in the future because of the need to support their own capital levels.

If Treasury is not able to sell all of its shares of the common stock as contemplated in this offering, Treasury may continue to be a significant shareholder and may have interests inconsistent with other holders of our common stock.

Treasury currently has approximately 15.9 percent of the voting power of our common stock before this offering. Assuming all of the shares of our common stock owned by Treasury are sold in this offering, upon completion of this offering, it is expected that Treasury will no longer own any of our common stock. However, if Treasury remains a substantial shareholder, the interests of Treasury (as a government entity) may not be the same as those of other holders of our common stock.

For as long as it remains a substantial shareholder, Treasury will continue to have a significant vote on matters subject to shareholder approval, including:

approval of mergers or other business combinations;

a sale of all or substantially all of our assets;

amendments to our restated certificate of incorporation; and

other matters that might be favorable to Treasury, but not to our other shareholders.

Moreover, Treasury's significant vote in connection with a change in control of us could also have an adverse effect on the market price of our common stock. Treasury may, subject to applicable securities laws and except as described under "Underwriting," transfer all, or a portion of, our common stock to another person or entity and, in the event of such a transfer, that person or entity could become a significant shareholder. Treasury's rights under a registration rights agreement, dated as of January 14, 2011, between us and Treasury (the "Registration Rights Agreement"), may be assigned to any person purchasing over \$500 million of our common stock.

Regardless of the outcome of this offering, Treasury will continue to hold the Series D Warrant (as defined below) to purchase up to 2,689,938 shares of our common stock and the Series F Warrant (as defined below) to purchase up to 150 shares of our common stock, each pursuant to the current terms of the Series D Warrant and Series F Warrant. See "Description of Common Stock—Impact of Other Securities and Contractual Obligations of AIG" and "The Selling Shareholder" in this prospectus supplement for more information on the Series D Warrant and Series F Warrants held by Treasury.

Possible future sales or other dilution of our equity by us, or the perception of any such possible future sales, may adversely affect the market price of our common stock.

Except as described under "Underwriting" and subject to Treasury's rights under, and the restrictions contained in, the Registration Rights Agreement, we are not restricted from issuing additional shares of our common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, our common stock, such as various warrants issued by us. The issuance of the additional shares of our common stock or such other securities will dilute the ownership interest of the existing holders of our common stock. The market price of our common stock could decline as a result of sales of shares of our common stock or sales of such other securities made after this offering or the perception that such sales could occur.

Table of Contents

The price of our common stock has fluctuated and may continue to fluctuate significantly, which may make it difficult for you to resell shares of our common stock owned by you at times or at prices you find attractive.

The price of our common stock on the NYSE constantly changes and has been highly volatile. We expect that the market price of our common stock will continue to fluctuate.

Our stock price may fluctuate as a result of a variety of factors, many of which are beyond our control. These factors include:

sales of common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, our common stock, or the perception that such sales could occur, or other actions by Treasury;

periodic variations in our operating results or the quality of our assets;

operating results that vary from the expectations of securities analysts and investors;

changes in expectations as to our future financial performance;

the operating and securities price performance of other companies that investors believe are comparable to us;

actions by credit rating agencies;

factors as noted or referenced in this prospectus supplement under **Risk Factors** and **Cautionary Statement Regarding Forward-Looking Information** and under comparable headings in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus; and

changes in global financial markets and global economies and general market conditions, such as interest or foreign exchange rates, stock, commodity or real estate valuations or volatility, adverse European economic and financial conditions related to sovereign debt issues in certain countries, concerns regarding the European Union or geopolitical or military crises.

In addition, in recent years, the stock market in general has experienced extreme price and volume fluctuations. This volatility has significantly affected the market prices of securities issued by many companies, including for reasons unrelated to their operating performance. These broad market fluctuations may adversely affect our stock price regardless of our operating results.

Our common stock is an equity security and is subordinate to our existing and future indebtedness and our preferred stock.

Shares of our common stock are equity interests in us and do not constitute indebtedness. This means that shares of our common stock will rank junior to all of our indebtedness and to other non-equity claims against us and our assets available to satisfy claims against us, including in our liquidation. Additionally, the holders of our common stock are subject to the prior dividend and liquidation rights of holders of our preferred stock or the depositary shares representing such preferred stock then outstanding. Our Board of Directors is authorized to issue additional classes or series of preferred stock without any action on the part of the holders of our common stock.

