Form 10-Q
November 06, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number: 001-36730

SYNEOS HEALTH, INC.

(Exact name of registrant as specified in its charter)

Delaware

27-3403111

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

3201 Beechleaf Court, Suite 600, Raleigh, North Carolina 27604-1547

(Address of principal executive offices and Zip Code)

(919) 876-9300

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 29, 2018, there were approximately 103,225,918 shares of the registrant's common stock outstanding.

Table of Contents

SYNEOS HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation and Changes in Significant Accounting Policies

Nature of Operations

Syneos Health, Inc. (the “Company”) is a global provider of end-to-end biopharmaceutical outsourcing solutions. The Company operates under two reportable segments, Clinical Solutions and Commercial Solutions, and derives its revenue through a suite of services designed to enhance its customers’ ability to successfully develop, launch, and market their products. The Company offers its solutions on both a standalone and integrated basis with biopharmaceutical development and commercialization services ranging from Phase I-IV clinical trial services to services associated with the commercialization of biopharmaceutical products. The Company’s customers include small, mid-sized, and large companies in the pharmaceutical, biotechnology, and medical device industries.

Merger

On August 1, 2017, the Company completed the merger (the “Merger”) with Double Eagle Parent, Inc. (“inVentiv”), the parent company of inVentiv Health, Inc. Upon closing, inVentiv was merged with and into the Company, with the Company continuing as the surviving corporation. Beginning August 1, 2017, inVentiv’s results of operations are included in the accompanying unaudited condensed consolidated financial statements. For additional information related to the Merger, refer to “Note 3 - Business Combinations.”

Unaudited Interim Financial Information

The Company prepared the accompanying unaudited condensed consolidated financial statements in accordance with generally accepted accounting principles in the United States of America (“GAAP”) for interim financial information. The significant accounting policies followed by the Company for interim financial reporting are consistent with the accounting policies followed for annual financial reporting.

The unaudited condensed consolidated financial statements, in management’s opinion, include all adjustments of a normal recurring nature necessary for a fair presentation. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission on February 28, 2018. The results of operations for the three and nine months ended September 30, 2018 are not necessarily indicative of the results to be expected for the full year ending December 31, 2018 or any other future period. The unaudited condensed consolidated balance sheet at December 31, 2017 is derived from the amounts in the audited consolidated balance sheet included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Recently Adopted Accounting Standards

Revenue from Contracts with Customers. The Company adopted Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (“ASC 606”) on January 1, 2018 using the modified retrospective method for all contracts not completed as of the date of adoption. The reported results for the three and nine months ended September 30, 2018 reflect the application of ASC 606, while the reported results for the three and nine months ended September 30, 2017 were prepared under ASC 605, Revenue Recognition (“ASC 605”). For additional information related to the impact of adopting this standard, refer to “Note 12 - Revenue from Contracts with Customers.”

Table of Contents

Statement of Cash Flows - Restricted Cash. Effective January 1, 2018, the Company adopted ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash using the retrospective transition method, as required by the new standard. The adoption of this ASU had an insignificant impact to the Company's unaudited condensed consolidated statements of cash flows. The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the unaudited condensed consolidated balance sheets at September 30, 2018 and December 31, 2017, which sum to the total of such amounts in the consolidated statements of cash flows (in thousands):

	September 30, December 31,	
	2018	2017
Cash and cash equivalents	\$ 132,402	\$ 321,262
Restricted cash	2,202	714
Total cash and cash equivalents and restricted cash shown in the condensed consolidated statements of cash flows	\$ 134,604	\$ 321,976

Comprehensive Income - Reclassifications of Certain Tax Effects. Effective January 1, 2018, the Company elected to early adopt ASU No. 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. Under the updated accounting guidance, the Company is allowed to reclassify the stranded tax effects within accumulated other comprehensive income to retained earnings in each period in which the effect of the change in the U.S. federal corporate income tax rate resulting from the Tax Cuts and Jobs Act of 2017 ("Tax Act") is recorded. Upon adoption, the Company recorded an increase to other comprehensive income of \$3.9 million and a reduction in retained earnings of \$3.9 million. There was no impact on prior periods.

Recently Issued Accounting Standards Not Yet Adopted

Leases. In February 2016, the Financial Accounting Standards board ("FASB") issued ASU No. 2016-02, Leases. ASU 2016-02 requires organizations to recognize lease assets and lease liabilities on the balance sheet, including leases that were previously classified as operating leases. The ASU also requires additional disclosures about leasing arrangements related to the amount, timing, and uncertainty of cash flows arising from leases. The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption of the amendments is permitted and the new guidance will be applied using a modified retrospective approach. The Company continues to evaluate the impact of adopting this standard on its accounting policies, financial statements, business processes, systems and internal controls. Additionally, the Company has established a project management and implementation team consisting of internal resources and external advisors. These evaluation and implementation processes are expected to continue through 2018. The Company expects to recognize substantially all of its leases on the balance sheet by recording a right-to-use asset and a corresponding lease liability. The Company plans to adopt the standard on January 1, 2019.

2. Financial Statement Details

Cash and Cash Equivalents

Certain of the Company's subsidiaries participate in a notional cash pooling arrangement to manage global liquidity requirements. The participants combine their cash balances in pooling accounts at the same financial institution with the ability to offset bank overdrafts of one participant against positive cash account balances held by another participant. The net cash balance related to this pooling arrangement is included in the "Cash and cash equivalents" line item in the unaudited condensed consolidated balance sheet. The Company's net cash pool position consisted of the following (in thousands):

	September 30, December 31,	
	2018	2017
Gross cash position	\$ 130,510	\$ 195,376
Less: cash borrowings (105,708)	(88,226)	(88,226)

Net cash position	\$ 24,802	\$ 107,150
-------------------	-----------	------------

8

Table of Contents

Billed Accounts Receivable, Net

Billed accounts receivable, net consisted of the following (in thousands):

	September 30, December 31,	
	2018	2017
Accounts receivable billed	\$ 662,138	\$ 652,061
Allowance for doubtful accounts	(5,456)	(9,076)
Accounts receivable billed, net	\$ 656,682	\$ 642,985

Accounts Receivable Factoring Arrangement

In May 2017, the Company entered into an accounts receivable factoring agreement to sell certain eligible unsecured trade accounts receivable, without recourse, to an unrelated third-party financial institution for cash. For the nine months ended September 30, 2018, the Company factored \$197.4 million of trade accounts receivable on a non-recourse basis and received \$196.4 million in cash proceeds from the sale. The fees associated with this transaction were insignificant. The Company did not sell any trade accounts receivables under this agreement during the year ended December 31, 2017.

Goodwill and Intangible Assets

Changes in the carrying amount of goodwill by segment for the nine months ended September 30, 2018 were as follows (in thousands):

	Total	Clinical Solutions	Commercial Solutions
Balance at December 31, 2017:			
Gross carrying amount	\$4,308,737	\$2,808,975	\$1,499,762
Accumulated impairment losses ^(a)	(16,166)	(8,142)	(8,024)
Goodwill net of accumulated impairment losses	4,292,571	2,800,833	1,491,738
2018 Activity:			
Business combinations ^(b)	73,901	(5,692)	79,593
Impact of foreign currency translation	(13,647)	(12,950)	(697)
Balance at September 30, 2018:			
Gross carrying amount	4,368,991	2,790,333	1,578,658
Accumulated impairment losses ^(a)	(16,166)	(8,142)	(8,024)
Goodwill net of accumulated impairment losses	\$4,352,825	\$2,782,191	\$1,570,634

^(a) Accumulated impairment losses associated with the Clinical Solutions segment were recorded prior to 2018 and related to the former Phase I Services segment, now a component of the Clinical Solutions segment. Accumulated impairment losses associated with the Commercial Solutions segment were recorded prior to 2018 and related to the former Global Consulting segment, now a component of the Commercial Solutions segment. No impairment of goodwill was recorded for the nine months ended September 30, 2018.

^(b) Amount represents measurement period adjustments to goodwill recognized in connection with the Merger and goodwill recognized in connection with an acquisition. Goodwill associated with these transactions is not deductible for income tax purposes. Refer to "Note 3 - Business Combinations" for further information.

Table of Contents

Intangible assets, net consisted of the following (in thousands):

	September 30, 2018			December 31, 2017		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Intangible assets with finite lives:						
Customer relationships	\$1,489,824	\$ (368,905)	\$1,120,919	\$1,440,178	\$ (266,158)	\$1,174,020

Other comprehensive gain (loss) before reclassifications	1,712	(36,541)	(34,829)
Amount of gain reclassified from accumulated other comprehensive loss into the statement of operations	(371)	—	(371)
Net current period other comprehensive gain (loss), net of tax	1,341	(36,541)	(35,200)
Balance at September 30, 2018	\$ 2,726	\$ (56,461)	\$(53,735)

Unrealized gains on derivative instruments represent the effective portion of gains associated with interest rate swaps. Designated as cash flow hedges, the interest rate swaps limit the variable interest rate exposure associated with the Company's term loans. The Company reclassifies amounts into net income (loss) as it makes interest payments on its term loan. Amounts to be reclassified to net income (loss) in the next 12 months are expected to be inconsequential. The tax effects allocated to each component of other comprehensive loss for the three months ended September 30, 2018 were as follows (in thousands):

	Before-Tax Amount	Tax (Expense) or Benefit	Net-of-Tax Amount
Foreign currency translation adjustments	\$ (4,163)	\$ 2,868	\$ (1,295)
Unrealized gain on derivative instruments:			
Unrealized gain arising during period	2,863	(466)	2,397

3. Business Combinations

inVentiv Health Merger

On August 1, 2017 (the “Merger Date”), the Company completed the Merger with inVentiv with the Company surviving as the accounting and legal entity acquirer. The Merger was accounted for as a business combination using the acquisition method of accounting in accordance with ASC Topic 805, Business Combinations. The purchase price has been allocated to the tangible assets and identifiable intangible assets acquired and liabilities assumed based upon their fair values. The excess of the purchase price over the tangible and intangible assets acquired and liabilities assumed has been recorded as goodwill. The goodwill in connection with the Merger is primarily attributable to the assembled workforce of inVentiv and the expected synergies of the Merger.

In connection with the Merger, the Company assumed certain contingent tax-sharing obligations of inVentiv. The fair value of the contingent tax-sharing liability is remeasured at the end of each reporting period, with changes in the estimated fair value reflected in earnings until the liability is fully settled. The estimated fair value of the contingent tax-sharing obligation liability was \$54.1 million and \$50.5 million as

Table of Contents

of September 30, 2018 and December 31, 2017, respectively. The liability is included in the “Accrued liabilities” and “Other long-term liabilities” line items of the accompanying unaudited condensed consolidated balance sheets.

The results of inVentiv’s operations have been included in the Company’s statements of operations since the Merger Date. Computing separate measures of inVentiv’s stand-alone revenue and profitability for the period after the Merger Date is impracticable.

Allocation of Consideration Transferred

The fair value of the consideration transferred on the Merger Date was \$4.51 billion. The following table summarizes the allocation of the consideration transferred based on management’s estimates of Merger Date fair values of assets acquired and liabilities assumed, with the excess of the purchase price over the estimated fair values of the identifiable net assets acquired recorded as goodwill (in thousands):

Assets acquired:

Cash and cash equivalents	\$57,338
Restricted cash	433
Accounts receivable	367,595
Unbilled accounts receivable	262,944
Other current assets	97,922
Property and equipment	114,041
Intangible assets	1,334,200
Other assets	50,052
Total assets acquired	2,284,525

Liabilities assumed:

Accounts payable	38,072
Accrued liabilities	304,341
Contract liabilities	247,474
Capital leases	40,928
Long-term debt, current and non-current	737,872
Deferred income taxes, net	14,751
Other liabilities	119,480
Total liabilities assumed	1,502,918
Total identifiable assets acquired, net	781,607
Goodwill	\$3,724,016

The goodwill recognized in connection with the Merger was \$3.72 billion, with \$2.23 billion of the goodwill assigned to the Clinical Solutions segment and \$1.49 billion assigned to the Commercial Solutions segment. Goodwill generated in the Merger is not deductible for income tax purposes. During the nine months ended September 30, 2018, the Company made adjustments to the preliminary fair value of acquired assets and assumed liabilities to reflect additional information obtained in connection with the Merger. The net effect of these adjustments resulted in a \$9.5 million decrease in goodwill.

Table of Contents

Unaudited Pro Forma Financial Information

The following unaudited pro forma financial information was derived from the historical financial statements of the Company and inVentiv and presents the combined results of operations as if the Merger had occurred on January 1, 2016. The pro forma financial information is presented for comparative purposes only and is not necessarily indicative of the results that would have actually occurred had the Merger been completed on January 1, 2016. In addition, the unaudited pro forma financial information does not give effect to any anticipated cost savings, operating efficiencies or other synergies that may result from the Merger, or any estimated costs that have been or will be incurred by the Company to integrate the assets and operations of inVentiv. Consequently, actual future results of the Company will differ from the unaudited pro forma financial information presented.

	Three Months Ended September 30, 2017	Nine Months Ended September 30, 2017
	(In thousands, except per share data)	
Pro forma total revenue	\$1,025,942	\$3,145,253
Pro forma net loss	(85,223)	(77,925)
Pro forma loss per share:		
Basic	\$(0.82)	\$(0.75)
Diluted	\$(0.82)	\$(0.75)

The unaudited pro forma adjustments primarily relate to the depreciation of acquired property and equipment, amortization of acquired intangible assets and interest expense and amortization of deferred financing costs related to the new financing arrangements. In addition, the unaudited pro forma net loss for the three and nine months ended September 30, 2017 was adjusted to exclude \$68.2 million and \$90.9 million, respectively, net of tax effects, of nonrecurring merger-related transaction costs.

Kinapse Limited Acquisition

In August 2018, the Company completed its acquisition of Kinapse Topco Limited (“Kinapse”), a provider of advisory and operational solutions to the global life sciences industry. The total purchase consideration was \$100.1 million plus assumed debt and includes cash acquired of \$4.9 million. The Company recognized \$83.4 million of goodwill and \$57.3 million of intangible assets, principally customer relationships, as a result of the acquisition. The goodwill is not deductible for income tax purposes. The Company’s assessment of fair value and the purchase price allocation related to this acquisition is preliminary and further adjustments may be necessary as additional information related to the fair values of assets acquired and liabilities assumed is assessed during the measurement period (up to one year from the acquisition date).

