Wells Fargo Advantage Funds

During the period, high-yield corporate bonds performed well compared with U.S. Treasuries, as continued monetary accommodation from the Federal Reserve (Fed) strengthened the demand for securities with higher yields.

Dear Valued Shareholder:

We are pleased to provide you with this semi-annual report for the *Wells Fargo Advantage Income Opportunities Fund* for the six-month period that ended October 31, 2012. During the period, high-yield corporate bonds performed well compared with U.S. Treasuries, as continued monetary accommodation from the Federal Reserve (Fed) seemed to strengthen the demand for securities with higher yields. Volatility rippled through the markets on and off throughout the period as deteriorating credit conditions in Europe routinely counteracted burgeoning trends of economic improvement in the U.S. Nonetheless, these periods of uncertainty strengthened the resolve of the Fed to keep monetary policy highly accommodative, which had a positive effect on the valuations of high-yield bonds. The lower-rated credit tiers and longest-maturity segments of the fixed-income market outperformed the higher-quality and shorter-maturity segments during the period.

Global credit markets were roiled by the European debt crisis.

The first months of 2012 saw strengthening investor confidence in the U.S. economy despite indications of a recession in Europe. The improving conditions in the U.S. led to greater confidence in the U.S. credit markets, which began to show some resistance to the credit problems of Europe. These leading events set the tone for the six-month period that began in May 2012. During those early months of 2012, the lowest-rated credit tiers of the U.S. domestic fixed-income markets generally performed the best, while the highest-quality credit tiers and U.S. Treasuries generally declined in value as their yields began to shift higher on expectations for a strengthening economy.

Unfortunately, the trends of improving credit confidence would not last and would be undermined by the woes of Europe. As Greece neared default on its sovereign debt again in May 2012, politicians began to hint at the possibility of Greece exiting the euro. Early that month, the default crisis in Europe had escalated to a debate over the viability of the euro, amplifying the crisis to an unprecedented level of worst-case consideration. Consequently, global investors once again rallied to the U.S. Treasury market, driving long-term Treasury yields to some of their lowest levels on record. That same month, U.S. Treasuries and the highest-rated credit tiers were the best performers, while the lower-rated credit tiers of the fixed-income markets underperformed.

High-yield corporate bonds rebounded convincingly in June 2012 and rallied throughout the remainder of the period.

It appeared that investors would continue to prefer higher-quality over riskier asset classes as long as the problems in Europe persisted. The crisis continued to deepen into July, prompting the International Monetary Fund to warn European policymakers of a significant risk of

Edgar Filing: WELLS FARGO ADVANTAGE INCOME OPPORTUNITIES FUND - Form N-CSRS

deflation. Running counter to the woes in Europe, U.S. credit markets began to improve in June, benefiting from consistent policy commitment by the Fed to maintain highly accommodative monetary conditions. In the U.S., the second half of June 2012 and the entire month of July 2012 saw strong performance in the high-yield and longer-maturity segments of the fixed-income markets as U.S. credit markets tried to remain isolated from the crisis in Europe.

European markets finally followed suit in August 2012 and into September and October 2012 as the European Central Bank (ECB) calmed market fears by announcing a program of unlimited bond-buying support and declaring to do

Table of Contents

Letter to shareholders (unaudited)

Wells Fargo Advantage Income Opportunities Fund 3

whatever it takes to preserve the euro. Perhaps the most convincing statement of all for investors was Mario Draghi, the president of the ECB, declaring that the euro is irreversible. Global credit markets responded strongly through the final months of the period, with the lowest-rated securities performing best. Thus, despite intermittent spikes in risk aversion and profound concerns in Europe, the six-month period finished with a continued rally in the lower-rated areas of the fixed-income markets with notably strong performance from high-yield corporate bonds.

