ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL RESULTS.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 8-K

On April 19, 2007, Baxter International Inc. issued an earnings press release for the quarterly period ended March 31, 2007. The press release, including attachments, is furnished as Exhibit 99.1 to this report.

The press release contains non-GAAP financial measures as defined by the Securities and Exchange Commission. These measures are used in addition to results presented in accordance with generally accepted accounting principles (GAAP). The non-GAAP financial measures reflect an additional way of viewing aspects of the company's operations that, when viewed with GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the company's business. Management strongly encourages investors to review the company's consolidated financial statements and publicly filed reports in their entirety.

The non-GAAP financial measures include adjusted earnings per diluted share, excluding special items. Special items are excluded because they are unusual or nonrecurring and accordingly can be highly variable, difficult to predict, and of a size that may substantially impact the company's reported operations for a period. Management believes that non-GAAP earnings measures facilitate a fuller analysis of the company's results of operations, particularly in evaluating performance from one period to another. Accordingly, management uses these non-GAAP measures internally in financial planning, to monitor performance, and in setting performance compensation targets.
