NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share data, number of units, or as otherwise noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

The accompanying unaudited financial statements of Comstock Holding Companies, Inc. and subsidiaries (Comstock or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X. Such financial statements do not include all of the information and disclosures required by GAAP for complete financial statements. In our opinion, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation have been included in the accompanying financial statements. For further information and a discussion of our significant accounting policies, other than discussed below, refer to our audited consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Comstock Holding Companies, Inc., incorporated in 2004 as a Delaware corporation is a multi-faceted real estate development and construction services company focused in the Washington, D.C. metropolitan area (Washington D.C., Northern Virginia and Maryland suburbs of Washington D.C.). We have substantial experience with building a diverse range of products including multi-family homes, single-family homes, townhouses, mid-rise condominiums, high-rise multi-family condominiums and mixed-use (residential and commercial) developments. References in this Form 10-Q to Comstock, Company, we, our and us refer to Comstock Holding Companies, Inc. together in each with our subsidiaries and any predecessor entities unless the context suggests otherwise.

The Company's Class A common stock is traded on the NASDAQ Capital Market under the symbol CHCI and has no public trading history prior to December 17, 2004.

For the three and nine months ended September 30, 2015 and 2014, comprehensive loss equaled net loss; therefore, a separate statement of comprehensive loss is not included in the accompanying consolidated financial statements.

Recent Developments

On April 20, 2015, the Company received a deficiency letter from The Nasdaq Stock Market LLC (Nasdaq) notifying the Company that the minimum bid price per share for its common stock was below \$1.00 for a period of 30 consecutive business days and, accordingly, that the Company did not comply with the minimum bid price requirement of \$1.00 per share, as required by Listing Rule 5550(a)(2). On September 25, 2015, to regain compliance with the NASDAQ listing requirement, the Company effected a 1-for-7 reverse stock split of its issued and outstanding shares of Class A common stock and Class B common stock and proportionately decreased the number of authorized shares of Common Stock. The reverse stock split was authorized by our Board of Directors and approved by our stockholders at the annual meeting of stockholders that was held on June 17, 2015. Every seven shares of issued and outstanding Class A common stock, including treasury shares, were exchanged into one share of the Company's common stock. As a result of the reverse stock split, the number of authorized shares of Class A common stock was reduced from 77,266,500 shares to 11,038,071 shares and the number of authorized shares of Class B common stock was reduced from 2,733,500 shares to 390,500 shares. No fractional shares were issued in connection with the reverse stock split; instead, stockholders who otherwise would have received fractional shares received, in lieu of such fractional shares, an amount of cash based on the closing price of the Company's common stock on the

date of the reverse stock split.

All shares related and per share information has been adjusted to give the effect to the reverse stock split from the beginning of the earliest period presented. The par value per share was not adjusted as a result of the reverse stock split.

On October 7, 2015, the Company received a letter from Nasdaq indicating that the Company had regained compliance with the stockholders' equity requirement in Listing Rule 5550(b)(1) and that this matter is now closed. On October 12, 2015, the Company received a letter from Nasdaq indicating that the Company had regained compliance with the minimum bid price requirement of \$1.00 per share, as required by Listing Rule 5550(a)(2) and that this matter is now closed. The Company is now compliant with all required Nasdaq listing requirements.

Liquidity and Capital Resources

The Company is involved in ongoing discussions with lenders and equity sources in an effort to provide additional growth capital to fund various new business opportunities. We require capital to operate, to post deposits on new deals, to purchase and develop land, to construct homes, to fund related carrying costs and overhead and to fund various advertising and marketing programs to generate sales. These expenditures include payroll, community engineering, entitlement, architecture, advertising, utilities and interest as well as the construction costs of our homes. Our sources of capital include, and should continue to include, private equity and debt placements (which has included significant participation from Company insiders), funds derived from various secured and unsecured borrowings to finance acquisition, development and construction on acquired land, cash flow from operations, which includes the sale and delivery of constructed homes, finished and raw building lots and the potential sale of public debt and equity securities.

Table of Contents

We have outstanding borrowings with various financial institutions and other lenders that have been used to finance the acquisition, development and construction of real estate projects. The Company has generally financed its development and construction activities on a single or multiple project basis so it is not uncommon for each of our projects or collection of our projects to have a separate credit facility. Accordingly, the Company typically has had numerous credit facilities and lenders. As of September 30, 2015, the Company had \$9.7 million of its credit facilities and project related loans scheduled to mature during the remainder of 2015. On October 15, 2015, subsequent to quarter end, the Company paid off the mezzanine note obtained to acquire the land for the development of the NHA Project (defined below), which had an outstanding balance of \$0.3 million.

Due to the fact that certain of our credit facilities mature during the fourth quarter of 2015 and during various periods in 2016, we are in active discussions with our lenders and are seeking long term extensions and modifications to the loans. We are anticipating that with successful resolution of those discussions with our lenders, expected proceeds from future private placements, current available cash on hand and additional cash from settlement proceeds at existing and under development communities, the Company should have sufficient financial resources to sustain its operations through the next twelve months, though no assurances can be made that the Company will be successful in its efforts. The Company will also focus on its cost structure in an effort to conserve cash and manage expenses. Such actions may include cost reductions and/or deferral arrangements with respect to current operating expenses.

See Note 11 and Note 13 to the accompanying consolidated financial statements for details on private placement offerings and our credit facilities, respectively.

Use of Estimates

Our financial statements have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts for the reporting periods. We base these estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances. We evaluate these estimates and judgements on an ongoing basis. Actual results may differ from those estimates under different assumptions or conditions.

Recently Issued Accounting Standards

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (ASU 2014-09). ASU 2014-09 provides a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU No. 2014-09 will require an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, which deferred the effective date of ASU 2014-09 for one year, which would make the guidance effective for the Company's first fiscal year beginning after December 15, 2017. Additionally, the FASB has also decided to permit entities to early adopt the standard, which allows for either full retrospective or modified retrospective methods of adoption, for reporting periods beginning after December 15, 2016. We are currently evaluating the impact of ASU 2014-09 on our consolidated financial statements.

We assessed other accounting pronouncements issued or effective during the three months ended September 30, 2015 and deemed they were not applicable to us and are not anticipated to have a material effect on our financial statements.

2. REAL ESTATE INVENTORIES

After impairments and write-offs, real estate held for development and sale consists of the following:

	September 30, 2015	December 31, 2014
Land and land development costs	\$ 27,020	\$ 22,487
Cost of construction (including capitalized interest and real estate taxes)	22,125	18,402
	\$ 49,145	\$ 40,889

Table of Contents**3. WARRANTY RESERVE**

Warranty reserves for units settled are established to cover potential costs for materials and labor with regard to warranty-type claims expected to arise during the typical one-year warranty period provided by the Company or within the two-year statutorily mandated structural warranty period for condominiums. Because the Company typically subcontracts its homebuilding work, subcontractors are required to provide the Company with an indemnity and a certificate of insurance prior to receiving payments for their work. Claims relating to workmanship and materials are generally the primary responsibility of the subcontractors and product manufacturers. The warranty reserve is established at the time of closing, and is calculated based upon historical warranty cost experience and current business factors. This reserve is an estimate and actual warranty costs could vary from these estimates. Variables used in the calculation of the reserve, as well as the adequacy of the reserve based on the number of homes still under warranty, are reviewed on a periodic basis. Warranty claims are directly charged to this reserve as they arise.

