***MGE files application for customer fuel credit***

On February 27, 2006, Madison Gas and Electric Company (MGE) filed an application with the Public Service Commission of Wisconsin (PSCW) requesting a fuel credit for its electric customers as a result of incurring lower actual electric fuel costs than the projected fuel costs in its most recent rate order.

Under the PSCW "fuel rules" that became effective January 1, 2006, MGE can apply for a fuel surcharge if actual electric fuel costs exceed 102% of the electric fuel costs allowed in its latest rate order. Conversely, MGE may have to provide a fuel credit to its customers if actual electric fuel costs are less than 99.5% of the electric fuel costs allowed in that rate order. Based on the results for the month ended January 31, 2006, MGE estimates that actual electric fuel costs will be less than that lower end for 2006. In its application to the PSCW, MGE proposes a fuel credit of \$0.00069 per kilowatt-hour. MGE estimates that this credit, if approved, could result in a reduction to 2006 electric revenues of approximately \$2.0 million.

The application, and any resulting fuel credit, are subject to approval by the PSCW.
