PROXY STATEMENT

This proxy statement is furnished by the Board of Directors of Whitman Education Group, Inc., a Florida corporation (the "Company"), in connection with the solicitation of proxies by the Company for use at the annual meeting of shareholders to be held at 10:00 a.m. local time on August 9, 2001 (the "Annual Meeting"), at the Company's executive offices located at 4400 Biscayne Boulevard, 14th Floor, Miami, Florida 33137, and at any adjournments thereof. Mailing of the proxy statement and the accompanying proxy card to shareholders will commence on or about July 6, 2001.

Record holders of the Company's Common Stock, no par value per share (the "Common Stock"), at the close of business on June 29, 2001 (the "Record Date") are entitled to one vote for each share held on all matters to be considered at the Annual Meeting. On the Record Date, 13,664,631 shares of Common Stock were outstanding and entitled to vote.

VOTING

All properly executed proxies delivered and not revoked will be voted in accordance with the directions given and, in connection with any other business

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

that may properly come before the Annual Meeting, in the discretion of the persons named in the proxy. With respect to the proposal to elect nine directors to serve until the 2002 annual meeting, shareholders may vote in favor of all nominees or withhold their votes as to all or any specific nominees. Shareholders should specify their choices on the enclosed proxy card. If no specific instructions are given, the shares represented by the proxy will be voted FOR the election of all directors and FOR the increase in the number of shares of Common Stock reserved for issuance under the 1996 Whitman Education Group, Inc. Stock Option Plan (the "1996 Plan") from 2,500,000 to 3,250,000.

A proxy delivered pursuant to this solicitation is revocable at any time prior to its exercise by giving written notice to the Secretary of the Company, by delivering a later-dated proxy, or by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not, in itself, constitute revocation of a proxy.

A majority of the outstanding shares of Common Stock, represented in person or by proxy, constitutes a quorum for transaction of business at the Annual Meeting. The election of directors will require the affirmative vote of a plurality of the shares of Common Stock voting in person or by proxy at the Annual Meeting. The increase in the number of shares of Common Stock reserved for issuance under the 1996 Plan will be approved if the number of votes cast in favor of the proposal is greater than the number of votes cast against it. Votes that are withheld and broker non-votes, relating to shares as to which a broker or nominee indicates that it does not have discretionary authority to vote on a proposal, will not affect the outcome of the election of directors or the approval of the increase in the number of shares of Common Stock reserved for issuance under the 1996 Plan.

COSTS AND MANNER OF SOLICITATION

The Company will bear the costs of solicitation of proxies from its shareholders. Solicitation of proxies may be made in person, by mail or by telephone by officers, directors and employees of the Company who will not be specially compensated in such regard. Nominees, fiduciaries and other custodians will be requested to forward solicitation materials to the beneficial owners and secure their voting instructions, if necessary, and will be reimbursed for the reasonable expenses incurred in sending proxy materials to the beneficial owners.

PERFORMANCE GRAPH

The graph and table set forth below compares the cumulative total shareholder return on the Common Stock for fiscal 1997 through fiscal 2001 with the S&P 500 Index and an industry peer group index for the same period. The industry peer group index is comprised of the following companies, each of which was selected on the basis of the similarity of its business with that of the Company: Apollo Group, Inc., Argosy Education Group, Inc., Career Education Corp., Corinthian Colleges, Inc., DeVry, Inc., Education Management Corp, ITT Educational Services, Inc., and Strayer Education, Inc. (the "Industry Group"). We believe that the Industry Group represents a significant portion of the market value of publicly traded companies whose primary business is postsecondary education. The number of publicly traded companies involved in education has increased over the past few years, making the composition of the Industry Group more representative of our industry than the peer issuers previously included in our industry group index. The Industry Group includes all of the peer issuers in the industry group used for former periods, except that Argosy Education Group, Inc., Career Education Corp. and Corinthian Colleges, Inc. have been added to replace Computer Learning Centers, Inc. and Quest Education Corporation, which are no longer publicly traded companies (the "Former Industry Group"). The graph and table assume an investment of \$100 in the Common Stock and each index on March 29, 1996 (the last trading day in fiscal 1996), and the reinvestment of all dividends.

