NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Condensed Consolidated Financial Statements

The consolidated balance sheets as of June 25, 2016 and March 26, 2016, the consolidated statements of comprehensive income and cash flows for the quarters ended June 25, 2016 and June 27, 2015 and the consolidated statement of changes in shareholders' equity for the quarter ended June 25, 2016, include financial information for Monro Muffler Brake, Inc. and its wholly-owned subsidiaries, Monro Service Corporation and Car-X, LLC (collectively, "Monro", "we", "us", "our"). These unaudited, condensed consolidated financial statements have been prepared by Monro. We believe all known adjustments (consisting of normal recurring accruals or adjustments) have been made to fairly state the financial position, results of operations and cash flows for the unaudited periods presented.

Interim results are not necessarily indicative of results for a full year. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended March 26, 2016.

We report our results on a 52/53 week fiscal year with the fiscal year ending on the last Saturday in March of each year. The following are the dates represented by each fiscal period reported in these condensed financial statements:

"Quarter Ended Fiscal June 2016" March 27, 2016 – June 25, 2016 (13 weeks)

"Quarter Ended Fiscal June 2015" March 29, 2015 – June 27, 2015 (13 weeks)

Fiscal year 2017, ending March 25, 2017, is a 52 week year.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued new accounting guidance for the reporting of revenue from contracts with customers. This guidance provides guidelines a company will apply to determine the measurement of revenue and timing of when it is recognized. Additional guidance has subsequently been issued to

amend or clarify the reporting of revenue from contracts with customers. In August 2015, the FASB delayed the effective date of the guidance to fiscal years and interim periods within those years beginning after December 15, 2017. Early adoption is permitted, but not before the original effective date for public entities. We are currently evaluating the potential effect of the adoption of this guidance on our Consolidated Financial Statements.

In February 2016, the FASB issued new accounting guidance related to leases. This guidance establishes a right of use (ROU) model that requires a lessee to record a ROU asset and lease liability on the balance sheet for all leases with terms longer than twelve months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. Early adoption is permitted. We are currently evaluating the effect of the adoption of this guidance on our Consolidated Financial Statements.

In March 2016, the FASB issued new accounting guidance intended to simplify various aspects related to accounting for share-based payments and their presentation in the financial statements. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2016. Early adoption is permitted. We are currently evaluating the potential impact of the adoption of this guidance on our Consolidated Financial Statements.

Other recent authoritative guidance issued by the FASB (including technical corrections to the Accounting Standards Codification) and the Securities and Exchange Commission did not, or are not expected to have a material effect on Monro's Consolidated Financial Statements.

Table of Contents

MONRO MUFFLER BRAKE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Guarantees

At the time we issue a guarantee, we recognize an initial liability for the fair value, or market value, of the obligation we assume under that guarantee. Monro has guaranteed certain lease payments, primarily related to franchisees, amounting to \$9.8 million. This amount represents the maximum potential amount of future payments under the guarantees as of June 25, 2016. The leases are guaranteed through April 2020. In the event of default by the franchise owner, Monro generally retains the right to assume the lease of the related store, enabling Monro to re-franchise the location or to operate that location as a Company-operated store. As of June 25, 2016, and in conjunction with purchase accounting, we have recorded a liability of \$.7 million related to anticipated defaults under the foregoing leases.

Note 2 – Acquisitions

Monro's acquisitions are strategic moves in our plan to fill in and expand our presence in existing and contiguous markets, and leverage fixed operating costs such as distribution and advertising.

Subsequent Event

We signed definitive asset purchase agreements to complete the acquisition of certain retail tire and automotive repair stores located within our markets. These transactions are expected to close during the second quarter of fiscal 2017. The acquisitions will be financed through our existing credit facility.

On July 17, 2016, we acquired one retail tire and automotive repair store located in Georgia from Kwik-Fit Tire & Service, Inc. This store operates under the Mr. Tire name. The acquisition was financed through our existing credit facility.

On July 10, 2016, we acquired four retail tire and automotive repair stores located in Minnesota from Task Holdings, Inc. and Autopar, Inc. These stores operate under the Car-X name. The acquisition was financed through our existing credit facility.

On June 26, 2016, we acquired one retail tire and automotive repair store located in Michigan from Harlow Tire Company. This store operates under the Monroe name. The acquisition was financed through our existing credit facility.

