Cautionary Statement Regarding Forward-Looking Statements

This prospectus supplement includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, forward-looking statements. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms believes, estimates, anticipates, expects, seeks, projects, plans, may, will or should or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this prospectus supplement and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those described in the *Risk Factors* section of this prospectus supplement. Those factors should not be construed as exhaustive and should be read with the other cautionary statements in this prospectus supplement.

Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and the development of the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this prospectus

supplement. In addition, even if our results of operations, financial condition and liquidity, and

the development of the industry in which we operate are consistent with the forward-looking statements contained in this prospectus supplement, those results or developments may not be indicative of results or developments in subsequent periods. Some of the key factors that could cause actual results to differ from our expectations are:

the level of supply of and demand for oil and natural gas;

fluctuations in the current and future prices of oil and natural gas;

the cyclical nature of the oil and gas industry;

the level of exploration, drilling and completion activity;

the financial health of our customers;

the availability of attractive oil and natural gas field prospects, which may be affected by governmental actions or actions of other parties which may restrict drilling;

the level of offshore oil and natural gas developmental activities;

general global economic conditions;

the ability of the Organization of Petroleum Exporting Countries to set and maintain production levels and pricing;

global weather conditions and natural disasters;

changes in tax laws and regulations;

impact of environmental matters, including future environmental regulations;

our ability to find and retain skilled personnel;

negative outcome of litigation, threatened litigation or government proceeding;

fluctuations in currency exchange rates;

the availability and cost of capital;

our ability to complete and integrate acquisitions of businesses, including the ability to retain GEODynamics (as defined below) customers and employees, to successfully integrate GEODynamics operations, product lines, technology and employees into our operations, and to achieve the expected accretion in earnings; and

the other factors identified in *Part I, Item 1A. Risk Factors* in our Annual Report filed on Form 10-K for the year ended December 31, 2017.

Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements that we make in this prospectus supplement speak only as of the date of those statements, and, except as required by law, we undertake no obligation to update those statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

PROSPECTUS SUPPLEMENT SUMMARY

*This summary highlights information contained elsewhere in or incorporated by reference into this prospectus supplement and the accompanying base prospectus. It does not contain all of the information that you should consider before making an investment decision. You should read this entire prospectus supplement, the accompanying base prospectus and the documents incorporated herein by reference for a more complete understanding of this offering of shares of our common stock. Please read *Risk Factors* beginning on page S-4 of this prospectus supplement and on page 3 of the accompanying base prospectus for information regarding risks you should consider before investing in shares of our common stock.*

In this prospectus supplement, we refer to Oil States International, Inc., together with its consolidated subsidiaries, as we, us, our, Oil States or the Company.

Oil States International, Inc.

Overview

We, through our subsidiaries, are a global oilfield products and services company serving the drilling, completion, subsea, production and infrastructure sectors of the oil and gas industry. Our manufactured products include highly engineered capital equipment as well as products consumed in the drilling, well construction and production of oil and gas. We are also a leading provider of completion services to the industry. Through our recent acquisition of GEODynamics, Inc. (*GEODynamics*), we are a leading researcher, developer and manufacturer of engineered solutions to connect the wellbore with the formation in oil and gas well completions. Oil States is headquartered in Houston, Texas with manufacturing and service facilities strategically located across the globe. Our customers include many national oil and natural gas companies, major and independent oil and natural gas companies, onshore and offshore drilling companies and other oilfield service companies. Prior to our acquisition of GEODynamics in January 2018, we operated through two business segments *Offshore/Manufactured Products* and *Well Site Services* and have established a leadership position in certain of our product or service offerings in each segment. The GEODynamics operations will be reported as a separate business segment beginning in the first quarter of 2018 under the name *Downhole Technologies*.

For a discussion of other considerations that could negatively affect us, see *Risk Factors* beginning on page S-4 and those incorporated by reference into this prospectus supplement and the accompanying base prospectus from the filings we make with the SEC, as well as *Cautionary Note Regarding Forward-Looking Statements*.

