PART 1

Item 1. Business

Camelot Corporation ("Registrant" or "the Company") is inactive, and is now a blind pool company seeking merger opportunities. It was previously a holding company but since the fiscal year ended April 30, 1999 the Company has no operations, and all previous business activities have been discontinued. All its subsidiaries have been dissolved by its various states of incorporation.

The Company was incorporated in Colorado on September 5, 1975, and completed a \$500,000 public offering of its common stock in March 1976. The Company has made several acquisitions and divestments of businesses (see Discontinued Activities - Acquisition and Divestment History). The Company was delisted from NASDAQ's Small Cap Market on February 26, 1998. Subsequently it was unable to raise the additional capital required to continue the activities of its operating subsidiaries. Its principle subsidiary, Third Planet Publishing, Inc. sold all rights, title and interests to its software and hardware products on March 31, 1998 and has since been dissolved by the state of Florida. Its remaining operating subsidiary mrcdrom.com, inc. liquidated its inventory and ceased trading in July, 1998. In July, 1998 all employees of Camelot and its subsidiaries were terminated. Its directors and officers have since provided unpaid services on a part-time basis to the Company.

The Registrant is one of a number of similar blind pool companies affiliated with Mr. Daniel Wettreich the President of the Registrant. The other companies are as follows:

Wincroft, Inc. ("Wincroft") was organized in the state of Colorado in May 1980 as part of a quasi-reorganization of Colspan Environmental Systems, and has made several acquisitions and divestments of businesses unrelated to its present activities. It has been a blind pool company since April 2000. Mr. Daniel Wettreich is a Director and President of Wincroft and as at the financial year ended March, 2005

Edgar Filing: CAMELOT CORP - Form 10KSB

owned 3,576,400 shares representing 80.5% of the issued and outstanding common stock of Wincroft.

Forme Capital, Inc. ("Forme") was incorporated in the state of Delaware in December 1986, and has made several acquisitions and divestments of businesses unrelated to its present activities. It has been a blind pool company since April 2000. Mr. Daniel Wettreich is a Director and President of Forme and as at the financial year ended April 2003 owned 11,824,200 shares representing 93.0% of the issued and outstanding common stock of Forme.

Malex, Inc. ("Malex") was incorporated in the state of Delaware in June 1987. It has been a blind pool company since inception. Mr. Daniel Wettreich is a Director and President of Malex and as at the financial year ended April 2005 owned or had a non beneficial interest in 8,006,490 shares representing 95.13% of the issued and outstanding common stock.

The Registrant has had no success in finding companies with which to merge, during the past three years. The basis on which future decisions to merge with any blind pool company associated with Mr. Daniel Wettreich will be the opinion of Mr. Wettreich regarding primarily the quality of the businesses that are to be merged and their potential for future growth, the quality of the management of the to be merged entities, and the benefits that could accrue to the shareholders of the blind pool company if the merger occurred. The selection of which blind pool company affiliated with Mr. Wettreich will be used for a merger in a given transaction is arbitrary and is partly dependent on which blind pool company is of interest to the potential merger partner. The Registrant has no particular advantage as a blind pool company over any other blind pool company affiliated with Mr. Wettreich, and there can be no guarantee that a merger will take place, or if a merger does take place that such merger will be successful or be beneficial to the stockholders of the Registrant.

Discontinued Activities - Acquisition and Divestment History

The Company's activities were conducted through subsidiaries, all of which are now discontinued or have been sold. Third Planet Publishing, Inc., ("Third Planet") (established in January 1995) was a research and development company developing hardware and software solutions for audio and video conferencing over the Internet. mrcdrom.com, inc. ("mrcdrom.com"), (established in March 1998) was an Internet catalog retailer of software. Camelot Internet Access Services, Inc. ("CIAS"), (established in June 1996) was a provider of Internet access services. Alexander Mark Investments (USA), Inc. ("AMI") (80% acquired in May 1997) was a U.S. public holding company whose only investment was a shareholding in Meteor Technology plc ("Meteor") a U.K. public company.

