## Market Review

The Greater China stock market suffered from a sharp decline in June as the market experienced a free fall in the first three weeks of that month with the index falling over 8% at one point before it rebounded in the final week and ended the month with a loss of 4.6%. Significant capital outflow from the Greater China region contributed to the decline as developments outside the region (such as a weaker than expected US economic recovery, the end of the US Fed's second quantitative easing, and the European debt crisis) greatly reduced investor risk appetite in emerging market stocks. Domestically, rising Chinese inflation coupled with deteriorating macroeconomic fundamental numbers increased the fear of an economic hard-landing among investors. However, the market started to stage a rebound towards the end of the month as concern about a Greek debt default began to ease, while the Chinese Premier Wen Jiabao reassured the market that China's effort to stem its inflation had worked.

During the third quarter of (July – September) 2011, the Greater China equities market experienced the worst quarterly decline in three years since the last global financial crisis in 2008, when the MSCI Greater China index plunged 23%. The European debt crisis, the fear of a double-dip US economic recession, and the S&P downgrade of US sovereign credit rating, led to a rapid decline in global investor risk appetite for emerging market equities, which resulted in a huge capital outflow from the Greater China region in favor of the less risky US dollar assets, mainly US treasury bonds. Finally, the Greater China markets, especially the Hong Kong market, experienced the worst of both worlds. On the one hand it reflected the economic and financial deterioration of the US and Europe. On the other hand, it suffered from issues in China, particularly the stubbornly high inflation and the credit or liquidity crunch of many Chinese enterprises.

## Fund Performance

A series of portfolio activities since Nikko AM assumed the management of the Fund in mid-June resulted in non-characteristic patterns and a higher level of portfolio turnover than normal. First, the initial portfolio rebalancing in mid-June 2011 to reposition the Fund as a Greater China portfolio rather than a Taiwan focus portfolio resulted in shifting about two-thirds of the Fund assets from Taiwan to Hong Kong listed stocks. Secondly and unexpectedly, the Greater China stock market, the Hong Kong listed stocks in particular, rapidly deteriorated into a stock market crisis and a collapse of investor sentiment during the third quarter due to the corporate governance and accounting issues and the deepening European sovereign debt problem. To protect Fund assets, Nikko AM decided to change the portfolio strategy to a very conservative and defensive one which resulted in reshuffling of stock holdings from the long-term growth stocks to the shorter-term defensive plays. Shortly after the decision to move to the conservative/defensive position the market suddenly reversed and strongly rebounded in early October on signs of European debt crisis dissipation. After the rebound, Nikko AM decided to again adjust portfolio strategy and repositioned the Fund to a less defensive posture. As a result of this second repositioning that brought the Fund back to its current somewhat 'defensive bias', the portfolio turnover in October was higher than normal. However, portfolio trading activities decreased sharply from November 2011 as the Fund is repositioned more broadly to accommodate even the unexpected market volatility and a more gradual approach to longer term portfolio selection is adopted to cope with the market environment full of uncertainty this year.

## Market themes and long term thinking

The biggest theme in China that would shape the China story in the long term is China's transformation of its growth model from one which relies on export or external demand and manufacturing to one driven by domestic consumption and service industries. The current 12th 5-year plan (2011-2015) aims at effecting this transformation which involves

Edgar Filing: SHELTON GREATER CHINA FUND - Form N-CSR

several major structural themes, namely, regional development rebalancing, upgrading traditional manufacturing sectors, developing strategic new industries, promoting energy saving and environmental protection, and development of the service sector. This long-term structural change offers huge investment opportunities in China's next phase of development, and the Fund is waiting for signs of these new industries to take off when government finalizes its policy details, lays the regulatory framework, and diverts financial resources to flow into the new industries. In the next 3 to 5 years Nikko AM expects to find growth in the structural growth sectors such as equipment or automation, new energy and energy saving, environmental protection, services, and logistics.

\*Past performance does not predict future performance. The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. The performance figures stated above include the period during which the Fund operated as a closed-end company and the Fund may incur additional expenses as an open-end company.

The Fund adviser, Shelton Capital Management ("SCM"), believes it is important for you to understand the impact of costs on your investment. All mutual funds have operating expenses. As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, reinvested dividends, or other distributions, redemption fees, and exchange fees; and (2) ongoing costs, including management fees, distribution fees and other Fund expenses. Operating expenses, which are deducted from the Fund's gross income, directly reduce the investment return of the Fund. The Fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. This example is intended to help you understand your ongoing cost (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from the date the Fund became an open-end investment company on October 10, 2011 to the end of the fiscal year December 31, 2011.

#### Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The second line of the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. The Fund does not charge any sales charges. There is a redemption or exchange fee of 2% for all shares of the Fund purchased on or after October 10, 2011 that are held 90 days or less from the date of purchase, and for all shares of the Fund purchased prior to October 10, 2011 that are held 90 days or less from October 10, 2011.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional cost, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher. The calculations assume no shares were bought or sold during the period. Your actual costs may have been higher or lower, depending on the amount of your investment and the timing of any purchases or redemptions.

More information about a Fund's expenses can be found in this report. For additional information on operating expenses and other shareholder costs, please refer to the Fund's prospectus.

## NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Shelton Greater China Fund (the “Fund” or the “Trust”), is registered under the Investment Company Act of 1940, as amended, as a diversified open-end management investment company. The Fund, formerly the Taiwan Greater China Fund, is a Massachusetts business trust formed in July 1988 and was previously registered with the U.S. Securities and Exchange Commission (the “SEC”) as a diversified, closed-end management investment company. The Trust commenced operations in May 1989 as the R.O.C. Taiwan Fund. The R.O.C. Taiwan Fund changed its name to the Taiwan Greater China Fund on December 29, 2003 and the change became effective on the New York Stock Exchange on January 2, 2004.

As previously required by the Trust’s declaration of Trust, if the Trust’s shares trade on the market at an average discount to net asset value per share (“NAV”) of more than 10% in any consecutive 12-week period, the Trust must submit to the shareholders for a vote at its next annual meeting a binding resolution that the Trust be converted from a closed-end to an open-end investment company. The affirmative vote of a majority of the Trust’s outstanding shares is required to approve such a conversion. Because the Trust’s shares traded at an average discount to NAV of more than 10% for the 12-week period ended December 4, 2009, the Trust’s shareholders were asked to consider the conversion of the Trust to an open-end investment company at the Trust’s 2010 Annual Meeting of Shareholders (the “2010 Annual Meeting”).

On May 27, 2011, shareholders of the Taiwan Greater China Fund voted to approve Shelton Capital Management (“Shelton Capital” or the “Adviser”), an institutional investment management firm based in San Francisco and Nikko Asset Management Co., Ltd. (“Nikko AM”), an investment management company headquartered in Tokyo, as the Trust’s investment adviser and sub-adviser, respectively. Shareholders also voted to approve the Fund’s conversion from a closed-end investment company to an open-end investment company in 2011. Shelton Capital became the Fund’s investment adviser on June 12, 2011. Shareholders also voted to approve an amendment to the investment objective and an investment policy of the Trust to expand the primary geographic scope of the Trust’s investments from the Republic of China to the Greater China region. As a result, the Taiwan Greater China Fund changed its name to the Shelton Greater China Fund, effective as of June 13, 2011.

As a result of the shareholders approval to convert the Fund from a closed-end investment company to an open-end investment company, on August 4, 2011, the Trust filed a Registration Statement on Form N-1A in connection with registering its shares for a continuous offering as an open-end fund. On October 10, 2011, Shelton Greater China Fund converted from a closed-end investment company to an open-end investment company.

(a) Basis of Presentation — The accompanying financial statements of the Trust have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”).

(b) Federal Income Taxes – No provision is considered necessary for federal income taxes. The Funds intend to qualify for and elect the tax treatments applicable to regulated investment companies under the Internal Revenue Code and to distribute all of its taxable income to shareholders. Capital loss carryforwards as of December 31, 2011, available to offset future capital gains, if any, are as follows:

The Trust had \$14,621,992 of capital loss carryforward as of December 31, 2011. The capital loss carryforward may be used to offset future capital gains generated by the Trust, and if unused, \$3,691,414 of such loss will expire on December 31, 2013 and \$10,930,578 of such loss will expire on December 31, 2017. The Trust had \$4,360,449 of

unutilized capital loss carryforward expire as of December 31, 2011.

In accordance with federal income tax regulations, the Trust expects to elect to defer currency losses of \$10,676 and capital losses of \$1,360,108, realized on investment transactions from November 1, 2011 through December 31, 2011 and treat them as arising during the fiscal year ending December 31, 2012 for U.S. federal income tax purposes.

