Press Release

## Highlights

The main figures obtained by Bradesco in the first quarter of 2015 are presented below:

1. Adjusted Net Income<sup>(1)</sup> for the first quarter of 2015 stood at R\$ 4.274 billion (a 23.1% increase compared to the R\$ 3.473 billion recorded in the same period of 2014), corresponding to earnings per share of R\$ 3.21 and Return on Average Adjusted Equity<sup>(2)</sup> of 22.3%.
2. As for the source, the Adjusted Net Income is composed of R\$ 2.991 billion from financial activities, representing 70.0% of the total, and of R\$ 1.283 billion from insurance, pension plans and capitalization bonds operations, which together account for 30.0%.
3. On March 31, 2015, Bradesco market value stood at R\$ 150.532 billion<sup>(3)</sup>, showing a growth of 10.7% over March 31, 2013.
4. Total Assets, in March 2015, stood at R\$ 1.035 trillion, an increase of 12.2% over the March 2014 balance. The return on Average Total Assets was 1.7%, an increase of 0.2 p.p. over March 2014 (1.5%).
5. In March 2015, the Expanded Loan Portfolio<sup>(4)</sup> reached R\$ 463.305 billion, up 7.2% over March 2014. Operations with individuals totaled R\$ 142.051 billion (an increase of 7.1% over March 2014), while corporate segment operations totaled R\$ 321.254 billion (up 7.2% over March 2014).
6. Assets under Management stood at R\$ 1.431 trillion, a 12.0% increase over March 2014.
7. Shareholders' Equity totaled R\$ 83.937 billion in March 2015, 14.5% higher than in March 2014. Basel III Ratio, calculated based on the Prudential Consolidated stood at 15.2% in March 2015, 12.1% of which was classified as Common Equity/Tier I.
8. A total of R\$ 1.494 billion was paid to shareholders as Interest on Shareholders' Equity for the first quarter of 2015, of which R\$ 248.666 million were paid in monthly and interim installments and R\$ 1.245 billion were provisioned.
9. The Interest Earning Portion of the Net Interest Income stood at R\$ 13.273 billion, up 22.1% compared to the first quarter of 2014.
10. The Delinquency Ratio over 90 days stood at 3.6% on March 31, 2015.
11. The Operating Efficiency Ratio (ER)<sup>(5)</sup> in March 2015 was 38.3% (41.9% in March 2014), while in the "risk-adjusted" concept, it stood at 46.9% (51.4% in March 2014). It is important to note that, in the first quarter of 2015, we had the best quarterly ER ever registered (36.3%).
12. Insurance Written Premiums, Pension Plan Contributions and Capitalization Bond Income totaled R\$ 13.634 billion in the first quarter of 2015, up 19.1% when compared to the same period in 2014. Technical Reserves stood at R\$ 157.295 billion, an increase of 14.2% compared to the balance in March 2014.
13. Investments in infrastructure, information technology and telecommunications amounted to R\$ 1.313 billion in the first quarter of 2015, up 15.6% over the same period in the previous year.
14. Taxes and contributions paid or recorded in provision, including social security, totaled R\$ 5.826 billion, of which R\$ 2.644 billion were related to taxes withheld and collected from third parties, and R\$ 3.182 billion were calculated based on activities developed by Bradesco Organization, equivalent to 74.5% of the Adjusted Net Income<sup>(1)</sup>.

(1) According to the non-recurring events described on page 8 of this Economic and Financial Analysis Report; (2) Excludes mark-to-market effect of Available-for-Sale Securities recorded under Shareholders' Equity; (3) Number of shares (excluding treasury shares) multiplied by the closing price for common and preferred shares on the last trading day of the period;(4) Includes sureties and guarantees, letters of credit, advances of credit card receivables, co-obligations in loan assignments (receivables-backed investment funds and mortgage-backed receivables), co-obligations in rural loan assignments and operations bearing creditrisk – commercial portfolio, which includes debentures and promissory notes; and(5)n the last 12 months.

---

**Highlights**

15. Bradesco has an extensive Customer Service Network in Brazil, with 4,661 Branches and 3,502 Service Points (PAs). Customers can also count on 1,135 ATMs, 50,043 Bradesco Expresso service points, 31,091 Bradesco Dia & Noite ATMs, and 17,850 Banco24Horas Network ATMs.