#### Fiscal 2017

During fiscal 2017, we acquired the following businesses for an aggregate purchase price of \$47.2 million. The acquisitions were financed through our existing credit facility. The results of operations for these acquisitions are included in our financial results from the respective acquisition dates.

- On June 19, 2016, we acquired two retail tire and automotive repair stores located in New Hampshire from Express Tire Centers, LLC. These stores operate under the Tire Warehouse name.
- On May 8, 2016, we acquired one retail tire and automotive repair store located in Florida from Pioneer Tire Pros. This store operates under The Tire Choice name.
- On May 1, 2016, we acquired 29 retail/commercial tire and automotive repair stores and one retread plant located in Florida from McGee Tire Stores, Inc. These stores will operate primarily under The Tire Choice name.

These acquisitions resulted in goodwill related to, among other things, growth opportunities, synergies and economies of scale expected from combining these businesses with ours, as well as unidentifiable intangible assets. All of the goodwill is expected to be deductible for tax purposes. We have recorded finite-lived intangible assets at their estimated fair value related to customer lists, favorable leases and trade name.

We expensed all costs related to acquisitions in the three months ended June 25, 2016. The total costs related to completed acquisitions were immaterial for the three months ended June 25, 2016. These costs are included in the Consolidated Statements of Comprehensive Income primarily under operating, selling, general and administrative expenses.

Sales for the fiscal 2017 acquired entities for the three months ended June 25, 2016 totaled \$8.9 million for the period from acquisition date through June 25, 2016.

Supplemental pro forma information for the current or prior reporting periods has not been presented due to the impracticability of obtaining detailed, accurate or reliable data for the periods the acquired entities were not owned by

Monro.

8

---

Table of Contents

MONRO MUFFLER BRAKE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The preliminary fair values of identifiable assets acquired and liabilities assumed were based on preliminary valuations and estimates. The excess of the net purchase price over net tangible and intangible assets acquired was recorded as goodwill. The preliminary allocation of the aggregate purchase price as of June 25, 2016 was as follows:

	As of Acquisition Date (Dollars in thousands)
Trade receivables	\$ 1,371
Inventories	4,283
Other current assets	243
Property, plant and equipment	8,917
Intangible assets	7,080
Other non-current assets	72
Long-term deferred income tax assets	3,004
Total assets acquired	24,970
Warranty reserves	145
Other current liabilities	887
Long-term capital leases and financing obligations	13,633
Other long-term liabilities	273
Total liabilities assumed	14,938
Total net identifiable assets acquired	\$ 10,032
Total consideration transferred	\$ 47,160
Less: total net identifiable assets acquired	10,032
Goodwill	\$ 37,128

The following are the intangible assets acquired and their respective fair values and weighted average useful lives:

	As of Acquisition Date	Weighted Average Useful Life
	Dollars in thousands	
Customer lists	\$ 3,593	7 years
Favorable leases	3,187	14 years
Trade name	300	2 years
Total	\$ 7,080	10 years

## Fiscal 2016

On April 25, 2015, we acquired the Car-X Brand, as well as the franchise rights for 146 auto service centers from Car-X Associates Corp., a subsidiary of Tuffy Associates Corp. The Car-X stores are owned and operated by independent Car-X franchisees in Illinois, Indiana, Iowa, Kentucky, Minnesota, Missouri, Ohio, Tennessee, Texas and Wisconsin. The franchise locations operate under the Car-X name. Monro operates as the franchisor through a standard royalty agreement, while Car-X remains a separate and independent brand and business through Car-X, LLC, Monro's wholly-owned subsidiary, with franchise operations based in Illinois. The acquisition was financed through our existing credit facility. The results of operations for this acquisition are included in Monro's financial results from the date of acquisition and are immaterial.

The acquisition resulted in goodwill related to, among other things, growth opportunities, synergies and economies of scale expected from combining this business with ours, and unidentifiable intangible assets. All of the goodwill is expected to be deductible for tax purposes. We have recorded finite-lived intangible assets at their estimated fair value related to franchise agreements and trade name.

We expensed all costs related to acquisitions in the three months ended June 27, 2015. The total costs related to completed acquisitions were immaterial for the three months ended June 27, 2015. These costs are included in the Consolidated Statements of Comprehensive Income primarily under operating, selling, general and administrative expenses.

Table of Contents

MONRO MUFFLER BRAKE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Supplemental pro forma information for the current or prior reporting periods has not been presented due to the immateriality of these amounts for the periods the acquired entity was not owned by Monro.

