Management s Compensation

For the year 2010, we propose the global amount of up to R\$ 170,000,000.00, for the Management s compensation, which includes fees and eventual bonuses, and the amount of up to R\$ 170,000,000.00 to support the Management s Open Complementary Pension Plans, within the Pension Plan targeted at the Employees and the Management of Bradesco Organization.

These proposals are justified by the fact that the Managers have a wide experience and vast knowledge of the Company, due to the fact that most of them have developed their career at the Organization, as well as the need of retaining their talents in an increasingly competitive market.

Board of Directors Proposals to be submitted to the shareholders of Banco Bradesco S.A., at the Annual Shareholders Meeting to be held cumulatively with the Special Shareholders Meeting, on March 10, 2010, at 5:00 p.m.

.2.

Concurrently, according to the Compensation Committee's analysis, the Brazilian economy was able to calmly and safely deal with the global financial crisis, due to the solid evidence of an upturn trend, showing that the Brazilian economy, as of 2010, should be marked by a strong expansion.

On the other hand, the Compensation Committee will permanently assess the Bank's performance and the fulfillment of objectives and budget, with a view to verifying if results justify the distribution of amounts mentioned above until the limits proposed herein.

Pursuant to letter n of Article 9 of the Bylaws, the global compensation will be distributed, at a meeting of the Board of Directors, to its members and to the members of the Board of Executive Officers.

Fiscal Council's Members's Compensation

Pursuant to Paragraph 3, Article 162, of Law # 6,404/76, the compensation of the members of the Fiscal Council shall be determined at the Shareholders Meeting in which they are elected and it cannot be lower, for each member in office, to 10% (ten percent) of the average compensation attributed to each Officer, without benefits, expense account and the Company's profit sharing.

At the Annual Shareholders Meeting held on March 10, 2009, it was established a monthly amount of R\$ 12,000.00 to each member, and the Alternate Members are remunerated only when they replace the Sitting Members, in the cases of vacancy.

We propose the maintenance of the monthly compensation of R\$12,000.00 (twelve thousand reais) to each Fiscal Council's Sitting Member, and the Alternate Members shall be remunerated only when they replace the Sitting Members, in the cases of vacancy and absence or in the event of temporary impediments.

The allocation of a portion of net income to legal reserve is established in Article 193 of Law # 6,404/76 and has the purpose of ensuring the integrity of the capital stock, and may be used only for offsetting losses or increase capital.

Out of the net income for the year, 5% (five percent) will be allocated, before any other allocation, to the recording of legal reserve, which shall not exceed 20% (twenty percent) of the capital stock.

Legal reserve may not be recorded in the fiscal year when the balance of such reserve, added by the amount related to capital reserves addressed by Paragraph 1 of Article 182, exceeds 30% (thirty percent) of the capital stock.

(b) Statutory Reserves

The Article 194 of Law #6,404/76 regulates the creation of statutory reserves. According to this legal provision, the company's Bylaws may create reserves provided that, for each one, it:

- indicates its purpose in a accurate and complete manner;
- establishes the criteria to determine the annual portion of net income that will be allocated to its recording; and
- establishes the reserve's maximum limit.

Pursuant to the legislation, Article 31 of the Bylaws sets forth that the net income balance, determined after all statutory allocations, shall have the allocation proposed by the Board of Executive Officers, approved by the Board of Directors, and resolved on at Shareholders' Meeting, and 100% (one hundred percent) may be allocated to the Profit Reserves Statutory, aiming to maintain the operating margin compatible with the development of the Company's active operations, up to the limit of 95% (ninety-five percent) of the amount of the paid up capital stock.

In the event the Board of Executive Officers' proposal for allocation of the net income for the fiscal year includes payment of dividends and/or interest on own capital in an amount above the mandatory dividends established in Article 30, item III, of the Bylaws, and/or profit retention pursuant to Article 196 of Law # 6,404/76, the net income balance for the purposes of recording of this reserve shall be determined after these allocations are fully deducted.

Preferred shares have no voting rights, but are entitled to all rights and advantages given to common shares and, in compliance with the Company's Bylaws, have priority for capital reimbursement and an additional 10% (ten percent) of interest on own capital and/or dividends, pursuant to the provisions of paragraph 1, item II, of Article 17 of Law # 6,404/76, with the new wording in Law # 10,303/01.