The Regulated Investment Company Modernization Act of 2010 (the “Act”) was enacted on December 22, 2010. The Act makes changes to several rules impacting the Fund. In general, the provisions of the Act are effective for the Fund’s fiscal year ending December 31, 2011. Although the Act provides several benefits, including the unlimited carryover of future capital losses and the ability to retain the tax character of capital losses generated after the enactment of the Act, there may be a greater likelihood that all or a portion of the Fund’s pre-enactment capital loss carryovers may expire without being utilized due to the fact that post-enactment capital losses are required to be utilized before pre-enactment capital loss carryovers.

Accounting principles generally accepted in the United States of America require certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. Temporary book to tax differences are primarily due to differing treatments for certain foreign currency losses and the tax deferral of losses on wash sales. For the year ended December 31, 2011, permanent differences resulting from different book and tax accounting for net operating losses, differing treatments of the Trust’s gains from the disposition of passive foreign investment company shares, expiring capital loss carryforward, post-October capital losses, cumulative translation adjustments, as well as the nondeductibility of net operating losses for differences U.S. federal income tax purposes, have been reclassified to paid-in capital, undistributed net investment income/loss and accumulated realized gain/loss as follows:

Increase of paid-in capital	\$59,171,200
Increase of undistributed net investment income (loss)	(63,605,272 )
Increase of accumulated gain (loss)	4,434,072
Cumulative translation adjustment	45,902
Unrealized depreciation of investments and foreign currency	(45,902 )

As of December 31, 2011, the components of distributable earnings and accumulated gains/losses on a tax basis were as follows:

Undistributed net investment income	\$—
Accumulated losses	(15,992,776 )
Other unrealized foreign exchange gains	820
Unrealized depreciation	(3,629,055 )
Total accumulated earnings (losses)	\$(19,621,011 )

(c) Foreign Taxes — The Republic of China levies a tax at the rate of 20% on cash dividends and interest and 20% based on par value of stock dividends received by the Trust on investments in the Republic of China securities. The People’s Republic of China levies a tax at the rate of 10% on cash dividends and interest. A securities transaction tax of 0.3% of the fair value of stocks sold or transferred in Republic of China securities is levied.

(d) Accounting for Uncertainty in Income Taxes — The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2008-2010), or expected to be taken in the Fund’s 2011 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal, however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

(e) Security Transactions, Investment Income, Income and Distributions to Shareholders — Security transactions are recorded on the date the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date, and interest income is recorded on an accrual basis as it is earned. Withholding taxes on foreign dividends have been provided for, in accordance with the Trust's understanding of the applicable country's tax rules and rates. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. For the year ended December 31, 2011, there was no distribution made to shareholders.

(f) Foreign currency translation — The Fund has historically maintained an election to be treated as a qualified business unit (QBU) whose functional currency is the New Taiwan Dollars ("NT\$") since substantially all of the Fund's securities transactions were denominated in NT\$. During 2011, the Fund expanded its primary geographic scope of investments to the Greater China regions and converted from a closed-end investment company to an open-end investment company with shareholders' transactions conducted in United States dollars ("USD"). Substantially, the Trust income is earned in NT\$ and Hong Kong dollars ("HKD") and its expenses are partially paid in USD, NT\$ and HKD. The cost and market value of securities, currency holdings, and other assets

and liabilities that are denominated in NT\$ and HKD are reported in the accompanying financial statements after translation into USD at the end of the year. At December 31, 2011, the exchange rates to USD 1.00 were NT\$30.279 and HKD7.767. Currency translation gains or losses are reported as a separate component of changes in net assets resulting from operations. The Fund has elected to discontinue the QBU election as of December 31, 2011.

The Trust does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

(g) Concentration — The Trust concentrates its investments in publicly traded equities issued by corporations located in China, Hong Kong, Taiwan, or Singapore. The portfolio involves considerations not typically associated with investing in U.S. securities. In addition, the Trust is more susceptible to factors adversely affecting the economies of those countries than a fund not concentrated in these issuers to the same extent. Since the Trust's investment securities are primarily denominated in NT\$ and HKD, changes in the relationships of the NT\$ and the HKD to the USD may also significantly affect the value of the investments and the earnings of the Trust.