The amendment to our previously amended and restated certificate of incorporation (the **Protective Amendment) and our **Tax Asset Protection Plan (the **Plan**) could have an anti-takeover effect.****

Edgar Filing: AMERICAN INTERNATIONAL GROUP INC - Form 424B7

Although the reason our Board of Directors approved the Protective Amendment (which has been included in our restated certificate of incorporation) and adopted the Plan is to protect the long-term value of certain tax attributes that may reduce future income taxes, the Protective Amendment could be deemed to have an

Table of Contents

anti-takeover effect because, among other things, it will restrict the ability of a person, entity or group to accumulate 4.99 percent or more of our common stock. Similarly, while the Plan is not intended to prevent a takeover, it does have a potential anti-takeover effect because an acquiring person may be diluted upon the occurrence of a triggering event. Accordingly, the overall effects of the Protective Amendment and the Plan may be to render more difficult, or discourage, a merger, tender offer, proxy contest or assumption of control by a substantial holder of our securities. See Description of Common Stock Protective Amendment and Description of Common Stock The Tax Asset Protection Plan in this prospectus supplement for a more detailed discussion about the Protective Amendment and the Plan.

Our ability to utilize tax losses and credits carryforwards to offset future taxable income may be significantly limited if we experience an ownership change under the Internal Revenue Code.

As of September 30, 2012, we had substantial net operating loss carryforwards, capital loss carryforwards and foreign tax credits carryforwards to reduce future income taxes (tax assets). Our ability to utilize such tax assets to offset future taxable income may be significantly limited if we experience an ownership change as defined in Section 382 of the Internal Revenue Code of 1986, as amended (the Code). An ownership change will generally occur if the percentage of our stock owned by 5-percent shareholders (as defined in Section 382 of the Code) has increased by more than 50 percentage points over the lowest percentage of our stock owned by such shareholders at any time during a 3-year period, with certain exceptions related to the disposition of the common stock held by the Treasury. If we were to experience an ownership change, it is possible that a significant portion of our tax assets could expire before we would be able to use them to offset future taxable income. Based on the proposed method of distributing the common stock offered hereby, we do not, however, expect this offering to result in an ownership change.

On March 9, 2011, our Board of Directors adopted the Plan to help protect our ability to recognize tax benefits from certain tax attributes in order to reduce our potential future income tax liability. At our annual meeting of shareholders on May 11, 2011, our shareholders ratified the Plan and also adopted the Protective Amendment, which is designed to prevent certain transfers of our common stock that could result in an ownership change. While the Plan and the Protective Amendment are intended to deter and prevent acquisitions of our common stock that may result in an ownership change, such acquisitions may still occur. See Description of Common Stock Protective Amendment and Description of Common Stock The Tax Asset Protection Plan in this prospectus supplement for a more detailed discussion about the Protective Amendment and the Plan.

The selling shareholder is a federal agency, and your ability to bring a claim against the selling shareholder under the federal securities laws may be limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the FTCA), provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by an act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, Section 3(c) of the Exchange Act provides that the selling shareholder and its officers, agents and employees are exempt from liability for any violation or alleged violation of any provision of the Exchange Act, including the anti-fraud provisions of Section 10(b) of the Exchange Act. Accordingly, any attempt to assert such a claim against the officers, agents or employees of the selling shareholder for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus supplement, the accompanying prospectus, the documents incorporated by reference herein and therein or the registration statement, or resulting from any other act or omission in connection with the offering by the selling shareholder, would likely be barred.

USE OF PROCEEDS

The shares of our common stock offered by this prospectus supplement are being sold for the account of the selling shareholder. Any proceeds from the sale of the shares will be received by the selling shareholder for its own account, and we will not receive any such proceeds. We will pay the underwriting discount with respect to the shares sold by the selling shareholder and we will pay our share of the offering expenses, which include the fees and expenses of counsel for the selling shareholder.

During the periods shown above, no cash dividends were declared or paid. In January 2011, as part of a series of integrated transactions with Treasury, the Federal Reserve Bank of New York (the **FRBNY**) and the AIG Credit Facility Trust (the **Trust**) that closed on January 14, 2011 to recapitalize AIG (the **Recapitalization**), we declared a dividend of 0.533933 warrants for each share of our common stock owned by the common shareholders of record as of January 13, 2011. Each of such 10-year warrants entitles the holder to purchase one share of our common stock at an initial exercise price of \$45.00 per share, subject to anti-dilution adjustments for certain events. On January 19, 2011, 74,997,777.598 warrants were issued to our common shareholders, of which 67,650.196 warrants were retained by us to satisfy tax withholding. In addition, in connection with the adoption of the Plan, on March 9, 2011, our Board of Directors declared a dividend of one right for each outstanding share of our common stock, held of record as of the close of business on March 18, 2011 or issued thereafter. See **Description of Common Stock** **The Tax Asset Protection Plan** for a description of the rights.

