**TELE NORTE CELULAR PARTICIPAÇÕES S.A. REPORTS
FOURTH QUARTER AND YEAR-END 2005 RESULTS**

- **EBITDA margin of 37.3% of net service revenues for the quarter**
- **5.9% increase on post-paid ARPU quarter-over-quarter**
- **Bad debt stable at 2.5% of net service revenues**
- **Net debt reduced by R\$22 million in the quarter**

Brasília, Brazil, March 16, 2006 Tele Norte Celular Participações S.A. (BOVESPA: TNCP3 (Common)/TNCP4 (Preferred); NYSE: TCN), the holding Company of the wireless telecommunications service provider in the States of Amapá, Amazonas, Maranhão, Pará and Roraima in Brazil, today announced its fourth quarter and year-end 2005 results. The Company's client base totaled 1,223,041 for the quarter. EBITDA reached R\$35.4 million in 4Q05, representing 37.3% of net service revenues. For the year EBITDA reached R\$124.6 million, representing 32.0% of net service revenues.

Operating Highlights:

Client base of 1,223,041 in 2005

The Company's customer base reached 1,223,041 during the fourth quarter of 2005, representing a slight increase of 1.3% over the previous quarter. Net additions amounted to 15,938 in the quarter.

The prepaid base increased by 29,615 customers reaching 965,886 customers or 79% of the total base. The postpaid base decreased by 13,677 clients, ending the quarter with 257,155 customers or 21% of the total base.

www.telenorteholding.com.br - 1/14

Churn rates

Blended annualized churn rate decreased from 49.6% in the 3Q05 to 46.7% registered in the 4Q05. The prepaid annualized churn rate for 4Q05 remained high at 52.7%, but lower than the 56.8% registered in the previous quarter. It is expected further reduction in the prepaid churn rate for the next quarter. For the postpaid segment, annualized churn rates remained fairly stable at 25.4% when compared to 25.2% registered in the previous quarter. It shows the success of the retention efforts.

Operating revenues

Net service revenues totaled R\$94.9 million in 4Q05, representing a decrease of R\$3.4 million or 3.4% over the previous quarter. For 2005, net service revenues reached R\$390.0 million below the R\$440.4 million registered in the previous year.

It is worth noting that service revenues recorded in 2005 is not directly comparable to that posted in 2004 since part of 2004 revenues had not been impacted by the changes related to the migration to Personal Mobile Service (SMP) occurred in August 2004. After these new rules took effect, the Company started offering the Provider Selection Code (CSP) and, therefore, customers started using CSP in national (VC2 and VC3) international long-distance calls from mobiles phones. Therefore, the Company stopped receiving VC2 and VC3 revenues and started receiving interconnection revenues for the use of its network in these calls. Additionally, the Company adopted the bill & keep rules that establish that SMP Companies' network remuneration for traffic within the same registration area will only be paid when the traffic balance is lower than 45% or exceeds 55%, which generated a significant decrease in interconnection revenues.

Net equipment revenues in the quarter totaled R\$10.5 million, an increase of 9.0% when compared to 3Q05. For the year, net equipment revenues reached R\$42.0 million lower than the R\$58.5 million registered in the previous year, as a consequence of lower sales during the year.

As a result, total net revenues were R\$105.4 million in the quarter, 2.3% lower when compared to the previous quarter. For the year total net revenues reached R\$432.0 million.

Data revenues, as a percentage of net service revenues, reached 4.9% in the quarter and 4.4% in the year.

In the fourth quarter of 2005, handset subsidies for client acquisitions were R\$2.3 million (or R\$15.0 per gross addition), representing a R\$2.3 million decrease when compared to the previous quarter. For 2005, handset subsidies reached R\$14.1 million or R\$25.0 per gross addition.

Operating costs and expenses

Cost of services in 4Q05 totaled R\$30.5 million, higher than the R\$23.7 million reported in 3Q05. This increase is primarily explained by higher interconnection and Fistel costs, and also by the reduction of cost of services during 3Q05 related to both the savings provided by the installation of a new GSM network mobile switching centre in São Luiz do Maranhão (State of Maranhão) and the reversion of provisioned amounts, retroactive to January 2005, due to the negotiation of dedicated line contracts. Excluding these non-recurring events, cost of services would have been stable, reaching R\$26.5 million in the 4Q05 as compared to the R\$26.7 million registered in the previous quarter. For the year, cost of services reached R\$111.6 million, representing a 28.8% decrease when compared to the previous year mainly due to the implementation of the SMP rules.

Selling and marketing expenses in the quarter remained stable reaching R\$24.7 million compared to the R\$23.9 million registered in the previous quarter. As a percentage of net service revenues, selling and marketing expenses reached 26.1% compared to the 24.4% registered in the previous quarter. For the year, selling and marketing expenses were 10.6% lower than 2004, as a result of much less aggressive acquisition campaigns.