TO THE COMPANY'S SHAREHOLDERS:

The Compensation Committee of the Company's Board of Directors, which is composed of three non-employee directors, is charged with reviewing the compensation of the Chief Executive Officer of the Company and making recommendations with respect thereto to the Board of Directors. The Compensation Committee also reviews and approves the compensation of the other executive officers. The Committee's compensation policies are based on a desire to enhance long-term shareholder value. To achieve this goal, the Committee recognizes that it must adopt compensation policies which will attract, retain and motivate qualified and experienced executive officers. In attracting and retaining executives, the Committee recognizes that the Company must compete for the services of executives with many other companies which possess significantly greater financial resources than the Company and have available more comprehensive compensation plans and arrangements than are presently utilized by the Company. To adequately motivate executives in view of the goal of enhancing shareholder value, the Committee recognizes that it must design compensation policies which align the financial interests of the Company's executive officers with those of its shareholders.

In light of these factors, the Committee believes that the best manner presently available to the Company to attract, retain and motivate talented executives is through the award of significant long-term compensation in the

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

form of stock options at the time the executive joins the Company and periodically thereafter. The Compensation Committee believes that providing executives with opportunities to acquire significant stakes in the growth and prosperity of the Company through the grant of stock options will enable the Company to attract and retain qualified and experienced executive officers. In addition, the Compensation Committee believes that this approach to compensation creates an entrepreneurial atmosphere which motivates executives to perform to their full potential. The Compensation Committee believes that dependence on stock options for a significant portion of executive compensation more closely aligns the executives' interests with those of the Company's shareholders, since the ultimate value of such compensation is directly dependent on the stock price.

Accordingly, the Compensation Committee designs the compensation of executive officers to consist of a reasonable annual salary with long-term compensation in the form of stock options. The Compensation Committee has also approved an incentive bonus plan for all employees of the Company with bonus potential dependent upon the financial performance of the Company as a whole, the financial performance of an employee's school or division and the discretionary evaluation of each employee's performance during the fiscal year.

11

Executive Officers (other than the Chief Executive Officer). The Chief Executive Officer, with the assistance of other executive officers, makes salary recommendations to the Compensation Committee for the executive officers of the Company other than the Chief Executive Officer. Such recommendations are reviewed and approved by the Compensation Committee with any modifications deemed appropriate. In reviewing and approving salary recommendations, the Compensation Committee considers several factors, including individual performance, the executive's responsibilities, compensation offered by competitors, the cost of living, and the financial performance of the Company. The Company has not, however, established specific performance goals or tied executive compensation to the achievement of specific performance goals. The compensation determination is largely subjective, and no specific weight is given to any particular factor. For fiscal 2002, after discussions with Mr. Pfenniger, a review of the performance of the executive officers and considering the Company's fiscal 2001 financial performance, the Compensation Committee decided not to make any increases to the base salaries of the executive officers. The Compensation Committee may, in certain circumstances, recommend that a cash bonus be paid to executives whose individual performance during a particular year was outstanding. The amount of any bonus is based upon the recommendation of the Chief Executive Officer. No cash bonuses were paid to executive officers for fiscal 2001.

Stock options represent a significant portion of total compensation for the Company's executive officers. Options are generally awarded to executive officers at the time that they join the Company and periodically thereafter. Stock options are granted at the prevailing market price on the date of grant, and will only have value if the value of the Company's stock price increases from that date. Generally, grants vest in equal amounts over a four-year period and have seven-year terms. Executives generally must be employed by the Company at the time of vesting in order to exercise the options. Grants of stock options to executive officers are generally made upon the recommendation of the Chief Executive Officer based on the level of the executive's position with the Company, an evaluation of the executive's past and expected performance, the number of outstanding and previously granted options, and discussions with the executive. The determination of the timing and number of stock options granted to the executive officers is made by the Compensation Committee on a subjective basis, with no specific weight given to any particular factor. While the Company's executive officers each hold options to acquire the Company's stock as

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

indicated under the "Executive Compensation", no additional options were granted to the executive officers related to their fiscal 2001 performance.