As of November 30, 2012, there were 1,476,313,967 shares of common stock outstanding, held by approximately 40,146 record holders. On December 10, 2012, the last reported sale price of our common stock on the NYSE was \$33.36 per share.

Payment of future dividends is dependent on the regulatory regime that is or will ultimately be applicable to us, and dividends will be payable on our common stock only when, as and if declared by our Board of Directors in its discretion, from funds legally available for such purpose. In considering whether to pay a dividend or repurchase shares of common stock, our Board of Directors will take into account such matters as our financial position, the performance of our businesses, our consolidated financial condition, results of operations and liquidity, available capital, the existence of investment opportunities, contractual, legal and regulatory restrictions on the payment of dividends by our subsidiaries to us, rating agency considerations, including the potential effect on our debt ratings, and such other factors as our Board of Directors may deem relevant. We currently do not pay cash dividends and we may be unable to pay cash dividends in the future. In addition, the

Table of Contents

FRB could limit our ability to pay dividends, since we are regulated as an SLHC. In addition, if we are treated as a SIFI, we will be subject to an additional regulatory framework that could further limit our ability to pay dividends. For a discussion of certain regulatory restrictions that might apply to our ability to pay dividends on our common stock, see [Risk Factors](#). We currently do not pay cash dividends and we may be unable to pay dividends or repurchase shares of our common stock in the future. For a discussion of certain restrictions on the payment of dividends to AIG by our insurance subsidiaries, see [Risk Factors](#). Our holding company structure and certain regulatory and other constraints could affect our ability to pay our obligations.

In addition, subject to certain exceptions, the terms of our outstanding junior subordinated debentures may restrict our ability to declare or pay dividends on our common stock upon an event of default under or deferral of interest payments on those junior subordinated debentures. As of the date of this prospectus supplement, we have not deferred any interest payments under those junior subordinated debentures. See [Description of Common Stock](#), [Impact of Other Securities and Contractual Obligations of AIG](#), [Junior Subordinated Debentures](#) for a more detailed discussion of these restrictions.

DESCRIPTION OF COMMON STOCK

This section summarizes some of the terms of our capital stock, plans, securities exercisable for our common stock and debt instruments and agreements containing restrictions relating to our capital stock. This summary does not purport to be complete and is qualified by the documents governing those terms which contain the full legal text of the matters described in this section. Such documents have been filed with the SEC or incorporated by reference as exhibits to the registration statement of which the accompanying prospectus forms a part or to our Annual Report on Form 10-K. You should refer to these documents for more information.

This summary supplements and amends the general description of our common stock contained in the accompanying prospectus. Any information regarding the common stock contained in this prospectus supplement that is inconsistent with information in the accompanying prospectus will apply and will supersede the inconsistent information in the accompanying prospectus.

General

AIG's authorized capital stock includes 5,000,000,000 shares of common stock (par value \$2.50 per share). As of November 30, 2012, there were 1,476,313,967 shares of our common stock outstanding.

All of the outstanding shares of our common stock are fully paid and nonassessable. Subject to the prior rights of the holders of shares of preferred stock that may be issued and outstanding, the holders of common stock are entitled:

to receive dividends when, as and if declared by our Board of Directors out of funds legally available for the payment of dividends (AIG is subject to contractual and potentially other restrictions on its ability to pay dividends in certain circumstances. See Price Range of Common Stock and Dividends above and Impact of Other Securities and Contractual Obligations of AIG below); and

in the event of dissolution of AIG, to share ratably in all assets remaining after payment of liabilities and satisfaction of the liquidation preferences, if any, of then outstanding shares of preferred stock, as provided in AIG's restated certificate of incorporation. Each holder of common stock is entitled to one vote for each share held of record on all matters presented to a vote at a shareholders meeting, including the election of directors. Holders of common stock have no cumulative voting rights or preemptive rights to purchase or subscribe for any additional shares of common stock or other securities, and there are no conversion rights or redemption or sinking fund provisions with respect to the common stock. Authorized but unissued shares of common stock may be issued without shareholder approval.

AIG has adopted direct company registration of its common stock. Holders of shares of common stock will not receive stock certificates evidencing their share ownership. Instead, they will be provided with a statement reflecting the number of shares registered in their accounts.

The transfer agent for our common stock is Wells Fargo Bank, N.A.

Protective Amendment

Our Board of Directors and our shareholders approved the Protective Amendment, which has been included in our restated certificate of incorporation. The purpose of the Protective Amendment is to prevent certain transfers of our securities that could result in an ownership change under Section 382 (Section 382) of the Code, and, therefore, materially inhibit our ability to use certain net operating loss carryforwards, capital loss carryforwards and foreign tax credits carryforwards to reduce future income taxes (the Tax Attributes).