Customer acquisition cost in the fourth quarter of 2005 reached R\$114 representing a significant decrease when compared to the R\$186 reported in 3Q05. This decrease is mainly explained by a 49% reduction in subsidies. For the year, customer acquisition cost reached R\$158, below the R\$178 registered in the previous year. Retention costs as a percentage of net service revenues were 13.4% in the quarter below the 14.1% registered in the 3Q05. For the year, retention costs as a percentage of net service revenues reached 13.5% .

G&A reached a negative R\$0.5 million in 4Q05, below the R\$9.9 million registered in the previous quarter. This reduction in G&A during the 4Q05 is due to the recognition of non-recurrent revenues referring to PIS and Cofins recoverable credit, amounting to R\$10.4 million, resulting from the success in the lawsuit questioning the constitutionality of the increase in these taxes calculation base. For the year, G&A totaled R\$26.2 million. For the coming quarters, G&A is expected to remain in the range of 9% to 11% of net services revenues.

Bad debt as a percentage of net service revenues reached 2.5%, in line with the previous quarter. When calculated against total net revenues, bad debt reached 2.2% during the 4Q05 compared to 2.3% reported in 3Q05. For 2005, bad debt was 3.4% of net service revenues, an improvement when compared to the 4.7% registered in the previous year. When calculated against total net revenues, bad debt totaled 3.1% for the year.

Average revenue per user (ARPU)

Postpaid MOU (minutes of use) in 4Q05 totaled 209, higher than the 194 registered in the previous quarter. As a result, postpaid ARPU (average revenue per user) reached R\$77.3 higher than the R\$72.9 registered in 3Q05.

In the fourth quarter of the year, prepaid MOU totaled 30, a slightly increase when compared to the 29 registered in the 3Q05. As a result, prepaid ARPU slightly increased reaching R\$9.7 when compared to R\$9.0 registered in the previous quarter.

As a result, blended ARPU slightly increased to R\$24.5 when compared to R\$23.5 registered in the third quarter of 2005. For 2005, blended ARPU reached R\$24.1.

Market share estimated at 26%

Market share was estimated at 26% compared to 27% registered in the previous quarter. Gross sales share in 4Q05 was estimated at 24.3%, representing an increase of 3.8 p.p. when compared to the previous quarter.

EBITDA margin of 37.3% of net service revenues for the quarter

EBITDA and EBITDA margin (excluding handsets revenues) in the fourth quarter of 2005 reached R\$35.4 million and 37.3%, respectively, compared to R\$33.7 million and 34.2% registered in the previous quarter. For the year EBITDA and EBITDA margin reached R\$124.6 million and 32.0%, respectively, representing an improvement when compared to the R\$107.3 million and 24.4% registered in the previous year.

Depreciation and amortization

In 4Q05, depreciation and amortization remained stable when compared to the previous quarter reaching R\$28.7 million. For the year, depreciation and amortization expenses amounted to R\$112.7 million.

Net financial expense of R\$14.6 million

	R\$ million	
	3Q05	4Q05
Interest Expense ^(a)	(27.1)	(6.2)
Interest Income ^(b)	4.5	4.9
Foreign Exchange Gain (Loss) ^(c)	15.2	(13.3)
Net Financial Income (Expense)	(7.4)	(14.6)

Note: a) **Interest expense**: includes financial expenses related to debt, losses on hedging operations (if any), taxes on gains resulting from hedging operations and own capital interest revenues (if any); b) **Interest income**: includes results of cash investing activities and gains on hedging operations (if any); and, c) **Foreign exchange gain (loss)**: almost exclusively reflects currency devaluation changes on debt principal and interest payable.

DETAILED FINANCIAL INCOME/EXPENSE INFORMATION

	R\$ million	
	3Q05	4Q05
Gain (expense) related to debt denominated in foreign currency	9.8	(18.7)
Gain (loss) on hedging operations*	(19.8)	2.2
Sub-total	(10.0)	(16.5)
Expense related to debt denominated in Reais	(0.5)	(0.1)
Financial expense (debt related)	(10.5)	(16.6)
Net financial expense (not related to debt)**	(0.5)	(0.9)

Interest income cash investing activities	3.6	2.9
Net Financial Income (Expense)	(7.4)	(14.6)

* Net of PIS/COFINS.

** Net financial expenses not related to debt are primarily associated with taxes such as CPMF, PIS, COFINS and IOF.

Provision for losses

In compliance with the CVM Instruction # 371/2002, the Company's and its subsidiary's Board of Directors approved on March 15 and 16, 2006, respectively, a technical study of the feasibility of the future realization of deferred tax asset, considering the eventual capacity to generate taxable income for the Company in its main business segments. Among the actions implemented by the Company in order to generate future taxable income, it is worth highlighting the change of the network to the GSM/EDGE standard.

Through the aforementioned study, it was verified that the deferred social contribution and income tax installment amounting to R\$34.2 million will occur after ten years, constituting, thus, a provision for losses in the realization of these assets.

Negative net result of R\$39.5 million in the quarter

Net result in 4Q05 was negative in R\$39.5 million, or R\$5.891 per ADS (R\$0.118 per thousand shares). For the year, net result was negative in R\$42.4 million, or R\$6.322 per ADS (R\$0.126 per thousand shares).