16. Payroll, plus charges and benefits, totaled R\$ 2.950 billion. Social benefits provided to all 94,976 employees of Bradesco Organization and their dependents amounted to R\$ 752.497 million, while investments in education, training and development programs totaled R\$ 22.663 million.

17. Major Awards and Acknowledgments in the period:

- Bradesco was considered the most valuable banking brand in Latin America and the 15<sup>th</sup> in the global ranking (The Banker Magazine / Brand Finance);
- Leading bank in the general ranking of assets under custody, exceeding the amount of R\$ 1 trillion, for the first time, in November 2014 (*Investidor Institucional Magazine / Anbima*);
- It was a highlight in the list of “Investment Funds of the Century”, figuring with three funds among the 20 best in profitability, between 2000 and 2014 (*Valor Econômico* Newspaper, in a study conducted by the Center of Finance Studies at *Fundação Getúlio Vargas*); and
- Bradesco Saúde was elected the most promising company for 2015, in the “Pharmaceutical and Health” segment. (*Forbes Brasil Magazine*, in a research conducted with market consultants, economists and private equity executives).

Bradesco Organization is fully committed with internationally recognized sustainability and corporate governance initiatives, particularly: Global Compact, PRI (Principles for Responsible Investment), and Equator Principles. We set our guidelines and strategies with a view to incorporating the best sustainability practices into our businesses, considering the context and the potential of each region, thus contributing to the generation of value in the Organization. The driving forces behind our engagement are inclusion with education, democratization and presence, innovation, sustainability and continuity of our businesses. Our management process adopts economic and social, and environmental indexes developed in Brazil and abroad, such as the Dow Jones Sustainability Index (DJSI), the Corporate Sustainability Index (ISE, of BM&FBovespa), and the Carbon Efficient Index (ICO2, also of BM&FBovespa), as well as the guidelines and indexes of the Global Reporting Initiative (GRI) and the CDP.

With a broad social and educational program in place for 58 years, Fundação Bradesco operates 40 schools across Brazil. In 2015, an estimated R\$ 537.311 million budget will benefit approximately 101,609 students enrolled in its schools in the following levels: basic education (kindergarten to high school) and vocational training - high school, youth and adult education; and preliminary and continuing vocational training, which focuses on creating jobs and income. In addition to being guaranteed free quality education, the approximately 44 thousand students enrolled in the Basic Education system also receive uniforms, school supplies, meals, and medical and dental assistance. With regard to the distance learning system (EaD), it is estimated that 380 thousand students will benefit from it, through its e-learning portal *Escola Virtual* (Virtual School). In addition to these 380 thousand students who will conclude, at least, one of the various courses offered in its schedule, another 17

thousand students will benefit from projects and initiatives carried out in partnership with Centers for Digital Inclusion (CDIs), the *Educa+Ação* Program, and from Technology courses (*Educar e Aprender* - Educating and Learning).

(1) Expanded Loan Portfolio: includes sureties and guarantees, letters of credit, advances of credit card receivables, co-obligations in loan assignments (receivables-backed investment funds and mortgage-backed receivables), co-obligations in rural loan assignments and operations bearing credit risk – commercial portfolio, covering debentures and promissory notes;

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of “excess” ALL;

(3) In the last 12 months;

(4) For comparison purposes, shares were adjusted in accordance with bonuses and stock splits;

(5) Excluding mark-to-market effect of Available-for-Sale Securities recorded under Shareholders’ Equity;

(6) Year-to-Date Adjusted Net Income;

(7) Excludes additional reserves;

(8) Number of shares (excluding treasury shares) multiplied by the closing price for common and preferred shares on the period's last trading day;

(9) As defined by the Brazilian Central Bank (Bacen);

(10) Overdue Loans;

(11) Since October 2013, the Basel Ratio calculation has followed regulatory guidelines set forth in CMN Resolutions No. 4.192/13 and 4193/13 (Basel III);

