### CURATIVE HEALTH SERVICES REVISES OUTLOOK

#### Announces Date for Third Quarter Earnings Conference Call

Hauppauge, New York - October 8, 2003 - Curative Health Services, Inc., (Nasdaq: CURE), announced today that it is revising its financial outlook for the third quarter ended September 30, 2003 and fiscal 2003. For the third quarter of 2003, Curative now anticipates revenues in the range of approximately \$46-\$47 million, compared with previous guidance of approximately \$48-\$50 million, and GAAP net income per diluted share in the range of \$0.12-\$0.13, compared with previous guidance of \$0.29-\$0.31. Adjusted net income for the third quarter is expected to be in the range of \$0.20-\$0.21. Adjusted net income adds back aggregate after tax charges of approximately \$1.1 million (\$1.8 million pre-tax) or \$0.08 per diluted share. These charges include costs associated with a convertible note offering that was not completed due to market conditions (approximately \$0.8

million pre-tax or \$0.03 per diluted share after tax), severance costs during the third quarter (approximately \$0.5 million pre-tax or \$0.02 per diluted share after tax), costs related to an acquisition that was not completed (approximately \$0.3 million pre-tax or \$0.02 per diluted share after tax), and additional costs for the previously announced corporate structure reorganization (approximately \$0.2 million pre-tax or \$0.01 per diluted share after tax).

The Company also announced revised revenue and earnings guidance for the fourth quarter and twelve months ended December 31, 2003. For the fourth quarter the Company now expects revenues to be in the range of \$70-\$72 million and GAAP net income in the range of \$0.30-\$0.32 per diluted share. For the full year 2003, the Company now expects revenues to be in the range of \$219-\$221 million and GAAP net income in the range of \$0.93-\$0.96 per diluted share. Adjusted net income per diluted share for the full year 2003 is now expected to be in the range of \$1.17-\$1.20. This adjusted net income per diluted share guidance adds back after tax charges of \$1.6 million or \$0.12 per diluted share the Company recorded in the first quarter 2003 relating to the consolidation of the Company's Specialty Pharmacy Services operations (\$1.0 million) and charges associated with settlements including severance agreements (\$0.6 million), with former executives terminated in March, 2002, after tax charges of \$0.5 million or \$0.04 per diluted share recorded in the second quarter 2003 related to terminating our existing credit facility (\$0.4 million) and a proposed corporate structure reorganization (\$0.1 million), as well as those charges described above for the third quarter of 2003.

Management believes the adjusted net income and adjusted net income per diluted share information is necessary to better present the Company's underlying business operating results.

For 2004, the Company now anticipates revenues of approximately \$270-\$280 million and GAAP net income growth of 45%-50% over 2003 GAAP net income or net income growth of 15%- 20% over 2003 adjusted net income (assuming no adjustments in 2004). The Company will discuss 2004 guidance further on its third quarter earnings conference call.

The guidance above relates to periods which have not yet ended or for which the Company has not yet closed its books or completed its review of its operating results and financial position. Accordingly, this guidance is preliminary and subject to change based on completion of that review.

There are a number of contributing factors for these guidance adjustments including the following:

- o We experienced relatively flat third quarter revenues in hemophilia related products and a pause in sequential growth in IVIG and other infusables during Q3.
- o While we see organic growth in Synagis(R) (including anticipated organic growth by the Company and the companies it has acquired) of at least 30% this season, an uncertain competitive environment in Synagis(R) has caused us to be more cautious about our expectations for additional market share gains.
- o Despite recent net contract gains we have continued to see pricing pressure in both new and re-negotiated contracts in Wound Care.
- o Higher depreciation expense from capital investments in the Company's Information Technology infrastructure to support future growth.
- o Higher operating costs in key areas such as liability insurance and

employee benefits.

"We are disappointed to have to make these guidance changes but the combination of less than plan revenues and higher than expected operating costs has resulted in less than previously forecasted earnings for the third quarter of 2003 with the impact carrying through the fourth quarter of 2003 and 2004," said Joseph Feshbach, Curative's Chairman and Chief Executive Officer. "While these growing pains are difficult for all of us, Curative has built an important specialty pharmacy business during the past two and a half years."

Curative will release its third quarter 2003 results on Wednesday, November 5, 2003 pre-market. The Company will host a conference call the same day at 11:00 a.m. Eastern Time to discuss its third quarter 2003 financial results, recent developments, business strategy and outlook. To participate in the conference call, dial 1-800-915-4836 approximately 10 minutes prior to the scheduled start time.

If you are unable to participate, a digital replay of the call will be available from Wednesday, November 5, 2003 at 1:00 p.m. Eastern Time until 12:00 a.m. Eastern Time on November 12, 2003 by dialing 1-800-428-6051 with passcode # 309426.
