Consolidated Financial Results

April 1, 2013 March 31, 2014

May 8, 2014

In preparing its consolidated financial information, ORIX Corporation and its subsidiaries have complied with accounting principles generally accepted in the United States of America.

These documents may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on our current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under "Risk Factors" in the Company's annual report on Form 20-F filed with the United States Securities and Exchange Commission.

The Company believes that it will be considered a "passive foreign investment company" for United States Federal income tax purpose in the year to which these consolidated financial results relate and for the foreseeable future by reason of the composition of its assets and the nature of its income. A U.S. holder of the shares or ADSs of the Company is therefore subject to special rules generally intended to eliminate any benefits from the deferral of U.S. Federal income tax that a holder could derive from investing in a foreign corporation that does not distribute all of its earnings on a current basis. Investors should consult their tax advisors with respect to such rules, which are summarized in the Company's annual report.

Economic Environment

Although steady growth in the global economy is anticipated due in part to economic upturn in developed countries, particularly the United States, downside risks, such as decelerating growth in emerging economies still remain.

In the United States, the Quantitative Easing Program (QE3) is on a tapering trend. However, we expect the United States to continue to lead the global economy, maintaining stable growth with recovery in the employment market, increasing housing demand, and increasing consumer spending.

In Asia, while China is in the process of shifting the emphasis of its economic policy away from high growth and toward stable growth, other emerging economies are expected to see increases in investments with a focus on high growth, due in part to economic resurgence among developed countries.

In Japan, consumer spending and housing investment are expected to decrease in reaction to the consumption tax hike that went into effect on April 1, 2014. However, we anticipate steady recovery of the Japanese economy due to monetary easing and various economic measures by the Bank of Japan and the Abe administration, coupled with stable employment level.

Overview of Business Performance (April 1, 2013 to March 31, 2014)

Total revenues for the consolidated fiscal year ended March 31, 2014 (hereinafter the fiscal year) increased 27% to ¥1,341,651 million compared to ¥1,055,764 million during the previous fiscal year. Compared to the previous fiscal year, revenues from asset management and servicing increased due to the consolidation of Robeco Groep N.V. (hereinafter Robeco), an asset management company we acquired on July 1, 2013. Operating lease revenues increased due to growth in auto leasing in Japan and aircraft leasing overseas. In addition, other operating revenues increased due to contributions from companies acquired during the previous fiscal year, growth in the environment and energy-related business, and an increase in fee income compared to the previous fiscal year. On the other hand, interest on loans and investment securities and real estate sales decreased compared to the previous fiscal year due to a decrease in installment loan balance and a decrease in the number of condominium units delivered, respectively.

Table of Contents

Total expenses increased 26% to ¥1,140,673 million compared to ¥904,911 million during the previous fiscal year. In addition to an increase in expenses from the asset management and servicing business in line with the acquisition of Robeco on July 1, 2013, costs of operating leases and other operating expenses also increased in line with an increase in revenues, and selling, general and administrative expenses increased mainly due to corporate acquisitions. Meanwhile, interest expense decreased due to a decrease in the average balance of borrowings; costs of real estate sales decreased due to a decrease in the number of condominium units delivered; and write-downs of securities decreased mainly due to a decrease in write-downs recorded for non-marketable securities compared to the previous fiscal year.

Compared to the previous fiscal year, equity in net income of affiliates increased mainly due to an increase in profits from domestic real-estate joint ventures, and gains on sales of subsidiaries and affiliates and liquidation losses, net increased due to gains of ¥58,435 million associated with the consolidation of DAIKYO INCORPORATED (hereinafter "DAIKYO") on February 27, 2014.

As a result of the foregoing, income before income taxes and discontinued operations for the fiscal year increased 64% to ¥283,726 million compared to ¥172,572 million during the previous fiscal year, and net income attributable to ORIX Corporation shareholders increased 67% to ¥186,794 million compared to ¥111,909 million during the previous fiscal year.

Segment Information

Segment profits increased 49% to ¥293,562 million compared to ¥197,329 million during the previous fiscal year.