Third Planet was a research and development company focusing on the development of VideoTalk, a video conferencing system for the Internet. Approximately \$7,000,000 was expended by Third Planet in developing VideoTalk and its ancillary software product DigiPhone since inception. VideoTalk was successfully demonstrated at COMDEX in the later part of 1997. However, a lack of funds for marketing the product was experienced in 1998. Following the Company's delisting from NASDAQ Small Cap Market in February, 1998 Third Planet sold on March 31, 1998 all rights, title and interest in VideoTalk and its ancillary products to Wincroft, Inc. a US public company traded on the OTC Bulletin Board. The consideration was \$7,002,056 payable by the issuance of 5,000,000 Preferred Shares, Series A and 1,028,000 Common Shares in Wincroft together with a \$2,000,000 note. Subsequently, on June 29, 1998 the \$2,000,000 note was converted into 2,000,000 Preferred Shares, Series B in Wincroft.

Edgar Filing: CAMELOT CORP - Form 10KSB

The Company made other acquisitions as follows:

Date	Name	Business	Cost
-----	-----	-----	-----
March 1991	Vesta Land Title Company	Titles	\$120,000
July 1991	Business Investigations	Investigations	\$312,231
July 1992	McKee-Blanchard	Appraisals	\$ 32,203
September 1992	First Appraisal Group	Appraisals	\$ 15,000
June 1994	Maxmedia Distributing	Software Distribution	\$168,500

These companies ceased doing business in July 1994, July 1994, November 1993, November 1993, and May 1995, respectively.

On September 16, 1988, the Company acquired Stock Transfer Company of America, Inc. ("STCA"), a transfer agent, for 6,666 newly issued common shares of the Company (post reverse split). In connection with this transaction, Daniel Wettreich was appointed a Director, Chairman and Chief Executive Officer and Jeanette Fitzgerald was appointed a Director. On April 11, 1994, following a decision by the Directors of the Company to discontinue financial services activities, STCA was sold to a company affiliated with Mr. Wettreich for book value, \$13,276. (See Item 12. Certain Relationships and Related Transactions).

On March 2, 1990, the Company's subsidiary, Beecher Energy, Ltd. ("Beecher") was listed on the Vancouver Stock Exchange in an initial public offering. The Company sold its 69% shareholdings in Beecher on July 6, 1994 for C\$400,000, (US \$288,293).

In January 1991, the Company acquired for cash an 80% majority interest in Forme Capital, Inc. ("Forme") a publicly traded real estate company from the wife of Mr. Wettreich. In September 1993, the Company sold to Forme two office properties and then sold all its investment in Forme for cash (approximately \$40,000) to Mrs. Wettreich. These transactions were approved by the shareholders of the Company at the Annual Meeting held on February 15, 1994.

In July, 1993, Registrant acquired approximately 40% of the issued share capital of Goldstar Video Corporation ("GVC"), a video marketing company for a net price of \$92,432. Registrant also made a \$150,000 secured loan to GVC. Further, Goldstar Entertainment, Inc. ("GEI") a subsidiary of Registrant acquired certain licenses and other assets from GVC for \$375,000. Thereafter Registrant's subsidiary Camelot Entertainment, Inc. commenced business as a video marketing company. On October 20, 1993, GVC filed for protection from creditors under Chapter 11 of the Bankruptcy Code which was converted to Chapter 7 on February 4, 1994. Registrant was not a controlling shareholder of GVC. The Company's subsidiary Camelot Entertainment, Inc. filed under Chapter 7 of the US Bankruptcy laws in January 1995.

