FORM 10-Q

x QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended September 30, 2013
OR
o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from to
Commission File No. 001-32697

American Apparel, Inc.
(Exact Name of Registrant as Specified in Its Charter)

Delaware	20-3200601
(State or Other Jurisdiction of Incorporation or Organization)	(I.R.S. Employer Identification No.)
747 Warehouse Street, Los Angeles, California	90021
(Address of Principal Executive Offices)	(Zip Code)

Registrant's Telephone Number, Including area code: (213) 488-0226

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No o
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes x No o
Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of “large accelerated filer” and “accelerated filer,” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	o	Accelerated filer	o
Non-accelerated filer	o (Do not check if a smaller reporting company)	Smaller reporting company	x

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No x
Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

The number of shares of the registrant's common stock issued and outstanding as of November 8, 2013 was approximately 113,442,430 and 110,449,569, respectively.

Unless the context requires otherwise, all references in this report to the “Company,” “Registrant”, “we,” “our,” and “us” refer
American Apparel, Inc., a Delaware corporation, together with its wholly owned subsidiary, American Apparel (USA), LLC, and its other direct and indirect subsidiaries.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, including the documents incorporated by reference herein, contains forward-looking statements within the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. All statements in this Quarterly Report on Form 10-Q other than statements of historical fact are “forward-looking statements” for purposes of these provisions. Statements that include the use of terminology such as “may,” “will,” “expects,” “believes,” “plans,” “estimates,” “potential,” or “continue,” or the negative thereof or other and similar expressions are forward-looking statements. In addition, in some cases, you can identify forward-looking statements by words or phrases such as “trend,” “potential,” “opportunity,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “es
“position,” “assume,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve,” and similar expressions. Any statements that refer to projections of our future financial performance, our anticipated growth and trends in our business, our goals, strategies, focuses and plans and other characterizations of future events or circumstances, including statements expressing general expectations or beliefs, whether positive or negative, about future operating results or the development of our products and any statement of assumptions underlying any of the foregoing are forward-looking statements. Forward-looking statements in this report may include, without limitation, statements about:

- future financial condition and operating results;
- our ability to remain in compliance or achieve compliance with financial covenants under our financing arrangements and obtain appropriate waivers or amendments with respect to any noncompliance;
- our liquidity and projected cash flows;
- our plan to make continued investments in advertising and marketing;
- our growth, expansion and acquisition prospects and strategies, the success of such strategies, and the benefits we believe can be derived from such strategies;
- the outcome of investigations, enforcement actions and litigation matters, including exposure, which could exceed expectations;
- our intellectual property rights and those of others, including actual or potential competitors, our personnel, consultants, and collaborators;
- operations outside the United States;
- trends in raw material costs and other costs both in the industry, and specific to the Company;
- the supply of raw materials and the effects of supply shortages on our financial condition, results of operations, and cash flows;
- economic and political conditions;
- overall industry and market performance;
- the impact of accounting pronouncements;
- our ability to improve manufacturing efficiency at our production facilities;
- our ability to improve efficiency and control costs at our distribution facility located in La Mirada, California, and successful transition to that facility;
- management's goals and plans for future operations; and
- other assumptions described in this Quarterly Report on Form 10-Q underlying or relating to any forward-looking statements.

The forward-looking statements in this report speak only as of the date of this report and caution should be taken not to place undue reliance on any such forward-looking statements, which are qualified in their entirety by this cautionary statement. Forward-looking statements are subject to numerous assumptions, events, risks, uncertainties and other factors, including those

3

Table of Contents

that may be outside of our control and that change over time. As a result, actual results and/or the timing of events could differ materially from those expressed in or implied by the forward-looking statements and future results could differ materially from historical performance. Such assumptions, events, risks, uncertainties and other factors include, among others, those described under Part II, Item IA and elsewhere in this report and in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 (filed with the United States Securities and Exchange Commission (the "SEC") on March 5, 2013) as well as in other reports and documents we file with the SEC and include, without limitation, the following:

- our ability to generate or obtain from external sources sufficient liquidity for operations and debt service;
- changes in the level of consumer spending or preferences or demand for our products;
- our financial condition, operating results and projected cash flows;
- disruptions in the global financial markets;
- consequences of our significant indebtedness, including our relationship with our lenders and our ability to comply with our debt agreements and generate cash flow to service our debt;
- our ability to maintain compliance with the exchange rules of the NYSE MKT, LLC;
- the highly competitive and evolving nature of our business in the U.S. and internationally;
- our ability to effectively carry out and manage our strategy, including growth and expansion both in the U.S. and internationally;
- loss of U.S. import protections or changes in duties, tariffs and quotas, and other risks associated with international business;
- intensity of competition, both domestic and foreign;
- technological changes in manufacturing, wholesaling, or retailing;
- risks that our suppliers or distributors may not timely produce or deliver our products;
- loss or reduction in sales to our wholesale or retail customers or financial nonperformance by our wholesale customers;
- the adoption of new accounting standards or changes in interpretations of accounting principles;
- our ability to pass on the added cost of raw materials to customers;
- the availability of store locations at appropriate terms and our ability to identify locations and negotiate new store leases effectively and to open new stores and expand internationally;
- our ability to renew leases at existing locations on economic terms;
- our ability to attract customers to our stores;
- seasonality and fluctuations in comparable store sales and margins;
- our ability to successfully implement our strategic, operating, financial and personnel initiatives;
- our ability to maintain the value and image of our brand and protect our intellectual property rights;
- changes in the cost of materials and labor, including increases in the price of raw materials in the global market;
- our ability to improve manufacturing efficiency at our production facilities;
- our ability to improve efficiency and control costs at our distribution facility located in La Mirada, California;
- location of our facilities in the same geographic area;
- risks associated with our foreign operations and foreign supply sources, such as disruption of markets, changes in import and export laws, currency restrictions, and currency exchange rate fluctuations;
- adverse changes in our credit ratings and any related impact on financial costs and structure;
- continued compliance with U.S. and foreign government regulations, legislation, and regulatory environments, including environmental, immigration, labor, and occupational health and safety laws and regulations;
- the risk, including costs and timely delivery issues associated therewith, that information technology systems changes and the transition to our new distribution center in La Mirada, California (as described herein) may disrupt our supply chain or operations and could impact our cash flow and liquidity, and our ability to upgrade our information technology infrastructure and other risks associated with the systems that operate our online retail operations;
-

litigation and other inquiries and investigations, including the risks that we, or our officers in cases where indemnification applies, will not be successful in defending any proceedings, lawsuits, disputes, claims or audits, and that exposure could exceed expectations or insurance coverages;

- our ability to effectively manage inventory levels;
- changes in key personnel, our ability to hire and retain key personnel, and our relationship with our employees;
- general economic conditions, including increases in interest rates, geopolitical events, other regulatory changes and inflation or deflation;
- disruptions due to severe weather or climate change; and
- disruptions due to earthquakes, flooding, tsunamis or other natural disasters.

All forward-looking statements included in this document are made as of the date hereof, based on information available to us as of the date hereof, and we assume no obligation to update any forward-looking statements.

(unaudited)

Note 1. Organization and Business

American Apparel, Inc. and its subsidiaries (collectively the “Company”) is a vertically-integrated manufacturer, distributor, and retailer of branded fashion basic apparel products and designs, manufactures and sells clothing and accessories for women, men, children and babies. The Company sells its products through the wholesale distribution channel supplying t-shirts and other casual wear to distributors and screen printers, as well as direct to customers through its retail stores located in the United States, and internationally. In addition, the Company operates an online retail e-commerce website. At September 30, 2013, the Company operated a total of 247 retail stores in 20 countries: the United States, Canada and 18 other countries.

Liquidity and Management's Plan

As of September 30, 2013, the Company had approximately $4,913 in cash and $17,574 of availability for additional borrowings under the Capital One Credit Facility and Bank of Montreal Credit Agreement (as defined in Note 6). Additionally, the Company had $32,820 outstanding on a $50,000 asset-backed revolving credit facility (increased from $35,000 to $50,000 on July 5, 2013) under the Capital One Credit Facility and $106 outstanding on a C$11,000 (Canadian dollars) revolving credit facility under the Bank of Montreal Credit Agreement.

On April 4, 2013, the Company closed a private offering of $206,000 aggregate principal amount of its Senior Secured Notes due April 15, 2020 (the "Notes") at 97% of par and also entered into a new $35,000 asset-backed revolving credit facility with Capital One Leverage Finance Corp. maturing on April 4, 2018, subject to a January 15, 2018 maturity under certain circumstances. Subsequently, on July 5, 2013, the Company entered into an amendment to the credit agreement governing its credit facility with Capital One Leverage Finance Corp., pursuant to which the total commitment under the credit facility was raised to $50,000. The notes and the new credit facility are the Company's senior secured obligations and are guaranteed, on a senior secured basis, by the Company's domestic restricted subsidiaries, subject to some exceptions.

The Company used the net proceeds from the offering of the Notes, together with borrowings under the new credit facility, to repay and terminate its credit agreement with Crystal Financial LLC and its loan agreement with Lion Capital LLP.

As of September 30, 2013, the Company determined it is probable that a special interest trigger event under the indenture governing the Notes will occur as of December 31, 2013 and has accrued interest on the Notes at 15% retroactive to April 4, 2013, representing an additional 2% interest, which additional interest is payable in kind until April 15, 2018 and in cash on subsequent interest dates. The Company recorded $2,014 in additional interest expense for the special interest trigger event during the three months ended September 30, 2013.

On November 14, 2013, the Company entered into a third amendment to the Capital One Credit Facility, which among other things, waived the obligation to maintain a minimum fixed charge coverage ratio and a maximum leverage ratio for the twelve consecutive fiscal month period ending September 30, 2013. As a condition to the waiver, the Company agreed to a one percentage point increase in the interest rate to either LIBOR plus 4.5% or the bank's prime rate plus 3.5% (at the Company's option) and limitations on amounts available to be borrowed, consisting of the imposition of a reserve against the line that will gradually reduce the total borrowing capacity to $47,500 and certain amendments to the borrowing base calculation. In addition, the Company paid a waiver fee of $75. The financial covenants under the Capital One Credit Facility will again be tested in the fourth quarter of 2013 and future quarterly periods and will use the Company's prior twelve-month operating results as a measurement. The Company is currently projecting non-compliance under the Capital One Credit Facility through the third quarter of 2014 and future waivers will be required in order to maintain compliance in the fourth quarter of 2013 and in the quarters ending in 2014.

An amendment that resets these covenants is an alternative to the need for obtaining waivers. The Company is in discussions with Capital One with respect to such an amendment. No assurance can be given that the Company will be successful in obtaining such an amendment or any further waivers or as to the cost of them. In addition, if an event of default occurs and is continuing and such event of default is not waived or the Capital One Credit Facility not amended, the terms of the credit agreement would allow Capital One to prevent the Company from making any additional borrowings, which it uses to access working capital, as the Company's cash is swept by Capital One, and accelerate maturity of the loan. If as a result of an event of default under the Capital One Credit Facility, Capital One accelerates the repayment of amounts the Company owes to them, there could also be an acceleration of debt repayments of the Notes and other credit agreements. In such an event, the

Company would be required to seek alternative sources of liquidity, and there can be no assurance that any alternative source of liquidity would be available on terms acceptable to the Company, or at all. See Notes 6 and 7.

The Company's transition to its new distribution center in La Mirada, California has had a significant negative impact on the Company's earnings and cash flow. For the three and nine months ended September 30, 2013, the Company incurred incremental distribution costs (primarily labor) associated with these transition activities of approximately $5,900 and $10,900, respectively. All such costs have been charged to cost of sales and operating expense in the accompanying statements of operations. The issues surrounding the transition primarily relate to improper system design and integration and inadequate training and staffing. These issues caused processing inefficiencies that required the Company to employ additional staffing in order to meet customer demand. At September 30, 2013, staffing levels were significantly above target levels at the distribution facility. The Company believes the system design and integration issues have been largely resolved and training and staffing efforts are ongoing. Further, as of November 1, 2013, the Company has begun reducing staffing levels and overtime and has targeted additional reductions in the fourth quarter. If there are any further transition issues associated with the new center, sales and financial results could be negatively impacted further.

The Company continues to execute its plan, which was commenced in late 2010, to improve its operating performance and financial position. Among other things, in 2013, the Company completed the installation of RFID tracking systems in all of its stores, plans to complete the transition of distribution operations to its new distribution facility in La Mirada, California, continues with expansion of its selling square footage in its stores, continues with its inventory productivity improvement program, plans to reduce operating expenses, and plans to improve online sales performance with the implementation of the Oracle ATG back-end online system for international store fronts. In addition, the Company continues to seek improvements in store labor productivity and workers' compensation exposure. The Company continues to develop other initiatives intended to either increase sales, reduce costs or improve liquidity.

There can be no assurance that plans to improve operating performance and financial position will be successful. If the Company is unable to achieve significant cost reductions at its La Mirada distribution facility and achieve its projected sales results, it will need to promptly seek additional liquidity and there can be no assurance that such efforts will be successful. The Company believes that it has sufficient financing commitments to meet funding requirements for the next twelve months, subject to the foregoing matters.

Note 2. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of American Apparel, Inc. and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated upon consolidation. Certain reclassifications have been made to the prior year's condensed consolidated financial statements and related footnotes to conform them to the 2013 presentation.

The accompanying unaudited condensed consolidated financial statements of the Company and its wholly owned subsidiaries have been prepared by the Company, in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information, and are presented in accordance with the requirements of Form 10-Q and Rule 10-01 of Regulation S-X, and have not been audited. Accordingly, these unaudited condensed consolidated financial statements do not include all of the information and notes required by GAAP for complete financial statements and should be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended December 31, 2012 included in the Company's Annual Report on Form 10-K. In the opinion of management, the interim unaudited condensed consolidated financial statements included herein contain all adjustments, including normal recurring adjustments, considered necessary to present fairly the Company's financial position, the results of operations and cash flows for the periods presented.

The operating results and cash flows of the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. The most complex and subjective estimates include: self-insured liabilities; inventory valuation and obsolescence; valuation and recoverability of long-lived assets, including the values assigned to goodwill, and property and equipment; fair value calculations, including derivative liabilities such as the Lion warrants; contingencies, including accruals for the outcome of current litigation; and income taxes as well as other taxes and governmental assessments, including uncertain income tax positions and recoverability of deferred income taxes.

On a regular basis, management reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience, and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments, which potentially subject the Company to credit risk consist primarily of cash (the amounts of which may, at times, exceed Federal Deposit Insurance Corporation limits on insurable amounts) and trade accounts receivable (including credit card receivables), relating substantially to the Company’s U.S. Wholesale segment. The Company mitigates its risk by maintaining accounts through major financial institutions. The Company had approximately $3,720 and $8,265 held in foreign banks at September 30, 2013 and December 31, 2012, respectively. The Company mitigates its risks related to trade receivables by performing on-going credit evaluations of its customers and adjusts credit limits based upon payment history and the customer’s current credit worthiness, as determined by the review of their current credit information. The Company also maintains an insurance policy for certain customers based on a customer’s credit rating and established limits. Collections and payments from customers are continuously monitored. One customer in the Company's U.S. Wholesale segment accounted for 18.8% and 15.1% of the Company’s total accounts receivables as of September 30, 2013 and December 31, 2012, respectively. The Company maintains an allowance for doubtful accounts, which is based upon historical experience and specific customer collection issues that have been identified. While bad debt expenses have historically been within expectations and allowances established, the Company cannot guarantee that it will continue to experience the same credit loss rates that it has in the past.

Fair Value Measurements

The Company’s financial instruments are primarily composed of cash, restricted cash, accounts receivable (including credit card receivables), accounts payable, revolving credit borrowings, its senior secured notes, term loan and warrants. The fair value of cash, restricted cash, accounts receivable and accounts payable closely approximates their carrying value due to their short maturities and variable rates. The fair value of fixed-rate borrowings are estimated using a discounted cash flow analysis.

The valuation techniques utilized are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related asset or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of assets or liabilities.