We have recorded the identifiable assets acquired and liabilities assumed at their fair values as of their respective acquisition dates (including any measurement period adjustments), with the remainder recorded as goodwill as follows:

	As of Acquisition Date (Dollars in thousands)
Trade receivables	\$ 365
Other current assets	2
Property, plant and equipment	415
Intangible assets	9,100
Other non-current assets	14
Long-term deferred income tax assets	396
Total assets acquired	10,292
Other current liabilities	397
Long-term capital leases and financing obligations	561
Other long-term liabilities	714
Total liabilities assumed	1,672
Total net identifiable assets acquired	\$ 8,620
Total consideration transferred	\$ 17,650
Less: total net identifiable assets acquired	8,620
Goodwill	\$ 9,030

The total consideration of \$17.7 million is comprised of \$11.7 million in cash, and a \$6.0 million payable to the seller. The payable is being liquidated via equal monthly payments through August 2022.

The following are the intangible assets acquired and their respective fair values and weighted average useful lives:

	As of Acquisition Date	Weighted Average Useful Life
	Dollars in thousands	
Franchise agreements	\$ 7,100	13 years
Trade name	2,000	15 years
Total	\$ 9,100	13 years

As a result of the updated purchase price allocations, certain of the fair value amounts previously estimated were adjusted during the measurement period. These measurement period adjustments related to updated valuation reports and appraisals received from our external valuation specialists, as well as revisions to internal estimates. The changes in estimates include an increase in other current assets of \$.1 million; an increase in property, plant and equipment of \$1.2 million; an increase in long-term deferred income tax assets of \$.8 million; an increase in other current liabilities of \$.3 million and an increase in long-term capital leases and financing obligations of \$3.0 million. The measurement period adjustments resulted in an increase to goodwill of \$1.2 million.

Table of Contents

MONRO MUFFLER BRAKE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

These measurement period adjustments were not material to the Consolidated Statement of Comprehensive Income for the quarter ended June 25, 2016.

We continue to refine the valuation data and estimates primarily related to inventory, road hazard warranty, intangible assets, real estate, and real property leases for all other fiscal 2016 acquisitions and the fiscal 2017 acquisitions, and expect to complete the valuations no later than the first anniversary date of the respective acquisition. We anticipate that adjustments will continue to be made to the fair values of identifiable assets acquired and liabilities assumed and those adjustments may or may not be material.

Note 3 – Earnings Per Share

Basic earnings per common share (“EPS”) amounts are computed by dividing income available to common shareholders, after deducting preferred stock dividends, by the average number of common shares outstanding. Diluted EPS amounts assume the issuance of common stock for all potentially dilutive equivalent securities outstanding.

The following is a reconciliation of basic and diluted EPS for the respective periods:

	Quarter Ended Fiscal June	
	2016	2015
	(Dollars in thousands, except per share data)	
Numerator for earnings per common share calculation:		
Net Income	\$ 16,755	\$ 18,799
Preferred stock dividends	(129)	(114)
Income available to common stockholders	\$ 16,626	\$ 18,685

Denominator for earnings per common share calculation:

Weighted average common shares, basic	32,258	31,855
Effect of dilutive securities:		
Preferred stock	760	760
Stock options	309	493
Weighted average number of common shares, diluted	33,327	33,108
Basic Earnings per common share:	\$ .52	\$ .59
Diluted Earnings per common share:	\$ .50	\$ .57

The computation of diluted EPS excludes the effect of the assumed exercise of approximately 229,000 and 109,000 stock options for the three months ended fiscal June 25, 2016 and June 27, 2015, respectively. Such amounts were excluded as the exercise prices of these stock options were greater than the average market value of our Common Stock for those periods, resulting in an anti-dilutive effect on diluted EPS.

#### Note 4 – Income Taxes

In the normal course of business, we provide for uncertain tax positions and the related interest and penalties, and adjust our unrecognized tax benefits and accrued interest and penalties accordingly. The total amounts of unrecognized tax benefits were \$7.2 million and \$6.9 million at June 25, 2016 and March 26, 2016, respectively, the majority of which, if recognized, would affect the effective tax rate. As of June 25, 2016, we had approximately \$.5 million of interest and penalties accrued related to unrecognized tax benefits.