In November 1995, Registrant appointed Firecrest Group plc a public company, as exclusive distributor for DigiPhone in the United Kingdom and Ireland in consideration for \$1,950,575 payable by shares equal to approximately 10% of Firecrest. ("Digiphone Rights") In March 1996 all relations with Firecrest were terminated and Registrant sold all its shares in Firecrest in market transactions. Subsequently, Firecrest sold its DigiPhone Rights to Meteor. In July 1996, Registrant sold the European rights to distribute DigiPhone to DigiPhone Europe Ltd which became a subsidiary of Meteor. The consideration was (pound)5,000,000 of loan stock which was subsequently converted into Meteor shares. In November 1996 Registrant sold the international DigiPhone rights to Meteor for (pound)1,000,000 of loan stock which subsequently was converted into Meteor shares. In May 1998, DigiPhone International, Ltd. a Meteor subsidiary, became the exclusive marketing company for all Third Planet products on a

Edgar Filing: CAMELOT CORP - Form 10KSB

worldwide basis.

In May 1997, Registrant acquired approximately 80% of AMI whose principle asset was approximately 57% of Meteor. The consideration (post reverse split) payable to the seller, Adina, Inc. ("Adina") was 892,015 Preferred Shares, Series J of Registrant and 453,080 Preferred Shares, Series J in deferred consideration. Following the transaction Adina had 49% of the voting rights attributable to the issued and outstanding common and preferred shares of Registrant. Mr. Wettreich was a director of Adina and did not participate in any directors' votes in relation to this transaction.

Registrant, through its acquisition of 80% of AMI in May 1997 obtained control of Meteor, a U.K. listed public company which was subsequently renamed Constable Group plc. Meteor's two operational subsidiaries, were DigiPhone International Ltd. and Meteor Payphones Ltd. DigiPhone International was the worldwide distributor for all products developed by Third Planet and was sold to Registrant in January, 1998 for cancellation of (pound)500,000 loan stock owed to Camelot by Meteor. All rights owned by DigiPhone International were transferred to Third Planet Publishing prior to the sale of VideoTalk to Wincroft. Registrant sold all its shareholding in AMI for \$38,063 on March 20, 1998. Meteor Payphones and its sister payphone companies were placed into liquidation on 30th March 1998. Constable Group plc (formerly Meteor Technology plc) was placed into liquidation on 31st July 1998.

mrcdrom.com began operations in April, 1997 as an Internet shopping company selling software titles over the World Wide Web. It also announced the filing of a registration statement to raise up to \$12,000,000 through an initial public offering ("IPO") over the Internet, however such registration was withdrawn and no funds were raised. mrcdrom.com had losses throughout its trading history and due to the inability of Registrant to fund such continuing losses ceased doing business in July, 1998, liquidated all its inventory, and terminated all its employees.

Camelot Internet Access Services, Inc. was an Internet services provider formed in January 1996 using the UUNet backbone. This subsidiary's principle activities were the provision of support services for Registrant and the provision of Internet access to users of DigiPhone who would otherwise be unable to access the Internet. The Company became inactive during 1997.

In February 1997, Registrant acquired from Meteor the U.S.A. and Canadian rights to PCAMS software, a payphone contract and management system originally developed for Meteor's payphone subsidiary. The consideration was cancellation of (pound)2,000,000 unsecured convertible loan stock owed by Meteor to Camelot, and the issuance by Camelot of 3,238,400 restricted common shares of Camelot. Management intended to utilize PCAMS software both by offering such software to independent providers and by seeking acquisitions of payphone businesses. Registrant's limited resources precluded active marketing of this product and in March 1998 the product was sold back to Meteor for (pound)70,000.

CAMELOT CORPORATION
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Activity and Principles of Consolidation

The Company is now inactive and all its operating subsidiaries have discontinued operations. The Company was primarily engaged in research and

Edgar Filing: CAMELOT CORP - Form 10KSB

development of Internet software and hardware and the retailing of computer software over the Internet. Discontinued operations of subsidiaries were involved in selling software products through retail stores located in the Dallas metroplex, the provision of internet services, video marketing and distribution, financial services, real estate rentals, and oil and gas development.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Cash equivalents are composed primarily of investments in a money market account.

