Braskem S.A.

Quarterly Information (ITR) at

September 30, 2018

and Independent Auditors' Report Review

Report on review of interim financial information

To Shareholders, Members of the Board and Management

Braskem S.A.

Camaçari - Bahia

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Braskem S.A. (the “Company”) included in the Quarterly Financial Information for the quarter ended September 30, 2018, which comprises the balance sheet as of September 30, 2018, the statements of profit or loss and comprehensive income for the three and nine-month period then ended, changes in equity and cash flows for the nine-month period then ended, and notes to the interim financial information.

Management is responsible for the preparation and presentation of this individual interim financial information in accordance with CPC 21(R1) Technical Pronouncement - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21(R1) and international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of this quarterly information in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission, applicable to the preparation of interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international review standards applicable to interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the

Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by the IASB, applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Other matters

Statements of value added

The individual and consolidated interim financial information related to the Statements of added value (DVA) for the nine-month period ended September 30, 2018, prepared under the responsibility of the Company's management, presented herein as supplementary information for IAS 34 purposes, have been subject to review procedures jointly performed with the review of the Company's interim financial information - ITR. In order to form our conclusion, we assessed whether those statements are reconciled with the interim financial information and accounting records, as applicable, and whether their format and contents are in accordance with criteria determined in the Technical Pronouncement CPC 09 - Demonstração do Valor Adicionado. Based on our review, nothing has come to our attention that causes us to believe that the statements of added value referred to above were not prepared, in all material respects, consistently with the overall individual and consolidated interim financial information.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”) is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

As per the Material Fact notice dated June 15, 2018, Braskem was informed by Odebrecht S.A., its controlling shareholder, of the start of negotiations with LyondellBasell, a publicly held corporation based in Rotterdam, for a potential transaction involving the transfer to LyondellBasell of all shares held by Odebrecht S.A. in the capital stock of Braskem.

(a) Significant operating events impacting this nine-month period financial information

(a.i) In April 2018, the Company received the amount of R\$81,000, adjusted for inflation, related to the outstanding balance of the R\$100 million provided for in the sale of the subsidiaries Quantiq Distribuidora Ltda and IQAG Armazéns Gerais Ltda. in 2017. The difference between the restated amount provided for and the amount received was recognized in the second quarter of 2018 in the line “Other income (expenses), net,” in the amount of R\$19,558, resulting from the adjustment envisaged in the agreement.

(b) Net Working Capital

On September 30, 2018, in compliance with CPC 26 and its corresponding IAS 1 (Presentation of Financial Statements), the subsidiary Braskem Idesa maintained as current liabilities its financial obligations whose original maturities were long term. This reclassification is due to the breach of certain financial covenants in the loan agreement of Braskem Idesa (Note 13). Consequently, consolidated net working capital was negative R\$2,340,005.

Note that Braskem Idesa has been settling all of its obligations in accordance with the original debt maturity schedule and no creditor has requested or expressed any intention of requesting the immediate reimbursement of said obligations or the acceleration of debt amortizations. Without the aforementioned reclassification, consolidated net working capital was positive R\$7,796,266.

(c) Risk management

In May 2018, the Company, in keeping with its commitment to maintain its financial liquidity, contracted an international revolving credit facility in the amount of US\$1 billion, which expires in 2023. Because of the Company's credit quality, the credit facility may be tapped without restriction or in the event of any deterioration in the macroeconomic scenario.

The two facilities held by the Company before, in the amounts of R\$750 million with expiration in December 2019 and of R\$500 million with expiration in September 2019, were cancelled.

As of September 30, 2018, this new facility had not been used.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

2. Summary of significant accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2017, except the changes to accounting policies described in Note 2.2.1.

2.1. Long-term incentive plan (“ILP Plan”)

The ILP Plan, approved in March 2018 (Note 21(a)), is booked in accordance with “CPC10/IFRS 2- Share-based Payment,” under which the organization must calculate the value of equity instruments granted based on their fair value on the grant date. Such cost is recognized during the vesting period for the acquisition of the right to exercise the instruments.

In view of the characteristics of the ILP Plan, the aggregate amount to be booked as an expense, with a corresponding adjustment to shareholders' equity, is determined based on the fair value of the options granted on the grant date. The fulfillment of the vesting condition is incorporated into the assumptions of the number of shares expected to be granted. At the end of each period, the Company revises its estimates of the number of shares expected to be delivered after the vesting period.