(12) As of March 2015, the ratio calculated based on the Prudential Consolidated is included, as set forth in CMN Resolution No. 4.192/13. It is important to note that the Prudential Consolidated is calculated in accordance with the regulatory guidelines set forth in CMN Resolution No. 4.280/13;

(13) The decrease in March 2015 relates to (i) the migration of "External ATM Network Points – Bradesco" to "Banco24Horas Network" and (ii) the deactivation of ATMs from "Assisted Banco24Horas Network Points";

(14) PA (Service Branch): a result of the consolidation of PAB (Banking Service Branch), PAA (Advanced Service Branch) and Exchange Branches, according to CMN Resolution No. 4.072/12; and PAEs – ATMs located on a company's premises;

(15) Including overlapping ATMs within the Bank's own network and the Banco24Horas Network;

(16) This decrease relates to the sharing of external network ATMs by the Banco24Horas Network ATMs;

(17) The decrease in December 2014 includes the transfer of 2,431 employees from Scopus Tecnologia to IBM Brazil;

(18) Number of individual customers (Corporate Tax IDs (CNPJs) and Individual Taxpayer IDs (CPF));

(19) Refers to first and second checking account holders; and

(20) Number of accounts.

## **Summarized Analysis of Adjusted Income**

### **Adjusted Net Income and Profitability**

The return on the Average Adjusted Shareholder's Equity (ROAE) stood at 22.3% in March 2015. Such performance stems from the growth of adjusted net income, which increased by 3.4% quarter-over-quarter and 23.1% compared with the same period in the previous year. The main events that affected adjusted net income are detailed below.

Adjusted net income reached R\$ 4,274 million in the first quarter of 2015, up R\$ 142 million or 3.4% compared to the previous quarter, mainly due to (i) lower personnel and administrative expenses, primarily due to the seasonality of higher expenses being concentrated in the last quarter of every year; (ii) a higher net interest income, due to increased "interest" earning portion, which includes the effect of the performance of the IPCA; and partially impacted by: (iii) higher other operating expenses, net of other operating expenses; (iv) higher allowance for loan losses expenses; and (v) lower income from insurance, pension plans and capitalization bonds.

In the comparison between the first quarter of 2015 and the same period in the previous year, the adjusted net income increased R\$ 801 million or 23.1%, which reflects the highest revenues due to: (i) the interest earning portion, partially due to the effect of the assets and liabilities management (ALM); (ii) the services provided; being partially offset by: (iii) higher allowance for loan losses expenses; (iv) increased operating expenses, net of other operating income; and (v) higher personnel and administrative expenses.

Shareholders' Equity stood at R\$ 83,937 million in March 2015, up 14.5% over March 2014. Basel III Ratio, calculated based on the Prudential

Consolidated, stood at 15.2%, 12.1% of which was classified as Common Equity/Tier I.

Total Assets reached R\$ 1.035 trillion in March 2015, a 12.2% increase over March 2014, driven by the increased turnover. Return on Average Assets (ROAA) reached 1.7%.

- Economic and Financial Analysis Report – March 2015

---

## Summarized Analysis of Adjusted Income

### Efficiency Ratio (ER)

The 12-month accumulated ER<sup>(1)</sup> reached 38.3% in the first quarter of 2015, again registering his best historical level. This result reflects: (i) investments in organic growth, which enabled an increase in income; and (ii) the continued efforts to control expenses, including our Efficiency Committee actions and investments in Information Technology, which have improved internal systems and processes. It should be mentioned that the 0.9 p.p. improvement compared to the previous quarter was primarily due to: (i) a higher net interest income and revenues from fee and commission; and (ii) the strict control of our operating expenses, which were held below inflation; all these factors also contributed to the improvement of the ER in the “risk-adjusted” concept, reflecting the impact of the risk associated with loan operations<sup>(2)</sup>, which reached 46.9%, an improvement of 1.0 p.p. in the quarter.

The improvement in the quarterly ER was, mainly, due to: (i) lower administrative expenses, primarily due to the seasonal effect of the previous quarter, which impacted mainly advertising expenses and outsourced services; (ii) lower personnel expenses, partially due to a higher number of employees on vacation in this quarter; and (iii) the increase in the net interest income. This indicator showed an improvement of 3.8 p.p., when compared with the same period in the previous year, primarily, due to the increase in the interest earning portion and in the fees and commission income.