Income (Loss) Per Share

Income (Loss) per common share is computed on the basis of the weighted average number of common shares outstanding during the respective periods. Outstanding stock warrants, options and preferred shares are excluded from the computations, as their effect would be anti-dilutive.

Income Taxes

Deferred income taxes are determined using the liability method under which deferred tax assets and liabilities are determined based upon differences between financial and tax basis of assets and liabilities.

Fair Value of Financial Instruments

Fair value of financial instruments are estimated to approximate the related book value, unless otherwise indicated, based on market information available to the Company.

Impairment of Long-Lived Assets

Impairment losses are recorded on long-lived assets and certain identifiable intangible assets held and used in operations whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F-6

Recently issued accounting pronouncements

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs an amendment of ARB No. 43, Chapter 4." This Statement clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted materials. This Statement is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The initial application of SFAS No. 151 will have no impact on the Company's financial statements.

Edgar Filing: CAMELOT CORP - Form 10KSB

In December 2004, the FASB issued SFAS No. 152, "Accounting for Real Estate Time-Sharing Transactions - an amendment of FASB Statements No. 66 and 67." This Statement references the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position 04-2, "Accounting for Real Estate Time-Sharing Transactions." This Statement also states that the guidance for incidental operations and costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. This Statement is effective for financial statements for fiscal years beginning after June 15, 2005. The initial application of SFAS No. 152 will have no impact on the Company's financial statements.

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets - an amendment of APB Opinion No. 29." This Statement eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. This Statement is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not expect application of SFAS No. 153 to have a material affect on its financial statements.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" (SFAS 123R), which replaces SFAS 123 and supercedes APB Opinion No. 25. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The proforma disclosures previously permitted under SFAS 123 no longer will be an alternative to financial statement recognition. For the Company, SFAS 123R is effective for periods beginning after December 15, 2005. Early application of SFAS 123R is encouraged, but not required. We plan to adopt SFAS 123R on January 1, 2006 using the modified prospective application method described in the statement. Under the modified prospective application method, we will apply the standard to new awards, and to awards modified, repurchased, or cancelled after the required effective date. Additionally, compensation cost for the unvested portion of awards outstanding as of the required effective date will be recognized as compensation expense as the requisite service is rendered after the required effective date.

We are evaluating the impact of adopting SFAS 123R and expect that we will not record substantial non-cash stock compensation expenses. The adoption of SFAS 123R is not expected to have a significant effect on our financial condition, results of operations, and cash flows. The future impact of the adoption of SFAS 123R cannot be predicted at this time because it will depend on levels of share-based payments granted by us in the future.

2. INCOME TAXES

The Company had no current State or Federal income tax expense for each of the years ended April 30, 2005 and 2004.

Deferred tax assets and liabilities are determined based on the difference between currently enacted tax rates. Deferred tax expense or benefit is the result of the changes in deferred tax assets and liabilities.

Deferred income taxes arise principally from the temporary differences between financial statement and income tax recognition of allowance for

Edgar Filing: CAMELOT CORP - Form 10KSB

doubtful accounts, note receivable allowance, investment valuation adjustments, inventory reserve and from net operating losses.

The components of deferred taxes at April 30, 2005 in the accompanying balance sheet is summarized below:

Note receivable allowance	680,000
Capital loss carryforward	32,000
Net operating loss carryforward	11,900,000
Less valuation allowance	(12,900,000)

Deferred tax asset-net	\$ -

At April 30, 2005, the Company has approximately \$26,000,000 of unused Federal net operating loss carryforwards, which expire in the years 2005 through 2025.