Upon the expiration of the vesting period, the Company grants the shares held in treasury to the beneficiaries.

2.2. Basis of preparation

This Quarterly Information includes the nine-month period ended September 30, 2018 and should be read together with the financial statements of Braskem as of December 31, 2017, prepared and presented (i) in the consolidated, in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB); and (ii) in the Parent Company, in accordance with the accounting practices adopted in Brazil, in compliance with Federal Law 6,404/76, as amended, and with the standards issued by CPC.

The preparation of the Quarterly Information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies.

There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2017 financial statements.

Issue of these financial statements was authorized by the Executive Board on November 6, 2018.

2.2.1. Changes to the main accounting policies

Except as described below, the accounting policies applied to this Quarterly Financial Information are the same as those applied to the consolidated financial statements of the Company for the fiscal year ended December 31, 2017.

These changes in accounting policies also will be reflected in the consolidated financial statements of the Company for the fiscal year ending December 31, 2018.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

The Company adopted “CPC 47 / IFRS 15 – Revenue from Contracts with Customers” and “CPC 48/ IFRS 9 – Financial Instruments” as from January 1, 2018.

The effect from the adoption of these standards is attributed mainly to the following: (i) presentation of variable considerations (bonuses) deducted directly from gross sales revenue (Note 24); (ii) replacement of the “incurred loss” model for the prospective model of “expected credit losses.” (Note 5); (iii) change in the classification and measurement of financial assets (Note 16); and (iv) change in the accounting of operations involving dollar put and call options designated for hedge accounting (Note 16.2.1.a).

As described in Note 2.3 to the financial statements dated December 31, 2017, the Company identified a performance obligation in its sales associated with freight contracts for product deliveries. The Company concluded that there is no material effect on its financial statements for recording this performance obligation separately from the performance obligation associated with product deliveries.

2.2.2. Consolidated and parent company quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 (R1) and IAS 34 - Interim Financial Reporting, which establish the minimum content for interim financial statements. The parent company information was prepared and is being presented in accordance with CPC pronouncement.

All relevant information pertaining exclusively to these interim financial statements is presented herein and corresponds to the information used by the Management of the Company.

Total	4,525,504	3,318,692	2,858,618	3,160,969

(i) As disclosed in Note 2.3 to the annual financial statements for 2017, CPC48 / IFRS 9 substituted, as from January 1, 2018, the “incurred losses” model of CPC 38 / IAS 39 with a prospective model of “expected credit losses,” which requires greater judgment of how the changes in economic factors affect the expected credit losses, which are determined based on the following stages:

Stage 1 – when the securities are still performing, expected credit losses were calculated based on the actual experience of credit loss (write-off) over the last five years, segregating customers in accordance with their Operating Risk.

Stage 2 – when there is deterioration in the credit risk of the customer since the initial recognition. The Company considered as deterioration of credit risk any credits that were renegotiated and that must be collected in court, regardless of their maturity.

Stage 3 – includes financial assets that have objective evidence of impairment. The trigger for evidence of impairment is an unprecedented delay of more than ninety days.

Braskem S.A.**Notes to the financial statements****at September 30, 2018****All amounts in thousands of reais, unless otherwise stated**

The following table shows the Company's expected credit loss for each stage:

			Estimated loss percentage	Trade accounts receivable	Sep/2018 Allowance for doubtful accounts
Stage 1	Performing	Operation risk 1	No risk	3,012,999	
		Operation risk 2	No risk	936,274	
		Operation risk 3	0.27%	355,763	1,265
		Operation risk 4	0.63%	210,710	1,451
		Operation risk 5	100%	381	381
			4,516,127	3,097	
Stage 2	Significant Increase in Loss Risk	1° Renegotiation < 24 months	12% ou 100%	10,569	1,622
		2° Renegotiation or > 24 months	91% ou 100%	22,481	22,481
		Legal	100%	181,360	181,360
			214,410	205,463	
Stage 3	No payment performance (Indicative of impairment)	Between 90 and 180 days	50% ou 100%	10,157	6,630
		Above 180 days	100%	46,498	46,498

(b) Obtained for investments

The subsidiary Braskem America contracted a credit facility in the amount of up to US\$225 million that is secured by Euler Hermes, a German export credit agency, which will be used to finance a portion of the investment in the new PP plant located in Houston, Texas, United States. The funds will be tapped in accordance with the progress of the project's construction and the total amount is expected to be disbursed by December 30, 2020. To date, US\$144 million has been disbursed.