The Company utilizes observable market inputs (quoted market prices) when measuring fair value whenever possible. For fair value measurements categorized within Level 3 of the fair value hierarchy, the Company's accounting and finance department determine its valuation policies and procedures. The development and determination of the unobservable inputs for Level 3 fair value measurements and fair value calculations are the responsibility of the

Company's accounting and finance department and are approved by the Chief Financial Officer.
As of September 30, 2013, there were no transfers in or out of Level 3 from other levels.
The fair value of fixed rate borrowings are estimated using a projected discounted cash flow analysis based on unobservable inputs including interest payments, principal payments and discount rate, and is classified within Level 3 of the valuation

hierarchy. An increase or decrease in the discount rate assumption, in isolation, can significantly decrease or increase the fair value of the fixed rate borrowings. See Note 8.
The fair value of each warrant is estimated using the Binomial Lattice option valuation model. Significant observable and unobservable inputs include stock price, exercise price, annual risk free rate, term, and expected volatility, and are classified within Level 3 of the valuation hierarchy. An increase or decrease in volatility, in isolation, can significantly increase or decrease the fair value of the warrants. See Notes 8 and 11.
The fair value of indefinite-lived assets, which consists exclusively of goodwill, is measured in connection with the Company’s annual goodwill impairment test. The fair value of the reporting unit to which goodwill has been assigned, is determined using a projected discounted cash flow analysis based on unobservable inputs including gross profit, discount rate, working capital requirements, capital expenditures, depreciation and terminal value assumptions, and are classified within Level 3 of the valuation hierarchy. An increase or decrease in the discount rate assumption and/or the terminal value assumption, in isolation, can have a significant effect on the fair value of the reporting unit.
Retail stores that have indicators of impairment and whose carrying value of assets are greater than their related projected undiscounted future cash flows, are measured for impairment by comparing the fair value of the assets against their carrying value. Fair value of the assets is estimated using a projected discounted cash flow analysis based on unobservable inputs including gross profit and discount rate, and is classified within Level 3 of the valuation hierarchy. The key assumptions used in the estimates of projected cash flows were sales, gross margins, and payroll costs. These forecasts were based on historical trends and take into account recent developments, as well as the Company's plans and intentions. An increase or decrease in the discount rate assumption and/or projected cash flows, in isolation, can significantly decrease or increase the fair value of the assets, which would have an effect on the impairment recorded.
Income Taxes
The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The Company estimates the degree to which tax assets and credit carryforwards will result in a benefit based on expected profitability by tax jurisdiction. A valuation allowance for such tax assets and loss carryforwards is provided when it is determined that such amounts will more likely than not go unrealized. If it becomes more likely than not that a tax asset will be realized, any related valuation allowance of such assets would be reversed.
During the three and nine months ended September 30, 2013, the Company incurred losses from operations. During the three months ended September 30, 2012, the Company recorded income from operations and during the nine months ended September 30, 2012, the Company incurred loss from operations. Based upon these results, and trends in the Company's performance projected through 2013, it is more likely than not that the Company will not realize any benefit from the deferred tax assets recorded by the Company in previous periods. The Company did not record income tax benefits in the condensed consolidated financial statements for the three and nine months ended September 30, 2013 and 2012 as the Company determined that it was more likely than not that sufficient taxable income in the future will not be generated in the respective jurisdictions to realize the deferred income tax assets.
Management makes judgments as to the interpretation of the tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In addition, the Company operates within multiple taxing jurisdictions and is subject to audit in these jurisdictions. In management's opinion, adequate provisions for income taxes have been made for all years. If actual taxable income by tax jurisdiction varies from estimates, additional allowances or reversals of reserves may be necessary.
The Company's foreign domiciled subsidiaries are subject to foreign income taxes on earnings in their respective jurisdictions. The Company elected to have its foreign subsidiaries, except for its subsidiaries in Brazil, Canada, China, Spain, Italy, Ireland and Korea, consolidated in the Company's U.S. federal income tax return. The Company will generally be eligible to receive tax credits on its U.S. federal income tax return for most of the foreign taxes paid by the Company's entities included in the United States Federal income tax return.
The Company accounts for uncertain tax positions in accordance with ASC 740 - “Income Taxes”, and gross unrecognized tax benefits at September 30, 2013 and December 31, 2012 are included in current liabilities in the

accompanying condensed consolidated balance sheets. The Company accrues interest and penalties on unrecognized tax benefits as components of the income tax provision in the accompanying condensed consolidated statements of operations. In accordance with ASC 740, the Company evaluates whether a valuation allowance should be established against the net deferred tax assets based upon the consideration of all available evidence and using a “more likely than not” standard. Significant weight is given to evidence that can be objectively verified. The determination to record a valuation allowance is based on the recent history of cumulative losses and current operating performance. In conducting the analysis, the Company utilizes an approach, which considers the current year loss, including an assessment of the degree to which any losses are driven by items that are unusual in nature and

incurred to improve future profitability. In addition, the Company reviews changes in near-term market conditions and any other factors arising during the period, which may impact its future operating results.

Accounting Standards Updates

Recently issued accounting standards updates are not expected to have a material effect on the Company's condensed consolidated financial statements.

Subsequent Events

The Company has evaluated events that occurred subsequent to September 30, 2013 and through the date the financial statements were available to be issued. Management concluded that no additional subsequent events required disclosure in these financial statements other than those disclosed in these notes to these financial statements.

Note 3. Inventories

The components of inventories are as follows:

	September 30, 2013	December 31, 2012
Raw materials	$24,445	$22,301
Work in process	3,063	2,197
Finished goods	146,800	152,384
	174,308	176,882
Less reserve for inventory shrinkage and obsolescence	(3,585)	(2,653)
Total, net of reserves	$170,723	$174,229

Inventories are stated at the lower of cost or market. Cost is primarily determined on the first-in, first-out (FIFO) method. The cost elements of inventories include materials, labor and overhead. For the three and nine months ended September 30, 2013 and 2012, no one supplier provided more than 10% of the Company’s raw material purchases.

The Company identifies potentially excess and slow-moving inventories by evaluating turn rates, inventory levels and other factors and provides reserves for lower of cost or market reserves for such identified excess and slow-moving inventories. At September 30, 2013 and December 31, 2012, the Company had a lower of cost or market reserve for excess and slow-moving inventories of $1,952 and $2,140, respectively.

The Company establishes a reserve for inventory shrinkage for each of its retail locations and its warehouse. The reserve is based on the historical results of physical inventory cycle counts. The Company had a reserve for inventory shrinkage in the amount of $1,633 and $513 at September 30, 2013 and December 31, 2012, respectively.

Note 4. Property and Equipment

Depreciation and amortization expense relating to property and equipment (including capitalized leases) is recorded in cost of sales and operating expenses. For the three and nine months ended September 30, 2013, depreciation and amortization expense was $6,738 and $19,155, respectively. For the three and nine months ended September 30, 2012, depreciation and amortization expense was $5,538 and $17,040, respectively.

Based upon the results of its retail store impairment analysis, for the three and nine months ended September 30, 2013, the Company recorded impairment charges of $233 and $311, respectively. For the nine months ended September 30, 2012, the Company incurred impairment charges of $129.

Note 5. Accrued Expenses and Other Current Liabilities

The components of accrued expenses and other current liabilities are as follows:

	September 30, 2013	December 31, 2012
Compensation, bonuses and related taxes	$9,351	$11,524
Accrued interest	13,238	520
Workers' compensation and other self-insurance reserves (Note 14)	5,851	5,288
Sales, value and property taxes	3,552	4,751
Gift cards and store credits	5,238	5,964
Loss contingencies	752	752
Accrued vacation	1,452	1,055
Deferred revenue	412	590
Deferred rent	3,039	2,997
Other	9,040	8,075
Total accrued expenses	$51,925	$41,516

Note 6. Revolving Credit Facilities and Current Portion of Long-Term Debt

The following table presents revolving credit facilities and current portion of long-term debt:

	September 30, 2013	December 31, 2012
Revolving credit facility (Capital One), maturing April 2018	$32,820	$—
Revolving credit facility (Crystal), replaced in April 2013 (a)	—	26,113
Term loan (Crystal), replaced in April 2013 (a)	—	30,000
Revolving credit facility (Bank of Montreal), maturing December 2013	106	4,387
Current portion of long-term debt (Note 7)	88	56
Total revolving credit facilities and current portion of long-term debt	$33,014	$60,556

(a) All outstanding principal amounts and accrued and unpaid interest and fees under the Crystal revolving credit facility and term loan were repaid with the proceeds of the financing transactions that the Company closed on April 4, 2013.

The Company incurred interest charges of $10,121 and $29,555 for the three and nine months ended September 30, 2013, respectively, and $10,454 and $30,274 for the three and nine months ended September 30, 2012, respectively, for all outstanding borrowings.

Revolving Credit Facility - Capital One

On April 4, 2013, the Company and its domestic subsidiaries replaced the credit facility with Crystal with a new $35,000 asset-based revolving facility with Capital One Leverage Finance Corp. ("Capital One" and the credit facility, the "Capital One Credit Facility"). On July 5, 2013, the Company entered into an amendment to the credit agreement with Capital One, pursuant to which the total commitment under the credit facility was raised to $50,000. The additional commitment was made under substantially the same terms as the existing facility.

The Capital One Credit Facility matures on April 4, 2018, subject to a January 15, 2018 maturity if excess availability is less than $15,000 at the time of notice to Capital One of a determination by the Company that an Applicable High Yield Discount Obligation ("AHYDO") redemption will be required pursuant to Section 3.01(e) of the indenture governing the Notes. See Note 7. Borrowings under the Capital One Credit Facility bear interest equal to LIBOR plus 3.5% or the bank's prime rate plus 2.5% (at the Company's option) and are subject to maintenance of specified borrowing base requirements and covenants. The Capital One Credit Facility is secured by a lien on substantially all of the assets of the Company's domestic subsidiaries and equity interests in certain of the Company's foreign subsidiaries, subject to some exceptions. As of September 30, 2013, the Company had $1,880 of outstanding letters of credit secured against the Capital One Credit Facility. The amount available for additional borrowings on September 30, 2013 was $15,245.

The Company is required to maintain a minimum fixed charge coverage ratio of not less than 1.00 to 1.00 and is also required to not exceed certain maximum leverage ratio thresholds, both determined as at the end of each fiscal quarter. Additionally, the

14

Company's domestic subsidiaries are subject to an annual limitation of certain specified capital expenditure amounts as determined at the end of each fiscal year.

Among other provisions, the Capital One Credit Facility requires that the Company maintain a lockbox arrangement and contains certain subjective acceleration clauses. In addition, Capital One may at its discretion, adjust the advance restriction and criteria for eligible inventory and accounts receivable. The Capital One Credit Facility contains cross-default provisions whereby an event of default under the Bank of Montreal Credit Agreement, under the indenture governing the Notes or other indebtedness, in each case of an amount greater than a specified threshold, would cause an event of default under the Capital One Credit Facility.

On November 14, 2013, the Company entered into a third amendment to the Capital One Credit Facility, which among other things, waived the obligation to maintain a minimum fixed charge coverage ratio and a maximum leverage ratio for the twelve consecutive fiscal month period ending September 30, 2013. As a condition to the waiver, the Company agreed to a one percentage point increase in the interest rate to either LIBOR plus 4.5% or the bank's prime rate plus 3.5% (at the Company's option) and limitations on amounts available to be borrowed, consisting of the imposition of a reserve against the line that will gradually reduce the total borrowing capacity to $47,500 and certain amendments to the borrowing base calculation. In addition, the Company paid a waiver fee of $75.

These financial covenants will again be tested in the fourth quarter of 2013 and future quarterly periods and will use as a measurement the Company’s prior twelve-month operating results as a measurement. The Company is currently projecting non-compliance with the covenants through the third quarter of 2014 and future waivers will be required in order to maintain compliance in the fourth quarter of 2013 and in the quarters ending in 2014.

An amendment that resets these covenants is an alternative to the need for obtaining waivers. The Company is in discussions with Capital One with respect to such an amendment. In addition, if an event of default occurs and is continuing and such event of default is not waived or the Capital One Credit Facility not amended, the terms of the credit agreement would allow Capital One to prevent the Company from making any additional borrowings, which it uses to access working capital, as the Company's cash is swept by Capital One, and accelerate maturity of the loan. If as a result of an event of default under the Capital One Credit Facility, Capital One accelerates the repayment of amounts the Company owes to them, there could also be an acceleration of debt repayments of the Notes and other credit agreements. In such an event, the Company would be required to seek alternative sources of liquidity, and there can be no assurance that any alternative source of liquidity would be available on terms acceptable to the Company, or at all.

Revolving Credit Facility - Bank of Montreal

The Company's wholly-owned subsidiaries, American Apparel Canada Wholesale, Inc. and American Apparel Canada Retail Inc. (collectively, the “CI Companies”), have a line of credit with Bank of Montreal (the "Bank of Montreal Credit Agreement") that provides for borrowings up to C$11,000 (Canadian dollars) with a fixed maturity date of December 31, 2013, bearing interest at 7.0% (the bank's prime rate at 3.0% as of September 30, 2013 plus 4.0% per annum) payable monthly. This line of credit is secured by a lien on the CI Companies' accounts receivable, inventory and certain other tangible assets. Available borrowing capacity at September 30, 2013 was $2,329.

The Bank of Montreal Credit Agreement contains a fixed charge coverage ratio and restricts the Company's Canadian subsidiaries from entering into operating leases above a specified threshold. Additionally, the Bank of Montreal Credit Agreement imposes a minimum excess availability covenant, which requires the Company's Canadian subsidiaries to maintain at all times minimum excess availability of 5.0% of the revolving credit commitment under the facility.

The Bank of Montreal Credit Agreement contains cross-default provisions with the Capital One Credit Facility and the Notes, whereby an event of default occurring thereunder would cause an event of default under the Bank of Montreal Credit Agreement.

As of September 30, 2013, the Company was in compliance with all required financial covenants of the Bank of Montreal Credit Agreement.

Revolving Credit Facility and Term Loan - Crystal

On April 4, 2013, the Company replaced its existing revolving credit facility and term loan with Crystal Financial LLC ("Crystal" and the "Crystal Credit Agreement", respectively), with a new asset-based revolving credit agreement with Capital One.

In connection with the termination of the Crystal Credit Agreement, the Company paid an early termination fee of $2,400. The difference between the net carrying amount of the Crystal loans of $60,533 (which includes the outstanding balance, accrued but unpaid interest, and unamortized financing cost immediately prior to the date of the extinguishment) and the cash paid to

Crystal of $66,411, which includes the early termination fee, was recorded as a $5,878 loss on early extinguishment of debt in the statement of operations for the nine months ended September 30, 2013.

Note 7. Long-Term Debt

Long-term debt consists of the following:

	September 30, 2013		December 31, 2012	
Senior Secured Notes due 2020	$202,088	(a)	$—	
Long-term debt with Lion	—		109,680	(b)
Other	5,237		388	
Total long-term debt	207,325		110,068	
Current portion of debt	(88	)	(56	)
Long-term debt, net of current portion	$207,237		$110,012	

(a) Net of unamortized discount of $5,926 at September 30, 2013.

(b) Including accrued interest paid-in-kind of $16,469 and net of unamortized discount of $27,929 at December 31, 2012.

Senior Secured Notes due 2020

On April 4, 2013, the Company issued the Notes in an aggregate principal amount of $206,000. The Notes mature on April 15, 2020. The Notes were issued at 97% of par value with an interest rate at issuance of 13% per annum, subject to adjustment. Interest on the Notes is payable semi-annually, in arrears, on April 15 and October 15 of each year, beginning on October 15, 2013.

A "special interest trigger event" is deemed to have occurred under the indenture governing the Notes (the "Senior Notes Indenture") if the Company's net leverage ratio for the year ended December 31, 2013 is greater than 4.50 to 1.00. Upon the occurrence of a special interest trigger event, interest on the Notes accrues at the rate of 15% per annum, retroactive to April 4, 2013, with the interest in excess of 13% per annum payable (i) in the case of any interest payment date prior to April 15, 2018, by adding such excess interest to the principal amount of the Notes on the interest payment date, and (ii) for any interest payment date on or after April 15, 2018, in cash.

As of September 30, 2013, the Company determined it is probable that a special interest trigger event under the indenture governing the Notes will occur as of December 31, 2013 and has accrued interest on the Notes at 15% retroactive to April 4, 2013 representing an additional 2% interest, which additional interest is payable in kind until April 15, 2018 and in cash on subsequent interest dates. The Company recorded $2,014 in additional interest expense for the special interest trigger event during the three months ended September 30, 2013.

On or after April 15, 2017, the Company may, at its option, redeem some or all of the Notes at a premium decreasing ratably to zero as specified in the indenture, plus accrued and unpaid interest to, but not including, the redemption date. Prior to April 15, 2017, the Company may, at its option, redeem up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of certain equity offerings at a redemption price of 113% of the aggregate principal amount of the redeemed notes plus accrued and unpaid interest to, but not including, the redemption date. In addition, at any time prior to April 15, 2017 the Company may, at its option, redeem some or all of the Notes by paying a "make whole" premium, plus accrued and unpaid interest to, but not including, the redemption date. If the Company experiences certain change of control events, the holders of the Notes will have the right to require the Company to purchase all or a portion of the Notes at a price in cash equal to 101% of the principal amount of such Notes, plus accrued and unpaid interest to, but not including, the date of purchase. In addition, the Company is required to use the net proceeds of certain asset sales, if not used for specified purposes, to purchase some of the Notes at 100% of the principal amount, plus accrued and unpaid interest to, but not including, the date of purchase. On each interest payment date after April 4, 2018, the Company will be required to redeem, for cash, a portion of each Note then outstanding equal to the amount necessary to prevent such Note from being treated as an “applicable high yield discount obligation” within the meaning of the Internal Revenue Code. The redemption price will be 100% of the principal amount plus accrued and unpaid interest thereon on the date of redemption.

The Notes are guaranteed, jointly and severally, on a senior secured basis by the Company's existing and future domestic subsidiaries. The Notes and the related guarantees are secured by a first-priority lien on the Company's and

its domestic subsidiaries' assets (other than the Credit Facility Priority Collateral, as defined below, subject to some exceptions and permitted liens). The Notes and the related guarantees also are secured by a second-priority lien on all of Company's and its domestic subsidiaries' accounts receivable, inventory, cash, and certain other assets (collectively, the "Credit Facility Priority Collateral"), subject to certain exceptions and permitted liens. The Notes and the guarantees, respectively, rank equal in right

of payment with the Company's and its domestic subsidiaries' senior indebtedness, including indebtedness under the Capital One Credit Facility, before giving effect to collateral arrangements.

The Notes impose certain limitations on the ability of the Company and its domestic subsidiaries to, among other things, and subject to a number of important qualifications and exceptions, incur additional indebtedness or issue disqualified capital stock or preferred stock (with respect to restricted subsidiaries), grant liens, make payments in respect of their capital stock or certain indebtedness, enter into transactions with affiliates, create dividend or other payment restrictions affecting subsidiaries, merge or consolidate with any other person, sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its assets or adopt a plan of liquidation. The Company must annually report to the trustee on compliance with such limitations. The Notes also contain cross-default provisions whereby a payment default or acceleration of any indebtedness in an aggregate amount greater than a specified threshold would cause an event of default with respect to the Notes.

