ITEM 7.01 REGULATION FD DISCLOSURE.

Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 8-K

The Company has issued a press release regarding the revised permit application for its Kreider Farms project to the Pennsylvania Department of Environmental Protection.

ITEM 8.01 OTHER EVENTS.

On February 15, 2010, Bion Environmental Technologies, Inc. submitted a patent application entitled "Method for Treating Nitrogen in Waste Streams," and has been registered by the United States Patent and Trademark Office as serial number 12/713,011. This new patent application represents a significant step in further securing the field of high strength waste stream treatment for nutrient removal and control within Bion's portfolio of patent protection. Together with the total of 10 patents currently granted, this application will enhance Bion's strong position for offering peerless capabilities to our clients, especially with the animal agriculture sector.

The application protects a unique technology configuration or delivery system for the Bion biological nutrient management process resulting from the continuing efforts of Bion's scientists and engineers. This widens the application spectrum and increases the flexibility for developing, controlling and applying the patented Bion biological process to advantage across the target waste streams of our clients.
