weighted average number of common shares outstanding on a diluted basis was 7,684,184 and 7,553,921 for the six months ended March 31, 2004 and 2003, respectively.

Commenting on the results of operations for the three and six month ended March 31, 2004 Jeffrey Gould, President and Chief Executive Officer of BRT noted that the increase in revenues was due in large measure to a significant increase in the average balance of loans outstanding. The increase in the average balance of loans outstanding was partially offset by a decrease in the average interest rate earned on the loan portfolio in both current periods.

Commenting further, Mr. Gould noted that expenses in both current periods, including interest on borrowed funds, the advisor's fee and general and administrative expenses increased as the volume of loan originations increased. He further commented that operating expenses relating to real estate owned increased by \$161,000 quarter versus quarter and \$153,000 six months versus six months primarily because of increased legal and professional expenses incurred in connection with a litigation related to a property sold by BRT in which BRT is involved as a defendant. The quarter ended March 31, 2004 benefited to the extent of \$917,000 (\$.12) per share from a gain on a sale of available-for-sale securities owned by BRT as compared to a \$146,000 gain (\$.02) per share in the three months ended March 31, 2003. The six months ended March 31, 2004 benefited to the extent of \$2,228,000 (\$.29 per share) from gain on sale of real estate assets and gain on sale of available-for-sale securities, as compared to \$341,000 (\$.05 per share) recognized in the comparable six months ended March 31, 2003.