Recent events have not altered our message to shareholders. The heightened volatility of the past six months has often left many investors questioning their resolve and their investments. Yet, it is precisely at such times that the market may present opportunities as well as challenges for prudent investors. For many investors, simply building and maintaining a well-diversified¹ investment plan focused on clear financial objectives is the best long-term strategy.

Thank you for choosing to invest with *Wells Fargo Advantage Funds*. We appreciate your confidence in us and remain committed to helping you meet your financial needs. For current information about your fund investments, contact your investment professional, visit our website at wellsfargoadvantagefunds.com, or call us directly at **1-800-222-8222**. We are available 24 hours a day, 7 days a week.

Sincerely,

Karla M. Rabusch

President

Wells Fargo Advantage Funds

1. Diversification does not assure or guarantee better performance and cannot eliminate the risk of investment losses.

Despite intermittent spikes in risk aversion and profound concerns in Europe, the six-month period finished with a continued rally in the lower-rated areas of the fixed-income markets with notably strong performance from high-yield corporate bonds.

Average annual total returns¹ (%) as of October 31, 2012

	1 year	5 year	Since inception 2-26-03
Based on market value	17.71	9.37	8.31
Based on net asset value (NAV) per share	15.36	6.53	8.29

Figures quoted represent past performance, which is no guarantee of future results and do not reflect the deduction of taxes that a shareholder may pay on fund distributions or the sales of fund shares. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. To obtain performance information current to the most recent month-end, please call 1-800-222-8222.

The Adviser has committed through May 31, 2013, to waive fees and/or reimburse expenses to the extent necessary to limit the Fund's borrowing expenses to an amount that is 5 basis points lower than what the borrowing expenses would have been if the Fund had not redeemed its Auction Market Preferred Shares. The Fund's gross and net expense ratios for the six months ended October 31, 2012, are 1.29% and 1.04%, respectively. Without these reductions, the Fund's returns would have been lower.

Comparison of NAV vs. market value since inception²

The Fund is leveraged through a secured debt borrowing facility and may issue preferred shares. The use of leverage results in certain risks including, among others, the likelihood of greater volatility of net asset value and the market price of common shares. Derivatives involve additional risks including interest rate risk, credit risk, the risk of improper valuation, and the risk of non-correlation to the relevant instruments they are designed to hedge or to closely track. Bond values fluctuate in response to the financial condition of individual issuers, general market and economic conditions, and changes in interest rates. In general, when interest rates rise, bond fund values fall and investors may lose principal value. High-yield securities have a greater risk of default and tend to be more volatile than higher-rated debt securities.

1. Total returns based on market value are calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Total returns based on NAV are calculated based on the NAV at the beginning of the period and end of period. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total returns do not reflect brokerage commissions or sales charges. If these charges were included, the returns would be lower.

2. This chart does not reflect any brokerage commissions or sales charges.

Wells Fargo Advantage Income Opportunities Fund 5

MANAGER'S DISCUSSION

The Fund returned 17.71% during the 12 months ended October 31, 2012, based on market value. During the same period, the Fund's return based on NAV was 15.36%.

Strategy

High-yield markets performed strongly during the period, benefiting from strengthening corporate balance sheets with large cash positions, cheap and abundant financing, central bank policies that encouraged low rates and sustained liquidity, and a manageable maturity schedule for issuers of high-yield bonds. The dearth of defaults also created a favorable backdrop for investors seeking yield. Defaults have been low thanks to strong corporate fundamentals consisting of decent earnings and strong balance sheets flush with cash.

Global growth forecasts were lowered and manufacturing slowed within the U.S. in response to European weakness and a slowing Chinese economy. The Federal Reserve Board (Fed) pledged open-ended and unlimited asset purchases (currently targeting \$40bn/month of mortgage-backed securities), a continuation of Operation Twist (effectively selling short-term U.S. Treasuries to fund purchases of long-term U.S. Treasuries) and a promise to keep the federal funds rate at essentially zero through mid-2015. With evidence of economic slowdown and little visibility into sustained labor improvement, investors seemed to begrudgingly accept a scenario of a prolonged period of low rates (with demand for treasuries being driven almost exclusively by Fed purchases; also known as money printing) which seems to have driven cash into riskier assets such as high yield and equities. Markets also benefited from actions out of the European Central Bank which included statements of unlimited bond purchases through the Outright Monetary Transactions (OMT) program.