According to the Company's Bylaws, shareholders are entitled to interest on own capital and/or dividends, which together correspond to at least 30% of the net income for the year, adjusted in accordance with the Brazilian Corporation Law.

The interest on own capital is calculated based on shareholders' equity accounts and limited to the variation of the long-term interest rate (TJLP), subject to the existence of profits calculated before the deduction hereof, or of retained earnings and profit reserves in amounts that are equivalent to, or exceed twice the amount of such interest.

Bradesco's capital remuneration policy aims to distribute the interest on own capital, at the maximum amount calculated pursuant to prevailing laws, which is included, net of Withholding Income Tax, in the calculation of mandatory dividends for the year provided for in the Company's Bylaws. We clarify that the interest on own capital and dividends declared by Bradesco are not updated.

At a meeting held on January 20, 2009, the Board of Directors approved the Board of Executive Officers' proposal for increasing by 10% the monthly Dividends, paid to shareholders in advance, in accordance with the Monthly Remuneration System, increasing them from R\$0.012017500 to R\$0.013219250, related to common shares, and from R\$0.013219250 to R\$0.014541175, related to preferred shares, in effect since the Dividends related to February 2009, paid on March 2, 2009, benefiting the shareholders registered in the Company's records as of February 2, 2009.

At a meeting of the Board of Directors held on July 3, 2009, it was approved the Board of Executive Officers' proposal for the payment to shareholders of intermediary interest on own capital related to the first half of 2009, in the amount of R\$ 501 million, of which R\$0.155520588 (R\$0.132192500 net of 15% Withholding Income Tax) per common share and R\$0.171072647 (R\$0.14541175 net of 15% Withholding Income Tax) per preferred share, whose payment was made on July 20, 2009.

At a meeting held on December 4, 2009, the Board of Directors approved the Board of Executive Officers' proposal for the payment to shareholders of complementary interest on own capital related to 2009, in the amount of R\$1,632 million, being R\$0.499755537 (R\$0.424792206 net of 15% Withholding Income Tax) per common share and R\$0.549731091 (R\$0.467271427 net of 15% Withholding Income Tax) per preferred share, whose payment will be made on March 9, 2010.

The Special Shareholders' Meeting held on December 18, 2009 resolved, among other matters, on a 10% bonus stock (one new share for each 10 shares held regardless of the type), and the monthly dividends were maintained at R\$0.013219250 per common share and R\$0.0145411750 per preferred share, so that the amounts paid each month to shareholders were increased by 10%, after the inclusion of the new shares in the positions of shareholders related to stock bonus.

Further Information on the Management and Fiscal Council's Compensation

.7.

The compensation practices of the Company's Senior Management aim to acknowledge the services rendered by these professionals, encouraging them to seek for solutions, targeting customer satisfaction, business growth and shareholders' return.

The compensation is comprised of monthly salary, intended to repay each member for their contribution to the continuity and development of the organizational activities under their responsibility, as well as occasional bonuses, in recognition of their contribution of each one of them to achieve results and Bradesco Organization's performance.

The monthly compensation of the Management is 100% of fees. Occasionally, bonuses are paid according to the evaluation of the organizational results achieved.

The maximum compensations for the Management of Banco Bradesco S.A. for the current year are established at the annual shareholders' meetings.

The organizational structure counts on a specific Committee that deals with matters related to the compensation of the statutory Management (Remuneration Committee, a statutory body permanently installed). This Committee's purpose is to propose to the Board of Directors compensation policies and guidelines for the Organization's Statutory Management, based on the performance targets set forth by the Board of Directors.

The Board of Directors examines the recommendations of this Committee and establishes the monthly salary to be paid to each member, as well as approves the occasional payment of bonuses, according to the Organization's performance, respecting the limits established at the Annual Shareholders' Meeting.

The Organization adopts the simplified model, which is composed of monthly salary and the occasional payment of bonuses, according to the evaluation of the Organization's results and performance.

The criteria are based on individual and business area performance, the Organization's performance and results, as well as on business growth.

The model to evaluate the senior management's performance is based on targets established for the period according to the corporate strategic planning. The budget management and plans to improve the management model are references used for the multidimensional evaluation of the professionals responsible for supporting units, and the contributions are individually evaluated, with a financial focus and market expansion.