Issue date	Initial amount of the transaction (US\$)	Maturity	Charges (% per year)	Consolidado	
				Sep/2018	Dec/2017
jul-2018 (i)	144.327	Dec-2022	Us dollar exchange variation + semianual Libor + 0.65	580,817	
Total	144.327			580,817	

(i) US\$130,650 released in July 2018 and US\$13,677 released in September 2018.

(i) Financing without recourse or with recourse limited to shareholders.

In keeping with the Company's Financial Policy, the investment in the construction of the Braskem Idesa plant is financed under a Project Finance structure, in which the construction loan must be repaid using exclusively the cash generated by the company itself and with the shareholders pledging limited guarantees. Accordingly, this financing structure includes guarantees typical to transactions of this kind, such as assets, receivables, cash generation and other rights of Braskem Idesa.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

Project Finance borrowings include various contractual obligations (covenants) that are typical of contracts of this nature.

On the reporting date of the quarterly financial statements hereto the company was in un-remedied breach of some of its non-financial contractual obligations. As a result, the entire balance of non-current liabilities, in the amount of R\$10,136,271 was reclassified to current liabilities, in accordance with CPC 26 and its corresponding accounting standard IAS 1 (Presentation of Financial Statements).

In accordance with the aforementioned accounting standards, reclassification is required in situations in which the breach of certain contractual obligations entitles creditors to request from Braskem Idesa the prepayment of obligations in the short term. In this context, note that none of the creditors has requested or expressed the intention of requesting said prepayment of obligations. Braskem Idesa has been settling its debt service obligations in accordance with their original maturity schedule.

Furthermore, Braskem Idesa continued to negotiate approval of such breaches with its creditors in order to reclassify the entire amount reclassified from current liabilities back to non-current liabilities.

The following amortization schedule presents the original long-term maturities, excluding the reclassification to current liabilities arising from the aforementioned breach of contractual obligations.

	Sep/2018	Dec/2017
2019	231,717	748,071

16. Financial instruments

The information related to financial instruments was presented in the 2017 financial statements of the Company, in Note 19.

As of January 1, 2018, as disclosed in Note 2.3 to the annual financial statements of the Company, its financial instruments were classified and measured in accordance with its Business Model (CPC 48/IFRS 9).

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

The adoption of new classifications of financial instruments in accordance with CPC 48/IFRS 9 did not produce a significant effect on the Company's accounting policies, as shown in the following table:

(a) Operations designated for hedge accounting

(a.i) U.S. dollar Call and Put Options

On September 30, 2018, Braskem held a total notional amount of put options of US\$2.2 billion, with an average strike price of 3.22 R\$/US\$. Simultaneously, the Company also held a total notional amount of call options of US\$1.6 billion, with an average strike price of R\$/USD4.58. The operations have a maximum term of 23 months. Dollar-denominated future sales in Brazilian real were designated for hedge accounting, with the months of revenue recognition always coinciding with the months of the options.

According to CPC 48/IFRS 9, the accounting standard in force as from January 1, 2018, the amount of the mark-to-market (“MtM”) adjustment, as well as the amount of the premium of the operation, is recognized as “Other comprehensive income” (“OCI”) under shareholders' equity. The market value of the options is composed of the notional value of the operations multiplied by the sum of the intrinsic value, which refers to the amount by which the option exceeded the exercise price at the time of evaluation, and the extrinsic value, which corresponds to the time value of the derivative until its maturity.

(a.ii) Swap IPCA

To maintain its strategy of managing risks related to currencies and interest rates, the Company opted to swap to fixed rates in U.S. dollar the portions not yet due under the Leniency Agreement entered into with the Federal Prosecution Office (MPF) (Note 20.3(a)), which originally were denominated in Brazilian real and pegged to the IPCA inflation index. For such, derivative instruments were contracted in the amount of R\$1.3 billion, divided into five annual installments due on January 30 of each year as from 2019. These operations were designated as cash flow hedge accounting, where the hedging instruments are currency derivatives and the hedged objects are the liabilities under said agreement. Accordingly, the mark-to-market adjustment of the effective portion of the hedge will be recognized under shareholders equity in OCI and will be recognized in the financial result only upon the maturity of each installment.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

16.3. Non-derivative liabilities designated for export hedge accounting

(a.i) Future exports in U.S. dollars

On September 30, 2018, exports that were designated and not yet realized are shown below:

