PART III NARRATIVE

Ternium S.A. (Ternium) was unable to file its Annual Report on Form 20-F for the fiscal year ended December 31, 2014 by April 30, 2015 without unreasonable effort or expense, because it is working to resolve certain outstanding comments that Ternium has received from the staff (the Staff) of the Securities and Exchange Commission (the Commission) regarding the carrying value of Ternium's investment in Usiminas.

As part of its regular reviews of Ternium's filings of financial statements, the Staff has issued comments regarding the carrying value of Ternium's investment in Usiminas, including seeking explanations on Ternium's value in use calculations and on the differences between value in use and certain fair value indicators. After receiving the Staff's comments, Ternium provided additional information to the Staff supporting Ternium's accounting treatment of the Usiminas investment under IFRS as of September 30, 2014, and Ternium had further discussions with members of the Staff.

Discussions with the Staff continue. Ternium believes that its accounting of the Usiminas investment is in accordance with IFRS; however, if it is determined after the conclusion of this process that an additional impairment of the investment in Usiminas should be recorded in 2014, Ternium could be required to restate its financial statements for the year ended December 31, 2014. A restatement of the 2014 financial statements could also result in a restatement of the financial statements for the first quarter of 2015.

The value of Ternium's investment in Usiminas, which was determined by the application of IFRS and tested for impairment using the value in use calculation as per IAS 36, amounted to USD 1,301.5 million as of September 30, 2014, USD 1,390.7 million as of December 31, 2014 and USD 1,020.0 million as of March 31, 2015. The increase in the carrying value from September 30, 2014 to December 31, 2014 was related with the acquisition of additional Usiminas shares from PREVI at a price of BRL12 (approximately USD 4.8) per ordinary share pursuant to an October 2, 2014 agreement.

For more information on the carrying value of the Usiminas investment, including information regarding the possible impact on profit and comprehensive income for 2014 that would result from a downward adjustment of the carrying value of the Usiminas investment, see note 9 to Ternium's consolidated financial statements as of March 31, 2015, which have been furnished on April 30, 2015 to the Commission under Form 6-K.

Persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.