The operating results from the Kinapse acquisition have been included in the Company’s Commercial Solutions segment from the date of acquisition. The unaudited pro forma financial information was not updated to include this acquisition as the impact would have been insignificant.

Table of Contents

4. Long-Term Debt Obligations

The Company's debt obligations consisted of the following (in thousands):

	September 30, 2018	December 31, 2017
Secured Debt		
Term Loan A due August 2022	\$ 981,250	\$ 1,000,000
Term Loan B due August 2024	1,251,000	1,550,000
Revolving credit facility due August 2022	—	—
Accounts receivable financing agreement due June 2020	183,600	—
Total secured debt	2,415,850	2,550,000
Unsecured Debt		
7.5% Senior Unsecured Notes due 2024	403,000	403,000
Total debt obligations	2,818,850	2,953,000
Add: unamortized Senior Notes premium, net of original issue debt discount	33,360	38,656
Less: unamortized deferred issuance costs	(14,529)	(20,722)
Less: current portion of debt	(62,050)	(25,000)
Total debt obligations, non-current portion	\$ 2,775,631	\$ 2,945,934

During the nine months ended September 30, 2018, the Company voluntarily prepaid \$299.0 million towards reducing its outstanding Term Loan B balance, which was applied against the regularly-scheduled quarterly principal payments. As a result, the Company is not required to make a mandatory payment against the Term Loan B principal balance until maturity in August 2024. Additionally, during the nine months ended September 30, 2018, the Company made mandatory principal repayments of \$18.8 million towards its Term Loan A and settled \$36.6 million of debt upon the closing of an acquisition.

Repricing Amendment to Credit Agreement

On May 4, 2018, the Company entered into Amendment No. 1 (the "Repricing Amendment") to the Credit Agreement dated August 1, 2017 (the "2017 Credit Agreement"), which, among other things, modified the terms of the 2017 Credit Agreement to: (i) reduce by 0.25% overall the applicable margins for alternate base rate ("Base Rate") loans and Adjusted Eurocurrency Rate ("Eurocurrency Rate") loans with respect to both Term Loan A and Term Loan B; and (ii) reset the period in which a prepayment premium with respect to Term Loan B is required for a "Repricing Transaction" (as defined in the Credit Agreement) to six months after the closing date of the Repricing Amendment.

The applicable margins with respect to Base Rate and Eurocurrency Rate borrowings are determined depending on the "First Lien Leverage Ratio" or the "Secured Net Leverage Ratio" (as defined in the Repricing Amendment) and range as follows:

	Base Rate	Eurocurrency Rate
Term Loan A	0.25% - 0.50%	1.25% - 1.50%
Term Loan B	0.75% - 1.00%	1.75% - 2.00%

Accounts Receivable Financing Agreement

On June 29, 2018 the Company entered into an accounts receivable financing agreement (as amended) with a termination date of June 29, 2020, unless terminated earlier pursuant to its terms. Under this agreement, certain of the Company's consolidated subsidiaries will sell accounts receivable and unbilled services (including contract assets) balances to a wholly-owned, bankruptcy-remote special purpose entity ("SPE"). The SPE can borrow up to \$250.0 million from a third-party lender, secured by liens on certain receivables and other assets of the SPE. The Company has guaranteed the performance of the obligations of existing and future subsidiaries that sell and service the accounts receivable under this

Table of Contents

agreement. The available borrowing capacity varies monthly according to the levels of the Company's eligible accounts receivable and unbilled receivables. Loans under this agreement will accrue interest at a reserve-adjusted LIBOR rate or a base rate equal to the highest of (i) the applicable lender's prime rate, and (ii) the federal funds rate plus 0.50%. The Company may prepay loans upon one business day prior notice and may terminate or reduce the facility limit of the accounts receivable financing agreement with 15 days' prior notice.

As of September 30, 2018, the Company had \$183.6 million of outstanding borrowings under the accounts receivable financing agreement, which is recorded in the "Current portion of long term debt" and "Long term debt, noncurrent" line items on the accompanying unaudited condensed consolidated balance sheet. The remaining maximum capacity available for borrowing under this agreement was \$66.4 million as of September 30, 2018.

5. Derivative Financial Instruments

In May 2016, the Company entered into interest rate swaps with a combined notional value of \$300.0 million in an effort to limit its exposure to variable interest rates on its Term Loans. Interest began accruing on the swaps on June 30, 2016 and a portion of the interest rate swaps expired on June 30, 2018, with the remainder expiring on May 14, 2020. As of September 30, 2018, the remaining notional value of these interest rate swaps was \$100.0 million.

In June 2018, the Company entered into two new interest rate swaps with multiple counterparties in an effort to limit its exposure to variable interest rates on its Term Loans. The first interest rate swap has an aggregate notional value of \$1.22 billion, began accruing interest on June 29, 2018, and will expire on December 31, 2018. As of September 30, 2018, the remaining notional value of this interest rate swap was \$1.07 billion. The second interest rate swap has an aggregate notional value of \$1.01 billion, an effective date of December 31, 2018, and will expire on June 30, 2021. The material terms of these derivatives are substantially the same as those contained within the 2017 Credit Agreement, including monthly settlements with the swap counterparty. Interest rate swaps are designated as hedging instruments. The amounts of hedge ineffectiveness recorded in net loss during the three and nine months ended September 30, 2018 and September 30, 2017 were insignificant and were attributable to inconsistencies in certain terms between the interest rate swaps and the 2017 Credit Agreement.

The Company became a party to certain foreign currency exchange rate forward contracts as a result of an acquisition that have expiration dates through April 2019. During the three and nine months ended September 30, 2018, the amount of loss recognized in other income (expense), net with respect to these contracts was inconsequential.

The fair values of the Company's derivative financial instruments and the line items on the accompanying unaudited condensed consolidated balance sheets to which they were recorded are as follows (in thousands):

	Balance Sheet Classification	September 30, December 31,	
		2018	2017
Foreign currency exchange rate swaps - current	Prepaid expenses and other current assets	\$ 138	\$ —
Interest rate swaps - current	Prepaid expenses and other current assets	\$ 1,640	\$ 916
Interest rate swaps - non-current	Other long-term assets	\$ 3,365	\$ 1,263
Interest rate swaps - current	Accrued liabilities	\$ (1,028) \$ —

Table of Contents

6. Fair Value Measurements

Assets and Liabilities Carried at Fair Value

As of September 30, 2018 and December 31, 2017, the Company's financial assets and liabilities carried at fair value included cash and cash equivalents, restricted cash, trading securities, billed and unbilled accounts receivable, contract assets, accounts payable, accrued liabilities, contract liabilities, assumed contingent obligations, capital leases, liabilities under the accounts receivable financing agreement, and derivative instruments.

The fair value of cash and cash equivalents, restricted cash, billed and unbilled accounts receivable, contract assets, accounts payable, accrued liabilities, contract liabilities, and the liabilities under the accounts receivable financing agreement approximates their respective carrying amounts because of the liquidity and short-term nature of these financial instruments.

Financial Instruments Subject to Recurring Fair Value Measurements

As of September 30, 2018, the fair values of the major classes of the Company's assets and liabilities measured at fair value on a recurring basis were as follows (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Trading securities	\$17,113	\$—	\$—	\$17,113
Derivative instruments	—	5,143	—	5,143
Total assets	\$17,113	\$5,143	\$—	\$22,256
Liabilities:				
Derivative instruments	\$—	\$1,028	\$—	\$1,028
Contingent obligations related to business combinations	—	—	58,530	58,530
Total liabilities	\$—	\$1,028	\$58,530	\$59,558

Table of Contents

As of December 31, 2017, the fair values of the major classes of the Company's assets and liabilities measured at fair value on a recurring basis were as follows (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Trading securities	\$16,318	\$—	\$—	\$16,318
Derivative instruments	—	2,179	—	2,179
Total assets	\$16,318	\$2,179	\$—	\$18,497
Liabilities:				
Contingent obligations related to business combinations	\$—	\$—	\$50,480	\$50,480
Total liabilities	\$—	\$—	\$50,480	\$50,480

The following table presents changes in the carrying amount of obligations classified as Level 3 category within the fair value hierarchy for the nine months ended September 30, 2018 (in thousands):

Balance at December 31, 2017	\$50,480
Additions	4,353
Changes in fair value recognized in earnings	3,697
Balance at September 30, 2018	\$58,530

During the nine months ended September 30, 2018, there were no transfers of assets or liabilities between Level 1, Level 2 or Level 3 fair value measurements.

Financial Instruments Subject to Non-Recurring Fair Value Measurements

Certain assets, including goodwill and identifiable intangible assets, are carried on the balance sheets at cost and, subsequent to initial recognition, are measured at fair value on a non-recurring basis when certain identified events or changes in circumstances that may have a significant adverse effect on the carrying values of these assets occur. These assets are classified as Level 3 fair value measurements within the fair value hierarchy. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate a triggering event has occurred. Intangible assets are tested for impairment upon the occurrence of certain triggering events. As of September 30, 2018 and December 31, 2017, assets subject to non-recurring fair value measurements totaled \$5.54 billion and \$5.58 billion, respectively.

Fair Value Disclosures for Debt Not Carried at Fair Value

The estimated fair value of the outstanding term loans and Senior Unsecured Notes is determined based on the price that the Company would have to pay to settle the liabilities. As these liabilities are not actively traded, they are classified as Level 2 fair value measurements. The estimated fair values of the Company's outstanding term loans and Senior Unsecured Notes were as follows (in thousands):

	September 30, 2018		December 31, 2017	
	Carrying Value (a)	Estimated Fair Value	Carrying Value (a)	Estimated Fair Value
Term Loan A due August 2022	\$979,333	\$981,250	\$1,000,000	\$1,000,000
Term Loan B due August 2024	\$1,249,673	\$1,251,000	\$1,548,149	\$1,550,000
7.5% Senior Unsecured Notes due 2024	\$439,604	\$429,195	\$443,507	\$433,729

(a) The carrying value of the term loan debt is shown net of original issue debt discounts. The carrying value of the 7.5% Senior Unsecured Notes is inclusive of unamortized premiums.

Table of Contents

7. Restructuring and Other Costs

Merger-Related Restructuring

In connection with the Merger, the Company established a restructuring plan to eliminate redundant positions and reduce its facility footprint worldwide. The Company expects to continue the ongoing evaluations of its workforce and facilities infrastructure needs through 2020 in an effort to optimize its resources. During the nine months ended September 30, 2018, the Company recognized approximately: (i) \$13.2 million of employee severance and benefits related costs; (ii) \$20.6 million of facility closure and lease termination costs; and (iii) \$0.5 million of other costs related to the Merger. Over the next several years, the Company expects to incur significant costs related to the restructuring of its operations in order to achieve targeted synergies from the Merger. The timing and the amount of these costs and related benefits may differ significantly from current management's estimates and depends on various factors, including, but not limited to, identifying and realizing synergy opportunities and executing the integration of the Company's operations.

Other Restructuring

During the nine months ended September 30, 2018, the Company incurred \$1.4 million of facility closure and lease termination costs related to the Company's pre-Merger activities aimed at optimizing its resources worldwide. Additionally, during the nine months ended September 30, 2018, the Company recognized: (i) approximately \$3.2 million of consulting costs related to the restructuring of its contract management processes to meet the requirements of the newly adopted revenue recognition accounting standard; (ii) \$1.7 million of employee severance and benefits related costs; and (iii) \$1.0 million of other restructuring costs.

Accrued Restructuring Liabilities

The following table summarizes activity related to the liabilities associated with restructuring and other costs during the nine months ended September 30, 2018 (in thousands):

	Employee Severance Costs, Including Executive Transition Costs	Facility Closure and Lease Termination Costs	Other Costs	Total
Balance at December 31, 2017	\$ 8,858	\$ 7,411	\$ 524	\$ 16,793
Expenses incurred ^(a)	14,829	18,633	4,148	37,610
Cash payments made	(18,208)	(5,301)	(4,594)	(28,103)
Balance at September 30, 2018	\$ 5,479	\$ 20,743	\$ 78	\$ 26,300

^(a) The amount of expenses incurred presented in the reconciliation of accrued restructuring liabilities excludes \$4.0 million of non-cash restructuring and other expenses incurred for the nine months ended September 30, 2018 because these expenses were not subject to accrual prior to the period in which they were incurred.

The Company expects that substantially all of the employee severance costs accrued as of September 30, 2018 will be paid within the next twelve months. Certain facility costs will be paid over the remaining terms of exited facility leases, which range from 2018 through 2027. Liabilities associated with these costs are included in the "Accrued liabilities" and "Other long-term liabilities" line items in the accompanying unaudited condensed consolidated balance sheets. Restructuring and other costs included in net loss for the three and nine months ended September 30, 2018 are presented in the "Restructuring and other costs" line item in the unaudited condensed consolidated statements of operations.

Table of Contents

8. Shareholders' Equity

2018 Stock Repurchase Program

On February 26, 2018, the Company's Board of Directors authorized the repurchase of up to an aggregate of \$250.0 million of the Company's common stock, par value \$0.01 per share, to be executed from time to time in open market transactions effected through a broker at prevailing market prices, in block trades or through privately negotiated transactions ("2018 stock repurchase program"). The 2018 stock repurchase program commenced on March 1, 2018 and will end no later than December 31, 2019. The Company intends to use cash on hand and future operating cash flow to fund the stock repurchase program.

The 2018 stock repurchase program does not obligate the Company to repurchase any particular amount of the Company's common stock and may be modified, extended, suspended, or discontinued at any time. The timing and amount of repurchases will be determined by the Company's management based on a variety of factors such as the market price of the Company's common stock, the Company's corporate requirements for cash, and overall market conditions. The stock repurchase program will be subject to applicable legal requirements, including federal and state securities laws. The Company may also repurchase shares of its common stock pursuant to a trading plan meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, which would permit shares of the Company's common stock to be repurchased when the Company might otherwise be precluded from doing so by law.