	Total nominal value US\$
2019	733,980
2020	724,000
2021	716,000
2022	719,000
2023	718,371
2024	688,854
2028	1,250,000
	5,550,205

There were no changes in financial instruments designated for this hedge in the period ended September 30, 2018:

On September 30, 2018, the maturities of financial liabilities designated, within the scope of the consolidated balance sheet, were as follows:

Total nominal value

	US\$
2019	733,980
2020	724,000
2021	716,000
2022	719,000
2023	718,371
2024	688,854
2028	1,250,000
	5,550,205

The Management of the Company prepaid, in fiscal year 2017, dollar-denominated obligations, which included liabilities designated for this hedge. As a result of the decision, the amount not realized of US\$196,973, was discontinued prospectively. Exchange variation on the discontinued amount, of R\$257,306, which is recorded under Shareholders' Equity as OCI will be taken to net financial income (expenses) as of October 2018, as the hedged exports are realized.

	Total nominal value US\$	Conversion rate at Inception R\$/US\$	Closing rate R\$/US\$	Gross nominal value
Hedge discontinued - related to the fourth quarter 2018	196,973	2.0017	3.3080	257,306
	196,973			257,306

Braskem S.A.**Notes to the financial statements****at September 30, 2018****All amounts in thousands of reais, unless otherwise stated**

The following table provides the balances of exchange variation recognized in the Company's net financial income (expenses) due to the realization of exports designated for this hedge for the nine-month period ended September 30, 2018:

	Total nominal value US\$	Conversion rate at Inception R\$/US\$	Closing rate R\$/US\$	Gross nominal value
First quarter	189,325	2.0017	3.3082	247,353
Second quarter	208,405	2.0017	3.2769	265,759
Third quarter	193,190	2.0017	3.3080	252,364
	590,920			765,476

The changes in foreign exchange variation and Income Tax and Social Contribution under OCI of this hedge are as follows:

	Exchange variation	IR and CSL	Net effect
At December 31, 2017	(6,814,142)	2,316,808	(4,497,334)
Exchange variation recorded in the period on OCI / IR and CSL	(3,862,388)	1,313,212	(2,549,176)
Exchange variation transferred to profit or loss / IR and CSL	765,476	(260,262)	505,214
At September 30, 2018	(9,911,054)	3,369,758	(6,541,296)

(a.ii) **Liabilities related to the Project Finance of future sales in U.S. dollar**

On September 30, 2018, sales designated and not yet realized are as follows:

	Nominal value US\$
2018	56,382
2019	229,270
2020	266,690
2021	303,392
2022	253,204
2023	333,093
2024	359,559
2025	357,903
2026	309,240
2027	152,103
2028	124,654
2029	31,164
	2,776,654

The following table shows the changes in financial instruments designated for these hedge operations in the period:

(i) Investments approved by the Management of the Company, as permitted by the financial policy.

16.5. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On September 30, 2018, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Brazilian real/Mexican peso exchange rate;
- Brazilian real/Euro exchange rate;
- Libor floating interest rate;
- Selic interest rate;
- CDI interest rate;
- TJLP interest rate;
- IPCA interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, not reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Value at risk

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from September 30, 2018, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$60,956 for put and call options (Note 16.2.1(a.i)) and US\$10,500 for the swap of Libor related to Braskem Idesa's project.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

(c) Selection of scenarios

(c.1) Probable scenario

The *Market Readout* published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of September 28, 2018. According to the Market Readout, at the end of 2018, the U.S. dollar will depreciate by approximately 2.84% against the Brazilian real, compared to the closing PTAX rate at September 28, 2018, while the Selic rate will be 6.50% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is for maintenance of the current rate of 6.56%. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered an increase by 5%. For adverse scenarios, it considered 25% and 50% increases on current market levels.

Braskem S.A.**Notes to the financial statements****at September 30, 2018****All amounts in thousands of reais, unless otherwise stated****(c.2) Possible and extreme adverse scenarios**

(i) Write-off of the provision for income tax and social contribution tax, with a possible loss arising from the business combination due to a court ruling made final and unappealable, with the cancelation of the tax liability recorded.

20.2. Claims with possible losses

The amount under claims and a description of the main claims with possible losses are presented in the financial statements for fiscal year 2017, in Note 23.2.

