Message of the Board of Directors' Chairman and of the Chief Executive Officer

Cidade de Deus, Osasco, SP, February 3, 2016.

Dear shareholders,

Once more we are pleased to invite you to participate in the Special and Annual Shareholders' Meetings to be cumulatively held on March 10, 2016, at 4 p.m., in our headquarters, in Núcleo Cidade de Deus, Prédio Vermelho, Salão Nobre do 5o andar, Vila Yara, Osasco, São Paulo.

Not by chance, also again, this important event will be held on the same date Bradesco will complete 73-year existence.

The choice of this date, besides being so meaningful for the Bradesco Organization, consolidates our pioneering spirit in the Annual Shareholders' Meeting Calendar in the national market, which demanded increased engagement to study all the changes recently observed in the legislation in force, examining and tailoring a large volume of information that we are making available, with trust, in this Manual, in which you will find the necessary guidelines for the evaluation of the matters and in the decision-making process in the mentioned Shareholders' Meetings.

We believe that these next 36 days that separate us from the date of our Shareholders' Meetings are sufficient for an adequate evaluation of the matters that will be submitted to you.

Certain to continue relying on the trust that you have in us and, especially, in the Bradesco Organization, we remain at your disposal for any clarifications you deem necessary.

Sincerely,

Lázaro de Mello Brandão

Chairman of the Board of
Directors

Luiz Carlos Trabuco Cappi

Shareholders' Meeting held on December 17, 2015 and proposals to increase the capital

stock by means of capitalization of free existing reserves through bonus stock to shareholders, with consequent statutory amendment

Dear shareholders,

The Board of Directors of Banco Bradesco S.A. hereby submits, for your examination and resolution:

1) the ratification of the decision made on this date, in a meeting of this Body, to cancel the capital stock increase by means of private subscription of shares approved in the Special Shareholders' Meeting held on December 17, 2015, at the amount of R\$3,000,000,000.00, by the issuance of

164,769,488 new book-entry, registered shares, with no par value, of which 82,571,414 are common shares at the unit price of R\$19.20 and 82,198,074 are preferred shares at the unit price of R\$17.21. The decision derived from the volatility of the national and international stock markets, with impacts on the share price in the Stock Exchange;

2) proposals to increase the capital stock in R\$8,000,000,000.00, increasing it from R\$43,100,000,000.00 to R\$51,100,000,000.00, with bonus stock, by means of capitalization of part of the balance of the "Profit Reserves - Statutory Reserve" according to the provisions of Article 169 of Law No. 6,404/76, by issuing 504,872,885 new book-entry, registered shares, with no par value, of which 252,436,456 are common shares and 252,436,429 are preferred shares, to be attributed free of charge to shareholders at the ratio of 1 new share to each 10 shares of the same type they hold on the record-date, observing that:

I. **Purposes:** adjust the limit of the balance of the profits reserves of the Company to the provisions of Article 199 of Law No. 6,404/76 and to Article 28 of the Bylaws. In addition, a greater number of outstanding shares can lead to an increase in business and make it possible to adjust the price, making the unit price more attractive and accessible to a larger number of investors.

II. **Record Date of Entitlement to the Bonus Stock:** it will be informed to the market after the respective process is approved by the Central Bank of Brazil.

III. **Trading:** current shares shall continue to be traded entitled to bonus and the new shares will be available for trading after the approval of the respective process by the Central Bank of Brazil and inclusion in the shareholders' position, to be notified to the market.

IV. **Bonus Shares Entitlement** they will be entitled to dividends and/or interest on shareholders' equity to be declared as of the date of their inclusion in the shareholders' position. They are also fully entitled to eventual advantages attributed to other shares as of the aforementioned date.

They will continue to be paid according to the System for Payment of Monthly Dividends/Interest on Shareholders' Equity. The withholding

income tax does not apply to legal entities that are exempt from such taxation. In this way, the total amount paid monthly will change due to the larger number of shares issued.

VI. Fractions of Shares: the bonus stock will occur in whole numbers. The remaining shares resulting from fractions of shares will be separated, grouped into whole numbers and sold in an auction to be held at BM&FBOVESPA S.A. -Bolsa de Valores, Mercadorias e Futuros (BM&FBOVESPA) - Securities, Commodities and Futures Exchange. - the volatility of the national and international stock markets, with impacts with impacts on the share price in the Stock Exchange; and
- the need to protect the interests of minority shareholders, which could be damaged either by the dilution of their shareholdings participation due to non-subscription in the aforementioned capital stock increase or by the possibility to subscribe to shares issued by the Company by a value that is higher than the share price at BM&FBOVESPA.

Subscribed Shares

The shareholders who have exercised their preemptive right in the subscription will not be harmed at all, since the respective reports will be cancelled and the payment of the amount corresponding to 100% of subscribed shares would occur only on March 1, 2016, which will not occur due to the mentioned cancellation.

Information on the Management Compensation and on the Fiscal Council's Effective Members Monthly Compensation, pursuant to Item 13 of Attachment 24 of CVM Instruction No. 480, of December 7, 2009

13. Management Compensation

13.1. Description of the policy or compensation practice, including the Board of Executive Officers a) Objectives of the policy or practice of compensation

In 2012, Bradesco amended its compensation policy for managers in order to reflect the objectives established by Resolution No. 3,921, of the National Monetary Council (CMN), which caused, from that year on, the payment of part of the amount approved in the Annual Shareholders' Meeting as variable compensation.

Its policy aims at:

- ensuring that the compensation practice is in accordance with the law, rules and regulations that govern the matter, based on the Manager's duties, which result from the positions they hold and functions they perform; time dedicated to their functions; in competence and professional reputation, in view of their experience and qualification; and in the value of their services in the market;
- providing alignment between compensation practices for the Management and the Organization's interests, so that the decisions made are the best as possible, seeking to create value for its shareholders and investors; and
- ensuring that the compensation practice is related to objectives that seek the valuation of the Organization, not encouraging behaviors that increase the risk exposure above levels considered prudent for the strategies adopted for the short, medium and long terms.

b) Composition of compensation, indicating:

**i. description of the compensation elements and objectives of each one of them a)
Board of Directors and Board of Executive Officers**

The compensation of the members of the Board of Directors and of the Board of Executive Officers consists of Fixed Compensation, represented by Monthly Compensations fixed for the duration of their term, and Variable Compensation, based on target criteria and performance indicators, attributed according to the criteria of multiple Monthly Compensation, up to the limit authorized by the Shareholders' Meeting.

In addition, annually, a proposal is submitted to the approval of the Shareholders' Meeting to fund the Pension Plan for Managers, the amounts of which are shown in item 13.2, as post-employment benefits.

Pursuant to CVM Circular Letter CVM/SEP/No 02/2015, we are indicating in item 13.2, in the years 2015, 2014 and 2013, the amounts corresponding to social security contributions (INSS) paid by Bradesco and recognized in its results.

b) Fiscal Council

Complementary Information

The compensation of the Effective Members of the Fiscal Council is fixed by the Shareholders' Meeting in which they are elected and they cannot be lower, for each member in office, to 10% (ten percent) of the monthly compensation that, on average, is attributed to each Officer, as fixed compensation, without, under current legislation, the payment of benefits, expense account and participation in the Company's profit sharing, or any other denomination.

c) Audit Committee

The compensation of the Members of the Audit Committee is represented by fixed monthly payments for the term of his mandate, with the exception of a member which only receives remuneration as a member of the Board of Directors, and aims at rewarding the contribution of each member for acting on advising the Board of Directors in the performance of its attributions related to the follow up of the accounting practices adopted in the preparation of the Company's financial statements and of its subsidiaries, as well as in the process of appointing and evaluating the effectiveness of the independent audit.