Table of Contents

The Protective Amendment generally restricts any direct or indirect transfer of our common stock (such as transfers of our securities that result from the transfer of interests in other entities that own our common stock) if the effect would be to:

increase the direct, indirect or constructive ownership by any Person (as defined below) to 4.99 percent or more of our common stock then outstanding or certain other classes of stock then outstanding (a Five Percent Shareholder); or

increase the percentage of our stock owned directly, indirectly or constructively by a Five Percent Shareholder.

Person means any individual, firm, partnership, limited liability company, trust, association, limited liability partnership, corporation or other entity within the meaning of Treasury regulation §1.382-3(a)(1)(i), and includes any successor (by merger or otherwise) of such entity. Restricted transfers include sales to Persons whose resulting percentage ownership (direct, indirect or constructive) of our common stock would equal or exceed the 4.99 percent threshold discussed above, or to Persons whose direct or indirect ownership of our common stock would by attribution cause another Person to equal or exceed such threshold. Complicated stock ownership rules prescribed by the Code (and Treasury regulations promulgated thereunder) apply in determining whether a Person is a Five Percent Shareholder under the Protective Amendment.

These transfer restrictions may result in the delay or refusal of certain requested transfers of our common stock, or prohibit ownership (thus requiring dispositions) of our common stock due to a change in the relationship between two or more persons or entities or to a transfer of an interest in an entity that, directly or indirectly, owns our common stock. The transfer restrictions will also apply to proscribe the creation or transfer of certain options (which are broadly defined by Section 382) with respect to AIG securities to the extent that, in certain circumstances, the creation, transfer or exercise of the option would result in a proscribed level of ownership. These restrictions also apply to the exercise of the Dividend Warrants, the Series D Warrant and Series F Warrant (each as defined below).

Any direct or indirect transfer attempted in violation of the Protective Amendment will be void as of the date of the prohibited transfer as to the purported transferee (or, in the case of an indirect transfer, the direct owner of our securities will be deemed to have disposed of, and required to dispose, the excess stock (as defined below), with such disposition being deemed to occur simultaneously with the transfer), and the purported transferee (or in the case of any indirect transfer, the direct owner) will not be recognized as the owner of the securities owned in violation of the Protective Amendment for any purpose, including for purposes of voting and receiving dividends or other distributions in respect of our common stock, or in the case of options, receiving our common stock in respect of their exercise. In this prospectus supplement, the common stock purportedly acquired in violation of the Protective Amendment is referred to as excess stock.

In addition to a prohibited transfer being void as of the date it is attempted, upon demand, the purported transferee must transfer the excess stock to our agent along with any dividends or other distributions paid with respect to such excess stock. Our agent is required to sell such excess stock in an arm's-length transaction (or series of transactions) that would not constitute a violation under the Protective Amendment. The net proceeds of the sale, together with any other distributions with respect to such excess stock received by our agent, after deduction of all costs incurred by the agent, will be distributed first to the purported transferee in an amount, if any, up to the cost (or, in the case of gift, inheritance or similar transfer, the fair market value of the excess stock on the date of the prohibited transfer) incurred by the purported transferee to acquire such excess stock, and the balance of the proceeds, if any, will be distributed to the transferor in the prohibited transfer, or to a charitable beneficiary if the transferor cannot be readily identified. If the excess stock is sold by the purported transferee, such person will be treated as having sold the excess stock on behalf of our agent, and will be required to remit all proceeds to our agent (except to the extent we grant written permission to the purported transferee to retain an amount, not to exceed the amount such person otherwise would have been entitled to retain had our agent sold such shares for an amount equal to the proceeds of such sale (taking into account the actual costs incurred by our agent)).

Table of Contents

The transfer restrictions in the Protective Amendment are subject to certain exceptions. Among other things, a transfer from one member of a public group (as defined under Section 382) to another member of the same public group that does not result in such transferee being treated as a 5-percent shareholder (as defined under Section 382) does not increase the percentage interests taken into account for purposes of determining an ownership change and, therefore, such transfers are generally not restricted. In addition, our Board of Directors will have the discretion to approve a transfer of our securities that would otherwise violate the transfer restrictions if it determines that the transfer is in our best interests or if the Board of Directors receives a report, at the Board of Directors' request, from our advisors that the proposed transfer does not create a significant risk of material adverse tax consequences to us. The Board of Directors is also required to approve any proposed transfer by Treasury if that transfer and all prior and anticipated transfers or other transactions during the relevant testing period do not result in an owner shift of more than 40 percent under Section 382.