In line with the acquisition of Robeco on July 1, 2013, goodwill and other intangible assets have been allocated to the relevant segments from the three-month period ended September 30, 2013. In addition, ORIX's Information and Communication Technology Department which was previously included in the Maintenance Leasing Segment, is now disclosed as part of the Corporate Financial Services Segment from the third quarter due to reorganization of operation management scope. The segment information for the previous fiscal year has been reclassified to reflect these changes (See page 16, "Segment Information").

Segment information for the fiscal year is as follows:

Corporate Financial Services Segment

This segment is involved in lending, leasing and fee business.

In Japan, despite concerns over the impact of the consumption tax hike that went into effect on April 1, 2014, we are seeing a steady increase in capital expenditures as corporate sentiment grew positive due to improvement in corporate revenues. We are also seeing an increase in lending by financial institutions to small and medium-sized enterprises in addition to large corporations, and going forward we anticipate an increase in capital expenditures by corporations taking advantage of the favorable financing environment.

Segment assets increased 5% compared to March 31, 2013, to ¥992,078 million, due to an increase in investment in direct financing leases despite a decrease in installment loans.

Installment loan revenues decreased in line with a decrease in average balance of installment loans. On the other hand, direct financing lease revenues remained robust due to an increase in average balance of direct finance leases. As a result, segment revenues remained relatively flat compared to the previous fiscal year at ¥76,877 million.

Segment profits decreased 4% to ¥24,874 million compared to ¥25,932 during the previous fiscal year due to an increase in segment expenses compared to the previous fiscal year.

Maintenance Leasing Segment

This segment consists of automobile and rental operations. Automobile operations are comprised of automobile leasing, rentals and car sharing. Rental operations are comprised of leasing and rental of precision measuring and IT-related equipment.

Manufacturing activities of Japanese companies are expected to continue to recover. Despite concerns over the impact of consumption tax hike on the economy, large companies are increasing their planned capital expenditure and there are signs that private investment activities that had been halted for a period of time are beginning to be resumed. In such environment, revenues have increased due to our ability to provide customers with high value-added services that meet their capital expenditure and cost reduction needs.

Table of Contents

Segment revenues increased 7% to ¥251,366 million compared to ¥234,651 million during the previous fiscal year due to an increase in operating lease revenues as a result of an increase in outstanding operating leases. On the other hand, segment expenses increased compared to the previous fiscal year due to an increase in the costs of operating leases in line with an increase in investment in operating leases.

As a result of the foregoing, segment profits increased 6% to ¥37,062 million compared to ¥34,913 million during the previous fiscal year.

Segment assets increased 13% compared to March 31, 2013, to ¥622,009 million due to increases in investment in operating leases and investment in financing leases.

Real Estate Segment

This segment consists of real estate development, rental and financing, facility operation, REIT asset management, and real estate investment advisory services.

The vacancy rate in the Japanese office building market is starting to fall below its peak due to an increase in companies expanding their offices in anticipation of economic recovery. In particular, we are seeing signs of office rents rising in the Tokyo Metropolitan area. In addition, in the J-REIT market, property acquisitions are increasing as a result of new stock exchange listings and capital raising activities through public offerings. We are also seeing sales of large real estate developments and rising sales prices due to increased competition among buyers.

Segment revenues decreased 8% to ¥198,450 million compared to ¥215,212 million during the previous fiscal year due to a decrease in real estate sales resulting from a decrease in the number of condominium units delivered, and a decrease in operating lease revenues due to sale of rental properties, despite an increase in gains from sales of rental properties and an increase in revenues from facilities operation.

Segment expenses decreased compared to the previous fiscal year due to decreases in costs of real estate sales and write-downs of securities despite increases in facilities operation expenses and write-downs of long-lived assets.

In addition to the foregoing, due to an increase in equity in net income of affiliates including real estate joint ventures, segment profits increased 222% to ¥17,956 million compared to ¥5,582 million during the previous fiscal year.

Segment assets decreased 15% compared to March 31, 2013, to ¥962,404 million due to sales of rental properties and decreases in installment loans and investment in securities.

Investment and Operation Segment

This segment consists of environment and energy-related business, principal investment, and loan servicing.

In the environment and energy-related business in Japan, there has been ongoing, active investment in the power generation business, such as mega-solar projects. In addition, investment targets are expanding beyond solar power generation projects to include wind and geothermal power generation projects. In the capital markets, there has been an increase in the number of initial public offerings for the fourth consecutive year and a spate of initial public offerings is expected to follow. In addition, M&A activities are increasing on the back of recovery in corporate profitability.