Approximately \$640,000 of the net operating loss carryforwards for tax purposes are limited due to statutory changes in the tax law in connection with the change in more than 50% ownership of the Company in 1988. Because of statutory requirements in the law, that portion of the net operating loss carryforward applicable to the period prior to the ownership change is limited to use of approximately \$35,800 per year until it expires. As the net operating losses expire, at a minimum, approximately \$461,000 of the tax net operating loss carryforward will not be available for the Company's future use.

The Series L are convertible to common shares at twenty percent off the closing price of the common shares. All shares were automatically converted into common shares two years after issuance. No dividends have been declared or accrued.

Any split or combination of common shares required a simultaneous split or combination of each series of preferred shares and visa versa. Upon liquidation or dissolution of the Company, holders of each series of preferred shares were entitled to receive, to the extent of their par value, pro rata with other preferred shareholders and before holders of common shares, all assets legally available for distribution to stockholders. Each series of preferred shares outstanding as of fiscal year-end is nonvoting.

4. CONTINGENCIES

Litigation

The Company is liable for Texas state franchise taxes and accrued interest of approximately \$99,000.

Also, the Company has been advised that a Notice of Filing of Petition to Register Foreign Judgment is being made to domesticate in the State of Texas a judgment obtained regarding The Audio Visual Group dba AIMS Media v Goldstar Entertainment Video Corporation. Should such petition be successful, the Company may become liable in the amount of \$550,000.

Going Concern

The accompanying financial statements have been prepared assuming that the company will continue as a going concern. The company has had recurring operating losses for the past several years and is dependent upon financing to continue operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. It is management's plan to find an operating company to merge with, thus creating necessary operating revenue.

Item 8. Disagreements on Accounting and Financial Disclosure

During the past three years, there were no disagreements between the Company and the auditors regarding any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure.

Change in Independent Accountants

Edgar Filing: CAMELOT CORP - Form 10KSB

On May 13, 2005, Registrant dismissed Larry O'Donnell CPA, P.C. ("O'Donnell") as its principal accountant. Such action had been previously approved by the Registrant's Board of Directors. O'Donnell's reports on the financial statements of the Company for the two most recent fiscal years ended April 30, 2004 and April 30, 2003 did not contain an adverse opinion or disclaimer of opinion, and were not modified as to audit scope or accounting principles. On May 13, 2005, the Registrant retained Comiskey & Company, P.C. as the Company's independent accountants to conduct an audit of the Registrant's financial statements for the fiscal year ended March 31, 2005. This action was previously approved by the Registrant's Board of Directors.

Item 8A. Controls and Procedures

As of the end of the period covered by this Annual Report, our Chief Executive Officer and Chief Financial Officer (the "Certifying Officers") conducted evaluations of our disclosure controls and procedures. As defined under Sections 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 Act, as amended (the "Exchange Act") the term "disclosure controls and procedures" means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including the Certifying Officers, to allow timely decisions regarding required disclosure. Based on this evaluation, the Certifying Officers originally concluded that our disclosure controls and procedures were effective to ensure that material information is recorded, processed, summarized and reported by our management on a timely basis in order to comply with our disclosure obligations under the Exchange Act, and the rules and regulations promulgated thereunder.

On April 18, 1998 Adina sold the Preferred Shares, Series J to Forsam Venture Funding, Inc., a company of which Mr. Wettreich is a director and officer.

Stock Transfer Company of America, Inc., ("STCA") a company affiliated with the President of the Company provided services during the year ended April 1999, and 1998 as a securities transfer agent. A total of \$1,000, and \$18,855 were paid by Company for these services. In the opinion of the Board of Directors, the terms of these transactions were as fair to the company as could have been made with an unaffiliated party. Additionally, STCA received management services from the Company and paid \$6,000 per month starting in November 1997 until April 30, 1998.