Credit quality⁴ as of October 31, 2012**Contributors to performance**

The Fund benefited from the positive forces pushing bond prices higher and yields lower. Individual credit selection in specific securities with the potential for significant price appreciation helped performance of the Fund during the period.

Detractors from performance

Our holdings were positioned more conservatively than the broader high-yield market in anticipation of a more challenging economic environment. This positioning detracted from relative performance as riskier bonds with either lower quality or longer maturities generally outperformed. The Fund's holdings were focused on slightly higher credit qualities (while still remaining in high-yield) and issuers with more stable revenue profiles in industries less exposed to cyclical volatility.

Management outlook

Looking forward, highly accommodative monetary policy combined with strong corporate balance sheets offers a near-perfect backdrop of liquidity for high-yield companies to weather a slower revenue growing environment. We feel that the outlook for high-yield markets

demonstrates the potential for continued

3. The ten largest holdings are calculated based on the value of the securities divided by total net assets of the Fund. Holdings are subject to change and may have changed since the date specified.

4. The ratings indicated are from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit Quality Ratings: Credit quality ratings apply to underlying holdings of the Fund and not the Fund itself. Standard & Poor's rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Standard & Poor's rates the creditworthiness of short-term notes from SP-1 (highest) to SP-3 (lowest). Moody's rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Moody's rates the creditworthiness of short-term U.S. tax-exempt municipal securities from MIG 1/VMIG 1 (highest) to SG (lowest). Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of three rating agencies, the lower rating was utilized and if rated by one of the agencies that rating was utilized. Credit quality is subject to change and is calculated based on the total investments of the Fund.

Effective maturity distribution⁵ as of October 31, 2012

positive performance but at a more modest pace, and that high yield remains a favorable investment alternative to lower-yielding areas of the fixed-income markets.

Strong corporate balance sheets with low refinancing rates and extraordinary access to capital offer a near-perfect backdrop of liquidity and plenty of runway for companies to weather a slower revenue-growing environment, in our view. Indeed, we feel the majority of U.S. companies within high yield have sufficient cash cushion to absorb a slight recession before a consideration of default risk meaningfully increases.

5. Percentages are subject to change and are calculated based on the total long-term investments of the Fund.

Non-income-earning security

(i) Illiquid security for which the designation as illiquid is unaudited.

144A Security that may be resold to qualified institutional buyers under Rule 144A or security offered pursuant to Section 4(2) of the Securities Act of 1933, as amended.

¥ A payment-in-kind (PIK) security is a security in which the issuer may make interest or dividend payments in cash or additional securities. These additional securities generally have the same terms as the original holdings.

%% Security issued on a when-issued basis.

(s) Security is currently in default with regards to scheduled interest and/or principal payments. The Fund has stopped accruing interest on this security.

± Variable rate investment

(a) Security is fair valued by the Management Valuation Team, and in certain instances by the Board of Trustees, in accordance with procedures approved by the Board of Trustees.

< All or a portion of the position represents an unfunded loan commitment.

(l) Investment in an affiliate

(u) Rate shown is the 7-day annualized yield at period end.

All or a portion of this security has been segregated for when-issued or unfunded loans.

* Cost for federal income tax purposes is \$904,809,591 and unrealized appreciation (depreciation) consists of:

Gross unrealized appreciation	\$ 51,907,272
Gross unrealized depreciation	(19,661,906)
Net unrealized appreciation	\$ 32,245,366

1. Calculated based upon average common shares outstanding

2. Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.