Segment revenues increased 46% to ¥178,532 million compared to ¥121,933 million during the previous fiscal year due to revenue contributions from consolidated subsidiaries acquired during the previous fiscal year, despite the absence of large collections in the loan servicing business that were recorded during the previous fiscal year and gains on sale of shares in Aozora Bank that were recorded during the previous fiscal year.

Segment expenses increased compared to the previous fiscal year due to increases in expenses relating to our principal investment and environment and energy-related businesses in addition to increased expenses attributable to consolidated subsidiaries acquired during the previous fiscal year.

In addition, due to gains of ¥58,435 million associated with the consolidation of DAIKYO on February 27, 2014, which was previously an equity method affiliate, segment profits increased 169% to ¥94,111 million compared to ¥34,937 million during the previous fiscal year.

Segment assets increased 27% compared to March 31, 2013, to ¥565,740 million due to an increase in inventories, etc. as a result of the consolidation of DAIKYO on February 27, 2014, despite decreases in investment in securities and installment loans mainly in the loan servicing

business.

- 4 -

Table of Contents

Retail Segment

This segment consists of life insurance operations, banking business and card loan business.

Although the life insurance business is being affected by macro factors such as a decline in the population, demand for medical insurance is increasing due to the so-called risks associated with lengthening life expectancy or life span faced by the aging population. In the consumer finance, we anticipate an increase in loan demand due to an improvement in consumer sentiment in line with economic recovery.

Segment revenues increased 12% to ¥211,468 million compared to ¥188,695 million during the previous fiscal year due to an increase in installment loan revenues, an increase in insurance premium income as a result of growth in the number of policies in force in the life insurance business and an increase in insurance-related investment income.

Segment expenses increased due to an increase in selling, general and administrative expenses as well as an increase in insurance-related costs.

As a result of the foregoing, segment profits increased 15% to ¥49,871 million compared to ¥43,209 million during the previous fiscal year.

Segment assets increased 9% compared to March 31, 2013, to ¥2,166,986 million due to increases in investment in securities and installment loans despite decreases in rental properties owned for investment purposes in life insurance business and in investment in affiliates.

Overseas Business Segment

This segment consists of leasing, lending, investment in bonds, investment banking, asset management and ship- and aircraft-related operations in the United States, Asia, Australasia and Europe.

In the U.S. economy, the Quantitative Easing Program (QE3) is on a tapering trend. However, the U.S. is expected to continue to lead the global economy, maintaining stable growth with the recovery in the employment market, increasing housing demand, and increasing consumer consumption. In Asia's emerging economies, while China is in the process of switching its policy to stable growth, in other emerging economies, expansion of investments with a focus on high growth potential is expected, due in part to economic resurgence in developed countries.

Segment revenues increased 106% to ¥416,226 million compared to ¥202,516 million during the previous fiscal year due to an increase in revenues from asset management in line with the acquisition of Robeco on July 1, 2013, and an increase in direct financing lease and operating lease revenues in Asia as well as in aircraft-related operations.

Segment expenses increased compared to the previous fiscal year due to an increase in expenses from asset management in line with the acquisition of Robeco on July 1, 2013, and an increase in selling, general and administrative expenses.

As a result of the foregoing, segment profits increased 32% to ¥69,688 million compared to ¥52,756 million during the previous fiscal year.

Segment assets increased 50% compared to March 31, 2013, to ¥1,972,138 million due to recognition of goodwill and other intangible assets in line with the acquisition of Robeco on July 1, 2013, and increased investment in direct financing leases and operating leases in Asia as well as in aircraft-related operations.

Outlook and Forecast for the Fiscal Year Ending March 31, 2015

Based on the operating environment described above and management policies described further below, ORIX Corporation targets total revenues of ¥1,800,000 million (up 34.2 % year on year) and net income attributable to ORIX Corporation shareholders of ¥210,000 million (up 12.4 % year on year) for the fiscal year ending March 31, 2015.

In addition to the stable profits from our existing business operations established thus far, as indicated below, we believe that there are new growth opportunities in all of our segments and we will aim to grow our profits by embracing these profit opportunities in the fiscal year ending March 31, 2015.

