IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer s account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer s account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser s privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance s Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC s website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC s public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds and Portfolios Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC s website at www.sec.gov.

Eaton Vance Municipal Bond Funds as of March 31, 2010

INVESTMENT UPDATE

Eaton Vance Municipal Bond Funds (the Funds) are closed-end funds traded on the NYSE Amex, which are designed to provide current income exempt from regular federal income tax, federal alternative minimum tax and, in state specific funds, state personal income taxes. On January 29, 2010, shareholders of the Funds approved a modification to each Fund s 80 percent policy to eliminate the requirement to invest primarily in insured municipal obligations and to eliminate Insured from each Fund s name. Under normal market conditions, the Funds are now required to invest at least 80 percent of net assets in municipal obligations rated A or better by Moody s Investors Service, Inc., Standard & Poor s Ratings Group or Fitch Ratings.

Economic and Market Conditions

During the six months ending March 31, 2010, the U.S. economy and the capital markets remained relatively stable, despite continued high unemployment and concerns over the U.S. budget. The economy grew at an annualized rate of 5.7% in the fourth quarter of 2009 and an estimated 3.2% in the first quarter of 2010, according to the U.S. Department of Commerce.

During the six-month period, the municipal bond market s performance was relatively flat, with slightly negative returns in the fourth quarter of 2009 being offset by positive performance of just over 1% in the first quarter of 2010. For the period, the Barclays Capital Municipal Bond Index (the Index) a broad-based index of municipal bonds gained 0.28%. This performance followed one of the best calendar year periods for municipals in many years, however. Moreover, economic fundamentals continued to improve and demand for municipals remained strong. The significant performance disparities among the municipal market s segments, which became historically wide during 2008 and the first three quarters of 2009, began to dissipate during the six-month period. For the first time in almost two years, we witnessed a period in which there were not significant differences in muni performance by maturity, credit quality and sector. In the face of limited tax-exempt supply, due to the success of the Build America Bond program, demand from municipal investors remained positive during the period, though the gusto with which they purchased municipal funds waned from 2009 levels. We believe lighter inflows were likely driven by lower yields, a continuation of credit-related headline noise and investor preparation for tax bills in March and April.

Management Discussion

During the six months ending March 31, 2010, the Funds underperformed their respective benchmark indices at net asset value. Given the combination of our Funds objective of providing tax-exempt income and the municipal yield curve shistorically upward slope, our Funds generally hold longer-maturity bonds relative to the broad market and many of our competitors. Our bias toward long maturities was the basis for much of our significant relative outperformance in the first three quarters of 2009, though it detracted slightly from relative performance during the six-month period.

Management employed leverage in some of the Funds, through which additional exposure to the municipal market was achieved. Leverage has the impact of magnifying a Fund s exposure to its underlying investments in both up and down markets.

As we move ahead, we recognize that many state and local governments face significant budget deficits that are driven primarily by a steep decline in tax revenues. We will continue to monitor any new developments as state and local officials formulate solutions to address these fiscal problems. As in all environments, we maintain our long-term perspective on the markets against the backdrop of relatively short periods of market volatility. We will continue to actively manage the Funds with the same income-focused, relative value approach we have always employed. We believe that this approach, which is based on credit research and decades of experience in the municipal market, will serve municipal investors well over the long term.

Fund shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

¹ It is not possible to invest

directly in an Index. The Indices total returns do not reflect expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Indices.

Past performance is no guarantee of future results.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Funds current or future investments and may change due to active management.

Eaton Vance Municipal Bond Funds as of March 31, 2010

INVESTMENT UPDATE

As of February 19, 2010, Craig R. Brandon became the portfolio manager of Eaton Vance Massachusetts Municipal Bond Fund and Adam A. Weigold became the portfolio manager of Eaton Vance New Jersey Municipal Bond Fund. Mr. Brandon is a Vice President of Eaton Vance and manages other Eaton Vance municipal portfolios. He has been employed by Eaton Vance since 1998. Mr. Weigold is a Vice President of Eaton Vance and manages other Eaton Vance municipal portfolios. He has been employed by Eaton Vance since 1998.