Total debt of R\$248.3 million

Total debt was R\$248.3 million, 100.0% of which was denominated in foreign currencies (99.5% denominated in US Dollars and 0.5% denominated in a currency basket index from BNDES). From total debt denominated in foreign

currency, 78.5% was hedged.

Net debt of R\$222.0 million

As of December 31, 2005, the Company's indebtedness was partially offset by cash and cash equivalents (R\$65.7 million) and receivables from loans (R\$7.6 million) but was impacted by accounts payable from hedging operations (R\$46.9 million), resulting in net debt of R\$222.0 million.

Investments totaled R\$37.7 million in the quarter

During the fourth quarter of 2005, Amazônia Celular's capital expenditures were R\$37.7 million. For the year capital expenditures totaled R\$65.2 million. The breakdown of such investments is as follows:

CAPEX breakdown

CAPEX (R\$ million)	4Q04	1Q05	2Q05	3Q05	4Q05	2005
Network	65.6	2.0	17.2	5.8	33.0	57.9
IS/IT	15.8	0.4	0.2	1.0	4.3	5.9
Others	5.0	0.9	(0.1)	0.2	0.4	1.4
T O T A L	86.4	3.3	17.3	7.0	37.7	65.2

Debt payment schedule

Year	R\$ million	% foreign currency denominated debt
2006	58.3	100.0%
2007	55.3	100.0%
2008	14.5	100.0%
2009	108.2	100.0%
2010	12.0	100.0%

Free cash flow

Edgar Filing: TELE NORTE CELULAR PARTICIPACOES SA - Form 6-K

Free cash flow in the quarter was positive at R\$10.0 million, compared to a cash flow of R\$21.7 million reported in the previous quarter. Year-to-date, free cash flow amounted to negative R\$12.9 million as opposed to positive R\$66.8 million registered in the previous year. This reduction is related mainly to negative effects on hedge operations and higher payments of debt and suppliers.

(1) Last twelve months.

Outlook

Amazônia Celular expects mobile penetration within the Company's area to reach approximately 29-30% for the next quarter. For the first quarter of the year, Amazônia Celular expects to maintain gross sales share at approximately 25-28%. Net additions are expected to primarily come from prepaid customers. ARPUs for both postpaid and prepaid customers are expected to slightly decrease as a consequence of seasonal factors during the 1Q06. Capital expenditures in the year should reach approximately R\$50-65 million.

Cash and cash equivalents, end of the period	65,652	65,652

GLOSSARY OF KEY INDICATORS

I) Average Customers

a) Average customers monthly

$$\frac{\text{Sum of customers at the beginning and the end of the month}}{2}$$

b) Average customers quarterly and year to date

$$\frac{\text{Sum of the average customers for each month of the period}}{\text{Number of months in the period}}$$

II) Churn Rate (Annualized)

a) Churn % quarterly

$$\frac{\text{Sum of deactivations} / \text{Sum of average monthly opening customers for the 3 months} \times 12}{3}$$

b) Churn % - year to date

$$\frac{\text{YTD deactivations} / \text{Sum of avg monthly opening customers since beginning of the year} \times 12}{\text{Number of months in the period}}$$

III) MOU Minutes of Use (Monthly)

$$\frac{\text{Number of total billable minutes for the period} / \text{Average customers for the period}}{\text{Number of months in the periods}}$$

IV) ARPU Average Revenue per User

$$\frac{\text{Net service revenues for the period (excluding roaming-in revenues)}}{\text{Average customers for the period}}$$

V) Customer Acquisition Cost

$$\frac{\text{(Sum of Marketing salaries, Selling salaries, Consulting (Sales and Marketing), Commissions, Handsets subsidies, Advertising and promotions, FISTEL tax (activation tax), less Activation fee for the period)}}{\text{Number of gross activations in the period}}$$

VI) Free Cash Flow

$$\text{Free Cash Flow} = (\text{EBITDA} - \text{CAPEX} - \text{Taxes} - \text{Net Financial Expenses}^* - \text{Minority Interests} - \text{Working Capital Variation})$$

* Considers interest paid.

VII) Working Capital Variation

$$\text{Working Capital Variation} = (\Delta \text{Current Assets} - \Delta \text{Cash \& Cash Equivalents}) - (\Delta \text{Current Liabilities} - \Delta \text{Short Term Loans and Financing} - \Delta \text{Loan Interest} - \Delta \text{Dividends})$$

VIII) Interest Coverage Ratio

$$\text{Interest Coverage Ratio} = \text{EBITDA} / \text{Interest Paid}$$

IX) Current Liquidity Ratio

$$\text{Current Liquidity Ratio} = \text{Current Assets} / \text{Current Liabilities}$$

X) EBITDA

$$\text{EBITDA} = \text{Operational Revenues} - \text{Operational Costs} - \text{Operational Expenses}^* - \text{Bad Debt}$$

* Does not include profit sharing.
