### **First Extended Well Test gets underway at lara with excellent results**

Rio de Janeiro, June 30, 2014 – Petróleo Brasileiro S.A. – Petrobras announces that the Extended Well Test (EWT) in the evaluation area known as lara started-up on June 21, in block BM-S-11, some 300 km off the coast and at a water depth of approximately 2,200m. The Extended Well Test is part of the Discovery Evaluation Program, approved by Brazil's National Petroleum, Natural Gas and Biofuels Agency (ANP).

The test is being conducted on well 3-BRSA-1132-RJS (RJS-706), in the western section of the lara Evaluation Plan, using FPSO Dynamic Producer. The well's initial production of 29 thousand barrels of oil per day is similar to the production of the wells that are currently producing for commercial purposes in the Santos Basin Pre-salt, indicating the area's enormous potential.

This EWT, the first to be carried out in lara, will enable the acquisition of important data for the development of this discovery, which took place in 2008.

The Evaluation Plan will expire at the end of 2014, at which time the consortium must submit the declaration of commerciality to the ANP.

Petrobras is the operator of the consortium (65%), in partnership with BG E&P Brasil Ltda (25%) and Petrogal Brasil S.A (10%).

## SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