The Protective Amendment expires on the earliest of (i) the close of business on the third anniversary of the annual meeting of our shareholders in 2011, (ii) the date on which our Board of Directors receives, at its request, a report from our advisors that the Protective Amendment is no longer necessary for the preservation of the Tax Attributes because of the amendment or repeal of Section 382 or any other change in law, (iii) the first day of a taxable year to which our Board of Directors receives a report, at its request, from our advisors that no Tax Attributes may be carried forward, and (iv) such date as the Board of Directors determines for the restrictions in the Protective Amendment to terminate.

The Tax Asset Protection Plan

Our Board of Directors adopted the Plan on March 9, 2011 and our shareholders ratified the Plan at our annual meeting of shareholders on May 11, 2011. Subject to certain limited exceptions, the Plan is intended to act as a deterrent to any person or group acquiring 4.99 percent or more of our outstanding common stock (an Acquiring Person) without the approval of our Board of Directors. Shareholders who owned 4.99 percent or more of our common stock as of the close of business on March 9, 2011 generally will not trigger the Plan so long as they do not acquire any additional shares of our common stock. Treasury is the only shareholder who owned 4.99 percent or more of our common stock as of the close of business on March 9, 2011. Our Board of Directors may, in its sole discretion, exempt any person or group from being deemed an Acquiring Person for purposes of the Plan with respect to which it receives, at its request, a report from our advisors to the effect that such exemption would not create a significant risk of material adverse tax consequences to us, or our Board of Directors otherwise determines it is in our best interests.

The Rights. Our Board of Directors authorized the issuance of one right per each outstanding share of our common stock payable to our shareholders of record as of the close of business on March 18, 2011. Subject to the terms, provisions and conditions of the Plan, if these rights become exercisable, each right would initially represent the right to purchase from us one ten-thousandth of a share of our Participating Preferred Stock, par value \$5.00 per share (the Participating Preferred Stock), for a purchase price of \$185.00 per right (the Exercise Price). If issued, each one ten-thousandth of a share of Participating Preferred Stock would generally give a shareholder approximately the same dividend, voting and liquidation rights as does one share of our common stock. However, prior to exercise, a right does not give its holder any rights as a shareholder, including without limitation any dividend, voting or liquidation rights.

Exercisability. The rights will not be exercisable until the earlier of (i) a public announcement by us that a person or group has become an Acquiring Person (the date of such public announcement is referred to herein as the Stock Acquisition Date) and (ii) 10 business days after the commencement of a tender or exchange offer by a person or group if upon consummation of the offer the person or group would directly, indirectly or constructively own 4.99 percent or more of our outstanding common stock. We refer to the date on which the rights become exercisable as the Separation Time.

Until the Separation Time, our common stock certificates (or the registration of uncertificated shares on our stock transfer books) will evidence the rights and may contain a notation to that effect. Any transfer of shares of

Table of Contents

our common stock prior to the Separation Time will constitute a transfer of the associated rights. After the Separation Time, the rights may be transferred other than in connection with the transfer of the underlying shares of our common stock.

If there is an Acquiring Person on the Separation Time or a person or group becomes an Acquiring Person after the Separation Time, each holder of a right, other than rights that are or were beneficially owned by an Acquiring Person (which will be void), will thereafter have the right to receive upon exercise of a right and payment of the Exercise Price that number of shares of our common stock (or, at AIG's election, Participating Preferred Stock) having a market value of two times the exercise price of the right.

Exchange. At any time after the Stock Acquisition Date, provided the Acquiring Person does not hold 50 percent or more of the outstanding common stock, our Board of Directors may exchange the rights, other than rights that are or were beneficially owned by an Acquiring Person, which will be void, in whole or in part, at an exchange ratio equal to one share of our common stock (or one ten-thousandth of a share of Participating Preferred Stock) per right.

Redemption. At any time until the Stock Acquisition Date, the Board of Directors may redeem all of the then-outstanding rights in whole, but not in part, at a price of \$0.001 per right, subject to adjustment (the Redemption Price). Immediately upon action of the Board of Directors ordering redemption of the rights, the right to exercise the rights will terminate, and the only right of the holders of rights will be to receive the Redemption Price.

Anti-Dilution Provisions. The Exercise Price and the number of outstanding rights are subject to adjustment to prevent dilution that may occur as a result of certain events, including, among others, a stock dividend, a stock split or a reclassification of our common stock.

Amendments. Any of the provisions of the Plan may be amended by our Board of Directors at any time and in any manner.

Expiration. The rights issued pursuant to the Plan will expire on the earliest of (i) the close of business on March 9, 2014, provided that the Board of Directors may determine to extend the Plan prior to such date as long as our shareholders are asked to ratify such extension at the next succeeding annual meeting, (ii) the time at which the rights are redeemed, (iii) the time at which the rights are exchanged, (iv) the time at which our Board of Directors receives, at its request, a report from our advisors that the Tax Attributes are utilized in all material respects or no longer available in any material aspect or that an ownership change under Section 382 or any applicable state law would not adversely impact in any material respect the time period in which we could use the Tax Attributes, or materially impair the amount of the Tax Attributes that could be used.