The Corporate Financial Services segment aims to further expand its customer base and increase small-sized quality assets by strengthening cooperation with the Group companies. At the same time, the segment will accelerate the Finance + Services strategy through the expansion of fee revenues by providing products and services that meet the customer needs including environment and energy related demands. Furthermore,

Edgar Filing: ORIX CORP - Form 6-K

a progress in government s growth strategy will open up opportunities in new areas, and in such circumstance, the segment will aim to actively embrace those opportunities.

- 5 -

Table of Contents

The Maintenance Leasing segment aims to increase new business volume and expand high value-added services in the automobile business, and capture demands in growth areas and expand peripheral services in the rental business. The segment expects stable profits from its existing businesses, and at the same time, aims to further expand its market share and develop new markets in both automobile and rental businesses.

The Real Estate segment aims to enhance its stable revenue base by promoting its facilities operation and asset management businesses while continuing to turnover assets by taking advantage of the favorable business environment.

The Investment and Operation segment aims to grow profits through the expansion of its environment and energy business, promotion of principal investments both in Japan and overseas, and pursuit of revenue opportunities by capitalizing on its loan servicing expertise. In particular, with the renewable energy field, the segment is considering advancement into new business fields including geothermal and wind power generation in addition to continuing its focus on sales of solar panels and mega solar business.

The Retail segment aims to increase card loan balances via the consolidated management of ORIX Bank and ORIX Credit. The segment aims to expand the scale of the life insurance business by enhancing the agency network and increasing the sales of first sector products on top of the third sector products.

The Overseas Business segment aims to grow profits through enhancement of its fee business in the U.S. and expansion of its leasing asset balance and further business diversification in Asia. In addition, the segment seeks to strengthen global business base and raise the level of service related revenues of the Group by expanding Robeco's AUM.

Although forward-looking statements in this document such as forecasts are attributable to current information available to ORIX Corporation and are based on assumptions deemed rational by ORIX Corporation, actual financial results may differ materially due to various factors. Therefore, readers are urged not to place undue reliance on these figures and predictions.

Various factors that could cause these figures and predictions to differ materially include, but are not limited to, those described under Risk Factors in the March 31, 2013 Form 20-F submitted to the U.S. Securities and Exchange Commission.

(2) Analysis of Consolidated Financial Condition**Assets, Liabilities, Shareholders' Equity and Cash Flow Information**

		As of March 31, 2013	As of March 31, 2014	Change	Year on Year Change
Total Assets	(millions of yen)	8,439,710	9,069,392	629,682	7%
(Segment Assets)		6,382,654	7,281,355	898,701	14%
Total Liabilities	(millions of yen)	6,710,516	6,921,037	210,521	3%
(Long- and Short-term Debt)		4,482,260	4,168,465	(313,795)	(7%)
(Deposits)		1,078,587	1,206,413	127,826	12%
Shareholders' Equity	(millions of yen)	1,643,596	1,918,740	275,144	17%
Shareholders' Equity Per Share	(yen)	1,345.63	1,465.31	119.68	9%

Note 1: Shareholders' Equity refers to ORIX Corporation Shareholders' Equity based on US-GAAP.

Note 2: Goodwill and other intangible assets acquired in business combinations have been recognized as segment assets beginning in the three month period ended September 30, 2013. Segment assets for the previous fiscal year have been reclassified as a result of this change.

Total assets increased 7% to ¥9,069,392 million compared to ¥8,439,710 million on March 31, 2013. Investment in direct financing leases increased due to robust increase of new transactions in Japan and the Asian region. Investment in securities increased primarily due to an increase in government bond securities and municipal bond securities. Other operating assets increased primarily due to the new consolidation overseas. In addition, inventories increased due to the consolidation of DAIKYO on February 27, 2014 and other assets increased primarily due to the recognition of goodwill and other intangible assets from the acquisition of Robeco on July 1, 2013 and DAIKYO on February 27, 2014. On the other hand, installment loans decreased due to an increase in collections. Segment assets increased 14% compared to March 31, 2013, to ¥7,281,355 million.

Table of Contents

The balance of interest bearing liabilities is managed at an appropriate level taking into account the nature and mix of assets and the liquidity on-hand as well as the domestic and overseas financial environment. As a result, long-term and short-term debt decreased compared to March 31, 2013.