The following table is a summary of warranty reserve activity which is included in accounts payable and accrued liabilities:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Balance at beginning of period	\$ 294	\$ 722	\$ 492	\$ 510
Additions	48	70	140	414
Releases and/or charges incurred	(80)	(275)	(370)	(407)
Balance at end of period	\$ 262	\$ 517	\$ 262	\$ 517

4. CAPITALIZED INTEREST AND REAL ESTATE TAXES

Interest and real estate taxes incurred relating to the development of lots and parcels are capitalized to real estate inventories during the active development period, which generally commences when borrowings are used to acquire real estate assets and ends when the properties are substantially complete or the property becomes inactive. A project becomes inactive when development and construction activities have been suspended indefinitely. Interest is capitalized based on the interest rate applicable to specific borrowings or the weighted average of the rates applicable to other borrowings during the period. Interest and real estate taxes capitalized to real estate inventories are expensed as a component of cost of sales as related units are sold. The following table is a summary of interest and real estate taxes incurred and capitalized and interest and real estate taxes expensed for units settled:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Total interest incurred and capitalized	\$ 887	\$ 619	\$ 2,514	\$ 1,699
Total real estate taxes incurred and capitalized	125	69	314	173
Total interest and real estate taxes incurred and capitalized	\$ 1,012	\$ 688	\$ 2,828	\$ 1,872

Edgar Filing: Comstock Holding Companies, Inc. - Form 10-Q

Interest expensed as a component of cost of sales	\$ 471	\$ 325	\$ 1,227	\$ 466
Real estate taxes expensed as a component of cost of sales	64	70	156	126

Interest and real estate taxes expensed as a component of cost of sales	\$ 535	\$ 395	\$ 1,383	\$ 592
---	--------	--------	----------	--------

The amount of interest from entity level borrowings that we are able to capitalize in accordance with the accounting standards is dependent upon the average accumulated expenditures that exceed project specific borrowings. Additionally, when a project becomes inactive, its interest, real estate taxes and indirect production overhead costs are no longer capitalized but rather expensed in the period they are incurred. The following is a breakdown of the interest and real estate taxes expensed in the consolidated statement of operations for the periods presented:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Interest incurred and expensed from entity level borrowings	\$ 97	\$	\$ 414	\$
Interest incurred and expensed for inactive projects			4	
Real estate taxes incurred and expensed for inactive projects	3	18	8	23
	\$ 100	\$ 18	\$ 426	\$ 23

Table of Contents**5. LOSS PER SHARE**

The weighted average shares and share equivalents used to calculate basic and diluted income per share for the three and nine months ended September 30, 2015 and 2014, respectively, are presented in the accompanying consolidated statements of operations. Restricted stock awards, stock options and warrants for the three and nine months ended September 30, 2015 and 2014 are included in the diluted earnings per share calculation using the treasury stock method and average market prices during the periods, unless the restricted stock awards, stock options and warrants would be anti-dilutive.

As a result of net losses for the three and nine months ended September 30, 2015 and 2014, respectively, the following shares have been excluded from the diluted share computation as their inclusion would be anti-dilutive:

	Three Months Ended September 30,		Nine Months Ended September 30,

6. SEGMENT DISCLOSURES

We operate our business through three segments: Homebuilding, Multi-family and Real Estate Services. We are currently focused on the Washington, D.C. area market.

In our Homebuilding segment, we develop properties with the intent to sell as fee-simple properties or condominiums to individual buyers or to private or institutional investors. Our for-sale products are designed to attract first-time, early move-up, and secondary move-up buyers. We focus on products that we are able to offer for sale in the middle price points within the markets where we operate, avoiding the very low-end and high-end products.

In our Multi-family segment, we focus on projects ranging from approximately 75 to 200 units in locations that are supply constrained with demonstrated demand for stabilized assets. We seek opportunities in the multi-family rental market where our experience and core capabilities can be leveraged. We will either position the assets for sale when completed or operate the asset within our own portfolio. Operating the asset for our own account affords us the flexibility of converting the units to condominiums in the future.

In our Real Estate Services segment, we pursue projects in all aspects of real estate management including strategic planning, land development, entitlement, property management, sales and marketing, workout and turnaround strategies, financing and general construction. We are able to provide a wide range of construction management and general contracting services to other property owners.

The Company allocates sales, marketing and general and administrative expenses to the individual segments based upon specifically allocable costs.

7. INCOME TAX

During the three months ended September 30, 2015, the Company recognized income tax expense of \$36. During the nine months ended September 30, 2015, the Company recorded an out of period adjustment to reverse the valuation allowance, resulting in the recognition of a deferred tax benefit of \$121, offset by year-to-date income tax expense of \$144, both related to the NHA project in Washington, DC. Because this error was not material to any previously filed consolidated financial statements and the impact of correcting this error in the current fiscal year is not material, the Company recorded the correction in the first quarter of 2015. The effective tax rate for the three and nine month

periods ended September 30, 2015 was 3% and 1%, respectively.

The Company currently has approximately \$128 million in federal and state net operating losses (NOLs), which, based on current statutory tax rates, represents approximately \$50 million in tax savings. If unused, these NOLs will begin expiring in 2028. Under Internal Revenue Code Section 382 (Section 382), if an ownership change is triggered, the Company's ability to use its NOLs (and in certain circumstances, future built-in losses and depreciation deductions) can be negatively affected and possibly certain other deferred tax assets may be impaired. In general, an ownership change occurs whenever there is a shift in ownership by more than 50 percentage points by one or more 5% stockholders over a specified time period (generally three years). Given Section 382's broad definition, an ownership change could be the unintended consequence of otherwise normal market trading in the Company's stock that is outside of the Company's control. In an effort to preserve the availability of these NOLs, Comstock initially adopted a Section 382 stockholder rights plan in May 2011 that expired in May 2014. On March 27, 2015, Comstock's board of directors adopted a new Section 382 stockholder rights plan (the Rights Plan) and it was approved by the Company's stockholders at the annual meeting of stockholders that was held on June 17, 2015. The Rights Plan was adopted to reduce the likelihood of such an unintended ownership change and thus assist in preserving the value of these potential tax benefits. We estimate that as of September 30, 2015, the cumulative shift in ownership of the Company's stock would not cause an impairment of our NOL asset. However, if an ownership change were to occur, the Section 382 limitation would not be expected to materially impact the Company's financial position or results of operations as of September 30, 2015, because of the Company's full valuation allowance on its net deferred tax assets, excluding the NHA Project deferred tax asset described above.

Table of Contents

The Company has not recorded any accruals for tax uncertainties as of September 30, 2015 and 2014. We file U.S. and state and local income tax returns in jurisdictions with varying statutes of limitations. The 2012 through 2014 tax years remain subject to examination by federal and state tax authorities.