Recent Developments

GEODynamics Acquisition

On January 12, 2018, we acquired 100% of the equity interests in GEODynamics from HCperf Holdings B.V. (formerly known as GEODynamics B.V.), which is owned by funds managed by Lime Rock Partners, members of its management team and other investors (the *GEODynamics Acquisition*) for a purchase price consisting of (i) \$295 million in cash (net of cash acquired), which we funded through borrowings under our Revolving Credit Facility (as defined below), (ii) approximately 8.66 million shares of our common stock (which had a market value of approximately \$295 million as of the closing date) and (iii) an unsecured \$25 million promissory note that bears interest at 2.5% per annum and matures on July 12, 2019 (the *Promissory Note*). For the years ended December 31, 2016 and 2017, GEODynamics generated \$72.1 million and \$166.4 million of revenues, respectively, and \$0.1 million and \$24.4 million of net income, respectively, and had \$109.6 million in total assets as of December 31, 2017.

Issuance of 1.50% Convertible Senior Notes

On January 30, 2018, we sold \$200.0 million aggregate principal amount of our 1.50% convertible senior notes due 2023 (our 2023 Notes) through a private placement to qualified institutional buyers (the 2023 Notes Offering). We received net proceeds from the offering of the 2023 Notes of approximately \$194.0 million, after deducting fees and estimated expenses. We used the net proceeds from the sale of the 2023 Notes to repay a portion of the borrowings outstanding under our revolving credit facility (the Revolving Credit Facility), substantially all of which were drawn to fund the cash portion of the purchase price in the GEODynamics Acquisition.

Amendment to Revolving Credit Facility

On January 30, 2018, we entered into an Amended and Restated Credit Agreement (the Amended Credit Agreement) with Wells Fargo Bank, N.A., as administrative agent for the lenders party thereto and collateral agent for the secured parties thereunder, and the lenders and other the financial institutions from time to time party thereto. The Amended Credit Agreement provides for \$350 million in lender commitments and extends the maturity date of the Revolving Credit Facility to January 30, 2022.

Potential Acquisition

We are currently in active negotiations with respect to a potential acquisition of a business that would be complimentary to one of our existing business lines. We have entered into a letter of intent with the potential sellers, but have not reached agreement on definitive terms. If completed, we expect that the purchase price for the acquisition would be approximately \$85 million, which we would fund with borrowings under our Revolving Credit Facility. We can offer no assurance that we will be successful in consummating this acquisition or its timing or ultimate terms.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following risks, as well as the risks described in our most recent Annual Report on Form 10-K and all of the other information contained in or incorporated by reference into this prospectus supplement and the accompanying base prospectus, before deciding to invest in our common stock. Our business, financial condition and results of operations could be materially and adversely affected by any of these risks. The risks described below and those incorporated by reference into this prospectus supplement and the accompanying base prospectus are not the only ones facing us. Additional risks not presently known to us or which we currently consider immaterial also may adversely affect us.

The price of our common stock in this offering may not be indicative of the market price of our common stock after this offering and is likely to fluctuate in the future as a result of a number of factors.

The market price of our common stock has historically experienced and may continue to experience volatility. For example, during 2017, the market price of our common stock ranged between a low of \$20.23 per share to a high of \$41.25 per share, and as of February 21, 2018, the market price of our common stock was \$26.50 per share. Such fluctuations may continue because of numerous factors, including:

the level of oil and natural gas prices and uncertainty regarding changes in such prices;

uncertainty regarding domestic and worldwide supply of and demand for oil and natural gas and corresponding fluctuations in the price of oil and natural gas;

quarterly fluctuations in our operating results and those of our competitors;

changes in stock market analysts' estimates of our future performance and the future performance of our competitors;

changes in analysts' estimates of future oil, natural gas liquids and natural gas prices;

sales of a high volume of shares of our common stock by our stockholders;

events affecting other companies that the market deems comparable to us;

general conditions in our industry; and

general economic conditions in the United States and other areas.

We do not intend to pay cash dividends on our common stock in the foreseeable future and, therefore, only appreciation of the price of our common stock will provide a return to our stockholders.

We do not anticipate declaring or paying any cash dividends to holders of our common stock in the foreseeable future. We currently intend to retain future earnings, if any, to fund our operations and to develop and grow our business. Our future dividend policy is within the discretion of our board of directors and will depend upon various factors our board of directors deems relevant, including our results of operations, financial condition, capital requirements and investment opportunities. In addition, the Revolving Credit Facility limits our ability to pay cash dividends. As a result, only appreciation of the price of our common stock, which may not occur, will provide a return to our stockholders.