Shareholders' Equity increased 17% compared to March 31, 2013 to ¥1,918,740 million due to a decrease in treasury stock, at cost for the disposal of treasury shares to pay part of the consideration for the acquisition of the Robeco shares, and an increase in common stock and additional paid-in capital as a result of the conversion of convertible bonds with stock acquisition rights and exercise of rights on stock acquisition rights, in addition to an increase in retained earnings.

Summary of Cash Flows

Cash and cash equivalents increased by ¥1,003 million to ¥827,299 million compared to March 31, 2013.

Cash flows provided by operating activities were ¥469,644 million during the fiscal year, up from ¥391,304 million during the previous fiscal year resulting from an increase in net income compared to the previous fiscal year, an increase in trade notes and accounts payable compared to the previous fiscal year, a decrease in trading securities compared to the previous fiscal year, and a smaller decrease in restricted cash and inventories, in addition to adjustments made for the non-cash revenue and expense items such as depreciation and amortization and write-downs of securities, and gains on sales of subsidiaries and affiliates and liquidation losses, net compared to the previous fiscal year.

Cash flows used in investing activities were ¥201,229 million during the fiscal year, having provided ¥105,657 million during the previous fiscal year. This change was due to increases in acquisitions of subsidiaries, net of cash acquired, installment loans made to customers, purchases of available-for-sale securities and purchases of lease equipment, partially offset by increases in principal collected on installment loans and proceeds from sales of operating lease assets.

Cash flows used in financing activities were ¥274,167 million during the fiscal year, while having used ¥467,193 million during the previous fiscal year. This change was due to a decrease in repayment of debt with maturities longer than three months and an increase in deposits due to customers, partially offset by decrease in proceeds from debt with maturities longer than three months.

Trend in Cash Flow-Related Performance Indicators

	March 31, 2013	March 31, 2014
Shareholders' Equity Ratio	19.5%	21.2%
Shareholders' Equity Ratio based on Market Value	17.2%	21.0%
Interest-bearing Debt to Cash Flow Ratio	14.2	11.4
Interest Coverage Ratio	3.9 times	5.7 times
Shareholders' Equity Ratio: ORIX Corporation Shareholders' Equity/Total Assets		

Shareholders' Equity Ratio based on Market Value: Total Market Value of Listed Shares/Total Assets

Interest-bearing Debt to Cash Flow Ratio: Interest bearing Debt/Cash Flow

Interest Coverage Ratio: Cash Flow/Interest Payments

Note 3: All figures have been calculated on a consolidated basis.

Note 4: Total market value of listed shares has been calculated based on the number of outstanding shares excluding treasury stock.

Note 5: Cash flow refers to cash flows from operating activities.

Note 6: Interest-bearing debt refers to short- and long-term debt and deposits listed on the consolidated balance sheets.

(3) Profit Distribution Policy and Dividends for the Fiscal Year Ended March 31, 2014

ORIX aims to increase shareholder value by utilizing the profits earned from its business activities that were secured primarily as retained earnings, for strengthening its business foundation and investments for growth. At the same time, ORIX will make steady and sustainable

distribution of dividends that reflect its business performance.

Table of Contents

Regarding share buybacks, ORIX will take into account the adequate level of retained earnings and act flexibly and accordingly by considering the factors such as changes in the economic environment, trend in stock prices, and the company's financial condition.

In line with the growth in profits, the annual dividend is raised to 23 yen per share from 130 yen per share in the previous fiscal year (On April 1, 2013, the Company implemented a 10-for-1 stock split of common stock held by shareholders registered on the Company's register of shareholders as of March 31, 2013. The annual dividend for the previous fiscal year is the actual dividend amount before the stock split).

Dividend distribution is scheduled once a year as a year-end dividend.

(4) Risk Factors

With the announcement of our results for the fiscal year ended March 31, 2014, we believe no additional items have arisen concerning Risk Factors as stated in our latest Form 20-F submitted to the U.S. Securities and Exchange Commission on June 27, 2013.

2. Management Policies

(1) Management's Basic Policy

The ORIX Group's corporate philosophy and management policy are shown below.

Corporate Philosophy

The ORIX Group is constantly anticipating market needs and working to contribute to society by developing leading financial services on a global scale and striving to offer innovative products that create new value for customers.