8. COMMITMENTS AND CONTINGENCIES***Litigation***

Currently, we are not subject to any material legal proceedings. From time to time, however, we are named as a defendant in legal actions arising from our normal business activities. Although we cannot accurately predict the amount of our liability, if any, that could arise with respect to legal actions pending against us; we do not expect that any such liability will have a material adverse effect on our financial position, operating results and cash flows. We believe that we have obtained adequate insurance coverage, rights to indemnification, or where appropriate, have established reserves in connection with such legal proceedings.

Letters of credit, performance bonds and compensating balances

The Company has commitments as a result of contracts with certain third parties, primarily local governmental authorities, to meet certain performance criteria outlined in such contracts. The Company is required to issue letters of credit and performance bonds to these third parties as a way of ensuring that the commitments entered into are met. These letters of credit and performance bonds issued in favor of the Company and/or its subsidiaries mature on a revolving basis, and if called into default, would be deemed material if assessed against the Company and/or its subsidiaries for the full amounts claimed. In some circumstances, we have negotiated with our lenders in connection with foreclosure agreements for the lender to assume certain liabilities with respect to the letters of credit and performance bonds. We cannot accurately predict the amount of any liability that could be imposed upon the Company with respect to maturing or defaulted letters of credit or performance bonds. At September 30, 2015 and 2014, the Company had \$3.5 million and \$4.8 million in letters of credit, respectively. At September 30, 2015 and 2014, the Company had \$5.0 million and \$4.3 million in outstanding performance and payment bonds, respectively. No amounts have been drawn against the outstanding letters of credit or performance bonds.

We are required to maintain compensating balances in escrow accounts as collateral for certain letters of credit, which are funded upon settlement and release of units. The cash contained within these escrow accounts is subject to withdrawal and usage restrictions. As of September 30, 2015 and December 31, 2014, we had approximately \$0.8 million and \$0.4 million, respectively, in these escrow accounts, which are included in **Restricted cash** in the consolidated balance sheets.

9. RELATED PARTY TRANSACTIONS

The Company leases its corporate headquarters from an affiliate wholly-owned by our Chief Executive Officer. Future minimum lease payments under this lease are as follows:

2015	\$ 81

On March 14, 2013, Stonehenge Funding, LC (Stonehenge), an entity wholly-owned by our Chief Executive Officer, entered into an Extension Agreement of the Amended and Restated Senior Note with the Company to extend the maturity date of the financing arrangement to January 1, 2016. Under the terms of the Extension Agreement, the Company is required to pay \$50 a month to Stonehenge, to be allocated first to accrued and unpaid interest and then to outstanding principal. For the three and nine months ended September 30, 2015 and 2014, the Company made payments of \$150 and \$450, respectively, under this Note.

On October 17, 2014, Comstock Growth Fund (CGF), an administrative entity managed by the Company, entered into a subscription agreement with Comstock Development Services, LC (CDS), an entity wholly-owned by our Chief Executive Officer, pursuant to which CDS purchased membership interests in CGF for a principal amount of \$10 million (the CGF Private Placement). Other Purchasers who purchased interest in the CGF Private Placement included members of the Company's management, board of directors and third party accredited investors for an additional principal amount of \$6.2 million.

Simultaneously, on October 17, 2014, the Company entered into an unsecured promissory note with CGF whereby CGF made a loan to the Company in the initial principal amount of \$10 million and a maximum capacity of up to \$20 million. On December 18, 2014, the loan agreement was amended and restated to provide for a maximum capacity of \$25 million. All of the other terms of the unsecured promissory note remained the same. The Company borrowed additional principal loan amount of \$6.2 million under the Amended and Restated CGF promissory note bringing the total aggregate principal amount borrowed to \$16.2 million. The CGF loan has a three year term carrying a floating interest rate of LIBOR plus 9.75% with a 10% floor. The loan requires an annual principal repayment in the amount of 10% of the average outstanding balance and a monthly interest payment that will be made in arrears. As of September 30, 2015, \$14.1 million was outstanding in principal and accrued interest, net of discounts. For the three and nine months ended September 30, 2015, the Company made interest payments of \$0.3 million and \$1.1 million, respectively.

Additionally, on December 18, 2014, CGF entered into amended and restated subscription agreements with CDS, members of the Company's management, board of directors and third party accredited investors who participated in the CGF Private Placement (the Amended CGF Private Placement). Under the Amended CGF Private Placement, in addition to the warrants described under Note 13 to the accompanying consolidated financial statements, the Company entered into a commitment to grant 226,857 shares of the Company's Class A common stock to purchasers of membership interest of CGF in the Amended CGF Private Placement. On May 12, 2015, the Company issued the 226,857 un-registered shares of its Class A common stock to the purchasers in the Amended CGF Private Placement. The Amended CGF Private Placement was closed for additional investments on May 15, 2015.

During the second quarter of 2014, the Company entered into a Separation Agreement in connection with the departure of Gregory V. Benson, our former Chief Operating Officer and former member of our board. See Note 16 to the consolidated financial statements for a summary of the Separation Agreement.

See Note 11 to the consolidated financial statements for a description of the Comstock VII and Comstock VIII Private Placements and Note 13 to the consolidated financial statements for a description of the CGF Private Placement and the Amended CGF Private Placement.

10. NOTE RECEIVABLE

The Company originated a note receivable to a third party in the amount of \$180 in September 2014. This note has a maturity date of September 2, 2019 and is payable in monthly installments of principal and interest. This note bears a fixed interest rate of 6% per annum. As of September 30, 2015 and December 31, 2014, the outstanding balance of the

note was \$145 and \$173, respectively, and is included within Other assets in the accompanying consolidated balance sheets. The interest income of \$2 and \$7 for the three and nine months ended September 30, 2015, respectively, is included in Other income, net in the consolidated statements of operations. Interest income of \$1 was recorded for the three and nine months ended September 30, 2014.

11. VARIABLE INTEREST ENTITY

Included within the Company's real estate inventories at September 30, 2015 and December 31, 2014 are several projects that are determined to be VIEs. These entities have been established to own and operate real estate property and were deemed VIEs primarily based on the fact that the equity investment at risk is not sufficient to permit the entities to finance their activities without additional financial support. The Company determined that it was the primary beneficiary of these VIEs as a result of its majority voting and complete operational control of the entities.

Table of Contents

On August 23, 2012, the Company formed New Hampshire Ave. Ventures, LLC, a joint venture of its subsidiary, Comstock Ventures XVI, L.C, and 6000 New Hampshire Avenue, LLC, for the purpose of acquiring, developing and constructing a 111-unit project (the NHA Project) in Washington, D.C. The Company evaluated the joint venture and determined that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support. The Company determined that it was the primary beneficiary of the VIE as a result of its complete operational control of the activities that most significantly impact the economic performance and obligation to absorb losses, or receive benefits. The Company contributed its ownership interest in Comstock Ventures XVI, L.C. to Comstock Investors VII, L.C. (Comstock VII) on March 13, 2013. During the nine months ended September 30, 2015 and 2014, New Hampshire Ave. Ventures, LLC distributed \$1.1 million and \$3.1 million, respectively to its non-controlling interest member, 6000 New Hampshire Avenue, LLC.