Another important factor in the definition of the compensation is that the Committee's members must have high technical qualification so as to exercise their position and at least one of them must have proven knowledge in the areas of accounting and auditing of financial institutions which qualify him to exercise his function, proving the high degree of expertise required from them, including by the regulatory bodies.

d) Compensation Committee

The Compensation Committee, defined in the Bylaws, is composed by members chosen among the members of the Company's Board of Directors and also, as required by the Resolution No. 3,921/10, of the National Monetary Council, by 1 (one) non-administrator member. The members of the Board of Directors and the non-administrator member, when an employee of the Bradesco Organization, are not compensated due to the position of member of the Remuneration Committee. While being a non-employee, when nominated, the member has his/her compensation set by the Board of Directors, according to the market parameters. No manager of the Bradesco Organization is remunerated for the functions that he/she exercises in the Bradesco Organization committees.

e) Other Committees

The members of the other committees are remunerated only for the duties they perform in the management bodies or executive areas in which they act at Bradesco Organization. No Manager of Bradesco Organization is remunerated for duties that they perform in the referred committees.

ii. the proportion of each component in the total compensation

The Managers' compensation is comprised of Fixed Compensation, represented by Monthly Compensations established according to the duration of their term, and Variable Remuneration awarded according to the criteria of multiple Monthly Compensations, based on target criteria and performance indicators, up to the limit authorized by the Shareholders' Meeting.

We highlight that the proportion/percentage of each element in the total compensation is not established, and it can be changed annually.

2) the proportion/percentage highlighted in the Variable Annual Compensation column includes the value of the INSS (social security)

iii. methodology for calculating and adjusting each component of the compensation

Board of Directors and Board of Executive Officers

- **Fixed Compensation or Monthly Compensation:** monthly fixed compensations established for the period of the Administrator's term.

- **Variable Compensation:** amount attributed to the Managers, as performance compensation, in addition to the Fixed Compensation, based on the target criteria and performance indicator. It is important to highlight that the total Variable Compensation will be paid on a date defined by the Board of Directors, and 50% of the net value of the Variable Compensation will be allocated for the purchase of preferred shares issued by Banco Bradesco S.A., which are filed and unavailable ("Restricted Shares"). The Restricted Shares become available in 3 (three) equal, annual and successive installments. The first installment will expire one year after the date of the acquisition of shares.

- **Overall Amount:** includes the total compensation (fixed compensations and variable compensation).

To determine the overall amount for compensation, the Bradesco Organization observes the following criteria:

1. **Bradesco Organization's Remuneration Committee:** proposes to the Board of Directors the Overall Amount for compensation (Monthly Compensation and Variable Compensation). The payment of Variable Compensation will observe the target criteria and performance indicators to be established and will be limited to Overall Amount, to be distributed to the Managers).

To define the Overall Amount for compensation (Monthly Compensations and Variable Compensation), the Remuneration Committee shall observe the following aspects:

- size and result of the company comparing to its competitors;
- domestic and international economic conditions, taking into consideration the past, present and future scenarios;
- internal and external factors that may affect the Organization's businesses (current and potential risks); and
- Organization's Overall performance, involving the recurrent income realized and the capacity to produce cash flows.

Complementary Information

The Remuneration Committee will use other indicators when deem necessary and suitable. In addition, it will use studies, evaluations, surveys and other materials prepared by the technical areas, such as DEPEC - Department of Research and Economic Studies, DPOC - Department of Planning, Budget and Control, General Accounting and DCIR - Department of Integrated Risk Control, besides other areas it deems appropriate.

2. **Board of Directors:** the most important management Body of the Organization, it must evaluate the Remuneration Committee proposals and resolve on them.

3. **Shareholder's Meeting:** it is incumbent on the Shareholders Meeting to approve the Overall Amount for the compensation of the Company.

After fulfilled all steps to determine and approve the Overall Amount for compensation, it is incumbent on the Board of Directors of Bradesco to establish the compensation of each one of the Managers, comprised by Monthly Compensation and, based on the fulfillment of the target criteria and indicators, Variable Compensation.

Audit Committee

The process to calculate and readjust the Audit Committee's compensation starts in the Remuneration Committee.

The Board of Directors, on its turn, evaluates the recommendations and proposals of this Committee and defines the amount of compensation for each Committee's member.

iv. reasons that justify the composition of compensation

The Bradesco Organization adopts the system of "Closed Career", hiring new employees, preferably to the initial positions, developing and preparing these employees to hold higher positions, when available. So the executive positions are filled in its majority by professionals trained at the Organization itself and, therefore, reveal a consolidated personal career, focused on the Organization's goals, in medium and long terms.

At the same time the system of "Closed Career", and as a way to allow the utilization of its best professionals, Bradesco Organization promotes a constant and rotational movement, shifting employees/Managers, especially those leading areas. Bradesco Organization provides to the Manager, through the "Rotation of Duties", greater integration, experience, personal challenges and consolidation of career, being continuously monitored and evaluated for possible movements in the hierarchy.

Within this context, the Organization aims to ensure that the compensation practice complies with the law, rules and regulations that govern the matter, based on (i) the Managers responsibilities, taking into consideration the different positions they hold and the functions they perform; (ii) the time dedicated to their duties; (iii) the competence and professional reputation, considering their experience and qualification; and (iv) the value of its services in the market.

c) main performance indicators that are taken into consideration in determining each component of compensation

Corporate Assessment Process

The uniformity in the treatment of work areas is one of the keys for the Organization's effectiveness, as a manner to inhibit the individualism, maintaining a good work environment favorable for teamwork.

The Organization maintains a collegiate management culture, in which all relevant decisions, business or administrative ones, are made by committees composed, primarily, by Managers.

Complementary Information

Thus, even with the establishment of goals and objectives for all areas, individually, for purposes of compensation prevails the Overall performance of the Organization, making no segregation of area, if it is considered as area of business or support, technical or relationship.

This overall performance, denominated in the Corporate Rule as Corporate Assessment Process takes into consideration the outcome of performance indicators, as follows:

- ROAE -Return on Equity -Adjusted;

- Overall Customer Satisfaction Index;

- Basel Index -Level 1;

- Operating Efficiency Ratio (ER);

- Coverage Index.

Individual assessment process

The individual performance of Managers, as well as the performance of their respective areas, is accompanied by their respective superiors. The formal assessment process, according to National Monetary Council, Instruction No. 3,921, is semiannually established.

For the formal assessment process, specific indicators are defined for areas and for individual assessment, according to the Managers' functions, taking into account the areas for business, controls, and other supporting areas.

For the assessment of areas, at least the following groups of indicators are considered:

- a. main activity actions: are indicators that suggest the goals and objectives of the main activities of the area;
- b. actions focused on operational efficiency: are indicators that measure the operating efficiency, in order to maximize their results with minimum use of resources;
- c. actions directed to risks management: are corporate indicators that measure exposure to risk and the internal controls, properly monitored by the responsible Area (Integrated Risk Control Department - DCIR);
- d. actions directed to customer service: are indicators that assess the results/levels of satisfaction of internal and/or external customers; and
- e. actions directed to environmental aspects: are indicators that assess the degree of compliance of the objectives of the area to environmental aspects.

For individual assessment, at least the following indicators are considered:

- a. quality of the products/services: aims to evaluate the quality standards of products/services offered/rendered according to the area of the Manager assessed;
- b. commitment to strategy: aims to evaluate if its performance reflected positively with material contributions to the Strategic Planning in the period;
- c. participation in collegiate decisions: aims to evaluate the active participation in meetings and committees, with opinions that contributed to the submitted decisions;

d. leadership team: evaluates the team management process;

e. planning: assesses the ability to plan the activities of their area in the medium and long term;

Complementary Information

f. overview: evaluates, mainly, the Managers' vision about future trends to meet the demands of the market; and

g. applies to the Board of Directors and its respective members, if suitable, the indicators listed above.

The performance assessment of Managers in the areas of internal control and risks management must be based on the achievement of the objectives of their own functions and not specifically in the overall performance of the Organization. The Integrated Risk Control Department-DCIR and the General Inspectorate Department-IGL are considered areas of internal control and risk management in the context of the Bradesco Organization, as well as the related areas of other companies of the Bradesco Organization.

d) how compensation is structured to reflect the evolution of performance indicators

It is up to the Board of Directors, after completion of all stages of definition and approval of the Overall Amount, to set the value of the compensation for each one of the Managers, in compliance with the following rules:

i. uniformity of compensation among members of the same hierarchy (office), or differentiation as a result of the time in that position, experience, academic background or other difference that the Board of Directors deems appropriate;

ii. part of the Overall Amount approved will be distributed in fixed equal monthly installments during the term of office of the Manager, subject to the provisions above, called Monthly Compensation; and

iii. the remaining part of the Overall Amount may be distributed as Variable Compensation, upon proposal of the Remuneration Committee, which shall comply with established target criteria and performance indicators.