3. Interest expense ratio relates to interest associated with borrowings and/or leverage transactions.

4. The net investment income ratio reflects any distributions paid to preferred shareholders.

The accompanying notes are an integral part of these financial statements.

Table of Contents

Notes to financial statements (unaudited)

Wells Fargo Advantage Income Opportunities Fund 23

1. ORGANIZATION

Wells Fargo Advantage Income Opportunities Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002, and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (normally 4 p.m. Eastern Time).

Fixed income securities acquired with maturities exceeding 60 days are valued based on evaluated bid prices received from an independent pricing service which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. If valuations are not available from the independent pricing service or values received are deemed not representative of market value, values will be obtained from a broker-dealer or otherwise determined based on the Fund's Valuation Procedures.

Debt securities of sufficient credit quality acquired with maturities of 60 days or less generally are valued at amortized cost which approximates fair value. The amortized cost method involves valuing a security at its cost, plus accretion of discount or minus amortization of premium over the period until maturity.

Equity securities that are listed on a foreign or domestic exchange, except for The Nasdaq Stock Market, Inc. (Nasdaq), are valued at the official closing price or, if none, the last sales price. Securities listed on Nasdaq are valued at the Nasdaq Official Closing Price (NOCP). If no NOCP is available, securities are valued at the last prior sales price. If no sales price is shown on the Nasdaq, the bid price will be used. If no sale occurs on the primary exchange or market for the security that day or if no sale occurs and no bid price is shown on Nasdaq, the prior day's price will be deemed stale and fair values will be determined in accordance with the Fund's Valuation Procedures.

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees. The Board of Trustees has established a Valuation Committee comprised of the Trustees and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the Management Valuation Team of Wells Fargo Funds Management, LLC (Funds Management). The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Management Valuation Team which may include items for ratification.

Valuations of fair valued securities are compared to the next actual sales price when available, or other appropriate market information to assess the continued appropriateness of the fair valuation methodology used. These securities are fair valued on a day-to-day basis, taking into consideration changes to appropriate market information and any significant changes to the input factors considered in the valuation process until there is a readily available price provided on the exchange or by an independent pricing service. Valuations received from an independent pricing service or broker quotes are periodically validated by comparisons to most recent trades and valuations provided by other independent pricing services in addition to the review of prices by the adviser and/or subadviser. Unobservable inputs used in determining fair valuations are identified based on the type of security, taking into consideration factors utilized by market participants in valuing the investment, knowledge

about the issuer and the current market environment.

Table of Contents

24 Wells Fargo Advantage Income Opportunities Fund

Notes to financial statements (unaudited)

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund's commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Term loans

The Fund may invest in term loans. The Fund begins earning interest when the loans are funded. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. The Fund assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are reported on the basis of identified cost of securities delivered.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily based on the effective interest method. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Dividend income is recognized on the ex-dividend date.

Distributions to shareholders

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with federal income tax regulations, which may differ in amount or character from net investment income and realized gains recognized for purposes of U.S. generally accepted accounting principles.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

At April 30, 2012, net capital loss carryforwards, which are available to offset future net realized capital gains, were as follows:

	Pre-enactment capital loss expiration		
2015	2016	2017	2018
\$6,603,920	\$15,525,027	\$130,598,584	\$155,329,141

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted

Edgar Filing: WELLS FARGO ADVANTAGE INCOME OPPORTUNITIES FUND - Form N-CSRS

prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- n Level 1 quoted prices in active markets for identical securities

- n Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Table of Contents

Notes to financial statements (unaudited)

Wells Fargo Advantage Income Opportunities Fund 25

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of October 31, 2012, the inputs used in valuing investments in securities, which are carried at fair value, were as follows:

Investments in securities	Quoted prices (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs	
			(Level 3)	Total
Equity securities				
<i>Common stocks</i>	\$ 986,320	\$ 0	\$ 4,298	\$ 990,618
<i>Preferred stocks</i>	1,385,420	0	0	1,385,420
Corporate bonds and notes	0	792,780,916	0	792,780,916
Term loans	0	65,452,017	13,944,508	79,396,525
Yankee corporate bonds and notes	0	40,544,632	0	40,544,632
Short-term investments				
<i>Investment companies</i>	21,956,846	0	0	21,956,846
	\$ 24,328,586	898,777,565	13,948,806	\$ 937,054,957

Further details on the major security types listed above can be found in the Portfolio of Investments.