(a) Civil

(i) Hashimoto Public-Interest Civil Action

The Public-Interest Civil Action was filed in June 2018 by the São Paulo State Public Prosecutor's Office against the Company and other firms that operate in the Capuava Petrochemical Complex, claiming the reparation and/or remediation of environmental damages supposedly arising from the emission of pollutants in the air, as well as the joint judgement of companies that comprise said complex seeking environmental moral damages in the amount of R\$106.5 million.

Based on the opinion of the external legal counsel handling the case, the Management believes that the lawsuit possibly will be dismissed within a period of eight years.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

No judicial deposit or other form of security was accrued for the case.

(ii) Social security contributions – hazardous agents

In August 2017, the Company received a tax-deficiency notice from Brazil's Federal Revenue Service claiming the payment of a premium for Labor Accident Risk ("RAT") to fund the special retirement plan due to the alleged exposure of its workers to hazardous agents in the period from January 2013 to December 2015.

On September 19, 2018, the Company was notified of the decision rendered by the lower administrative court that, accepting the arguments presented in the Objection, rendered the assessment null due to irremediable defect of form. The Company will file a Voluntary Appeal to the Administrative Council of Tax Appeals (CARF) seeking nullity by defect of substance. The total amount under the deficiency notice, on September 30, 2018, is R\$341.8 million.

The Company's external legal advisors estimate the administrative proceeding concluded in 2020 and, in the third quarter of 2018, changed the chances of success in the proceeding from possible to probable.

No judicial deposit or other form of security was accrued for the case.

(b) Tax claims

(i) ICMS – Use and consumption credit

In January 2018, the Company was served a notice by the State of Rio Grande do Sul, charging, at the administrative level, ICMS tax and a fine of 120% for using ICMS credits in the acquisition of goods (“*pallets*”), which were considered by the Tax Authority as for use and consumption in the period from January 2013 to November 2017. The tax authority understands that the pallets could not be characterized as inputs and, therefore, do not generate any ICMS credit. On September 30, 2018, the updated amount of these deficiency notices amounted to R\$81.3 million.

The Company’s external legal advisors argue statute of limitations/peremption for part of the period covered by the deficiency notice. In addition, for the entire period of the deficiency notice, they demonstrate that the goods are not among those intended for establishment’s use and consumption and consequently considered an input. The legal advisors consider the chances of success as possible and estimate that the administrative proceeding should be concluded by 2022.

There are no deposits or any other type of guarantee for this proceeding, since it is still being disputed at the administrative level.

(ii) ICMS tax – Transfer of dichloroethane

In July 2018, the Company was served a notice by the State of Alagoas claiming that it allegedly used an ICMS tax base lower than that envisaged in legislation for internal transfers to another unit in the State of Alagoas of DCE (dichloroethane), between January 2013 and May 2016, which is a product that is not subject to deferral in such transactions.

The Company’s legal advisors consider the chances of success with regard to the matter as possible in the amount of R\$170.7 million and estimate that the administrative proceeding should be concluded by 2020.

No judicial deposit or other form of security was accrued for this proceeding, as it is currently still in its administrative stage.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

20.3. Global settlement with authorities

Complete information on the global settlement with authorities was presented in Note 23.3 to the Company's annual financial statements for 2017.

(a) Global Settlement with authorities

The Leniency Agreement ("Agreement") entered into in December 2016 with the Federal Prosecution Office ("MPF") and with U.S. and Swiss authorities ("Global Settlement"), in the approximate amount of US\$957 million (approximately R\$3.1 billion) was officially ratified as follows:

1. In Brazil, the Agreement was ratified by the 5th Coordination and Review Chamber of the MPF on December 15, 2016, with ratification by the 13th Federal Court of Curitiba on June 6, 2017.
2. The agreement with the U.S. Department of Justice ("DoJ") was confirmed by a U.S. court ruling on January 26, 2017.
3. The agreement with the Securities and Exchange Commission ("SEC") was confirmed on February 28, 2017.
4. The agreement with Swiss authorities did not require ratification to produce effect.

Of the aggregate amount of the Global Settlement, the Company already has paid approximately R\$1.6 billion, as follows:

1. US\$94,894 (R\$296,591) to the DoJ, paid on February 8, 2017;
2. US\$65,000 (R\$206,460) to the SEC, paid on April 27, 2017;
3. CHF30,240 (R\$104,307) to the Swiss Office of the Attorney General, paid on June 27, 2017;
4. R\$736,445 to the MPF, paid on July 6, 2017;
5. R\$267,985 to the MPF, corresponding to the first of the six annual installments owed up to 2023, paid on January 30, 2018; and
6. CHF16,065 (R\$62,021) to the Swiss Office of the Attorney General, corresponding to the first of four annual installments owed up to 2021, paid on June 28, 2018.