Based on the assessment and proposal of the Remuneration Committee, the Board of Directors shall define, the amount of the Variable Compensation that will be paid to Managers, which will correspond to equal multiples of the Monthly Compensation that each Manager is receiving at the date of the resolution for the payment of Variable Compensation.

e) how the compensation policy or practice is in line with the issuer's short, medium and long term interests

In addition to the current legislation, in Bradesco Organization, to establish the Managers' Compensation, it is taken into consideration the organizational culture, having as main practices the "Rotation of Duties" in management positions, the adoption of the "Closed Career" system for the ascension in functional and managing positions and the decision making, primarily by collegiate bodies.

It's a practice of Bradesco Organization to develop, continuously, its human resources, understanding that the personal and professional growth is the main motivation for its employees and managers. The "Closed Career" system is the way to allow the use of its best professionals. The staff, in all levels, including the leadership, has absolute confidence in the possibility offered, to any employee, to ascend the Organization on its own merits, being possible for a bookkeeper to reach the position of Chief Executive Officer or Chairman of the Board of Directors.

Due to this practice, consistently adopted over decades, is that the leadership positions, including the ones in the Board of Directors, are in their majority held by people who began their career at Bradesco Organization.

Complementary Information

Besides this whole process of commitment of Managers, 50% of the net value of the Variable Compensation is for the acquisition of preferred shares issued by Banco Bradesco S.A., which are recorded and unavailable ("Restricted Shares").

Restricted Shares become available in 3 (three) equal, annual and successive installments, expiring the first installment 1 (one) year after the date of acquisition of shares, subject to any adjustments in the event of a significant reduction of Recurring Profit Made or occurrence of negative result of the Company during the Deferral Period.

For the establishment of the deferral related to the 50% previously described, in order to meet the provisions of Article 7 of the CMN (National Monetary Council) Resolution No. 3,921/10, the Organization takes into account the rotation of duties of the mentioned Managers, as well as the collegiate decision-making process through its various committees, with the consequent dilution of possible risks arising from its decisions. Thus, it was established a single percentage of 50% of the net amount of Variable Remuneration, therefore over the 40% established in the Resolution, so as to balance the percentage of the deferred Variable Compensation at levels acceptable to all Managers.

f) existence of compensation supported by subsidiaries, controlled or direct or indirect parent companies

Not applicable.

g) existence of any compensation or benefit related to the occurrence of certain corporate event, such as the sale of the corporate control of the issuer

Not applicable.

13.11 -highest, lowest and the average individual compensation for the Board of Directors, Statutory Board of

Executive Officers and Fiscal Council:

Reason for not filling the table:

The Company's management and supervisory bodies are comprised with professionals affiliated to the Brazilian Institute of Financial Executives ("IBEF") of Rio de Janeiro. On March 2, 2010, the IBEF obtained from the 5th Federal Court of Rio de Janeiro Judicial District (lawsuit 20105101002888-5) an injunction worded as follows:

"Now, therefore, I GRANT the pleaded injunction, determining the suspension of the validity of sub -item 13.11 of attachment 24 of CVM Instruction No.480, in relation to IBEF associates and, consequently, to

the companies to which they are linked, prohibiting the application of any sanction in the affiliates or in the companies to which they are linked until the subsequent decision of this Court."

On May 17, 2013 a judgment on the merits of the referred lawsuit was handed down, through which the **aforementioned injunction was ratified and the request made by IBEF was upheld**, having been given to the defendant - CVM -, that: *“...abstain from implementing the requirement contained in subsection 13.11 of Attachment 24 of CVM Instruction No. 480, as well as apply any penalty related to the noncompliance to the referred request, to IBEF associates and to the companies with which they are associated...”*.

CVM filed an appeal, which was received only in devolutive effect, and the case was sent to the Federal Regional Court of the 2nd Region, according to order made in first instance on December 19, 2013.

The reason for not disclosing the minimum, medium and maximum compensation of the members of the companies' management and supervisory bodies is based on the preservation of individual rights to privacy and safety of the individual members of mentioned statutory bodies.

In respect to these individual rights and judicial decision referred to above, the Company will not disclose the information, unless judicial determination otherwise.

Management's Comments on the Company

10.1 - General Financial and Equity Conditions

Directors should comment:

a) general financial and equity conditions

The directors understand that Bradesco has all financial and asset conditions to ensure the compliance with obligations, guaranteeing the business expansion in the short- and long-terms.

The directors' analysis is based on information from the last three adjusted financial statements on the balance sheet date and the last financial information disclosed, as follows:

2015

2015 was a year of achievements and advances for Bradesco, which become all the more valuable taking into account the environment of uncertainties during the period, in a context of decelerated economy, decreasing GDP and persistent inflation. We have been successful and we are convinced that the financial activity is fundamental for the country to return to the path of growth.

Bradesco, since it was founded 72 years ago, has held an ongoing relationship with society, driven by the vocation of the pioneering spirit and determination to be contemporary at all times. From any angle assessed, the democratization of banking products and services has

been a constant. The culture of quality, intersection point of all initiatives, contributed to the evolution of the technological structure, associated to the technical and professional improvement of the staff, pillars that distinguish us in the financial market.

Among the events of major relevance in 2015, we highlight the signature for the Purchase Contract of Shares with HSBC Latin America Holdings (UK) Limited for the acquisition of 100% of the share capital of HSBC in Brazil. The operation, which is subject to the approval of the competent regulatory agencies, reaffirms the objectives of Bradesco to strengthen its presence and activity in the market.

In the context of corporate sustainability, the Organização Bradesco maintains its commitment in the constant search of integrating its principles to its strategic planning. In the social area, Fundação Bradesco deserves special attention, one of the largest private social and educational programs in Brazil, with 40 schools installed in priority regions of accentuated socioeconomic deprivation, promoting free basic and quality education, strengthening ethical values and civic-mindedness.

With renewed optimism in facing future challenges, Bradesco reiterates its positive vision in relation to Brazil. The planning of the Organization has solid foundations, proven in the scale already achieved, its great diversification in terms of products and services, robust financial and equity situation, one of the largest networks of customer service in Brazil, compatible presence abroad, use of the best corporate governance practices and qualified internal structure, in terms of experience and operational efficiency, to respond to the demands of sustained growth.

With the feeling of overcoming adversity and recognition, we wish to thank our clients and shareholders, for their trust, support and preference; to the directors, employees and other

collaborators, for their effort, dedication and commitment to the Organization's strategies, determinants for the results obtained.

Among the important events of 2015 are the following:

- **on September 14, for the tenth consecutive year, Bradesco was selected to integrate the Dow Jones Sustainability Index -DJSI**, of the New York Stock Exchange, in the Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets portfolios. The DJSI is composed of actions of a select list of companies in the world, with best practices for sustainable development; and

- **since September, Bradesco Clients can withdraw cash and check their balance without the use of the card, in the whole Rede Banco24Horas network, besides the Bradesco network**, using biometric authentication with the palm of the hand.

In addition to the highlights above, in January 2016, Bradesco signed a non-binding Memorandum of Understanding with Banco do Brasil S.A., Banco Santander (Brasil) S.A., Caixa Econômica Federal and Itaú Unibanco S.A., in order to create a holding company of credit intelligence ("GIC"), which will develop a database with the goal of adding, reconciling and handling database and credit-related

information, of individuals and legal entities, which expressly authorize their inclusion in the database, as required by the applicable rules.

Book Net Income was R\$17.190 billion for the year, corresponding to R\$3.42 per share and annualized return of 19.7% on average Shareholders' Equity. The return on Average Total Assets was 1.7%. Consolidated Shareholders' Equity amounted to R\$88.907 billion and total of the adjusted assets stood at R\$1.080 trillion.

Loan operations

The challenging scenario for the credit market makes the Bank maintain its policy always updated and commensurate with the current moment of economy, preserving the expansion and diversification of the offer, which covers the Branch Network, Banking Correspondents and Digital Channels. These differentials have contributed to the implementation of borrowings or in direct lending or in strategic partnerships with the various chains of business.

