**INTERACTIVE BROKERS GROUP ANNOUNCES 2Q09 RESULTS**

**REPORTS INCOME BEFORE TAXES OF \$192 MILLION ON \$332 MILLION IN NET REVENUES,  
EARNINGS PER SHARE OF \$0.31**

GREENWICH, CONN, July 23, 2009 — Interactive Brokers Group, Inc. (NASDAQ GS: IBKR) an automated global electronic market maker and broker, today reported diluted earnings per share of \$0.31 for the quarter ended June 30, 2009, compared to diluted earnings per share of \$0.44 for the same period in 2008.

Net revenues were \$332 million and income before income taxes was \$192 million for this quarter, compared to net revenues of \$395 million and income before income taxes of \$259 million for the same period in 2008.

**Business Highlights**

- 58% pre-tax profit margin for this quarter.
- \$4.6 billion in equity.
- 18% increase in customer accounts from the year ago quarter.
- Cleared DARTs grew by 11% to 317,000 from the year ago quarter.
- Brokerage income before tax increased 5% from a year ago quarter and 36% sequentially.
- 65% Market Making pre-tax margin for this quarter.
- 51% Electronic Brokerage pre-tax margin for this quarter.

“In this difficult climate, being possibly the only firm recording year on year gains in the brokerage segment is a proof of concept event. Best execution prices, industry low commissions and state of the art money management tools give the edge to our customers over others. The better our customers do the more business we do,” said Thomas Peterffy, our CEO. “Constantly seeking our customers' advantage ultimately inures to our own benefit.”

## Segment Overview

### Market Making

Market Making segment income before income taxes increased 20% in the quarter ended June 30, 2009 compared to the prior quarter but decreased 30% from same period last year. Pre-tax margin was 65% in this quarter, down from 74% in the same period last year. Compared to the second quarter of 2008, this quarter presented a less favorable environment for market makers due to tighter bid/offer spreads on option exchanges. We managed our risk by continuing to avoid counterparty risks and balance sheet exposure from illiquid positions by making markets only in exchange traded products that are cleared through central clearing houses. Market Making options contract volume remained flat during this quarter compared to the same period last year.

### Electronic Brokerage

Electronic Brokerage segment income before income taxes increased 5% in the quarter ended June 30, 2009 compared to the same period in 2008. This increase is attributable to strong customer account growth and trading activity over the prior year quarter, which more than offset lower net interest income, which was affected by historically low Fed Funds rates. Customer accounts grew 18% to 122,000 and cleared DARTs\* increased by 11% to 317,000 in the quarter ended June 30, 2009 from the same period in 2008. Pre-tax margin increased from 48% to 51% for the quarter ended June 30, 2009. This improvement was primarily driven by a reduction in execution and clearing fees attributable to a reduction in customer volumes in futures instruments and higher rebates from exchanges with Make or Take pricing models.

---

\*Daily average revenue trades (DARTs) are based on customer orders.

**Conference Call Information:**

Interactive Brokers Group will hold a conference call with investors today, July 23, 2009, at 5:30 p.m. ET to discuss its first quarter results. Investors who would like to listen to the conference call live should dial 888-601-3873 (U.S. domestic) and 913-312-1304 (international). The number should be dialed approximately ten minutes prior to the start of the conference call. Ask for the "Interactive Brokers Conference Call."

The conference call will also be accessible simultaneously, and through replays, as an audio webcast through the Investor Relations section of the Interactive Brokers web site, [www.interactivebrokers.com/ir](http://www.interactivebrokers.com/ir).

**About Interactive Brokers Group, Inc.:**

Interactive Brokers Group, Inc., together with its subsidiaries, is an automated global electronic market maker and broker specializing in routing orders and executing and processing trades in securities, futures and foreign exchange instruments on more than 80 electronic exchanges and trading venues around the world. As a market maker, we provide liquidity at these marketplaces and, as a broker, we provide professional traders and investors with electronic access to stocks, options, futures, forex, bonds and mutual funds from a single IB Universal Account<sup>SM</sup>. Employing proprietary software on a global communications network, Interactive Brokers Group continuously integrates its software with a growing number of exchanges and trading venues into one automatically functioning, computerized platform that requires minimal human intervention.

**Cautionary Note Regarding Forward-Looking Statements:**

The foregoing information contains certain forward-looking statements that reflect the company's current views with respect to certain current and future events and financial performance. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the company's operations and business environment which may cause the company's actual results to be materially different from any future results, expressed or implied, in these forward-looking statements. Any forward-looking statements in this release are based upon information available to the company on the date of this release. The company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any statements expressed or implied therein will not be realized. Additional information on risk factors that could potentially affect the company's financial results may be found in the company's filings with the Securities and Exchange Commission.

---

\* Includes options on futures

\*\* In Brazil, an equity option contract typically represents 1 share of the underlying stock; however, typical minimum trading quantity is 100 contracts. To make a fair comparison to volume at other exchanges, we have adopted a policy of reporting Brazilian equity options contracts divided by their minimum trading quantity of 100.