The outstanding amount, of approximately R\$1.5 billion, will be paid as follows:

1. CHF48,195 to the Swiss Office of the Attorney General, corresponding to three outstanding annual installments of CHF16.065 due on September 30 of each year as from 2019;
2. R\$1.3 billion to the MPF, corresponding to five outstanding annual installments adjusted for inflation by the variation in the IPCA inflation index due on January 30 of each year as from 2019. To guarantee payment of the installments coming due, Braskem gave as collateral assets from its property, plant and equipment corresponding to one annual installment.

(b) Reimbursement for damages and other considerations

A significant portion of the total of R\$2.2 billion of the Agreement entered into with MPF will be allocated to paying redress to third parties for damages incurred due to the facts that are the subject-matter of the Agreement.

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

Under the Agreement, the MPF undertook to coordinate actions with other authorities or government agencies, as well as state-owned companies and mixed-economy companies with which Braskem comes to negotiate for entering into agreements based on the facts object of the collaboration, including for the purpose of preventing duplicate restitution with regard to the amount paid under the Agreement. Accordingly, as communicated to the market on July 10, 2018, the Company is holding talks with the Ministry of Transparency, Supervision and Controller General (CGU) and with the Office of the General Counsel of the Federal Government (AGU).

The Agreement does not prevent any third party with legitimate interest on the facts from filing proceedings to claim remedy for any damages caused by Braskem, which could result in payments other than those provided for in the Agreement. Therefore, the Company cannot guarantee that the total amount available for reimbursement will be sufficient to fully remedy any third parties affected by the wrongdoings, which means that the Company may be required to indemnify or be subject to the payment of financial penalties other than those provided for in the Global Settlement.

In addition, other authorities with jurisdiction over the Company may seek to impose additional monetary sanctions or fines or commence new investigations against Braskem. Finally, as a result of the Global Settlement, the Company may be subject to increased operating costs in connection with its obligations to improve its governance and anti-corruption practices.

It is not possible to predict the impacts on Braskem of others investigations or any decision or action taken by authorities involving its largest shareholders, namely Odebrecht S.A. and Petróleo Brasileiro S.A. – Petrobras, or any of their subsidiaries.

(c) Control deficiencies and Compliance Program

After the investigation conducted in 2016 and confirmation of wrongdoings, the Company identified material control deficiencies.

In the same year, it began developing a comprehensive Compliance Program at Braskem with the goal of mitigating the risks of lawsuits and promoting significant improvements in Braskem's overall control environment. The Program also contains initiatives that have been implemented throughout 2017.

As of the period ended September 30, 2018, a series of Compliance initiatives are being implemented and/or improved by the Company, including:

- (i) Increase in the number of Team Members in the Compliance Department;
- (ii) Designation and engagement of independent monitors jointly with the DoJ and MPF, and beginning of analysis of the Company's processes and documents by said monitors;
- (iii) Approval or review of the relevant guideline documents: Global Anti-corruption Policy; Global Policy of the Compliance System; Code of Conduct; Code of Conduct for Contractors; Global Risk Management Policy; Internal Controls Directive, Internal Audit Directive; Corporate Credit Card Directive; Conflicts of Interest Directive; Procedure for Payment of Commissions to Agents; and Ethics Line Investigation Protocols;
- (iv) Approving the Directive and Procedure for Relations with Government Officials, which regulates interactions with politicians and executives at state-owned companies;
- (v) Approving the Procedure for the Ethics Line, considering the formal process for handling reports of violations and investigation protocols; Continuing the training program with a focus on the Compliance System, applicable legislation and raising Team Member awareness;
- (vi) Setting a corporate target related to Compliance for all Leaders at the Company;

Braskem S.A.