- R\$474.027 billion was the balance, at year-end, of the consolidated credit operations, in the expanded concept, including sureties and guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in receivables-backed investment funds, mortgage-backed receivables and rural loans, for a 4.2% increase for the period.
- R\$29.499 billion was the consolidated balance of the provision for doubtful accounts, considering an additional provision of R\$6.410 billion, which includes provision for guarantees provided, in the amount required by Resolution No. 2,682/99 issued by the National Monetary Council.

Funding and Asset Management

At year-end, the funds obtained and managed totaled R\$1.510 trillion, 5.9% higher than the previous year. In all, the Bank manages 26.027 million checking account customers, 60.086 million savings accounts with balances of R\$91.879 billion, accounting for 18.0% of the SBPE -Brazilian Savings and Loan System.

- R\$475.486 billion in demand deposits, time deposits, interbank deposits, Federal funds purchased and securities sold under agreements to repurchase and savings deposits;
- R\$550.284 billion in managed funds, comprising Investment funds, managed portfolios and third- party fund units, a 12.6% increase;
- R\$248.210 billion, recorded in Foreign exchange portfolio, Borrowings and onlending, working capital, collection and payment of taxes and others, funds from issuance of securities and subordinated debt -domestic;

- R\$58.582 billion in foreign funding, through public and private issues, subordinated debt abroad, securitization of future financial flows and borrowings and onlendings abroad, equivalent to US\$11.234 billion. Of this amount, we highlight the capture in the total value of US\$375 million with the International Finance Corp (IFC), of which US\$150 million come from the IFC itself and

Complementary Information

US\$225 million from a group of Banks, whereby the resources are destined for loans to small and medium sized enterprises.

At the end of the 2015 financial year, Bradesco's market value, taking into account the closing quotations of common and preferred shares, was R\$100.044 billion, representing 1.1 times the Book Value on December 31, 2015.

2014

In 2014, Brazil experienced yet another moment in its well-established democracy, promoting elections that generated great interest from the general public—who were involved by the strength of the campaigns and a fierce contest at the polls. Now, economic officials face the task of revisiting projections and strategies, setting the groundwork for changes that can lead the country towards a leap in development.

The Organização Bradesco believes there are reasons to feel optimistic about the future of Brazil. In this context, we hope that domestic economic policy and external factors, such as the recovery of the US economy and the recovery efforts of the economies pegged to the Euro, can create growth opportunities in the country.

At Bradesco, among the most significant events of this past year, we should emphasize our permanence in the select group of companies in the BM&FBovespa's ISE (Corporate Sustainability Index), and the Dow Jones Sustainability Index, of the New York Stock Exchange, which it comprises for the ninth consecutive year; the launch of the payment solutions company Stelo S.A., as well as that of LIVELO S.A., which will take care of business related to a coalition loyalty program—both in conjunction with Banco do Brasil. Also worth mentioning were the opening of the second Fluvial Service Station on the Solimões River, serving 11 riverside towns along a 1,600-km extension of the river, and the establishment of the first branch in Vila Kennedy, a community in the west side of Rio de Janeiro, aimed at the financial inclusion of approximately 130 thousand residents.

As it celebrates 71 years of existence, Bradesco boasts a strong balance sheet position that confirms the success of the strategies applied, which in turn are consistent with the choice of retail banking as our flagship product line for the goals democratization of credit and banking inclusion. Our market performance is the result of the instrumentality of an extensive and well-distributed Service Network and of our digital channels. This wide range of options is made possible by a constant and robust investment in infrastructure and especially in technology, which positions Bradesco at the forefront of banking technology.

The Organização Bradesco maintains its commitment to corporate sustainability, seeking to integrate its basic principles to its Overall strategic planning. Among its social initiatives, we should highlight the work developed by the Fundação Bradesco, which offers free and high-quality education. The foundation focuses its work on regions that face greater educational and healthcare shortages in the country, with a network of 40 schools that constitute one of the largest socio-educational programs promoted by the private sector on a Overall scale.

The strength of the Bradesco brand will remain a powerful ally in the continuous effort of earning and maintaining market positions, and it is boosted by the competent and loyal dedication of its directors

and employees, to whom we express our gratitude. We also wish to thank our customers and shareholders for the trust which has allowed us to stand apart from the competition.

The following are some of the most noteworthy events involving the Organização Bradesco over the past year:

Book Net Income was R\$15.089 billion for the year, corresponding to R\$3.60 per share and annualized return of 19.8% on average Shareholders' Equity. The return on Average Total Assets was 1.6%. Consolidated Shareholders' Equity amounted to R\$81.508 billion and total of the adjusted assets stood at R\$1.032 trillion.

Loan operations

The democratization of credit can be achieved by expanding and diversifying the credit available, and by more attractive interest rates. These key factors have increased the volume of financing operations conducted directly or in partnerships with market players, as well as in other lines aimed at individuals, such as payroll-deductible loans, through an extensive network of Branches, PAs (Service Branches) and Sales Promoters.

- R\$455.127 billion was the balance, at year-end, of the consolidated credit operations, in the expanded concept, including sureties and guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in receivables-backed investment funds, mortgage-backed receivables and rural loans, for a 6.5% increase for the year; and

- R\$23.146 billion was the consolidated balance of the provision for doubtful accounts, considering an additional provision of R\$4.007 billion, which includes provision for guarantees provided, in the amount required by Resolution No. 2,682/99 issued by the National Monetary Council.

Funding and Asset Management

At year-end, the funds obtained and managed totaled R\$1.426 trillion, 13.2% higher than the previous year. In all, the Bank manages 26.482 million checking account customers, 59.091 million savings accounts with balances of R\$92.155 billion, accounting for 17.6% of the SBPE -Brazilian Savings and Loan System.

- R\$531.806 billion in demand deposits, time deposits, interbank deposits, Federal funds purchased and securities sold under agreements to repurchase and savings deposits, a 12.1% increase;
- R\$488.730 billion in managed funds, comprising Investment funds, managed portfolios and third- party fund units, a 12.3% increase;

Complementary Information

- R\$217.526 billion, recorded in Foreign exchange portfolio, Borrowings and onlending, working capital, collection and payment of taxes and others, funds from issuance of securities and subordinated debt -domestic, a 22.0% increase;
- R\$153.267 billion in technical provisions for insurance, private pension plan funds and capitalization bonds, a 12.5% increase; and
- R\$34.770 billion in foreign funding, through public and private issues, subordinated debt abroad, securitization of future financial flows and borrowings and onlendings abroad, equivalent to US\$13.090 billion.

At the end of the 2014 financial year, Bradesco's market value, taking into account the closing quotations of common and preferred shares, was R\$145.536 billion, representing 1.8 times the Book Value on December 31, 2014, and up 13.6% compared to December 31, 2013.

2013

The year 2014 will be challenging comparing to the start of the reduction of monetary stimuli in the U.S., as well as the slight slowdown in China's growth. A scenario to be overcome by emerging countries, on the other hand, is a unique opportunity for those nations to improve their macroeconomic and institutional foundations.

Brazil is not immune to this external context, but is better poised to face the challenges. The resumption of economic activity in Brazil in the last few months of 2013 has been supported mainly by productive investments, which tend to become intensified with the current program of public concessions in infrastructure, as well as the major sporting events that will occur between 2014 and 2016.

Bradesco remains optimistic about Brazil, envisioning a favorable outlook in the segments in which it operates. The volume of credit tends to grow at sustainable rates compatible with the

risk, while gains in income and creation of jobs are still present. Given the intense and continuous process of social mobility in recent years, which is still under way, the scenario for the banking and insurance sectors in Brazil remains very promising.

At Organização Bradesco, among the major events of the financial year, it was recorded that on March

10, Bradesco completed 70 years in business, with an active presence in Brazilian life, permanent incentives for the democratization of financial products and services, and a renewed willingness to expand its business horizons. Guided by realistic strategies, it grew rapidly and soon became the Bank of the Brazilians. For such, it built an extensive Customer Service Network that today allows it to be present in all regions of the nation, promoting banking inclusion and social mobility.