(h) Use of Estimates in Financial Statements — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements, financial highlights and accompanying notes. Actual results may differ from those estimates.

## NOTE 2 – SECURITY VALUATION

Common stocks represent securities that are traded on the Taiwan Stock Exchange or the Taiwan over-the-counter market or Hong Kong Stock Exchange. Securities traded on a principal securities exchange are valued at the closing price on such exchange. Short-term investments are valued at NAV or at amortized cost, which approximates fair value. Securities for which market quotations are not readily available are, or if a development/event occurs that may significantly impact the value of a security may be, fair-valued in good faith pursuant to procedures established by the Board of Trustees.

Fair Value Measurements and disclosures — in May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) No. 2011-04 “Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (“IFRS”)”. ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS.

ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy; quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity, and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011.

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

## Edgar Filing: SHELTON GREATER CHINA FUND - Form N-CSR

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the company has the ability to access.

Level 2 - Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table summarizes the valuation of the Trust's securities at December 31, 2011 using the fair value hierarchy:

	Level 1(b)	Level 2(b)	Level 3(b)	Total
Investments, in securities	\$48,917,550	\$—	\$—	\$48,917,550
Common Stocks (a)	239,970	—	—	239,970
Total investments in securities	\$49,157,520	\$—	\$—	\$49,157,520

(a) For a detailed breakout of common stocks by major industry classification, please refer to the Portfolio of Investments.

(b) There were no transfers in or out of Level 1, Level 2 and Level 3 during the year ended December 31, 2011.

### NOTE 3 – INVESTMENT ADVISORY FEES AND OTHER RELATED PARTY TRANSACTIONS

The Trust entered into an advisory agreement with Nanking Road Capital Management, LLC (“NRC”) on October 1, 2007, which was replaced by Shelton Capital on June 12, 2011. Pursuant to its advisory agreement with the Trust, Shelton Capital is responsible for supervising investments of the Trust, and makes available all services needed for the management, administration and operation of the Trust. The Trust pays Shelton Capital (and paid NRC) a fee at the per annum rate of 1.25% of the NAV of the Trust's assets. Shelton Capital entered into a sub-advisory agreement with Nikko AM on June 12, 2011.

Brown Brothers Harriman & Co. (“BBH”) provided administrative and accounting services for the Trust, including maintaining certain books and records of the Trust, and preparing certain reports and other documents required by U.S. federal and/or state laws and regulations until the contract expired on October 7, 2011. Since October 10, 2011, Shelton Capital provides administrative services for the Trust. As compensation for administrative duties not covered by the advisory agreement, Shelton Capital received an administration fee based on asset held by the Trust at rate of 0.10% on the first \$500 million, 0.08% on the next \$500 million, and 0.06% on assets over \$1 billion.

Certain officers and trustees of the Trust are also affiliated with Shelton Capital. Teresa Axelson has served as the Chief Compliance Officer (“CCO”) of the Trust since November 2011. Ms. Axelson is also employed by Shelton Capital, the Advisor and Administrator to the Trust. The Trust is responsible for the portion of her salary allocated to her duties as the CCO of the Trust and Shelton Capital was reimbursed by the Trust for this portion of her salary.

NOTE 4 – CUSTODIAN FEE

Brown Brothers Harriman & Co. (“BBH”) has provided custodian services for the Trust since October 2004. A new fee schedule was effective October 10, 2011 with similar terms as previous agreement and a monthly minimum fee of \$4,167.

NOTE 5 – TRANSFER AGENT FEES AND ACCOUNTING SERVICES EXPENSE

ALPS Fund Services Inc. provides fund accounting and transfer agency services for the Trust effective October 10, 2011.

**NOTE 6 – EXTRAORDINARY FEES**

The Trust incurred fees arising from the 2010 Annual Shareholder Meeting held in May 27, 2011 that are not projected to reoccur in 2012. These extraordinary fees are expenses due to the change in investment adviser, the conversion of the Fund from a closed-end to an open-end Fund, and the 2010 Annual Shareholder Meeting. The Trust incurred a total of \$295,280 in legal fees, \$75,936 in printing expenses, \$225,000 in management consulting fees, \$70,488 in insurance coverage, and \$14,546 from other expenses.