In connection with the issuance of the Notes, the Company entered into a Registration Rights Agreement under which the Company has agreed to, among other things, conduct a registered exchange offer with respect to the Notes. If the Company fails to fulfill its obligations under the Registration Rights Agreement in a timely manner, it may be required to pay additional interest on the Notes.

As of September 30, 2013, the Company was in compliance with the required covenants of the Senior Notes Indenture.

Lion Loan Agreement

On April 4, 2013, the Company repaid and terminated its outstanding obligations with Lion Capital LLP ("Lion" and the "Lion Loan Agreement", respectively) with a portion of the proceeds of the financing transactions. There were no early termination penalties associated with the repayment of the Lion Loan. The difference between the net carrying amount of the Lion debt of $117,926 (which includes the principal, accrued but unpaid interest, unamortized discount and unamortized financing cost immediately prior to the date of extinguishment) and the cash paid to Lion of $144,149 was recorded in the statement of operations for the nine months ended September 30, 2013 as a $26,223 loss on the early extinguishment of debt. As of September 30, 2013, other long-term debt includes $4,797 related to an 20% paid-in-kind interest loan agreement with Lion maturing on October 4, 2018. The agreement governing this loan contains cross-acceleration provisions that could be triggered if the Company’s indebtedness under the Capital One Credit Facility is accelerated upon the occurrence of an event of default or if the maturity of the Notes is accelerated.

Note 8. Fair Value of Financial Instruments

The fair value of the Company's financial instruments are measured on a recurring basis. The carrying amount reported in the accompanying condensed consolidated balance sheets for cash, accounts receivable (including credit card receivables), accounts payable and accrued expenses approximates fair value because of the short-term maturity of those instruments. The carrying amount for borrowings from Capital One and the Bank of Montreal approximates fair value because of the variable market interest rate charged to the Company for these borrowings. The fair value of the Notes was estimated using a discounted cash flow analysis and a yield rate that was estimated using yield rates for publicly traded debt instruments of comparable companies with similar features. The fair value of warrants was estimated using Binomial Lattice option valuation model.

The Company did not have any assets or liabilities categorized as Level 1 or 2 as of September 30, 2013.

The following table presents carrying amounts and fair values of the Company's financial instruments as of September 30, 2013:

	Carrying Amount		Fair Value
Liabilities			
Senior Secured Notes due 2020	$202,088		$200,074
Lion Warrant	—	(a)	22,466
SOF Warrant	—	(a)	—
	$202,088		$222,540

(a) No cost is associated with these liabilities (see Note 11)

17

The following table summarizes the activity of Level 3 inputs measured on a recurring basis:

Fair Value Measurements of Common Stock Warrants using Significant Unobservable Inputs (Level 3)	Nine Months Ended September 30,	
	2013	2012
Balance at January 1,	$ 17,241	$ 9,633
Adjustment resulting from change in value recognized in earnings (a)	5,225	15,340
Gain on extinguishment of debt	—	3,482
Balance at September 30,	$ 22,466	$ 28,455

(a) Adjustment resulting from change in fair value is the amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to liabilities held at the reporting date. The unrealized gain or loss is recorded in unrealized loss on change in fair value of warrants in the accompanying condensed consolidated statements of operations.

Note 9. Income Taxes

Income taxes for the three and nine months ended September 30, 2013 were computed using the effective tax rate estimated to be applicable for the full fiscal year, which is subject to ongoing review and evaluation by management. The Company incurred a loss from operations for the three and nine months ended September 30, 2013. During the three months ended September 30, 2012, the Company recorded income from operations and during the nine months ended September 30, 2012, the Company incurred loss from operations. Based primarily upon recent history of cumulative losses and the results of operations for the three and nine months ended September 30, 2013 and 2012, the Company determined that it is more likely than not it will not realize benefits from the deferred tax assets in certain jurisdictions. The Company will not record income tax benefits in the condensed consolidated financial statements until it is determined that it is more likely than not that the Company will generate sufficient taxable income in the respective jurisdictions to realize the deferred income tax assets. As a result of the analysis, the Company determined that a full valuation allowance against the net deferred tax assets in certain jurisdictions, primarily in the U.S., and a partial valuation allowance in certain foreign jurisdictions, is required. Section 382 of the Internal Revenue Code in the United States limits the utilization of net operating losses when ownership changes, as defined by that section, occur. The Company has performed an analysis and determined it is more likely than not that an ownership change has not occurred through December 31, 2012 and, accordingly, the net operating loss carryforwards through such date are not subject to an annual Section 382 limitation.

Management makes judgments as to the interpretation of the tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In addition, the Company operates within multiple taxing jurisdictions and is subject to audit in these jurisdictions.

The Company is currently subject to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2011 through December 31, 2012. The Company and its subsidiaries' state and foreign tax returns are open to audit under similar statute of limitations for the years ended December 31, 2007 through December 31, 2012, depending on the particular jurisdiction. The Company concluded its audit with the Internal Revenue Service for the years ended December 31, 2008 through December 31, 2010 with no tax owed due to utilization of net operating losses. The Company agreed to a settlement with Canada Revenue Agency for audit of the years ended December 31, 2005 through December 31, 2007. Amounts to be paid pursuant to the agreed settlement are recorded in current liabilities at September 30, 2013.

The Company is currently being audited by the Internal Revenue Service for the year ended December 31, 2011. In management's opinion, adequate provisions for income taxes have been made for all years. If actual taxable income by tax jurisdiction varies from estimates, additional allowances or reversals of reserves may be necessary.

Note 10. Related Party Transactions

See Note 7 for a description of loans made by Lion to the Company and Note 11 for a description of the warrants issued by the Company to Lion.

Personal Guarantees by the Company’s CEO

As of September 30, 2013, the CEO of the Company has personally guaranteed the obligations of American Apparel under four property leases aggregating $6,261 in obligations. Additionally, the CEO of the Company has personally guaranteed the obligations of the Company with two vendors aggregating $1,000.

18

Lease Agreement Between the Company and a Related Party

The Company is party to an operating lease, expiring in November 2016, for its knitting facility with a related company (“American Central Plaza, LLC”), which is partially owned by the CEO and the Chief Manufacturing Officer ("CMO") of the Company. The Company's CEO holds an 18.75% ownership interest in American Central Plaza, LLC, while the CMO holds a 6.25% interest. The remaining members of American Central Plaza, LLC are not affiliated with the Company. Rent expense (including property taxes and insurance payments) for the three and nine months ended September 30, 2013 was $155 and $465 and for the three and nine months ended September 30, 2012 was $272 and $675, respectively.

Payments to Morris Charney

Morris Charney, (“Mr. M. Charney”), is the father of the Company's CEO and serves as a director of American Apparel Canada Wholesale Inc. and a director of American Apparel Canada Retail Inc. Day to day operations of these two Canadian subsidiaries are handled by management and other employees of these subsidiaries, none of whom performs any policy making functions for the Company. Management of American Apparel sets the policies for American Apparel and its subsidiaries as a whole. Mr. M. Charney does not perform any policy making functions for the Company or any of its subsidiaries. Instead, Mr. M. Charney only provides architectural consulting services primarily for stores located in Canada and, in limited cases, in the U.S. Mr. M. Charney was paid architectural consulting and director fees amounting to $26 and $160 for the three and nine months ended September 30, 2013 and $60 and $208 for the three and nine months ended September 30, 2012, respectively.

Note 11. Stockholders' (Deficit) Equity

Common Stock Warrants

Lion Warrants

As of September 30, 2013, Lion held warrants (the "Lion Warrants") to purchase 21,606 shares of the Company's common stock, with an exercise price of $0.75 per share. These warrants expire on February 18, 2022.

As of September 30, 2013, the fair value of the 21,606 Lion Warrants, estimated using the Binomial Lattice option valuation model, was $22,466 and was recorded as a current liability in the accompanying condensed consolidated balance sheets. The calculation as of September 30, 2013 assumed a stock price of $1.30, exercise price of $0.75, volatility of 71.40%, annual risk free interest rate of 2.33%, a contractual remaining term of 8.51 years and no dividends.

SOF Warrants

As of September 30, 2013, SOF Investments, L.P. ("SOF") held warrants to purchase 1,000 shares of the Company's common stock, with an exercise price of $2.148 per share, subject to adjustment under certain circumstances. These warrants expire on December 19, 2013.

As of September 30, 2013, the fair value of the SOF warrants, estimated using the Binomial Lattice option valuation model, was $0. The calculation as of September 30, 2013 assumed a stock price of $1.30, exercise price of $2.148, volatility of 39.17%, annual risk free interest rate of 0.02%, a contractual remaining term of 0.22 years and no dividends.

The following table summarizes common stock warrants issued, forfeited, expired and outstanding (shares in thousands):

	Number of Shares	Weighted Average Exercise Price	Weighted Average Contractual Life (Years)
Outstanding - January 1, 2013	22,606	$0.81	8.8
Issued	—	—	—
Forfeited	—	—	—
Expired	—	—	—
Outstanding - September 30, 2013	22,606	$0.81	8.0
Fair value - September 30, 2013	$22,466		

Earnings Per Share

The Company presents earnings per share (“EPS”) utilizing a dual presentation of basic and diluted EPS. Basic EPS includes no dilution and is computed by dividing net loss available to common stockholders by the weighted average

number of common shares outstanding for the period. Diluted EPS includes the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.
The Company had common stock under various options, warrants and other agreements at September 30, 2013 and 2012. The weighted average effects of 53,583 and 56,874 shares at September 30, 2013 and 2012, respectively, were excluded from the

19

calculations of net loss per share for the three and nine months ended September 30, 2013 and 2012, because their impact would have been anti-dilutive.

A summary of the potential stock issuances under various options, warrants and other agreements that could have a dilutive effect on the shares outstanding as of September 30, 2013 and 2012 are as follows:

	2013	2012
SOF warrants	1,000	1,000
Lion warrants	21,606	21,606
Shares issuable to Mr. Charney based on market conditions (1)	20,416	20,416
Contingent shares issuable to Mr. Charney based on market conditions (2)	2,112	2,112
Contingent shares issuable to Mr. Charney based on performance factors (3)	5,000	7,500
Employee options & restricted shares	3,449	4,240
	53,583	56,874

(1) Charney Anti-Dilution Rights pursuant to the April 26, 2011 Investor Purchase Agreement
(2) Pursuant to the March 24, 2011 conversion of debt to equity
(3) Pursuant to Mr. Charney's employment agreement commencing April 1, 2012

The table above does not include additional warrants that may be issuable to Lion pursuant to the anti-dilution provisions under the Lion Loan Agreement such as in the event anti-dilutive shares are issued to Mr. Charney pursuant to the Charney Anti-Dilution Rights.

Note 12. Share-Based Compensation

Plan Description - On June 21, 2011 the Company's Board of Directors and stockholders approved the American Apparel, Inc. 2011 Omnibus Stock Incentive Plan (the “2011 Plan”). The 2011 Plan authorizes the granting of a variety of incentive awards, the exercise or vesting of which would allow up to an aggregate of 10,000 shares of the Company's common stock to be acquired by the holders of such awards. On June 25, 2013, the Company's Board of Directors and stockholders approved amendments to the 2011 Plan to increase the maximum number of shares reserved under the 2011 Plan to 17,500 shares and increase the number of shares that may be awarded to any one participant during any calendar year to 3,000 shares. The purpose of the 2011 Plan is to provide an incentive to selected employees, directors, independent contractors, and consultants of the Company or its affiliates, and provides that the Company may grant options, stock appreciation rights, restricted stock, and other stock-based and cash-based awards. As of September 30, 2013, there were approximately 13,461 shares available for future grants under the 2011 Plan.

Restricted Share Awards - The following table summarizes shares of restricted stock that were granted, vested, forfeited and outstanding (shares in thousands):

	Number of Restricted Shares	Weighted Average Grant Date Fair Value	Weighted Average Remaining Vesting Period (in years)
Non-vested - January 1, 2013	2,644	$1.33	1.3
Granted	857	1.81	
Vested	(685)	1.31	
Forfeited	(67)	1.53	
Non-vested - September 30, 2013	2,749	$1.48	0.8

Vesting of the restricted share awards to employees may be either immediately upon grant or over a period of three to five years of continued service by the employee in equal annual installments. Vesting is immediate in the case of members of the Board of Directors. Share-based compensation is recognized over the vesting period based on the grant-date fair value.

Stock Option Awards - The following table summarizes stock options granted, forfeited, expired and outstanding (shares in thousands):

	Number of Shares	Weighted Average Exercise Price	Weighted Average Contractual Remaining Life (Years)	Aggregate Intrinsic Value
Outstanding - January 1, 2013	700	$0.82	8.8	
Granted	—	—	—	
Forfeited	—	—	—	
Expired	—	—	—	
Outstanding - September 30, 2013	700	$0.82	8.0	
Vested - September 30, 2013	525	$0.82	8.0	$—
Non-vested - September 30, 2013	175	$0.82	8.0	$—

Share-Based Compensation Expense - During the three and nine months ended September 30, 2013, the Company recorded share-based compensation expense of $1,228 and $8,044, respectively, related to its share-based compensation awards that are expected to vest. During the three and nine months ended September 30, 2012, the Company recorded share-based compensation expense of $2,949 and $7,333, respectively, related to its share-based compensation awards that are expected to vest. No amounts have been capitalized. As of September 30, 2013 unrecorded compensation cost related to non-vested awards was $6,532, which is expected to be recognized through 2016.

CEO Anti-Dilution Rights - During the three and nine months ended September 30, 2013, the Company recorded share-based compensation expense (included in the above) associated with Mr. Charney's certain anti-dilution rights of $1,628 and $5,770, respectively. During the three and nine months ended September 30, 2012, the Company recorded share-based compensation expense (included in the above) associated with Mr. Charney's certain anti-dilution rights of $1,105 and $3,599, respectively. As of September 30, 2013, unrecorded compensation cost was $2,674, which is expected to be recognized through 2015.

CEO Performance-Based Award - Pursuant to an employment agreement with Mr. Charney commencing on April 1, 2012, the Company provided to the CEO rights to 7,500 shares of the Company's stock. The shares vest in three equal installments, one per each measurement period, only upon the achievement of certain EBITDA targets for each of fiscal 2012, 2013 and 2014. For the fiscal 2012 measurement period, the Company achieved the target EBITDA and Mr. Charney received 2,500 shares on June 25, 2013.

The grant date fair value of the award is based on the share price of $0.75. The remaining share-based compensation expense will be recognized over the related service and amortization period in two probability-weighted terms of 2.1 and 3.1 years corresponding to the two remaining measurement periods. During the three months ended September 30, 2013, the Company determined it was probable that certain EBITDA targets related to 2013 would not be achieved. As a result, the Company recorded an adjustment of $1,406 to reverse previously recorded share-based compensation related to unvested shares. During the three and nine months ended September 30, 2013, the Company recorded share-based compensation benefit of $1,015 and expense of $235 (included in the above), respectively. During the three and nine months ended September 30, 2012, the Company recorded share-based compensation expense (included in the above) of $859 and $1,718, respectively. As of September 30, 2013, unrecorded compensation cost was $937, which is attributable to certain EBITDA targets related to 2014 and is expected to be recognized through 2015.

Non-Employee Directors

On October 1, 2013, July 1, 2013, April 1, 2013 and January 2, 2013 the Company issued a quarterly stock grant to each non-employee director for services performed of approximately 8, 5, 5 and 9 shares of the Company's common stock, based on grant date fair values of $1.28, $1.88, $2.10 and $1.13 per share, respectively.

Note 13. Commitments and Contingencies

Operating Leases

The Company conducts retail operations under operating leases, which expire at various dates through September 2022. The Company's primary manufacturing facilities and executive offices are currently under a long-term lease, which expires on July 31, 2019. Operating lease rent expense (including real estate taxes and common area maintenance costs) was approximately $19,790 and $59,154 for the three and nine months ended September 30, 2013, respectively. Operating lease rent expense (including real estate taxes and common area maintenance costs) was approximately $19,667 and $57,483 for the three and nine months ended September 30, 2012, respectively. The Company did not incur any significant contingent rent during these periods. Rent expense is allocated to cost of sales (for production-related activities), selling expenses (primarily for retail stores) and general and administrative expenses in the accompanying condensed consolidated statements of operations.

Sales Tax

The Company sells its products through its wholesale business, retail stores and the internet. The Company operates these channels separately and accounts for sales and use tax accordingly. The Company is periodically audited by state taxing authorities and it is possible they may disagree with the Company's method of assessing and remitting these taxes. The Company believes that it properly assesses and remits all applicable state sales taxes in the applicable jurisdictions and has accrued approximately $289 as of September 30, 2013 and December 31, 2012 for state sales tax contingencies.

Customs and duties

The Company is being audited by German customs authorities for the years ended December 31, 2009 through December 31, 2011. In connection with the audit, the German customs has issued retroactive assessments on the Company's imports totaling $4,913 at the September 30, 2013 exchange rates (assessment was issued in Euros). The size of the retroactive assessments are largely due to member countries of the European Union (“E.U.”) limited right to impose retaliatory duties on certain imports of U.S. origin goods into the E.U., based upon the World Trade Organization's (“WTO”) Dispute Settlement procedures and the related WTO arbitrator rulings brought into place as a result of EU complaint against the U.S. "Continued Dumping and Subsidy Offset Act of 2000" (the "CDSOA") usually referred to as "the Byrd Amendment." Consequently, the German customs authorities are attempting to impose a substantially higher tariff rate than the original rate that the Company had paid on the imports, approximately doubling the amount of the tariff that the Company would have to pay.

