Yes No [For the three months ended November 30, 2012 and 2011, we incurred \$66,196 and \$106,928, respectively, in total operating expenses, a period-to-period decrease of \$40,732, due to the amount of \$75,000 for impairment of mineral properties for the three months ended November 30, 2011 (\$nil during the three months ended November 30, 2012), as offset by a \$13,080 increase in professional fees and \$12,188 increase in general and administration expenses all relating to the fact that the Company is actively pursuing its business plan in relation to its mining operations. Management fees for the three months ended November 30, 2012 were \$16,500 compared to \$7,500 for the comparable three months ended November 30, 2011. This increase is due to the Company's increase in operations by the appointment of a new officer and director who is investigating other mining prospects. Professional fees for the three months ended November 30, 2012 increased by \$13,080 to \$25,052 as compared to \$11,972 for the three months ended November 30, 2011. The increase is result of legal and professional fees related to services provided with respect to the financing agreement. Interest expense for the three months ended November 30, 2012 was \$2,391 as compared to interest expense of \$Nil for the three months ended November 30, 2011. \$2,391 was related to certain financing costs paid under terms of the financing agreement with Deer Valley. Interest expenses increased from no interest expense during the three months ended November 30, 2011 to \$1000.00 for the three months ended November 30, 2012 related to interest on the loan with Fairhills Capital.