Management Policy

The ORIX Group strives to meet the diverse needs of its customers and to deepen trust by constantly developing superior services.

The ORIX Group aims to strengthen its base of operations and achieve sustainable growth by integrating its Group-wide resources to promote synergies amongst different units.

The ORIX Group makes endeavors to maintain a corporate culture that encourages a sense of fulfillment and pride by developing personnel resources through corporate programs and promoting professional development.

The ORIX Group aims to attain stable medium- and long-term growth in shareholder value by implementing these initiatives.

(2) Target Performance Indicators

In its pursuit of sustainable growth, the ORIX Group will use the following performance indicators: Net income attributable to ORIX Corporation shareholders to indicate profitability, ROE to indicate capital efficiency and ROA to indicate asset efficiency. ORIX aims to achieve 10% ROE by striving to increase asset efficiency through quality asset expansion to capture business opportunities along with increased capital efficiency by strengthening profit-earning opportunities such as fee-based businesses.

Three-year trends in performance indicators are as follows.

March 31, 2012 March 31, 2013 March 31, 2014

Edgar Filing: ORIX CORP - Form 6-K

(3) Medium- and Long-Term Corporate Management Strategies

The ORIX Group believes that it is vital to respond to changes in the market environment with agility and flexibility. The ORIX Group consists of six business segments (Corporate Financial Services, Maintenance Leasing, Real Estate, Investment and Operation, Retail, and Overseas Business) that represent a wide range of businesses, and Group-wide risk is controlled through a diversified business portfolio. At the same time, ORIX aims to secure profits and business opportunities through the complimentary nature of its diversified portfolio.

From a funding standpoint, ORIX continues to maintain a stable financial base characterized by high percentage of long-term debt from various funding sources that include borrowings from financial institutions, issuance of bonds in various markets, and ORIX Bank's deposits.

Going forward, ORIX will continue its pursuit of the mid-term management strategies of accelerating Finance + Services and Embracing growth in emerging markets including Asia while focusing on expanding operations through business portfolio diversification. Additionally, by committing to new pillars of business toward medium- to long-term growth ORIX aims to challenge new business opportunities arising from the changing environment.

Increase the pace of Finance + Services : After the occurrence of structural changes in the finance business environment caused by the financial crisis, providing additional high value-added services has been deemed essential for pursuing increased profitability in the finance business. The ORIX Group is already providing Finance + Services through its maintenance leasing, facilities operation, aircraft leasing, and asset management businesses. Going forward, ORIX will capitalize on its accumulated Group client base, know-how and expertise to develop new business areas and provide more advanced services.

Embracing growth in emerging markets including Asia : In Asia's emerging economies, while China is in the process of switching its policy to stable growth, in other emerging economies, expansion of investments with a focus on high growth potential is expected, due in part to economic resurgence in developed countries. ORIX Group will embrace growth in these countries by expanding operations capitalizing on local subsidiaries and partner networks it has established in emerging markets including Asia in addition to leveraging its successful investment track record.

Establishing new pillars of business toward medium- to long-term growth : The business environment and customers' needs are constantly changing, and even with the existing businesses, ORIX believes that it is capable of capturing new profit opportunities by modifying its existing business model. At the same time, ORIX will continue to provide products and services valued by customers and society by creating new pillars of business that will support future growth through Group-wide collaboration that transcends the business divisions. Overviews and strategies for the six segments are as follows.

Segment	Business Overview	Business Strategies
Corporate Financial Services	Lending, leasing and fee business	Expand the client base through strengthened cooperation with group companies Accumulate small-sized quality assets Expand fee revenues by capturing environment and energy related demands
Maintenance Leasing	Automobile leasing and rentals, car sharing, and precision measuring equipment and IT-related equipment rentals and leasing	Continue Group-wide sales activities Expand high value-added services Further expand market share and develop new markets