Until March 1998 the Company leased 10,000 square feet of offices from Forme Capital, Inc., a company affiliated with the President of the Company. This loan bears interest at a rate of 6% per annum. During the quarter ended January 31, 2002 the Company extinguished as paid in full this non-recourse loan by the transfer to the Company as treasury stock of 1,345,295 Preferred Stock Series J of the Company, such preferred shares being transferred to the Registrant as substitution for and in lieu of the original collateral of a Pledge Agreement securing such non-recourse loan which was secured only on

Edgar Filing: CAMELOT CORP - Form 10KSB

36,250 post-reverse split common shares of the Registrant, and which had been subsequently written off by the Company as uncollectable.

On March 4, 1997, the Company acquired the US and Canadian rights to PCAMS software a payphone contract and management system software from Meteor Technology, plc payable by the cancellation of (pound)2,000,000 of loan stock owed to the Company by Meteor and (pound)500,000 by the issuance by the Company to Meteor of 80,960 restricted common shares. On May 11, 1998 the PCAMS software was sold back to Meteor for (pound)70,000 as the Company did not have sufficient funds to market the software and was restricted in its ability to sublicense the software.

On May 20, 1997, the Company's subsidiary Third Planet amended the terms of its existing distribution agreement with DigiPhone International a subsidiary of Meteor Technology plc, to market exclusively all TPP products on a worldwide basis. Mr. Wettreich and Ms. Fitzgerald who were directors of these companies at the time did not participate in any directors votes in relation to this transaction.

In May, 1997, the Company accepted a Preferred Share, Series J stock subscription by Adina, Inc., a public company of which Mr. Wettreich was a director and officer. Mr. Wettreich did not participate in any directors vote in respect to this transaction. The consideration for the issuance of the Preferred Shares was the transfer of eighty (80%) percent of Alexander Mark Investments (USA), Inc. a public company whose major asset was fifty-seven (57%) percent of the outstanding ordinary shares of Meteor. The Preferred Shares, Series J have one vote per share voting with the common shares, have a liquidation preference over the common shares but are subordinate to the outstanding Preferred Shares, are not convertible and pay no dividends. They also are subject to a forward or reverse split in any instances for which the common shares are subject to a forward or reverse split on the exact same basis.

These transactions represented Registrants total shareholding in Alexander Mark Investments (USA), Inc.

On March 20, 1998 Registrant sold to Abuja Consultancy, Ltd. 1,149,464 shares in Meteor Technology plc representing its total shareholding in that company for a price calculated at the then pro rata net asset value of Meteor amounting to \$16,187 cash.

On March 23, 1998, Registrant acquired from Alexander Mark Investments (USA), Inc. 43,000 Preferred Shares, Series B of Forsam Venture Funding for \$43,000 cash.

On February 23, 2003 the Board of Registrant determined that in order to pursue a merger transaction it was in Registrant's interest to present a corporate structure and financial statement structure that would be most conducive to

Edgar Filing: CAMELOT CORP - Form 10KSB

effecting such a merger transaction, and that as Registrant was still the owner of 700,000 shares in Wincroft, Inc, a company affiliated with the President of Registrant, which shares have been written down to nil value in Registrant's books for several years, Registrant transferred for nil consideration all the shares of Wincroft, Inc owned by Registrant to Wincroft, Inc as Treasury shares.

The Company has no compensatory plans or arrangements whereby any executive officer would receive payments from the Company or a third party upon his resignation, retirement or termination of employment, or from a change in control of the Company or a change in the officer's responsibilities following a change in control. Under the 1996 Stock Option Plan or under the Company's 1991 Outside Directors Stock Option Plan options granted under these plans contain provisions pursuant to which the unvested portions of outstanding options become immediately exercisable and fully vested upon a merger of the Company in which the Company's stockholders do not retain, directly or indirectly, at least a majority of the beneficial interest in the voting stock of the Company or its successor, if the successor corporation fails to assume the outstanding options or substitute options for the successor corporation's stock to replace the outstanding options. The outstanding options will terminate to the extent they are not exercised as of consummation of the merger, or assumed or substituted for by the successor corporation.