On September 27, 2012, the Company formed Comstock Eastgate, L.C., a joint venture of the Company and BridgeCom Development II, LLC, for the purpose of acquiring, developing and constructing 66 condominium units in Loudoun County, Virginia. The Company evaluated the joint venture and determined that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support. The Company determined that it was the primary beneficiary as a result of its complete operational control of the activities that most significantly impact the economic performance and obligation to absorb losses, or receive benefits. During the nine months ended September 30, 2015 and 2014, Comstock Eastgate, L.C. distributed \$50 and \$1.9 million, respectively to its non-controlling interest member, BridgeCom Development II, LLC. The Company exited the Eastgate project in the second quarter of 2014 after closing on all 66 units.

On March 14, 2013, Comstock VII entered into subscription agreements with certain accredited investors (Comstock VII Class B Members), pursuant to which the Comstock VII Class B Members purchased membership interests in Comstock VII for an aggregate amount of \$7.3 million (the Comstock VII Private Placement). The Comstock VII Private Placement was exempt from registration under Section 4(a)(2) of the Securities Act of 1933, as amended (the Securities Act) and Rule 506 of Regulation D promulgated under the Securities Act. In connection with the Comstock VII Private Placement, the Company issued 112 warrants for the purchase of shares of the Company's Class A common stock to the non-affiliated accredited investors, having an aggregate fair value of \$146. Comstock VII Class B Members included unrelated third-party accredited investors along with members of the Company's board of directors and the Chief Financial Officer, the General Counsel and the former Chief Operating Officer, of the Company. The Subscription Agreement provides that the Comstock VII Class B Members are entitled to a cumulative, preferred return of 20% per annum, compounded annually on their capital account balances. After six months from the issuance date, the Company has the right to repurchase the interests of the Comstock VII Class B Members, provided that (i) all of the Comstock VII Class B Members' interests are acquired, (ii) the purchase is made in cash and (iii) the purchase price equals the Comstock VII Class B Members' capital account plus an amount necessary to cause the preferred return to equal a cumulative cash on cash return equal to 20% per annum. The Comstock VII Private Placement provided capital related to the current and planned construction of the Company's following projects: Townes at Shady Grove Metro in Rockville, Maryland consisting of 36 townhomes, Momentum I Shady Grove consisting of 117 condominium units, City Homes at the Hampshires in Washington D.C. consisting of 38 single family residences, Townes at the Hampshires in Washington, D.C. consisting of 73 townhomes, Single Family Homes at the Falls Grove project in Prince William County, Virginia consisting of 19 single family homes and Townes at the Falls Grove project in Prince William County, Virginia consisting of 110 townhomes (collectively, the Projects). Proceeds of the Comstock VII Private Placement were utilized (A) to provide capital needed to complete the Projects in conjunction with project financing for the Projects, (B) to reimburse the Company for prior expenditures incurred on behalf of the Projects, and (C) for general corporate purposes of the Company. The Company evaluated Comstock VII and determined that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support and the Company was the primary beneficiary as a result of its complete operational control of the activities that most significantly impact the economic performance and its obligation to

absorb losses, or receive benefits. Accordingly, the Company consolidates this entity. During the nine months ended September 30, 2014, the Company paid distributions in the amount of \$3.2 million, to its non-controlling interest member, Comstock VII Class B Members. In October 2014, the Company fully redeemed the equity interest of the Comstock VII Class B Members.

In December 2013, Comstock Investors VIII, L.C. (Comstock VIII) entered into subscription agreements with certain accredited investors (Comstock VIII Class B Members), pursuant to which Comstock VIII Class B Members purchased membership interests in Comstock VIII for an aggregate amount of \$4.0 million (the Comstock VIII Private Placement). The Comstock VIII Private Placement was exempt from registration under Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated under the Securities Act. In connection with the Comstock VIII Private Placement, the Company issued 102 warrants for the purchase of shares of the Company's Class A common stock to the non-affiliated accredited investors, having an aggregate fair value of \$131. Comstock VIII Class B Members included unrelated third-party accredited investors along with members of the Company's board of directors and the Company's Chief Financial Officer and the Company's former Chief Operating Officer. The Comstock VIII Class B Members are entitled to a cumulative, preferred return of 20% per annum, compounded annually on their capital account balances. The Company has the right to repurchase the interests of the Comstock VIII Class B Members at any time, provided that (i) all of the Comstock VIII Class B Members' interests are acquired, (ii) the purchase is made in cash and (iii) the purchase price equals the Comstock VIII Class B Members' capital accounts plus an amount necessary to cause the preferred return to equal a cumulative cash on cash return equal to 20% per annum. The proceeds from the Comstock VIII Private Placement are being used for the current and planned construction of the following projects: The Townes at HallCrest in Sterling, Virginia consisting of 42 townhome units, and Townes at Maxwell Square Condominium in Frederick, Maryland consisting of 45 townhome condominium units (collectively, the Investor VIII Projects). Proceeds of the Comstock VIII Private Placement are being utilized (A) to provide capital needed to complete the Investor VIII Projects in conjunction with project financing for the Investor VIII Projects, (B) to reimburse the Company for prior expenditures incurred on behalf of the Investor VIII Projects, and (C) for general corporate purposes of the Company. The Company evaluated Comstock VIII and determined that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support and the Company was the primary beneficiary as a result of its complete operational control of the activities that most significantly impact the economic performance and its obligation to absorb losses, or receive benefits. Accordingly, the Company consolidates this entity. No distributions were paid to the Comstock VIII Class B Members during the nine months ended September 30, 2015 and 2014.

In June 2015, Comstock Investors IX, L.C. (Comstock IX) entered into subscription agreements with third-party accredited investors (Comstock IX Class B Members), pursuant to which Comstock IX Class B Members purchased membership interests in Comstock IX for an aggregate amount of \$2.5 million (the Comstock IX Private Placement). The Comstock IX Private Placement was exempt from registration under Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated under the Securities Act. The Comstock IX Class B Members are entitled to a cumulative, preferred return of 20% per annum, compounded annually on their capital account balances. The Company has the right to repurchase the interests of the Comstock IX Class B Members at any time, provided that (i) all of the Comstock IX Class B Members interests are acquired, (ii) the purchase is made in cash and (iii) the purchase price equals the Comstock IX Class B Members capital accounts plus any amount necessary to cause the preferred return to equal a cumulative cash on cash return equal to 20% per annum. The proceeds from the Comstock IX Private Placement are being utilized (A) for the current and planned construction of the Stone Ridge project of 35 single family homes in Loudoun County Virginia; (B) to reimburse the Company for prior expenditures incurred on behalf of the Stone Ridge project; and (C) for general corporate purposes of the Company. The Company evaluated Comstock IX and determined that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support and the Company was the primary beneficiary as a result of its complete operational control of the activities that most significantly impact the economic performance and its obligation to absorb losses or receive benefits. Accordingly, the Company consolidates this entity. No distributions have been paid to the Comstock IX Class B Members through September 30, 2015.