In March 2018, the Company repurchased 948,100 shares of its common stock in open market transactions at an average price of \$39.55 per share, resulting in a total purchase price of approximately \$37.5 million. In April 2018, the Company repurchased 1,024,400 shares of its common stock in open market transactions at an average price of \$36.60 per share, resulting in a total purchase price of approximately \$37.5 million. The Company immediately retired all of the repurchased common stock and charged the par value of the shares to common stock. The excess of the repurchase price over par was applied on a pro rata basis against additional paid-in-capital, with the remainder applied to accumulated deficit.

As of September 30, 2018, the Company has remaining authorization to repurchase up to approximately \$175.0 million of shares of its common stock under the 2018 stock repurchase program.

9. Share-Based Compensation

Restricted Stock Unit Award Activity

The following table summarizes the Restricted Stock Unit ("RSU") activity during the nine months ended September 30, 2018:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2017	907,580	\$ 49.30
Granted	1,897,581	\$ 38.55
Vested	(242,315)	\$ 48.53
Forfeited	(295,697)	\$ 45.10
Non-vested at September 30, 2018	2,267,149	\$ 40.93

At September 30, 2018, total unrecognized compensation expense related to unvested RSUs was \$67.4 million, which is expected to be recognized over a weighted average period of 2.2 years.

Table of Contents

2018 Performance-Based RSU Awards

During 2018, the Compensation Committee of the Company's Board of Directors granted performance-based RSU awards ("PRSUs") to certain executive officers. The total target number of PRSUs granted was 198,382 which will vest in a percentage ranging from 0% to 150% depending on the level of achievement of the performance targets. Each award is scheduled to cliff-vest approximately three years from the grant date and consists of three equal tranches with each tranche being conditional upon: (i) the attainment of performance targets related to the Company's revenue growth for fiscal years 2018, 2019, and 2020; and (ii) the continued employment and service of the employee from the grant date through the date when determination of the target attainment level for the last performance period is made. The Company recognizes share-based compensation expense for PRSUs when attainment of each performance target becomes probable.

Share-based Compensation Expense

The total amount of share-based compensation expense recognized in the unaudited condensed consolidated statements of operations was as follows (in thousands):

Statement of Operations Classification	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Direct costs	\$5,216	\$5,388	\$14,540	\$11,055
Selling, general, and administrative expenses	4,575	2,165	11,414	8,546
Restructuring and other costs	—	—	91	—
Transaction and integration-related expenses	—	31,327	—	31,327
Total share-based compensation expense	\$9,791	\$38,880	\$26,045	\$50,928

10. Earnings Per Share

Basic earnings per share is computed based on the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed based on the weighted average number of common shares outstanding plus the effect of dilutive potential common shares outstanding during the period. A reconciliation of the numerators and denominators of the basic and diluted per share computations of weighted average common shares outstanding based on the Company's consolidated net loss is as follows (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Numerator:				
Net loss			\$(10,394)	\$(147,998)
Denominator:				
Basic weighted average common shares outstanding	103,012	87,152	103,453	65,097
Effect of dilutive securities:				
Stock options and other awards under deferred share-based compensation programs	—	—	—	—
Diluted weighted average common shares outstanding	103,012	87,152	103,453	65,097
Loss per share:				
Basic	\$(0.10)	\$(1.70)	\$(0.21)	\$(1.90)
Diluted	\$(0.10)	\$(1.70)	\$(0.21)	\$(1.90)

Table of Contents

Potential common shares outstanding that are considered antidilutive are excluded from the computation of diluted earnings per share. Potential common shares related to stock options and other awards under deferred share-based compensation programs may be determined to be antidilutive based on the application of the treasury stock method. Potential common shares are also considered antidilutive in the event of a net loss from operations.

The number of potential shares outstanding that were considered antidilutive using the treasury stock method and therefore excluded from the computation of diluted earnings per share, weighted for the portion of the period they were outstanding are as follows (in thousands):

	Three Months Ended September 30, 2018		Nine Months Ended September 30, 2017	
Anti-dilutive stock options and other awards	335	126	1,224	488
Anti-dilutive stock options and other awards under deferred share-based compensation programs excluded based on reporting a net loss for the period	1,621	1,534	1,208	1,275
Total common stock equivalents excluded from diluted earnings per share computation	1,956	1,660	2,432	1,763

11. Income Taxes

Income Tax Expense

For the three and nine months ended September 30, 2018, the Company recorded income tax expense of \$12.0 million and \$19.1 million, compared to pre-tax income of \$1.6 million and pre-tax loss of \$2.3 million, respectively. The effective tax rate for the three and nine months ended September 30, 2018 varied from the U.S. federal statutory income tax rate of 21.0% primarily due to: (i) the recognition of unfavorable discrete adjustments related to foreign currency exchange; (ii) the geographical split of pre-tax income; and (iii) deferred expense related to hanging credits on domestic indefinite-lived intangibles.

For the three and nine months ended September 30, 2017, the Company recorded an income tax expense of \$26.1 million and \$30.2 million, respectively, compared to pre-tax losses of \$121.9 million and \$93.2 million, respectively. The Company's effective tax rate for the three and nine months ended September 30, 2017 varied from the U.S. federal statutory income tax rate of 35.0% primarily due to: (i) a discrete tax expense related to a change in the Company's method of accounting for undistributed foreign earnings; (ii) the relative amount of income from operations earned in international jurisdictions with lower statutory income tax rates than the United States; and (iii) discrete tax adjustments related to excess tax benefits on share-based compensation.

Unrecognized Tax Benefits

The Company's gross unrecognized tax benefits, exclusive of associated interest and penalties, were \$19.7 million and \$43.7 million as of September 30, 2018 and December 31, 2017, respectively. The decrease of \$24.0 million was primarily due to: (i) audit settlements in the United States and foreign jurisdictions, of which \$1.4 million decreased tax expense; and (ii) remeasurement of acquired positions in relation to the Merger with inVentiv. The Company anticipates that during the next 12 months the unrecognized tax benefits will decrease by approximately \$0.1 million.

Table of Contents

Tax Cuts and Jobs Act of 2017

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (“Tax Act”). The Tax Act made broad and complex changes to the U.S. tax code, including requiring companies to pay a one-time transition tax on certain undistributed earnings of foreign subsidiaries. The deemed repatriation transition tax (“Transition Tax”) is a tax on previously untaxed accumulated and current earnings and profits (“E&P”) of the Company’s foreign subsidiaries. The Company was able to reasonably estimate the Transition Tax and recorded a provisional tax expense of \$63.1 million for the year ended December 31, 2017. During the nine months ended September 30, 2018, the Company completed its accounting for the effects of the Transition Tax, with the exception of the state tax effects. On the basis of revised E&P computations that were completed during the reporting period, the final Transition Tax is \$61.5 million. Due to the valuation allowance on the federal deferred tax assets, this decrease in the Transition Tax did not affect the 2018 effective tax rate for the period.

12. Revenue from Contracts with Customers

Service Revenue

The Company adopted ASC 606 - Revenue from Contracts with Customers and all related amendments (“new revenue standard” or “ASC 606”) on January 1, 2018 using the modified retrospective method for all contracts not completed as of the date of adoption. The reported results for the three and nine months ended September 30, 2018 reflect the application of ASC 606, while the reported results for the three and nine months ended September 30, 2017 were prepared under ASC 605 - Revenue Recognition and other authoritative guidance in effect for those periods. In accordance with ASC 606, revenue is now recognized when, or as, a customer obtains control of promised services. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for these services.

A performance obligation is a promise (or a combination of promises) in a contract to transfer distinct goods or services to a customer and is the unit of accounting under ASC 606 for the purposes of revenue recognition. A contract’s transaction price is allocated to each separate performance obligation based upon the standalone selling price and is recognized as revenue, when, or as, the performance obligation is satisfied. The majority of the Company’s contracts have a single performance obligation because the promise to transfer individual services is not separately identifiable from other promises in the contracts, and therefore, is not distinct. For contracts with multiple performance obligations, the contract’s transaction price is allocated to each performance obligation using the best estimate of the standalone selling price of each distinct good or service in the contract.

The majority of the Company’s revenue arrangements are service contracts that range in duration from a few months to several years. Substantially all of the Company’s performance obligations, and associated revenue, are transferred to the customer over time. The Company generally receives compensation based on measuring progress toward completion using anticipated project budgets for direct labor and prices for each service offering. The Company is also reimbursed for certain third party pass-through and out-of-pocket costs. In addition, in certain instances a customer contract may include forms of variable consideration such as incentive fees, volume rebates or other provisions that can increase or decrease the transaction price. This variable consideration is generally awarded upon achievement of certain performance metrics, program milestones or cost targets. For the purposes of revenue recognition, variable consideration is assessed on a contract-by-contract basis and the amount to be recorded is estimated based on the assessment of the Company’s anticipated performance and consideration of all information that is reasonably available. Variable consideration is recognized as revenue if and when it is deemed probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved in the future.

Most of the Company’s contracts can be terminated by the customer without cause with a 30-day notice. In the event of termination, the Company’s contracts generally provide that the customer pay the Company for: (i) fees earned through the termination date; (ii) fees and expenses for winding down the

Table of Contents

project, which include both fees incurred and actual expenses; (iii) non-cancellable expenditures; and (iv) in some cases, a fee to cover a portion of the remaining professional fees on the project. The Company's long term clinical trial contracts contain implied substantive termination penalties because of the significant wind-down cost of terminating a clinical trial. These provisions for termination penalties result in these types of contracts being treated as long-term for revenue recognition purposes.

Changes in the scope of work are common, especially under long-term contracts, and generally result in a renegotiation of future contract pricing terms and change in contract transaction price. If the customer does not agree to a contract modification, the Company could bear the risk of cost overruns. Most of the Company's contract modifications are for services that are not distinct from the services under the existing contract due to the significant integration service provided in the context of the contract and therefore result in a cumulative catch-up adjustment to revenue at the date of contract modification.

Contract Assets and Liabilities

Contract assets include unbilled amounts typically resulting from revenue recognized in excess of the amounts billed to the customer for which the right to payment is subject to factors other than the passage of time. These amounts may not exceed their net realizable value. Contract assets are generally classified as current. Contract liabilities consist of customer payments received in advance of performance and billings in excess of revenue recognized, net of revenue recognized from the balance at the beginning of the period. Contract assets and liabilities are presented on the balance sheet on a net contract-by-contract basis at the end of each reporting period.

Capitalized Costs

The Company capitalizes certain costs associated with commissions and bonuses paid to its employees in the Clinical Solutions segment because these costs are incurred in obtaining contracts that have a term greater than one year. Capitalized costs are included in the "Prepaid expenses and other current assets" and "Other long-term assets" line items of the accompanying unaudited condensed consolidated balance sheets. The Company amortizes these costs in a manner that is consistent with the pattern of revenue recognition described below. The Company expenses obtainment costs for contracts that have a term of one year or less.

Additionally, certain recruiting and training costs within the selling solutions services offering are incurred prior to deployment of the contract field promotion teams that are reimbursed by the customer. These costs are capitalized and amortized ratably from the deployment date through the end of the accounting contract term. Capitalized costs and the related amortization are as follows (in thousands):

		September 30, 2018
Capitalized costs incurred to obtain or fulfill contracts with customers		\$ 19,003
	Three Months Ended September 30, 2018	Nine Months Ended September 30, 2018
Amortization of capitalized costs	\$ 5,209	\$ 12,911

Clinical Solutions

The Company's Clinical Solutions segment provides solutions to address the clinical development needs of customers. The Company provides biopharmaceutical program development services through the Full Service Clinical Development ("Full Service") platform, discrete services for any part of a customer clinical trial through a Functional Service Provider ("FSP") offering, Early Stage services, and Real World and Late Phase ("RWLP") services. The services provided via the Full Service and RWLP platforms generally span several years and a significant benefit to the customer is provided by integrating those services provided by the Company's employees as well as those performed by third parties.

Table of Contents

Because the Company provides a significant benefit to the customer of integrating the services provided by the Full Service offering, there is one performance obligation for revenue recognition purposes. Revenue is recognized over time using an input measure of progress. The input measure reflects costs (including investigator payments and pass-through costs) incurred to date relative to total estimated costs to complete (“cost-to-cost measure of progress”). Under the cost-to-cost measure of progress methodology, revenue is recorded proportionally to costs incurred. Contract costs principally include direct labor, investigator payments, and pass-through costs.

The remaining service offerings within the Clinical Solutions segment are generally short-term, month-to-month contracts, time and materials basis contracts, or provide a series of distinct services that are substantially the same and have the same pattern of transfer to the customer (“series”). As such, revenue for these service offerings is generally recognized as services are performed for the amount the Company estimates it is entitled to for the period, similar to the pattern of recognition under ASC 605. For contracts billed on a fixed price basis, revenue is recognized over time based on the proportion of labor costs expended to total labor costs expected to complete the contract performance obligation.

The estimate of total revenue and costs at completion requires significant judgment. Contract estimates are based on various assumptions to project future outcomes of events that often span several years. These estimates are reviewed periodically and any adjustments are recognized on a cumulative catch up basis in the period they become known.

Unsatisfied Performance Obligations

As of September 30, 2018, the total aggregate transaction price allocated to the unsatisfied performance obligations under contracts with a contract term greater than one year and which are not accounted for as a series pursuant to ASC 606 was \$5.22 billion. This amount includes revenue associated with reimbursable out-of-pocket expenses. The Company expects to recognize revenue over the remaining contract term of the individual projects, with contract terms generally ranging from one to five years. The amount of unsatisfied performance obligations is presented net of any constraints and as a result, is lower than the potential contractual revenue. Specifically, contracts that do not commence within a certain period of time require the Company to undertake numerous activities to fulfill these performance obligations, including various activities that are outside of the Company’s control. Accordingly, such contracts have been excluded from the unsatisfied performance obligations balance presented above.

Commercial Solutions

The Company’s Commercial Solutions segment provides a broad suite of complementary commercialization services including selling solutions, communications (advertising and public relations), and consulting services. The largest of the service offerings within the Commercial Solutions segment relates to selling solutions. Selling solutions contracts are comprised of a single performance obligation that represents a series of daily outsourced detailing services to promote and sell commercial products on behalf of a customer.