Chief Executive Officer. For the past fiscal year, Mr. Pfenniger's base salary was set at \$291,000. After discussions with Mr. Pfenniger, a review of his past performance and in light of the Company's fiscal 2001 financial performance, it was decided not to increase his base salary for fiscal 2002. The determination of Mr. Pfenniger's compensation package was subjective, with no specific weight given to any particular factor. Mr. Pfenniger's compensation package was reviewed by the Board of Directors who believe that the compensation is fair and reasonable in light of the factors considered by the Compensation Committee. No performance bonus award was made and no additional stock options were granted to Mr. Pfenniger for fiscal 2001.

Tax Matters. Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a deduction for federal income tax purposes to public companies for compensation over \$1 million paid in any taxable year to the Company's Chief Executive Officer or to any of the four other most highly compensated executive officers of the Company. Qualifying performance-based compensation is not subject to the limitation if certain requirements are satisfied. Based upon applicable regulations, the Company believes that compensation expenses relating to options granted under its stock option plans will not be subject to the Section 162(m) limitations.

The Compensation Committee continually evaluates the Company's compensation policies and procedures with respect to its executive officers in light of the overall financial performance of the Company and its effect on shareholder value.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal 2001, the following directors served on the Compensation Committee of the Board of Directors: Dr. Frost, Mr. Flanzraich and Dr. Krasno. No person serving as a member of the Committee during fiscal 2001 was an executive officer of the Company at the time of service on the Committee, and no interlocking relationships exist between such persons and any director or executive officer of the Company.

AMENDMENT TO THE COMPANY'S 1996 STOCK OPTION PLAN
(Item No. 2)

DESCRIPTION OF THE 1996 PLAN

The 1996 Plan was adopted by the Board of Directors on July 31, 1996 and approved by the shareholders of the Company on October 11, 1996. The purpose of the 1996 Plan is to provide the Company with an effective means to attract and retain highly qualified personnel as well as to provide additional incentive to employees and others who provide services to the Company and who can contribute significantly to the Company's success.

The Company intends that options granted under the 1996 Plan qualify for an exception to the disallowance rule of Section 162(m) of the Internal Revenue Code (the "Code"). An aggregate of 2,500,000 shares of Common Stock are presently available for issuance under the 1996 Plan, of which approximately 35,000 remain available for grant. If the proposal to increase the number of

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

shares available for grant and/or the 1996 Plan is approved that number will be increased to 3,250,000. No employee may receive stock options under the 1996 Plan in any given year to purchase a number of shares greater than one percent of the number of shares of Common Stock outstanding as of the date the 1996 Plan was adopted. If a stock option expires, terminates or becomes unexercisable for any reason without being exercised in full, the unpurchased shares which were subject to such stock option shall be available for further grant under the 1996 Plan. No options may be granted under the 1996 Plan after July 25, 2006.

The 1996 Plan is administered by the Compensation Committee of the Board of Directors (the "Committee"), which, under the terms of the 1996 Plan, must consist of at least two directors who are "outside directors" as defined for purposes of Section 162(m) of the Code. The Committee has the authority to interpret the provisions of the 1996 Plan and to make all determinations deemed necessary or advisable for its administration.