Transfers in and transfers out are recognized at the end of the reporting period. For the six months ended October 31, 2012, the Fund did not have any transfers into/out of Level 1 or Level 2.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Common stocks	Term loans	Total
Balance as of April 30, 2012	\$ 9,671	\$ 5,611,506	\$ 5,621,177
Accrued discounts (premiums)	0	5,934	5,934
Realized gains (losses)	0	27,213	27,213
Change in unrealized gains (losses)	(5,373)	(18,311)	(23,684)
Purchases	0	4,683,268	4,683,268
Sales	0	(2,650,037)	(2,650,037)
Transfers into Level 3	0	6,284,935	6,284,935
Transfers out of Level 3	0	0	0
Balance as of October 31, 2012	\$ 4,298	\$ 13,944,508	\$ 13,948,806
Change in unrealized gains (losses) relating to securities still held at October 31, 2012	\$ (5,373)	\$ 31,342	\$ 25,969

The investments types categorized above were valued using indicative broker quotes and are therefore considered Level 3 inputs.

4. TRANSACTIONS WITH AFFILIATES**Advisory Fee**

Funds Management, an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo), is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets. Funds Management has committed through May 31, 2013, to waive fees and/or reimburse expenses to the extent necessary to limit the Fund's borrowing expenses to an amount that is 5 basis points lower than what the borrowing expenses would have been if the Fund had not redeemed its Auction Market Preferred Shares (Preferred Shares). Funds Management contractually waived its advisory fee in the amount of \$884,859 for the six months ended October 31, 2012.

Edgar Filing: WELLS FARGO ADVANTAGE INCOME OPPORTUNITIES FUND - Form N-CSRS

Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Funds Management. Wells Capital Management Incorporated, an affiliate of Funds Management, is the subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.40% of the Fund's average daily total assets.

Table of Contents

26 Wells Fargo Advantage Income Opportunities Fund
Administration fee

Notes to financial statements (unaudited)

Funds Management also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. Funds Management is entitled to receive an annual administration fee from the Fund equal to 0.05% of the Fund's average daily total assets.

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 shares with no par value. For the six months ended October 31, 2012 and the year ended April 30, 2012, the Fund issued 130,500 and 487,572 shares, respectively.

The Fund no longer has any Preferred Shares outstanding.

6. BORROWINGS

The Fund has borrowed \$230 million through a secured debt financing agreement administered by a major financial institution (the Facility). The Facility has a commitment amount of \$230 million which expires on February 25, 2013, at which point it may be renegotiated and potentially renewed for another one-year term. At October 31, 2012, the Fund had secured borrowings outstanding in the amount of \$230,213,811 (including accrued interest and usage and commitment fees payable).

The Fund's borrowings under the Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued to fund the Fund's borrowings or at the London Interbank Offered Rate (LIBOR) plus 1.0%. During the six months ended October 31, 2012, an effective interest rate of 0.23% was incurred on the borrowings. Interest expense of \$273,005, representing 0.08% of the Fund's average daily net assets, was incurred during the six months ended October 31, 2012.

The Fund has pledged all of its assets to secure the borrowings and currently pays, on a monthly basis, a usage fee at an annual rate of 0.40% of the daily average outstanding principal amount of borrowings and commitment fee at an annual rate of 0.40% of the product of (i) the daily average outstanding principal amount of borrowings and (ii) 1.02. Prior to February 27, 2012, both the usage fee and commitment fee were charged at an annual rate of 0.50%. The secured borrowing fee on the Statement of Operations of \$1,022,062 represents the usage fee, commitment fee, and structuring fees. For the six months ended October 31, 2012, the Fund paid structuring fees in the amount of \$67,660.

7. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended October 31, 2012 were \$225,492,425 and \$124,915,344, respectively.

As of October 31, 2012, the Fund had unfunded term loan commitments of \$7,611,164.

8. INDEMNIFICATION

Under the Fund's organizational documents, the officers and directors are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

9. NEW ACCOUNTING PRONOUNCEMENT

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. ASU 2011-11, which amends FASB ASC Topic 210, *Balance Sheet*, creates new disclosure requirements which require entities to disclose both gross and net information for derivatives and other financial instruments that are either offset in the Statement of Assets and Liabilities or subject to an enforceable master netting arrangement or similar agreement. The disclosure requirements are effective for interim and annual reporting periods beginning on or after January 1, 2013. Management is currently assessing the potential impact, in addition to expanded financial statement disclosure, that may result from adopting this ASU.

10. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Per Share Amount
October 26, 2012	November 15, 2012	December 3, 2012	\$0.077
November 7, 2012	December 17, 2012	January 2, 2013	\$0.077
December 28, 2012	January 15, 2013	February 1, 2013	\$0.077

These distributions are not reflected in the accompanying financial statements.

Wells Fargo Advantage Income Opportunities Fund 27

TAX INFORMATION

Current tax law generally provides for a maximum tax rate for individual taxpayers of 15% on long-term capital gains and qualifying dividends on corporate stocks. This rate is scheduled to expire at the end of 2012. In the absence of further Congressional action, the maximum tax rate on long-term capital gains for individual taxpayers would increase to 20% and income from dividends would be taxed at the rates applicable to ordinary income.

In addition, for taxable years beginning after December 31, 2012, absent further Congressional action, an additional 3.8% Medicare tax will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person's modified adjusted gross income (in the case of an individual) or adjusted gross income (in the case of an estate or trust) exceed certain threshold amounts.

PROXY VOTING INFORMATION

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-800-222-8222**, visiting our website at **wellsfargoadvantagefunds.com**, or visiting the SEC website at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Fund's website at **wellsfargoadvantagefunds.com** or by visiting the SEC website at sec.gov.

SPECIAL MEETING OF SHAREHOLDERS

On August 6, 2012, an Annual Meeting of Shareholders for the Fund was held to consider the following proposal. The

results of the proposal are indicated below.

Proposal 1 Election of Trustees:

Net Assets Voted For	Judith M. Johnson	\$ 302,453,713
Net Assets Voted Withheld		\$ 23,116,269
Net Assets Voted For	Leroy Keith, Jr.	\$ 302,453,713
Net Assets Voted Withheld		\$ 23,203,105
Net Assets Voted For	Donald C. Willeke	\$ 302,453,713
Net Assets Voted Withhold		\$ 22,273,056

PORTFOLIO HOLDINGS INFORMATION

The complete portfolio holdings for the Fund are publicly available on the Fund's website (**wellsfargoadvantagefunds.com**) on a monthly, 30-day or more delayed basis. The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q, which is available without charge by visiting the SEC website at sec.gov. In addition, the Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and at regional offices in New York City, at 233 Broadway, and in Chicago, at 175 West Jackson Boulevard, Suite 900. Information about the Public Reference Room may be obtained by calling 1-800-SEC-0330.

BOARD OF TRUSTEES

The following table provides basic information about the Board of Trustees (the Trustees) and Officers of the Fund. Each of the Trustees and Officers listed below acts in identical capacities for the Wells Fargo Advantage family of funds, which consists of 138 funds* comprising the Wells Fargo Funds Trust, Wells Fargo Variable Trust, Wells Fargo Master Trust, and four closed-end funds, including the Fund (collectively the Fund Complex). All of the Trustees are also Members of the Audit and Governance Committees of each Trust in the Fund Complex. The mailing address of each Trustee and Officer is

525 Market Street, 12th Floor, San Francisco, CA 94105. The Board of Trustees is classified into three classes of which one is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Officer serves an indefinite term.