The remaining Commercial Solutions contracts are generally short-term, month-to-month contracts or time and materials contracts. As such, Commercial Solutions revenue is generally recognized as services are performed for the amount the Company estimates it is entitled to for the period, similar to the pattern of recognition under ASC 605. For contracts billed on a fixed price basis, revenue is recognized over time based on the proportion of labor costs expended to total labor costs expected to complete the contract performance obligation.

Pass-through and out-of-pocket costs are recognized in service revenue in the unaudited condensed consolidated income statement as incurred. Certain media purchases and the related reimbursements are recorded on a net basis in the unaudited condensed consolidated income statement as such activities are controlled by the customer.

Table of Contents

The Commercial Solutions segment does not have material unsatisfied performance obligations that are required to be disclosed under ASC 606 because the contracts are short-term in nature or represent a series pursuant to ASC 606.

Timing of Billing and Performance

Differences in the timing of revenue recognition and associated billings and cash collections result in recording of billed accounts receivable, unbilled accounts receivable, contract assets and contract liabilities on the unaudited condensed consolidated balance sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms either at periodic intervals or upon achievement of contractual milestones. Billings generally occur subsequent to revenue recognition, resulting in recording of: (i) unbilled accounts receivable in instances where the right to bill is contingent solely on the passage of time (e.g., in the following month); and (ii) contract assets in instances where the right to bill is associated with a contingency (e.g., achievement of a milestone). Cash payments received in advance of the Company's performance result in recording of contract liabilities, which are liquidated as revenue is recognized.

Contract assets and liabilities are recorded net on a contract-by-contract basis at the end of each reporting period. During the three and nine months ended September 30, 2018, the Company recognized approximately \$363.7 million and \$481.8 million, respectively, of revenue that was included in the contract liabilities balance at the beginning of the period. In order to determine revenue recognized in the period from contract liabilities, the Company first allocates revenue to the individual contract liability balance outstanding at the beginning of the period until the revenue exceeds that balance. During the three and nine months ended September 30, 2018, approximately \$2.9 million and \$(6.1) million of the Company's revenue recognized was allocated to performance obligations partially satisfied in previous periods and predominately related to changes in scope and estimates in full service clinical studies. Changes in the contract assets and liabilities balances during the three and nine months ended September 30, 2018 were not materially impacted by any other factors.

Impact of Adopting ASC 606

The Company adopted ASC 606 using the modified retrospective method. The cumulative effect of applying the new guidance to all contracts with customers that were not completed as of January 1, 2018 was recorded as an adjustment to accumulated deficit as of the adoption date, with the impact primarily related to the performance obligations related to the Full Service customer clinical trials in the Clinical Solutions segment.

Table of Contents

As a result of applying the modified retrospective method to adopt the new accounting guidance, the following adjustments were made to the unaudited condensed consolidated balance sheet as of January 1, 2018 (in thousands):

	As Reported December 31, 2017	Adjustments ASC 606 Adoption	Adjusted January 1, 2018

Table of Contents

The following is a summary of the significant changes in the Company's unaudited condensed consolidated statement of operations as a result of adopting ASC 606 on January 1, 2018, compared to the amounts as if the Company had continued to report its results under ASC 605:

ASC 606 delayed the recognition of revenue principally related to Full Service customer clinical trials in the Company's Clinical Solutions segment for the three and nine months ended September 30, 2018 as revenue was previously recognized when contractual items (i.e. "units") were delivered or on a proportional performance basis, generally using output measures of progress specific to the services provided, such as site or investigator recruitment, patient enrollment and data management. These measures excluded reimbursed investigator payments, other pass-through costs, and out-of-pocket expenses, which were recognized as incurred and presented separately as a component of total revenue in the unaudited condensed consolidated statement of operations. Pursuant to the adoption of ASC 606, the majority of revenue recognized related to Full Service customer clinical trials is accounted for using project costs as an input measure of progress, and includes reimbursable pass-through costs and out-of-pocket expenses.

ASC 606 delayed the recognition of revenue in the Company's Commercial Solutions segment for the nine months ended September 30, 2018 as certain costs to recruit and train the contract field promotion teams, and revenue for the related reimbursements, are deferred and amortized over the contract term under ASC 606. These amounts were previously recognized as each separate service was delivered to the customer. These delays were partially offset by the acceleration of revenue recognition on certain incentive fee programs that were previously recognized upon customer approval. For the three months ended September 30, 2018 the recognition of revenue under ASC 606 and ASC 605 was comparatively similar.

Table of Contents

The following table compares the reported unaudited condensed consolidated balance sheet as of September 30, 2018 to the amounts as if the previous revenue recognition guidance remained in effect as of September 30, 2018 (in thousands):

	September 30, 2018

Table of Contents

The following is a summary of the significant changes in the Company's unaudited condensed consolidated balance sheets as a result of adopting ASC 606 on January 1, 2018, compared to the amounts as if the Company had continued to report its results under ASC 605:

The reported assets were greater than the total assets that would have been reported had the prior revenue recognition guidance remained in effect. This was largely due to the deferral of certain recruiting and training costs in Commercial Solutions contracts and capitalized sales commissions. The reported liabilities were greater than the total liabilities that would have been reported had the prior revenue recognition guidance remained in effect. This was largely due to advances and deferred revenue in excess of contract assets that are required to be presented net on a contract-by-contract basis.

The adoption of ASC 606 primarily resulted in a revenue recognition delay as of January 1, 2018, which resulted in an increase of the Company's deferred tax asset position. As the Company records full reserves for its net federal deferred tax assets in the United States, a portion of the impact was offset by a corresponding increase to the valuation allowance against the deferred tax asset position.

The adoption of ASC 606 had no net impact on the Company's cash flows from operations.

13. Segment Information

During the third quarter of 2017, the Company realigned its operating segments as a result of the Merger to reflect the current structure under which performance is evaluated, strategic decisions are made and resources are allocated. As a result of this realignment, effective August 1, 2017, the Company began evaluating its financial performance based on two reportable segments: Clinical Solutions and Commercial Solutions. Historical segment reporting has been revised to reflect these changes to the Company's segment structure.

Each reportable business segment comprises multiple similar service offerings that, when combined, create a fully integrated biopharmaceutical outsourcing solutions organization. Clinical Solutions offers a variety of services spanning Phase I to Phase IV of clinical development, including full-service global studies, as well as individual service offerings such as clinical monitoring, investigator recruitment, patient recruitment, data management, and study startup to assist customers with their drug development process. Commercial Solutions provides commercialization services to the pharmaceutical, biotechnology, and healthcare industries, which include outsourced selling solutions, communication solutions (public relations and advertising), and consulting related services.

The Company's Chief Operating Decision Maker ("CODM") reviews segment performance and allocates resources based upon segment revenue and income from operations. Beginning in 2018, as a result of the Company's adoption of ASC 606, revenue and costs for reimbursed out-of-pocket expenses are allocated to the Company's segments. Prior to 2018, revenue and costs for reimbursed out-of-pocket expenses were not allocated to the Company's segments.

Inter-segment revenue is eliminated from the segment reporting presented to the CODM and is not included in the segment revenue presented in the table below. Certain costs are not allocated to the Company's reportable segments and are reported as general corporate expenses. These costs primarily consist of share-based compensation and general operating expenses associated with the Company's senior leadership, finance, Board of Directors, investor relations, and internal audit functions. The Company does not allocate depreciation, amortization, restructuring, or transaction and integration-related costs to its segments. Additionally, the CODM reviews the Company's assets on a consolidated basis and the Company does not allocate assets to its reportable segments as they are not included in the review performed by the CODM for purposes of assessing segment performance or allocating resources.

Table of Contents

Information about reportable segment operating results is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017

Table of Contents

14. Operations by Geographic Location

The Company conducts its global operations through wholly-owned subsidiaries and representative sales offices. Prior to the Merger, service revenue was attributed to geographical locations based upon the location to which the Company invoiced the end customer. Following the Merger, the Company began to attribute service revenues to geographical locations based upon the location of where the work is performed to reflect its expanded geographic presence and increased scale of operations. All prior periods have been recast to reflect the effect of this change.

The following table summarizes information about revenue by geographic area (in thousands and with all intercompany transactions eliminated):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2018	2017	2018	2017
Revenue:				
North America ^(a)	\$761,414	\$386,466	\$2,219,725	\$676,759
Europe, Middle East, and Africa	232,916	135,347	693,874	295,452
Asia-Pacific	97,726	56,421	269,353	98,862
Latin America	22,862	13,973	61,692	31,299
Total service revenue	1,114,918	592,207	3,244,644	1,102,372
Reimbursable-out-of-pocket expenses	—	230,121	—	493,009
Total revenue	\$1,114,918	\$822,328	\$3,244,644	\$1,595,381

(a) Service revenue for the North America region includes revenue attributable to the United States of \$718.0 million and \$370.5 million, or 64.4% and 62.6% of total service revenue, for the three months ended September 30, 2018 and September 30, 2017, respectively. Service revenue for the North America region includes revenue attributable to the United States of \$2,104.8 million and \$646.8 million, or 64.9% and 58.7% of total service revenue, for the nine months ended September 30, 2018 and September 30, 2017, respectively. No other country represented more than 10% of service revenue for any period.

Long-lived assets by geographic area for each period were as follows (in thousands and all intercompany transactions have been eliminated):

	September 30, December 31,	
	2018	2017
Property and equipment, net:		
North America ^(a)	\$ 129,588	\$ 136,101
Europe, Middle East and Africa	28,871	25,517
Asia-Pacific	12,862	14,700
Latin America	3,807	4,094
Total property and equipment, net	\$ 175,128	\$ 180,412

(a) Long-lived assets for the North America region include property and equipment, net attributable to the United States of \$123.5 million and \$128.5 million as of September 30, 2018 and December 31, 2017, respectively.

15. Concentration of Credit Risk

The Company maintains cash depository accounts with several financial institutions worldwide and is exposed to credit risk related to the potential inability to access liquidity in financial institutions where its cash and cash equivalents are concentrated. The Company has not historically incurred any losses with respect to these balances and believes that they bear minimal credit risk.

As of September 30, 2018, the amount of cash and cash equivalents held outside the United States by the Company's foreign subsidiaries was \$77.5 million, or approximately 59% of the total consolidated cash and cash equivalents balance. As of December 31, 2017, the amount of cash and cash equivalents

Table of Contents

held outside the United States by the Company's foreign subsidiaries was \$192.0 million, or approximately 60% of the total consolidated cash and cash equivalents balance.

During the three and nine months ended September 30, 2018, one customer accounted for approximately 12% and 11%, respectively, of the Company's service revenue (including reimbursable out-of-pocket expenses as a result of the adoption of ASC 606 described in "Note 12 - Revenue from Contracts with Customers"). During the three months ended September 30, 2017, one customer accounted for 10% of the Company's service revenue. No single customer accounted for greater than 10% of the Company's service revenue for the nine months ended September 30, 2017.

As of September 30, 2018 and December 31, 2017, one customer accounted for approximately 13% of the Company's billed accounts receivable, unbilled accounts receivable, and contract assets balances.

16. Related-Party Transactions

For the three and nine months ended September 30, 2018, the Company incurred reimbursable out-of-pocket expenses of \$1.6 million and \$2.8 million, respectively, for professional services obtained from two providers, one whose significant shareholder was also a significant shareholder of the Company and the other whose member of the Board of Directors was also a member of the Company's Board of Directors. Additionally, at September 30, 2018 the Company had liabilities of \$1.0 million included in the "Accounts Payable" and "Accrued Liabilities" line items on the unaudited condensed consolidated balance sheets associated with these related parties. For the three and nine months ended September 30, 2017, the Company incurred reimbursable out-of-pocket expenses of \$0.2 million for professional services obtained from a provider whose significant shareholder was also a significant shareholder of the Company.

No material related-party revenue was recorded for the three and nine months ended September 30, 2018 or 2017.

17. Commitments and Contingencies

Self-Insurance Reserves

The Company is self-insured for certain losses relating to health insurance claims for the majority of its employees located within the United States. Additionally, the Company maintains certain self-insurance retention limits related to automobile and workers' compensation insurance. As of September 30, 2018 and December 31, 2017, the total accrual for self-insurance reserves was \$17.2 million and \$16.6 million, respectively.

Assumed Contingent Tax-Sharing Obligations

As a result of the Merger, the Company assumed contingent tax-sharing obligations arising from inVentiv's 2016 merger with Double Eagle Parent, Inc. As of September 30, 2018 and December 31, 2017, the estimated fair value of the assumed contingent tax-sharing obligations was \$54.1 million and \$50.5 million, respectively. For additional information, refer to "Note 3 - Business Combinations."

Contingent Earn-out Liability

In connection with the Kinapse acquisition, the Company recorded a contingent earn out liability to be paid based on Kinapse meeting revenue targets as of March 31, 2021. The fair value of the earn out liability is remeasured at the end of each reporting period, with changes in the estimated fair value reflected in earnings until the liability is settled. The estimated fair value of the contingent earn out liability was \$4.5 million as of September 30, 2018 and is included in the "Other long-term liabilities" line item of the accompanying unaudited condensed consolidated balance sheets. For additional information, refer to "Note 3 - Business Combinations."

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statements

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q and with our audited consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

In addition to historical condensed consolidated financial information, the following discussion contains forward-looking statements that reflect, among other things, our current expectations and anticipated results of operations, all of which are subject to known and unknown risks, uncertainties, and other factors that may cause our actual results, performance or achievements, market trends, or industry results to differ materially from those expressed or implied by such forward-looking statements. Therefore, any statements contained herein that are not statements of historical fact may be forward-looking statements and should be evaluated as such. Without limiting the foregoing, the words “anticipates,” “believes,” “estimates,” “expects,” “intends,” “may,” “plans,” “projects,” “should,” “targets” the negative thereof, and similar words and expressions are intended to identify forward-looking statements. Unless legally required, we assume no obligation to update any such forward-looking information to reflect actual results or changes in the factors affecting such forward-looking information.