The 1996 Plan provides for the issuance of options intended to be incentive stock options within the meaning of Section 422 of the Code and non-qualified stock options not intended to meet the requirements of Section 422 of the Code. Incentive stock options may be granted only to employees of the Company and its subsidiaries, and non-qualified options may be granted to employees, directors, independent contractors and agents of the Company and its subsidiaries. Subject to the provisions of the 1996 Plan, the Committee determines the persons to whom grants are made and the vesting, timing, amounts and other terms of such grants. Incentive stock options which first become exercisable in any calendar year for shares with a fair market value on the date of grant in excess of \$100,000 are treated as non-qualified stock options to the extent of such excess.

13

The exercise price of options may not be less than the fair market value of the Common Stock on the date of grant, except with respect to substitute options issued in connection with certain corporate transactions and except that the exercise price of any incentive stock option granted to the holder of more than 10% of the outstanding Common Stock may not be less than 110% of the fair market value of the Common Stock on the date of grant. The term of each option may not exceed ten years, except the term of any incentive stock option granted to a holder of more than 10% of the outstanding Common Stock may not exceed five years. The option price may be paid in cash or by check or such other consideration as the Committee shall determine. In general, all outstanding options granted to an employee terminate twelve months after the optionee ceases to be an employee, except that such options terminate (i) immediately (unless otherwise determined by the Committee) if the optionee's employment is terminated for deliberate, willful or gross misconduct and (ii) 36 months after retirement. Options granted under the 1996 Plan are not assignable or transferable other than by will or by the laws of descent and distribution, or, in the case of non-qualified stock options, pursuant to a qualified domestic relations order, and, during the optionee's lifetime, the options may be exercised only by the optionee.

The 1996 Plan provides for an automatic grant of non-qualified stock options to acquire 7,500 shares of Common Stock to non-employee directors of the Company and 37,500 shares to the Chairman of the Board of Directors each year on the first business day following the Company's annual meeting of shareholders. The exercise price of such options is equal to the fair market value of the Common Stock on the date of the grant, and such options have a term of ten years. Additionally, on August 4, 2000, the Committee approved a grant of options to purchase 20,000 shares at a price of \$2.25 per share to Dr. Borsting in connection with the appointment to Vice Chairman of the Board. On February 2,

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

2001 the Committee also approved a special one-time grant of options to purchase 20,000 shares of Common Stock at a price of \$2.75 per share to each of the Company's non-employee directors.

The number of shares of Common Stock covered by outstanding options, the number of shares of Common Stock available for issuance under the 1996 Plan, the number of shares of Common Stock to be granted to non-employee directors, the maximum number of shares of Common Stock with respect to which options may be granted to any employee in any given year, and the exercise price per share of outstanding options, are proportionately adjusted for any increase or decrease in the number of issued shares of Common Stock resulting from a stock split or stock dividend.

The Committee may amend or terminate the 1996 Plan, except that shareholder approval is required to increase the number of shares of Common Stock subject to the 1996 Plan, to change the class of persons eligible to participate in the 1996 Plan, to materially increase the benefits accruing to participants under the 1996 Plan, or to increase the maximum number of shares of Common Stock with respect to which options may be granted to any employee in any year. No amendment or termination of the 1996 Plan will affect previously granted awards without the optionee's consent unless the Committee determines that such amendment is in the best interest of the shareholders or optionees.

All employees, directors, independent contractors and agents of the Company are eligible to receive stock options under the 1996 Plan. As of June 15, 2001, the Company had eight non-employee directors and approximately 675 full-time employees.

14

OPTIONS GRANTED UNDER THE 1996 PLAN

As of June 15, 2001, options to purchase approximately 2,459,575 shares of Common Stock were outstanding under the 1996 Plan at exercise prices ranging from \$1.50 to \$8.625 per share (in each case equal to the fair market value of the Common Stock as of the dates of grant), and options to purchase approximately 1,712,595 shares of Common Stock were exercisable at prices ranging from \$1.50 to \$8.625 per share. Except for options granted under the 1996 Plan to non-employee directors, which have a ten year term and vest immediately, and options granted to independent contractors and agents of the Company and its subsidiaries, which have different vesting schedules, all options granted under the 1996 Plan have terms of seven years and vest in equal portions over four years. As of June 15 2001, the closing price of the Common Stock as reported on the American Stock Exchange composite tape was \$2.60.