The Company believes that it has valid arguments to challenge the merit of the German customs assessment and has filed litigation in German courts to contest such assessment. However, as the case is still in its preliminary stages, the Company is unable to reasonably estimate the financial outcome of the matter at this time as it cannot predict whether the outcome will be favorable or unfavorable to the Company, or if the Company will be required to advance material amounts during the pendency of the litigation, and accordingly has not recorded a provision for this matter. No assurance can be made that this matter will not result in a material financial exposure in connection with the audit, which could have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Advertising

At September 30, 2013 and December 31, 2012, the Company had approximately $1,302 and $4,456, respectively, in open advertising commitments, which primarily relate to print advertisements in various newspapers and magazines, as well as outdoor advertising. The majority of these commitments are expected to be paid during the remainder of 2013.

Note 14. Workers' Compensation and Other Self-Insurance Reserves

The Company uses a combination of third-party insurance and/or self-insurance for a number of risks including workers’ compensation, medical benefits provided to employees, and general liability claims. General liability costs relate primarily to litigation that arises from store operations. Self-insurance reserves include estimates of both filed claims carried at their expected ultimate settlement value and claims incurred but not yet reported. The Company’s estimated claim amounts are discounted using a rate of 1.03% with a duration that approximates the duration of the Company’s self-insurance reserve portfolio. As of September 30, 2013 the undiscounted liability amount was $15,646. The Company’s liability reflected on the accompanying condensed consolidated balance sheets represents an estimate of the ultimate cost of claims incurred as of the balance sheet dates. In estimating this liability, the Company utilizes

loss development factors based on Company specific data to project the future development of incurred losses. Loss estimates are adjusted based upon actual claim settlements and reported claims. These projections are subject to a high degree of variability based upon future inflation rates, litigation trends, legal interpretations, benefit level changes and claim settlement patterns. Although the Company does not expect the amounts ultimately paid to differ significantly from its estimates, self-insurance reserves could be affected if future claim experience differs significantly from the historical trends and the assumptions applied.

The workers' compensation liability is based on an estimate of losses for claims incurred, but not paid at the end of the period. Funding is made directly to the providers and/or claimants by the insurance company. To guarantee performance under the workers' compensation program, as of September 30, 2013 and December 31, 2012, the Company had issued standby letters of credit in the amount of $1,100, with insurance companies being the beneficiaries, through a bank, and cash deposits of $16,124 and $14,624, respectively, in favor of insurance company beneficiaries. At September 30, 2013, the Company recorded a total reserve of $15,198, of which $3,831 is included in accrued expenses and $11,367 is included in other long-term liabilities on the accompanying condensed consolidated balance sheets. At December 31, 2012, the Company recorded a total reserve of $14,472, of which $3,778 is included in accrued expenses and $10,694 is included in other long-term liabilities on the accompanying condensed consolidated balance sheets.

The Company self-insures its health insurance benefit obligations while the claims are administered through a third party administrator. The medical benefit liability is based on estimated losses for claims incurred, but not paid at the end of the period. Funding is made directly to the providers and/or claimants by the insurance company. At September 30, 2013 and December 31, 2012, the Company's total reserve of $2,020 and $1,510, respectively, was included in accrued expenses in the accompanying condensed consolidated balance sheets.

Note 15. Business Segment and Geographic Area Information

The Company reports the following four operating segments: U.S. Wholesale, U.S. Retail, Canada, and International. The Company believes this method of segment reporting reflects both the way its business segments are managed and the way the performance of each segment is evaluated. The U.S. Wholesale segment consists of the Company's wholesale operations of sales of undecorated apparel products to distributors and third party screen printers in the United States, as well as the Company's online consumer sales generated in the U.S.. The U.S. Retail segment consists of the Company's retail operations in the United States, which comprised 140 retail stores operating in the United States, as of September 30, 2013. Canada segment includes retail, wholesale and online consumer operations in Canada. As of September 30, 2013, the retail operations in the Canada segment comprised 33 retail stores. The International segment includes retail, wholesale and online consumer operations outside of the United States and Canada. As of September 30, 2013, the retail operations in the International segment comprised 74 retail stores operating in 18 countries outside the United States and Canada. All of the Company's retail stores sell the Company's apparel products directly to consumers.

The Company's management evaluates performance based on a number of factors; however, the primary measures of performance are net sales and income or loss from operations of each business segment, as these are the key performance indicators reviewed by management. Operating income or loss for each segment does not include unallocated corporate general and administrative expenses, interest expense and other miscellaneous income/expense items. Corporate general and administrative expenses include, but are not limited to: human resources, legal, finance, information technology, accounting, executive compensation and various other corporate level expenses.

The following tables represent key financial information of the Company's reportable segments before unallocated corporate expenses:

	Three Months Ended September 30, 2013				
	U.S. Wholesale	U.S. Retail	Canada	International	Consolidated
Wholesale net sales	$41,232	$—	$3,044	$1,725	$46,001

Note 16. Litigation

The Company is subject to various claims and contingencies in the ordinary course of business, including those related to litigation, business transactions, employee-related matters and taxes, and others. When the Company is aware of a claim or potential claim, it assesses the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, the Company will record a liability for the loss. In addition to the estimated loss, the recorded liability includes probable and estimable legal costs associated with the claim or potential claim. There is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

Individual Actions

On February 7, 2006, Sylvia Hsu, a former employee of American Apparel, filed a Charge of Discrimination with the Los Angeles District Office of the Equal Employment Opportunity Commission (“EEOC”) (Hsu v. American Apparel: Charge No. 480- 2006-00418), alleging that she was subjected to sexual harassment by a co-worker and constructively discharged as a result of the sexual harassment and a hostile working environment. On March 9, 2007, the EEOC expanded the scope of its investigation to other employees of American Apparel who may have been sexually harassed. On August 9, 2010, the EEOC issued a written determination finding that reasonable cause exists to believe the Company discriminated against Ms. Hsu and women, as a class, on the basis of their female gender, by subjecting them to sexual harassment. No finding was made on the issue of Ms. Hsu's alleged constructive discharge. In August 2013 the parties entered into a Conciliation Agreement providing for an immaterial compensatory payment to Ms. Hsu and the Company's agreement to comply with the Company's Policy on Sexual Harassment and Sexual Discrimination, which Policy was reviewed by the EEOC, and take certain administrative measures relating thereto. The Conciliation Agreement remains in effect for three years.

On November 5, 2009, Guillermo Ruiz, a former employee of American Apparel, filed suit against the Company on behalf of putative classes of all current and former non-exempt California employees (Guillermo Ruiz, on behalf of himself and all others similarly situated v. American Apparel, Inc., Case Number BC425487) in the Superior Court of the State of California for the County of Los Angeles, alleging the Company failed to pay certain wages due for hours worked, to provide meal and rest periods or compensation in lieu thereof and to pay wages due upon termination to certain of the Company's employees. The complaint further alleges that the Company failed to comply with certain itemized employee wage statement provisions and violations of unfair competition law. The plaintiff is seeking compensatory damages and economic and/or special damages in an unspecified amount, premium pay, wages and penalties, injunctive relief and restitution, and reimbursement for attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration.

On June 21, 2010, Antonio Partida, a former employee of American Apparel, filed suit against the Company on behalf of putative classes of current and former non-exempt California employees (Antonio Partida, on behalf of himself and all others similarly situated v. American Apparel (USA), LLC, Case No. 30-2010-00382719-CU-OE-CXC) in the

Superior Court of the State of California for the County of Orange, alleging the Company failed to pay certain wages for hours worked, to provide meal and rest periods or compensation in lieu thereof, and to pay wages due upon separation. The complaint further alleges that the Company failed to timely pay wages, unlawfully deducted wages and failed to comply with certain itemized employee wage statement provisions and violations of unfair competition law. The plaintiff is seeking compensatory damages and

26

economic and/or special damages in an unspecified amount, premium pay, wages and penalties, injunctive relief and restitution, and reimbursement of attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration.

On or about December 2, 2010, Emilie Truong, a former employee of American Apparel, filed suit against the Company on behalf of putative classes of current and former non-exempt California employees (Emilie Truong, individually and on behalf of all others similarly situated v. American Apparel, Inc. and American Apparel LLC, Case No. BC450505) in the Superior Court of the State of California for the County of Los Angeles, alleging the Company failed to timely provide final paychecks upon separation. Plaintiff is seeking unspecified premium wages, attorneys' fees and costs, disgorgement of profits, and an injunction against the alleged unlawful practices. This matter is now proceeding in arbitration.

On or about February 9, 2011, Jessica Heupel, a former retail employee filed suit on behalf of putative classes of current and former non-exempt California employees (Jessica Heupel, individually and on behalf of all others similarly situated v. American Apparel Retail, Inc., Case No. 37-2011-00085578-CU-OE-CTL) in the Superior Court of the State of California for the County of San Diego, alleging the Company failed to pay certain wages for hours worked, to provide meal and rest periods or compensation in lieu thereof, and to pay wages due upon separation. The plaintiff is seeking monetary damages as follows: (1) for alleged meal and rest period violations; (2) for alleged failure to timely pay final wages, as well as for punitive damages for the same; and (3) unspecified damages for unpaid minimum wage and overtime. In addition, Plaintiff seeks premium pay, wages and penalties, injunctive relief and restitution, and reimbursement of attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration. On or about September 9, 2011, Anthony Heupel, a former retail employee initiated arbitration proceedings on behalf of putative classes of current and former non-exempt California employees, alleging the Company failed to pay certain wages for hours worked, to provide meal and rest periods or compensation in lieu thereof, and to pay wages due upon separation. The plaintiff is seeking monetary damages in an amount in excess of $3,600, as follows: (1) for alleged meal and rest period violations; (2) for alleged failure to timely pay final wages, as well as for punitive damages for the same; and (3) unspecified damages for unpaid minimum wage and overtime. In addition, Plaintiff seeks premium pay, wages and penalties, injunctive relief and restitution, and reimbursement of attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration.

The Company does not have insurance coverage for the above matters. The Company has accrued an estimate for the loss contingency for each of the above matters (excluding the Hsu case as noted above) in the Company's accompanying condensed consolidated balance sheet as of September 30, 2013. The Company may have an exposure to loss in excess of the amounts accrued, however, an estimate of such potential loss cannot be made at this time. Moreover, no assurance can be made that these matters either individually or together with the potential for similar suits and reputational harm, will not result in a material financial exposure, larger than the Company's estimate, which could have a material adverse effect upon the Company's financial condition, results of operations or cash flows.

Additionally, the Company is currently engaged in other employment-related claims and other matters incidental to the Company's business. The Company believes that all such claims against the Company are without merit or not material, and the Company intends to vigorously dispute the validity of the plaintiffs' claims. While the ultimate resolution of such claims cannot be determined, based on information at this time, the Company believes, but the Company cannot provide assurance that, the amount, and ultimate liability, if any, with respect to these actions will not materially affect the Company's business, financial position, results of operations, or cash flows. Should any of these matters be decided against the Company, the Company could not only incur liability but also experience an increase in similar suits and suffer reputational harm.

Derivative Matters

Two shareholder derivative lawsuits (Case No. CV106576 GAF (JCx) and Case No. CV107518 RSWL (FFMx)) were filed in the United States District Court for the Central District of California which were subsequently consolidated for all purposes into a case entitled In re American Apparel, Inc. Shareholder Derivative Litigation, Lead Case No. CV106576 (the “Federal Derivative Action”). Plaintiffs in the Federal Derivative Action allege a cause of action for breach of fiduciary duty arising out of (i) the Company's alleged failure to maintain adequate accounting and internal control policies and procedures; (ii) the Company's alleged violation of state and federal immigration laws in connection with the previously disclosed termination of over 1,500 employees following an Immigration and Customs

Enforcement inspection; and (iii) the Company's alleged failure to implement controls sufficient to prevent a sexually hostile and discriminatory work environment. The Company does not maintain any direct exposure to loss in connection with these shareholder derivative lawsuits. The Company's status as a “Nominal Defendant” in the actions reflects the fact that the lawsuits are maintained by the named plaintiffs on behalf of American Apparel and that plaintiffs seek damages on the Company's behalf. The Company filed a motion to dismiss the Federal Derivative Action which was granted with leave to amend on July 31, 2012. Plaintiffs did not amend the complaint and subsequently filed a motion to dismiss each of their claims, with prejudice, for the stated purpose of taking an immediate appeal of the Court's July 31, 2012 order. On October 16, 2012, the Court granted the Plaintiffs' motion to dismiss and entered judgment accordingly. On November 12, 2012, Plaintiffs filed a Notice of Appeal to the Ninth Circuit Court of Appeals where the case is currently pending.

Four shareholder derivative lawsuits (Case No. BC 443763, Case No. BC 443902, Case No. BC 445094, and Case No. BC 447890) were filed in fall of 2010 in the Superior Court of the State of California for the County of Los Angeles which were subsequently consolidated for all purposes into a case entitled In re American Apparel, Inc. Shareholder Derivative Litigation, Lead Case No. BC 443763 (the "State Derivative Action").

Three of the matters comprising the State Derivative Action allege causes of action for breach of fiduciary duty arising out of (i) the Company's alleged failure to maintain adequate accounting and internal control policies and procedures; and (ii) the Company's alleged violation of state and federal immigration laws in connection with the previously disclosed termination of over 1,500 employees following an Immigration and Customs Enforcement inspection. The fourth matter alleges seven causes of action for breach of fiduciary duty, unjust enrichment, abuse of control, gross mismanagement, and waste of corporate assets also arising out of the same allegations. On April 12, 2011, the Court issued an order granting a stay (which currently remains in place) of the State Derivative Action on the grounds that the case is duplicative of the Federal Derivative Action, as well as the Federal Securities Action currently pending in the United States District Court for the Central District of California (see below).

Both the Federal Derivative Action and State Derivative Actions are covered under the Company's Directors and Officers Liability insurance policy, subject to a deductible and a reservation of rights.

Other Proceedings

Four putative class action lawsuits, (Case No. CV106352 MMM (RCx), Case No. CV106513 MMM (RCx), Case No. CV106516 MMM (RCx), and Case No. CV106680 GW (JCGx)) were filed in the United States District Court for the Central District of California in the Fall of 2010 against American Apparel and certain of the Company's officers and executives on behalf of American Apparel shareholders. On December 3, 2010, the four lawsuits were consolidated for all purposes into a case entitled In re American Apparel, Inc. Shareholder Litigation, Lead Case No. CV106352 MMM (JCGx) (the “Federal Securities Action”). The lead plaintiff filed a consolidated class action complaint on April 29, 2011 on behalf of shareholders who purchased the Company's common stock between November 28, 2007 and August 17, 2010. The lead plaintiff alleges two causes of action for violations of Section 10(b) and 20(a) of the 1934 Act, and Rule 10b-5 promulgated under Section 10(b), arising out of alleged misrepresentations contained in the Company's press releases, public filings with the SEC, and other public statements relating to (i) the adequacy of the Company's internal and financial control policies and procedures; (ii) the Company's employment practices; and (iii) the effect that the dismissal of over 1,500 employees following an Immigration and Customs Enforcement inspection would have on the Company. Plaintiff seeks damages in an unspecified amount, reasonable attorneys' fees and costs, and equitable relief as the Court may deem proper. The Company filed two motions to dismiss the Federal Securities Action which the court granted with leave to amend. Plaintiffs filed a Second Amended Complaint on February 15, 2013. The Company filed a motion to dismiss the complaint on March 15, 2013. The hearing on the motion was held on June 3, 2013, at which time, the Court took the matter under submission. On August 8, 2013, the court issued its final order granting the motion to dismiss in regards to certain claims. Defendants answered the complaint's remaining claims on September 27, 2013. Discovery in the federal class action has not yet begun. The Federal Securities Action is covered under the Company's Directors and Officers Liability insurance policy, subject to a deductible and a reservation of rights.

Should any of the above matters (i.e., the Federal Derivative Action, the State Derivative Action, or the Federal Securities Action) be decided against the Company in an amount that exceeds the Company's insurance coverage, or if liability is imposed on grounds which fall outside the scope of the Company's insurance coverage, the Company could not only incur a substantial liability, but also experience an increase in similar suits and suffer reputational harm. The Company is unable to predict the financial outcome of these matters at this time, and any views formed as to the viability of these claims or the financial exposure which could result may change from time to time as the matters proceed through their course. However, no assurance can be made that these matters, either individually or together with the potential for similar suits and reputational harm, will not result in a material financial exposure, which could have a material adverse effect upon the Company's financial condition, results of operations, or cash flows.

The Company has previously disclosed an arbitration filed by the Company on February 17, 2011, related to cases filed in the Supreme Court of New York, County of Kings (Case No. 5018-1) and Superior Court of the State of California for the County of Los Angeles (Case Nos. BC457920 and BC460331) against American Apparel, Dov Charney and certain members of the Board of Directors asserting claims of sexual harassment, assault and battery,

impersonation through the internet, defamation and other related claims. The Company recently settled one of these cases with no monetary liability to the Company. The Company recently prevailed on the sexual harassment claims in another of these cases. While the ultimate resolution of the remaining claims cannot be determined, in light of the favorable ruling in one of these cases, the amount of settlement in the other of these cases, and based on information available at this time regarding the remaining cases, the Company believes, but the Company cannot provide assurances that, the amount and ultimate liability, if any, with respect to these remaining actions will not materially affect the Company's business, financial position, results of operations, or cash flows.

Note 17. Condensed Consolidating Financial Information
The Notes (see Note 7), which constitute debt obligations of American Apparel Inc. (the "Parent") are fully and unconditionally guaranteed, jointly and severally, and on a senior secured basis, by the Company's existing and future 100% owned direct and indirect domestic subsidiaries. The following presents the condensed consolidating balance sheets as of September 30, 2013 and December 31, 2012, the condensed consolidating statements of operations for the three and nine months ended September 30, 2013 and 2012, and the condensed consolidating statements of cash flows for the nine months ended September 30, 2013 and 2012 of the Parent, the Company's material guarantor subsidiaries and the non-guarantor subsidiaries, and the elimination entries necessary to present the Company's financial statements on a consolidated basis. These condensed consolidating financial information should be read in conjunction with the accompanying condensed consolidated financial statements of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(All dollar and share amounts in the Item 2 are presented in thousands, except for per share items and unless otherwise specified.)

