The Compensation and Human Resources Committee
of the Board of Directors
1st Source Corporation

We have audited the accompanying statements of net assets available for benefits of 1st Source Corporation Employees' Stock Ownership and Profit Sharing Plan as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2008 and 2007, and the changes in its net assets available for benefits for the year ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2008, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

1st Source Corporation
Employees' Stock Ownership and Profit Sharing Plan

Notes to Financial Statements

December 31, 2008

1. Description of the Plan

General

The 1st Source Corporation Employees' Stock Ownership and Profit Sharing Plan (the Plan) is a defined-contribution plan covering substantially all employees of 1st Source Corporation (1st Source) and its subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 1, 2007, the Trustcorp Mortgage Company Employee Retirement Savings Plan was merged into the Plan.

Effective January 1, 2008, the First National Bank, Valparaiso Employees' Retirement and Savings Investment Plan (FNBV) was merged into the Plan. Employer contributions of \$142,412 and employee contributions of \$8,385 (shown as receivables to the FNBV plan as of December 31, 2007) were made to the Plan in 2008 and are reflected as employer contributions and employee contributions in the Statement of Changes in Net Assets Available for Benefits.

Contributions and Vesting

Participants are permitted to designate up to \$15,500 or 100% of their annual pretax compensation, as defined by IRS limits, as a salary reduction contribution to the Plan. In addition, participants age 50 or older may elect to defer up to an additional \$5,000 in 2008 and 2007, called catch-up contributions to the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 11 different fund options, one of which is the 1st Source Stock Fund, which primarily consists of 1st Source common stock.

The Plan provides for the following 1st Source contributions:

Matching contribution – amount is discretionary but may not exceed 100% of the first 4% of a participant's compensation contributed to the Plan and 50% of the next 2% of a participant's compensation contributed to the Plan.

Fixed profit sharing contribution – equals 2% of each eligible participant's annual compensation.

Discretionary profit sharing contribution – amount is discretionary as determined annually by the Board of Directors.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Regular contribution – amount is discretionary as determined annually by the Board of Directors.

All 1st Source contributions may be made in either cash or shares of 1st Source common stock. Cash contributions are invested in a diversified portfolio of funds as directed by the 1st Source Retirement Plan Committee. All contributions were made in cash in 2008 and 2007.

The Plan provides participants with an ESOP account and a 401(k) account. The ESOP account is made up of participant and 1st Source contributions invested in 1st Source common stock and cash not yet invested in common stock. The 401(k) account consists of participant and 1st Source contributions not invested in 1st Source common stock, including amounts previously included in the ESOP account a participant elects to diversify. Participants may elect to have dividends paid on the 1st Source common stock held in their ESOP account either paid in cash or remain in the Plan and be reinvested in additional shares of 1st Source common stock.

Vesting of participant contributions is immediate upon contribution to the Plan. Vesting of 1st Source employer contributions, including matching, fixed profit sharing, discretionary profit sharing and regular, is based on years of credited service. A participant is 100% vested after five years of credited service or upon reaching early retirement age, normal retirement age, or disability.

Forfeitures of nonvested terminated participants' accounts are used to pay plan expenses and offset employer contributions. The forfeiture balance was \$92,116 for 2008.

Each participant's account is credited with the participant's contribution and an allocation of: (a) 1st Source's contribution, and (b) the Plan's earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Participant Loans

Participants may borrow from the Plan amounts not to exceed the lesser of one-half of the participant's vested balance from his or her 401(k) account or \$50,000. The loans are collateralized by the participant's vested account balance and bear interest at fixed rates of 1% above 1st Source Bank's (a wholly owned subsidiary of 1st Source) prime rate. The loans are repayable over five years except for loans used to acquire or construct a participant's principal residence, in which case the repayment term may exceed five years.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service, a participant generally receives a lump-sum amount equal to the value of his or her vested account balance. Benefits of money purchase account amounts are subject to joint and survivor and qualified preretirement survivor annuity requirements.

Plan Termination

Although it has not expressed any intention to do so, 1st Source has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

The foregoing description of the Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. Copies are available from the 1st Source Human Resources Division.

2. Summary of Significant Accounting Policies

Investment Valuation

Investments are stated at fair value. Securities traded on a national securities exchange, securities traded in the over-the-counter market and listed securities are valued on a daily basis at the last reported closing price. The fair value of mutual funds is stated at the net asset value as reported by the funds on the last business day of the plan year. Since there are no quoted prices in the market place for traditional and variable rate guaranteed investment contracts, the present value technique is used to calculate the fair value of these contracts (i.e. fair value being the sum of present values of all the future cash flows for the contract using current rates and considering the likelihood of default). Loans to participants are stated at cost, which approximates fair value.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), which is effective for financial statements issued for fiscal years beginning after November 15, 2007. This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. FAS 157 clarifies how restrictions on the sale or use of an asset should be considered in determining fair value. To the extent that a legal or contractual restriction is

2. Summary of Significant Accounting Policies (continued)

specific to (and an attribute of) the security and, therefore, would transfer with the security upon sale to another market participant, then, in accordance with FAS 157, it would be appropriate to consider such restriction in the determination of fair value of the security. This requirement of FAS 157 is to be applied prospectively in the year of adoption. Effective January 1, 2008, the Plan adopted FAS 157.

The hierarchy established under FAS 157 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by FAS 157, the Plan's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement.

The three levels of the fair value hierarchy under FAS 157, and its applicability to the Plan's investments, are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.

Level 3 – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private portfolio investments that are supported by little or no market activity.

The 1st Source Bank Guaranteed Income Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statement of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The financial statements of the Plan are presented on the accrual basis and are prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions that affect amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

During 2008, the Plan's investments (including investments purchased, sold, as well as held during the year) (depreciated)/appreciated in value as follows:

	Year Ended December 31 2008

Wasatch-1st Source Long/Short Fund*	–	3,301,933

*Pursuant to the Purchase and Sale Agreement, in December 2008, WA Holdings, Inc. and its wholly owned subsidiary, Wasatch Advisors, Inc., investment advisor of the Wasatch Funds, Inc., acquired assets of 1st Source Investment Advisors, Inc. related to the management of the 1st Source Monogram Mutual Funds- the Income Equity Fund, the Long/Short Fund and the Income Fund. The 1st Source Monogram Mutual Funds were reorganized into the Wasatch-1st Source Income Equity Fund, the Wasatch-1st Source Long/Short Fund, and the Wasatch-1st Source Income Fund.

All expenses incurred in administration of the Plan are paid by 1st Source.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 24, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is likely that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