(1) ER = (Personnel Expenses – Employee Profit Sharing + Administrative Expenses)/(Net Interest Income + Fee and Commission Income + Income from Insurance + Equity in the Earnings (Losses) of Unconsolidated Companies + Other Operating Income – Other Operating Expenses). If we considered the ratio between (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to income generation + Insurance Sales Expenses) and (ii) net income generation of related taxes (not considering Insurance Claims and Sales Expenses), our ER accumulated in the last 12 months in the first quarter of 2015 would be 42.5%; and

(2) Including ALL expenses, adjusted for discounts granted, loan recovery and sale of foreclosed assets, among others.

Press Release

## Summarized Analysis of Adjusted Income

### Net Interest Income

In the comparison between the first quarter of 2015 and the fourth quarter of 2014, the R\$ 613 million growth was, mainly, due to an increased income from interest earning portion, totaling R\$ 587 million, particularly in “Securities/Other”, which includes the effect of the IPCA performance in the quarter.

In the year-over-year comparison, net interest income was up R\$ 2,637 million, primarily due to: (i) a higher interest earning portion income, totaling R\$ 2,401 million, due to a growth in business volume and an increase in Selic in the period, with regard to the effect of the assets and liabilities management (ALM), particularly in the “Credit Intermediation” and “Securities/Other”; and (ii) an increase in the non-interest earning portion, totaling R\$ 236 million.

(1) As of the first quarter of 2015, we will adopt the new presentation of the Interest Earning Portion, which will be demonstrated in 3 sub-items (Credit Intermediation, Insurance and Securities/Other), as communicated to the market on April 20, 2015. For more information, see page 82 of Chapter 2.

The interest earning portion rate in the last 12 months stood at 7.3% in the first quarter of 2015, up 0.2 p.p. over the previous quarter, primarily due to the interest earning portion income of “Securities/Others” and “Credit Intermediation”.

---

 Bradesco \_\_ \_\_

Press Release

## **Summarized Analysis of Adjusted Income**

### **Expanded Loan Portfolio<sup>(1)</sup>**

In March 2015, Bradesco's expanded loan portfolio totaled R\$ 463.3 billion. The increase of 1.8% in the quarter was largely due to Corporations, which increased 4.6%.

In the last twelve months, the portfolio increased by 7.2%, broken down by: (i) 10.4% in Corporations; (ii) 7.1% in Individuals; and (iii) 1.9% in SMEs.

In the Corporate segment, the products that posted the strongest growth in the last 12 months were: (i) operations abroad; and (ii) real estate financing. For Individuals, the highlights were: (i) real estate financing; and (ii) payroll-deductible loan.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in receivables-backed investment funds, mortgage-backed receivables, and farm loans.

For more information, see Chapter 2 of this Report.

### **Allowance for Loan Losses (ALL) <sup>(1)</sup>**

In the first quarter of 2015, allowance for loan losses (ALL) stood at R\$ 3,580 million, registering a variation of 8.3% over the previous quarter, and 25.1% over the first quarter of 2014, largely due to the alignment of the allowance level relating to the current expectation of loss in certain transactions with corporate customers. It is important to note that loan operations, as defined by Bacen, increased 1.7% in the quarter and 7.4% in the last 12 months.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of "excess" ALL.

For more information, see Chapter 2 of this Report.

Economic and Financial Analysis Report – March 2015

## Summarized Analysis of Adjusted Income

### Delinquency Ratio<sup>(1)</sup>

The total delinquency ratio, which contemplates operations that are over 90 days past due, had a slight increase in the year-over-year and quarter-over-quarter comparison, mainly due to the downturn in economy, which impacted the growth of the portfolio of the SMEs segment.

Short-term delinquency, including operations past due between 15 and 90 days, increased both for Individuals and Corporations, which has already been expected, due to the seasonal nature of the quarter, with a possibility of recovering the historical standard, according to the following graph.

In the year-over-year comparison, this ratio remained stable, being favored due to an increase in the Individual segment.