Overview

We are a vertically-integrated manufacturer, distributor, and retailer of branded fashion basic apparel and accessories for women, men, children and babies. We are based in downtown Los Angeles, California. As of September 30, 2013, we had approximately 10,000 employees and operated 247 retail stores in 20 countries: the United States, Canada, Mexico, Brazil, United Kingdom, Ireland, Austria, Belgium, France, Germany, Italy, Netherlands, Spain, Sweden, Switzerland, Israel, Australia, Japan, South Korea, and China. We also operate a global e-commerce site that serves over 60 countries worldwide at www.americanapparel.com. In addition, American Apparel operates a leading wholesale business that supplies high quality T-shirts and other casual wear to distributors and the imprintable industry.

We conduct our primary apparel manufacturing operations out of an 800,000 square foot facility in the warehouse district of downtown Los Angeles, California. The facility houses our executive offices, as well as cutting, sewing, warehousing, and distribution operations. We conduct knitting operations in Los Angeles and Garden Grove, California, which produce a majority of the fabric we use in our products. We also operate dye houses that currently provide dyeing and finishing services for nearly all of the raw fabric used in production. We operate a fabric dyeing and finishing facility in Hawthorne, California. We also operate a cutting, sewing and garment dyeing and finishing facility located in South Gate, California. We operate a fabric dyeing and finishing facility, located in Garden Grove, California, which also includes cutting, sewing and knitting operations. We are in the process of resolving logistical difficulties related to our recent transition of our distribution operations to a new distribution center in La Mirada, California.

Because we manufacture domestically and are vertically integrated, we believe this enables us to more quickly respond to customer demand and changing fashion trends and to closely monitor product quality. Our products are noted for their quality and fit, and together with our distinctive branding these attributes have differentiated our products in the marketplace. “American Apparel®” is a registered trademark of American Apparel (USA), LLC.

The results of the respective business segments exclude unallocated corporate expenses, which consist of our shared overhead costs. These costs are presented separately and generally include corporate costs such as human resources, legal, finance, information technology, accounting, and executive management.

The following table details, by segment, the change in retail store count during the three and nine months ended September 30, 2013 and 2012.

Comparable Store Sales

The table below shows the increase in comparable store sales for our retail and online stores, for the three and nine months ended September 30, 2013 and 2012, and the number of retail stores included in the comparison at the end of each period. Comparable store sales are defined as the percentage change in sales for stores that have been open for more than twelve full months. Remodeled and expanded stores are excluded from the determination of comparable stores for the following twelve month period if the remodel or expansion results in a change of greater than 20% of selling square footage. Closed stores are excluded from the base of comparable stores following their last full month of operation.

In calculating constant currency amounts, we convert the results of our foreign operations both in the three and nine months ended September 30, 2013 and the prior year comparable periods using the weighted-average foreign exchange rate for the current comparable periods to achieve a consistent basis for comparison.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Comparable store sales [1]	2 %	20 %	5 %	17 %
Number of stores in comparison	237	242	237	242

[1] Comparable store sales results include the impact of online store sales and has been adjusted to exclude impact of extra leap-year day in 2012.

Executive Summary

Results of Operations

Net sales for the nine months ended September 30, 2013 increased $20,557, or 4.6%, to $464,839 from $444,282 for the nine months ended September 30, 2012 due to higher sales at our U.S. Wholesale, U.S. Retail and International segments.

Net sales at our U.S. Wholesale segment increased by $14,416, or 11.0%, to $146,028 for the nine months ended September 30, 2013 as compared to $131,612 for the nine months ended September 30, 2012, due to higher sales order volume. This increase was attributed to the continued strength of our product offerings and improved service levels. Additionally, in early 2013, we released a new wholesale catalog and a new style guide. We continue our focus on increasing our customer base by targeting direct sales, particularly sales to third party screen printers. Our online consumer net sales increased primarily as a result of targeted promotion efforts, improved merchandising and functional improvements to our website and fulfillment process.

Net sales for the U.S. Retail segment increased $6,367, or 4.4%, to $149,811 for the nine months ended September 30, 2013 as compared to $143,444 for the nine months ended September 30, 2012, primarily due to higher comparable store sales. This increase was generated by the continued strength of our product offerings and targeted strategic

promotions.
Net sales for the Canada segment decreased $2,254, or 5.0%, to $42,842 for the nine months ended September 30, 2013 as compared to $45,096 for the nine months ended September 30, 2012, as a result of lower sales volumes from store closures and the negative impact of foreign currency fluctuations.
Net sales for the International segment increased $2,028, or 1.6%, to $126,158 for the nine months ended September 30, 2013 as compared to $124,130 for the nine months ended September 30, 2012, due to higher sales in both the retail and online sales channels. The increase in the retail sales channel was due to higher store sales, particularly in Continental Europe and China.

Table of Contents

Gross margin for the nine months ended September 30, 2013 was 51.9% compared to 52.7% for the nine months ended September 30, 2012. The decrease in the gross margin was primarily due to higher distribution costs associated with our retail operation. See Changes in Supply Chain Operation below.

Operating expenses increased $18,083 to $258,262 for the nine months ended September 30, 2013 from $240,179 for the nine months ended September 30, 2012. Operating expenses include selling, general and administrative costs, and retail store impairment charges, and as a percentage of sales was approximately 55.6% for the nine months ended September 30, 2013 and 54.1% for the nine months ended September 30, 2012. Excluding the effects of share-based compensation and depreciation, amortization and impairment charges, operating expenses as a percentage of sales increased from 48.5% to 49.6% from the nine months ended September 30, 2012 to the same period in 2013. The increase is primarily attributable to incremental costs associated with the transition to our new distribution center in La Mirada, California. See Changes in Supply Chain Operation below.

Loss from operations was $16,884 for the nine months ended September 30, 2013 as compared to $5,887 for the nine months ended September 30, 2012. Higher sales volume was offset by lower gross margins and an increase in our operating expenses as discussed above.

Net loss for the nine months ended September 30, 2013 was $85,528 as compared to $42,175 for the nine months ended September 30, 2012 primarily as a result of a loss on extinguishment of debt related to our April 2013 refinancing and added costs associated with our distribution center. For the nine months ended September 30, 2013, we recognized a loss on extinguishment of debt of $32,101 related to our April debt refinancing and for the nine months ended September 30, 2012, we recognized a gain on extinguishment of debt of $11,588. See Results of Operations for the nine months ended September 30, 2013 for further details.

Changes in Supply Chain Operation

The transition to our new distribution center in La Mirada, California has had a significant negative impact on our earnings and cash flow. For the three and nine months ended September 30, 2013, we incurred incremental costs (primarily labor) associated with these transition activities of $5,900 and $10,900, respectively, and which were included in our statement of operations as follows for the periods indicated:

Amounts charged to:	Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013
Cost of sales	$1,200	$2,200
Selling expenses	4,700	8,700
Total	$5,900	$10,900

The issues surrounding the transition primarily relate to improper system design and integration and inadequate training and staffing. These issues caused processing inefficiencies that required us to employ additional staffing in order to meet customer demand. At September 30, 2013, staffing levels were significantly above target levels at the distribution facility. We believe the system design and integration issues have been largely resolved and training and staffing efforts are ongoing. Further, as of November 1, 2013, we have begun reducing staffing levels and overtime and have targeted further reductions in the fourth quarter. If there are any further transition issues associated with the new center, our sales and financial results could be negatively impacted further.

Although we anticipate a fourth quarter completion date, no assurance can be given that the implementation will not be delayed and if so, there will also be additional transition costs.

Liquidity Trends

As of September 30, 2013, we had approximately $4,913 in cash and $17,574 of availability for additional borrowings under the Capital One Credit Facility and Bank of Montreal Credit Agreement. Additionally, we had $32,820 outstanding on a $50,000 asset-backed revolving credit facility (increased from $35,000 to $50,000 on July 5, 2013) under the Capital One Credit Facility and $106 outstanding on a C$11,000 (Canadian dollars) revolving credit facility under the Bank of Montreal Credit Agreement. See Note 6 to our condensed consolidated financial statements under Part I, Item 1.

On April 4, 2013, we closed a private offering of $206,000 aggregate principal amount of our 13% Senior Secured Notes (the "Notes") due April 15, 2020 at 97% of par and also entered into a new $35,000 asset-backed revolving credit facility with Capital One Leverage Finance Corp. ("Capital One") maturing on April 4, 2018, subject to a January 15, 2018 maturity under certain circumstances. Subsequently, on July 5, 2013, we entered into an amendment to the credit agreement governing our credit facility with Capital One, pursuant to which the total commitment under the credit facility was raised to $50,000. We

used the net proceeds from the offering of the notes, together with borrowings under the new credit facility to repay and terminate our credit agreement with Crystal Financial LLC and our loan agreement with Lion Capital LLP. The notes and the new credit facility are our senior secured obligations and are guaranteed, on a senior secured basis, by our domestic restricted subsidiaries, subject to some exceptions. See Notes 6 and 7 to our condensed consolidated financial statements under Part I, Item 1.
As of September 30, 2013, we determined it is probable that a special interest trigger event under the indenture governing the Notes will occur as of December 31, 2013 and we have accrued interest on the Notes at 15% retroactive to April 4, 2013, representing an additional 2% interest, which additional interest is payable in kind until April 15, 2018 and in cash on subsequent interest dates. We recorded $2,014 in additional interest expense for the special interest trigger event during the three months ended September 30, 2013.
On November 14, 2013, we entered into a third amendment to the Capital One Credit Facility, which among other things, waived the obligation to maintain a minimum fixed charge coverage ratio and a maximum leverage ratio for the twelve consecutive fiscal month period ending September 30, 2013. As a condition to the waiver, we agreed to a one percentage point increase in the interest rate to either LIBOR plus 4.5% or the bank's prime rate plus 3.5% (at the Company's option) and limitations on amounts available to be borrowed, consisting of the imposition of a reserve against the line that will gradually reduce the total borrowing capacity to $47,500 and certain amendments to the borrowing base calculation. In addition, we paid a waiver fee of $75. These financial covenants will again be tested in the fourth quarter of 2013 and future quarterly periods and will use our prior twelve-month operating results as a measurement. We are currently projecting non-compliance with the covenants through the third quarter of 2014 and future waivers will be required in order to maintain compliance in the fourth quarter of 2013 and in the quarters ending in 2014.
An amendment that resets these covenants is an alternative to the need for obtaining waivers. We are in discussions with Capital One with respect to such an amendment. No assurance can be given that we will be successful in obtaining such an amendment or any further waivers or as to the cost of them. In addition, if an event of default occurs and is continuing and such event of default is not waived or the Capital One Credit Facility not amended, the terms of the credit agreement would allow Capital One to prevent us from making any additional borrowings, which we use to access working capital, as our cash is swept by Capital One, and accelerate maturity of the loan. If as a result of an event of default under the Capital One Credit Facility, Capital One accelerates the repayment of amounts we owe to them, there could also be an acceleration of debt repayments of the Notes and other credit agreements. In such an event, we would be required to seek alternative sources of liquidity, and there can be no assurance that any alternative source of liquidity would be available on terms acceptable to us, or at all.
Management Plan
We continue to execute a plan, which we commenced in late 2010, to improve our operating performance and financial position. Among other things, in 2013, we completed the installation of RFID tracking systems in all of our stores, continue with expansion of our selling square footage in our stores, continue with our inventory productivity improvement program, reduce operating expenses, and continue to improve online sales performance with the implementation of the Oracle ATG back-end online system for international store fronts. In addition, we continue to seek improvements in store labor productivity and workers' compensation exposure. We continue to develop other initiatives intended to either increase sales, reduce costs or improve liquidity.
RFID implementation - As of September 30, 2013 we completed the enhancement of our stores by installing sales conversion tracking device and radio frequency identification (RFID) tracking systems at all of our stores worldwide. We believe that these systems will enhance sales through improvements in stock positions and replenishment activities.
New distribution center - In June 2012 we entered into a new operating lease agreement for a new distribution center located in La Mirada, California and we currently are in the process of transitioning our distribution operations into this new facility. As discussed under Changes in Supply Chain Operation above, we have incurred significant transition costs and implementation delays in connection with this transition.

There can be no assurance that plans to improve operating performance and financial position will be successful. If we are unable to achieve significant cost reductions at our La Mirada distribution facility and achieve our projected sales results, we may need to seek additional liquidity and there can be no assurance that such efforts will be successful.

Table of Contents

Results of Operations

The results of operations of the interim periods are not necessarily indicative of results for the entire year.

Three Months Ended September 30, 2013 Compared to the Three Months Ended September 30, 2012

The following table sets forth our results of operations from our unaudited condensed consolidated statements of operations by dollar and as a percentage of net sales for the periods indicated (dollars in thousands):

	Three Months Ended September 30,					
	2013	% of net sales		2012	% of net sales	
U.S. Wholesale	$50,225	30.5	%	$46,847	28.9	%

(Loss) income from operations	(4,493)	(2.7	)%	4,617	2.8	%
Interest expense	10,121			10,454		
Foreign currency transaction gain	(449)			(685)		
Unrealized (gain) loss on change in fair value of warrants	(12,922)			13,312		
Other expense	58			36		
Loss before income tax	(1,301)			(18,500)		
Income tax provision	212			512		
Net loss	$(1,513)			$(19,012)		

U.S. Wholesale: Total net sales for the U.S. Wholesale segment increased $3,378, or 7.2%, to $50,225 for the three months ended September 30, 2013 as compared to $46,847 for the three months ended September 30, 2012. Wholesale net sales, excluding online consumer net sales, increased $1,370, or 3.4%, to $41,232 in 2013 as compared to $39,862 in 2012, primarily due to higher sales order volume. This increase was attributed to the strength of our summer product offering and targeted promotional efforts. Additionally, in early 2013, we released a new wholesale catalog and a new style guide. We continue our focus on increasing our customer base by targeting direct sales, particularly sales to third party screen printers.

Online consumer net sales increased $2,008, or 28.7%, to $8,993 in 2013 as compared to $6,985 in 2012, primarily as a result of increased web marketing and continued promotional activities, as well as improved merchandising. We also continued functional improvements to our website and fulfillment processes.

U.S. Retail: Net sales for the U.S. Retail segment increased $1,589, or 3.0%, to $54,303 for the three months ended September 30, 2013 as compared to $52,714 for the three months ended September 30, 2012 due to the strength of our summer product assortment for women resulting in an increase to our comparable store sales. Additionally, sales from new stores contributed $810 during the 2013 quarter.

Canada: Total net sales for the Canada segment decreased $1,684, or 10.1%, to $15,033 for the three months ended September 30, 2013 as compared to $16,717 for the three months ended September 30, 2012 due primarily to lower

sales in the retail sales channel. Additionally, the impact of foreign currency changes contributed to the sales decrease: holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total revenue for the current period would have been approximately $15,689, or 6.2% lower when compared to the same period last year.

Table of Contents

Retail net sales decreased by $1,765, or 13.5% to $11,321 in 2013 as compared to $13,086 in 2012. Since September 30, 2012, the number of retail stores in the Canada segment in operation decreased from 35 to 33, which resulted in decreased sales of $452. Warehouse sales during the third quarter of 2012 generated $757 in net sales; there were no warehouse sales during the comparable quarter in 2013. Comparable store sales were essentially flat. Finally, the impact of foreign currency changes also contributed to the sales decrease: holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, retail sales for the current period would have been approximately $11,814, or 9.7% lower when compared to the same period last year.

Wholesale net sales decreased by $171, or 5.3%, to $3,044 in 2013 as compared to $3,215 in 2012, primarily as a result of foreign currency fluctuations. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total wholesale net sales for the current period would have been approximately $3,177, or 1.2% lower when compared to the same period last year.

Online consumer net sales increased by $252, or 60.6%, to $668 in 2013 as compared to $416 in 2012. The increase was primarily a result of targeted promotion efforts and email advertising campaigns. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total online consumer net sales for the current period would have been approximately $697, or 67.5% higher when compared to the same period last year.

International: Total net sales for the International segment decreased $900, or 2.0%, to $44,982 for the three months ended September 30, 2013 as compared to $45,882 for the three months ended September 30, 2012. The decrease was due to lower sales in the wholesale and online channels, partially offset by higher sales in the retail channel. Additionally, the impact of foreign currency changes also contributed to the sales decrease: holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total revenue for the current period would have been approximately $45,584, or 0.6% lower when compared to the same period last year.

Retail net sales increased $22, or 0.1%, to $39,278 in 2013 as compared to $39,256 in 2012. Higher sales of $1,346 in Continental Europe (primarily due to the effect of favorable foreign currency exchange rates) was partially offset by lower sales of $968 in Japan (due to a store closure and negative foreign currency exchange rate effects). Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, retail sales for the current period would have been approximately $39,792, or 1.4% higher when compared to the same period last year.

Wholesale net sales decreased $388, or 18.4%, to $1,725 in 2013 as compared to $2,113 in 2012, primarily as a result of a decrease in wholesale sales in the United Kingdom. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, sales for the current period would have been approximately $1,649, or 22.0% lower when compared to the same period last year.

Online consumer net sales decreased $534, or 11.8% to $3,979 in 2013 as compared to $4,513 in 2012. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, sales for the current period would have been approximately $4,144, or 8.2% lower when compared to the same period last year.