The distributions to and contributions from the VIEs discussed above are included within the non-controlling interest in the consolidated statement of changes in stockholder s equity for the periods presented.

At September 30, 2015 and December 31, 2014 total assets of these VIEs were approximately \$24.5 million and \$19.5 million, respectively, and total liabilities were approximately \$16.1 million and \$13.5 million, respectively. The classification of these assets is primarily within Real estate inventories and the classification of liabilities are primarily within Accounts payable and accrued liabilities and Notes payable secured by real estate inventories in the accompanying consolidated balance sheets.

12. UNCONSOLIDATED JOINT VENTURE

The Company accounts for its interest in its title insurance joint venture using the equity method of accounting and periodically adjusts the carrying value for its proportionate share of earnings, losses and distributions. The carrying value of the investment is included within Other assets in the accompanying consolidated balance sheets and our proportionate share of the earnings from the investment are included in Other income, net in the accompanying consolidated statement of operations for the period presented. Our share of the earnings for the three and nine months ended September 30, 2015, are \$23 and \$77, respectively. During the nine months ended September 30, 2015, the Company collected total distributions of \$67 as a return on investment. During the three and nine months ended September 30, 2014, our share of the earnings from this joint venture was \$89 and \$126, respectively. During the nine months ended September 30, 2014, the Company collected total distributions of \$91 as a return on investment.

Total	\$ 46,926

As of September 30, 2015, the Company had \$9.7 million of its credit facilities and project related loans scheduled to mature during the remainder of 2015. On October 15, 2015, subsequent to quarter end, the Company paid off the mezzanine note obtained to acquire the land for the development of the NHA Project, which had an outstanding balance of \$0.3 million. Due to the fact that certain of our credit facilities mature at the end of the current fiscal year and various periods in 2016, we are in active discussions with our lenders and are seeking long term extensions and modifications to the loans. No assurances can be made that we will be successful in these efforts.

Construction, development and mezzanine debt secured

The Company enters into secured acquisition and development loan agreements from time to time to purchase and develop land parcels. In addition, the Company enters into secured construction loan agreements for the construction of its real estate inventories. The loans are repaid with proceeds from home closings based upon a specific release price, as defined in each respective loan agreement.

Table of Contents

As of September 30, 2015 and December 31, 2014, the Company had secured construction revolving credit facilities with a maximum loan commitment of \$39.7 million and \$33.4 million, respectively. The Company may borrow under these facilities to fund its home building activities. The amount the Company may borrow is subject to applicable borrowing base provisions and the number of units under construction, which may also limit the amount available or outstanding under the facilities. The facilities are secured by deeds of trust on the real property and improvements thereon, and the borrowings are repaid with the net proceeds from the closings of homes sold, subject to a minimum release price. As of September 30, 2015 and December 31, 2014, the Company had approximately \$31.5 million and \$26.9 million, respectively, of unused loan commitments. Interest rates charged under these facilities include the London Interbank Offered Rate (LIBOR) and prime rate pricing options, subject to minimum interest rate floors. At September 30, 2015 and December 31, 2014, the weighted average interest rate on the Company's outstanding construction revolving facility was 5.0% and 5.1% per annum, respectively. The Company had \$8.3 million and \$6.5 million of outstanding construction borrowings as of September 30, 2015 and December 31, 2014, respectively. The construction credit facilities have maturity dates ranging from December 2015 to March 2018, including extensions subject to the Company meeting certain conditions.

As of September 30, 2015 and December 31, 2014, the Company had approximately \$37.8 million and \$28.0 million, respectively, of aggregate acquisition and development maximum loan commitments of which \$14.1 million and \$13.7 million, respectively, were outstanding. These loans have maturity dates ranging from December 2015 to March 2018, including extensions subject to the Company meeting certain conditions, and bear interest at a rate based on LIBOR and prime rate pricing options, with interest rate floors ranging from 4.25% to 5.75% per annum. As of September 30, 2015 and December 31, 2014, the weighted average interest rates were 4.7% and 4.8% per annum, respectively.

The Company has three secured mezzanine loans. The first mezzanine loan has an outstanding balance of \$0.3 million and \$3.0 million at September 30, 2015 and December 31, 2014, respectively. This mezzanine financing was utilized to acquire land for the development of the City Homes at the Hampshires and the Townes at the Hampshires projects and is secured by the second deed of trust. This first mezzanine loan bears a fixed interest rate of 13.5% per annum paid on a monthly basis. On October 15, 2015, subsequent to the quarter end, the Company paid off the first mezzanine note.

The second and third mezzanine loans are being used to finance the development of the Townes at Shady Grove Metro and Momentum | Shady Grove projects. The maximum principal commitment amount of these loans was \$3.2 million at September 30, 2015 and December 31, 2014, of which \$1.5 million and \$2.8 million of principal and accrued interest was outstanding as of September 30, 2015 and December 31, 2014, respectively. These financings carry an annual interest rate of 12% of which 6% is paid on a monthly basis with the remaining 6% being accrued and paid at maturity. These financings have a maturity date of December 31, 2015 and are guaranteed by the Company and our Chief Executive Officer.

Line of credit secured

The Company has a secured revolving line of credit with a maximum capacity of \$4.0 million. This line of credit is secured by the first priority security interest in the Company's wholly owned subsidiaries in the Washington D.C., metropolitan area and guaranteed by our Chief Executive Officer. The Company uses this line to finance the predevelopment related expenses and deposits for current and future projects and bears a variable interest rate tied to a one-month LIBOR plus 3.25% per annum, with an interest rate floor of 5.0%. This line of credit calls for the Company to adhere to financial covenants, as defined in the loan agreement such as, minimum net worth and minimum liquidity, measured quarterly and minimum EBITDA measured on a twelve month basis and matures on January 31, 2016. The Company did not meet the minimum liquidity covenant for the three months ended September

30, 2015. Therefore, on October 27, 2015, subsequent to the quarter end, we obtained a waiver from the financial institution. The Company was in compliance with the minimum net worth covenant as dictated by the line of credit agreement for the three months ended September 30, 2015. As of September 30, 2015 and December 31, 2014, \$3.1 million and \$2.2 million was outstanding under the line of credit.

Unsecured note

As of September 30, 2015 and December 31, 2014, the Company had balances of \$1.7 million and \$2.1 million, respectively, outstanding to a bank under a 10-year unsecured note. Interest is charged on this financing on an annual basis at LIBOR plus 2.2%. As of September 30, 2015 and December 31, 2014, the interest rate was 2.4% per annum. The maturity date of this financing is December 28, 2018. The Company is required to make monthly principal and interest payments through maturity.