We may issue preferred stock whose terms could adversely affect the voting power or value of our common stock.

Our certificate of incorporation authorizes us to issue, without the approval of our stockholders, one or more classes or series of preferred stock having such designations, preferences, limitations and relative rights, including preferences over our common stock respecting dividends and distributions, as our board of directors may determine. The terms of one or more classes or series of preferred stock could adversely impact the voting power or value of our common stock. For example, we might grant holders of preferred stock the right to elect

Table of Contents

some number of our directors in all events or on the happening of specified events or the right to veto specified transactions. Similarly, the repurchase or redemption rights or liquidation preferences we might assign to holders of preferred stock could affect the residual value of the common stock.

Provisions in our certificate of incorporation and bylaws and Delaware law make it more difficult to effect a change in control of the Company, which could adversely affect the price of our common stock.

The existence of some provisions in our certificate of incorporation and bylaws and Delaware corporate law could delay or prevent a change in control of our company, even if that change would be beneficial to our stockholders. Our certificate of incorporation and bylaws contain provisions that may make acquiring control of our company difficult, including:

provisions regulating the ability of our stockholders to nominate directors for election or to bring matters for action at annual meetings of our stockholders;

limitations on the ability of our stockholders to call a special meeting and act by written consent;

the ability of our board of directors to adopt, amend or repeal our bylaws; and

the authorization given to our board of directors to issue and set the terms of preferred stock without the approval of our stockholders.

These provisions also could discourage proxy contests and make it more difficult for you and other stockholders to elect directors and take other corporate actions. As a result, these provisions could make it more difficult for a third party to acquire us, even if doing so would benefit our stockholders, which may limit the price that investors are willing to pay in the future for shares of our common stock.

The issuance or sale of shares of our common stock, or rights to acquire shares of our common stock, could depress the trading price of our common stock.

We may offer or issue our common stock, preferred stock or other securities that are convertible into or exercisable for our common stock to finance our operations or fund acquisitions, or for other purposes. If we issue additional shares of our common stock or rights to acquire shares of our common stock, if any of our existing stockholders sells a substantial amount of our common stock, or if the market perceives that such issuances or sales may occur, then the trading price of our common stock may significantly decrease.

In connection with the GEODynamics Acquisition, we, among other things, issued approximately 8.66 million shares of our common stock to the GEODynamics B.V. and granted the GEODynamics B.V. registration rights pursuant to a registration rights agreement. On January 19, 2018, we filed a Registration Statement on Form S-3 with the SEC registering the resale of the common stock issued to the selling securityholder. We also agreed under the registration rights agreement to, among other things, (i) facilitate up to two underwritten offerings for the selling securityholder, (ii) facilitate certain block trades for the selling securityholder and (iii) provide certain piggyback registration rights to the selling securityholder. Following this offering, sales by the selling securityholder of shares of our common stock not sold in this offering, if any, may adversely affect the trading price of our common stock. We are unable to predict

the effect that actions by the selling securityholder will have on the price at which our common stock trades.

If securities or industry analysts do not publish research or reports about our business, if they adversely change their recommendations regarding our stock or if our operating results do not meet their expectations, our stock price could decline.

The trading market for our common stock will be influenced by the research and reports that industry or securities analysts publish about us or our business. If one or more of these analysts cease coverage of our company or fail to publish reports on us regularly, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline. Moreover, if one or more of the analysts who cover our company downgrade our stock or if our operating results do not meet their expectations, our stock price could decline.

USE OF PROCEEDS

We will not receive any proceeds from the selling securityholder's sale of shares of our common stock in this offering. DIVIDEND POLICY

We do not anticipate declaring or paying any cash dividends to holders of our common stock in the foreseeable future. We currently intend to retain future earnings, if any, to fund our operations and to develop and grow our business. Our future dividend policy is within the discretion of our board of directors and will depend upon various factors our board of directors deems relevant, including our results of operations, financial condition, capital requirements and investment opportunities. In addition, our Revolving Credit Facility limits our ability to pay cash dividends.