A Note Regarding The Use Of Leverage

The Funds employ leverage through the issuance of Auction Preferred Shares (APS) and for certain funds, the use of residual interest bond (RIB) financing. Each Fund s APS leverage percentage and RIB percentage leverage, if applicable, as of March 31, 2010, is reflected on the Fund-specific pages following this letter. The leverage created by APS and RIB investments provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of the common shares).

See Note 1H to the Financial Statements for more information on RIB investments.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return. Fund performance during certain periods reflects the strong bond market performance and/or the strong performance of bonds held during those periods. This performance is not typical and may not be repeated. Bond values decline as interest rates rise. For performance as of the most recent month end, please refer to www.eatonvance.com.

** APS leverage represents the liquidation value of the Fund s Auction Preferred Shares (APS) outstanding as of 3/31/10 as a

percentage of the Fund s net assets applicable to common shares plus APS and RIB Floating Rate Notes. RIB leverage represents the amount of Floating Rate Notes outstanding as of 3/31/10 as a percentage of the Fund s net assets applicable to common shares plus APS and Floating Rate Notes.

1 Six-month returns are cumulative. Other returns are presented on an average annual basis. Returns are historical and are calculated by determining the percentage change in market price or net asset value (as applicable) with all distributions reinvested. The Fund s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing

perceptions about

the Fund, market conditions, fluctuations in supply and demand for the Fund s shares, or changes in Fund distributions. Performance results reflect the effects of APS outstanding and RIB investments, which are forms of investment leverage. Use of leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares). ² The Fund s market vield is calculated by dividing the last regular dividend per common share in the period (annualized) by the market price at the end of the period. ³ Taxable-equivalent figure assumes a maximum 35.00% federal income tax rate. A lower tax rate would result in a lower tax-equivalent figure. ⁴ It is not possible to invest directly in an Index. The Index s total return does not

reflect the expenses

that would have

been incurred if an

investor

individually

purchased or sold

the securities

represented in the

Index. Index

performance is

available as of

month end only. 5

The Lipper

Averages are the

average annual

total returns, at net

asset value, of the

funds that are in the

same Lipper

Classification as

the Fund. It is not

possible to invest in

a Lipper

Classification.

Lipper

Classifications may

include insured and

uninsured funds, as

well as leveraged

and unleveraged

funds. The Lipper

General Municipal

Debt Funds

(Leveraged)

Classification

(closed-end)

contained 64, 62,

60 and 57 funds for

the 6-month,

1-year, 5-year and

Life-of-Fund

periods,

respectively. Lipper

Averages are

available as of

month end only. 6

Ratings are based

on Moody s, S&P

or Fitch, as

applicable. Credit

ratings are based

largely on the

rating agency s investment analysis at the time of rating and the rating assigned to any particular security is not necessarily a reflection of the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. If securities are rated differently by the rating agencies, the higher rating is applied. 7 Fund holdings information excludes securities held by special purpose vehicles in which the Fund holds a residual interest. See Note 1H to the Fund s financial

statements.

Fund performance during certain periods reflects the strong bond market performance and/or the strong performance of bonds held during those periods. This performance is not typical and may not be repeated. Bond values decline as interest rates rise. For performance as of the most recent month end, please refer to www.eatonvance.com.

- ** APS leverage represents the liquidation value of the Fund s Auction Preferred Shares (APS) outstanding as of 3/31/10 as a percentage of the Fund s net assets applicable to common shares plus APS.
- Six-month returns are cumulative.
 Other returns are presented on an average annual basis. Returns are historical and are calculated by determining the percentage change in market price or net asset value (as applicable) with all distributions reinvested. The

Fund s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund s shares, or changes in Fund distributions. Performance results reflect the effects of APS outstanding, which is a form of investment leverage. Use of leverage creates an opportunity for income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares). ² The Fund s market yield is calculated by dividing the last regular dividend per common share in the period (annualized) by the market price at the end of the period. ³

Taxable-equivalent

figure assumes a

maximum 37.83%

combined federal

and state income

tax rate. A lower

tax rate would

result in a lower

tax-equivalent

figure. ⁴ It is not

possible to invest

directly in an Index.