Press Release

## Summarized Analysis of Adjusted Income

### Coverage Ratios

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses (ALL) required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

The following graph presents the performance of the Allowance for Loan Losses (ALL) coverage ratios, with regard to loans past due for more than 60 and 90 days. In March, 2015, these ratios stood at comfortable levels, reaching 149.8% and 187.0%, respectively.

Economic and Financial Analysis Report – March 2015

---

**Summarized Analysis of Adjusted Income****Income from Insurance, Pension Plans and Capitalization Bonds**

Net income for the first quarter of 2015 totaled R\$ 1.283 billion (R\$ 1.236 billion in the fourth quarter of 2014), up 3.8% when compared to the previous quarter, and an annualized return on Adjusted Shareholder's Equity of 27.3%.

In the comparison between the first quarter of 2015 and the same period of previous year (R\$ 1.040 billion), the net income increased 23.4%.

(1) The first quarter of 2015 includes the latest data released by SUSEP (February 2015).

Note: For purposes of comparison between the indexes for the aforementioned periods, the effects of non-recurring events have not been included.

Press Release

### Summarized Analysis of Adjusted Income

The revenue increased 19.4% over the same period in the previous year, without including DPVAT insurance, mainly due to "Life and Pension", "Health" and "Capitalization" products, which were increased 26.5%, 19.7% and 11.0%, respectively.

Due to the large amount of pension plan contributions, which are historically paid in the last quarter of the financial year, the revenue of the first quarter of 2015 did not present the same result, when compared with the fourth quarter of 2014.

Net income for the first quarter of 2015 was 3.8% higher compared to the previous quarter, primarily due to: (i) an improvement in the expense ratio; (ii) a growth in income; (iii) lower general and administrative expenses, even considering the collective bargaining agreement, in January 2015; partially offset by: (iv) a decrease in equity; and (v) a 0.8 p.p. increase in the claims ratio.

Net income for the first quarter of 2015 was 23.4% higher compared to the same period in the previous year, primarily due to: (i) an increase in revenue; (ii) maintenance of the expense ratio; (iii) an improvement in income; (iv) a decrease in the administrative efficiency ratio, even considering the collective bargaining agreement, in January 2015; partially offset by: (v) a 1.6 p.p. increase in the claims ratio; and (vi) a decrease in the equity result.

### Minimum Capital Required – Grupo Bradesco Seguros

According to CNSP Resolution No.316/14, corporations should have adjusted shareholder's equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the highest value between the base capital and the risk capital. For companies regulated by the ANS, Normative Resolution No.209/09 establishes that corporations should have adjusted shareholder's equity (ASE) equal to or higher than the Solvency Margin.

The capital adjustment and management process is continuously monitored, and aims to ensure that Grupo Bradesco Seguros keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles. Companies must permanently maintain a capital compatible with the risks for their activities and transactions, according to the characteristics and peculiarities of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required in February 2015 was R\$ 7.656 billion.

## **Summarized Analysis of Adjusted Income**

### **Fee and Commission Income**

In the comparison between the first quarter of 2015 and the same period in the previous year, the increase of R\$ 461 million, or 8.7%, was primarily due to: (i) an increase in the volume of operations, due to continuous investments in technology and service channels; and (ii) progress in the customer segmentation process, allowing for a more adequate offer of products and services. It must be noted that the incomes that have most contributed to this result derived from: (i) the good performance of the cards activity, as a result of (a) an increased revenue (credit and debit cards); (b) increase of cards base; an increase in the incomes that resulted from: (ii) checking accounts, primarily due to a growth in businesses; (iii) fund management; (iv) loan operations, due to an increase in the volume of loan drawdowns and transactions involving sureties and guaranties within the period; (v) consortium management; and partially offset by: (vi) lower stock-market gains (underwriting/ financial advisory services).

In the first quarter of 2015, fee and commission income totaled R\$ 5,744 million, with a decrease of R\$ 95 million, or 1.6%, over the previous quarter, primarily due to fewer working days, which impacted on the income generated with loan operations, fund management and collection.