We caution you that any such forward-looking statements are further qualified by important factors that could cause our actual operating results to differ materially from those in the forward-looking statements, including without limitation, regional, national, or global political, economic, business, competitive, market, and regulatory conditions and the following: the need to hire, develop, and retain key personnel; the impact of unfavorable economic conditions, including the uncertain international economic environment, changes in exchange rates, and effective income tax rate fluctuations; the impact of potentially underpricing our contracts, overrunning our cost estimates, or failing to receive approval for or experiencing delays with documentation of change orders; any adverse effects from customer or therapeutic area concentration; our potential failure to generate a large number of new business awards and the risk of delay, termination, reduction in scope, or failure to go to contract of our business awards; our potential failure to convert backlog to revenue; the cyber-security and other risks associated with our information systems infrastructure; risks associated with the integration of our business with the business of inVentiv and our operation of the combined business following the closing of the Merger; the risks associated with doing business internationally; the impact of adoption of the new accounting standard of recognizing revenue from customers; impact of the Tax Act; our potential failure to successfully increase our market share, grow our business, and execute our growth strategies; our failure to perform our services in accordance with contractual requirements, regulatory standards, and ethical considerations; the risk of litigation and personal injury claims; the risks associated with potential future acquisitions or investments in our customers’ businesses or drugs; the impact of changes in government regulations and healthcare reform; and the cost of and our ability to service our substantial indebtedness. For a further discussion of the risks relating to our business, refer to “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Overview of Our Business and Services

Syneos Health, Inc. (the “Company,” “we,” “us,” and “our”) is a leading global biopharmaceutical services organization comprised of an end-to-end clinical contract research organization (“CRO”) and contract commercial organization (“CCO”). We offer both standalone and integrated biopharmaceutical development and commercialization services ranging from Phase I to Phase IV clinical trial services to services associated with the commercialization of biopharmaceutical products. Our customers include small, mid-sized, and large companies in the pharmaceutical, biotechnology, and medical device industries, and our revenue is derived through a broad suite of services designed to enhance our customers’ ability to successfully develop, launch, and market their products. We consistently and

Table of Contents

predictably deliver our services in a complex environment and offer a proprietary, operational approach to the delivery of our projects through our Trusted Process® methodology.

On August 1, 2017, we completed a merger (the “Merger”) with Double Eagle Parent, Inc. (“inVentiv”), the parent company of inVentiv Health, Inc. under the terms of the merger agreement, dated May 10, 2017 (the “Merger Agreement”). Upon closing, inVentiv was merged with and into us, and the separate corporate existence of inVentiv ceased. Refer to further discussion in “Note 3 - Business Combinations” to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional details on the Merger.

Following the Merger, we realigned our operating segments to reflect the current structure under which we evaluate our performance, make strategic decisions, and allocate resources. As a result of this realignment, effective August 1, 2017, we began managing our business through two reportable segments: Clinical Solutions and Commercial Solutions.

Our Clinical Solutions segment offers a variety of services spanning Phase I to Phase IV of clinical development, including full-service global studies, as well as individual service offerings such as clinical monitoring, investigator recruitment, patient recruitment, data management, and study startup to assist customers with their drug development process. Our Commercial Solutions segment provides the pharmaceutical, biotechnology, and healthcare industries with commercialization services including outsourced selling solutions, communication solutions (public relations and advertising), and consulting services. Our management reviews segment performance and allocates resources based upon segment revenue and segment operating income. Historical segment reporting has been revised to reflect these changes to our segment structure. Prior to the Merger, our Commercial Solutions segment consisted solely of a consulting offering. Refer to further discussion in “Note 13 - Segment Information” to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

For financial information regarding revenue and long-lived assets by geographic area, refer to “Note 14 - Operations by Geographic Location” to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

New Business Awards and Backlog

We add new business awards to backlog when we enter into a contract or when we receive a written commitment from the customer selecting us as a service provider, provided that:

- the customer has received appropriate internal funding approval and collection of the award value is probable;
- the project or projects are not contingent upon completion of another trial or event;
- the project or projects are expected to commence within a certain period of time from the end of the quarter in which the award was granted;
- the customer has entered or intends to enter into a comprehensive contract as soon as practicable; and
- for awards related to our FSP offering, only a maximum of twelve months of services are included.

In addition, we continually evaluate our backlog to determine if any of the previously awarded work is no longer expected to be performed, regardless of whether we have received formal cancellation notice from the customer. If we determine that any previously awarded work is no longer probable of being performed, we remove the value from our backlog based on the risk of cancellation. We recognize revenue from these awards as services are performed, provided we have entered into a contractual commitment with the customer.

Table of Contents

We currently report new business awards for our Clinical Solutions and Commercial Solutions segments and backlog for our Clinical Solutions segment and the selling solutions service offering within our Commercial Solutions segment. We do not currently report backlog data for the remaining service offerings in the Commercial Solutions segment.

Beginning on January 1, 2018 we adopted the ASC 606 revenue recognition standard and as a result, we no longer present service revenue and revenue associated with reimbursable out-of-pocket expenses separately in the statements of operations as, under ASC 606, they represent a single performance obligation and separate presentation is no longer permitted. However, revenue associated with reimbursable out-of-pocket expenses represents expenses which are passed through and reimbursed by our customers at actual cost. These expenses fluctuate significantly from period to period based on the timing of program initiation or closeout and the mix of program complexity, and therefore anticipated timing associated with this type of revenue is not predictable. As a result, we have not adjusted our backlog or net new business awards information included below to incorporate revenue associated with reimbursable out-of-pocket expenses and have instead presented these metrics as if the previous accounting guidance (ASC 605) had been in effect.

Backlog

Our backlog consists of anticipated future fee revenue from business awards that either have not started but are anticipated to begin in the future (as noted above), or that are in process and have not been completed. Our backlog also reflects any cancellation or adjustment activity related to these contracts. The average duration of our contracts will fluctuate from period to period in the future based on the contracts comprising our backlog at any given time. The majority of our contracts can be terminated by the customer with a 30-day notice.

The following table sets forth backlog as of the following dates under ASC 605 (in millions):

	Balance at			
	September 30,			
	2018	2017	Change	
Clinical Solutions	\$4,220.6	\$3,711.7	\$508.9	13.7%
Commercial Solutions - Selling Solutions ^(a)	460.3	—	460.3	n/m
Total Backlog	\$4,680.9	\$3,711.7	\$969.2	26.1%

^(a) Following our Merger with inVentiv and beginning January 1, 2018, we began reporting information related to backlog associated with the selling solutions service offering within our Commercial Solutions segment. This information is not presented for periods prior to 2018.

Included in backlog at September 30, 2018 is approximately \$664.2 million that we expect to recognize as service revenue in 2018. We adjust the amount of our backlog each quarter for the effects of fluctuations in foreign currency exchange rates.

We believe that our backlog and net new business awards might not be consistent indicators of future revenue because they have been, and likely will be, affected by a number of factors, including the variable size and duration of projects, many of which are performed over several years, and cancellations and changes to the scope of work during the course of projects. Additionally, projects may be canceled or delayed by the customer or regulatory authorities. We generally do not have a contractual right to the full amount of the awards reflected in our backlog. If a customer cancels an award, we generally have the right to be reimbursed for the costs we have incurred. As we increasingly compete for and enter into large contracts that are more global in nature, we expect that the duration of projects and the period over which related revenue is recognized to lengthen, and therefore expect that the rate at which our backlog and net new business awards convert into revenue is likely to decrease. In addition, our adoption of the new revenue recognition standard in 2018 may result in delays in revenue recognition. For more information about risks related to our backlog refer to Part I, Item 1A "Risk Factors—Risks Related to Our Business—Our backlog might not be indicative of our future revenues, and we might not realize all of the anticipated future revenue reflected in our backlog" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Table of Contents

Net new business awards

The following table sets forth new business awards, net of cancellations of prior awards under ASC 605 (in millions):

	Three Months Ended September 30, 2018		Nine Months Ended September 30, 2018	
Clinical Solutions	\$676.0	\$578.3	\$2,075.6	\$1,213.4
Commercial Solutions	244.2	—	772.4	—
Total net new business awards	\$920.2	\$578.3	\$2,848.0	\$1,213.4

Net new business awards for our Clinical Solutions segment were higher during the three and nine months ended September 30, 2018, primarily due to the Merger. Effective January 1, 2018, we began reporting information related to net new business awards associated with our Commercial Solutions segment. This information is not presented for periods prior to 2018.

New business awards have varied and may continue to vary significantly from quarter to quarter. Fluctuations in our net new business award levels often result from the fact that we may receive a small number of relatively large orders in any given reporting period. Because of these large orders, our backlog and net new business awards in a reporting period may reach levels that are not sustainable in subsequent reporting periods.

Results of Operations

The following table sets forth amounts from our unaudited condensed consolidated financial statements along with the percentage changes (in thousands, except percentages):

	Three Months Ended September 30,		Change	
	2018	2017		
Service revenue	\$1,114,918	\$592,207	\$522,711	88.3 %

Loss before provision for income taxes	(2,328)	(93,205)	90,877	97.5 %
Income tax expense	(19,058)	(30,217)	11,159	36.9 %
Net loss	\$(21,386)	\$(123,422)	\$102,036	82.7 %

Service Revenue

For the three months ended September 30, 2018, our service revenue increased by \$522.7 million, or 88.3%, to \$1.11 billion from \$592.2 million for the three months ended September 30, 2017. For the nine months ended September 30, 2018, our service revenue increased by \$2.14 billion, or 194.3%, to \$3.24 billion from \$1.10 billion for the nine months ended September 30, 2017.

As a result of adopting the new revenue recognition standard on January 1, 2018, we no longer present service revenue and revenue associated with reimbursable out-of-pocket expenses separately in the statements of operations as, under the new revenue recognition standard, they represent a single performance obligation and separate presentation is no longer permitted. The inclusion of revenue associated with reimbursable out-of-pocket expenses in service revenue in 2018 contributed to approximately 56.2% and 85.3%, respectively, of the increases to service revenue for the three and nine months ended September 30, 2018. Service revenue for the three and nine months ended September 30, 2018 was comprised of fee revenue of \$782.3 million and \$2.30 billion, and revenue associated with reimbursable out-of-pocket expenses of \$332.6 million and \$940.9 million, respectively. Comparatively, service revenue, which represents fee revenue only, for the three and nine months ended September 30, 2017 was \$592.2 million and \$1.10 billion, respectively. Revenue associated with reimbursable out-of-pocket expenses for the three and nine months ended September 30, 2017 was \$230.1 million and \$493.0 million, respectively.

For the three and nine months ended September 30, 2018, our service revenue increased compared to the same period in the prior year primarily as a result of: (i) the inclusion of revenue associated with reimbursable out-of-pocket expenses as a component of service revenue in 2018, as discussed above; and (ii) the Merger with inVentiv in August 2017. These increases were partially offset by: (i) unfavorable impacts from adoption of ASC 606 of \$5.2 million and \$40.3 million, respectively; (ii) a less favorable revenue mix in our Clinical Solutions segment during the three months ended September 30, 2018; and (iii) reductions in revenue of approximately \$2.9 million and \$10.5 million, respectively, due to the fair value adjustments required by purchase accounting.

Table of Contents

During the three and nine months ended September 30, 2018, one customer accounted for approximately 12% and 11%, respectively, of our service revenue (which includes revenue associated with reimbursable out-of-pocket expenses as a result of our adoption of ASC 606). During the three months ended September 30, 2017, one customer accounted for 10% of our service revenue. No single customer accounted for greater than 10% of our service revenue for the nine months ended September 30, 2017. Service revenue from our top five customers accounted for approximately 25% of total consolidated service revenue for both the three months ended September 30, 2018 and 2017, respectively. Service revenue from our top five customers accounted for approximately 25% and 23% of total consolidated service revenue for the nine months ended September 30, 2018 and 2017, respectively.

Service revenue for each of our segments was as follows (in thousands, except percentages):

	Three Months Ended September 30,					
	2018	% of total	2017	% of total	Change	
Clinical Solutions	\$819,203	73.5%	\$432,780	73.1%	\$386,423	89.3%
Commercial Solutions	295,715	26.5%	159,427	26.9%	136,288	85.5%
Total service revenue	\$1,114,918		\$592,207		\$522,711	88.3%
	Nine Months Ended September 30,					
	2018	% of total	2017	% of total	Change	
Clinical Solutions	\$2,389,955	73.7%	\$937,781	85.1%	\$1,452,174	154.9%
Commercial Solutions	854,689	26.3%	164,591	14.9%	690,098	419.3%
Total service revenue	\$3,244,644		\$1,102,372		\$2,142,272	194.3%

Clinical Solutions

Our Clinical Solutions segment is a leading global CRO that is therapeutically-focused and offers a variety of clinical development services spanning Phase I to Phase IV, including full-service global studies, as well as unbundled service offerings such as clinical monitoring, investigator recruitment, patient recruitment, data management, and study startup to assist customers with their drug development process. For the three and nine months ended September 30, 2018, our Clinical Solutions segment generated service revenue of \$819.2 million and \$2.39 billion, representing approximately 73.5% and 73.7%, respectively, of our total service revenue in the period. For the three and nine months ended September 30, 2017, our Clinical Solutions segment generated service revenue of \$432.8 million and \$937.8 million, representing approximately 73.1% and 85.1%, respectively, of our total service revenue in the period. For the three and nine months ended September 30, 2018, our service revenue attributable to the Clinical Solutions segment increased compared to the same period in the prior year primarily due to: (i) the Merger with inVentiv in August 2017; and (ii) the inclusion of revenue associated with reimbursable out-of-pocket expenses as a component of service revenue in 2018 according to the requirements of the new revenue recognition standard as discussed above. This increase was partially offset by a less favorable revenue mix during the three months ended September 30, 2018.

Table of Contents

Commercial Solutions

Our Commercial Solutions segment is a leading provider of a full suite of complementary commercialization services, including outsourced field selling solutions, medication adherence, communications (public relations and advertising), and consulting services. For the three and nine months ended September 30, 2018, our Commercial Solutions segment generated service revenue of \$295.7 million and \$854.7 million, representing approximately 26.5% and 26.3%, respectively, of total service revenue for the period. For the three and nine months ended September 30, 2017, our Commercial Solutions segment generated service revenue of \$159.4 million and \$164.6 million, representing approximately 26.9% and 14.9%, respectively, of total service revenue for the period.

For the three months ended September 30, 2018, our Commercial Solutions service revenue increased compared to the same periods in the prior year due to the Merger with inVentiv in August 2017. Additionally during the third quarter of 2018, our service revenue associated with this segment increased on a comparative basis to amounts reported by inVentiv in periods prior to the merger.