**NOTE 7 – INVESTMENTS IN SECURITIES**

For the year ended December 31, 2011, aggregate purchases and sales of securities, excluding short-term investments, were \$150,422,860 and \$168,197,244, respectively.

**NOTE 8 – CAPITAL SHARE TRANSACTIONS**

The Trust when organized as a closed-end investment company, adopted an interval fund structure pursuant to which it makes semi-annual repurchase offers of its shares of beneficial interest.

In June 2010, the Trust accepted 589,448 shares for payment at a price of \$6.34 per share in accordance with its semi-annual repurchase offer. Pursuant to the semi-annual repurchase offer, the purchase price was equal to 100% of the Trust's NAV at the close of regular trading on the Taiwan Stock Exchange on June 21, 2010, to which a 2% repurchase fee was applied. The purchased shares constituted approximately 5% of the Trust's previously outstanding shares.

In December 2010, the Trust accepted 559,976 shares for payment at a price of \$7.72 per share in accordance with its semi-annual repurchase offer. Pursuant to the semi-annual repurchase offer, the purchase price was equal to 100% of the Trust's NAV at the close of regular trading on the Taiwan Stock Exchange on December 16, 2010, to which a 2% repurchase fee was applied. The purchased shares constituted approximately 5% of the Trust's previously outstanding shares.

In June 2011, the Trust accepted 531,977 shares for payment at a price of \$7.61 per share in accordance with its semi-annual repurchase offer. Pursuant to the semi-annual repurchase offer, the purchase price was equal to 100% of the Trust's NAV at the close of regular trading on the Taiwan Stock Exchange on June 17, 2011, to which a 2% repurchase fee was applied. The purchased shares constituted approximately 5% of the Trust's previously outstanding shares. This semi-annual repurchase offer program ended in October 2011.

The Trust operated as a closed-end management investment company until October 10, 2011. Shareholders approved conversion of the Fund from a closed-end to an open-end management investment company at a conversion ratio of 1:1 based on the Trust's net asset value ("NAV") of \$6.13 on October 7, 2011. The Trust issues its shares of beneficial interest, \$0.001 per share par value of the Fund. The Trust last traded at \$5.86 on the New York Stock Exchange on September 30, 2011 and commenced trading on the Nasdaq Stock Market at its NAV of \$6.19 on October 10, 2011. For shares of the Fund owned on or purchased on or after October 10, 2011 held less than 90 days from the date of purchase, a 2% redemption or exchange fee was charged.

**NOTE 9 – OTHER ANNOUNCEMENTS**

Effective January 12, 2011, Mr. Pedro Pablo Kuczynski resigned from his position as Trustee and Chairman of the Board. The Board subsequently elected Mr. Fredrick C. Copeland, Jr. as Chairman of the Board and formally reduced the size of the Board to five members. In connection with the election of directors at the 2010 Annual Meeting, the size of the Board was increased to six as of May 27, 2011. Effective as of June 10, 2011, Mr. Stephen C. Rogers replaced Mr. Copeland as the Chairman of the Board, and the size of the Board was increased to seven members.

The Trust's engagement with KPMG LLP terminated on June 15, 2011. Effective as of June 20, 2011, the Trust engaged Tait, Weller & Baker LLP to perform audit, tax and non-audit related services for the Fund going forward.

The audit reports of KPMG LLP on the Fund's financial statements as of and for the years ended December 31, 2010 and 2009 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

In connection with the audits of the two fiscal years ended December 31, 2010 and 2009 and the subsequent interim period through June 15, 2011, there were no reportable events or disagreements with KPMG LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to the satisfaction of KPMG LLP would have caused them to make reference in connection with their opinion to the subject matter of the disagreements.

#### NOTE 10 – SUBSEQUENT EVENTS

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees  
Shelton Greater China Fund  
San Francisco, California

We have audited the accompanying statement of assets and liabilities of Shelton Greater China Fund (the "Fund"), including the portfolio of investments, as of December 31, 2011 and the related statement of operations, the statement of changes in net assets, and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of changes in net assets for the year ended December 31, 2010 and the financial highlights for each of the four years in the period ended December 31, 2010 have been audited by other auditors, whose opinion dated February 28, 2011 expressed an unqualified opinion on such financial highlights.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmations of securities owned as of December 31, 2011, by correspondence with the custodian. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Shelton Greater China Fund as of December 31, 2011, the results of its operations, the changes in its net assets, and the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America.