Preferred Stock

We currently have no preferred stock issued or outstanding. However, we may issue shares of Participating Preferred Stock pursuant to the Plan or issue other classes or series of preferred stock without consent of or any action on the part of holders of our common stock. See "Description of Common Stock - The Tax Asset Protection Plan" above for a more detailed description of the Participating Preferred Stock and "Description of Preferred Stock and Depositary Shares AIG May Offer" in the accompanying prospectus for a more detailed description of the preferred stock AIG may offer from time to time.

Series D Warrant

On November 25, 2008, we issued to Treasury a warrant (the Series D Warrant) to purchase up to 2,689,938 shares of our common stock, as adjusted to reflect the effect of the one-for-twenty reverse stock split

Table of Contents

of our common stock. The Series D Warrant is currently exercisable at an exercise price of \$50 per share. The ultimate number of shares of common stock to be issued under the terms of the Series D Warrant and the exercise price of the Series D Warrant is also subject to certain customary anti-dilution adjustments as set forth in the Series D Warrant certificate, including, among others, upon the issuances, in certain circumstances, of common stock or securities convertible into common stock.

The Series D Warrant has a term of 10 years and is exercisable at any time, in whole or in part. The Series D Warrant is not subject to any contractual restrictions on transfer other than such as are necessary to ensure compliance with U.S. federal and state securities laws. Treasury has agreed that it will not exercise any voting rights with respect to the common stock issued upon exercise of the Series D Warrant.

Series F Warrant

On April 17, 2009, we issued to Treasury a warrant (the Series F Warrant) to purchase up to 150 shares of our common stock, as adjusted to reflect the effect of the one-for-twenty reverse stock split of our common stock. The Series F Warrant is currently exercisable at an exercise price of \$0.00002 per share. The ultimate number of shares of common stock to be issued under the terms of the Series F Warrant and the exercise price of the Series F Warrant are subject to certain customary anti-dilution adjustments as set forth in the Series F Warrant certificate, including, among others, upon the issuances, in certain circumstances, of common stock or securities convertible into common stock.

The Series F Warrant has a term of 10 years and is exercisable at any time, in whole or in part. The Series F Warrant is not subject to any contractual restrictions on transfer other than such as are necessary to ensure compliance with U.S. federal and state securities laws. Treasury has agreed that it will not exercise any voting rights with respect to the common stock issued upon exercise of the Series F Warrant.

Warrants to Common Stock Holders as Dividend

As part of the Recapitalization, on January 19, 2011, we issued to the holders of record of our common stock on January 13, 2011, by means of a dividend, 10-year warrants (the Dividend Warrants) to purchase a total of up to 74,997,777.598 shares of our common stock at an initial exercise price of \$45.00 per share, subject to anti-dilution adjustment for certain events specified in the Warrant Agreement, dated January 6, 2011, between Wells Fargo Bank, N.A., as Warrant Agent, and us. We retained 67,650.196 Dividend Warrants to satisfy tax withholding. The exercise of the Dividend Warrants will be subject to the restrictions set forth in the Protective Amendment.

Junior Subordinated Debentures

We have previously issued junior subordinated debentures that contain provisions that restrict our activities with respect to our common stock. Specifically, the issued debentures provide that if an event of default has occurred and is continuing with respect to the issued debentures or we have given notice of our election to defer interest payments on the issued debentures but the related deferral period has not yet commenced or a deferral period is continuing, then, subject to certain exceptions, we will not, and will not permit any of our subsidiaries to: (a) declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment with respect to, any shares of our capital stock, (b) make any payment of principal of, or interest or premium, if any, on, or repay, purchase or redeem any of our debt securities that upon our liquidation rank *pari passu* with or junior to the issued debentures or (c) make any guarantee payments with respect to any of our guarantees of the securities of any subsidiary if such guarantee ranks *pari passu* with, or junior in interest to, the issued debentures. In addition, if any deferral period for certain of the issued debentures lasts longer than one year, neither we nor any of our subsidiaries will be permitted to purchase, redeem or otherwise acquire any securities ranking junior to or *pari passu* with any common stock, certain qualifying warrants and certain qualifying non-cumulative preferred stock, the proceeds of which were used to settle deferred interest during the

Table of Contents

relevant deferral period until the first anniversary of the date on which all deferred interest has been paid, subject to the exceptions listed above. However, if we are involved in a business combination where immediately after its consummation more than 50 percent of the surviving or resulting entity's voting stock is owned by the shareholders of the other party to the business combination or directors of AIG who were directors at the time of the initial approval of the definitive agreement relating to the business combination cease for any reason to constitute a majority of the surviving or resulting entity's board of directors, then the one-year restriction on repurchases described in the previous sentence will not apply to any deferral period that is terminated on the next interest payment date following the date of consummation of the business combination.