We file U.S. federal income tax returns and income tax returns in various state jurisdictions. Our fiscal 2013 through fiscal 2015 U.S. federal tax years and various state tax years remain subject to income tax examinations by tax authorities.

#### Note 5 – Fair Value

Long-term debt, including current portion, had a carrying amount and a fair value of \$140.9 million as of June 25, 2016, as compared to a carrying amount and a fair value of \$103.3 million as of March 26, 2016. The fair value of long-term debt was estimated based on discounted cash flow analyses using either quoted market prices for the same or similar issues, or the current interest rates offered to Monro for debt with similar maturities.

Table of Contents

MONRO MUFFLER BRAKE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 6 – Supplemental Disclosure of Cash Flow Information

The following represents non-cash investing and financing activities during the three months ended June 25, 2016.

Three Months Ended June 25, 2016:

In connection with the fiscal 2017 acquisitions and fiscal 2016 acquisition measurement period adjustments (see Note 2), liabilities were assumed as follows:

	(Dollars in thousands)
Fair value of assets acquired	\$ 27,093
Goodwill acquired	38,340
Cash paid, net of cash acquired	(47,366)
Amount payable to seller	206
Liabilities assumed	\$ 18,273

Three Months Ended June 27, 2015:

In connection with the fiscal 2016 acquisition (see Note 2), liabilities were assumed as follows:

	(Dollars in thousands)
Fair value of assets acquired	\$ 9,595
Goodwill acquired	8,478
Cash paid, net of cash acquired	(11,821)
Amount payable to seller	(6,000)
Liabilities assumed	\$ 252

#### Note 7 – Cash Dividend

In May 2016, our Board of Directors declared its intention to pay a regular quarterly cash dividend during fiscal 2017 of \$.17 per common share or common share equivalent to be paid beginning with the first quarter of fiscal 2017. However, the declaration of and any determination as to the payment of future dividends will be at the discretion of the Board of Directors and will depend on our financial condition, results of operations, capital requirements, compliance with charter and credit facility restrictions, and such other factors as the Board of Directors deems relevant.

#### Note 8 – Subsequent Events

See Note 2 for a discussion of acquisitions subsequent to June 25, 2016.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## Forward-Looking Statements

The statements contained in this Quarterly Report on Form 10-Q that are not historical facts, including (without limitation) statements made in the Management's Discussion and Analysis of Financial Condition and Results of Operations, may contain statements of future expectations and other forward-looking statements made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. When used in this Quarterly Report on Form 10-Q, the words "anticipates", "believes", "contemplates", "see", "could", "estimate", "appear", "intend", "plans" and thereof and similar expressions, are intended to identify forward-looking statements. Forward-looking statements are subject to risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed. These factors include, but are not necessarily limited to, product demand, dependence on and competition within the primary markets in which Monro's stores are located, the need for and costs associated with store renovations and other capital expenditures, the effect of economic conditions, seasonality, the impact of weather conditions, the impact of competitive services and pricing, parts supply restraints or difficulties, our dependence on foreign vendors, industry regulation, risks relating to leverage and debt service (including sensitivity to fluctuations in interest rates), continued availability of capital resources and financing, advances in automotive technologies, disruption or unauthorized access to our computer systems, risks relating to protection of customer and employee personal data, risks relating to litigation, risks relating to integration of acquired businesses, including goodwill impairment and the risks set forth in our Annual Report on Form 10-K for the fiscal year ended March 26, 2016. Except as required by law, we do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.

## Results of Operations

The following table sets forth income statement data of Monro Muffler Brake, Inc. expressed as a percentage of sales for the fiscal periods indicated:

	Quarter Ended Fiscal June	
	2016	2015
Sales	100.0 %	100.0 %
Cost of sales, including distribution and occupancy costs	58.6	57.8

Edgar Filing: MONRO MUFFLER BRAKE INC - Form 10-Q

Gross profit	41.4	42.2		
Operating, selling, general and administrative expenses	28.2	28.0		
Operating income	13.2	14.2		
Interest expense - net	1.9	1.4		
Other income - net	(0.1)	—		
Income before provision for income taxes	11.4	12.8		
Provision for income taxes	4.3	4.9		
Net income	7.1	%	7.9	%

First Quarter Ended June 25, 2016 Compared to First Quarter Ended June 27, 2015

Sales were \$236.9 million for the quarter ended June 25, 2016 as compared with \$236.5 million in the quarter ended June 27, 2015. The sales increase of \$.4 million, or .2%, was due to an increase of \$18.5 million related to new stores, of which \$16.8 million came from the fiscal 2016 and fiscal 2017 acquisitions. Largely offsetting this was a decrease in comparable store sales of 6.9%. Additionally, there was a decrease in sales from closed stores amounting to \$2.3 million. There were 90 selling days in the quarter ended June 25, 2016 and in the quarter ended June 27, 2015.