For the nine months ended September 30, 2018, our Commercial Solutions service revenue increased on a comparative basis due to the Merger. However, service revenue associated with this segment declined on a year-over-year basis compared to the amounts reported by inVentiv in periods prior to the Merger, primarily as a result of project cancellations and customer downsizing within our selling solutions and communications service offerings, along with lower new business awards in 2017 that reduced 2018 revenue.

Direct Costs and Reimbursable Out-of-Pocket Expenses

Direct costs and reimbursable out-of-pocket expenses were comprised of the following (in thousands, except percentages):

	Three Months Ended September 30,			Change	
	2018 ^(a)	2017 ^(b)			
Direct costs (exclusive of depreciation and amortization)	\$539,570	\$405,798	\$133,772	33.0%	
Reimbursable out-of-pocket expenses	332,644	230,121	102,523	44.6%	
Total direct costs and reimbursable out-of-pocket expenses	\$872,214	\$635,919	\$236,295	37.2%	
Percentage of service revenue	78.2	% 68.5	%		
Gross margin percentage	21.8	% 31.5	%		
	Nine Months Ended September 30,			Change	
	2018 ^(a)	2017 ^(b)			
Direct costs (exclusive of depreciation and amortization)	\$1,619,620	\$722,643	\$896,977	124.1%	
Reimbursable out-of-pocket expenses	940,882	493,009	447,873	90.8%	
Total direct costs and reimbursable out-of-pocket expenses	\$2,560,502	\$1,215,652	\$1,344,850	110.6%	
Percentage of service revenue	78.9	% 65.6	%		
Gross margin percentage	21.1	% 34.4	%		

^(a) As a result of the adoption of the new revenue recognition standard on January 1, 2018, we allocate reimbursable out-of-pocket expenses to our gross margin and the related revenue percentage.

^(b) Prior to the adoption of the new revenue standard on January 1, 2018, reimbursable out-of-pocket expenses were not included in our calculation of gross margin and the related revenue percentage.

Table of Contents

Direct Costs

Direct costs consist principally of compensation and benefits expenses associated with our employees and other employee-related costs. While we can manage the majority of these costs relative to the amount of contracted services we have during any given period, direct costs as a percentage of service revenue may vary from period to period. Such fluctuations are due to a variety of factors, including, among others: (i) the level of staff utilization created by our ability to effectively manage our workforce, (ii) adjustments to the timing of work on specific customer contracts, (iii) the experience mix of personnel assigned to projects, and (iv) the service mix and pricing of our contracts. In addition, as global projects wind down or as delays and cancellations occur, staffing levels in certain countries or functional areas can become misaligned with the current business volume.

For the three months ended September 30, 2018, our direct costs increased by \$133.8 million, or 33.0%, to \$539.6 million from \$405.8 million for the three months ended September 30, 2017. For the nine months ended September 30, 2018, our direct costs increased by \$897.0 million, or 124.1%, to \$1.62 billion from \$722.6 million for the nine months ended September 30, 2017. These increases were primarily driven by the Merger with inVentiv which increased our worldwide employee base by approximately 15,000 employees in August 2017, resulting in an overall increase in direct costs compared to the prior year, primarily related to salaries, benefits, and incentive compensation expense.

The following is a summary of the year-over-year fluctuation in components of direct costs (in thousands):

	Three Months Ended September 30, 2018 to 2017	Nine Months Ended September 30, 2018 to 2017
Change in:		
Salaries, benefits, and incentive compensation	\$ 107,206	\$ 765,507
Facilities and IT related costs	25,650	75,372
Other	916	56,098
Total	\$ 133,772	\$ 896,977

Reimbursable Out-of-Pocket Expenses

Reimbursable out-of-pocket expenses represent expenses typically not associated with our services which are passed through and reimbursed by our customers at actual cost. Such expenses are incurred within both our clinical and commercial businesses and are generally comprised of: (i) physician and investigator fees, project management, data management and other site-facing study costs; (ii) travel-related expenses; (iii) certain compensation and bonuses of sales representatives and other project team personnel; and (iv) various vendor and third-party fees related to meetings, transportation, sales, marketing, communication, training, storage and other miscellaneous project expenses. These expenses fluctuate significantly from period to period based on the timing of program initiation or closeout and the mix of program complexity, and do not necessarily change in direct correlation to fee revenue.

For the three months ended September 30, 2018, reimbursable out-of-pocket expenses increased by \$102.5 million, or 44.6%, as compared to the three months ended September 30, 2017. For the nine months ended September 30, 2018, reimbursable out-of-pocket expenses increased by \$447.9 million, or 90.8%, as compared to the nine months ended September 30, 2017. These increases were primarily due to the Merger with inVentiv, which resulted in the increase in the number of studies in which these expenses are incurred.

Table of Contents

Clinical Solutions

Direct costs and reimbursable out-of-pocket expenses for our Clinical Solutions segment, excluding share-based compensation expense, were as follows (in thousands, except percentages):

	Three Months Ended				
	September 30,				
	2018 ^(a)	2017 ^(b)	Change		
Direct costs	\$352,049	\$284,872	\$67,177	23.6	%
Reimbursable out-of-pocket expenses	281,209	—	281,209	n/m	
Total segment direct costs and reimbursable out-of-pocket expenses	\$633,258	\$284,872	\$348,386	122.3	%
Percentage of segment service revenue	77.3	% 65.8	%		
Segment gross margin percentage	22.7	% 34.2	%		
	Nine Months Ended				
	September 30,				
	2018 ^(a)	2017 ^(b)	Change		
Direct costs	\$1,063,019	\$591,383	\$471,636	79.8	%
Reimbursable out-of-pocket expenses	794,604	—	794,604	n/m	
Total segment direct costs and reimbursable out-of-pocket expenses	\$1,857,623	\$591,383	\$1,266,240	214.1	%
Percentage of segment service revenue	77.7	% 63.1	%		
Segment gross margin percentage	22.3	% 36.9	%		

^(a) As a result of the adoption of the new revenue recognition standard on January 1, 2018, we allocate reimbursable out-of-pocket expenses to our operating segments.

^(b) Prior to the adoption of the new revenue standard on January 1, 2018, reimbursable out-of-pocket expenses were not allocated to operating segments and therefore are not presented in segment disclosures for periods prior to 2018. For the three months ended September 30, 2018 and 2017, direct costs associated with our Clinical Solutions segment were \$352.0 million and \$284.9 million, or 65.9% and 71.1%, respectively, of segment direct costs. For the three months ended September 30, 2018, Clinical Solutions direct costs increased by \$67.2 million, or 23.6%, as compared to the three months ended September 30, 2017. For the nine months ended September 30, 2018 and 2017, direct costs associated with our Clinical Solutions segment were \$1.06 billion and \$591.4 million, or 66.2% and 83.1%, respectively, of segment direct costs. For the nine months ended September 30, 2018, Clinical Solutions direct costs increased by \$471.6 million, or 79.8%, as compared to the nine months ended September 30, 2017. The increases in direct costs associated with our Clinical Solutions segment during 2018 compared to the prior year were primarily due to the overall increase in personnel costs as a result of the Merger.

For the three and nine months ended September 30, 2018, reimbursable out-of-pocket expenses associated with our Clinical Solutions segment were \$281.2 million and \$794.6 million, representing approximately 84.5% and 84.5%, respectively, of the total reimbursable out-of-pocket expenses for the period.

Clinical Solutions gross margin was 22.7% and 22.3% for the three and nine months ended September 30, 2018, respectively, compared to 34.2% and 36.9% for the three and nine months ended September 30, 2017, respectively. Gross margin declined during the three and nine months ended September 30, 2018 compared to the same periods in 2017 primarily due to: (i) inclusion of revenue associated with reimbursable out-of-pocket expenses as a component of service revenue in 2018, which accounted for approximately 11.9% and 11.1%, respectively, of the decrease; (ii) the elimination, due to purchase accounting requirements, of \$2.9 million and \$9.7 million, respectively, of revenue from 2018 results that otherwise would have been recognized by inVentiv; and (iii) the mix of customers and service offerings added as a result of the Merger having lower gross margin profile compared to our historical mix of customers and services. Specifically, inVentiv's Clinical Solutions business has historically had a higher proportion of contracts from the top 20 biopharmaceutical companies and a higher proportion of FSP

Table of Contents

services revenue, both of which typically have a lower margin profile than our historical mix of customers and services.

Commercial Solutions

Direct costs and reimbursable out-of-pocket expenses for our Commercial Solutions segment, excluding share-based compensation expense, were as follows (in thousands, except percentages):

	Three Months Ended				
	September 30,				
	2018 ^(a)	2017 ^(b)	Change		
Direct costs	\$182,305	\$115,538	\$66,767	57.8	%
Reimbursable out-of-pocket expenses	51,435	—	51,435	n/m	
Total segment direct costs and reimbursable out-of-pocket expenses	\$233,740	\$115,538	\$118,202	102.3	%
Percentage of segment service revenue	79.0	% 72.5	%		
Segment gross margin percentage	21.0	% 27.5	%		
	Nine Months Ended				
	September 30,				
	2018 ^(a)	2017 ^(b)	Change		
Direct costs	\$542,061	\$120,205	\$421,856	350.9	%
Reimbursable out-of-pocket expenses	146,278	—	146,278	n/m	
Total segment direct costs and reimbursable out-of-pocket expenses	\$688,339	\$120,205	\$568,134	472.6	%
Percentage of segment service revenue	80.5	% 73.0	%		
Segment gross margin percentage	19.5	% 27.0	%		

^(a) As a result of the adoption of the new revenue recognition standard on January 1, 2018, we allocate reimbursable out-of-pocket expenses to our operating segments.

^(b) Prior to the adoption of the new revenue standard on January 1, 2018, reimbursable out-of-pocket expenses were not allocated to operating segments and therefore are not presented in segment disclosures for fiscal periods prior to 2018.

For the three months ended September 30, 2018 and 2017, direct costs associated with our Commercial Solutions segment were \$182.3 million and \$115.5 million, representing approximately 34.1% and 28.9%, respectively, of segment direct costs for the period. For the nine months ended September 30, 2018 and 2017, direct costs associated with our Commercial Solutions segment were \$542.1 million and \$120.2 million, representing approximately 33.8% and 16.9%, respectively, of segment direct costs for the period. The increases in direct costs associated with our Commercial Solutions segment during 2018 compared to the prior year were primarily due to the 2017 Merger with inVentiv.

For the three and nine months ended September 30, 2018, reimbursable out-of-pocket expenses associated with our Commercial Solutions segment were \$51.4 million and \$146.3 million, representing approximately 15.5% and 15.5%, respectively, of total reimbursable out-of-pocket expenses for the period.

The Commercial Solutions gross margin was 21.0% for the three months ended September 30, 2018, compared to 27.5% for the three months ended September 30, 2017. The Commercial Solutions gross margin was 19.5% for the nine months ended September 30, 2018, compared to 27.0% for the nine months ended September 30, 2017.

Table of Contents

Selling, General, and Administrative Expenses

Selling, general, and administrative expenses were as follows (in thousands, except percentages):

	Three Months Ended			
	September 30,			
	2018	2017	Change	
Selling, general, and administrative	\$96,943	\$88,855	\$8,088	9.1 %
Percentage of service revenue	8.7 %	15.0 %		
	Nine Months Ended			
	September 30,			
	2018	2017	Change	
Selling, general, and administrative	\$296,420	\$176,320	\$120,100	68.1 %
Percentage of service revenue	9.1 %	16.0 %		

Selling, general, and administrative expenses increased by \$8.1 million, or 9.1%, to \$96.9 million for the three months ended September 30, 2018 from \$88.9 million for the three months ended September 30, 2017. Selling, general, and administrative expenses increased by \$120.1 million, or 68.1%, to \$296.4 million for the nine months ended September 30, 2018 from \$176.3 million for the nine months ended September 30, 2017. These increases were primarily due to the Merger with inVentiv in August 2017 and the corresponding increase to our employee base by approximately 15,000 employees, resulting in an overall increase in expenses.

The following is a summary of the year-over-year fluctuation in components of selling, general, and administrative expenses (in thousands):

	Three Months Ended September 30, 2018 to 2017	Nine Months Ended September 30, 2018 to 2017
Change in:		
Salaries, benefits, and incentive compensation	\$ 7,337	\$ 76,562
Professional services fees	5,297	30,243
Other expenses	(4,546)	13,295
Total	\$ 8,088	\$ 120,100

Selling, general, and administrative expenses as a percentage of service revenue were 8.7% for the three months ended September 30, 2018, compared to 15.0% for the three months ended September 30, 2017. Selling, general, and administrative expenses as a percentage of service revenue were 9.1% for the nine months ended September 30, 2018, compared to 16.0% for the nine months ended September 30, 2017. Of the decrease from the comparable periods in the prior year, approximately 3.7% and 3.8%, respectively, related to the inclusion of reimbursable out-of-pocket expenses as a component of service revenue in 2018 as required by the new revenue recognition standard, while the primary driver was economies of scale resulting from the Merger and our cost containment efforts.

Table of Contents

Restructuring and Other Costs

Restructuring and other costs increased to \$19.3 million for the three months ended September 30, 2018 from \$6.7 million for the three months ended September 30, 2017. Restructuring and other costs increased to \$41.6 million for the nine months ended September 30, 2018 from \$12.6 million for the nine months ended September 30, 2017.

Restructuring and other costs consisted of the following (in thousands):

	Three Months Ended September 30, 2018		Nine Months Ended September 30, 2017	
Merger-related restructuring and other costs:				
Employee severance and benefit costs ^(a)	\$ 1,936	\$ 3,016	\$ 13,229	\$ 3,016
Facility and lease termination costs ^(b)	15,794	—	20,592	—
Other merger-related costs	33	—	548	—
Non-merger related restructuring and other costs:				
Employee severance and benefit costs	713	2,474	1,690	5,640
Facility and lease termination costs	—	147	1,438	1,174
Consulting fees ^(c)	695	492	3,176	1,266
Other costs	178	541	974	1,530
Total restructuring and other costs	\$ 19,349	\$ 6,670	\$ 41,647	\$ 12,626

^(a) In connection with the Merger, we established a restructuring plan to eliminate redundant positions and reduce our facility footprint worldwide. We expect to continue our ongoing evaluations of our workforce and facilities infrastructure needs through 2020 in an effort to optimize our resources worldwide.

