**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On October 10, 2013, BSQUARE Corporation (the Company) effected a restructuring that included a workforce reduction and the closure of the Company's offices in Beijing, China and Munich, Germany. The restructuring was approved by the Company's Board of Directors on October 9, 2013. The workforce reduction will impact approximately 50 headcount worldwide, including full-time employees and consultants. This represents approximately 20% of the Company's headcount pre-reduction.

This restructuring is intended to reduce expenses, both service and proprietary software cost of sales and all areas of operating expenses, by approximately \$4 million annually and to better align the Company's organizational structure with its strategic focus.

The Company currently anticipates incurring pre-tax restructuring charges to its GAAP financial results of approximately \$625,000 in the fourth quarter of 2013, with \$500,000 representing one-time employee termination benefits and \$125,000 representing facilities-related costs, primarily remaining lease obligations in China and Germany. The Company's current estimate of cash outlays related to the one-time employee termination benefits, vacation and other obligations is \$850,000, the vast majority of which will occur in the fourth quarter of 2013. Additionally, the Company expects to recognize a \$50,000 asset impairment charge in the fourth quarter of 2013 related to China and Germany.

The Company expects the staff reductions and office closures will be substantially completed by the end of the fourth quarter of 2013 with some activities, including legal entity closures, continuing into 2014. The Company anticipates that the majority of the cost savings will be realized by the first quarter of 2014.

As part of the restructuring, John Traynor, the Company's Senior Vice President, Products, will no longer be with the Company.

This report contains forward-looking statements within the meaning of the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, for example, the size of the reduction and the amount and timing of the related charges. Statements regarding future events are based on the Company's current expectations and are necessarily subject to associated risks related to the completion of the restructuring plan the manner anticipated by the Company. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of the Company's control. Actual future events or results may differ materially from those indicated in the forward-looking statements. Therefore, readers should not rely on any of these forward-looking statements. Important factors that could cause actual events and results to differ materially from those predicted include, among others, the Company's ability to implement the workforce reductions in various geographies; possible changes in the size and components of the expected charges associated with the plan; and risks associated with the Company's ability to achieve the benefits of the planned restructuring.