At June 25, 2016, we had 1,064 company-operated stores and 134 franchised locations as compared with 999 company-operated stores and 146 franchised locations at June 27, 2015. (At March 26, 2016, we had 1,029 company-operated stores and 135 franchised locations.) During the quarter ended June 25, 2016, we added 36 company-operated stores and closed one store. Additionally, one franchised location closed during the quarter ended June 25, 2016.

We believe that the decline in comparable store sales resulted mainly from continued weak economic conditions and from the impact of milder winter weather in our markets.

Gross profit for the quarter ended June 25, 2016 was \$98.1 million or 41.4% of sales as compared with \$99.7 million or 42.2% of sales for the quarter ended June 27, 2015. The decrease in gross profit for the quarter ended June 25, 2016, as a percentage of sales, is due to total material costs, including outside purchases, which increased as a percentage of sales as compared to the prior year. This was largely due to a shift in mix from higher margin service categories to the lower margin tire category, as well as the impact of acquisitions. On a comparable store basis, gross margin increased by 50 basis points, driven by lower material costs.

Table of Contents

On a consolidated basis, labor costs increased slightly due to the impact of negative comparable store sales. Distribution and occupancy costs decreased moderately, largely due to distribution cost savings.

Operating expenses for the quarter ended June 25, 2016 were \$66.8 million or 28.2% of sales as compared with \$66.1 million or 28.0% of sales for the quarter ended June 27, 2015. The increase as a percentage of sales was primarily due to relatively fixed expenses against lower comparable store sales. Before the loss on closed stores and amortization associated with acquired stores, the dollars associated with operating expenses actually decreased slightly as compared to the prior year in spite of inflation and costs associated with a weighted average increase of 50 stores from the first quarter of last year. We believe that this demonstrates the effectiveness of our strong cost control in a period of soft sales.

Operating income for the quarter ended June 25, 2016 of approximately \$31.3 million decreased by 6.9% as compared to operating income of approximately \$33.6 million for the quarter ended June 27, 2015, and decreased as a percentage of sales from 14.2% to 13.2% for the reasons described above.

Net interest expense for the quarter ended June 25, 2016 increased by approximately \$1.1 million as compared to the same period in the prior year, and increased from 1.4% to 1.9% as a percentage of sales for the same periods. The weighted average debt outstanding for the quarter ended June 25, 2016 increased by approximately \$57 million as compared to the quarter ended June 27, 2015. This increase is due to an increase in capital lease debt related to the fiscal 2016 and fiscal 2017 acquisitions, as well as an increase in debt outstanding under our Revolving Credit Facility agreement. There was also an increase in the weighted average interest rate of approximately 50 basis points from the prior year, largely due to capital lease debt, as well as an increase in the LIBOR and prime rates versus the same time last year.

Our effective tax rate for the quarter ended June 25, 2016 and June 27, 2015 was 37.9% and 38.0%, respectively, of pre-tax income.

Net income for the quarter ended June 25, 2016 decreased by \$2.0 million, or 10.9%, from \$18.8 million for the quarter ended June 27, 2015 to \$16.8 million and earnings per diluted share decreased by 12.3% from \$.57 to \$.50 due to the factors discussed above.

Capital Resources and Liquidity

## Capital Resources

Our primary capital requirements in fiscal 2017 are the upgrading of facilities and systems and the funding of our store expansion program, including potential acquisitions of existing store chains. For the three months ended June 25, 2016, we spent approximately \$55.6 million on these items. Capital requirements were met primarily by cash flow from operations and from our revolving credit facility.

In May 2016, our Board of Directors declared its intention to pay a regular quarterly cash dividend of \$.17 per common share or common share equivalent beginning with the first quarter of fiscal 2017. We paid dividends of \$5.6 million during the three months ended June 25, 2016. However, the declaration of and any determination as to the payment of future dividends will be at the discretion of the Board of Directors and will depend on Monro's financial condition, results of operations, capital requirements, compliance with charter and credit facility restrictions, and such other factors as the Board of Directors deems relevant.