The Indices total

returns do not

reflect the expenses

that would have

been incurred if an

investor

individually

purchased or sold

the securities

represented in the

Indices. Index

performance is

available as of

month end only. ⁵

The Lipper

Averages are the

average annual

total returns, at net

asset value, of the

funds that are in the

same Lipper

Classification as

the Fund. It is not

possible to invest in

a Lipper

Classification.

Lipper

Classifications may

include insured and

uninsured funds, as

well as leveraged

and unleveraged

funds. The Lipper

Michigan

Municipal Debt

Funds

Classification

(closed-end)

contained 5, 5, 5

and 5 funds for the 6-month, 1-year, 5-year and Life-of-Fund periods, respectively. Lipper Averages are available as of month end only. 6 Ratings are based on Moody s, S&P or Fitch, as applicable. Credit ratings are based largely on the rating agency s investment analysis at the time of rating and the rating assigned to any particular security is not necessarily a reflection of the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. If securities are rated differently by the rating agencies, the higher rating is applied.

Net Assets Applicable to Common Shares 100.0% \$ 120,616,423

The percentage shown for each investment category in the Portfolio of Investments is based on net assets applicable to common shares.

AGC - Assured Guaranty Corp.

AGM - Assured Guaranty Municipal Corp.

AMBAC - AMBAC Financial Group, Inc.

BHAC - Berkshire Hathaway Assurance Corp.

FGIC - Financial Guaranty Insurance Company

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

At March 31, 2010, the concentration of the Fund s investments in the various states, determined as a percentage of total investments, is as follows:

California	15.4%
New York	10.6%
Others, representing less than 10% individually	74.0%

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2010, 87.8% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.2% to 22.6% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.

- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (4) When-issued security.

PORTFOLIO OF INVESTMENTS (Unaudited) CONT D

The percentage shown for each investment category in the Portfolio of Investments is based on net assets applicable to common shares.

AGC - Assured Guaranty Corp.

AGM - Assured Guaranty Municipal Corp.

AMBAC - AMBAC Financial Group, Inc.

BHAC - Berkshire Hathaway Assurance Corp.

FGIC - Financial Guaranty Insurance Company

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2010, 86.6% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.6% to 30.0% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (4) When-issued security.

The Fund invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2010, 83.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.4% to 36.6% of total investments.

(1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2010, 92.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.9% to 32.9% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

(4) When-issued security.

AGC - Assured Guaranty Corp.

AGM - Assured Guaranty Municipal Corp.

AMBAC - AMBAC Financial Group, Inc.

CIFG - CIFG Assurance North America, Inc.

FGIC - Financial Guaranty Insurance Company

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by Ohio municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2010, 84.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.1% to 25.6% of total investments.

- (1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial contracts.
- (2) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at March 31, 2010.
- (3) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be sold in certain transactions and remain exempt from registration, normally to qualified institutional buyers. At March 31, 2010, the aggregate value of these securities is \$463,320 or 1.5% of the Fund s net assets applicable to common shares.

See notes to financial statements

Eaton Vance Ohio Municipal Bond Fund as of March 31, 2010

PORTFOLIO OF INVESTMENTS (Unaudited) CONT D

- (4) Security is subject to a shortfall agreement which may require the Fund to pay amounts to a counterparty in the event of a significant decline in the market value of the security underlying the inverse floater. In case of a shortfall, the maximum potential amount of payments the Fund could ultimately be required to make under the agreement is \$1,320,000. However, such shortfall payment would be reduced by the proceeds from the sale of the security underlying the inverse floater.
- (5) Security represents the underlying municipal bond of an inverse floater (see Note 1H).

CIFG - CIFG Assurance North America, Inc.

FGIC - Financial Guaranty Insurance Company

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by Pennsylvania municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2010, 85.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.5% to 27.2% of total investments.

(1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