Edgar Filing: ORIX CORP - Form 6-K

Real Estate	Real estate development, rentals and financing, facilities operation, REIT asset management, real estate investment advisory services	<p>Turnover assets while taking advantage of the favorable business environment, and promote joint investment</p> <p style="padding-left: 40px;">Strengthen the facilities operation business</p> <p style="padding-left: 40px;">Expand fee business by enhancing the asset management business</p>
Investment and Operation	Environment and energy related business, principal investment, and loan servicing (asset recovery)	<p>Invest in the environment and energy field, and expand business operation such as mega solar projects</p> <p style="padding-left: 40px;">Expand principal investment both domestically and overseas</p> <p style="padding-left: 40px;">Pursue new profit opportunities capitalizing on the loan servicing expertise</p>
Retail	Life insurance, banking, and card loan business	<p>Develop distinctive new products and enhance the agency network in life insurance business</p> <p style="padding-left: 40px;">Expand card loan business via the consolidated management of ORIX Bank and ORIX Credit</p>
Overseas Business	Leasing, lending, investment in bonds, investment banking, asset management, and ship- and aircraft-related operations	<p>Continue to strengthen Finance + Services based on high level of expertise in the U.S.</p> <p style="padding-left: 40px;">Expansion of leasing business and new investment centered on Asia</p> <p style="padding-left: 40px;">Accumulate quality assets in the ship- and aircraft-related business</p> <p style="padding-left: 40px;">Expand Robeco's AUM</p>

Table of Contents

(4) Corporate Challenges to be Addressed

It is vital for ORIX Group to continue to maintain and develop a business structure that flexibly and swiftly adapts to the changing business environment. ORIX will take the following three steps in order to execute the aforementioned business strategies.

1. Further advancement of risk management
2. Pursue transactions that are both socially responsible and economically viable
3. Create a fulfilling workplace

1. Further advancement of risk management: Implement thorough and transparent monitoring and control of risks, capturing characteristics of each business and the changing business environment, while promoting mid-term management strategies. ORIX will also continue to maintain financial stability.
2. Pursue transactions that are both socially responsible and economically viable: Pursue transactions that are socially responsible from a compliance and environmental standpoint while providing products and services that are valued by clients and improve ORIX Group profitability.
3. Create a fulfilling workplace: Focus on ORIX's strengths as a global organization to create a fulfilling work environment for all employees regardless of nationality, age, gender, background or type of employment.

Overseas Business	202,516	52,756	416,226	69,688	1,318,434	1,972,138
Segment Total	1,039,135	197,329	1,332,919	293,562	6,382,654	7,281,355
Difference between Segment Total and Consolidated Amounts	16,629	(24,757)	8,732	(9,836)	2,057,056	1,788,037
Consolidated Amounts	1,055,764	172,572	1,341,651	283,726	8,439,710	9,069,392

Note 1: The Company evaluates the performance of segments based on income before income taxes and discontinued operations, adjusted for results of discontinued operations, net income attributable to the noncontrolling interests and net income attributable to the redeemable noncontrolling interests before applicable tax effect. Tax expenses are not included in segment profits.

Note 2: For certain VIEs used for securitization which are consolidated in accordance with ASC 810-10 (Consolidations), for which the VIE s assets can be used only to settle related obligations of those VIEs and the creditors (or beneficial interest holders) do not have recourse to other assets of the Company or its subsidiaries, segment assets are measured based on the amount of the Company and its subsidiaries net investments in the VIEs, which is different from the amount of total assets of the VIEs, and accordingly, segment revenues are also measured at a net amount representing the revenues earned on the net investments in the VIEs. Certain gains or losses related to assets and liabilities of consolidated VIEs, which are not ultimately attributable to the Company and its subsidiaries, are excluded from segment profits.

Note 3: From the three-month period ended September 30, 2013, goodwill and other intangible assets recognized as a result of business combination have been included in segment assets. In addition, in line with a change of management classification, ORIX s Information and Communication Technology Department, which were previously included in the Maintenance Leasing Segment, has been included in the Corporate Financial Services Segment beginning in the third consolidated period. As a result of the foregoing, we have reclassified the segment information for the previous fiscal year.

Significant Accounting Policies

(Application of New Accounting Standards)

There is no significant change from the description in Form 20-F filed on June 27, 2013.