As described below, the Committee has discretion to determine the persons to whom grants of options are to be made, the number of options to be granted and the terms and conditions of any grant. Accordingly, except for the automatic grants to non-employee directors of the Company, it is not possible to identify the persons who will receive options under the 1996 Plan, the actual number of options to be granted to any individual under the 1996 Plan, or the terms and conditions of any option to be granted.

The table below indicates, as of June 15, 2001, the aggregate number of options granted under the 1996 Plan since its inception to the persons and groups indicated (all of which remain outstanding).

FEDERAL INCOME TAX CONSEQUENCES

The following summary is for general information only and is not a comprehensive analysis of applicable federal income tax laws. This discussion is based on the Code and other relevant authority in effect as of the date of this proxy statement. This summary does not discuss all aspects of federal income taxation that may be relevant to the 1996 Plan or any particular participant in light of his or her own circumstances. Furthermore, no information is provided with respect to tax consequences under foreign, state or local laws. This discussion is not intended as a substitute for careful tax planning. The federal income tax laws are complex and individual circumstances may affect their application. In addition, this discussion is only applicable to participants who are subject to the United States federal income tax laws.

FEDERAL INCOME TAX CONSEQUENCES RELATING TO INCENTIVE STOCK OPTIONS.

Certain options granted under the 1996 Plan are intended to qualify as incentive stock options within the meaning of Section 422 of the Code. Set forth below is a general summary of certain of the principal federal income tax consequences to participants and the Company of incentive stock options granted under the 1996 Plan.

15

The grant of an incentive stock option has no immediate federal income tax consequences to the optionee or the Company. The exercise of an incentive stock option while the optionee is an employee or within three months after termination of employment generally has no immediate federal income tax consequences to the optionee or to the Company. The exercise of an incentive stock option will, however, result in an increase in the optionee's alternative minimum taxable income in the year of exercise equal to the excess of the fair market value of the shares at the time of exercise over the exercise price.

In order to obtain incentive stock option treatment for federal income tax purposes upon the subsequent sale (or other disposition) by the optionee of the shares of Common Stock received upon exercise of the option, the sale (or other disposition) must not occur within two years from the date of the grant of the option nor within one year after the date of issuance of such shares upon exercise of the option (the "ISO holding period requirements"). If the ISO holding period requirements are satisfied, on the subsequent sale (or other disposition) by the optionee of the shares of Common Stock received upon the exercise of an option, the optionee generally will recognize capital gain or loss in the amount equal to the difference between the proceeds realized from the sale (or other disposition) and the amount paid as the exercise price of the

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

option. In such a case, the Company is not entitled to a deduction in connection with the grant or exercise of the incentive stock option or the sale of shares acquired pursuant to such exercise. If the optionee holds the shares of Common Stock received upon the exercise of the option for more than 12 months, the maximum rate of tax on any gain is 20%. On the other hand, if the ISO holding period requirements are not satisfied or an optionee exercises an incentive stock option more than three months after termination of employment other than by reason of death or disability of the optionee, on the subsequent sale (or other disposition) by the optionee of the shares of Common Stock received upon the exercise of the option, the optionee generally will recognize ordinary income equal to the excess of the fair market value of the shares on the date of exercise (or the proceeds realized from the sale or other disposition, if less) over the exercise price, and the Company is entitled to a corresponding deduction subject to applicable rules governing deductibility of compensation. If the amount realized upon such a sale or other disposition exceeds the fair market value of the shares on the date of exercise, the excess generally would be treated as capital gain.

The tax basis of the shares of Common Stock received by the optionee upon exercise will be equal to the amount paid as the exercise price plus the amount, if any, recognized as ordinary income by the optionee, and the optionee's holding period will begin on the date the shares are issued to the optionee.

