**ANNOUNCEMENT TO THE MARKET**

Oi S.A. ( Oi ), in view of some reports released by the press arising from the disclosure through the Material Fact dated as of October 2, 2013, of the execution of the Memorandum of Understanding for the merger of the activities of Oi and Portugal Telecom SGPS S.A. ( Portugal Telecom ) ( the Transactions ), hereby reiterates and clarifies to its shareholders and to the market, with respect to the corporate reorganization transactions, which include the merger of the holding companies Telemar Participações S.A. ( TmarPart ), AG Telecom Participações S.A. ( AG ) and LF Tel S.A. ( LF ) into CorpCo, the following.

As described in the Fato Relevante, these holding companies, as an essential part of a process for the simplification of the shareholding structure of the Oi companies, will be subject to a series of merger transactions (involving TmarPart and these holding companies), by means of which, all the equity (assets and liabilities) of TmarPart and these holding companies will be, at the end of the Transactions, transferred to CorpCo.

However, prior to the referenced merger transactions, TmarPart and the holding companies AG and LF will be, as described in the Material Fact released on October 2, 2013, capitalized with the resources needed to fully repay their indebtedness, in a manner such that, other than the shares of Oi, the net assets represented by the other assets and liabilities of these companies corresponds to zero or slightly more than zero.

With the capitalization of TmarPart and these holding companies, the exchange ratios that will be applied in the mergers that are part of the Transactions will also be simplified, allowing that the exchange ratios consider only the interests of the companies that will be absorbed in the mergers in the common and preferred shares of Oi held directly or indirectly by these companies, as the indebtedness of the companies that will be absorbed in the mergers will have been neutralized for the purpose of the exchange ratios.

It is important to note that in each of the referenced mergers of a holding company, the holding company's shareholders will receive the same number of shares in the company resulting from the merger that the holding company (merged company) held in the surviving company, and so on so that, in the end, holding company shareholders receive common shares of Oi, and the same ratios will apply to these shareholders as are applicable to the other Oi shareholders in the mergers. As a result, there will be no dilution of any shareholder of Oi as a result of the mergers, as all shareholders of Oi will receive CorpCo shares related to the number of shares issued by Oi that they hold, directly or indirectly.

Finally, it is important to note that the capitalizations of TmarPart and the holding companies mentioned above should not be confused with the Oi capital increase, which will be conducted through a public offer, with the objective of improving the balance sheet flexibility of CorpCo.