- (1) Does not reflect \$21.2 million of undrawn outstanding letters of credit as of December 31, 2017. As of February 16, 2018, we had \$100.5 million in borrowings outstanding under our Revolving Credit Facility, substantially all of which borrowings were incurred to pay the cash consideration in the GEODynamics Acquisition that was not repaid in connection with our 2023 Notes Offering.
- (2) The amounts shown in the table above for our 2023 Notes represent their principal amount. However, applicable accounting standards require separate accounting for the debt and equity components of convertible notes that, like the 2023 Notes, can be settled partially or fully in cash upon conversion. We expect the initial carrying amount of the debt component of the 2023 Notes, which will be reflected as a liability on our balance sheet, to be the fair value of a similar debt instrument that does not have a conversion feature (that is, the present value of the principal and interest payments on the 2023 Notes, discounted using an interest rate equal to our cost of capital for straight, unconvertible debt), net of issuance costs attributable to the debt component. The excess of the net proceeds of the 2023 Notes over this initial

Table of Contents

liability carrying amount will be deemed to be the equity component of the 2023 Notes. We expect to record the amount of the equity component as an increase to additional paid-in capital in the stockholders' equity section of our balance sheet and as a debt discount on the 2023 Notes for accounting purposes. This debt discount will be amortized into interest expense over the term of the 2023 Notes. As a result of this amortization, the interest expense that we expect to recognize for the 2023 Notes for accounting purposes will be greater than the cash interest payments we will pay on the 2023 Notes, which will result in lower reported net income or larger reported net loss. Future accounting standards may change the manner in which we reflect the 2023 Notes in our financial statements.

- (3) Represents the aggregate principal amount of the Promissory Note issued as partial consideration in connection with the GEODynamics Acquisition.

Table of Contents**SELLING SECURITYHOLDER**

In addition, the nature of any position, office or other material relationship that the selling securityholder has had, within the past three years, with us or with any of our predecessors or affiliates, is indicated in a footnote to the table. We will pay all expenses relating to the registration of the shares by the selling securityholder under the Securities Act and will pay other offering expenses, except that the selling securityholder will pay all underwriting discounts and commissions. We will not receive any proceeds from the sale of our common stock by the selling securityholder.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a summary of the material U.S. federal income tax considerations related to the purchase, ownership and disposition of our common stock by a non-U.S. holder (as defined below), that holds our common stock as a capital asset (generally property held for investment). This summary is based on the provisions of the Internal Revenue Code of 1986, as amended (the Code), U.S. Treasury regulations, administrative rulings and judicial decisions, all as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect. We have not sought any ruling from the Internal Revenue Service (IRS) with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS or a court will agree with such statements and conclusions.

an estate the income of which is subject to U.S. federal income tax regardless of its source; or

a trust (i) the administration of which is subject to the primary supervision of a U.S. court and which has one or more United States persons who have the authority to control all substantial decisions of the trust or (ii) which has made a valid election under applicable U.S. Treasury regulations to be treated as a United States person.

If a partnership (including an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our common stock, the tax treatment of a partner in the partnership generally will depend upon the status of the partner, upon the activities of the partnership and upon certain determinations made at the partner level. Accordingly, we urge partners in partnerships (including entities or arrangements treated as partnerships for U.S. federal income tax purposes) considering the purchase of our common stock to consult their tax advisors regarding the U.S. federal income tax considerations of the purchase, ownership and disposition of our common stock by such partnership.

Distributions

In the event that we make distributions of cash or other property on our common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed our current and accumulated earnings and profits, the distributions will be treated as a non-taxable return of capital to the extent of the non-U.S. holder's tax basis in our common stock and thereafter as capital gain from the sale or exchange of such common stock. See [Gain on Disposition of Common Stock](#). Subject to the withholding requirements under FATCA (as defined below) and with respect to effectively connected dividends, each of which is discussed below, any distribution made to a non-U.S. holder on our common stock generally will be subject to U.S. withholding tax at a rate of 30% of the gross amount of the distribution unless an applicable income tax treaty provides for a lower rate. To receive the benefit of a reduced treaty rate, a non-U.S. holder must provide the applicable withholding agent with an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form) certifying qualification for the reduced rate.

