**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On November 11, 2015, Cabot Corporation committed to a plan to close its carbon black manufacturing facility in Merak, Indonesia. The decision to close this plant and to consolidate production in Asia using the Company's Cilegon, Indonesia and other Asian and global carbon black production sites to meet regional demand was driven by the financial performance at the Merak facility in the past several years. It is anticipated that manufacturing operations will cease by the end of January 2016.

The Company expects this plant closing will result in a pre-tax charge to earnings of approximately \$33 million, of which approximately \$25 million is for asset write-offs, \$2 million is for severance and employee benefits for approximately 50 employees whose employment will be terminated, and \$6 million is for site remediation and other miscellaneous costs. These pre-tax charges are expected to be recorded during fiscal 2016. Net cash outlays related to these actions are expected to be approximately \$8 million, substantially all of which is expected to be paid during fiscal 2016.