FEDERAL INCOME TAX CONSEQUENCES RELATING TO NONQUALIFIED STOCK OPTIONS.

Certain options granted under the 1996 Plan are not intended to qualify as incentive stock options within the meaning of Section 422 of the Code and are referred to as nonqualified stock options. Set forth below is a general summary of certain of the principal federal income tax consequences to participants and the Company of nonqualified options granted under the 1996 Plan.

The grant of a nonqualified stock option has no immediate federal income tax consequences to the optionee or the Company. Upon the exercise of a nonqualified stock option, the optionee recognizes ordinary income (subject to wage withholding and employment taxes) in an amount equal to the excess of the fair market value of the shares on the date of exercise over the exercise price, and the Company is entitled to a corresponding deduction subject to applicable rules governing deductibility of compensation. The optionee's tax basis in the shares is the exercise price plus the amount of ordinary income recognized by the optionee, and the optionee's holding period will commence on the date the shares are issued to the optionee. Upon a subsequent sale of the shares, any difference between the optionee's tax basis in the shares and the amount realized on the sale generally is treated as capital gain or loss.

16

AMENDMENT TO THE 1996 PLAN AND PURPOSE OF THE AMENDMENT

On June 12, 2001, the Committee approved an amendment to the 1996 Plan, subject to the approval of shareholders, to increase the number of shares issuable pursuant to the Plan to 3,250,000 shares. The purpose for increasing the number of shares available for issuance under the 1996 Plan is to ensure that the Company will continue to be able to grant options as incentives to those individuals upon whose efforts the Company relies for the continued success and development of its business. Without the increase in the number of shares available for issuance under the 1996 Plan, the Company will have approximately 35,000 shares remaining available to be granted under the 1996 Plan.

The Board of Directors recommends that shareholders vote "FOR" the approval

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

of the amendment to the 1996 Plan.

INDEPENDENT AUDITORS

Ernst & Young, LLP, independent public accountants, was appointed by the Board of Directors to audit the Company's financial statements for fiscal 2001. This firm has acted as independent public accountants for the Company since 1992. Representatives of Ernst & Young are expected to attend the Annual Meeting and will have an opportunity to make a statement if they desire and to respond to appropriate questions raised by shareholders.

AUDIT FEES

For fiscal year 2001, the aggregate fees for professional services rendered by Ernst & Young, LLP in connection with their audit of the Company's financial statements and their reviews of the Company's quarterly reports on Form 10-Q were approximately \$142,000.

FINANCIAL INFORMATION SYSTEMS DESIGN AND IMPLEMENTATION FEES

There were no professional services rendered by Ernst & Young, LLP in the year ended March 31, 2001 relating to financial information systems design and implementation.

ALL OTHER FEES

The aggregate fees billed for all other services rendered by Ernst & Young, LLP during the year ended March 31, 2001 were approximately \$73,000, including audit related services of \$63,000 and non-audit services of \$10,000. Audit related services generally include fees for statutory audits, Department of Education compliance audits and Securities and Exchange Commission accounting consultations. Non-audit services include a review of the federal income tax return.

The Company's Audit Committee approves all audit and non-audit services provided by Ernst & Young, LLP and considers whether the provision of non-audit services is compatible with maintaining the auditor's independence.

17

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

To the Company's Shareholders:

The Audit Committee of the Board of Directors is responsible for monitoring the integrity of the Company's financial statements, its system of internal controls and the independence and performance of its independent auditors. The Audit Committee is composed of five non-employee directors and operates under a written charter adopted and approved by the Board of Directors. The Board of Directors, in its business judgment, has determined that each Audit Committee member is "independent" as such term is defined by the American Stock Exchange's listing standards. A copy of the Audit Committee Charter is attached to this Proxy Statement as Appendix A.