As of September 30, 2012, we had \$9.378 billion aggregate principal amount of such junior subordinated debentures outstanding in various series, and we have not deferred any interest payment under such junior subordinated debentures.

Table of Contents**THE SELLING SHAREHOLDER**

On January 14, 2011, upon the closing of the Recapitalization, we issued 1,655,037,962 shares of our common stock to Treasury, in exchange for shares of various classes of our preferred stock held by Treasury and the Trust prior to the completion of the Recapitalization as more fully described below. On May 10, 2012, Treasury sold 188,524,589 shares of our common stock in a registered offering, including 65,573,770 shares we purchased in the offering. The shares of our common stock held by Treasury represented approximately 15.9 percent of our outstanding common stock as of November 30, 2012.

The following description of the selling shareholder was provided by Treasury and derived from the website of Treasury. Treasury is the executive agency of the United States government responsible for promoting economic prosperity and ensuring the financial security of the United States. Treasury is responsible for a wide range of activities, such as advising the President of the United States on economic and financial issues, encouraging sustainable economic growth and fostering improved governance in financial institutions. Treasury operates and maintains systems that are critical to the nation's financial infrastructure, such as the production of coin and currency, the disbursement of payments to the American public, revenue collection and the borrowing of funds necessary to run the federal government. Treasury works with other federal agencies, foreign governments, and international financial institutions to encourage global economic growth, raise standards of living and, to the extent possible, predict and prevent economic and financial crises. Treasury also performs a critical and far-reaching role in enhancing national security by implementing economic sanctions against foreign threats to the United States, identifying and targeting the financial support networks of national security threats and improving the safeguards of our financial systems. In addition, under the Emergency Economic Stabilization Act of 2008, as amended, Treasury was given certain authority and facilities to restore the liquidity and stability of the financial system.

The table below sets forth information with respect to the number of shares of our common stock beneficially owned by the selling shareholder as of December 10, 2012, the number of shares of our common stock being offered by the selling shareholder in this offering, and the number of shares of our common stock to be beneficially owned by the selling shareholder assuming all the shares of our common stock offered by the selling shareholder in this offering are sold.

In addition to the shares of our common stock, Treasury currently holds the Series D Warrant to purchase up to 2,689,938 shares of our common stock and the Series F Warrant to purchase up to 150 shares of our common stock, each subject to certain customary anti-dilution adjustments. See "Description of Common Stock" in this prospectus supplement for more information about such other securities held by Treasury. Treasury and AIG are also parties to certain agreements, including the Master Transaction Agreement, dated as of December 8, 2010, among AIG, AM Holdings LLC (formerly known as ALICO Holdings LLC) (the "ALICO SPV"), AIA Aurora LLC (the "AIA SPV"), the FRBNY, Treasury and the Trust, as amended by an amendment dated as of March 7, 2012, the Registration Rights Agreement and the Agreement to Terminate Intercompany Loan, dated as of March 21, 2012, among AIG, the AIA SPV, the ALICO SPV and Treasury. Agreement, we have agreed to pay the underwriting discounts and commissions payable with respect to the shares of our common stock sold by Treasury in this offering and the fees and expenses of counsel for Treasury, and to indemnify Treasury for certain liabilities in connection with this offering, including any liabilities under the Securities Act. Such agreement also grants Treasury the right to demand no more than twice in any 12-month period that we effect a registered fully marketed offering of its shares.

Before the completion of the Recapitalization, Treasury also held (i) 400,000 shares of our Series E Preferred Stock, which were issued in exchange for our Series D Fixed Rate Cumulative Perpetual Preferred Stock, par value \$5.00 per share, then held by Treasury, and (ii) 300,000 shares of our Series F Preferred Stock. In addition, the Trust, a trust established for the sole benefit of the Treasury, held 100,000 shares of our Series C Perpetual, Convertible, Participating Preferred Stock, par value \$5.00 per share (the Series C Preferred Stock). Upon the closing of the Recapitalization, the Series C Preferred Stock, Series E Preferred Stock and Series F Preferred Stock were exchanged for, among other things, an aggregate of 1,655,037,962 shares of our common stock and 20,000 shares of our Series G Cumulative Mandatory Convertible Preferred Stock, par value \$5.00 per share (Series G Preferred Stock). The Series C Preferred Stock, Series E Preferred Stock and Series F Preferred Stock were all cancelled upon the closing of the Recapitalization. The Series G Preferred Stock was cancelled in connection with our public offering of common stock in May 2011.