It is also noteworthy that Organização Bradesco has once again been selected to be part of:

- **Dow Jones Sustainability World Index -DJSI**, a select list of the New York Stock Exchange that gathers companies with best practices for sustainable development, in addition to the **Dow Jones Sustainability Emerging Markets**, a portfolio created earlier this year, for which companies with DJSI performance ranked among the top 10% in their respective sector are eligible; and

Complementary Information

- **Corporate Sustainability Index (ISE) of BM&FBOVESPA S.A. –Securities, Commodities and Futures Exchange**, which reflects the return of a portfolio comprised of shares of companies with the best performance in all dimensions that measure corporate sustainability.

Book Net Income was R\$12.011 billion for the year, corresponding to R\$2.86 per share and annualized return of 17.7% on average Shareholders' Equity. The return on average total assets was 1.3%. Consolidated Shareholders' Equity amounted to R\$70.940 billion and total of the adjusted assets stood at R\$908.139 billion.

Loan Operations

The democratization of credit is part of Bradesco's strategy. It is achieved through expansion and diversification of the offer and the more attractive interest rates, differentiating factors that have increasingly risen the volume of transactions in loans made directly or in partnerships with market agents and other lines aimed at individuals, such as payroll lending, through its extensive network of Branches, Service Stations and Sales Promoters.

- R\$427.273 billion was the year-end balance of consolidated loan operations, in the expanded concept, which includes sureties and guarantees, letters of credit, prepaid credit card receivables, debentures, promissory notes, co-obligation in assignments for investment funds in credit rights, real estate and rural loans receivables certificates, with an increase of 10.8% in the period; and

- R\$21.687 billion was the consolidated balance of the provision for doubtful accounts, considering an additional provision of R\$4.036 billion, which includes provision for guarantees provided, in the amount required by Resolution No. 2,682/99 issued by the National Monetary Council.

Funding and Asset Management

Bradesco manages, on the whole, 26.400 million account holders, and 50.897 million savings account holders with a balance of R\$80.718 billion, which accounts for 17.2% of the Brazilian

Savings and Loans System (SBPE). At the end of the year, the Organization's total funding and asset management reached R\$1.260 trillion, a 2.8% increase as compared to the previous year.

- R\$474.342 billion in demand deposits, time deposits, interbank deposits, Federal funds purchased and securities sold under agreements to repurchase and savings deposits, a 1.5% increase;
- R\$435.364 billion in managed funds, comprising Investment funds, managed portfolios and third-party fund units;
- R\$178.294 billion, recorded in foreign exchange portfolio, borrowings and onlending, working capital, collection and payment of taxes and others, funds from issuance of securities and subordinated debt -domestic, an 11.0% increase;
- R\$136.229 billion in technical provisions for insurance, private pension plan funds and capitalization bonds, a 9.7% increase; and

Complementary Information

- R\$35.827 billion in Foreign Resources, through public and private issues, Subordinated Debt Abroad, Securitization of Future Financial Flows and Loans and Transfers Abroad, representing US\$15.294 billion.

At the end of the 2013 financial year, Bradesco's market value, taking into account the closing quotations of common and preferred shares, was R\$128.085 billion. Starting in May 2013, Bradesco's common shares became part of the Bovespa Index.

Complementary Information

The following are comments about our key indicators:

I) Capital Adequacy Ratio

Brazilian financial institutions are subject to methodology for capital metrics and levels based on a risk-weighted asset index. The parameters of this methodology resemble the international framework for minimum capital measurements adopted for the Basel Accord. Starting in October 2013, the implementation of a new capital structure began in Brazil. The Brazilian Central Bank (Bacen), through CMN Resolution No. 4,192/13, set out the new methodology for calculating the Referential Equity (PR *-Patrimônio de Referência*), superseding CMN Resolution No. 3,444/07. Since then, the Reference Equity started being calculated based on CMN Resolution No. 4,192/13, which determined that the elaboration be made based on the "Prudential Consolidation", as per January 2015.

The difference in comparison between the current form of calculation of the Prudential Consolidation, and the previous Financial Consolidation, is, essentially, a reflection of the consolidation of similar companies to the financial institutions (Bradesco Consórcios, Cielo, among others) and investment funds, which became the scope, according to the regulation in force. It is important to highlight that the difference is also related to the amendment of the application of the factor of prudential adjustments, as defined in CMN Resolution No. 4,192/13, which went from 20% in December 2014 to 40% from January 2015.

The calculation of our Basel Index is shown below:

In December 2015, the Reference Equity of the Prudential Consolidation reached the amount of R\$102,825 million, compared to assets weighted by the risk of R\$612,217 million.

It is worth mentioning that, in the fourth quarter of 2015, the Brazilian Central Bank authorized the Subordinated Letters of Credit to compose Tier II. The restated amount on December 31, 2015 reached R\$5,805 million.

Complementary Information

In the light of the implementation of the new capital requirements, the indexes of 2015 cannot be compared with the indexes of 2014.

In December 2014, Capital stood at R\$98,605 million, against risk-weighted assets totaling R\$597,213 million. The Total Basel Index recorded a slight drop of 0.1 p.p. when compared to the previous year, going from 16.6% in December 2013 to 16.5% in December 2014, which is basically a result of: (i) 20% applied over prudential adjustments, as per CMN Resolution No. 4,192/13; (ii) increase in risk-weighted assets, caused by the expansion of the loan portfolio; and partially offset by (iii) increase in Shareholders' equity, due to the growth in income recorded in the year.

It is worth mentioning that in December 2014, only R\$21,406 million of the total subordinated debt were used in the calculation of the Basel Index, given the respective maturity.

II) Operating Efficiency Ratio (ER) and Operating Coverage Ratio

Operating Efficiency Ratio (ER)

A 2015 to 2014 comparison shows an improvement of 1.7 p.p. in the ratio, reaching 37.5% in 2015, which represented the highest historic level of this indicator. This improvement is basically the reflex: (i) of the growth of the financial margin and of revenues from the provision of services; and (ii) of the behavior of the operating expenses, which evolved below the inflation in the year.

A 2014 to 2013 comparison shows an improvement of 2.9 p.p. in the ratio. This result was basically due to: (i) investments in organic growth, which enabled an increase in income; and (ii) the continued efforts to control expenses, including Efficiency Committee actions and investments in Information Technology, which have improved internal systems and processes.

Complementary Information

Operating Coverage

In the comparison between 2015 and 2014, and between 2014 and 2013, the index of operational coverage showed improvement, mainly due to the increase in revenue from services provided, coupled with ongoing efforts to control expenses, including actions by the Efficiency Committee and measures applied to increase the offer of products and services to the entire customer base.

III) Main loan portfolio indicators

Delinquency Ratio > 90 days(1)

(1) Concept defined by the Brazilian Central Bank.

In 2015, the delinquency ratio over 90 days amounted to 4.1% of the credit portfolio, representing an increase of 0.6 p.p. in comparison to 2014, mainly due to: (i) the slower pace of growth of the credit portfolio; and (ii) the impact of the process of deceleration of the economic activity. It is important to stress the reduction in the delinquency rate of the Large Companies segment, which compensated, partially, the effects of the increase in delinquency of Individuals and in the Micro, Small and Medium Sized Enterprises.

In 2014, the delinquency ratio over 90 days amounted to 3.5% of the credit portfolio, remaining stable compared to 2013.

In 2013, the total delinquency ratio, comprising transactions overdue over 90 days, had a decrease of 0.6 p.p in the comparison with 2012. Such decrease was mainly due to: (i) the investment in the ongoing improvement in loan assignment models; (ii) the growth of payroll-deductible loan and real estate financing products, which impacted the portfolio mix; and (iii) the improvement in internal models of loan risk monitoring. We also highlight, in the period, the drop in the indicator for the Individual and Micro, Small and Medium Sized Enterprises. The increase in delinquency ratios of Corporations is associated to individual cases and does not represent a trend.

e) financing sources for working capital and investments in non-current assets that it intends to use to cover liquidity deficits

The Directors report that as sources of financing for working capital and for investments in non-current assets used to cover liquidity shortfalls, the company may use the following resources: (i) Deposit Raising; (ii) Issuance of Debentures; (iii) Loans; (iv) Issuance of Securities; and (v) Injection of Capital by the controlling shareholders. It should be pointed out that Bradesco's Treasury Department acts as a support center for our business segments by managing the funding and liquidity positions and executing investment objectives in accordance with asset and liability management policies. It is also responsible for setting the rates for our different products, including interbank rates. The Treasury Department covers any funding shortfall through borrowing in the interbank market, investing any surpluses in liquid instruments in the interbank market.