Additionally, we have signed definitive asset purchase agreements to acquire certain retail tire and automotive repair stores. These transactions are expected to close prior to the end of the second quarter of fiscal 2017. The acquisitions will be financed through our existing credit facility.

We also plan to continue to seek suitable acquisition candidates. We believe we have sufficient resources available (including cash flow from operations and bank financing) to expand our business as currently planned for the next twelve months.

## Liquidity

In June 2011, we entered into a five-year, \$175 million Revolving Credit Facility agreement with seven banks. This Revolving Credit Facility also provided an accordion feature permitting us to request an increase in availability of up to an additional \$75 million.

In December 2012, the Revolving Credit Facility was amended to include the following: the committed sum was increased by \$75 million to \$250 million; the term was extended for another one and a half years, such that the Revolving Credit Facility expired in December 2017; and the \$75 million accordion feature was maintained. There were no other changes in terms including those related to covenants or interest rates.

## Table of Contents

In January 2016, we entered into a new five-year \$600 million Revolving Credit Facility agreement with nine banks (the "Credit Facility"). Interest only is payable monthly throughout the Credit Facility's term. The Credit Facility increases our current borrowing capacity from our prior financing agreement by \$350 million to \$600 million, and includes an accordion feature permitting us to request an increase in availability of up to an additional \$100 million, an increase of \$25 million from our prior financing agreement. The expanded facility bears interest at 75 to 175 basis points over LIBOR. The Credit Facility requires fees payable quarterly throughout the term between .15% and .35% of the amount of the average net availability under the Credit Facility during the preceding quarter. There was \$140.9 million outstanding under the Credit Facility at June 25, 2016.

Within the Credit Facility, we have a sub-facility of \$80 million for the purpose of issuing standby letters of credit. The line requires fees aggregating 87.5 to 187.5 basis points over LIBOR annually of the face amount of each standby letter of credit, payable quarterly in arrears. There was \$26.5 million in an outstanding letter of credit at June 25, 2016.

The net availability under the Credit Facility at June 25, 2016 was \$432.6 million.

Specific terms of the Credit Facility permit the payment of cash dividends not to exceed 50% of the prior year's net income, and permit mortgages and specific lease financing arrangements with other parties with certain limitations. Other specific terms and the maintenance of specified ratios are generally consistent with our prior financing agreement. Additionally, the Credit Facility is not secured by our real property, although we have agreed not to encumber our real property, with certain permissible exceptions. We were in compliance with all debt covenants as of June 25, 2016.

In addition, we have financed certain store properties with capital leases/financing obligations, which amount to \$192.3 million and are due in installments through 2045.

## Recent Accounting Pronouncements

See "Recent Accounting Pronouncements" in Note 1 of the Company's Condensed Consolidated Financial Statements for a discussion of the impact of recently issued accounting standards on our Condensed Consolidated Financial Statements as of June 25, 2016 and the expected impact on the Consolidated Financial Statements for future periods.

## Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from potential changes in interest rates. There was no fixed rate debt outstanding at June 25, 2016. Our cash flow exposure on floating rate debt would result in annual interest expense fluctuations of approximately \$1.4 million based upon our debt position at June 25, 2016 and \$1.0 million for the fiscal year ended March 26, 2016, given a 1% change in LIBOR.

Debt financing, including current portion, had a carrying amount and a fair value of \$140.9 million as of June 25, 2016, as compared to a carrying amount and a fair value of \$103.3 million as of March 26, 2016.

#### Item 4. Controls and Procedures

##### Disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that we file or submit to the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In conjunction with the close of each fiscal quarter and under the supervision of our Chief Executive Officer and Chief Financial Officer, we conduct an update, a review and an evaluation of the effectiveness of our disclosure controls and procedures. It is the conclusion of our Chief Executive Officer and Chief Financial Officer, based upon an evaluation completed as of the end of the most recent fiscal quarter reported on herein, that our disclosure controls and procedures were effective.

##### Changes in internal controls over financial reporting

There were no changes in our internal control over financial reporting during the quarter ended June 25, 2016 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party or subject to any legal proceedings other than certain claims and lawsuits that arise in the normal course of our business. We do not believe that such claims or lawsuits, individually or in the aggregate, will have a material adverse effect on our financial condition or results of operations.