In connection with the Recapitalization, Treasury also obtained certain preferred interests in the AIA SPV and the ALICO SPV, which were previously held by the FRBNY. As of the end of March 2012, all of Treasury's preferred interests in the AIA SPV and the ALICO SPV had been paid down in full.

Governmental Immunity

The doctrine of sovereign immunity, as limited by the FTCA, provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by an act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in cases involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, Section 3(c) of the Exchange Act provides that Treasury and its officers, agents, and employees are exempt from liability for any violation or alleged violation of any provision of the Exchange Act, including the anti-fraud provisions of Section 10(b). Accordingly, any attempt to assert such a claim against the officers, agents or employees of Treasury for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus supplement, the accompanying prospectus, the documents incorporated by reference herein and therein or the registration statement of which the accompanying prospectus is a part, or resulting from any other act or omission in connection with the offering by Treasury, would likely be barred.

Table of Contents**UNDERWRITING**

AIG, the selling shareholder and the underwriters named below have entered into an underwriting agreement with respect to the shares of AIG common stock being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares of common stock indicated in the following table. Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., Deutsche Bank Securities Inc., Goldman, Sachs & Co. and J.P. Morgan Securities LLC are acting as joint book-runners of the offering and are the representatives of the underwriters (the representatives).

<u>Underwriters</u>	Number of Shares of Common Stock Sold by the Selling Shareholder
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Citigroup Global Markets Inc.	
Deutsche Bank Securities Inc.	
Goldman, Sachs & Co.	
J.P. Morgan Securities LLC	
Total	234,169,156

The underwriters are committed to take and pay for all of the shares being offered, if any are taken.

AIG has agreed to pay the underwriting discount with respect to the shares sold by the selling shareholder. Such amounts are shown in the following table. AIG has also agreed to reimburse the selling shareholder for the fees and expenses of counsel for the selling shareholder.

Paid by AIG in Respect of the Shares Sold by the Selling Shareholder

Per Share	\$
Total	\$ (a)

(a) Reflecting 234,169,156 shares sold to investors in this offering.

Shares sold by the underwriters to the public will initially be offered at the initial price to public set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the initial price to public. The underwriters may allow, and such dealers may reallow, a concession not in excess of \$ _____ per share to brokers and dealers. If all the shares are not sold at the initial price to public, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

AIG and the selling shareholder have agreed with the underwriters, subject to certain exceptions, not to dispose of, hedge or announce the sale of any of their common stock or any securities of AIG that are substantially similar to the common stock, such as securities convertible into or exchangeable for shares of common stock, during the period from the date of this prospectus supplement continuing through the date 45 days after the date of this prospectus supplement, except with the prior written consent of the representatives. These restrictions will not prevent AIG from issuing shares of common stock (or other stock-based awards) or securities convertible into or exchangeable for common stock (i) under its current employee benefit plans and related plans, (ii) in connection with its obligations with respect to awards previously made by Starr International Company, Inc., (iii) pursuant to certain acquisitions of other companies or businesses for common stock so long as the total number of shares of common stock issued or issuable does not exceed 3 percent of AIG's then outstanding common stock, or (iv) under its outstanding convertible or exchangeable securities or securities exercisable for our common stock.

Table of Contents

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of AIG's common stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

AIG estimates that its share of the total expenses of the offering, excluding the underwriting discount in respect of the shares being sold by the selling shareholder, will be approximately \$ _____, which includes estimated fees and expenses of counsel for the selling shareholder.

AIG has agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Certain of the underwriters and their respective affiliates have rendered and may in the future render various investment banking, lending and commercial banking services and other advisory services to AIG and its subsidiaries. Certain of these relationships involve transactions that were material to AIG and for which the underwriters received significant fees. Merrill Lynch, Pierce, Fenner & Smith Incorporated and Citigroup Global Markets Inc. also acted as financial advisors to us in connection with the Recapitalization. Certain of the underwriters have received, and may in the future receive, customary compensation from AIG and its subsidiaries for such services.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of AIG. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

As previously announced, AIG has been conducting a review of its dealings with certain counterparties with which it did securities and related business before and during the recent financial crisis to determine what legal claims AIG may have to recover from counterparties that harmed AIG by their conduct. These counterparties include a number of financial institutions, including the underwriters and various of their affiliates. In connection with this review, AIG has entered into agreements with a number of such counterparties, including certain of the underwriters, tolling the statute of limitations in respect of claims AIG may have against those counterparties and, in some cases, that the counterparties, including certain underwriters, may have against AIG. In addition, AIG has formally commenced litigation against one of the underwriters with respect to related matters.