In some limited circumstances, we may obtain emergency funds from the Brazilian Central Bank through a transaction referred to as "discount". A discount is a loan from the Brazilian Central Bank to a financial institution, that loan being guaranteed by Federal Government securities owned by the financial institution. The amount of Federal Government securities held by the financial institution as trading securities limits the amount of discount transactions. Bradesco did not enter into discount transactions for liquidity purposes.

There are no loan and financing agreements or long-term relationships with financial institutions that we believe are relevant for Bradesco.

Financial institutions are subject to operating limits defined by the National Monetary Council and the Brazilian Central Bank for operating, according to provisions of the regulations in force, particularly Law No. 4,595/64, which sets forth the National Financial System.

Among the limits defined, noteworthy are as follows (i) Reference Equity consistent with the risks of its activity, (ii) fixed assets, which limits to 50% of the Reference Equity the total funds invested in Permanent Assets, (iii) exposure by customer, which sets forth the maximum limit of 25% of the amount of Reference Equity of exposure by customer, (iv) exposure in gold, foreign currency and in operations subject to foreign exchange variation, limited to 30% of the Reference Equity amount, and (v) minimum limits of realized capital and shareholders' equity for operating.

It is important to highlight the increase in revenues resulting from the receipt of interest on own capital from companies of Organização Bradesco, in the fourth quarter of

2015.

Other Operating Revenues and Expenses

In the comparative between 2015 and 2014, the other net operating expenses, registered a growth of R\$1,313 million, originated, basically: (i) by the constitution of the tax provision, in the first half of 2015, on the incidence of pension contributions and IRPJ/CSLL on credit losses in the amount of R\$570 million; (ii) by higher expenditure related to (a) the constitution of civil provisions and (b) miscellaneous losses; (iii) by the impact of the creation of the joint venture of services (Cateno) in Cielo; and (iv) by amortization of the premium.

In the comparison between 2014 and 2013, the 13.7% (R\$652 million) increase in other operating expenses, net of other operating income, basically reflects: (i) higher expenses with operating provisions, mainly contingent liabilities; and (ii) higher expenses with the "Credit Card" product sales.

10.2 - Operating and Financial Income

Directors should comment:

a) results of issuer's operations, in particular:

i) description of any major components of revenue

Below we highlight our principal operating income, which grew by 24.5% or R\$46,754 million, in the comparison between 2015 and 2014, particularly regarding: (i) income from securities, derivatives and foreign exchange operations; (ii) income from insurance retained premiums, pension plans and capitalization bonds; (iii) income from loan and leasing operations; and (iv) financial income from insurance, pension plans and capitalization bonds.

In the comparison between 2014 and 2013, the principal operating income grew by R\$28,550 million (17.6%), emphasizing the same revenues stated in the previous paragraph.

Complementary Information

Loan and Leasing Operations

Income from loan and leasing operations, in the comparison between 2015 and 2014, was up 15.2%, or R\$8,300 million, due to the increase in the rate of interest and volume of the credit operations portfolio.

Now in the comparative between the years of 2014 and 2013, there was an evolution of 12.6%, or R\$6,105 million, due to the growth of our credit portfolio.

We demonstrate below the opening of the products and clients (Individuals and Legal Entities) of our portfolio of credit operations in the expanded concept (including Sureties and Guarantees, Letters of Credit, Anticipation of Credit Card Receivables, Debentures, Promissory Notes, Credit Rights Investment Funds, Certificates of Real Estate Receivables and Rural Credit):

The comparison between the 2015 and 2014 balances and between the 2014 and 2013 balances, loan operations for Individuals were up 4.5% and 8.2%, respectively. The lines that contributed most to such increase were: (i) real estate financing; and (ii) payroll-deductible loan, mainly, public sector and beneficiaries of the INSS.

Complementary Information

Credit operations for Legal Entities, showed a growth of 4.0% in the comparison between the balances of 2015 and 2014, with emphasis on: (i) export financing; and (ii) operations abroad, due to the exchange rate variation in the period.

In the comparison between the 2014 and 2013 balances, loan operations for Corporate customers were up 5.8%, particularly regarding: (i) real estate financing; and (ii) rural loans.

Income from Securities, Derivatives and Foreign Exchange Operations

In the comparison between the 2015, 2014 and 2013 balances, the variations recorded in income from securities refer to the higher volume of operations with fixed-income securities.

Financial Income from Insurance, Pension Plans and Capitalization Bonds

In 2015, the financial income from insurance, pension plans and capitalization bonds totaled R\$21,908 million, up 45.6% compared to 2014, basically reflection of the increase in business volume and behavior of IPCA and IGP-M in the period.

In 2014, the financial income from insurance, pension plans and capitalization bonds totaled R\$15,046 million, up 52.2% compared to 2013, basically due to higher income from investment funds.

Result from Compulsory Deposits

In the comparison between the 2015 and 2014 balances, the 6.8% increase in income was due basically to the increase of the SELIC rate in the period, which rose from 11.75% in 2014 to 14.25% in 2015, as well as the effect of the redefinition of the rules adopted by Bacen in 2015,

impacting, mainly, the compulsory reserves on time deposits.

In the comparison between the 2014 and 2013 balances, the 37.3% increase in income derives mainly due to the 14.2% increase in the balance of savings deposits.

Income from Insurance retained Premiums, Pension Plans and Capitalization, and Banking Services

Fees

Regarding the variations in income from insurance retained premiums, pension plans and capitalization and banking services fees, the related comments are included in item 10.1.h.

ii) factors that materially affected the operating results

Directors report that no factors have occurred that might significantly affect the company's operating

results in the last three financial years other than those described in items 10.1.a; 10.1.h and 10.2.a.i.

b) variations in income from price changes, foreign exchange rates, inflation, changes in volumes and introduction of new products and services

Directors report that there were no significant variations in the issuer's financial income or revenues attributable to changing prices of our main inputs and products, exchange rates, inflation, altered volumes or the introduction of new products and services for the years ended December 31, 2015, 2014 and 2013.

Complementary Information

c) impact of inflation, variation of prices of main inputs and products, and foreign exchange and interest rates on the issuer's operating income and financial income

During periods of high interest rates, our financial income increases because the interest rates on our interest-earning assets are higher too. At the same time, we incur higher financial expenses since interest rates on interest-bearing liabilities are also higher. Changes in volumes of our assets and liabilities that incur interest also affect our revenues and expenses. For example, an increase in our interest income attributable to higher interest rates may be offset by a reduction in the volume of our outstanding loans.

Moreover, when the Brazilian real depreciates, we incur: (i) losses on our liabilities denominated in or indexed to foreign currency, such as our long-term debt denominated in USD and foreign currency borrowings, in such a way that the cost in BRL of the relative financial expense increases; and (ii) gains in our assets denominated in and/or indexed to foreign currency, such as our securities and loan operations indexed to the USD, when the revenue from these assets measured in BRL increases. Conversely, when the Brazilian real appreciates, we incur: (i) losses on our assets denominated in and/or indexed to foreign currencies; and (ii) gains on our liabilities denominated in or indexed to foreign currency.

In 2015, the interest earning portion increased 15.3%, rising from R\$47,497 million in 2014 to R\$54,777 million in 2015. The R\$7,280 million increase in the transactions with interest was mostly the result obtained from the "Credit Intermediation" and "TVM/Other". We highlight the growth of the interest rate (CDI) which went from 10.81% in 2014 to 13.25% in 2015, impacting the evolution of the average spread.

In 2014, the interest earning portion increased 12.1%, rising from R\$42,389 million in 2013 to R\$47,497 million in 2014. The R\$5,108 million increase in the interest earning portion income resulted mainly from the increased business volume, particularly in "Credit Intermediation". It is important to note that the interest rate (CDI) increased from 8.06% in 2013 to 10.81% in 2014, generating higher gains in "Credit Intermediation" margins.