Press Release

## Summarized Analysis of Adjusted Income

### Personnel Expenses

In the comparison between the first quarter of 2015 and the same period in the previous year, the increase of R\$ 166 million, or 5.1%, was primarily due to the variation in the “structural” portion, related to higher expenses with payroll, social charges and benefits, affected by increased wage levels, in accordance with 2014 collective agreements (readjustment of 8.5%).

In the first quarter of 2015, the decrease of R\$ 231 million, or 6.3%, from the previous quarter, is a result of variations in:

- structural expenses – a decrease of R\$ 120 million, mainly due to a higher number of employees on vacation, which is common in the first quarter of every year; and
- non-structural expenses – a decrease of R\$ 111 million, primarily due to lower expenses with: (i) provision for labor claims; (ii) training; and (iii) costs with termination and charges of employment contracts.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with Termination of Employment Contracts.

(1) The decrease in the fourth quarter of 2014 includes the transfer of 2,431 employees from Scopus Tecnologia to IBM Brazil.

Economic and Financial Analysis Report – March 2015

## **Summarized Analysis of Adjusted Income**

### **Administrative Expenses**

In the comparison between the first quarter of 2015 and the same period in the previous year, the 4.4% increase was primarily due to a consistent cost control, despite increasing expenses with: (i) growth in turnover and services in the period; (ii) contractual adjustments; and (iii) expansion of 1,597 Service Points in the period, bringing the total number of Service Points to 74,917 on March 31, 2015. The inflation index (IPCA) performance over the past 12 months should also be highlighted, since it reached 8.1%.

In the first quarter of 2015, the decrease of 12.5% or R\$ 520 million, in the administrative expenses over the previous quarter, was mainly due to lower expenses with: (i) advertising and marketing, due to the reinforcement of investments in actions to maintain the institutional positioning and support the offer of products, carried out at the end of 2014; and (ii) outsourced services, which are largely impacted by the seasonal effect of the increase in transactions and services mainly in the fourth quarter of each year.

(1) The decrease in March 2015 relates to (i) the migration of “External ATM Network Points – Bradesco” to “Banco24Horas Network” and (ii) the deactivation of ATMs from “Assisted Banco24Horas Network Points”.

### **Other Operating Income and Expenses**

Other operating expenses, net of other operating income, totaled R\$ 1,912 million in the first quarter of 2015, a R\$ 552 million increase over the previous quarter, and R\$ 521 million over the first quarter of 2014, largely due to the constitution of tax provisions, relating to the levy of pension plan contributions and IRPJ/CSLL on credit losses, in the amount of R\$ 475 million.

Press Release

## **Summarized Analysis of Adjusted Income**

### **Income Tax and Social Contribution**

The expenses with income tax and social contribution remained practically stable in the first quarter of 2015 over the previous quarter, and increased 21.6%, when compared to the same period of 2014, mainly due to the highest taxable results in the period.

### **Unrealized Gains**

Unrealized gains totaled R\$ 19,815 million in the first quarter of 2015, a R\$ 472 million increase over the previous quarter. Such variation is mainly due to: (i) the appreciation of investments, particularly Cielo and Odontoprev shares, which increased by 9.6% and 10.2% respectively, in the quarter; partially offset by (ii) the devaluation of fixed income securities.

Economic and Financial Analysis Report – March 2015

---

## **Capital Ratios - Basel III**

### **Basel Ratio**

The implementation of the new capital structure in Brazil began in October 2013. Through the CMN Resolution No. 4.192/13, Bacen provided a new methodology to calculate Capital, replacing CMN Resolution No. 3.444/07. Since then, the Capital started being calculated based on CMN Resolution No. 4.192/13, which established that the calculation must be made based on the "Prudential Consolidated", as of January 2015.

In March 2015, the Capital of the Prudential Consolidated stood at R\$ 93,608 million, against risk-weighted assets totaling R\$ 614,574 million. The total Basel Ratio stood at 15.2% in the Prudential Consolidated, and 12.1% for the Common Equity.

The difference in the comparison between the current method to calculate the Prudential Consolidated, and the previous Financial Consolidated, is mainly due to the consolidation of companies that are similar to financial institutions (Bradesco Consórcios, Cielo, among others) and investment funds, which became the scope, according to the current legislation.