^(b) We also expect to incur significant costs related to the restructuring of our operations in order to achieve the targeted synergies as a result of the Merger over the next several years. However, the timing and the estimate of the amount of these costs depends on various factors, including, but not limited to, the identification of synergy opportunities and the execution of the integration of our combined operations.

^(c) Consulting costs incurred were related to the continued consolidation of our legal entities and restructuring of our contract management process to meet the requirements of the new revenue recognition accounting standard adopted on January 1, 2018.

Table of Contents

Transaction and Integration-Related Expenses

Transaction and integration-related expenses decreased to \$18.6 million for the three months ended September 30, 2018 from \$84.3 million for the three months ended September 30, 2017. Transaction and integration-related expenses decreased to \$61.8 million for the nine months ended September 30, 2018 from \$108.1 million for the nine months ended September 30, 2017. Transaction and integration-related expenses consisted of the following (in thousands):

	Three Months		Nine Months	
	Ended September		Ended September	
	30,	30,	30,	2017
	2018	2017	2018	2017
Professional fees	\$14,851	\$32,519	\$40,624	\$51,086
Share-based compensation expense	—	31,327	—	31,327
Debt modification and related expenses	409	5,255	1,726	5,255
Integration and personnel retention-related costs ^(a)	2,107	12,472	15,847	17,644
Contingent tax-sharing obligations fair value adjustment	1,194	—	3,582	—
Other	—	2,767	25	2,769
Total transaction and integration-related expenses	\$18,561	\$84,340	\$61,804	\$108,081

^(a) In connection with the Merger, we entered into retention agreements with certain key employees. During the nine months ended September 30, 2018 we recognized \$8.9 million of expenses related to these retention agreements compared to \$10.7 million and \$15.8 million, respectively, during the three and nine months ended September 30, 2017. Payments under these agreements were fully expensed and made to employees in May 2018.

We expect to incur additional integration-related expenses associated with the Merger. The timing and amount of these expenses will depend on the identification of synergy opportunities and the timing and execution of our integration activities.

Asset Impairment Charges

There were no asset impairment charges recorded during the three or nine months ended September 30, 2018.

In connection with the Merger, we relaunched our operations under a new brand name in January 2018. As a result, we determined that the useful life of the intangible asset related to the INC Research trademark that had a carrying value of \$35.0 million was no longer indefinite as of August 1, 2017. Based on this change in circumstances, we tested the asset for impairment as an indefinite-lived intangible asset and recorded a \$30.0 million impairment charge during the three months ended September 30, 2017, with the remaining value fully amortized as of December 31, 2017.

Depreciation and Amortization Expense

Total depreciation and amortization expense increased to \$68.0 million for the three months ended September 30, 2018 from \$65.4 million for the three months ended September 30, 2017. Total depreciation and amortization expense increased to \$203.6 million for the nine months ended September 30, 2018 from \$96.6 million for the nine months ended September 30, 2017. These increases were primarily due to: (i) an increase in amortization expense related to the recognition of intangible assets as part of the Merger; and (ii) an increase in depreciation expense due to assets obtained in the Merger and our continued investment in information technology and facilities to support growth in our operational capabilities and optimization of our infrastructure.

Total other expense, net	\$(38,228)	\$(32,986)	\$(5,242)	(15.9)%
	Nine Months Ended			
	September 30,			
	2018	2017	Change	
Interest income	\$3,498	\$765	\$2,733	357.3 %
Interest expense	(97,727)	(33,818)	(63,909)	(189.0)%
Loss on extinguishment of debt	(3,914)	(102)	(3,812)	n/m
Other income (expense), net	15,101	(16,164)	31,265	193.4 %
Total other expense, net	\$(83,042)	\$(49,319)	\$(33,723)	(68.4)%

Total other expense, net increased to net expense of \$38.2 million for the three months ended September 30, 2018 from net expense of \$33.0 million for the three months ended September 30, 2017. Total other expense, net increased to net expense of \$83.0 million for the nine months ended September 30, 2018 from net expense of \$49.3 million for the nine months ended September 30, 2017. The increases were predominantly related to an increase in interest expense due to higher debt balances as a result of the Merger and an increase in debt extinguishment costs due to our debt prepayment activities during 2018. Partially offsetting these increases were lower foreign exchange losses incurred during the third quarter of 2018 and net foreign exchange gains in the nine months ended September 30, 2018, compared to the same periods in 2017. Changes related to foreign currency adjustments were a result of exchange rate fluctuations related to monetary asset balances denominated in currencies other than functional currency. We may continue to incur large fluctuations in foreign currency adjustments during future periods as changes in foreign currencies against the U.S. dollar may create gains or losses to the extent that our subsidiaries who use local currency as their functional currency maintain net assets and liabilities balances not denominated in their functional currency.

Income Tax Expense

For the three and nine months ended September 30, 2018, we recorded income tax expense of \$12.0 million and \$19.1 million, compared to pre-tax income of \$1.6 million and pre-tax loss of \$2.3 million, respectively. Variances between effective income tax rate and the statutory income tax rate of 21.0% for the three and nine months ended September 30, 2018 were primarily due to: (i) the recognition of unfavorable discrete adjustments related to foreign currency exchange; (ii) the geographical split of pre-tax income; and (iii) deferred expense related to hanging credits on domestic indefinite-lived intangibles.

For the three and nine months ended September 30, 2017, income tax expense was \$26.1 million and \$30.2 million, respectively, compared to pre-tax loss of \$121.9 million and \$93.2 million, respectively. Variances between our effective income tax rate and the statutory income tax rate of 35.0% for the three and nine months ended September 30, 2017 were primarily due to: (i) discrete tax expense related to a change in our method of accounting for undistributed foreign earnings; (ii) relative amount of income from operations earned in international jurisdictions with lower statutory income tax rates than the United States; and (iii) discrete tax adjustments related to excess tax benefits on share-based compensation.

Table of Contents

Net Loss

For the three months ended September 30, 2018, net loss decreased by \$137.6 million to \$10.4 million from \$148.0 million for the three months ended September 30, 2017. This decrease in net loss was primarily due to an increase in income from operations due to the Merger with inVentiv in August 2017. Also contributing to the decrease in net loss for three months ended September 30, 2018 were foreign currency exchange gains driven by strengthening of the U.S. dollar in 2018 as compared to 2017. These favorable items were partially offset by an increase in interest expense due to higher debt balances in 2018.

For the nine months ended September 30, 2018, net loss decreased to \$21.4 million compared to \$123.4 million for the nine months ended September 30, 2017. Our net loss for the nine months ended September 30, 2018 was primarily impacted by an increase in other expense, net, due to the increased interest expense as a result of higher debt balances during the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017, partially offset by foreign currency exchange gains during 2018 compared to losses in 2017.

Liquidity and Capital Resources

Key measures of our liquidity are as follows (in thousands):

	September 30, 2018	December 31, 2017
Balance sheet statistics:		
Cash and cash equivalents ^(a)	\$ 132,402	\$ 321,262
Working capital (excluding restricted cash)	\$ (42,889)	\$ 261,903

^(a) As of September 30, 2018 and December 31, 2017, cash and cash equivalents held by our foreign subsidiaries were \$77.5 million and \$192.0 million, respectively. A portion of these cash and cash equivalent balances may be subject to foreign withholding and U.S. taxation, if repatriated.

As of September 30, 2018, we had \$132.4 million of cash and cash equivalents. In addition, we had \$485.6 million (net of \$14.4 million in outstanding letters of credit) available for borrowing under our \$500.0 million revolving credit facility.

We have historically funded our operations and growth, including acquisitions, primarily with our working capital, cash flow from operations and funds available through various borrowing arrangements. Our principal liquidity requirements are to fund our debt service obligations, capital expenditures, expansion of service offerings, possible acquisitions, integration and restructuring costs, geographic expansion, working capital, and other general corporate expenses. Based on the past performance and current expectations, we believe our cash and cash equivalents, cash generated from operations, and funds available under our revolving credit facility and accounts receivable financing agreement will be sufficient to meet our working capital needs, capital expenditures, scheduled debt and interest payments, income tax obligations and other currently anticipated liquidity requirements for at least the next 12 months.

Indebtedness

At September 30, 2018, we had approximately \$2.86 billion of total principal indebtedness (including \$38.2 million of capital leases), comprised of \$2.23 billion in term loan debt, \$403.0 million in Senior Notes, and \$183.6 million in borrowings against the accounts receivable financing agreement. In addition, as of September 30, 2018 we had \$485.6 million (net of \$14.4 million in outstanding letters of credit) of available borrowings for working capital and other purposes under the Revolver and \$1.1 million of letters of credit that were not secured by the Revolver. During the nine months ended September 30, 2018, we made voluntary prepayments of \$299.0 million, which were applied against the regularly-scheduled quarterly principal payments of the Term Loan B. As a result of these prepayments, we are not required to make a mandatory payment against the Term Loan B principal balance until maturity in August 2024.

Table of Contents

Additionally, during the nine months ended September 30, 2018, we made mandatory principal payments of \$18.8 million towards our Term Loan A.

Interest Rates

In May 2018, we entered into Amendment No. 1 (the “Repricing Amendment”) to the Credit Agreement dated August 1, 2017. The Repricing Amendment reduced the overall applicable margins with respect to both Term Loan A and Term Loan B by 0.25%.

Additionally, in June 2018, we entered into two new interest rate swaps with multiple counterparties in an effort to limit our exposure to variable interest rates on our Term Loans. The first interest rate swap has an aggregate notional value of \$1.22 billion, began accruing interest on June 29, 2018, and will expire on December 31, 2018. The second interest rate swap has an aggregate notional value of \$1.01 billion, an effective date of December 31, 2018, and will expire on June 30, 2021. As a result, the percentage of the our total principal debt (excluding capital leases) that is subject to fixed interest rates was approximately 56% at September 30, 2018. Each quarter-point increase or decrease in the applicable interest rate at September 30, 2018 would change our annual interest expense by approximately \$3.1 million.

Covenant restrictions under our Lease Agreement

The lease agreement for our new corporate headquarters in Morrisville, North Carolina includes a provision that requires us to issue a letter of credit in certain amounts to the landlord based on our debt rating issued by Moody’s Investors Service (or other nationally-recognized debt rating agency). As of September 30, 2018 (and through the date of this filing), our credit rating was Ba3. As such, no letter of credit is required through the date of this filing. Any letters of credit issued in accordance with the aforementioned requirements would be issued under our Revolver, and would reduce its available borrowing capacity by the same amount.

Our ability to make payments on our indebtedness and to fund planned capital expenditures and necessary working capital will depend on our ability to generate cash in the future. Our ability to meet our cash needs through cash flows from operations will depend on the demand for our services, as well as general economic, financial, competitive, and other factors, many of which are beyond our control. Our business may not generate cash flow in an amount sufficient to enable us to pay the principal of, or interest on, our indebtedness, or to fund our other liquidity needs, including working capital, capital expenditures, acquisitions, investments, and other general corporate requirements. If we cannot fund our liquidity needs, we will have to take actions such as reducing or delaying capital expenditures, acquisitions or investments, selling assets, restructuring or refinancing our debt, reducing the scope of our operations and growth plans, or seeking additional capital. We cannot assure you that any of these remedies could, if necessary, be affected on commercially reasonable terms, or at all, or that they would permit us to meet our scheduled debt service obligations. Our 2017 Credit Agreement contains covenant restrictions that limit our ability to direct the use of proceeds from any disposition of assets and, as a result, we may not be allowed to use the proceeds from any such dispositions to satisfy all current debt service obligations.

Accounts Receivable Financing Agreement

On June 29, 2018 we entered into an accounts receivable financing agreement (as amended) with a termination date of June 29, 2020, unless terminated earlier pursuant to its terms. Under this agreement, we can borrow up to \$250.0 million from a third-party lender, secured by liens on certain receivables and other assets. As of September 30, 2018, we had \$183.6 million of outstanding borrowings under this agreement with a maximum remaining borrowing capacity available of \$66.4 million, which is limited by a periodic calculation of our available borrowing base.

Table of Contents

2018 Stock Repurchase Program

On February 26, 2018, our Board of Directors authorized the repurchase of up to an aggregate of \$250.0 million of our common stock, par value \$0.01 per share, to be executed from time to time in open market transactions effected through a broker at prevailing market prices, in block trades, or privately negotiated transactions. The stock repurchase program commenced on March 1, 2018 and will end no later than December 31, 2019. We intend to use cash on hand and future free cash flow to fund the stock repurchase program.

In March 2018, we repurchased 948,100 shares of our common stock in open market transactions at an average price of \$39.55 per share, resulting in a total purchase price of approximately \$37.5 million. In April 2018, we repurchased 1,024,400 shares of our common stock in open market transactions at an average price of \$36.60 per share, resulting in a total purchase price of approximately \$37.5 million. We immediately retired all of the repurchased common stock. As of September 30, 2018, we had remaining authorization to repurchase up to approximately \$175.0 million of shares of our common stock under the 2018 stock repurchase program.

We are not obligated to repurchase any particular amount of our common stock, and the stock repurchase program may be modified, extended, suspended or discontinued at any time. The timing and amount of repurchases is determined by our management based on a variety of factors such as our corporate requirements for cash, overall market conditions, and the market price of our common stock. The stock repurchase program will be subject to applicable legal requirements, including federal and state securities laws.

Cash and Cash Equivalents

Our cash flows from operating, investing, and financing activities were as follows (in thousands):

	Nine Months Ended		
	September 30, 2018	September 30, 2017	Change
Net cash provided by operating activities	\$ 191,000	\$ 109,746	\$ 81,254
Net cash used in investing activities	(133,853)	(1,706,427)	1,572,574
Net cash (used in) provided by financing activities	(246,677)	1,790,248	(2,036,925)

Cash Flows from Operating Activities

For the nine months ended September 30, 2018, our operating activities provided \$191.0 million in cash, consisting of net loss of \$21.4 million, adjusted for net non-cash items of \$221.2 million primarily related to depreciation and amortization expense, share-based compensation expense, and foreign currency adjustments. Cash used for changes in operating assets and liabilities was \$8.8 million, consisting primarily of cash outflows as a result of a net increase in accounts receivable, unbilled services, and advanced billings, partially offset by a decrease in other assets and liabilities.