Dividends paid to a non-U.S. holder that are effectively connected with a trade or business conducted by the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, are treated as attributable to a permanent establishment maintained by the non-U.S. holder in the United States) generally will be taxed on a net income basis at the rates and in the manner generally applicable to United States persons (as defined under the Code). Such effectively connected dividends will not be subject to U.S. withholding tax if the non-U.S. holder satisfies certain certification requirements by providing the applicable withholding agent with a properly executed IRS Form W-8ECI certifying eligibility for exemption. If the non-U.S. holder is a corporation for U.S. federal income tax purposes, it may also be subject to a branch profits tax (at a 30% rate or such lower rate as specified by an applicable income tax treaty) on its effectively connected earnings and profits (as adjusted for certain items), which will include effectively connected dividends.

Gain on Disposition of Common Stock

Subject to the discussions below under [Backup Withholding and Information Reporting](#) and [Additional Withholding Requirements under FATCA](#), a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on any gain realized upon the sale or other disposition of our common stock unless:

the non-U.S. holder is an individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met;

the gain is effectively connected with a trade or business conducted by the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by the non-U.S. holder in the United States); or

S-12

Table of Contents

our common stock constitutes a United States real property interest by reason of our status as a United States real property holding corporation (USRPHC) for U.S. federal income tax purposes and as a result such gain is treated as effectively connected with a trade or business conducted by the non-U.S. holder in the United States.

A non-U.S. holder described in the first bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate as specified by an applicable income tax treaty) on the amount of such gain, which generally may be offset by U.S. source capital losses.

A non-U.S. holder whose gain is described in the second bullet point above or, subject to the exceptions described in the next paragraph, the third bullet point above, generally will be taxed on a net income basis at the rates and in the manner generally applicable to United States persons (as defined under the Code) unless an applicable income tax treaty provides otherwise. If the non-U.S. holder is a corporation for U.S. federal income tax purposes whose gain is described in the second bullet point above, then such gain would also be included in its effectively connected earnings and profits (as adjusted for certain items), which may be subject to a branch profits tax (at a 30% rate or such lower rate as specified by an applicable income tax treaty).

Generally, a corporation is a USRPHC if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. We believe that we are not a USRPHC for U.S. federal income tax purposes, and we do not anticipate becoming a USRPHC for the foreseeable future. However, in the event that we become a USRPHC, as long as our common stock is or continues to be regularly traded on an established securities market (within the meaning of the U.S. Treasury regulations), only a non-U.S. holder that actually or constructively owns, or owned at any time during the shorter of the five-year period ending on the date of the disposition or the non-U.S. holder's holding period for the common stock, more than 5% of our common stock will be treated as disposing of a United States real property interest and will be taxable on gain realized on the disposition of our common stock as a result of our status as a USRPHC. If we were to become a USRPHC and our common stock were not considered to be regularly traded on an established securities market, such non-U.S. holder (regardless of the percentage of stock owned) would be treated as disposing of a United States real property interest and would be subject to U.S. federal income tax on a taxable disposition of our common stock (as described in the preceding paragraph), and a 15% withholding tax would apply to the gross proceeds from such disposition.

Non-U.S. holders should consult their tax advisors with respect to the application of the foregoing rules to their ownership and disposition of our common stock.

Backup Withholding and Information Reporting

Any dividends paid to a non-U.S. holder must be reported annually to the IRS and to the non-U.S. holder. Copies of these information returns may be made available to the tax authorities in the country in which the non-U.S. holder resides or is established. Payments of dividends to a non-U.S. holder generally will not be subject to backup withholding if the non-U.S. holder establishes an exemption by properly certifying its non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form).

Payments of the proceeds from a sale or other disposition by a non-U.S. holder of our common stock effected by or through a U.S. office of a broker generally will be subject to information reporting and backup withholding (at the applicable rate) unless the non-U.S. holder establishes an exemption by properly certifying its non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form) and certain other conditions are met. Information reporting and backup withholding generally will not apply to any payment of the proceeds from a sale or other disposition of our common stock effected outside the United States by a non-U.S. office of a broker.

However, unless such broker has documentary evidence in its records that the non-U.S. holder is not a United States person and certain other conditions are met, or the non-U.S. holder

S-13

Table of Contents

otherwise establishes an exemption, information reporting will apply to a payment of the proceeds of the disposition of our common stock effected outside the United States by such a broker if it has certain relationships within the United States.

Backup withholding is not an additional tax. Rather, the U.S. federal income tax liability (if any) of persons subject to backup withholding will be reduced by the amount of tax withheld. If backup withholding results in an overpayment of taxes, a refund may be obtained, provided that the required information is timely furnished to the IRS.