Notes payable to affiliate unsecured

On March 14, 2013, the Company and Stonehenge entered into an agreement to extend the maturity date of the loan from July 20, 2013 to January 1, 2016. Under the terms of the Extension Agreement, the Company is required to pay \$50 monthly to Stonehenge, to be allocated first to accrued and unpaid interest and then to outstanding principal. Interest is charged to the loan based on LIBOR plus 3% per annum. As of September 30, 2015 and December 31, 2014, the interest rate was 3.7% and 3.6% per annum, respectively. The Company had approximately \$3.9 million and \$4.2 million of outstanding borrowings as of September 30, 2015 and December 31, 2014, respectively.

On October 17, 2014, CGF entered into a subscription agreement with Comstock Development Services, LC (CDS), an entity wholly-owned by our Chief Executive Officer, pursuant to which CDS purchased membership interests in CGF for a principal amount of \$10 million (the CGF Private Placement). Other purchasers who purchased interest in the CGF Private Placement include members of the Company s management and board of directors and third party accredited investors for an additional principal amount of \$6.2 million. Purchasers other than CDS who purchased a certain amount of interests received warrants that represent the right to purchase an aggregate amount of shares of the Company s Class A common stock, depending upon the investment amount. As of September 30, 2015, we issued 76,285 warrants representing the right to purchase shares of the Company s Class A common stock to CGF having an aggregate fair value of \$433 that was treated as a debt discount. In calculating the fair value of the warrants, the Company used the Black-Scholes pricing model based upon the date the funds were contributed to CGF. The Company amortizes the debt discount over the three year term of the loan to interest expense.

Simultaneously, on October 17, 2014, the Company entered into an unsecured promissory note with CGF whereby CGF made a loan to the Company in the initial principal amount of \$10 million and a maximum amount available for borrowing of up to \$20 million. On December 18, 2014, the Company entered into an amended and restated unsecured promissory note pursuant to which the maximum amount for borrowing was increased from \$20 million to \$25 million. All other terms of the unsecured promissory note remained the same. The Company borrowed additional principal loan amount of \$6.2 million under the amended and restated CGF promissory note bringing the total aggregate principal amount borrowed to \$16.2 million. The CGF loan has a three year term carrying a floating interest rate of LIBOR plus 9.75% with a 10% floor. The loan requires an annual principal repayment in the amount of 10% of the average outstanding balance and a monthly interest payment that will be made in arrears. The loan will be used by the Company (i) to finance the Company s current and future development pipeline, (ii) to repay all or a portion of the Company s prior private placements, (iii) to repay all or a portion of the Company s project mezzanine loans, and (iv) for general corporate purposes. The Company is the administrative manager of CGF but does not own any membership interests in CGF. The Company had approximately \$14.1 million and \$11.3 million of outstanding borrowings under the CGF loan, net of discounts, as of September 30, 2015 and December 31, 2014, respectively. For the three and nine months ended September 30, 2015, the Company made interest payments under the CGF loan of \$0.3 million and \$1.1 million, respectively. As of September 30, 2015 and December 31, 2014, the interest rate of the CGF loan was 10.0% per annum.

Additionally, on December 18, 2014, CGF entered into amended and restated subscription agreements with CDS, members of the Company s management and board of directors and third party accredited investors who participated in the CGF Private Placement (the Amended CGF Private Placement). Under the Amended CGF Private Placement, in addition to the warrants described above, the Company entered into a commitment to issue 226,857 shares of the Company s Class A common stock to purchasers of membership interests of CGF in the Amended CGF Private Placement.

On May 12, 2015, the Company issued an aggregate 226,857 un-registered shares of its Class A common stock to the purchasers in the Amended CGF Private Placement. Upon issuance of these shares, the derivative liability was satisfied, and was no longer an obligation, and therefore the value of the shares were recorded within Stockholders equity as an increase to Class A common stock and Additional paid-in capital within the consolidated balance sheets based on the fair value the stock on the date of issuance. The resulting change in fair value was recorded as a gain on derivative and is included within Other income on the consolidated statement of operations. The shares of Class A common stock were issued pursuant to exemptions from the registration requirements of the Securities Act provided by Section 4(a)(2) thereof and Rule 506 promulgated thereunder.

14. FAIR VALUE DISCLOSURES

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities are reasonable estimates of their fair values based on their short maturities. Non-financial assets and liabilities include items such as real estate inventories and long lived assets that are measured at fair value when acquired and on a non-recurring basis thereafter. Such fair value measurements use significant unobservable inputs and are classified as Level 3. The fair value of fixed and floating rate debt is based on unobservable market rates (Level 3 inputs). The following table summarizes the carrying amount and the corresponding fair value of fixed and floating rate debt:

	September 30, 2015	December 31, 2014
Carrying amount	\$ 46,926	\$ 45,931
Fair value	\$ 47,057	\$ 44,854

Fair value estimates are made at a specific point in time, based on relevant market information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

In 2014, we wrote-off \$2.7 million in land and land development costs related to the Momentum | Shady Grove project. The write-off occurred in December 2014 due to a revision in our previous disposition strategy. The impairment charge was calculated using a discounted cash flow analysis model, which is dependent upon several subjective factors, including the selection of an appropriate discount rate, estimated average sales price and estimated sales rates. In performing our impairment modeling, we must select what we believe is an appropriate discount rate based on current market cost of capital and return expectations.

Table of Contents**15. RESTRICTED STOCK, STOCK OPTIONS AND OTHER STOCK PLANS**

During the nine months ended September 30, 2015 and 2014, the Company did not issue any stock options or restricted stock awards.

Stock-based compensation cost associated with restricted stock and stock options was recognized based on the fair value of the instruments over the instruments' vesting period. The following table reflects the consolidated balance sheets and statements of operations line items for stock-based compensation cost for the periods presented:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Real estate inventories - Assets	\$ 8	\$ 3	\$ 25	\$ 19
General and administrative - Expenses	58	99	193	195
	\$ 66	\$ 102	\$ 218	\$ 214

Under net settlement procedures currently applicable to our outstanding restricted stock awards for employees, upon each settlement date and election by the employees, restricted stock awards are withheld to cover the required withholding tax, which is based on the value of the restricted stock award on the settlement date as determined by the closing price of our Class A common stock on the trading day immediately preceding the applicable settlement date. The remaining amounts are delivered to the recipient as shares of our Class A common stock.

As of September 30, 2015, the weighted-average remaining contractual term of unexercised stock options was 6.2 years. As of September 30, 2015 and December 31, 2014, there was \$0.3 million and \$0.5 million, respectively, of unrecognized compensation cost related to stock grants.

16. SEVERANCE AND RESTRUCTURING

In connection with the departure of Gregory V. Benson, our former Chief Operating Officer in May 2014, the Company entered into a Separation Agreement with Mr. Benson on June 24, 2014. Mr. Benson served on our board until his term expired at our 2015 annual meeting of stockholders. The Separation Agreement provides for cash severance payment and incremental healthcare insurance through COBRA. In the second quarter of 2014, the Company recorded severance cost of \$597, to be paid in 36 semi-monthly installments and healthcare cost of \$14 to be paid over 12 months effective May 1, 2014 offset by \$131 in forfeitures of stock options and restricted stock awards. The severance charge in 2014 was included in General and administrative expenses in the consolidated statements of operations. There were no severance or restructuring charges in 2015. The remaining balance of \$33 as of September 30, 2015 is included in the Accounts payable and accrued liabilities in the accompanying consolidated balance sheets.