10.3 - Events with Significant Effects (occurred and expected) on Financial Statements

Directors should comment on material effects that the events below have caused or are expected to cause for the issuer's financial statements and results:

a) introduction or sale of operating segment

No operational segment was introduced or sold in the period.

b) creation, acquisition or sale of equity interest

On August 3, 2015, Bradesco informed the market that it had signed the Purchase Contract of Shares with HSBC Latin America Holdings Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. -Banco Múltiplo and HSBC Serviços e Participações Ltda. ("HSBC"), for the value of US\$5.2 billion. The price shall be adjusted by the equity variation of HSBC as per December 31, 2014 and will be paid on the date of completion of the operation. With the acquisition, Bradesco will assume all operations of HSBC in Brazil, including retail, insurance and asset management, as well as all the

Complementary Information

branches and clients. In January 2016, Bradesco communicated to the market that the Central Bank approved the acquisition of 100% of the capital share of HSBC Bank Brasil S.A. -Banco Múltiplo and of HSBC Serviços e Participações Ltda ("HSBC")The conclusion of the operation is subject to approval by the other competent regulatory agencies and fulfillment of the legal formalities.

We predict that the referred event will not produce a potential impact on the results of Bradesco for 2016.

c) unusual event or operations

In the period, there were no unusual events or transactions involving the issuer, other than the extraordinary events stated in items 10.1.a and 10.1.h, which caused or are expected to cause significant impacts on its results.

10.4 - Significant Changes in Accounting Practices – Reservation and Emphases in the Auditor's Opinion

Directors should comment:

a) significant changes in accounting practices

Directors report that no significant changes were made to the accounting practices that Bradesco uses in the financial years ended December 31, 2015, 2014 and 2013.

b) significant effects of changes in accounting practices

The Directors highlight that, although there have been no significant changes in accounting practices of Bradesco, it is noteworthy that, unlike the other publically-traded companies that are already using all of the “CPCs”, financial institutions use eight of the technical accounting standards issued by Brazil’s Accounting Standards Committee (CPC), that were approved by the National Monetary Council (CMN). The other CPC statements, interpretations and guidelines will only be applicable to financial institutions after approval by the National Monetary Council.

It is currently not possible to estimate when National Monetary Council will approve the other CPC accounting statements or if their adoption will be prospectively or retrospectively.

Below is a list of nine CPC accounting statements approved by the National Monetary Council, whereby one of them will be valid from 2016:

- Resolution No. 3,566/08 -Asset impairment (CPC 01);
- Resolution No. 3,604/08 -Statement of cash flows (CPC 03);
- Resolution No. 3,750/09 -Related party disclosures (CPC 05);
- Resolution No. 3,823/09 -Provisions, contingent liabilities and contingent assets (CPC 25);
- Resolution No. 3,973/11 -Subsequent events (CPC 24);
- Resolution No. 3,989/11 -Share-based payment (CPC 10);
- Resolution No. 4,007/11 -Accounting policies, changes in accounting estimates and errors (CPC 23);
- Resolution No. 4,144/12 -Basic conceptual pronouncement (R1); and
- Resolution No. 4,424/15 -Benefits to Employees (CPC 33 -shall take effect as from January 1, 2016).

Complementary Information

c) Reservations and emphases in the auditor's opinion

There were no disclaimers and emphases on the independent auditors' report.

10.5 - Critical Accounting Policies

Directors should indicate and comment on the critical accounting policies adopted by the issuer, in particular, accounting estimates made by management on uncertain and relevant issues for describing the financial position and results of operations that require subjective or complex judgment, such as: provisions, contingencies, revenue recognition, tax credits, long-lived assets, useful life of non-current assets, pension plans, foreign currency translation adjustments, environmental recovery costs, criteria for asset and financial instrument impairment tests.

Bradesco has disclosed critical risk factors and accounting policies, in conformity with the best international transparency and Corporate Governance practices, in relation to possible political and economic situations in the domestic and foreign markets, which may directly impact the day-to-day of operations and accordingly, the Bank's financial position.

Our Directors believe that Bradesco's results are subject to accounting policies, assumptions and estimates. It is Management's responsibility to adopt fair accounting practices, in addition to using judgment while carrying out reasonable and conservative estimates to be used in the preparation of financial statements.

Regarding materiality, the items below describe the accounting policies deemed as critical, as well as the areas demanding better judgment or involving a high complexity level, which may

affect our financial position and the result of our operations. The accounting estimates we carry out in this context cause us to make assumptions on issues involving uncertainties. In each case, if our estimates are not confirmed, in the comparison with effective results, there may be significant impacts on our financial situation or the results of our operations.

Allowance for doubtful accounts

The allowance for doubtful accounts is calculated in an amount sufficient to cover possible losses and take into account the rules and instructions issued by National Monetary Council and Brazilian Central Bank, together with the appraisals carried out by Management upon calculation of credit risks.

At the end of each period, the allowance for doubtful accounts is adjusted based on the analysis of our portfolio, including the estimate of losses in loan and leasing operations and other operations with credit characteristics.

In view of its nature, the definition of the allowance for doubtful accounts requires us to make judgments and assumptions related to our portfolios, both on individual and product-specific portfolio bases. Whenever we reassess the portfolio as a whole, a number of factors may affect the estimate of the probable losses, including which methodology we will adopt for measuring the historical delinquency rates and which historical period we will take into account to carry out such measurements. Other factors that may affect our judgment to set the amount regarding the allowance for doubtful accounts include as follows:

Complementary Information

- Brazilian general economic conditions and relevant conditions in the sector;
- previous experience with the debtor or the relevant economy sector, including the recent experience of losses;
- credit quality trends;
- values loan securities;
- volume, composition and growth of our portfolio;
- the Brazilian government's monetary policy; and
- any delays in receiving information necessary to evaluate operations or confirm existing impairment.

We use models to help the analysis of our portfolios and define the required amount of the provision for losses. We use statistical factors to show losses and other risk indicators for groups of loans with similar risk characteristics to achieve an estimate of losses incurred by the portfolio. Although our models are often reviewed and improved, by their nature, they depend on our judgments made in relation to information and/or forecasts we receive. In addition, the Brazilian economy's volatility may lead to greater uncertainty in our models than one would expect in more stable macroeconomic environments. Therefore, our provision for doubtful debt may not be indicative of actual future losses.

The process to calculate the level of provision for doubtful debt requires a high judgment level. It is possible that others, taking into account the same information, may at any time reach reasonably different conclusions.

Classification of Securities and Derivatives

Securities are classified into three categories: for trading, available for sale, and held to maturity. This classification is based on the Management's intent of keeping or selling such securities. The accounting treatment to the securities we hold is dependent on how they are classified. Changes in the economic environment may alter our strategy in relation to a particular security, which will require a transfer between categories.

Evaluation of Securities and Derivatives

Financial instruments and derivatives recorded at fair value in our financial statements basically include securities classified as: (i) for trading; (ii) available for sale; and (iii) other trading assets, including derivatives. Fair value is defined as the amount by which a position could be transacted by Bradesco with a party aware of the issue and willing to negotiate, with no favoritism.

We estimate the fair value by using the market prices, as available. We note that the price may be affected by the volume of shares transacted, and may also fail to reflect the “control premiums” under share agreements with shareholders, which holds significant investments. However, the Management believes that market prices are the best indicators of fair value.

At the determination of the fair value, when market prices are not available, the Management’s judgment is made, as models depend on our judgment of weight assignable to different factors and the quality of information received. The factors used in these models include quotations by distributors, pricing models, prices of instruments with similar characteristics and discounted cash flows. Model-based pricing also uses information on interest rates, foreign exchange rates and volatility of options, whenever significant and available. Such as reliable market data while estimating the impact of keeping

Complementary Information

a large position is generally limited. We use likewise our judgment for estimating prices whenever there is no external parameter. If we make inaccurate assumptions or the model itself makes inaccurate correlations or assumptions, the amount of income or loss recorded for a specific asset or liability may be incorrect. Judgment should also determines whether a reduction in the fair value below the updated cost of a held-to-maturity or an available-for-sale security is not temporary, so that it would demand the possible recognition of impairment of the updated cost and that we may record this reduction as an expense. At that evaluation, if any devaluation is not temporary, the Management will decide which historic period should be considered and how severally a loss may be provisioned for.

These appraisal methods may lead Bradesco to have different results should the assumptions and estimates used fail to subsequently become real.