Additional Withholding Requirements under FATCA

Sections 1471 through 1474 of the Code, and the U.S. Treasury regulations and administrative guidance issued thereunder (FATCA), impose a 30% withholding tax on any dividends paid on our common stock and on the gross proceeds from a disposition of our common stock (if such disposition occurs after December 31, 2018), in each case if paid to a foreign financial institution or a non-financial foreign entity (each as defined in the Code) (including, in some cases, when such foreign financial institution or non-financial foreign entity is acting as an intermediary), unless (i) in the case of a foreign financial institution, such institution enters into an agreement with the U.S. government to withhold on certain payments, and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are non-U.S. entities with U.S. owners), (ii) in the case of a non-financial foreign entity, such entity certifies that it does not have any substantial United States owners (as defined in the Code) or provides the applicable withholding agent with a certification identifying the direct and indirect substantial United States owners of the entity (in either case, generally on an IRS Form W-8BEN-E), or (iii) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules and provides appropriate documentation (such as an IRS Form W-8BEN-E). Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing these rules may be subject to different rules. Under certain circumstances, a holder might be eligible for refunds or credits of such taxes. Non-U.S. holders are encouraged to consult their own tax advisors regarding the effects of FATCA on an investment in our common stock.

INVESTORS CONSIDERING THE PURCHASE OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AND THE APPLICABILITY AND EFFECT OF U.S. FEDERAL ESTATE AND GIFT TAX LAWS AND ANY STATE, LOCAL OR NON-U.S. TAX LAWS AND TAX TREATIES.

UNDERWRITING

Under the terms and subject to the conditions contained in the underwriting agreement, the selling securityholder identified in this prospectus supplement has agreed to sell and J.P. Morgan Securities LLC, the underwriter, has agreed to purchase, 5,925,050 shares of our common stock.

The underwriter has agreed to purchase the shares of our common stock from the selling securityholder at a price of \$25.785 per share, which will result in approximately \$152.8 million of net proceeds to the selling securityholder before expenses. The underwriter proposes to offer the shares of common stock from time to time for sale in one or more transactions on the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. In connection with the sale of the shares of common stock offered hereby, the underwriter may be deemed to have received compensation in the form of underwriting discounts. Sales of shares made outside the United States may be made by affiliates of the underwriter.

Shares sold by the underwriter to the public will initially be offered at the offering price set forth on the cover of this prospectus. After the initial offering of the shares, the underwriter may change the offering price and the other selling terms. The offering of the shares by the underwriter is subject to receipt and acceptance and subject to the underwriter's right to reject any order in whole or in part. Sales of shares made outside the United States may be made by affiliates of the underwriter.

Pursuant to the registration rights agreement with the selling securityholder, we are obligated to pay the expenses incurred in relation to this offering. We estimate that our out-of-pocket expenses for this offering will be approximately \$350,000. All of the offering expenses will be paid by us. We have also agreed to reimburse the underwriters for certain of their expenses in an amount up to \$5,000.

The selling securityholder will receive all of the proceeds from this offering and we will not receive any proceeds from the sale of shares in this offering.

In connection with this offering, we agreed that, subject to certain exceptions, we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of the underwriter for a period of 30 days after the date of this prospectus supplement.

The selling securityholder has agreed in connection with this offering that it will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock, whether any of these transactions are to be settled by delivery of our common stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of the underwriter for a period of 30 days after the date of this prospectus supplement.

These lock-up restrictions are subject to certain specific exceptions, including certain transfers of common stock, provided that the recipient of the shares agrees to be bound by the same restrictions on sales.

The underwriter, in its sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time. When determining whether or not to release

S-15

Table of Contents

the common stock and other securities from lock-up agreements, the underwriter will consider, among other factors, the holder's reasons for requesting the release and the number of shares of common stock or other securities for which the release is being requested.

We and the selling securityholder have agreed to indemnify the underwriter against liabilities under the Securities Act, or contribute to payments that the underwriter may be required to make in that respect.

Our common stock is listed on the NYSE under the symbol OIS. On February 21, 2018, the closing price of our common stock was \$26.50.

