FOURTH QUARTER AND FISCAL YEAR 2013 FINAL FINANCIAL RESULTS

The final results for the three and twelve months ended May 31, 2013 include the finalization of the goodwill impairment charge related to the Europe reporting unit and the correction of certain income tax accounts, which did not impact net sales.

Fourth Quarter Financial Results

Consolidated net sales increased 6.0% worldwide to approximately \$784 million

S.E.T. sales increased 62.1% worldwide to approximately \$160 million

Excluding the Trauma Acquisition, S.E.T. sales increased 6.4% worldwide

Extremity sales grew 21.5% worldwide

Consolidated net sales in the quarter grew 6.0% to \$783.9 million, compared to net sales of \$739.5 million during the fourth quarter of fiscal year 2012. U.S. net sales increased 6.1% during the fourth quarter to \$466.3 million, while Europe net sales increased 3.5% to \$188.7 million and International (primarily Canada, South America, Mexico and the Pacific Rim) net sales grew at a rate of 9.6% to \$128.9 million. We recorded the same number of selling days on a consolidated company basis during the fourth quarter of fiscal year 2013 compared to the fourth quarter of fiscal year 2012.

The Company recently completed its annual impairment testing for goodwill and intangibles. Upon completion of this analysis, the Company concluded that certain indicators were present that suggested impairment may exist for its Europe reporting unit's goodwill. The Company recorded a \$240.0 million goodwill asset impairment charge related to its Europe reporting unit, primarily related to the impact of continued austerity measures on procedural volumes and pricing in certain European countries.

Reported operating loss was \$139.3 million during the fourth quarter of fiscal year 2013, compared to an operating loss of \$378.0 million during the fourth quarter of fiscal year 2012.

Reported net loss in the quarter was \$221.2 million, compared to a net loss of \$389.1 million during the fourth quarter of the prior year.

Interest expense decreased to \$88.0 million during the fourth quarter of fiscal year 2013, compared to \$116.4 million at the end of the fourth quarter of 2012, primarily due to lower average interest rates on our term loans and lower bond interest as a result of refinancing activities.

Reported cash flow from operations totaled \$194.7 million during the fourth quarter of fiscal year 2013, compared to reported cash flow from operations of \$86.0 million for the fourth quarter of fiscal year 2012.

The following table provides fourth quarter net sales performance by product category:

Income Tax Account Correction

The foreign currency translation amount for the fiscal year ended May 31, 2013 reflects a correction totaling \$43.6 million for the deferred tax impact of cumulative foreign currency gains associated with the Company's Euro-denominated term loans that have been designated as a net investment hedge of the Company's European subsidiaries. The correction of these deferred income tax liabilities is reflected as an increase in total comprehensive loss for the year ended May 31, 2013. The Company believes this correction is immaterial to the consolidated financial statements.