Tax Income and Social Contribution

The value determination of income tax and social contribution is complex, and therefore our evaluation is based on the analysis of our deferred fiscal assets and liabilities and income tax and social contribution payable. In general, our evaluation requires us to estimate the future amounts of deferred fiscal assets and income tax and social contribution payable. Evaluating the possibility of any deferred fiscal assets to be realized is subjective and involves uncertain evaluations and assumptions. Realization of deferred fiscal assets is subject to changes to future fiscal rates and the development of our tax planning strategies. Evaluations and assumptions may change over time as a result of unforeseen events or circumstances, thereby changing our initial judgment during the definition of our tax liabilities.

We continuously monitor and evaluate the impact of new tax laws on our liabilities, as well as new events likely to affect the evaluations and assumptions of our analysis of the possibility of deferred fiscal assets realization.

A significant judgment is required for the determination of the probability of a position on income tax and social contribution be sustained even after the result of any legal or administrative proceedings, on the basis of technical merits. An additional judgment is then required to determine the amount of benefit eligible to be recognized in our consolidated

financial statements.

Impairment

The balances of securities classified as available-for-sale and held to maturity, in addition to non-financial assets (except for deferred tax credits), are reassessed at least on a yearly basis, to determine where there is any indication of impairment. When a loss is identified, we recognize an expense in income for the year. This occurs when the carrying amount of the asset exceeds its recoverable value.

We use a number of judgments to calculate the recoverable value, and accordingly we estimate the value of the most variable assets subject to impairment testing.

Technical provisions for insurance, pension plan and capitalization

Technical reserves are liabilities representing estimates of amounts to be due on of the future to our customers, stakeholders of pension plans, insured parties or their beneficiaries. The actuarial assumptions are based on our experience, and are periodically reviewed in relation to sector standards to assure actuarial credibility. However, significant changes in the experiences or assumptions may

Complementary Information

compel us to establish a provision for expected future losses on a product, establishing complementary provisions for premiums of insurance and contributions of pension plans. These provisions are set forth in short- or long-term agreements to forecast expected future losses.

For insurance, future claims to be paid include provisions for group and individual life, health, contingency, liability and damage insurance. These benefits are calculated using actuarial hypotheses for mortality rates, incapacity, expiry date, investment performance, inflation, expenses, and others. For long-term insurance agreements, when the actuarial hypotheses in a specific policy or group of policies are fulfilled, they will not be changed during the validity time of the policy. Liabilities recognized for claims include provisions for incurred but not reported claims and provisions for unsettled claims. We recognize claims as they occur. However, costs of claims occurred in a specific period will not be clearly recognized until we receive, process and pay such indemnities. We determine the liability amount through actuarial methods based on history of claim payments to estimate claim liabilities. Methods to determine such estimates and establish the values of the technical provisions are periodically reviewed and updated. The resulting adjustments are recognized in income for the respective period.

For pension plans, future benefits to be paid to participants or their beneficiaries include provisions for retirement, pension and redemptions, with actuarial hypotheses that take into account factors such as survivorship, interest rates, and disability, among others.

For capitalization bonds operations, future payments to our customers include provisions for prize draws and redemptions. These are calculated over par security values and adjusted for inflation.

Accounting provisions and contingent liabilities

We established accounting provisions recorded based the opinion of legal counsel, the nature of the lawsuits, similarity with previous proceedings, complexity and positioning of the courts, whenever the loss is deemed probable, which would cause a potential outflow of funds to settle the obligation, and when amounts can be reliably measured.

Contingent liabilities classified as possible losses are not recorded as liabilities in the financial statements and must only be stated in notes, when individually relevant, whereas the liabilities classified as remote losses do not require provisions or statements.

We continuously monitor lawsuits in progress in order to evaluate, among other things: (i) the nature and complexity thereof; (ii) the development of the proceedings; (iii) the opinion of our legal advisors; and (iv) our experience with similar cases. Upon determining whether a loss is likely to occur and estimating its value, we also consider:

- a) the probability of loss derived from claims occurred on or before the date of financial statements, which were identified by us after the date of such statements but before their publication; and
- b) the need to disclose claims or events occurred after the date of financial statements, but before their publication.

10.6 - Internal Controls relating to Preparation of Financial Statements -Levels of Efficiency and Deficiency and Recommendations in the Auditor's Report

Complementary Information

In relation to internal controls used to ensure that reliable financial statements are prepared, the directors should comment:

a) the level of efficiency of such controls, indicating eventual deficiencies and actions taken to correct them

The effectiveness of the Organization's internal controls is supported by qualified professionals, well-defined and implemented processes, and technology compatible with business needs.

The methodology of Internal Controls applied is in line with the guidelines of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) version 2013, which has the purpose of supplying a model for internal controls, management of corporate risks and fraud, in order to improve the performance and organizational supervision.

The existence, implementation and effectiveness of controls that ensure acceptable risk levels in the Organization's processes are certified by the area responsible for the execution of adherence tests of the controls and the results are reported to the Audit Committee and to the Compliance and Internal Controls Committee, as well as to the Board of Directors, aiming to provide assurance regarding the proper conduct of business and the achievement of the established goals, in accordance with applicable external laws and regulations, policies, internal rules and procedures, in addition to codes of conduct and self-regulation.

In light of the foregoing, Management assessed the effectiveness of the internal controls related to the consolidated financial statements on December 31, 2015, and concluded with a reasonable degree of certainty that the internal controls are effective and efficient to assure the integrity of the information, and no significant deficiencies or material weaknesses have been identified.

b) deficiencies and recommendations on internal controls included in the independent auditor's report In view of our stock of knowledge and the studies conducted by the independent auditor to assess our internal controls structure, designed to ensure the

adequacy of Bradesco's financial statements, the auditor's report contains no faults or recommendations in relation to internal controls that could significantly affect our financial statements.

10.7 - Use of Proceeds from Public Offerings for Distribution and any Deviations

If the issuer has made a public offering for distribution of securities, the directors should comment:

a) how funds derived from the offering were used;

b) whether there were important deviations between the effective application of funds and the proposed application disclosed in leaflets on the respective distribution;

c) if deviations occurred, the reasons for such deviations.

There were no public offerings of distribution of securities in the years ended 2015, 2014 and 2013.

10.8 - Material Items not shown in Financial Statements

Complementary Information

Directors should describe material items not shown in the issuer's financial statements, and state:

a) assets and liabilities directly or indirectly held by the issuer that are not presented in its balance sheet (off-balance sheet items), such as:

i) operating leases, assets and liabilities;

There are no relevant items that have not been evidenced in the financial statements.

ii) written-off portfolios of receivables for which the entity has risks and responsibilities, indicating the related liabilities;

There are no relevant items that have not been evidenced in the financial statements.

iv) agreements for constructions in progress;

There are no relevant items that have not been evidenced in the financial statements.

v) agreements for future receipt of financing;

There are no relevant items that have not been evidenced in the financial statements.

The commitments of the credit values include limits for authorization of credit card, personal credit, real estate financing, *conta garantida* (guaranteed account) and overdraft. Such values consist basically in the credit operations contracted, not yet released, and limits not yet used by clients.

The guarantees offered are conditional commitments of loans issued to guarantee the performance of a client before a third party. According to these guarantees, generally, we have the right of recourse against the client to recover any amounts paid. In addition, we retain resources in cash or other guarantees of high liquidity to ensure these commitments. These operations, relate, in their vast majority, to operations of sureties and guarantees carried out with Corporate clients.

Complementary Information

The letters of credit (credits opened for imports) are undertakings issued to guarantee the performance of a customer to a third party. We issue business letters of credit to enable foreign trade transactions. These instruments are short-term commitments to pay the beneficiary of a third party under certain contractual conditions by the shipment of products. The contracts are subject to the same credit assessments applied in other credit concessions.

10.9 - Comments on Material Items not shown in Financial Statements

In relation to each of the items omitted from the financial statements referred to in item 10.8, the directors should comment:

a) how such items change or may eventually change revenues, expenses, operating result, financial expenses or other items of the issuer's financial statements;

As described in item 10.8, we inform that, with regard to the guarantees provided and the letters of credit for import, the issuer receives a rate or a commission for the operation that sensitizes the revenue and consequently the operating income. If a problem occurs related to the capacity of a client making a payment, there may be the need for the constitution of provisions. Now regarding the commitments of credit values to be released, there will be only impact on the lines of income, if clients these lines of credit.