Notes to the financial statements

at September 30, 2018

All amounts in thousands of reais, unless otherwise stated

- (vii) Formally and effectively participating in working groups: UN Anticorruption and ETHOS Integrity;
- (viii) Improving the supplier registration and approval process by implementing a third-party risk and integrity assessment;
- (ix) Developing the Communication Plan for disseminating the Company's commitment to conducting its Business Ethically with Integrity and Transparency;
- (x) Outsourcing of the Whistleblowing Channel and improving the tool for receiving reports of violations;
- (xi) Mapping of risks and controls and beginning of assessment of the effectiveness of controls for the most relevant corporate processes in Brazil, United States, Mexico, Netherlands and Germany;
- (xii) Incorporating anti-corruption clauses in agreements with third parties;
- (xiii) Implementing improvements to internal controls with a view to remediating deficiencies identified in internal processes (especially material deficiencies) and preventing future vulnerabilities;
- (xiv) Defining the corporate methodology for Risk Management to be adopted in Brazil, United States, Mexico, Netherlands and Germany;
- (xv) Conducting Internal Audit works to address weaknesses and recommendations for improvements to areas involved in the processes assessed.

(d) Class actions

On July 1, 2015, a putative class action lawsuit was filed in the United States District Court for the Southern District of New York against the Company and certain of its then-current and former officers and directors. In the current lawsuit, titled *In re Braskem Securities Litigation*, the Lead Plaintiff, Boilermaker-Blacksmith National Pension Trust, alleges that the Defendants made misrepresentations or omissions that inflated the price of the Company's stock in violation of U.S. securities laws.

After the decision on the motion to dismiss filed by the Company, partially granting its arguments, the Company and the Lead Plaintiff executed a proposal of resolution agreement ("Proposed Agreement"), which was ratified by the applicable Court, which issued a final decision ending all claims from all members of the class of Investors (as

defined below).

Under the terms of the Proposed Settlement, Braskem paid US\$10 million (approximately R\$31,680) to resolve all claims arising out of or relating to the subject matter of the class action of a settlement class consisting of all persons who purchased or otherwise acquired a legal or beneficial ownership interest in Braskem American Depositary Receipts (“ADRs”) between July 15, 2010 and March 11, 2015 inclusive. The amount under the agreement was deposited by Braskem in the court-ordered Escrow Account on October 2, 2017.

On February 21, 2018, a hearing was held in which a decision was handed down for the final approval of the agreement regarding the entire class of investors and the dismissal of the case. Said decision became final and unappealable. The individual distribution of the amount of the agreement is the responsibility of the manager of the Escrow Account, as determined by the Court and in accordance with the ratified allocation plan.

The Proposed Settlement was signed solely to avoid the risk, uncertainty, and expense of further litigation and does represent the admission of any wrongdoing or liability by Braskem.

The Company may be named as a defendant in other legal actions. The Company may be required, in accordance with any applicable legal and regulatory limits, to indemnify directors, officers and employees that are defendants in this securities class action and any other related actions that may arise in the future.

Braskem S.A.

Notes to the financial statements

21. Benefits to Team Members

(a) ILP Plan

On March 21, 2018, the Extraordinary Shareholders' Meeting approved the ILP Plan, which aims to align the interests of its participants with those of the Company's shareholders and to encourage participants' retention at the Company by offering eligible participants an opportunity to receive restricted shares in the Company by voluntarily investing own funds and holding such shares through the end of the three-year vesting period.

On March 28, 2018, the Board of Directors approved the "ILP Plan 2018," in accordance with the terms and conditions of the ILP Plan, which includes the list of eligible persons, the deadline for acquiring own shares by participants and the number of restricted shares to be delivered to participants as matching contribution for each own share acquired. The maximum number of shares the Company expects to deliver to the participants of the ILP Program 2018, after the vesting period and subject to compliance with all necessary requirements, is 685,195 shares. The program's grant date is April 6, 2018. The shares to be delivered by the Company to participants of the ILP Program 2018 are those currently held in treasury or acquired through repurchase programs, and in the event said shares cannot be delivered, the Company will pay participants in cash the amount corresponding to the shares, based on the quote on the stock exchange on the second business day immediately prior to the respective payment date.

The fair value of the Company's matching contribution is the market price of the equity instruments quoted on the grant date. For eligible persons of the Parent company, the fair value is based on the quoted price of the class "A" preferred shares (R\$46.62). For eligible persons of subsidiaries abroad, the fair value is based on the quoted price of the American Depository Receipts - ADR (US\$27.56).

The fair value, net of taxes, calculated on equity at September 30, 2018, is R\$4,320.

22. Shareholders' Equity

The information related to the Company's shareholders' equity was presented in its 2017 annual financial statements, in Note 25.

In the period ended September 30, 2018, 78,100 class "B" preferred shares were converted into 39,050 class "A" preferred shares.

Title: Chief Financial Officer

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