Changes in Supply Chain Operation: The transition to our new distribution center in La Mirada, California has had a significant negative impact on our earnings and cash flow. For the three months ended September 30, 2013, we incurred incremental distribution costs (primarily labor) associated with these transition activities and recorded additional cost of sales of approximately $1,200 and selling expenses of approximately $4,700 in our statement of operations for the three months ended September 30, 2013. Although we anticipate a fourth quarter completion date, no assurance can be given that the implementation will not be delayed and if so, there will also be additional transition costs.

Gross margin: Gross margin for the three months ended September 30, 2013 was 51.4% compared to 52.5% for the three months ended September 30, 2012. The decrease in the gross margin was primarily due to higher distribution costs associated with our retail operation. See Changes in Supply Chain Operation above.

Selling expenses: Selling expenses increased $5,965, or 10.3%, to $63,982 for the three months ended September 30, 2013 as compared to $58,017 for the three months ended September 30, 2012. As a percentage of sales, selling expenses increased from 35.8% to 38.9%. The increase in selling expenses was due to higher salaries, wages and benefits primarily as a result of the transition to our new distribution center in La Mirada, California.

General and administrative expenses: General and administrative expenses increased $2,352 to $24,918 for the three months ended September 30, 2013 as compared to $22,566 for the three months ended September 30, 2012. As a percentage of sales, general and administrative expenses increased to 15.1% in 2013 from 13.9% in 2012. The change was mainly due to an increase in computer and leased equipment expenses of $1,679 and increase in depreciation and amortization expenses of $998 consistent with increased capital expenditures and store improvement activities.

Table of Contents

Retail store impairment: For the three months ended September 30, 2013, we recorded an impairment charge of $233. For the three months ended September 30, 2012, we evaluated our retail stores for impairment indicators and determined that no additional impairment charges were required.

Interest expense: Interest expense decreased $333 to $10,121 for the three months ended September 30, 2013 from $10,454 for the three months ended September 30, 2012, primarily due to a lower average interest rate on our debt outstanding. Interest expense for the three months ended September 30, 2013 mainly consisted of interest on the Notes of $8,622 interest on the Capital One Credit Facility of $411, interest on the Lion debt of $208 and amortization of debt discount and deferred financing cost of $591. Interest paid in cash was $659.

Foreign currency transaction gain: For the three months ended September 30, 2013, foreign currency transaction gain totaled $449 as compared to a gain of $685 for the three months ended September 30, 2012. The change related to the exchange rate fluctuations of the U.S. Dollar relative to functional currencies used by our subsidiaries.

Unrealized (gain) loss on change in fair value of warrants: We recorded a $12,922 gain in the fair value of warrants for the three months ended September 30, 2013 associated with the fair value measurements of our warrants. We recorded a $13,312 loss in the fair value of warrants for the three months ended September 30, 2012.

Income tax provision: The provision for income taxes decreased to $212 for the three months ended September 30, 2013 as compared to $512 for the three months ended September 30, 2012, due to an additional state tax provision recorded for the three months ended September 30, 2012. Although we incurred a loss before income taxes on a consolidated basis for the three months ended September 30, 2013, some of our foreign domiciled subsidiaries reported income before income taxes and will be taxable on a stand-alone reporting basis in their respective foreign jurisdictions. As a result, we recorded a provision for income tax expense for the three months ended September 30, 2013. There were no charges or benefits recorded to income tax expense for valuation allowances.

Table of Contents

Nine Months Ended September 30, 2013 Compared to the Nine Months Ended September 30, 2012

The following table sets forth our results of operations from our unaudited condensed consolidated statements of operations by dollar and as a percentage of net sales for the periods indicated (dollars in thousands):

	Nine Months Ended September 30,			
	2013	% of net sales	2012	% of net sales
U.S. Wholesale	$146,028	31.4 %	$131,612	29.6 %
U.S. Retail	149,811	32.2 %	143,444	32.3 %
Canada	42,842	9.2 %	45,096	10.2 %
International	126,158	27.1 %	124,130	27.9 %
Total net sales	464,839	100.0 %	444,282	100.0 %
Cost of sales	223,461	48.1 %	209,990	47.3 %
Gross profit	241,378	51.9 %	234,292	52.7 %
Selling expenses	177,235	38.1 %	168,258	37.9 %
General and administrative expenses	80,716	17.4 %	71,792	16.2 %
Retail store impairment charges	311	0.1 %	129	— %
Loss from operations	(16,884)	(3.6)%	(5,887)	(1.3)%
Interest expense	29,555		30,274	
Foreign currency transaction loss	422		141	
Unrealized loss on change in fair value of warrants	5,225		15,340	
Loss (gain) on extinguishment of debt	32,101		(11,588)	
Other expense	42		188	
Loss before income tax	(84,229)		(40,242)	
Income tax provision	1,299		1,933	
Net loss	$(85,528)		$(42,175)	

U.S. Wholesale: Total net sales for the U.S. Wholesale segment increased $14,416, or 11.0%, to $146,028 for the nine months ended September 30, 2013 as compared to $131,612 for the nine months ended September 30, 2012. Wholesale net sales, excluding online consumer net sales, increased $8,779, or 8.0%, to $119,159 in 2013 as compared to $110,380 in 2012 due to higher sales order volume. This increase was attributed to the continued strength of our product offerings and improved service levels. Additionally, in early 2013, we released a new wholesale catalog and a new style guide. We continue our focus on increasing our customer base by targeting direct sales, particularly sales to third party screen printers.

Online consumer net sales increased $5,637, or 26.5%, to $26,869 in 2013 as compared to $21,232 in 2012 primarily as a result of certain targeted promotional efforts and improved merchandising, as well as continued functional improvements to our website and fulfillment process.

U.S. Retail: Net sales for the U.S. Retail segment increased $6,367, or 4.4%, to $149,811 for the nine months ended September 30, 2013 as compared to $143,444 for the nine months ended September 30, 2012. Net sales growth was generated by the continued strength of our product offerings, targeted strategic promotions and an increase in comparable store sales which contributed to a 5.1%, or $6,867, increase in our comparable store sales. This increase was partially offset by $1,787 lower warehouse sales in 2013 as compared to 2012. New stores contributed $1,191 in net sales.

Canada: Total net sales for the Canada segment decreased $2,254, or 5.0%, to $42,842 for the nine months ended September 30, 2013 as compared to $45,096 for the nine months ended September 30, 2012 due primarily to lower sales in the retail sales channel. Additionally, the impact of foreign currency changes contributed to the sales decrease: holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total revenue

for the current period would have been approximately $43,734, or 3.0% lower when compared to the same period last year.

Retail sales decreased by $2,517, or 7.4%, to $31,664 in 2013 as compared to $34,181 in 2012 due to $1,044 lower sales volume as a result of the closure of two stores. Additionally, flea market sales decreased by $147 and the impact of foreign currency changes contributed to the sales decrease. Holding foreign currency exchange rates constant to those prevailing in the

comparable period in 2012, retail sales for 2013 would have been approximately $32,323, or 5.4% lower when compared to the same period last year.

Wholesale net sales decreased $213, or 2.3%, to $9,236 in 2013 as compared to $9,449 in 2012, largely as a result of foreign currency fluctuation. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total wholesale net sales for the Canada segment for 2013 would have been approximately $9,428, or 0.2% lower when compared to the same period last year.

Online consumer net sales increased $476, or 32.5% to $1,942 in 2013 as compared to $1,466 in 2012. The increase was primarily a result of targeted promotion efforts and email advertising campaigns. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total online consumer net sales for the Canada segment for 2013 would have been approximately $1,983 or 35.3% higher when compared to the same period last year.

International: Total net sales for the International segment increased $2,028, or 1.6%, to $126,158 for the nine months ended September 30, 2013 as compared to $124,130 for the nine months ended September 30, 2012. The increase was due primarily to higher sales in the retail sales channel, partially offset by the negative impact of changes in foreign currency exchange rates. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, total revenue for the current period would have been approximately $128,627, or 3.6% higher when compared to the same period last year.

Retail net sales increased $2,770, or 2.7%, to $105,629 in 2013 as compared to $102,859 in 2012. The increase is primarily due to higher sales in all but three countries, partially offset by the negative impact of changes in foreign currency exchange rates and store closures. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, retail sales for 2013 would have been approximately $107,579, or 4.6% higher when compared to the same period last year. Comparable store sales in 2013 increased by $2,512, or 2.6%, as compared to 2012.

Wholesale net sales decreased $886, or 12.3%, to $6,297 in 2013 as compared to $7,183 in 2012, primarily as a result of a decrease in wholesale sales in the United Kingdom. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, sales for the current period would have been approximately $6,209, or 13.6% lower when compared to the same period last year.

Online consumer net sales increased $144, or 1.0%, to $14,232 in 2013 as compared to $14,088 in 2012, primarily as a result of changes in foreign currency exchange rates. Holding foreign currency exchange rates constant to those prevailing in the comparable period in 2012, sales for the current period would have been approximately $14,838, or 5.3% higher when compared to the same period last year.

Changes in Supply Chain Operation: The transition to our new distribution center in La Mirada, California has had a significant negative impact on our earnings and cash flow. For the nine months ended September 30, 2013, we incurred incremental distribution costs (primarily labor) associated with these transition activities and recorded additional cost of sales of approximately $2,200 and selling expenses of approximately $8,700 in our statement of operations for the nine months ended September 30, 2013. Although we anticipate a fourth quarter completion date, no assurance can be given that the implementation will not be delayed and if so, there will also be additional transition costs.

Gross margin: Gross margin for the nine months ended September 30, 2013 was 51.9% compared to 52.7% for the nine months ended September 30, 2012. The decrease in the gross margin was due higher freight expenses and transition costs associated with our supply chain improvement efforts discussed above.

Selling expenses: Selling expenses increased $8,977, or 5.3%, to $177,235 for the nine months ended September 30, 2013 as compared to $168,258 for the nine months ended September 30, 2012. As a percentage of sales, selling expenses increased to 38.1% in 2013 from 37.9% in 2012.

The increase in selling expenses was primarily due to approximately $7,612 higher distribution labor and rent costs at our US Wholesale operations associated with the changes to our supply chain operations as discussed above. This was partially offset by $4,769 lower payroll and rent costs at our Canadian operations as a result of the closure of our

warehouse in Montreal, Canada. Additionally, we incurred higher rent expense of $2,195 primarily related to new stores and lease renewals, higher travel, meals and entertainment expenses of $1,198 as we continued to improve our stores, and higher supplies expenses of $1,313 associated with our RFID implementation activities. These increases were partly offset by lower advertising expenses of $2,494.

General and administrative expenses: General and administrative expenses increased $8,924 to $80,716 for the nine months ended September 30, 2013 as compared to $71,792 for the nine months ended September 30, 2012. As a percentage of sales, general and administrative expenses increased to 17.4% in 2013 from 16.2% in 2012.

The increase in general and administrative expenses was primarily due to higher computer software related costs of $2,520 associated with the recent improvements to our online store portals and other software upgrades, higher equipment lease expenses of $1,975 and higher depreciation and amortization expenses of $1,926 consistent with our capital expenditures.

Retail store impairment charges: For the nine months ended September 30, 2013, we recorded impairment charges relating to retail stores of $311. For the nine months ended September 30, 2012, we recorded an impairment charge of $129.

Interest expense: Interest expense decreased $719 to $29,555 for the nine months ended September 30, 2013 from $30,274 for the nine months ended September 30, 2012, primarily due to lower average interest rates on our debt outstanding. Interest expense for the nine months ended September 30, 2013 mainly consisted of interest on the Senior Secure Notes of $15,106 the Lion Credit Agreement of $6,775, interest on the Capital One Credit Facility of $2,079, interest on the Crystal Credit Agreement of $331 and amortization of debt discount and deferred financing cost of $3,717. Interest paid in cash was $5,726.

Foreign currency transaction loss: For the nine months ended September 30, 2013, foreign currency transaction loss totaled $422 as compared to a loss of $141 for the nine months ended September 30, 2012. The change related to the exchange rate fluctuations of the U.S. Dollar relative to functional currencies used by our subsidiaries.

Unrealized loss on change in fair value of warrants: We recorded a $5,225 loss and a $15,340 loss in fair value of warrants for the nine months ended September 30, 2013 and 2012, respectively.

Loss (gain) on extinguishment of debt: During the nine months ended September 30, 2013, we recorded a loss on extinguishment of debt of $32,101 relating to termination of our credit agreement with Crystal and our loan agreement with Lion, comprising loss of $5,878 on early extinguishment of debt for Crystal and loss of $26,223 on early extinguishment of debt for Lion. During the nine months ended September 30, 2012, we recorded a gain on extinguishment of debt relating to the amendment to the Lion Credit Agreement terms of approximately $11,588. See Note 6, Revolving Credit Facilities and Current Portion of Long-Term Debt and Note 7, Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.

Income tax provision: The provision for income tax decreased to $1,299 for the nine months ended September 30, 2013 as compared to $1,933 for the nine months ended September 30, 2012. Although we incurred a loss from operations on a consolidated basis for the nine months ended September 30, 2013, some of our foreign domiciled subsidiaries reported income from operations and will be taxable on a stand-alone reporting basis in their respective foreign jurisdictions. As a result, we recorded a provision for income tax expense for the nine months ended September 30, 2013. There were no charges or benefits recorded to income tax expense for valuation allowances.

Liquidity and Capital Resources

As of September 30, 2013, we had approximately $4,913 in cash and $17,574 of availability for additional borrowings under the Capital One Credit Facility and Bank of Montreal Credit Agreement. Additionally, we had $32,820 outstanding on a $50,000 asset-backed revolving credit facility (increased from $35,000 to $50,000 on July 5, 2013) under the Capital One Credit Facility and $106 outstanding on a C$11,000 (Canadian dollars) revolving credit facility under the Bank of Montreal Credit Agreement. See Note 6 to our condensed consolidated financial statements under Part I, Item 1.

On April 4, 2013, we closed the private offering of the Notes in an aggregate principal amount of $206,000, issued at 97% of par and maturing on April 15, 2020. We also entered into a new $35,000 asset-backed revolving credit facility with Capital One Leverage Finance Corp. maturing on April 4, 2018, subject to a January 15, 2018 maturity under certain circumstances. Subsequently, on July 5, 2013, we entered into an amendment to the credit agreement governing our credit facility with Capital One Leverage Finance Corp., pursuant to which the total commitment under the credit facility was raised to $50,000. We used the net proceeds from the offering of the notes, together with borrowings under the new credit facility to repay and terminate our credit agreement with Crystal Financial LLC and our Lion Loan Agreement. The notes and the new credit facility are our senior secured obligations and are guaranteed, on a senior secured basis, by our domestic restricted subsidiaries, subject to some exceptions. See Notes 6 and 7 to our

condensed consolidated financial statements under Part I, Item 1.

Over the past years, our growth has been funded through a combination of borrowings from related and unrelated parties, bank and other debt, lease financing, proceeds from the exercise of purchase rights and issuance of common stock. Our principal liquidity requirements are for working capital, interest payments, capital expenditures and to fund operations. We fund our liquidity requirements primarily through cash on hand, cash flow from operations and borrowings under our credit facilities. Our credit agreements have from time to time contained covenants requiring us to meet specified targets for minimum fixed charge coverage ratios and maximum leverage ratios, and our inability to achieve such targets or to obtain a waiver of compliance would negatively impact the availability of credit under those credit facilities or result in an event of default.

Table of Contents

There can be no assurance that plans to improve operating performance and financial position will be successful. If we are unable to achieve significant cost reductions at our La Mirada distribution facility and achieve our projected sales results, we may need to seek additional liquidity and there can be no assurance that such efforts will be successful.
We believe that we have sufficient financing commitments to meet funding requirements for the next twelve months.
Cash Flow Overview

	Nine Months Ended September 30, 2013	
	2013	2012
Net cash (used in) provided by:		
Operating activities	$(10,937)	$1,570
Investing activities	(17,283)	(20,113)
Financing activities	20,567	15,984
Effect of foreign exchange rate on cash	(287)	(548)
Net decrease in cash	$(7,940)	$(3,107)

Nine Months Ended September 30, 2013 Compared to the Nine Months Ended September 30, 2012
Cash used in operating activities was $10,937 for the nine months ended September 30, 2013 as compared with cash provided by operating activities of $1,570 for the nine months ended September 30, 2012.
The decrease in cash flow from operations was due to higher operating expenses, primarily as a result of our transition to our new distribution center in La Mirada, CA. This was partially offset by a decrease in cash used by operating assets and liabilities, primarily a decrease in trade receivables and an increase in accrued expenses.
Cash used in investing activities was $17,283 for the nine months ended September 30, 2013 as compared with $20,113 for the nine months ended September 30, 2012.
Capital expenditures for the nine months ended September 30, 2013 increased by $4,650 as we continued to make improvements to our stores, make additional investments in equipment for our new distribution center and in manufacturing equipment, computer software and our website development.
Restricted cash relates primarily to cash collateral used to secure our standby letters of credit associated with our worker's compensation self-insurance policy and store leases.
Cash provided by financing activities increased from $15,984 during the nine months ended September 30, 2012 to $20,567 for the same period in 2013.
On April 4, 2013, we issued the Notes for aggregate net proceeds of $199,820 and entered into a new asset-backed revolving credit facility with Capital One. The net proceeds from the offering of the notes, together with borrowings under the new credit facility were used to repay and terminate the outstanding amounts with Lion Capital LLP of $144,149 and with Crystal Financial LLC of $66,411. See Notes 6 and 7 to our condensed consolidated financial statements under Part I, Item 1.
Debt Agreements and Other Capital Resources
Capital One Credit Facility - On April 4, 2013, we replaced the credit facility with Crystal with a new $35,000 asset-based revolving facility with Capital One Leverage Finance Corp. ("Capital One" and the credit facility, the "Capital One Credit Facility"). Subsequently, on July 5, 2013, we entered into an amendment to the credit agreement with Capital One, pursuant to which the total commitment under the credit facility was raised to $50,000. The additional commitment was made under substantially the same terms as the existing facility. The Capital One Credit Facility matures on April 4, 2018, subject to a January 15, 2018 maturity if excess availability is less than $15,000 at the time of notice to Capital One of a determination by the Company that an Applicable High Yield Discount Obligation ("AHYDO") redemption will be required pursuant to Section 3.01(e) of the indenture governing the Notes. Borrowings under the Capital One Credit Facility bear interest equal to LIBOR plus 3.5% or the bank's prime rate plus 2.5% (at the Company's option) and are subject to maintenance of specified borrowing base requirements and covenants. In connection with the waiver related to the Capital One Credit Facility, as discussed further in Financial Covenants below, the interest rate was increased by one percentage point to either LIBOR plus 4.5% or the bank's prime rate plus 3.5% (at our option). The Capital One Credit Facility is secured by a lien on substantially all of the

assets of our domestic subsidiaries and equity interests in certain of our foreign subsidiaries, subject to some exceptions. The amount available for additional borrowings on September 30, 2013 was $15,245. See Financial Covenants below and Note 6, Revolving Credit Facilities and Current Portion of Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.

