MATERIAL FACT

Braskem S.A. (Braskem), to comply with Paragraph 4, Article 157 of Federal Law 6,404/76 (Brazilian Corporation Law or "BCL") and in accordance with and for the purposes of CVM Instruction 319/99 and 358/02, hereby informs shareholders and the market the following:

1. Merger by Braskem of the Share Issued by RioPol

In order to streamline the current ownership structures of Braskem and its subsidiary Rio Polímeros S.A. (RioPol and, jointly with Braskem, the Companies), the managements of the Companies agreed to propose to the respective shareholder meetings, in accordance with Article 252 of BCL, the merger of RioPol s shares by Braskem, with the consequent preservation of RioPol s legal person and its conversion into a wholly owned subsidiary of Braskem (Share Merger).

2. Objectives, Benefits and Justification of the Share Merger. The specific purposes of the Share Merger are to:

- (i) increase the competitiveness and efficiency of the Companies and their subsidiaries and affiliated companies to enable them to compete effectively with international companies; and
- (ii) streamline the current capital and ownership structures of the Companies by migrating the current shareholders of RioPol to Braskem, preserving the identity of the legal persons, but reducing administrative costs.

3. Previous Business and Corporate Acts.

3.1. On June 29, 2010 the extraordinary shareholders meeting of Quattor Participações S.A. (Quattor), at the time the controlling shareholder of RioPol decided to reduce its capital share, with the reimbursement to Braskem, its sole shareholder at the time, of all the 839,190,255 (eight hundred thirty-nine million, one hundred ninety thousand, two hundred fifty-five) common shares and 190 (one hundred ninety) preferred shares issued by RioPol, which at the time were held by Quattor.

3.2. In the meetings held on August 9, 2010, the boards of directors of Braskem and RioPol approved the submission to the Shareholders Meetings of the Companies the Merger of Shares.

4. Share Exchange Ratio for the Share Merger.

4.1 Share Exchange Ratio. As a result of Share Merger, the shareholders of RioPol will be attributed 0.010064743789 class A preferred share issued by Braskem for each common and preferred share issued by RioPol (Exchange Ratio).

4.2. Criteria for Determining the Exchange Ratio. The Exchange Ratio was based on the economic values of Braskem and RioPol, calculated in accordance with Clause 5.1 below. The economic value per share of Braskem for establishing the Exchange Ratio was calculated taking into consideration the sum of the economic value of Braskem and the total value of Braskem's capital stock increase approved on April 14, 2010, divided by the total number of shares of Braskem after the capital stock increase (excluding shares held in treasury).

4.3. Why the Share Merger is Considered Equitable for Shareholders. The managements of the Companies believe that the Share Merger is equitable for their respective shareholders, in view of the fact that it constitutes the results of the independent negotiations conducted between Petróleo Brasileiro S.A. - Petrobras (Petrobras) and Braskem for the merger of the share in Quattor. The determination of the Exchange Ratio was based on the Economic and Financial Valuation prepared previously and independently by Banco Bradesco BBI S.A., a financial institution inscribed in the roll of corporate taxpayers (CNPJ/MF) under number 06.271.464/0073-93, with head offices at Av. Paulista, 1.450, 8º andar, in the city and state of São Paulo (Bradesco BBI) to support the Quattor share merger mentioned above, and which included valuations of the subsidiaries of Quattor as a whole.

4.4. Fractional Shares. Any fractions of Braskem shares resulting from the application of the Exchange Ratio for the Share Merger will not be considered and the respective shares will not be issued.

5. Criteria for Valuing the Share in Braskem and RioPol.

5.1. Economic Valuation. To determine the Exchange Ratio, Bradesco BBI valued Braskem and RioPol based on their economic value, adopting, in the cases of Braskem, Quattor, Quattor Petroquímica S.A. (Quattor Petroquímica), Quattor Química S.A. and Riopol the discounted cash flow method and, in the cases of IQ Soluções e Química S.A., Polibutenos S.A. Industrias Química and Divisão Química, the criteria of transaction multiples of comparable

companies, with a base date of September 30, 2009 (Economic and Financial Valuation). The appointment and contracting of Bradesco BBI is subject to ratification and approval by the shareholders of the Companies.

5.2. Valuation of Book Value. To determine the amount of increase in capital and reserves at Braskem resulting from the Share Merger, the shares issued by RioPol were valued by the specialized firm PricewaterhouseCoopers Auditores Independentes, with offices in the city and state of São Paulo at Av. Francisco Matarazzo, 1400, with secondary registration at the Regional Accounting Council of Rio de Janeiro state under CRC2SP000160/O-5 F RJ (PwC) based on their book value, in accordance with the respective audited financial statements of RioPol prepared with a base date of March 31, 2010 (Base Date). The appointment and contracting of PwC is subject to ratification and approval by the respective shareholders of Braskem and RioPol. Based on said valuation, the book value of the share of RioPol to be merged by Braskem corresponded, on the Base Date, to R\$ 0.426114177517831 (forty-two Brazilian centavos and fraction) per share in RioPol.

5.3. Valuation of the share in Riopol for the purposes of Article 264 of BCL. The Securities and Exchange Commission of Brazil ("CVM"), in a meeting held on July 27, 2010, resolved, in response to the consultation made by Braskem and RioPol regarding the possibility of waving the preparation of the report referred to in article 264 of BCL, that there is no justification for requiring the preparation of the valuation report at market price provided for by Article 264 of BCL for the Share Merger if Petróleo Brasileiro S.A. Petrobras, the sole shareholder of RioPol, agrees to the Share Merger .

6. Treatment of Variations in Book Value After the Share Mergers. All variations in book value that occur at Braskem and RioPol will be directly accounted for at the respective Companies and recorded in the respective accounting ledgers, since both companies will succeed the Share Merger.

7. Political and Economic Rights and Advantages of the Share.