In addition, per the Separation Agreement, the Company had a call option, but not an obligation, to purchase all or a portion of Mr. Benson's shares of Class A and Class B common stock of the Company at \$1.09 per share by June 30, 2015. The Agreement expired on June 30, 2015 and neither the Company nor any of its designees exercised any portion of the option under the Separation Agreement.

17. SUBSEQUENT EVENTS

On October 7, 2015, the Company received a letter from Nasdaq indicating that the Company had regained compliance with the stockholders' equity requirement in Listing Rule 5550(b)(1) and that this matter is now closed. On October 12, 2015, the Company received a letter from Nasdaq indicating that the Company had regained compliance with the minimum bid price requirement of \$1.00 per share, as required by Listing Rule 5550(a)(2) and that this matter is now closed. The Company is now compliant with all required Nasdaq listing requirements.

On October 15, 2015, the Company paid off the mezzanine note related to the NHA Project of \$0.3 million that was outstanding as of September 30, 2015.

On October 23, 2015, the Company announced that Mr. Joseph M. Squeri, Chief Financial Officer, was elected to serve on our Board of Directors for a term effective October 23, 2015 until the 2016 annual meeting of the stockholders. Additionally, Mr. Squeri will be resigning from his current role as Chief Financial Officer, effective November 25, 2015. Consequently, Mr. Christopher L. Conover, the Company's Senior Vice President, Accounting and Finance, has been appointed as the interim Chief Financial Officer and principal financial officer of the Company effective as of November 25, 2015.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
OF OPERATIONS**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report. This discussion and analysis contains forward-looking statements that involve risks and uncertainties. Please see

Cautionary Notes Regarding Forward-looking Statements for more information. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors including, but not limited to, those discussed below and elsewhere in this report, particularly under the headings Cautionary Notes Regarding Forward-looking Statements. References to dollar amounts are in thousands except per share data, or as otherwise noted.

Cautionary Notes Regarding Forward-looking Statements

This report includes forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by the use of words such as anticipate, believe, estimate, may, likely, intend, expect, will, should, seeks or other similar terms. Forward-looking statements are based largely on our expectations and involve inherent risks and uncertainties, many of which are beyond our control. You should not place undue reliance on any forward-looking statement, which speaks only as of the date made. Some factors which may affect the accuracy of the forward-looking statements apply generally to the real estate industry, while other factors apply directly to us. Any number of important factors could cause actual results to differ materially from those in the forward-looking statements including, without limitation: general economic and market conditions, including interest rate levels; our ability to service our debt; inherent risks in investment in real estate; our ability to compete in the markets in which we operate; economic risks in the markets in which we operate, including actions related to government spending; delays in governmental approvals and/or land development activity at our projects; regulatory actions; our ability to maintain compliance with stock market listing rules and standards; fluctuations in operating results; our anticipated growth strategies; shortages and increased costs of labor or building materials; the availability and cost of land in desirable areas; natural disasters; our ability to raise debt and equity capital and grow our operations on a profitable basis; and our continuing relationships with affiliates. Additional information concerning these and other important risk and uncertainties can be found under the heading

Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. Our actual results could differ materially from those projected or suggested by the forward-looking statements. The Company undertakes no obligation to update publicly or revise any forward-looking statements in light of new information or future events, except as required by law.

Overview

We are a multi-faceted real estate development and services company. We have substantial experience with building a diverse range of products including multi-family homes, single-family homes, townhouses, mid-rise condominiums, high-rise multi-family condominiums and mixed-use (residential and commercial) developments. We operate our business through three segments: Homebuilding, Multi-family and Real Estate Services as further discussed in Note 6

to the consolidated financial statements. We are currently focused in the Washington, D.C. metropolitan area, which is the seventh largest metropolitan statistical area in the United States.

Revenue homebuilding

At September 30, 2015, we had a total of 59 units in backlog to generate future revenue of \$29.2 million as compared to \$15.9 million from 31 units at September 30, 2014. Gross new order revenue, consisting of revenue from all units sold, for the three months ended September 30, 2015 was \$20.3 million on 43 units as compared to \$11.2 million on 22 units for the three months ended September 30, 2014. Gross new order revenue for the nine months ended September 30, 2015 was \$55.3 million on 114 units as compared to \$47.8 million on 100 units for the nine months ended September 30, 2014. Net new order revenue, representing revenue for all units sold less revenue from cancellations, for the three months ended September 30, 2015 was \$18.9 million on 40 units as compared to \$9.2 million on 18 units for the three months ended September 30, 2014. Net new order revenue for the nine months ended September 30, 2015 was \$50.8 million on 105 units as compared to \$41.3 million on 85 units for the nine months ended September 30, 2014.

Revenue from homebuilding decreased by \$3.5 million to \$34.2 million for the nine months ended September 30, 2015 as compared to \$37.7 million for the nine months ended September 30, 2014. Average revenue per home settled increased by approximately \$28 to \$488 for the nine months ended September 30, 2015 as compared to \$460 for the nine months ended September 30, 2014. For the nine months ended September 30, 2015, the Company settled 70 units (14 units at The Hampshires, 22 units at Falls Grove, 16 units at Maxwell Square, 14 units at Shady Grove and 4 units at Hallcrest), as compared to 82 units (13 units at Eastgate, 29 units at The Hampshires, 29 units at Falls Grove, 2 units at Maxwell Square and 9 units at Shady Grove) for the nine months ended September 30, 2014. Revenue from homebuilding decreased by \$6.2 million to \$12.0 million for the three months ended September 30, 2015 as compared to \$18.2 million for the same period in the prior year. The decreases noted in homebuilding revenue resulted from the

number and mix of units settled during the quarter. Average revenue per home settled decreased by approximately \$19 to \$502 for the three months ended September 30, 2015 as compared to \$521 for the three months ended September 30, 2014. For the three months ended September 30, 2015, the Company settled 24 units (4 units at The Hampshires, 6 units at Falls Grove, 7 units at Maxwell Square, 4 units at Shady Grove, and 3 units at Hallcrest), as compared to 35 units (14 units at The Hampshires, 10 units at Falls Grove, 2 units at Maxwell Square and 9 units at Shady Grove) for the three months ended September 30, 2014. Our homebuilding gross margin percentage for the three months ended September 30, 2015 decreased by 7% to 11%, as compared to 18% for the three months ended September 30, 2014. Our homebuilding gross margin percentage for the nine months ended September 30, 2015 decreased by 7% to 12%, as compared to the 19% for the nine months ended September 30, 2014. The decrease noted in margins was mainly a result of the number and mix of units settled and two new projects that started settling in the prior quarter.

Table of Contents

Revenue other

Revenue other increased approximately \$0.1 million to \$0.2 million during the three months ended September 30, 2015, as compared to \$0.1 million for the three months ended September 30, 2014. Revenue other increased approximately \$0.6 million to \$1.0 million during the nine months ended September 30, 2015, as compared to \$0.4 million for the nine months ended September 30, 2014. The increase primarily relates to revenue from real estate services as the Company continues to gain traction in the market for advisory and other real estate related service.