Table of Contents

Bank of Montreal Credit Facility - Our wholly-owned subsidiaries, American Apparel Canada Wholesale, Inc. and American Apparel Canada Retail Inc. (collectively, the “CI Companies”), have a line of credit with Bank of Montreal (the "Bank of Montreal Credit Agreement") that provides for borrowings up to C$11,000 (Canadian dollars) with a fixed maturity date of December 31, 2013, bearing interest at 7.0% (the bank's prime rate at 3.0% as of September 30, 2013 plus 4.0% per annum) payable monthly. This line of credit is secured by a lien on the accounts receivable, inventory and certain other tangible assets. Our available borrowing capacity at $2,329 at September 30, 2013. See Financial Covenants below and Note 6, Revolving Credit Facilities and Current Portion of Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.
Senior Secured Notes due 2020 - On April 4, 2013, we issued the Notes in an aggregate principal amount of $206,000. The Notes will mature on April 15, 2020. The Notes were issued at 97% of par value with an interest rate at issuance of 13% per annum, subject to adjustment. Interest on the Notes is payable semi-annually, in arrears, on April 15 and October 15 of each year, beginning on October 15, 2013. On October 14, 2013 we made an interest payment on the Notes of $14,208.
A "special interest trigger event" is deemed to have occurred under the indenture governing the Notes if our net leverage ratio for the year ended December 31, 2013 is greater than 4.50 to 1.00. Upon the occurrence of a special interest trigger event, interest on the Notes accrues at the rate of 15% per annum, retroactive to April 4, 2013, with the interest in excess of 13% per annum payable (i) in the case of any interest payment date prior to April 15, 2018, by adding such excess interest to the principal amount of the Notes on the interest payment date, and (ii) for any interest payment date on or after April 15, 2018, in cash.
As of September 30, 2013, we determined it is probable that a special interest trigger event under the indenture governing the Notes will occur as of December 31, 2013, and we have accrued interest on the Notes at 15% retroactive to April 4, 2013, representing an additional 2% interest, which is payable in kind until April 15, 2018 and in cash on subsequent interest payment dates. We recorded $2,014 in additional interest expense for the special interest trigger event for the three months ended September 30, 2013.
On or after April 15, 2017, we may redeem some or all of the Notes at a premium decreasing ratably to zero as specified in the indenture, plus accrued and unpaid interest to, but not including, the redemption date. Prior to April 15, 2017, we may redeem up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of certain equity offerings at a redemption price of 113% of the aggregate principal amount of the redeemed notes plus accrued and unpaid interest to, but not including, the redemption date. In addition, at any time prior to April 15, 2017 we may redeem some or all of the Notes by paying a premium, plus accrued and unpaid interest to, but not including, the redemption date. If we experience certain change of control events, the holders of the Notes will have the right to require us to purchase all or a portion of the Notes at a price in cash equal to 101% of the principal amount of such Notes, plus accrued and unpaid interest to, but not including, the date of purchase. In addition, we are required to use the net proceeds of certain asset sales, if not used for specified purposes, to purchase some of the Notes at 100% of the principal amount, plus accrued and unpaid interest to, but not including, the date of purchase. On each interest payment date after April 4, 2018, we will be required to redeem, for cash, a portion of each Note then outstanding equal to the amount necessary to prevent such Note from being treated as an “applicable high yield discount obligation” within the meaning of the Internal Revenue Code. The redemption price will be 100% of the principal amount plus accrued and unpaid interest thereon on the date of redemption.
The Notes are guaranteed, jointly and severally, on a senior secured basis by our existing and future domestic restricted subsidiaries. See Financial Covenants below and Note 7, Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.
In connection with the issuance of the Notes, we entered into a Registration Rights Agreement pursuant to which we have agreed to, among other things, conduct a registered exchange offer with respect to the Notes. If we fail to fulfill our obligations under the Registration Rights Agreement in a timely manner, we may be required to pay additional interest on the Notes. See Note 7, Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.

Crystal Credit Facility - On April 4, 2013, we replaced our existing revolving credit facility and term loan with Crystal Financial LLC ("Crystal" and the "Crystal Credit Agreement", respectively), with a new asset-based revolving credit agreement with Capital One.
All amounts owed under the Crystal credit facility were repaid with the net proceeds from the offering of the Notes and the new credit facility.
The difference between the net carrying amount of the Crystal loans of $60,533 (which includes the outstanding balance, accrued but unpaid interest, and unamortized financing cost immediately prior to the date of the extinguishment) and the cash paid to Crystal of $66,411 (which includes a $2,400 early termination fee) was recorded as a $5,878 loss on early extinguishment of debt in our statement of operations for the nine months ended September 30, 2013. See Note 6, Revolving

Credit Facilities and Current Portion of Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.

Lion Loan Agreement - On April 4, 2013, we repaid and terminated the outstanding obligations with Lion Capital LLP ("Lion" and the "Lion Loan Agreement", respectively) with a portion of the proceeds of the financing transactions. There were no early termination penalties associated with the termination of the Lion Loan Agreement. The difference between the net carrying amount of the Lion debt of $117,926 (which includes the principal, accrued but unpaid interest, unamortized discount and unamortized financing cost immediately prior to the date of extinguishment) and the cash paid to Lion of $144,149 was recorded in its statement of operations for the nine months ended September 30, 2013 as a $26,223 loss on the early extinguishment of this debt. See Note 7, Long-Term Debt to our condensed consolidated financial statements under Part I, Item 1.

Warrants

Lion Warrants - As of September 30, 2013, Lion held warrants to purchase 21,606 shares of our common stock, with an exercise price of $0.75 per share. These warrants expire on February 18, 2022. The estimated fair value of $22,466 at September 30, 2013 is recorded as a current liability in our condensed consolidated balance sheets under Part I, Item 1.

The Lion Warrants also contain certain anti-dilution protections in favor of Lion providing for proportional adjustment of the warrant price and, under certain circumstances, the number of shares of our common stock issuable upon exercise of the Lion Warrant, in connection with, among other things, stock dividends, subdivisions and combinations and the issuance of additional equity securities at less than fair market value, as well as providing for the issuance of additional warrants to Lion in the event of certain equity sales or debt for equity exchanges. See Note 11, Stockholders' (Deficit) Equity to our condensed consolidated financial statements under Part I, Item 1.

SOF Warrants - As of September 30, 2013, SOF Investments, L.P. ("SOF") held warrants to purchase 1,000 shares of our common stock, with an exercise price of $2.148 per share, subject to adjustment under certain circumstances. These warrants expire on December 19, 2013. As of September 30, 2013, the estimated fair value was $0. See Note 11, Stockholders' (Deficit) Equity to our consolidated financial statements under Part I, Item 1.

Summary of Debt

The following is an overview of our total debt as of September 30, 2013 (dollars in thousands):

Description of Debt	Lender Name	Interest Rate	September 30, 2013	Covenant Violations
Revolving credit facility	Capital Leverage Finance Corp.	1) 30-day LIBOR of 0.1806% plus 4.5% plus unused facility fee of 0.5%; or 2) bank's prime rate of 3.25% plus 3.5% plus unused facility fee of 0.5%;	$32,820	No
Revolving credit facility (Canada)	Bank of Montreal	Bank's prime rate of 3% plus 4%	106	No
Senior Secured Notes, net of discount and including 2% interest paid in kind		15.0%	202,088	No
Other		from 4.9% to 20.0%	5,237	No
Capital lease obligations	27 individual leases ranging between $1-$3,148	From 0.4% to 24.1%	6,683	N/A
Cash overdraft			2,812	N/A

Total debt including cash overdraft	$249,746

Financial Covenants

Our credit agreements and the indenture under which our Notes were issued contain certain restrictive covenants. Significant covenants are summarized below.

Capital One Credit Facility - We are required to maintain a minimum fixed charge coverage ratio of not less than 1.00 to 1.00 and we are also required to not exceed certain maximum leverage ratio thresholds, both determined at the end of each fiscal quarter. Additionally, our domestic subsidiaries are subject to an annual limitation of certain specified capital expenditure amounts as determined at the end of each fiscal year.

Among other provisions, the Capital One Credit Facility requires that we maintain a lockbox arrangement and contains certain subjective acceleration clauses. In addition, Capital One may at its discretion, adjust the advance restriction and criteria for eligible inventory and accounts receivable. The Capital One Credit Facility contains cross-default provisions whereby an event of default under the Bank of Montreal Credit Agreement, the indenture governing the Notes or other indebtedness, in each case of an amount greater than a specified threshold, would cause an event of default under the Capital One Credit Facility. On November 14, 2013, we entered into a third amendment to the Capital One Credit Facility, which among other things, waived the obligation to maintain a minimum fixed charge coverage ratio and a maximum leverage ratio for the twelve consecutive fiscal month period ending September 30, 2013. As a condition to the waiver, we agreed to a one percentage point increase in the interest rate to either LIBOR plus 4.5% or the bank's prime rate plus 3.5% (at our option) and limitations on amounts available to be borrowed, consisting of the imposition of a reserve against the line that will gradually reduce the total borrowing capacity to $47,500 and certain amendments to the borrowing base calculation. In addition, we paid a waiver fee of $75.

These financial covenants will again be tested in the fourth quarter of 2013 and future quarterly periods and will use our prior twelve-month operating results as a measurement. We are currently projecting non-compliance with the covenants through the third quarter of 2014 and future waivers will be required in order to maintain compliance in the fourth quarter of 2013 and in the quarters ending in 2014.

An amendment that resets these covenants is an alternative to the need for obtaining waivers. We are in discussions with Capital One with respect to such an amendment. No assurance can be given that we will be successful in obtaining such an amendment or any further waivers or as to the cost of them. In addition, if an event of default occurs and is continuing and such event of default is not waived or the Capital One Credit Facility not amended, the terms of the credit agreement would allow Capital One to prevent us from making any additional borrowings, which we use to access working capital, as our cash is swept by Capital One, and accelerate maturity of the loan. If as a result of an event of default under the Capital One Credit Facility, Capital One accelerates the repayment of amounts we owe to them, there could also be an acceleration of debt repayments of the Notes and other credit agreements. In such an event, we would be required to promptly seek alternative sources of liquidity, and there can be no assurance that any alternative source of liquidity would be available on terms acceptable to us, or at all.

Bank of Montreal Credit Agreement - Significant covenants in the Bank of Montreal Credit Agreement include a fixed charge coverage ratio and a restriction on our Canadian subsidiaries from entering into operating leases that would lead to payments under such leases totaling more than C$8,500 (Canadian dollars) in any fiscal year. The credit agreement also requires our Canadian subsidiaries to maintain minimum excess availability of 5% of the revolving credit commitment under the facility. As of September 30, 2013, we were in compliance with the required financial covenants of the Bank of Montreal Credit Agreement.

Senior Secured Notes due 2020 - The indenture imposes certain limitations on our ability to, among other things and subject to a number of important qualifications and exceptions, incur additional indebtedness or issue disqualified capital stock or preferred stock (with respect to restricted subsidiaries), grant liens, make payments in respect of their capital stock or certain indebtedness, enter into transactions with affiliates, create dividend and other payment restrictions affecting subsidiaries, merge or consolidate with any other person, sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its assets or adopt a plan of liquidation. We must annually report to the trustee on compliance with such limitations. The indenture also contains cross-default provisions whereby a payment default or acceleration of any indebtedness in an aggregate amount greater than a specified threshold would cause an event of default with respect to the Notes. As of September 30, 2013, we were in compliance with the required covenants of the Senior Notes Indenture.

Future Capital Requirements

On April 4, 2013, we closed the private offering of the Notes in an aggregate principal amount of $206,000, issued at 97% of par and maturing on April 15, 2020. We also entered into a new $35,000 asset-backed revolving credit facility with Capital One maturing on April 4, 2018, subject to a January 15, 2018 maturity under a specific circumstance.

Subsequently, on July 5, 2013, we entered into an amendment, which raised the total commitment under the credit facility to $50,000.

We used the net proceeds from the offering of the Notes, together with borrowings under the Capital One Credit Facility to repay and terminate our existing credit facilities with Lion and Crystal, pay fees and expenses related to the transaction, and will use the balance for general corporate purposes.

Our C$11,000 (Canadian dollars) credit agreement with Bank of Montreal matures in December 2013.

We believe that we have sufficient financing commitments to meet our funding requirements for the next twelve months.

Off-Balance Sheet Arrangements and Contractual Obligations

Our material off-balance sheet contractual commitments are operating lease obligations and letters of credit.

Table of Contents

Operating lease commitments consist principally of leases for our retail stores, manufacturing facilities, main distribution centers and corporate office. These leases frequently include options, which permit us to extend the terms beyond the initial fixed lease term. As appropriate, we intend to negotiate lease renewals as the leases approach expiration.

Issued and outstanding letters of credit were $1,880 at September 30, 2013, related primarily to workers' compensation insurance and store leases. We also have capital lease obligations, which consist principally of leases for our manufacturing equipment.

Seasonality

We experience seasonality in our operations. Historically, sales during the third and fourth fiscal quarters have generally been the highest, with sales during the first fiscal quarter the lowest. This reflects the combined impact of the seasonality of our wholesale and retail channels. Generally, our retail segment has not experienced the same pronounced sales seasonality as other retailers.

Critical Accounting Estimates and Policies

As discussed in Part II, Item 8. Management Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on Form 10-K for the year ended December 31, 2012, we consider our most critical accounting estimates and policies to include:

- revenue recognition;
- inventory valuation, obsolescence;
- fair value calculations, including derivative liabilities such as the Lion warrants;
- valuation and recoverability of long-lived assets including the values assigned to acquired intangible assets, goodwill, and property and equipment;
- income taxes;
- accruals for the outcome of current litigation; and
- self-insurance liabilities.

In general, estimates are based on historical experience, on information from third party professionals and on various other sources, and assumptions that are believed to be reasonable under the facts and circumstances at the time such estimates are made. On a continual basis, management reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience, and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results may vary from these estimates and assumptions under different and/or future circumstances. Our management considers an accounting estimate to be critical if:

- it requires assumptions to be made that were uncertain at the time the estimate was made; and
- changes in the estimate, or the use of different estimating methods that could have been selected, could have a material impact on our consolidated results of operations or financial condition.

Inflation

Inflation affects the cost of raw materials, goods and services used in our operations. In 2010, the price of yarn and the cost of certain related fabrics began to increase as a result of the compounding effect of added demand, supply shortages primarily from the effect of severe weather conditions in certain cotton producing countries, and a ban on cotton exports imposed by the government of India. Prices continued to increase throughout 2010 and through the first quarter of 2011. During the first half of 2012 prices started to decline and from the second quarter of 2012 through the third quarter of 2013, prices have stabilized. We cannot predict if the current cost of cotton is sustainable. In addition, high oil costs can affect the cost of all raw materials and components. The competitive environment can limit the ability of American Apparel to recover higher costs resulting from inflation by raising prices. Although we cannot precisely determine the effects of inflation on our business, we believe that the effects on revenues and operating results have not been significant. We seek to mitigate the adverse effects of inflation primarily through improved productivity and strategic buying initiatives. We do not believe that inflation has had a material impact on our results of operations for the periods presented. We are unable to predict if we will be able to successfully pass on the added

cost of any future raw material cost increases by further increasing the price of our products to our wholesale and retail customers.

Table of Contents

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures

Under the supervision and participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as such term is defined under Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2013.

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) during the third quarter of 2013 that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

Table of Contents

PART II-OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to various claims and contingencies in the ordinary course of business, including those related to litigation, business transactions, employee-related matters and taxes, and others. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we will record a liability for the loss. In addition to the estimated loss, the recorded liability includes probable and estimable legal costs associated with the claim or potential claim. There is no assurance that such matters will not materially and adversely affect our business, financial position, and results of operations or cash flows.

Individual Actions

On February 7, 2006, Sylvia Hsu, a former employee of American Apparel, filed a Charge of Discrimination with the Los Angeles District Office of the Equal Employment Opportunity Commission (“EEOC”) (Hsu v. American Apparel: Charge No. 480- 2006-00418), alleging that she was subjected to sexual harassment by a co-worker and constructively discharged as a result of the sexual harassment and a hostile working environment. On March 9, 2007, the EEOC expanded the scope of its investigation to other employees of American Apparel who may have been sexually harassed. On August 9, 2010, the EEOC issued a written determination finding that reasonable cause exists to believe we discriminated against Ms. Hsu and women, as a class, on the basis of their female gender, by subjecting them to sexual harassment. No finding was made on the issue of Ms. Hsu's alleged constructive discharge. In August 2013 the parties entered into a Conciliation Agreement providing for an immaterial compensatory payment to Ms. Hsu and our agreement to comply with our Policy on Sexual Harassment and Sexual Discrimination, which Policy was reviewed by the EEOC, and take certain administrative measures relating thereto. The Conciliation Agreement remains in effect for three years.