(Subsequent Events)

On April 28, 2014, ORIX Life Insurance Corporation (hereinafter, "ORIX Life Insurance"), a subsidiary of the Company, decided, subject to obtaining the required approval of relevant regulatory authorities, to purchase all issued shares of Hartford Life Insurance K.K. (Address: Minato-ku, Tokyo, Business Description: Life insurance business and reinsurance business, hereinafter "HLIKK") held by Hartford Life, Inc. (Address: Simsbury, Connecticut, U.S.A.) in order to enhance its capital strength and improve the soundness of its management, in view of accelerating its growth. Upon closing, HLIKK would become a consolidated subsidiary of the Company.

Total acquisition cost of the HLIKK's shares was estimated at \$895 million (approximately ¥91.6 billion) as of April 28, 2014. However, the purchase price is subject to potential upward or downward adjustments at the closing date based on changes in the adjusted net worth of HLIKK.

The Company and its subsidiaries are currently evaluating the effect of this purchase on the Company and its subsidiaries' results of operations and financial position as of the date of this release.

The closing of this purchase will require the approval of the Financial Services Agency pursuant to the Insurance Business Act in Japan. ORIX Life Insurance also needs to submit a report on the share purchase plan to the Fair Trade Commission which then imposes a certain waiting period after the submission. The date of such approvals is presently unclear; however, it is expected to take some time. The purchase is targeted to be closed during July 2014.

TOKYO, Japan May 8, 2014 ORIX Corporation (TSE: 8591; NYSE: IX), a leading integrated financial services group, announced the resolution regarding the expected dividend amount for the fiscal year ended March 31, 2014. The dividend amount will be formally decided at a meeting of the Board of Directors held on May 22, 2014, after a statutory audit of the financial reports for the fiscal year ended March 31, 2014.

Dividend Details

	Amount Decided	Dividend Paid for the Fiscal Year Ended March 31, 2013
Record Date	March 31, 2014	March 31, 2013
Dividend Per Share	23 yen	13 yen*
Total Dividend Amount	30,117 million yen	15,878 million yen
Effective Date	June 3, 2014	June 4, 2013
Source of Dividend	Retained earnings	Retained earnings

Basic Profit Distribution Policy and Reason for Changing Per Share Dividend

ORIX aims to increase shareholder value by utilizing the profits earned from its business activities that were secured primarily as retained earnings, for strengthening its business foundation and investments for growth. At the same time, ORIX will make steady and sustainable distribution of dividends that reflect its business performance.

Regarding share buybacks, ORIX will take into account the adequate level of retained earnings and act flexibly and accordingly by considering the factors such as changes in the economic environment, trend in stock prices, and the company's financial condition.

Given the growth of our profit, the annual dividend is raised to 23 yen per share from 13 yen* in the previous fiscal year.

Reference:

Record Date	Interim	Dividend Per Share Fiscal Year End	Yearly
Current Fiscal Year		23 yen	23 yen
Previous Fiscal Year (March 31, 2013)		13 yen*	13 yen*

Edgar Filing: ORIX CORP - Form 6-K

* On April 1, 2013, ORIX implemented a 10-for-1 stock split. Dividends are adjusted accordingly in the table above. Dividend per share for the previous fiscal year is 130 yen without the effect of the stock split.

TOKYO, Japan May 8, 2014 ORIX Corporation (TSE: 8591; NYSE: IX), a leading integrated financial services group, today made public an announcement regarding changes in representative executive officer following a resolution passed by the Board of Directors on the same day. A formal decision regarding the changes will be made following approval at the 51st Annual General Meeting of Shareholders and the subsequent Board of Directors meeting on June 24, 2014.

1. Changes in Representative Executive Officer

Name	New Position	Present Position
Makoto Inoue	Director, Representative Executive Officer, President and Chief Executive Officer	Director, Representative Executive Officer, President and Co-Chief Executive Officer
Yoshihiko Miyauchi	Senior Chairman	Director, Representative Executive Officer, Chairman and Chief Executive Officer

Yoshihiko Miyauchi is scheduled to resign as Director following the 51st Annual General Meeting of Shareholders.

Management Changes are effective as of June 24, 2014.

2. Reason for the changes

Under the new management team, the ORIX Group aims for further growth by continuing to expand its diversified financial services business in Japan and overseas, leveraging its strong expertise developed over the years.

Yoshihiko Miyauchi will commit to a long-term involvement in the Group, providing advices and consultation to improve the ORIX Group's corporate value, from a position different from executing management duties.

3. Profile of the newly appointed Representative Executive Officer