Cost of sales homebuilding

Cost of sales homebuilding for the three months ended September 30, 2015 decreased by \$4.3 million to \$10.7 million, as compared to \$15.0 million for the three months ended September 30, 2014. Cost of sales homebuilding for the nine months ended September 30, 2015 decreased by \$0.8 million to \$29.9 million, as compared to \$30.7 million for the nine months ended September 30, 2014. The unit mix and number of units settled during the periods presented accounted for the decrease in the aggregate cost of sales.

Cost of sales other

Cost of sales other increased by \$0.2 million to \$0.5 million during the nine months ended September 30, 2015, as compared to \$0.3 million for the nine months ended September 30, 2014. The increase primarily relates to our real estate services activities and is in line with the increase in Revenue - other.

Sales and marketing

Sales and marketing expenses for the three months ended September 30, 2015 decreased by \$0.1 million to \$0.5 million, as compared to \$0.6 million for the three months ended September 30, 2014. Sales and marketing expenses for the nine months ended September 30, 2015 decreased by \$0.3 million to \$1.4 million, as compared to \$1.7 million for the nine months ended September 30, 2014. The decrease in sales and marketing expenses over the same period in the prior year is directly attributable to the Company's more focused sales and marketing efforts in active real estate developments.

General and administrative

General and administrative expenses for the three months ended September 30, 2015 increased by \$0.3 million to \$1.9 million, as compared to \$1.6 million for the three months ended September 30, 2014. General and administrative expenses for the nine months ended September 30, 2015 decreased by \$0.1 million to \$5.7 million, as compared to \$5.8 million for the nine months ended September 30, 2014. The increase for the three months ended September 30, 2015 is attributable to various general and administrative line items including stock related fees for the reverse stock split and payroll related costs due to an increase in employee head count.

Income taxes

During the three months ended September 30, 2015, the Company recognized income tax expense of \$36. During the nine months ended September 30, 2015, the Company recorded an out of period adjustment to reverse the valuation allowance, resulting in the recognition of a deferred tax benefit of \$121, offset by income tax expense of \$144, both related to the New Hampshire Avenue project in Washington, D.C. The effective tax rate for the three and nine month periods ended September 30, 2015 was 3% and 1%, respectively.

Recent Developments

See the *Recent developments* section in Note 1 to the accompanying consolidated financial statements included in this Quarterly Report on Form 10-Q.

Liquidity and Capital Resources

The Company is involved in ongoing discussions with lenders and equity sources in an effort to provide additional growth capital to fund various new business opportunities. We require capital to operate, to post deposits on new deals, to purchase and develop land, to construct homes, to fund related carrying costs and overhead and to fund various advertising and marketing programs to generate sales. These expenditures include payroll, community engineering, entitlement, architecture, advertising, utilities and interest as well as the construction costs of our homes. Our sources of capital include, and should continue to include, private equity and debt placements (which has included significant participation from Company insiders), funds derived from various secured and unsecured borrowings to finance acquisition, development and construction on acquired land, cash flow from operations, which includes the sale and delivery of constructed homes, finished and raw building lots and the potential sale of public debt and equity securities.

Table of Contents

We have outstanding borrowings with various financial institutions and other lenders that have been used to finance the acquisition, development and construction of real estate projects. The Company has generally financed its development and construction activities on a single or multiple project basis so it is not uncommon for each project or collection of projects the Company develops and builds to have a separate credit facility. Accordingly, the Company typically has had numerous credit facilities and lenders. As of September 30, 2015, the Company had \$9.7 million of its credit facilities and project related loans scheduled to mature during the remainder of 2015. On October 15, 2015, subsequent to quarter end, the Company paid off the mezzanine note obtained to acquire the land for the development of the New Hampshire Avenue project, which had an outstanding balance of \$0.3 million at September 30, 2015. In addition, certain of the Company's credit facilities and project related loans are guaranteed by our Chief Executive Officer.

We are in active discussions with our lenders and are seeking long term extensions and modifications to the loans. Based on the current performance of the projects and our early discussions with our lenders we believe that we will likely be successful in extending or modifying these loans, though no assurances can be made that we will be successful in these efforts. We are anticipating that with successful resolution of those discussions with our lenders, the expected proceeds from the aforementioned private placements, current available cash on hand and additional cash from settlement proceeds at existing and under development communities, the Company should have sufficient financial resources to sustain its operations through the next twelve months, though no assurances can be made that the Company will be successful in its efforts. The Company will also focus on its cost structure in an effort to conserve cash and manage expenses. Such actions may include cost reductions and/or deferral arrangements with respect to current operating expenses. At the scheduled maturity of our credit facilities or in the event of an acceleration of a debt facility following an event of default, the entire outstanding principal amount of the indebtedness under the facility, together with all other amounts payable thereunder from time to time, will become due and payable. It is possible that we may not have sufficient funds to pay such obligations in full at maturity or upon such acceleration. If we default and are not able to pay any such obligations when they become due, our lenders have liens on substantially all of our assets and could foreclose on our assets in order to satisfy our obligations.

See Note 11 and Note 13 to the accompanying consolidated financial statements for details on private placement offerings and for more details on our credit facilities, respectively.

Cash Flow

Net cash used in operating activities was \$7.4 million for the nine months ended September 30, 2015 compared to the net cash provided from operating activities of \$0.8 million for the nine months ended September 30, 2014. The change is primarily attributable to the significant cash out flow for real estate inventories as the Company positions itself for growth in the current year and beyond by investing in new projects, including the \$6.0 million investment in the Estates at Stone Ridge, a 35 unit single family development in Loudoun County, Virginia and increasing its developmental activities in existing projects.

Net cash provided by financing activities was \$2.2 million for the nine months ended September 30, 2015. This was primarily attributable to the \$2.5 million in proceeds received by the Company from the sale of membership interests in Comstock Investors IX. Net cash used in financing activities was \$7.1 million for the nine months ended September 30, 2014, primarily attributable to the distributions made to non-controlling interest members including preferred returns.

Seasonality

Historically, the homebuilding industry experiences seasonal fluctuations in quarterly operating results and capital requirements. We typically experience the highest new home order activity in the Spring and Summer, although this activity is also highly dependent on the number of active selling communities, the timing of new community openings and other market factors. Because it typically takes four to six months to construct a new home, we deliver more homes in the second half of the year as Spring and Summer home orders convert to home deliveries. Because of this seasonality, home starts, construction costs and related cash outflows have historically been highest in the second and third quarters, and the majority of cash receipts from home deliveries occur during the second half of the year. We expect this seasonal pattern to continue over the long-term, although it may be affected by volatility in the homebuilding industry and the general economy.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have evaluated, with the participation of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of September 30, 2015. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of September 30, 2015.

Limitations on the Effectiveness of Controls

We do not expect that our disclosure controls and internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

Changes in Internal Control

No changes have occurred in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended September 30, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