On November 5, 2009, Guillermo Ruiz, a former employee of American Apparel, filed suit against us on behalf of putative classes of all current and former non-exempt California employees (Guillermo Ruiz, on behalf of himself and all others similarly situated v. American Apparel, Inc., Case Number BC425487) in the Superior Court of the State of California for the County of Los Angeles, alleging we failed to pay certain wages due for hours worked, to provide meal and rest periods or compensation in lieu thereof and to pay wages due upon termination to certain of our employees. The complaint further alleges that we failed to comply with certain itemized employee wage statement provisions and violations of unfair competition law. The plaintiff is seeking compensatory damages and economic and/or special damages in an unspecified amount, premium pay, wages and penalties, injunctive relief and restitution, and reimbursement for attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration.

On June 21, 2010, Antonio Partida, a former employee of American Apparel, filed suit against us on behalf of putative classes of current and former non-exempt California employees (Antonio Partida, on behalf of himself and all others similarly situated v. American Apparel (USA), LLC, Case No. 30-2010-00382719-CU-OE-CXC) in the Superior Court of the State of California for the County of Orange, alleging we failed to pay certain wages for hours worked, to provide meal and rest periods or compensation in lieu thereof, and to pay wages due upon separation. The complaint further alleges that we failed to timely pay wages, unlawfully deducted wages and failed to comply with certain itemized employee wage statement provisions and violations of unfair competition law. The plaintiff is seeking compensatory damages and economic and/or special damages in an unspecified amount, premium pay, wages and penalties, injunctive relief and restitution, and reimbursement of attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration.

On or about December 2, 2010, Emilie Truong, a former employee of American Apparel, filed suit against us on behalf of putative classes of current and former non-exempt California employees (Emilie Truong, individually and on behalf of all others similarly situated v. American Apparel, Inc. and American Apparel LLC, Case No. BC450505) in the Superior Court of the State of California for the County of Los Angeles, alleging we failed to timely provide final paychecks upon separation. Plaintiff is seeking unspecified premium wages, attorneys' fees and costs, disgorgement of profits, and an injunction against the alleged unlawful practices. This matter is now proceeding in arbitration.

On or about February 9, 2011, Jessica Heupel, a former retail employee filed suit on behalf of putative classes of current and former non-exempt California employees (Jessica Heupel, individually and on behalf of all others

similarly situated v. American Apparel Retail, Inc., Case No. 37-2011-00085578-CU-OE-CTL) in the Superior Court of the State of California for the County of San Diego, alleging we failed to pay certain wages for hours worked, to provide meal and rest periods or compensation in lieu thereof, and to pay wages due upon separation. The plaintiff is seeking monetary damages as follows: (1) for alleged meal and rest period violations; (2) for alleged failure to timely pay final wages, as well as for punitive damages for the same; and (3) unspecified damages for unpaid minimum wage and overtime. In addition, Plaintiff seeks premium pay, wages and penalties, injunctive relief and restitution, and reimbursement of attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration. On or about September 9, 2011, Anthony Heupel, a former retail employee initiated arbitration proceedings on behalf of putative classes of current and former non-exempt California employees, alleging we failed to pay certain wages for hours worked, to provide meal and rest periods or compensation in lieu thereof, and to pay

51

wages due upon separation. The plaintiff is seeking monetary damages in an amount in excess of $3,600, as follows: (1) for alleged meal and rest period violations; (2) for alleged failure to timely pay final wages, as well as for punitive damages for the same; and (3) unspecified damages for unpaid minimum wage and overtime. In addition, Plaintiff seeks premium pay, wages and penalties, injunctive relief and restitution, and reimbursement of attorneys' fees, interest and the costs of the suit. This matter is now proceeding in arbitration.

We do not have insurance coverage for the above matters. We have accrued an estimate for the loss contingency for each of the above matters (excluding the Hsu case as noted above) in our accompanying condensed consolidated balance sheet as of September 30, 2013. We may have an exposure to loss in excess of the amounts accrued, however, an estimate of such potential loss cannot be made at this time. Moreover, no assurance can be made that these matters either individually or together with the potential for similar suits and reputational harm, will not result in a material financial exposure, larger than our estimate, which could have a material adverse effect upon our financial condition, results of operations, or cash flows.

Additionally, we are currently engaged in other employment-related claims and other matters incidental to our business. We believe that all such claims against us are without merit or not material, and we intend to vigorously dispute the validity of the plaintiffs' claims. While the ultimate resolution of such claims cannot be determined, based on information at this time, we believe, but we cannot provide assurance that, the amount, and ultimate liability, if any, with respect to these actions will not materially affect our business, financial position, results of operations, or cash flows. Should any of these matters be decided against us, we could not only incur liability but also experience an increase in similar suits and suffer reputational harm.

Derivative Matters

Two shareholder derivative lawsuits (Case No. CV106576 GAF (JCx) and Case No. CV107518 RSWL (FFMx)) were filed in the United States District Court for the Central District of California which were subsequently consolidated for all purposes into a case entitled In re American Apparel, Inc. Shareholder Derivative Litigation, Lead Case No. CV106576 (the “Federal Derivative Action”). Plaintiffs in the Federal Derivative Action allege a cause of action for breach of fiduciary duty arising out of (i) our alleged failure to maintain adequate accounting and internal control policies and procedures; (ii) our alleged violation of state and federal immigration laws in connection with the previously disclosed termination of over 1,500 employees following an Immigration and Customs Enforcement inspection; and (iii) our alleged failure to implement controls sufficient to prevent a sexually hostile and discriminatory work environment. We do not maintain any direct exposure to loss in connection with these shareholder derivative lawsuits. Our status as a “Nominal Defendant” in the actions reflects the fact that the lawsuits are maintained by the named plaintiffs on behalf of American Apparel and that plaintiffs seek damages on our behalf. We filed a motion to dismiss the Federal Derivative Action which was granted with leave to amend on July 31, 2012. Plaintiffs did not amend the complaint and subsequently filed a motion to dismiss each of their claims, with prejudice, for the stated purpose of taking an immediate appeal of the Court's July 31, 2012 order. On October 16, 2012, the Court granted the Plaintiffs' motion to dismiss and entered judgment accordingly. On November 12, 2012, Plaintiffs filed a Notice of Appeal to the Ninth Circuit Court of Appeals where the case is currently pending.

Four shareholder derivative lawsuits (Case No. BC 443763, Case No. BC 443902, Case No. BC 445094, and Case No. BC 447890) were filed in fall of 2010 in the Superior Court of the State of California for the County of Los Angeles which were subsequently consolidated for all purposes into a case entitled In re American Apparel, Inc. Shareholder Derivative Litigation, Lead Case No. BC 443763 (the "State Derivative Action").

Three of the matters comprising the State Derivative Action allege causes of action for breach of fiduciary duty arising out of (i) our alleged failure to maintain adequate accounting and internal control policies and procedures; and (ii) our alleged violation of state and federal immigration laws in connection with the previously disclosed termination of over 1,500 employees following an Immigration and Customs Enforcement inspection. The fourth matter alleges seven causes of action for breach of fiduciary duty, unjust enrichment, abuse of control, gross mismanagement, and waste of corporate assets also arising out of the same allegations. On April 12, 2011, the Court issued an order granting a stay (which currently remains in place) of the State Derivative Action on the grounds that the case is duplicative of the Federal Derivative Action, as well as the Federal Securities Action currently pending in the United States District Court for the Central District of California (see below).

Both the Federal Derivative Action and State Derivative Actions are covered under our Directors and Officers Liability insurance policy, subject to a deductible and a reservation of rights.

Other Proceedings

Four putative class action lawsuits, (Case No. CV106352 MMM (RCx), Case No. CV106513 MMM (RCx), Case No. CV106516 MMM (RCx), and Case No. CV106680 GW (JCGx)) were filed in the United States District Court for the Central District of California in the Fall of 2010 against American Apparel and certain of our officers and executives on behalf of American Apparel shareholders. On December 3, 2010, the four lawsuits were consolidated for all purposes into a case entitled In re American Apparel, Inc. Shareholder Litigation, Lead Case No. CV106352 MMM (JCGx) (the “Federal Securities Action”). The lead plaintiff filed a consolidated class action complaint on April 29, 2011 on behalf of shareholders who

Table of Contents

purchased our common stock between November 28, 2007 and August 17, 2010. The lead plaintiff alleges two causes of action for violations of Section 10(b) and 20(a) of the 1934 Act, and Rule 10b-5 promulgated under Section 10(b), arising out of alleged misrepresentations contained in our press releases, public filings with the SEC, and other public statements relating to (i) the adequacy of our internal and financial control policies and procedures; (ii) our employment practices; and (iii) the effect that the dismissal of over 1,500 employees following an Immigration and Customs Enforcement inspection would have on us. Plaintiff seeks damages in an unspecified amount, reasonable attorneys' fees and costs, and equitable relief as the Court may deem proper. We filed two motions to dismiss the Federal Securities Action which the court granted with leave to amend. Plaintiffs filed a Second Amended Complaint on February 15, 2013. We filed a motion to dismiss the complaint on March 15, 2013. The hearing on the motion was held on June 3, 2013, at which time, the Court took the matter under submission. On August 8, 2013, the court issued its final order granting the motion to dismiss in regards to certain claims. Defendants answered the complaint's remaining claims on September 27, 2013. Discovery in the federal class action has not yet begun. The Federal Securities Action is covered under our Directors and Officers Liability insurance policy, subject to a deductible and a reservation of rights.

Should any of the above matters (i.e., the Federal Derivative Action, the State Derivative Action, or the Federal Securities Action) be decided against us in an amount that exceeds our insurance coverage, or if liability is imposed on grounds which fall outside the scope of our insurance coverage, we could not only incur a substantial liability, but also experience an increase in similar suits and suffer reputational harm. We are unable to predict the financial outcome of these matters at this time, and any views formed as to the viability of these claims or the financial exposure which could result may change from time to time as the matters proceed through their course. However, no assurance can be made that these matters, either individually or together with the potential for similar suits and reputational harm, will not result in a material financial exposure, which could have a material adverse effect upon our financial condition, results of operations, or cash flows.

The Company has previously disclosed an arbitration filed by the Company on February 17, 2011, related to cases filed in the Supreme Court of New York, County of Kings (Case No. 5018-1) and Superior Court of the State of California for the County of Los Angeles (Case Nos. BC457920 and BC460331) against American Apparel, Dov Charney and certain members of the Board of Directors asserting claims of sexual harassment, assault and battery, impersonation through the internet, defamation and other related claims. The Company recently settled one of these cases with no monetary liability to the Company. The Company recently prevailed on the sexual harassment claims in another of these cases. While the ultimate resolution of the remaining claims cannot be determined, in light of the favorable ruling in one of these cases, the amount of settlement in the other of these cases, and based on information available at this time regarding the remaining cases, we believe, but we cannot provide assurances that, the amount and ultimate liability, if any, with respect to these remaining actions will not materially affect our business, financial position, results of operations, or cash flows.

Table of Contents

Item 1A. Risk Factors

Before deciding to invest in us or to maintain or increase your investment, you should carefully consider the risks and uncertainties described in the "Special Note Regarding Forward-Looking Statements" under Part I of this report and our other filings with the SEC. The risks and uncertainties described in this report are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect us. If any of these risks actually materialize, our business, financial position, results of operations and cash flows could be adversely impacted. In that event, the market price of our common stock could decline and you may lose all or part of your investment.

During the three and nine months ended September 30, 2013, there have been no material changes in the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012, except that we are updating the first and second risk factors described therein to reflect the financing transactions that closed on April 4, 2013 and the other matters disclosed herein. Please refer to the Company's Annual Report on Form 10-K (filed with the SEC on March 5, 2013) for the year ended December 31, 2012 for a complete list of our risk factors.

We have substantial indebtedness, which could have adverse consequences to us, and we may not be able to generate sufficient cash flow in the future to service our indebtedness.

We currently have substantial indebtedness. Our level of indebtedness has important consequences to us and to you and your investment. For example, our level of indebtedness may:

- require us to dedicate a substantial portion of our cash flow from operations to pay interest and principal on our debt, which would reduce the funds available to use for operations, investments, future business opportunities and other general corporate purposes;
- make it more difficult for us to satisfy our debt obligations, and any failure to comply with such obligations, including financial and other restrictive covenants, could result in an event of default or an inability to borrow under the agreements governing such indebtedness;
- in the case of a default or an event of default, as applicable, lead to, among other things, cross-defaults with our other indebtedness, an acceleration of our indebtedness or foreclosure on the assets securing our indebtedness, which could have a material adverse effect on our business or financial condition;
- limit our ability to obtain additional financing, or to sell assets to raise funds, if needed, for working capital, capital expenditures, expansion plans and other investments, which may limit our ability to implement our business strategy;
- result in higher interest expense if interest rates increase on our floating rate borrowings;
- place us at a competitive disadvantage relative to others in the industry as it is not common for companies involved in the retail apparel business to operate with such high leverage;
- heighten our vulnerability to downturns in our business, the industry or in the general economy and limit our flexibility in planning for or reacting to changes in our business and the retail industry; or
- reduce our ability to carry out our plans to expand our store base, product offerings and sales channels.

Our ability to service our indebtedness is dependent on our ability to generate cash from internal operations sufficient to make required payments on such indebtedness, which is, to a significant extent, subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control, some of which factors are further described in this “Risk Factors” section. We are permitted by the terms of our indebtedness, including our senior secured notes and the Capital One Credit Facility, to incur additional indebtedness, subject to the restrictions therein. We have experienced negative cash flows from operating activities in the past, and our business may not generate sufficient cash flow from operations to enable us to service our indebtedness or to fund our other liquidity needs. Such event could have a material adverse effect on us and we may need to take various actions which also could have material adverse consequences to us, including seeking to refinance all or a portion of our indebtedness, seeking additional debt or equity financing or reducing or delaying capital expenditures, strategic acquisitions or investments, and we may not be able to do so on commercially reasonable terms or at all.

The terms of our indebtedness contain various covenants that may limit our business activities, and our failure to comply with these covenants could have material adverse consequences to us.

The terms of our indebtedness contain, and our future indebtedness may contain, various restrictive covenants that limit our management's discretion in operating our business. In particular, these agreements include, or may include,

covenants relating to limitations on:

- dividends on, and redemptions and repurchases of, capital stock;
- payments on subordinated debt;
- liens and sale-leaseback transactions;
- loans and investments;

Table of Contents

- debt and hedging arrangements;
- mergers, acquisitions and asset sales;
- transactions with affiliates;
- disposals of assets;
- changes in business activities conducted by us and our subsidiaries; and
- capital expenditures, including to fund future store openings.

In addition, our credit agreements contain, and any future credit agreements or loan agreements may contain, certain financial and maintenance covenants, including covenants relating to our capital expenditures, fixed charge coverage, borrowing availability and leverage, some of which may be tied to consolidated EBITDA, in each case as defined in the applicable debt agreements.

Such restrictive and other covenants could limit our ability to respond to market conditions, to provide for unanticipated capital requirements or to take advantage of business or acquisition opportunities.

In addition, our failure to comply with the various covenants under our indebtedness could have material adverse consequences to us. Such failure may result in our being unable to borrow under our revolving credit facility, which we utilize to access our working capital, and as a result may adversely affect our ability to finance our operations or pursue our expansion plans. Our debt agreements contain cross-default or cross-acceleration provisions by which non-compliance with covenants, or the acceleration of other indebtedness of at least a specified outstanding principal amount, could also constitute an event of default under such debt agreements. Accordingly, such a failure could result in the acceleration of all of our outstanding debt, and may adversely affect our ability to obtain financing that may be necessary to effectively operate our business and grow the business going forward. In addition, substantially all of our assets are used to secure our indebtedness, including loans under our credit agreements, our senior secured notes and certain equipment leasing agreements. In the event of a default on these agreements, substantially all of our assets could be subject to liquidation by the creditors, which liquidation could result in no assets being left for the stockholders after the creditors receive their required payment. We currently project noncompliance with certain of the financial covenants governing our debt agreements into the third quarter of 2014. If we are unable to reach waivers of such noncompliance or appropriate amendments of our debt agreements, an event of default would likely result. In addition, if an event of default occurs and is continuing and such event of default is not waived or the Capital One Credit Facility not amended, the terms of the credit agreement would allow Capital One to prevent us from making any additional borrowings, including a requirement to remit all future collections, and accelerate repayment of the loan. If as a result of an event of default under the Capital One Credit Facility, Capital One accelerates the repayment of amounts we owe to them, there could also be an acceleration of debt repayments of the Notes and other credit agreements. In such an event, we would be required to seek alternative sources of liquidity, and there can be no assurance that any alternative source of liquidity would be available on terms acceptable to us, or at all.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

In reviewing the agreements included as exhibits to this Quarterly Report on Form 10-Q, please remember they are included to provide you with information regarding their terms and are not intended to provide any other factual or

disclosure information about the Company or the other parties to the agreements. Some agreements contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

Table of Contents

- should not in all instances be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;
- have been qualified by disclosures that were made to the other party in connection with the negotiation of the applicable agreement, which disclosures are not necessarily reflected in the agreement;
- may apply standards of materiality in a way that is different from what may be viewed as material to you or other investors; and
- were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement and are subject to more recent developments.

Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time. Additional information about the Company may be found elsewhere in this Quarterly Report on Form 10-Q and in the Company's other public filings, which are available without charge through the SEC's website at http://www.sec.gov.