For the nine months ended September 30, 2017, our operating activities provided \$109.7 million in cash, consisting of net loss of \$123.4 million, adjusted for net non-cash items of \$200.3 million primarily related to depreciation and amortization, share-based compensation, asset impairment charges and foreign currency adjustments. Additionally, cash provided by changes in operating assets and liabilities was \$32.9 million, consisting primarily of cash inflow as a result of a decrease in billed and unbilled accounts receivable, partially offset by an increase in deferred revenue and accounts payable and accrued expenses.

Cash flows from operations increased by \$81.3 million during the nine months ended September 30, 2018, compared to the nine months ended September 30, 2017, due to the year-over-year decrease in net loss of \$102.0 million and an increase in non-cash items of \$20.9 million largely due to the increase in depreciation and amortization expenses associated with the Merger. Partially offsetting this increase was

Table of Contents

a decrease in operating assets and liabilities of \$41.7 million compared to the prior year. The changes in operating assets and liabilities result primarily from the net change in billed and unbilled accounts receivable, contract assets and contract liabilities, coupled with changes in accounts payable and other long-term assets and liabilities.

Fluctuations in billed and unbilled receivables, contract assets and contract liabilities occur on a regular basis as we perform services, achieve milestones or other billing criteria, send invoices to customers and collect outstanding accounts receivable. This activity varies by individual customer and contract. We attempt to negotiate payment terms that provide for payment of services prior to or soon after the provision of services, but the levels of unbilled services, contract assets and contract liabilities can vary significantly from period to period.

As a result of our integration activities associated with the Merger and our acquisition activity, we incurred substantial expenses which negatively impacted our cash flow from operations. For example, during the nine months ended September 30, 2018, we incurred \$56.5 million of expenses which impacted our operating cash flows in the current period or will impact operating cash flows in the future. We anticipate that we will continue to incur similar costs related to our integration efforts for the next 12 to 18 months.

Cash Flows from Investing Activities

For the nine months ended September 30, 2018, we used \$133.9 million in cash for investing activities. In particular, we paid \$90.9 million, net of cash acquired for an acquisition and incurred capital expenditures related to purchases of property and equipment of \$43.0 million during the period. For the full year 2018, we expect our total capital expenditures to be between \$75.0 million and \$80.0 million. This estimate includes expenditures associated with planned consolidation of our corporate headquarters facility in Morrisville, North Carolina, as well as expenditures related to our site in Farnborough, United Kingdom which replaced our Camberley, United Kingdom location. These moves are expected to be completed by early 2019, which coincides with the expiration of our existing leases.

For the nine months ended September 30, 2017, we used \$1.7 billion in cash for investing activities. In particular, as part of the Merger consideration and on behalf of inVentiv, we repaid \$1.7 billion of inVentiv's outstanding long term debt obligations and associated accrued interest. This cash outflow was partially offset by \$57.3 million of cash acquired as part of the Merger. In addition, our capital expenditures related to purchases of property and equipment used \$28.2 million of cash during the period.

Cash Flows from Financing Activities

For the nine months ended September 30, 2018, our financing activities used \$246.7 million in cash, consisting primarily of: (i) repayments of long-term debt of \$354.4 million, including voluntary prepayments of \$299.0 million against the principal balance of our Term Loan B and \$36.6 million used to repay the debt obligations assumed in the acquisition of Kinapse; (ii) payments of \$75.0 million for the repurchase of our common stock under the 2018 repurchase program; and (iii) repayments of capital lease obligations of \$12.7 million. These payments were partially offset by proceeds of: (i) \$183.6 million from our accounts receivable financing agreement; and (ii) \$18.0 million received from the exercise of stock options.

For the nine months ended September 30, 2017, our financing activities provided \$1.8 billion in cash, consisting primarily of: (i) net proceeds of \$2.1 billion from the issuance of long-term debt under our 2017 Credit Agreement; and (ii) proceeds of \$17.0 million from the exercise of stock options. These cash inflows were partially offset by: (i) partial redemption of the Senior Notes assumed in the Merger and payment of the associated early redemption penalty totaling \$290.3 million; and (ii) net repayments of \$25.0 million under our revolving line of credit.

Table of Contents

Contractual Obligations and Commitments

We do not have any off-balance sheet arrangements except for operating leases entered into in the normal course of business. There have been no material changes, outside of the ordinary course of business, to our contractual obligations as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities, revenues, and expenses during the period, as well as disclosures of contingent assets and liabilities at the date of the financial statements. We evaluate our estimates on an ongoing basis, including those related to revenue recognition, share-based compensation, valuation of goodwill and identifiable intangibles, tax-related contingencies and valuation allowances, allowance for doubtful accounts, and litigation contingencies, among others. These estimates are based on the information available to management at the time these estimates, judgments and assumptions are made. Actual results may differ materially from these estimates. The following policies have been updated as a result of the adoption Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (“ASC 606”). For additional information on all of our critical accounting policies and estimates, refer to Part II - Item 7 - Management’s Discussion and Analysis included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Revenue Recognition

We adopted the ASC 606 - Revenue from Contracts with Customers and all the related amendments (“new revenue standard” or “ASC 606”) on January 1, 2018 using the modified retrospective method for all contracts not completed as of the date of adoption. Our reported results for the three and nine months ended September 30, 2018 reflect the application of ASC 606, while the reported results for the three and nine months ended September 30, 2017 were prepared under ASC 605 - Revenue Recognition and other authoritative guidance in effect for this period. In accordance with ASC 606, revenue is now recognized when, or as, a customer obtains control of promised services. The amount of revenue recognized reflects the consideration to which we expect to be entitled to receive in exchange for these services.

A performance obligation is a promise (or a combination of promises) in a contract to transfer distinct goods or services to a customer and is the unit of accounting under ASC 606 for the purposes of revenue recognition. A contract’s transaction price is allocated to each separate performance obligation based upon the standalone selling price and is recognized as revenue, when, or as, the performance obligation is satisfied. The majority of our contracts have a single performance obligation because the promise to transfer individual services is not separately identifiable from other promises in the contracts, and therefore, is not distinct. For contracts with multiple performance obligations, the contract’s transaction price is allocated to each performance obligation using the best estimate of the standalone selling price of each distinct good or service in the contract.

The majority of our revenue arrangements are service contracts that range in duration from a few months to several years. Substantially all of our performance obligations, and associated revenue, are transferred to the customer over time. We generally receive compensation based on measuring progress toward completion using anticipated project budgets for direct labor and prices for each service offering. We are also reimbursed for certain third-party pass-through and out-of-pocket costs. In addition, in certain instances a customer contract may include forms of variable consideration such as incentive fees, volume rebates or other provisions that can increase or decrease the transaction price. This variable consideration is generally awarded upon achievement of certain performance metrics, program milestones or cost targets. For the purposes of revenue recognition, variable consideration is assessed on a contract-by-contract basis and the amount to be recorded is estimated based on the assessment of our anticipated performance and consideration of all information that is reasonably available. Variable consideration is recognized as revenue if and when it is deemed probable that a significant reversal in the

Table of Contents

amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved in the future.

Most of our contracts can be terminated by the customer without cause with a 30-day notice. In the event of termination, our contracts generally provide that the customer pay us for fees earned through the termination date; fees and expenses for winding down the project, which include both fees incurred and actual expenses; non-cancellable expenditures; and in some cases, a fee to cover a portion of the remaining professional fees on the project. Our long term clinical trial contracts contain implied substantive termination penalties because of the significant wind-down cost of terminating a clinical trial. These provisions for termination penalties result in these types of contracts being treated as long term for revenue recognition purposes.

Changes in the scope of work are common, especially under long-term contracts, and generally result in a renegotiation of future contract pricing terms and change in contract transaction price. If the customer does not agree to a contract modification, we could bear the risk of cost overruns. Most of our contract modifications are for services that are not distinct from the services under the existing contract due to the significant integration service provided in the context of the contract and therefore result in a cumulative catch-up adjustment to revenue at the date of contract modification.

Contract Assets and Liabilities

Contract assets include unbilled amounts typically resulting from revenue recognized in excess of the amounts billed to the customer for which the right to payment is subject to factors other than the passage of time. These amounts may not exceed their net realizable value. Contract assets are generally classified as current. Contract liabilities consist of customer payments received in advance of performance and billings in excess of revenue recognized, net of revenue recognized from the balance at the beginning of the period. Contract assets and liabilities are presented on the balance sheet net on a contract-by-contract basis at the end of each reporting period.

Recently Issued Accounting Standards

For a description of recently issued accounting pronouncements, including the expected dates of adoption and the estimated effects, if any, on our unaudited condensed consolidated financial statements, refer to “Note 1 - Basis of Presentation and Changes in Significant Accounting Policies to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to our quantitative and qualitative disclosures about market risk as compared to the quantitative and qualitative disclosures about market risk described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Table of Contents

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our CEO and CFO, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our CEO and CFO have concluded that as of such date, our disclosure controls and procedures were effective.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Changes in Internal Controls

As previously noted, we completed the Merger with inVentiv during the third quarter of 2017. Management considers this transaction to be material to our consolidated financial statements and believes that the internal controls and procedures of inVentiv have a material effect on our internal control over financial reporting. We are currently in the process of incorporating the internal controls and procedures of inVentiv into our internal controls over financial reporting and extending our Section 404 compliance program under the Sarbanes-Oxley Act of 2002 and the applicable rules and regulations under such Act to include inVentiv. We will report on our assessment of the consolidated operations within the time period provided by the Act and the applicable SEC rules and regulations concerning business combinations, which is the annual management report for the fiscal year ending December 31, 2018.

During the third quarter of 2018, we implemented an enterprise resource planning (“ERP”) system for several subsidiaries in our Commercial Solutions segment as part of our multi-year implementation plan. We expect that the ERP system will enhance the overall system of internal controls over financial reporting through further automation and business process integration.

There have been no changes, except as otherwise described above, in our internal control over financial reporting identified in management’s evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the period covered by this Quarterly Report on Form 10-Q that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are party to legal proceedings incidental to our business. While our management currently believes the ultimate outcome of these proceedings, individually and in the aggregate, will not have a material effect on our unaudited condensed consolidated financial statements, litigation is subject to inherent uncertainties. Were an unfavorable ruling to occur, there exists the possibility of a material adverse impact on our financial condition and results of operations. On December 1, 2017, the first of two virtually identical actions alleging federal securities law claims was filed against us and certain of our officers on behalf of a putative class of our shareholders. The first action, captioned *Bermudez v. INC Research, Inc., et al*, No. 17-09457 (S.D.N.Y.), names as defendants us, Michael Bell, Alistair MacDonald, Michael Gilbertini, and Gregory S. Rush, and the second action, *Vaitkuvienė v. Syneos Health, Inc., et al*, No. 18-0029 (E.D.N.C.), filed on January 25, 2018, names as defendants us, Alistair MacDonald, and Gregory S. Rush. Both complaints allege similar claims under Section 10(b) and Section 20(a) of the Securities Exchange Act of 1934 on behalf of a putative class of purchasers of our common stock between May 10, 2017 and November 8, 2017 (Vaitkuvienė action) and November 9, 2017 (Bermudez action). The complaints allege that we published inaccurate or incomplete information regarding, among other things, the financial performance and business outlook for inVentiv's business prior to the Merger and with respect to the combined company following the Merger. On January 30, 2018, two alleged shareholders of ours filed motions both seeking to be appointed lead plaintiff and approving the selection of lead counsel. These motions remain pending. On March 30, 2018, Plaintiff Bermudez filed a notice of voluntary dismissal of the Bermudez action, without prejudice, and as to all defendants. On May 29, 2018, the Court in the Vaitkuvienė action appointed the San Antonio Fire & Police Pension Fund and El Paso Firemen & Policemen's Pension Fund as Lead Plaintiffs and, on June 7, 2018, the Court entered a schedule providing for, among other things, Lead Plaintiffs to file an amended complaint by July 23, 2018 (later extended to July 30, 2018). Lead Plaintiffs filed their amended complaint on July 30, 2018, which also includes a claim against the same defendants listed above, as well as each member of the board of directors at the time of the INC Research - inVentiv Health merger vote in July 2017, contending that the inVentiv merger proxy was misleading under Section 14(a) of the Act. Defendants filed a Motion to Dismiss Plaintiffs' Amended Complaint on September 20, 2018. We and the other defendants deny the allegations in these complaints and intend to defend vigorously against these claims.

Item 1A. Risk Factors.

There have been no significant changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017. Refer to "Risk Factors" in Part 1, Item 1A of that report for a detailed discussion of risk factors affecting the Company.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities.

Recent Sales of Unregistered Securities

Not applicable.

Use of Proceeds from Registered Securities

Not applicable.

Purchases of Equity Securities by the Issuer

On February 26, 2018, the Board authorized the repurchase of up to an aggregate of \$250.0 million of our common stock, par value \$0.01 per share, from time to time in open market transactions effected through a broker at prevailing market prices, in block trades, or privately negotiated transactions. The stock repurchase program commenced on March 1, 2018 and will end no later than December 31, 2019. We intend to use cash on hand and future free cash flow to fund the stock repurchase program. The stock repurchase program does not obligate us to repurchase any particular amount of our common stock, and may be modified, extended, suspended or discontinued at any time. The timing and amount of repurchases is determined by our management based on a variety of factors such as the market price of our common stock, our corporate requirements, and overall market conditions. The stock repurchase program is subject to applicable legal requirements, including federal and state securities laws. We may also repurchase shares of our common stock pursuant to a trading plan meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, which would permit shares of our common stock to be repurchased when we might otherwise be precluded from doing so by law.

In March 2018, we repurchased 948,100 shares of our common stock in open market transactions at an average price of \$39.55 per share, resulting in a total purchase price of approximately \$37.5 million. In April 2018, we repurchased 1,024,400 shares of our common stock in open market transactions at an average price of \$36.60 per share, resulting in a total purchase price of approximately \$37.5 million. As of September 30, 2018, we have remaining authorization to repurchase up to approximately \$175.0 million of shares of our common stock under the stock repurchase program. There were no share repurchases under the stock repurchase program for the three months ended September 30, 2018.