It is worth noting that the decrease in the first quarter of 2015 is, largely, due to: (i) the change to the factor that has been applied to the prudential adjustments, according to CMN Resolution No. 4.192/13, which went from 20% in December 2014, to 40% as of January 2015; and (ii) the effect of the purchase of intangible assets by our subsidiary Cielo.

### **Full Impact – Basel III**

We included a Basel III simulation, considering the opening of some of the main future adjustments, which include: (i) the application of 100% of the deductions provided in the implementation schedule; (ii) the allocation of resources, obtained via payment of dividends, of our Insurance Group; and (iii) the realization of tax credits arising from tax losses up to December 2018, for a rate of 12.0% of common equity, which, added to funding obtained via subordinated debt, may amount to an approximate Tier I ratio of 13.5%, in the end of 2018.

(1) Includes the allocation of resources, obtained via payment of dividends, of the Insurance Group.

### **Buffer Capital/Return on the Common Equity at 11%**

Banco Bradesco has improved its measurement methodology, and structured processes for buffer capital, so that it can maintain enough capital available to cope with the risks incurred.

The Governance structure responsible for the evaluations and approvals of buffer capital is composed of a Committee subordinated to the Board of Directors, and Committees that report to the Board of Executive Officers.

This structure decided to maintain a minimum buffer capital of approximately 27%, considering the minimum regulatory capital of 11%.

Considering the minimum required Common Equity of 11% according to the full interpretation of Basel III rules, profitability would be 25.3% in the first quarter of 2015.

Bradesco \_ \_

Press Release

## **Economic Scenario**

The international volatility remained high during the first quarter of the year, especially in the foreign-exchange market. The persistence of the movement of decline in the prices of commodities was added to the frustration with the performance of the Chinese economy, with a direct (and negative) impact on emerging economies. At the same time, the expectation of proximity of the beginning of monetary normalization in the USA was consolidated, which sustained the trend of appreciation of the dollar in relation to the other currencies. Finally, the risks that the persistently low inflation in the area of the Euro frustrates the resuming of the block, which led the European Central Bank (ECB) to expand their asset purchase program, including sovereign securities of the member countries of the European block.

Although the growth of the North American economy has shown some accommodation in the first three months of the year, the trajectory of recovery persists. Thus, the Federal Reserve (Fed) intensified the signal that it will start the process of monetary normalization. As a result, the dollar deepened its trend of strengthening in relation to the other countries.

The international volatility was also influenced negatively by the renewed political risk in Europe, in face of the difficulty of extending the Greek adjustment program. Even so, the performance of the economic activity of the block was positively surprising in the first quarter. On the other hand, China showed more intense deceleration than expected, compatible with the rate of growth of the GDP inferior to the target of 7.0%, established by the government of the country.

The loss of exchange terms due to the dropping prices of commodities on a world level, and the trend of international appreciation of the dollar create challenges to emerging nations' management of economic policy. On the other hand, this very

Under this context, the macroeconomic adjustments adopted by the Brazilian government since the beginning of the year reinforce their commitment with sustainable policies. Efforts in this direction represent a requirement for the maintenance of the economic predictability and income gains, in addition to raising the confidence level of families and business people.

Indicators for domestic economic activities have been modest, further highlighting the relevance of structural initiatives aimed at promoting future growth. The constant search for excellence in education is Brazil's front line in its struggle to become more competitive and to expedite its efforts to upgrade infrastructure. It is always important to remind that, in the long term, the main source of economic growth is productivity, which becomes an even more relevant topic within a global context characterized by high levels of efficiency.

Productive investments tend to play an increasingly relevant role in the breakdown of growth over the next few years, which should be favored by the increased share of the capital market in funding of these projects. At the same time, despite the shift in consumer market expansion levels in some segments, the potential of domestic demand for goods and services has yet to be depleted, and there is still much room for growth.

Bradesco maintains a positive outlook towards Brazil, with favorable perspectives for its operating segments. Credit volume is growing at sustainable and risk-compatible rates, whereas delinquency rates are stabilized at historically low and controlled levels. The scenario is still very promising for the Brazilian banking and insurance sectors.

same global scenario also creates some valuable opportunities for countries that adopt effective economic and institutional differentiation measures.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