Other Relationships

The underwriter and its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment hedging, financing and brokerage activities. The underwriter and its affiliates have from time to time performed, and may in the future perform, various financial advisory, commercial banking and investment banking services for us and for our affiliates in the ordinary course of business for which they have received and would receive customary compensation. In the ordinary course of their various business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investments and securities activities may involve securities and/or instruments of the issuer. The underwriter and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Price Stabilization

In connection with the offering the underwriter may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions, penalty bids and passive market making in accordance with Regulation M under the Securities Exchange Act of 1934, as amended (the Exchange Act).

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriter of shares in excess of the number of shares the underwriter is obligated to purchase, which creates a syndicate short position. The underwriter may close out such naked short position by purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriter will consider, among other things, the price of shares available for purchase in the open market. A naked short position is more likely to be created if the underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the underwriter to reclaim a selling concession from a broker/dealer when the shares originally sold by such broker/dealer are purchased in a stabilizing or covering transaction to cover short positions.

In passive market making a market maker in the common stock who is an underwriter or prospective underwriter may, subject to limitations, make bids for or purchases of our common stock until the time, if any, at which a stabilizing bid is made.

S-16

Table of Contents

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NSYE or otherwise and, if commenced, may be discontinued at any time.

Electronic Distributions

A prospectus supplement and the accompanying base prospectus in electronic format may be made available on the websites maintained by the underwriter, or selling group members, if any, participating in this offering and the underwriter may distribute prospectuses electronically. The underwriter may agree to allocate a number of shares of common stock to selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriter that will make internet distributions on the same basis as other allocations.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described in our filings with the SEC referred to under the heading *Where You Can Find More Information*, including our most recent annual report on Form 10-K and quarterly reports on Form 10-Q and other reports and documents we file with the SEC after the date of this prospectus that are incorporated by reference herein, together with all of the other information included in this prospectus, the applicable prospectus supplement and the documents we incorporate by reference.

If any of these risks were to occur, our business, financial condition, results of operations or cash flows could be adversely affected. You could lose all or part of your investment. When the selling securityholder offers and sells any common stock pursuant to a prospectus supplement, we may include additional risk factors relevant to that offering in the prospectus supplement.

Sales of our common stock by the selling securityholder may cause our stock price to decline.

As of January 18, 2018, we had approximately 59.74 million shares of common stock outstanding, approximately 8.66 million of which were issued to the selling securityholder pursuant to the Purchase Agreement in connection with the closing of the GEODynamics Acquisition. Sales of substantial amounts of our common stock in the public market by the selling securityholder or others, or the perception that those sales may occur, could cause the market price of our common stock to decline. In addition, the sale of these shares and the rights granted to the selling securityholder under the Registration Rights Agreement (as defined below) could impair our ability to raise capital through the sale of additional common stock.

FORWARD-LOOKING STATEMENTS

For a discussion of known material factors that could affect our results, please refer to Risk Factors in this prospectus and any prospectus supplement, Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2016, in the other documents incorporated by reference herein and in our subsequent SEC filings.

Such statements may relate to our future financial position, budgets, capital expenditures, projected costs, plans and objectives of management for future operations and possible future strategic transactions. Where any such forward-looking statement includes a statement of the assumptions or bases underlying such forward-looking statement, we caution that assumed facts or bases almost always vary from actual results. The differences between assumed facts or bases and actual results can be material, depending upon the circumstances.

In any forward-looking statement where we, or our management, express an expectation or belief as to future results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, there can be no assurance that the statement of expectation or belief will result or be achieved or accomplished. The following are important factors that could cause actual results to differ materially from those expressed in any forward-looking statement made by us or on our behalf:

the level of supply of and demand for oil and natural gas;

Table of Contents

Should one or more of these risks or uncertainties materialize, or should the assumptions on which our forward-looking statements are based prove incorrect, actual results may differ materially from those expected, estimated or projected. In addition, the factors identified above may not necessarily be all of the important factors that could cause actual results to differ materially from those expressed in any forward-looking statement made by us, or on our behalf. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. We undertake no responsibility to publicly release the result of any revision of our forward-looking statements after the date they are made.

In addition, in certain documents we incorporate by reference, we refer to reports published by third parties that purport to describe trends or developments in the energy industry. We provide this information for the convenience of our stockholders and in an effort to provide information available in the market that will assist our investors in having a better understanding of the market environment in which we operate.