The Company's management is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting process, including the system of internal control, and

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

procedures to assure compliance with applicable accounting standards and applicable laws and regulations. The Company's independent auditors are responsible for auditing those financial statements and expressing an opinion as to their conformity with generally accepted accounting principles. Our responsibility is to independently monitor and review these processes. We rely, without independent verification, on the information provided to us and on the representations made by management and the independent auditors. Accordingly, our oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal control and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact "independent."

In this context, we held four meetings during fiscal 2001. The meetings were designed, among other things, to facilitate and encourage communication among the Audit Committee, management, and the Company's independent auditors, Ernst & Young, LLP. We discussed with the Company's independent auditors, with and without management present, the results of their examinations and their evaluations of the Company's internal controls.

We have reviewed and discussed the audited financial statements for the fiscal year ended March 31, 2001 with management and Ernst & Young, as well as the matters required to be discussed with audit committees under generally accepted auditing standards, including, among other things, matters related to the conduct of the audit of the Company's financial statements and the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (Communication with Audit Committees.)

Ernst & Young also provided to us the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and we discussed with the independent auditors their independence from the Company. When considering Ernst & Young's independence, we considered whether their provision of services to the Company beyond those rendered in connection with their audit and review of the Company's financial statements was compatible with maintaining their independence. We also reviewed, among other things, the amount of fees paid to Ernst & Young for their audit and non-audit services.

18

Based on our review and these meetings, discussions and reports, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee Charter, we recommended to the Board of Directors that the Company's audited financial statements for the year ended March 31, 2001 be included in the Company's Annual Report on Form 10-K.

fulfilling their oversight responsibility to the shareholders, relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the annual independent audit of the Company's financial statements, and the legal compliance and ethics programs as established by management and the board. In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, independent auditors, and management of the Company. In discharging its oversight role, the committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and the power to retain outside counsel, or other experts for this purpose.

GOVERNANCE

The audit committee shall maintain complete records of its proceedings. At least fifty percent (50%) of the members of the committee shall be necessary to constitute a quorum for the conduct of business. The affirmative vote of a majority of a quorum shall be necessary to approve any action. As permitted by applicable law, the audit committee may hold meetings by conference call. The audit committee may approve actions by written consent if all of the members of the audit committee execute the consent. The chairman of the audit committee shall be appointed by the board of directors. Notice of meetings of the audit committee shall be in accordance with the notice provision of the bylaws with respect to meetings of the board of directors of the Company.

20

MEETING FREQUENCY

The audit committee shall meet as necessary. Generally, meetings shall be held immediately prior to each regular meeting of the board of directors, or as called by the chief executive officer, the chairman of the audit committee or any two members of the audit committee.

RESPONSIBILITIES AND PROCESSES

The primary responsibility of the audit committee is to oversee the Company's financial reporting process on behalf of the board and report the results of their activities to the board. Management is responsible for preparing the Company's financial statements, and the independent auditors are responsible for auditing those financial statements. The committee in carrying out its responsibilities believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The committee should take the appropriate actions to set the overall corporate "tone" for quality financial reporting, sound business risk practices, and ethical behavior.

The following shall be the principal recurring processes of the audit committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the committee may supplement them as appropriate.

o The committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the board and the audit committee, as representatives of the Company's shareholders. The committee shall have the ultimate authority and responsibility to evaluate and, where appropriate, recommend the replacement of the independent

Edgar Filing: WHITMAN EDUCATION GROUP INC - Form DEF 14A

auditors. The committee shall discuss with the auditors their independence from management and the Company and the matters included in the written disclosure required by the Independence Standards Board. Annually, the committee shall review and recommend to the board the selection of the Company's independent auditors.

o The committee shall discuss with the independent auditors the overall scope and plans for their respective audits including the adequacy of staffing and compensation. Also, the committee shall discuss with management and the independent auditors the adequacy and effectiveness of the accounting and financial controls, including the Company's system to monitor and manage business risk, and legal and ethical compliance programs.

o The committee shall review with management and the independent auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the committee shall discuss the results of the annual audit and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards.