Independent Trustees

Name and year of birth	Position held and length of service	Principal occupations during past five years	Other directorships during past five years
Peter G. Gordon (Born 1942)	Trustee, since 2010; Chairman, since 2010	Co-Founder, Retired Chairman, President and CEO of Crystal Geyser Water Company. Trustee Emeritus, Colby College	Asset Allocation Trust
Isaiah Harris, Jr. (Born 1952)	Trustee, since 2010	Retired. Prior thereto, President and CEO of BellSouth Advertising and Publishing Corp. from 2005 to 2007. * Jeremy DePalma acts as Treasurer of 61 funds and Assistant Treasurer of 77 funds in the Fund complex.

Table of Contents

30 Wells Fargo Advantage Income Opportunities Fund

Automatic dividend reinvestment plan

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Governance Committee (the Committee) of the Board of Trustees of the registrant (the Trust) has adopted procedures by which a shareholder of any series of the Trust may submit properly a nominee recommendation for the Committee's consideration.

The shareholder must submit any such recommendation (a Shareholder Recommendation) in writing to the Trust, to the attention of the Trust's Secretary, at the address of the principal executive offices of the Trust.

The Shareholder Recommendation must be delivered to, or mailed and received at, the principal executive offices of the Trust not less than forty-five (45) calendar days nor more than seventy-five (75) calendar days prior to the date of the Committee meeting at which the nominee would be considered.

Table of Contents

The Shareholder Recommendation must include: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person recommended by the shareholder (the candidate); (B) the series (and, if applicable, class) and number of all shares of the Trust owned of record or beneficially by the candidate, as reported to such shareholder by the candidate; (C) any other information regarding the candidate called for with respect to director nominees by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended (the Exchange Act), adopted by the Securities and Exchange Commission (or the corresponding provisions of any regulation or rule subsequently adopted by the Securities and Exchange Commission or any successor agency applicable to the Trust); (D) any other information regarding the candidate that would be required to be disclosed if the candidate were a nominee in a proxy statement or other filing required to be made in connection with solicitation of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder; and (E) whether the recommending shareholder believes that the candidate is or will be an interested person of the Trust (as defined in the Investment Company Act of 1940, as amended) and, if not an interested person, information regarding the candidate that will be sufficient for the Trust to make such determination; (ii) the written and signed consent of the candidate to be named as a nominee and to serve as a Trustee if elected; (iii) the recommending shareholder's name as it appears on the Trust's books; (iv) the series (and, if applicable, class) and number of all shares of the Trust owned beneficially and of record by the recommending shareholder; and (v) a description of all arrangements or understandings between the recommending shareholder and the candidate and any other person or persons (including their names) pursuant to which the recommendation is being made by the recommending shareholder. In addition, the Committee may require the candidate to interview in person and furnish such other information as it may reasonably require or deem necessary to determine the eligibility of such candidate to serve as a Trustee of the Trust.

ITEM 11. CONTROLS AND PROCEDURES

(a) The President and Treasurer have concluded that the Wells Fargo Advantage Income Opportunities Fund (the Trust) disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) provide reasonable assurances that material information relating to the Trust is made known to them by the appropriate persons, based on their evaluation of these controls and procedures as of a date within 90 days of the filing of this report.

(b) There were no significant changes in the Trust's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second quarter of the period covered by this report that materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) Not required in this filing.

(a)(2) Certification pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is filed and attached hereto as Exhibit 99.CERT.

(a)(3) Not applicable.

(b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) is filed and attached hereto as Exhibit 99.906CERT.
